The physical and mechanical properties of wood in relation to its use; methods and apparatus for measurement and testing.  
Mr. Hoadley.

#### 506. WOOD MACHINING TECHNOLOGY.

Fundamentals of cutting action as applied to wood; survey of commercial wood-machining equipment and processes.  
Prerequisites, Wood Tech 501 and 504, or permission of instructor.  
Mr. Rice.

#### 508. WOOD SEASONING AND PRESERVATION.

Wood-liquid relationships and the processes used to dry wood and/or impregnate it with preservatives.  
Mr. Rice.

#### 511. WOOD ADHESIVE TECHNOLOGY.

Basic concepts, theories, and the applied techniques of gluing wood and fibrous composites.  
Prerequisites, Wood Tech 501, 504, and organic chemistry; or permission of instructor.  
Mr. Marra.

#### 538. WOOD CHEMISTRY.

Introduction to the chemistry and surface phenomena of the principal products found in wood.  
Prerequisite, organic chemistry.  
Mr. Marra.

## French

### GRADUATE FACULTY

MICHELINE DUFAU, *Professor of French and Chairman of the Department of French and Italian*, B.ès-L., Paris, 1945; B.S., New York University, 1951; Ph.D., 1960.

DENNIS D. PORTER, *Associate Professor and Graduate Program Director*, B.A., Cambridge, 1957; Ph.D., California at Berkeley, 1966.

JOHN P. BERWALD, *Assistant Professor and Director of the M.A.T. Program in French*, B.A., Michigan, 1956; M.A., Middlebury, 1964; Ph.D., Ohio State, 1971.

JEANNETTE D. BRAGGER, *Assistant Professor*, B.A. California at Santa Barbara, 1966; M.A., 1968; Ph.D., 1971.

BEATRICE BRAUDE, *Assistant Professor*, B.A., Hunter College, 1933; M.A., Columbia, 1939; Ph.D., City University of New York, 1971.

FREDERICK A. BUSI, *Associate Professor*, B.A., American International 1960; M.A., Connecticut, 1963; Ph.D., 1965.

MARIE-ROSE CARRE, *Professor*, B.ès-L., Alger, 1938; L.ès-L., 1940; D. de l'U., Paris, 1963.

THOMAS CASSIRER, *Professor*, B.A., McGill, 1945; Ph.D., Yale, 1953.

URSULA F. CHEN, *Associate Professor*, B.A., Cologne, 1950; M.A., Cornell, 1958; Ph.D., 1968.

DONALD G. DUGAS, *Assistant Professor*, B.A., Holy Cross, 1955; M.A., Middlebury, 1956; Ph.D., Michigan at Ann Arbor, 1969.

DORANNE FENOALTEA, *Assistant Professor*, B.A., Mount Holyoke, 1959; M.A., Harvard, 1968; Ph.D., 1971.

## UNIVERSITY OF MASSACHUSETTS

CHRISTIAN GARAUD, *Assistant Professor*, B.ès-L., Poitiers, 1954; L.ès-L., 1958; D. de 3e cycle, 1961 (in Classics); D. de 3e cycle, 1969 (in French.)

WILLIAM V. GUGLI, *Assistant Professor*, B.A., Brown, 1954; B.S.F.S., Georgetown, 1955; M.A., Brown, 1959; Ph.D., Syracuse, 1967.

AGNES G. RAYMOND (HOWARD), *Associate Professor*, B.A., Wilson College, 1937; M.A., Syracuse, 1945; D.M.L., Middlebury, 1956.

PATRICIA J. JOHNSON, *Associate Professor*, B.A., Minnesota, 1953; M.A., 1956; Ph.D., 1960.

ROBERT B. JOHNSON, *Professor*, B.A., Ohio, 1940; M.A., Wisconsin, 1946; Ph.D., 1949.

NANCY E. LAMB, *Assistant Professor*, B.A., Mt. Holyoke, 1959; M.A. (French), Middlebury, 1960; M.A. (Spanish), 1964; D.M.L., 1971.

PAUL A. MANKIN, *Associate Professor*, B.A., California at Los Angeles, 1948; M.A., 1953; Ph.D., Yale, 1959.

DANIEL R. MARTIN, *Assistant Professor*, B.A., Illinois at Chicago Circle, 1969; M. Phil., Yale, 1972; Ph.D., 1973.

DAVID O'CONNELL, *Assistant Professor*, B.A., St. Peter's College, 1962; M.A., Princeton, 1964; Ph.D., 1966.

BENJAMIN ROUNTREE, *Associate Professor*, B.A., Georgia, 1953; M.A., 1955; Ph.D., Yale, 1960.

RICHARD SANTERRE, *Assistant Professor*, B.A., Boston College, 1966; M.A., 1968; Ph.D., 1974.

HAROLD L. SMITH, JR., *Associate Professor*, B.ès-L., Paris, 1940; B.A., Swarthmore, 1947; M.A., Columbia, 1950; Ph.D., Wisconsin, 1955.

SARA STURM, *Professor of French and Italian*, B.A., Minnesota, 1963; M.A., 1965; Ph.D., North Carolina, 1967.

ROBERT E. TAYLOR, *Professor*, B.A., Reed College, 1943; M.A., Columbia, 1947; Ph.D., 1951.

SEYMOUR S. WEINER, *Professor*, B.A., City College of New York, 1940; M.A., California at Berkeley, 1941; Ph.D., Columbia, 1950.

## SUPPORTING FACULTY

SARAH N. LAWALL, *Professor of Comparative Literature*, B.A., Oberlin, 1956; Ph.D., Yale, 1961.

## FRENCH

the degree at the University, the following special requirements must be met:

1. A minimum of 18 credit hours after the M.A.
2. Romance Philology or its equivalent (3 credits; not to satisfy requirements 6. or 7. below).
3. Bibliography and Methods or its equivalent (3 credits, not to be taken simultaneously with Romance Philology).
4. Two foreign languages (i.e., in addition to French and English):
  - a. One at advanced-level proficiency (determined by a score of 700 on the Princeton ETS examination, or three credits of literature at junior-senior level or above with minimum grade of B).
  - b. The other at intermediate-level proficiency (either by score of 550 on Princeton ETS examination or a minimum grade of B at the 140 or 409 level).
5. Proficiency in Latin, required of candidates writing a dissertation on the Middle Ages or the Renaissance, determined by the Classics Department at the University.
6. The language requirement must be satisfied before the preliminary examination.
7. The satisfactory completion of written and oral preliminary examinations on:
  - a. Two broad chronological periods/centuries, etc. Normally they should be contiguous (19th-20th, 18th-19th, etc.).
  - b. A genre.
8. Six graduate credits in each of two additional fields (not to be covered by preliminary examinations.)
9. Three graduate credits in each of the remaining fields (not to be covered by preliminary examinations.)
10. French 900 — Ph.D. Dissertation.

## MASTER OF ARTS DEGREE COURSE REQUIREMENTS

The required minimum of 30 credit hours is distributed as follows:

1. Expository Prose (3 credits)
2. Textual and Literary Analysis (3 credits)
3. French Civilization I (3 credits)
4. French 700 or above (12 credits)
  - a. French 800 (thesis) may be elected for 6 credits
5. 600-level in French or related field (9 credits)

A terminal examination, both written and oral, is given upon satisfactory completion of course requirements.

## THE MASTER OF ARTS IN TEACHING DEGREE

The Department of French and Italian offers a program of studies in French language and literature and professional preparation leading to the degree of Master of Arts in Teaching. The primary aim of the program is to prepare students with a B.A. degree to become effective classroom teachers at the secondary school level. A total of 39 credit hours are required for the degree, of which 21 will be in French language and literature and 18 in professional education and electives. One semester of the program is to be devoted to a practicum consisting of a variety of field experiences. Students are expected to complete the M.A.T. requirements in three or four semesters, excluding summer work.

## THE FIVE COLLEGE COOPERATIVE Ph.D. PROGRAM. In addition to the general requirements for

## FRENCH

Courses specifically for the teacher of French include the following:

1. Introductory and advanced methods of teaching French at the secondary level.
2. Applied Linguistics.
3. Research studies in Foreign Language Education.
4. Practicums in teaching, individualized instruction, educational technology and supervision.
5. Independent study courses of directed readings.

Candidates entering the program are expected to be fluent in all aspects of the language. Undergraduate work should have been undertaken in phonetics, advanced grammar, composition, conversation and literature. Students deficient in French grammar or phonetics may be required to do remedial work in these areas once admitted to the program, but such work may not be counted towards the degree. Students transferring from other institutions may be granted up to nine semester hours towards the M.A.T. A final examination is given upon satisfactory completion of course work.

### 3-FIGURE COURSE NUMBERING SYSTEM

| Intermediate figure:   | Terminal figure:           |
|------------------------|----------------------------|
| 1 Middle Ages, 16th C. | 1, 2, 3 general            |
| 2 17th C.              |                            |
| 3 18th C.              |                            |
| 4 19th C.              | 4 plural genres, centuries |
| 5 20th C.              | 5, 6 novel                 |
| 6 language             |                            |
| 7 general              | 7, 8 poetry                |
| 8 special problems     |                            |
| 9 seminars             | 9 theater                  |

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### COURSES OPEN TO GRADUATE STUDENTS ONLY

**470. GRADUATE READING COURSE.**  
For graduate students in other departments preparing for their M.A. or Ph.D. reading examination. No previous knowledge of French required. *No. Credit.*

**700. SPECIAL PROBLEMS.**  
Directed study in some phase of linguistics or literature.

**701 (I), 702 (II). THE CRAFT OF FICTION IN THE 19TH CENTURY.**  
The exploration of different modes in the treatment of realism through a study of the craft of fiction of individual novelists. *Credit, 3 each semester.* Mr. Smith; Mr. Weiner.

**703. TEXTUAL AND LITERARY ANALYSIS.**  
Includes critical analysis of selected poems and passages of prose as well as of complete plays and novels.

**711. OLD FRENCH READINGS.**  
The monuments of French literature from the earliest times to the 15th Century. *Miss Dufau, Mrs. Sturm.*

**712. RABELAIS AND MONTAIGNE.**  
The changing ideas in the French Renaissance. *Mrs. Fenoaltea, Mr. Martin.*

**715. THE "ROMAN COURTOIS."**  
Emphasis on Chrétien de Troyes and his successors. Prerequisite, French 710 or equivalent. *Miss Dufau, Mrs. Sturm.*

**717. MEDIEVAL EPIC POETRY.**  
Some of the outstanding chansons de geste and the development of the cycles of epic poetry. Prerequisite, French 710 or equivalent. *Mrs. Sturm.*

**718. PLEIADE, "ECOLE LYONNAISE."**  
Emphasis on the Pleiade from the background of the "grands rhétoriqueurs," Marot and the "école lyonnaise." *Mrs. Fenoaltea.*

**719. THE MEDIEVAL THEATER.**  
The principal dramatic forms from the 12th through the 15th century. Prerequisite, French 710 or equivalent. *Miss Dufau.*

**720. SEVENTEENTH-CENTURY "LIBERTINAGE."**  
Aspects of the history of thought from Montaigne to Pierre Bayle. *Mr. Taylor.*

**721. LAFONTAINE AND HIS TIMES.** *Mr. Garaud.*

**722. MOLIERE.**  
The man and the dramatist, his ideas and his techniques. *Mr. Taylor, Mr. Rountree.*

**723. RACINE.**  
A detailed analysis of the major and minor plays as drama and as poetry. *Mr. Rountree, Mrs. Carre.*

**731. VOLTAIRE AND HIS TIMES.** *Mr. Taylor.*

**732. MONTESQUIEU AND HIS TIMES.** *Mrs. Raymond.*

**733. DIDEROT.**  
The original thinker and compiler. *Mr. Taylor.*

**760. EXPOSITORY PROSE.**  
Extensive practice of expository writing in French; further familiarization with the vocabulary of literary discourse.

**761. ROMANCE PHILOLOGY AND THE HISTORY OF THE FRENCH LANGUAGE.**  
The development of the Romance languages, particularly French, from Vulgar Latin. *Mrs. Chen.*

**762. PROVENÇAL PHILOLOGY.**  
Provençal or some other language particularly; see Department announcements. *Mrs. Chen, Mrs. Sturm.*

**763. THE HISTORY AND PRACTICE OF TRANSLATION IN FRENCH.**  
The practical and theoretical problems arising in translation. *Mr. Taylor, Mr. Weiner.*

**770. BIBLIOGRAPHY AND METHODS OF LITERARY RESEARCH.**  
Required of candidates for the degree of Doctor of Philosophy. *Mr. Taylor, Mr. Weiner.*

**771. FRENCH CIVILIZATION.**  
*Miss Bragget, Mr. Cassirer, Mr. Porter.*

**799. SEMINARS.**  
*Credit, 3 each semester. Maximum credit, 12.*

**800. MASTER'S THESIS.** *Credit, 6.*

**801. LITERARY CRITICISM: NINETEENTH CENTURY.**  
Development of criticism from Sainte-Beuve. *Mr. Weiner.*

**802. LITERARY CRITICISM: 20TH CENTURY.**  
Critical tenets and practices in the twentieth century. Read-through a study of the craft of fiction of individual novelists. *Credit, 3 each semester.* Mr. Smith, Mr. Weiner.

**845. BALZAC AND STENDHAL.**  
Explores selected works of these novelists from various modern critical points of view. *Mr. Porter, Mr. Weiner.*

## GRADUATE SCHOOL

# UNIVERSITY OF MASSACHUSETTS

# FRENCH

## 846. FLAUBERT AND ZOLA

Explores selected works of these novelists from various modern critical points of view. Mr. Porter, Mr. Smith.

## 848. BAUDELAIRE AND THE SYMBOLISTS.

Emphasis on the esthetics and poetics of Baudelaire alone; his work as an introduction to the gamut of symbolist poetry. Mr. Johnson.

## 853. THE ANTI-NOVEL AND ANTI-THEATER.

The reaction against established literary form and conventions in the novels of such authors as Sarraute, Robbe-Grillet, Butor, and Simon, and in the plays of such authors as Jonesco and Adamov. Mrs. Johnson.

## 854. CAMUS AND SATIRE.

The novels, short stories, plays, and philosophical essays. Mrs. Johnson.

## 855. PROUST AND GIDE.

Detailed analysis of parts of *A la recherche du temps perdu* and representative works of Gide's fiction. Mr. Mankin.

## 859. CLAUDEL AND GIRAUDOUX.

Their contribution to the literary theater of the 20th century as seen through a study of esthetic and moral values. Mrs. Raymond, Mr. Mankin.

## 900. DOCTORAL DISSERTATION.

Credit, 18.

## COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS

### 561. ADVANCED GRAMMAR.

Mrs. Carre, Mrs. Chen, Mr. Rountree.

### 601, 602. LITERARY MOVEMENTS.

Characteristics and definitions of a selected movement or period (e.g., Baroque, Romanticism). Credit, 3 each semester.

### 604. THE ART OF LITERATURE.

The structures of literary works of art; emphasis on the esthetic. The genres vary; see Department announcement.

### 614. RENAISSANCE PROSE.

Major French prose writers of the 16th Century. Mrs. Fenoaltea, Mr. Martin.

### 617. RENAISSANCE POETRY.

Representative poets of the 16th Century. Emphasis on the *Pleiade*. Mrs. Fenoaltea, Mr. Martin.

### 621. 17TH-CENTURY COMIC VISION.

Emphasis on Molière, Mme de Sévigné, La Fontaine, and La Bruyère. Mr. Garaud, Mr. Rountree.

### 622. 17TH-CENTURY TRAGIC VISION.

The classical tragic vision in the theater and the novel as represented by Corneille, Racine, and Mme de La Fayette. Mrs. Carre, Mr. Rountree.

### 624. 17TH-CENTURY PHILOSOPHERS AND MORALISTS.

The writers most important in classical thought, especially Descartes, Pascal, and La Rochefoucauld. Mrs. Carré, Mr. Garaud.

### 634. 18TH-CENTURY LITERATURE.

The chief writers and thinkers of the Age of Enlightenment. Mrs. Raymond, Mr. Taylor.

### 635. 18TH-CENTURY NOVEL.

The satirical novel as represented by LeSage, Montesquieu, Voltaire, and Diderot; the sentimental novel as represented by Prévost, Marivaux, Rousseau, Bernardin de Saint-Pierre. Mr. Taylor.

### 639. 18TH-CENTURY THEATER.

Readings in the French theater from LeSage to Beaumarchais. Mrs. Raymond.

## 640. 19TH-CENTURY POETRY: THEMES

Themes vary; see Department announcement. Mr. Gugli, Mr. Johnson, Mr. Weiner.

## 644. 19TH-CENTURY POETRY: NERVAL AND THE PARNASSIANS.

The development of poetry between Romanticism and symbolism.

## 645. 19TH-CENTURY ROMANTIC NOVEL.

The development of the novel from the Revolution to mid-century: Constant, Chateaubriand, Balzac, Hugo, Dumas, Stendhal. Mr. Busi, Mr. Porter, Mr. Smith.

## 646. 19TH-CENTURY REALISTIC-NATURALISTIC NOVEL.

The novel of the second half of the century: Flaubert, Zola, Maupassant, etc. Mr. Busi, Mr. Smith, Mr. Weiner.

## 647. 19TH-CENTURY ROMANTIC POETRY

The major movements in poetry from Chénier to Baudelaire. Mr. Busi, Mr. Gugli, Mr. Weiner.

## 648. 19TH-CENTURY SYMBOLIST POETRY

Baudelaire, Rimbaud, Mallarmé, Verlaine. Mr. Johnson.

## 649. 19TH-CENTURY THEATER

The development of the theater from Hugo to Rostand and his contemporaries. Mr. Porter, Mr. Weiner.

## 654. FRENCH-AFRICAN AND CARIBBEAN LITERATURE

Mr. Cassirer.

## 655 (I), 656 (II). MAJOR FIGURES IN CONTEMPORARY NOVELS.

The novel of social concern, the novel of personal and esthetic concern, and the novel concerned with the human condition, tradition, and innovation.

Credit, 3 each semester.

Mrs. Johnson, Mr. Mankin, Mr. O'Connell, Mr. Weiner.

## 657. CONTEMPORARY FRENCH POETRY I.

Major French poets from the turn of the century to surrealism: Valéry, Apollinaire, Claudel, Reverdy, Eluard, Desnos, Cendrars and the beginning of surrealism with the first manifesto of 1924. Mr. Johnson, Mrs. Lawall.

## 658. CONTEMPORARY FRENCH POETRY II

French poetry from surrealism to the present: Breton, Char, Michaux, Perse, Ponge, Bonnefoy, and selected contemporaries. Surrealism as a movement in itself and as a precursor of more recent poetry.

Mrs. Carre, Mr. Johnson, Mrs. Lawall.

## 659. 20TH-CENTURY THEATER.

The main currents of modern French theater from symbolism to the theater of the absurd as seen in about fifteen representative plays. Mr. Mankin, Mrs. Raymond.

## 661. APPLIED LINGUISTICS (FRENCH).

French linguistics applied to the teaching of French in secondary schools. Mr. Berwald, Mrs. Chen.

## 662. METHODS OF TEACHING FRENCH

Teaching methods. Recommended for those intending to teach French in high schools or elementary schools. Mr. Berwald.

## 663. TEACHING METHODS FOR INTERMEDIATE AND ADVANCED FRENCH

The teaching of Intermediate and Advanced French. Continuation of Educ 307. Mr. Berwald.

## 674. FRENCH-CANADIAN LITERATURE.

Contemporary Canadian poets, novelists, and dramatists writing in French.

## Geology

### GRADUATE FACULTY

JOSEPH H. HARTSHORN, *Professor and Head of the Department of Geology and Geography*, B.S., Harvard, 1947; M.A., 1950; Ph.D., 1955.

CHARLES W. PITRAT, *Associate Professor and Graduate Program Director*, B.A., Kansas, 1949; M.S., Wisconsin, 1951; Ph.D., 1953.

RAYMOND S. BRADLEY, *Assistant Professor (Geog)*, B.Sc., Southampton (England); M.A., Colorado, 1971; Ph.D., 1974.

R. W. BROMERY, *Professor and Chancellor of the Amherst Campus*, B.S., Howard, 1956; M.S., American University, 1962; Ph.D., Johns Hopkins, 1968.

TERENCE BURKE, *Associate Professor (Geog)*, B.A., Birmingham (England), 1952; Ph.D., 1967.

DAYTON E. CARRITT, *Professor*, B.S., Rhode Island, 1937; Ph.D., Harvard, 1948.

OSWALD C. FARQUHAR, *Professor*, B.A., Oxford, 1947; M.A., 1948; Ph.D., Aberdeen, 1951.

JAMES A. HAFNER, *Associate Professor (Geog)*, A.B., Miami of Ohio, 1963; M.A., Michigan, 1965; Ph.D., 1970.

STEPHEN E. HAGGERTY, *Associate Professor*, B.S., London University, Imperial College of Science and Technology, 1964; Ph.D., 1968.

LEO M. HALL, *Associate Professor*, B.S., St. Lawrence, 1954; M.S., Cincinnati, 1956; Ph.D., Harvard, 1959.

JOHN F. HUBERT, *Professor*, B.A., Harvard, 1952; M.S., Colorado, 1954; Ph.D., Pennsylvania State, 1958.

LAURIE B. ISAACSON, *Assistant Professor*, A.B., Middlebury, 1968; M.S., Wyoming, 1972; Ph.D., Oregon State, 1974.

PETER B. ISAACSON, *Adjunct Assistant Professor*, B.A., Colorado, 1968; Ph.D., Oregon State, 1974.

HOWARD W. JAFFE, *Professor*, B.A., Brooklyn College, 1942; D.Sc., Geneva, 1972.

GEORGE E. MCGILL, *Professor*, B.A., Carleton College, 1953; M.S., Minnesota, 1955; Ph.D., Princeton, 1958.

DAVID R. MEYER, *Associate Professor (Geog)*, B.A., Concordia Teachers College, 1965; M.S., Southern Illinois, 1967; Ph.D., Chicago, 1970.

STEARNS A. MORSE, *Professor*, B.A., Dartmouth, 1952; M.S., McGill, 1958; Ph.D., 1962.

WARD S. MOTTS, *Associate Professor*, B.A., Columbia, 1949; M.S., Minnesota, 1951; Ph.D., Illinois, 1957.

ALAN W. NIEDORODA, *Assistant Professor*, B.A., Queens College, 1966; M.S., Florida State, 1968; Ph.D., 1972.

EDWARD A. PERRY, JR., *Associate Professor*, B.A., Dartmouth, 1964; Ph.D., Case Western Reserve, 1969.

RUTHERFORD H. PLATT, *Assistant Professor (Geog)*, B.S., Yale, 1962; J.D., Chicago, 1967; Ph.D., 1971.

PETER ROBINSON, *Professor*, B.A., Dartmouth, 1954; M.S., Otago, New Zealand, 1958; Ph.D., Harvard, 1964.

GREGORY W. WEBB, *Professor*, B.A., Columbia, 1948; M.A., 1950; Ph.D., 1954.

RICHARD W. WILKIE, *Associate Professor (Geog)*, B.A., Washington, 1960; M.A., 1963; Ph.D., 1968.

DONALD U. WISE, *Professor*, B.S., Franklin and Marshall, 1953; M.S., California Institute of Technology, 1955; Ph.D., Princeton, 1957.

### REQUIREMENTS FOR THE DOCTOR OF PHILOSOPHY DEGREE

The general requirements for the Ph.D. degree are those of the Graduate School. All candidates are expected to have a background approximately equivalent to this University's M.S. degree in Geology, although this by no means precludes special programs for those entering with special strength in another science. All candidates should be familiar with the current M.S. Degree Requirements. Additional requirements for the Ph.D. are as follows:

1. Course work or independent study, if any, deemed necessary to prepare the candidate for the preliminary comprehensive examination.
2. Ph.D. candidates are expected to gain some experience in teaching.
3. Qualification at the Intermediate level in one foreign language. French, German, and Russian are highly recommended. Other foreign languages may be accepted by the faculty on recommendation of the Guidance Committee if the candidate can demonstrate a professional need for the language offered.
4. Passage of a preliminary comprehensive examination in two major and two minor areas of concentration specified in the departmental announcement.
5. Participation in each semester of residence in Geology 790, Research Seminar, and at least one oral presentation of research results in this seminar.
6. Submission of a research manuscript to, or publication of a research article by, a reputable publisher prior to receipt of the degree. Abstracts do not satisfy this requirement.

These requirements are implemented with the aid of a Guidance Committee. Further details are contained in the Departmental announcement.

#### NOTE

By Graduate Council ruling, English is a foreign language if the candidate's native language is not English and if a significant body of (geologic) literature exists in the student's native language. When languages other than the above four are involved, judgement as to the existence of a significant body of geologic literature would rest with the Guidance Committee, the Graduate Geology Faculty concurring.

One purpose of the manuscript submission requirement is to encourage preparation of the dissertation in the form of one or more journal manuscripts.

### REQUIREMENTS FOR THE MASTER OF SCIENCE DEGREE

The general requirements for the M.S. degree are those of the Graduate School. In addition, the following are required:

## UNIVERSITY OF MASSACHUSETTS

## GEOLOGY

1. A full year course in two of the following: biology, chemistry, physics.
2. A full year course of college mathematics or statistics, beyond the pre-calculus level, appropriate to the student's course of study.
3. Six weeks of field training.
4. Participation in each semester of residence in Geology 790, Research Seminar, and at least one oral presentation of research results in this seminar.
5. An incoming candidate is given a diagnostic interview and assigned a temporary adviser. The candidate should then propose a guidance committee of three graduate faculty, for appointment by the Department Head. The program of study must be approved by the guidance committee. The committee conducts a semesterly review of the candidate's program and progress.
6. A candidate may elect a program with or without a thesis. The former is appropriate for those with strongly focused research interests, and the latter for those wishing to emphasize breadth of geological or interdisciplinary knowledge. The content of the General Examination and the number of examiners will reflect the candidate's choice of program. The General Examination will include a presentation and defense of a research project or thesis. Further details are contained in the Departmental announcement.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### COURSES OPEN TO GRADUATE STUDENTS ONLY (For either major or minor credit)

#### 700. SPECIAL PROBLEMS.

Either or both of the following options may be selected:  
 A. Independent study — guided reading and/or laboratory study in subjects or techniques not covered by other courses in the department.  
 B. Research — original library, field and/or laboratory investigation of a selected problem.  
 Prerequisites, 45 credits in geology and permission of Department Head and instructor. *Credit, 2-6.*

#### 712. ADVANCED MINERALOGY.

Crystal chemistry, structure, and composition of minerals; interpretation, evaluation, and calculation of mineralogical data; precise measurement of mineralogical constants by optical microscopy, x-ray diffraction, and other methods.  
 Offered fall semester.  
 Prerequisite, Geol 611 or permission of instructor.  
 Mr. Jaffe or Mr. Morse.

#### 713. CLAY PETROLOGY.

Structure of clay minerals, identification, weathering and alteration of minerals, properties of clay surfaces, geochemical studies of clays in geology, soil science, and soil mechanics.  
 Prerequisite, permission of instructor. Mr. Perry.

#### 716. GEOCHEMISTRY.

Abundance relations and principles governing the distribution, behavior, and migration of the elements and nuclides in the geochemical spheres of the earth, in meteorites, and in the universe.  
 Offered spring semester.  
 Prerequisites, Geol 192 and 520 and one year of college chemistry, or permission of instructor. Mr. Jaffe.

#### 722. IGNEOUS PETROLOGY.

Introduction to phase equilibrium in mineral systems, with emphasis on liquidus relationships. Review of theoretical and experimental data and of natural occurrences and their bearing on problems of rock genesis.  
 Offered fall semester.  
 Prerequisite, Geol 621 or permission of instructor.  
 Mr. Morse.

#### 723. SEDIMENTARY PETROLOGY.

Analysis and origin of primary sedimentary structures; petrology of sandstones; heavy-mineral analysis and interpretation. Petrology of carbonate rocks. Field applications emphasized.  
 Offered spring semester.  
 Prerequisites, Geol 550 and 611. Mr. Hubert.

#### 724. METAMORPHIC PETROLOGY.

Introduction to phase equilibrium in mineral systems with emphasis on metamorphic reactions. Review of theoretical and experimental data and natural occurrence and their bearing on metamorphic processes and on the mapping of metamorphic mineral facies.  
 Offered fall semester.  
 Prerequisite, Geol 621 or permission of instructor.  
 Mr. Robinson.

#### 731. STRUCTURAL GEOLOGY OF METAMORPHIC ROCKS.

Analysis of the geometry of intensely deformed rocks with emphasis on interpretation of structural features in the field.  
 Offered fall semester.  
 Prerequisite, Geol 531 or equivalent. Mr. Hall.

#### 732. ADVANCED STRUCTURAL GEOLOGY.

Dynamics and mechanics of rock deformation, including theoretical and experimental studies, with field applications.  
 Offered spring semester.  
 Prerequisites, Geol 531 and calculus. Mr. McGill.

#### 735. REGIONAL GEOLOGY OF NORTH AMERICA.

Tectonic concepts as exemplified by the stratigraphic and structural evolution of North America.  
 Offered spring semester.  
 Prerequisite, Geol 530. Mr. Wise.

#### 741. STRATIGRAPHIC PALEONTOLOGY.

Application of selected fossils and faunal assemblages to stratigraphic correlation, and paleoecological and paleogeographic analysis, with reference to evolutionary trends.  
 Offered spring semester.  
 Prerequisites, Geol 540 and 551. Mr. Pittat.

#### 747. PALEOGEOGRAPHIC ANALYSIS.

Methods of paleogeographic analysis and mapping, including problems in stratigraphic synthesis, basin analysis, and paleogeologic and palinspastic mapping.  
 Offered spring semester.  
 Prerequisites, Geol 531, 540, and 550. Mr. Webb.

#### 751. SEDIMENTATION.

Analysis of the modes of origin of sedimentary rocks, with special reference to mudrocks, carbonates, and chemical sediments.  
 Offered fall semester.  
 Prerequisites, Geol 550 and 611. Mr. Hubert.

#### 752. GEOLOGICAL OCEANOGRAPHY.

Physical characteristics and geological processes of the ocean basins and margins, and their bearing on interpretation of geologic history.  
 Offered spring semester.  
 Prerequisites, Geol 550 and 666. Mr. Webb.

#### 756. COASTAL PROCESSES.

Sedimentologic and hydrographic processes of coastal environments and their relation to shoreline morphology and sediment transport and deposition. Emphasis on field studies of the estuaries and beaches along the New England shoreline.  
 Prerequisites, Geol 550 and 660, or permission of instructor.  
 Mr. Niedoroda.

#### 761. MAP INTERPRETATION.

A laboratory study of the various types of maps used by geologists, with special reference to the identification and interpretation of landforms and structures.  
 Offered fall semester.  
 Prerequisite, Geol 530. *Credit, 2.*

## GEOLOGY

### 762. ADVANCED GEOMORPHOLOGY.

A critical study of selected topics and current problems in geomorphology.

Offered spring semester.

Prerequisite, Geol 660.

*Credit, 2.* Mr. Doehring.

### 769. ADVANCED PHOTOGEOLOGY.

A laboratory area of selected problems, areas, and techniques. Some emphasis on the use of surface expression as a key to subsurface phenomena.

Offered fall semester.

Prerequisites, Geol 660 and 668.

*Credit, 2.*

### 771. PHYSICS OF THE EARTH.

Introduction to the physics of the earth as determined from seismological, heat flow, gravity, and paleomagnetic data and their relationship to observed geological phenomena.

Offered fall semester.

Prerequisites, Geol 670 and permission of instructor.

Ms. Isaacson.

### 772. ADVANCED GEOPHYSICAL INTERPRETATION TECHNIQUES.

Numerical and graphical analyses of air-borne and ground geophysical surveys, including the use of digital computer programs, and geologically meaningful interpretations.

Offered spring semester.

Prerequisites, Geol 670 and permission of instructor.

Ms. Isaacson.

### 781. GEOLOGY IN ENGINEERING.

Relation of geologic materials, processes, forms, and techniques to the planning and execution of engineering projects, such as river control, shoreline protection, and construction of highways, bridges, tunnels, dams, etc. Emphasis is on case histories.

Offered spring semester.

Prerequisites, Geol 520, 530, 550, and 660, or permission of instructor; Civ Eng 520 and/or other engineering courses recommended.

*Credit, 2.* Mr. Farquhar.

### 782. PETROLEUM GEOLOGY.

Geologic occurrence of oil and gas. Laboratory work consists of problems related to reservoir and trap conditions and to methods of subsurface study.

Offered fall semester.

Prerequisites, Geol 530 and 550; 735 desirable.

Mr. Webb.

### 783. METALLIFEROUS ECONOMIC GEOLOGY.

Nature, origin, and distribution of metalliferous ores. Criteria for recognition of ore deposits, changes in character of ore with depth, mineral associations, and types of wallrock alteration. Optical and microchemical properties of ore minerals and ore concentrates. Given in alternate years.

Offered fall semester.

Prerequisites, Geol 530 and 520; 722 desirable.

Mr. Haggerty.

### 784. NON-METALLIFEROUS ECONOMIC GEOLOGY.

Geology, distribution, and utilization of nonmetallic mineral deposits, including coal and other solid hydrocarbons. Given in alternate years.

Offered fall semester.

Prerequisites, Geol 530, 520, 550, and 611.

Mr. Farquhar.

### 786. HYDROGEOLOGY.

Theoretical and practical hydrogeology; ground-water hydraulics, chemistry of ground water, field methods, relation of ground water to geology, basinal, and regional groundwater problems.

Offered fall semester.

Prerequisites, one year of geology; one year of chemistry and Math 124 or equivalent recommended.

Mr. Motts.

### 790. SEMINAR.

Review of current literature or discussion of selected topics.

*Credit, 1 each semester.*

### 805. EVOLUTION OF GEOLOGIC CONCEPTS.

Perspective on current geological thought in the light of its

## GRADUATE SCHOOL

historical background; particular attention to controversial questions and to the rise and decline of ruling theories.

Offered spring semester.

Prerequisite, one year of graduate study.

*Credit, 2.* Mr. Motts.

### 846. CENOZOIC STRATIGRAPHY.

Occurrence, correlation, and origin of marine and terrestrial Cenozoic deposits and their relation to paleogeographic and tectonic conditions, with particular reference to North America.

Offered fall semester.

Prerequisites, Geol 550 and 660; 735 recommended.

Mr. Webb.

### 863. PHYSIOGRAPHY OF NORTH AMERICA.

A survey of the physiographic provinces of North America and their evolution. Emphasis on problems and the methods of approach.

Offered fall semester.

Prerequisites, Geol 660 and 735 desirable.

Mr. Motts.

### 887. ADVANCED HYDROGEOLOGY.

Advanced ground-water hydrology, analog models, pumping tests, flow-duration curves, flow nets, Hubbert's hydrologic models, water chemistry, and geophysical methods of investigation.

Offered spring semester.

Prerequisites, Geol 786 and Math 124, or permission of instructor.

Mr. Motts.

### 890. SEMINAR IN NORTHERN APPALACHIAN GEOLOGY.

The stratigraphy, structure, petrology, and geophysics of the Northern Appalachians and current research being conducted in the region.

Offered spring semester.

Prerequisites, Geol 531, 550, and 621 or equivalents.

*Credit, 1-3.* Mr. Hall, Mr. Robinson, Mr. Wise.

### 891. SEMINAR IN STRUCTURAL GEOLOGY.

Review and discussion of current research in structural geology.

Prerequisite, at least one graduate course in structural geology.

*Credit, 1-3.*

Mr. McGill, Mr. Hall, Mr. Wise, Mr. Robinson.

### 892. SEMINAR IN SEDIMENTOLOGY.

Depositional and diagenetic processes in terrigenous and carbonate environments and the interpretation of the rock record.

*Credit, 1-3.* Mr. Hubert.

### 893. SEMINAR IN PLEISTOCENE GEOLOGY.

Current work and publications in glaciology, glacial geology, and related aspects of Quaternary history. Studies of related fields, such as archaeology, early man, geochronology, paleontology, plant geography, and paleontology.

Prerequisite, permission of instructor.

*Credit, 1-3.* Mr. Hartshorn.

### 894. SEMINAR IN PETROLOGY.

The literature of igneous and metamorphic petrology and related aspects of mineralogy.

Prerequisites, Geol 611 and 671 or equivalents.

*Credit, 1-3.* Mr. Robinson, Mr. Morse, Mr. Jaffe, Mr. Haggerty, Mr. Hall.

### 800. MASTER'S THESIS.

*Credit, 10.*

### 900. DOCTORAL DISSERTATION.

*Credit, 18.*

COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS  
(For either major or minor credit)

### 611. OPTICAL MINERALOGY.

Principles of optics; optical properties of minerals and methods for their measurement, relationship between optical properties and crystallography; mineral identification by the

## UNIVERSITY OF MASSACHUSETTS

## GEOLOGY

immersion method; crystal chemistry of rock-forming minerals.

Offered fall semester.

Prerequisite, Geol 192. Mr. Jaffe, Mr. Hall, Mr. Morse.

### 617. AQUEOUS GEOCHEMISTRY.

Chemical processes affecting the distribution and circulation of chemical compounds in natural waters, and the formulation of an adequate theoretical basis for the chemical behavior of ocean waters, estuaries, rivers, lakes, groundwaters and soil-water systems.

Prerequisites, Chem 111, 112.

Mr. Perry.

### 618. SEDIMENTARY GEOCHEMISTRY.

The evolution of sedimentary rocks, the geochemical cycles of the major elements in the Earth's crust, and the applications of isotope geochemistry.

Prerequisites, Chem 111, 112, or permission.

Mr. Perry.

### 621. PETROGRAPHY.

Identification of minerals in thin section; study of common igneous, sedimentary, and metamorphic rocks in thin section; routine petrographic calculations and measurements; introduction to petrogenetic theory. Examination of selected igneous and metamorphic rocks in the field.

Offered spring semester.

Prerequisites, Geol 220 and 611.

Mr. Robinson.

### 630. TECTONICS.

Past and present mechanisms creating the broader framework of global geology; mountain-building, ocean-basin structure, continental drift, mantle processes, continental evolution, early history of the earth, structural geology of selected key regions of the globe.

Offered fall semester.

Prerequisites, Geol 531, 520; undergraduates by permission.

Mr. Wise.

### 632. ADVANCED GEOLOGICAL MAPPING.

Complete series of operations required for publication of a geological map: field location and drawing of contacts, collection and interpretation of field notes, automated data reduction, drafting, and methods of reproduction.

Offered fall semester.

Prerequisites, Geol 220 and 231, or equivalent training.

Mr. Robinson, Mr. Wise.

### 634. ASTROGEOLOGY.

Geology of the solar system with emphasis on the solid bodies, age, sequence of events, composition, surficial and internal geologic processes. Photogeologic mapping of selected portions of Moon and Mars using recent imagery from the space program.

Offered fall semester.

Prerequisites, Geol 531, 520, undergraduates by permission.

Mr. Wise.

### 645. PALEOECOLOGY.

Application of ecological principles to the interpretation of fossil animal and plant communities as indicators of depositional environments. Emphasis on marine faunas.

Offered spring semester.

Prerequisites, Geol 540 and 551.

Mr. Pitrat.

### 651. GEOMETRICS.

Design of geological experiments; the collection and analysis of quantitative data in geology.

Offered fall semester.

Prerequisite, permission of instructor.

Mr. Hubert.

### 655. PHYSICAL OCEANOGRAPHY.

Physical properties of sea water and their variations; water masses and their circulation patterns; interaction between ocean and atmosphere; dynamics of waves, tides, and ocean currents; techniques of oceanographic study.

Offered fall semester.

Prerequisites, two years of college work toward a major in science or engineering; Physics 141 and 142; or 161, 162, and 163; calculus recommended.

Mr. Niedoroda.

### 660. GEOMORPHOLOGY.

Origin and developments of landforms in relation to geological processes, climate, and tectonic history. Application of geomorphic methods to interpretation of geologic history.

Offered fall semester.

Prerequisite, Geol 230 or permission of instructor.

Mr. Doehring.

### 666. PLISTOCENE GEOLOGY.

Geochronology of Pleistocene time as related to climatic changes and their influence on glaciology, erosional and depositional processes, landforms, sedimentary deposits, shifting sea level, and the paleontological record. Field trips by arrangement.

Offered spring semester.

Prerequisite, permission of instructor.

Mr. Hartshorn.

### 668. PHOTOGEOLOGY AND REMOTE SENSING.

Laboratory study of the instruments and methods employed in making measurements and preparing base maps and geologic maps from vertical and oblique aerial photos, together with applications of other remote-sensing techniques.

Offered spring semester.

Prerequisite, Geol 531.

### 670. GEOPHYSICS.

The physics of the earth and the gravitational, magnetic, electrical, and seismic methods of geophysical exploration. Laboratory problems and computations.

Offered fall semester.

Prerequisites, Geol 230 and 520, or permission of instructor.

Ms. Isaacson.

### COURSES NOT FOR MAJOR CREDIT

(No graduate credit for students majoring in Geology)

### 520. INTRODUCTORY PETROLOGY.

The classes of rocks with reference to manner of origin, modes of occurrence, structural features, and the chemical and petrographic distinctions within each group.

Offered spring semester.

Prerequisite, Geol 192.

Credit, 1 Mr. Jaffe, Mr. Hall, or Mr. Morse.

### 530. FIELD AND STRUCTURAL GEOLOGY I.

Basic methods of field geology; occurrences and recognition of geologic structure; preparation and interpretation of geologic maps; solution of simple structural problems.

Offered fall semester.

Prerequisite, an introductory geology sequence.

Mr. McGill, Mr. Hall, Mr. Wise.

### 531. FIELD AND STRUCTURAL GEOLOGY II.

Structural and dynamic analysis of deformed rocks; introduction to tectonics; field study of complex areas.

Offered spring semester.

Prerequisites, Geol 520, 530.

Mr. Hall, Mr. Robinson, Mr. Wise.

### 540. INVERTEBRATE PALEONTOLOGY.

History, development, and identification of invertebrate animal fossils. Field trips by arrangement.

Offered fall semester.

Prerequisite, an introductory geology sequence or permission of instructor.

Mr. Pitrat.

### 550. SEDIMENTOLOGY.

Processes acting on sediments; composition, primary structures, origin, and classification of sedimentary rocks.

Offered fall semester.

Prerequisite, Geol 520.

Mr. Hubert.

### 551. STRATIGRAPHY AND HISTORICAL GEOLOGY

Principles of stratigraphic correlation; methods of reconstruction of earth history; tectonic evolution of selected regions. Offered spring semester.

Prerequisites, Geol 520, 530, 540, and 550, or permission of instructor.

Mr. Webb.

## GERMANIC LANGUAGES AND LITERATURES

### 580. ENGINEERING GEOLOGY.

Materials and surface features of the earth and their relation to engineering problems; map reading as related to the phenomena of physical geology.  
Offered spring semester.

Mr. Farquhar.

### 589. FIELD PROBLEMS.

Directed field study and/or research.  
One week of full-time summer work for each credit.  
Prerequisites, approval of faculty adviser and department head.

## Germanic Languages and Literatures

### GRADUATE FACULTY

SIGRID BAUSCHINGER, *Associate Professor and Head of the Department of Germanic Languages and Literatures*, Ph.D., Frankfurt, 1959.

FRIEDRICH WILHELM VON KRIES, *Associate Professor and Graduate Program Director*, B.A., British Columbia, 1957; M.A., Washington, 1962; Ph.D., 1965.

E. M. BEEKMAN, *Associate Professor*, B.S., California at Berkeley, 1963; Ph.D., Harvard, 1968.

JAMES E. CATHEY, *Associate Professor*, B.S., Oregon State 1962; M.A., Washington, 1964; Ph.D., 1967.

FRANK R. HUGUS, *Assistant Professor*, B.S., Pennsylvania State, 1963; M.A., 1965; Ph.D., Chicago, 1972.

HENRY A. LEA, *Associate Professor*, B.S., Pennsylvania, 1942; M.A., 1951; Ph.D., 1962.

SARA J. LENNOX, *Assistant Professor*, B.A., De Pauw, 1965; M.A., Wisconsin, 1966; Ph.D., 1973.

WILFRIED MALSCH, *Professor*, Ph.D., Freiburg, 1957.

VOLKER MEID, *Professor*, Ph.D., Frankfurt, 1965.

WOLFGANG PAULSEN, *Professor*, Ph.D., Berne, 1934.

KLAUS PETER, *Associate Professor*, Ph.D., Frankfurt, 1965.

CARROLL E. REED, *Professor*, B.A., Washington, 1936; M.A., 1937; Ph.D., Brown, 1941.

ALBERT M. REH, *Associate Professor*, Ph.D., Munich, 1957.

LAWRENCE RYAN, *Professor*, B.A., Sydney, 1953; Ph.D., Tübingen, 1958.

EVA SCHIFFER, *Associate Professor*, B.S., Massachusetts, 1946; M.A., Radcliffe, 1947; Ph.D., 1962.

### ASSOCIATE FIVE-COLLEGE GRADUATE FACULTY

SIDONIE CASSIRER, *Professor* (Mount Holyoke College).

JUDITH RYAN, *Associate Professor* (Smith College).

WILLY SCHUMANN, *Professor* (Smith College).

HANS R. VAGET, *Associate Professor* (Smith College).

The Department of Germanic Languages and Literatures offers graduate work leading to the degrees of

## GRADUATE SCHOOL

Master of Arts (M.A.), Master of Arts in Teaching (M.A.T.) and the Doctor of Philosophy (Ph.D.) in three areas of specialization: Modern German Literature, Medieval Literature and Germanic Philology.

### FIVE-COLLEGE COOPERATIVE Ph.D. REQUIREMENTS

*For Candidates Specializing in Modern German literature*

The following courses are required:

1. 702, Old High German, or 703, Gothic, or 704, Old Norse, or 705 Old Saxon, or English 702, Old English.
2. One course in medieval literature.
3. One course in the literature of the 15th, 16th, and 17th centuries.
4. In general, it is expected that the remaining courses will be chosen from the literature courses offered by the Department.

*For Candidates specializing in Medieval Literature*

The following courses are required:

1. 702, Old High German.
2. 704, Old Norse, or 705, Old Saxon, or 703, Gothic, or English 702, Old English, or French 710, Old French.
3. Two courses in German literature from the 15th century to the present.

In general, it is expected that the remaining courses will be chosen from the medieval literature courses offered by the Department. Recommendations for additional courses: one course in medieval history, one course in medieval philosophy.

*For Candidates specializing in Germanic Philology*

The normal program requires the completion of six courses in Philology, two courses in Linguistics, one course in Medieval Literature, and one course in Modern Literature.

*Language requirement:*

Candidates for the Ph.D. will be required to show advanced proficiency in one foreign language (other than German or English) pertinent to their field of specialization.

### THE MASTER OF ARTS DEGREE PROGRAM

The M.A. degree program is designed to provide both a program meaningful in itself and a foundation for further progress toward the Ph.D.

The Department reserves the right to grant the M.A. as a terminal degree; admission to candidacy for the Ph.D. requires the Department's permission and does not follow automatically upon completion of the M.A. Prerequisites for admission include a B.A. degree with a major in German language and literature and indication of ability to do successful graduate work. Deficiencies in literary background and insufficient command of spoken or written German must be remedied.

*Language requirement:* For the M.A. degree the Department requires proficiency in German.

*Program of study:* Ten courses (30 credit hours) are required of all M.A. candidates by University regula-

## UNIVERSITY OF MASSACHUSETTS

tion. Full-time students are normally expected by the Department to take a minimum of *three* courses in each semester of their first academic year. Those holding teaching assistantships in the Department are expected to complete their course requirements for the M.A. within four consecutive semesters of the regular academic year. The successful completion of the following courses is required:

- 585. Structure of German or 584. History of German.
- 701. Middle High German.
- 720. Advanced Composition and Translation.
- 780. Proseminar.

In addition, the following course is required of all Teaching Assistants and is strongly recommended to all who plan to teach German, especially at the college level: 583. Problems and Methods of Teaching German. Also, *five* courses selected from the Department's offerings of literature courses, including those in medieval literature; the five courses must include at least *one* course in the 18th Century, *one* course in the 19th Century, and *one* course in the 20th Century literature.

## MASTER OF ARTS IN TEACHING (M.A.T.)

The Master of Arts in Teaching degree (M.A.T.) is offered to candidates who are interested in or are already teaching German at the secondary school or community/junior college level. The primary aim of the program is to prepare those who do not have adequate training or classroom teaching experience in the presentation of German, but who hold the B.A. degree, to become effective classroom teachers at the secondary school or community/junior college level. Teachers already professionally qualified in the teaching of German are also encouraged to work for the M.A.T. Applications will be considered and acted upon by the Department of Germanic Languages and Literatures.

**General Requirements:** The M.A.T. degree program consists of two basic parts: (a) academic requirements in the field of German and (b) professional education requirements. The former (a) encompass *at least* 21 credits in courses numbered 500 and upward, as in all M.A. degree programs. For the latter (b) the candidate has a choice between (1) preparation for secondary school teaching and (2) preparation for community/junior college teaching. Both of these alternatives include a teaching practicum, courses necessary for professional certification, and some variable credits (depending upon the candidate's experience and background).

**Secondary School Teaching Option (minimum program).**

- 21 credits in the academic discipline, including German 585 (3) Structure of German, German 720 (3) Advanced Composition and Translation, German 793 (3) Seminar in the Teaching of German, three courses in German literature, one course in Linguistics or a second major language (e.g., French, Spanish, Latin, Russian, Italian).
- 9 Credits in professional education courses (including at least two of these four areas: educational psychology, philosophy of education, methods and materials, and curriculum development; some of these courses may be taken in individual departments other than the School of Education, including German 583 (3) Problems and Methods of Teaching German.
- 9 credits for a semester (or equivalent thereof) of full-time internship or teaching practicum *and* concurrent

## GERMANIC LANGUAGES AND LITERATURES

practicum seminar (German 789). (Teachers already accredited are required to do a project in lieu of the teaching practicum.)

39 credits total

If a student also desires certification in a state other than Massachusetts, he or she may supplement his/her program to meet the particular requirements of that state.

**Community/Junior College Teaching Option (minimum program):**

24 credits in the academic discipline, including German 585 (3) Structure of German, German 720 (3) Advanced Composition and Translation, German 793 (3) Seminar in the Teaching of German, four courses in German literature, one course in Linguistics or a second major language (e.g., French, Spanish, Latin, Russian, Italian).

12 credits in professional education courses (including curriculum/teaching clinic, directed observation, advising and counseling, and philosophy of education).

9 credits for a semester (or equivalent thereof) of full-time internship or teaching practicum *and* concurrent practicum seminar (German 789). (Teachers already accredited are required to do a project in lieu of the teaching practicum.)

45 credits total

**Professional Education Component:** The core of the 18-21 credits of professional education component is the teaching practicum and associated practicum seminar (conducted during the same time interval). The teaching practicum normally involves full-time supervised classroom teaching experience at the appropriate level (secondary or community/junior college) for a period of time sufficient to immerse the candidate fully in the role of classroom teacher. While this is likely to be a full academic semester in one location, shorter periods of time in more than one location are not precluded.

Both the teaching practicum and the practicum seminar, which run concurrently, have the cooperative support of the departmental faculty. Individual faculty members oversee the preparation of teaching units in their speciality and then discuss academically pertinent problems arising from practicum experiences. Overall responsibility for the teaching practicum and practicum seminar rests with the departmental M.A.T. supervisor.

**Eligibility:** Those seeking admission to the program should have a B.A. degree with a major in German, or its equivalent, and must have earned a cumulative average of 3.0 or better in German and of 2.75 or better in their overall undergraduate course of study (reference is to a four-point scale). Candidates are requested to submit a well-considered statement indicating a firm commitment to a career as a teacher of German. The statement may vary in length according to individual needs, but need not exceed three or four typewritten pages. In addition, candidates are requested to arrange for letters of recommendation from at least two teachers who are well acquainted with their recent academic performance. An admission interview may be requested when appropriate. Scores of the Graduate Record Examination Aptitude Test are required by the University.

A maximum of 9 graduate course credits may, upon departmental recommendation, be transferred into the M.A.T. program. However, no more than 6 of these credits can come from either the academic field or the

## GERMANIC LANGUAGES AND LITERATURES

## GRADUATE SCHOOL

professional education component (i.e., to transfer 9 credits, 6 must come from one area and 3 from the other).

Those who may have completed state certification requirements in their undergraduate programs in addition to having earned a B.A. degree in German are also eligible for the M.A.T. program, provided they have met all other requirements and are prepared to undertake the full extent of the teaching practicum. Because of the nature of the program, priority of admission is given to full-time rather than part-time candidates.

*Minor Teaching Fields:* All those preparing for teaching German are strongly urged to prepare themselves in the teaching of another major language. Generally, at least 18 credits of undergraduate and graduate work should be taken in such a language in order to establish competence in a minor teaching field.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

COURSES OPEN TO GRADUATE STUDENTS ONLY  
(for either major or minor credit)

**700. SPECIAL PROBLEMS/INDEPENDENT STUDY.**  
Directed study in some special area of literature or philology. Open to Ph.D. candidates only, except by special permission.  
*Credit, 1-3.*

**701. MIDDLE HIGH GERMAN.**  
Readings in Middle High German literature with an introduction to the grammar.

**702. OLD HIGH GERMAN.**  
Grammar and reading of prose and poetry; an introduction to Old High German dialects.

**703. GOTHIC.**  
Grammar and reading of texts.

**704. OLD NORSE.**  
Grammar and reading of selections from the sagas.

**705. OLD SAXON.**  
Grammar and reading of selections from the *Heliand*.

**710. COMPARATIVE GERMANIC GRAMMAR I**  
(Phonology).  
The sound systems of the various Germanic dialects from a synchronic and diachronic point of view.  
Prerequisites, any two of the following: 701, 702, 703, 704, 705.

**711. COMPARATIVE GERMANIC GRAMMAR II**  
(Morphology).  
The grammatical structure of the various Germanic dialects from a synchronic and diachronic point of view.  
Prerequisite, German 710.

**712. GERMAN DIALECTOLOGY.**  
Modern German dialects, their differentiation and structural analysis.  
Prerequisite, German 701 or 702 or special permission.

**715. THE HEROIC EPIC.**  
A detailed study of *Nibelungenlied* and *Kudrun* with reference to the pre-courtly epic and later *Dietrichsepik*.  
(Offered in alternate years)  
Prerequisite, German 701.

**716. COURTLY LYRIC POETRY.**  
An introduction to the formal study of *Minnesang* and *Spruchdichtung* from the Kurenberger to Konrad von Würzburg with emphasis on Walther von der Vogelweide

and the social and historical context of the period.  
(Offered in alternate years)  
Prerequisite, German 701.

**717. THE COURTLY EPIC.**  
A comprehensive literary analysis of selected epics by Hartmann von Aue, Wolfram von Eschenbach, Gottfried von Strassburg.  
(Offered in alternate years)

**718. NARRATIVE AND DIDACTIC MHG LITERATURE.**  
The didactic narrative from the 11th to the 13th century.  
(Offered in alternate years)  
Prerequisite, German 701.

**720. ADVANCED COMPOSITION AND TRANSLATION.**  
Required of all degree candidates. May be waived for students judged to have native speaking proficiency.

**730. LITERATURE OF THE 15TH AND 16TH CENTURIES.**  
Humanism and Reformation.

**733. 17TH-CENTURY POETRY AND PROSE.**  
Poetry and prose and relevant poetic theories.

**734. 17TH-CENTURY DRAMA.**  
Drama and relevant poetic theories.

**741. FROM ENLIGHTENMENT TO ROCOCO.**  
Literary theory and practice in the first half of the 18th Century.

**742. LESSING.**  
His Literary Theory in the context of his time. His drama.

**743. VON DER EMPFINDSAMKEIT ZUM STURM UND DRANG.**

**749. THE CLASSICAL GOETHE.**  
The major works of Goethe's Weimar period; poetry; drama, fiction.

**750. THE LATER GOETHE.**

**751. GOETHE'S FAUST.**

**752. SCHILLER.**  
Schiller's literary and philosophical works.

**758. EARLY ROMANTICISM.**  
Philosophical background and literary works of the early Romantic movement.

**759. LATER ROMANTICISM.**  
Later development of Romanticism from Brentano to Heine, including the anti-Romantic tendencies of the time.

**763. 19TH-CENTURY POETRY AND PROSE.**  
Poetry by Heinrich Heine, Eduard Mörike, Annette von Droste-Hülshoff a.o. and of prose by Heinrich Heine and the writers of Biedermeier and Das Junge Deutschland.

**764. 19TH-CENTURY DRAMA.**  
Kleist, Grillparzer, Büchner, Grabbe, Hebbel.

**765. LITERATURE OF REALISM.**  
From Gotthelf to Fontane.

**771. 20TH-CENTURY POETRY I.**  
Emphasis on George, Hofmannsthal, Rilke.

**772. 20TH-CENTURY POETRY II.**  
Emphasis on expressionist and post-expressionist poetry.

**773. 20TH-CENTURY PROSE I.**  
The early Thomas Mann and his generation.

**774. 20TH-CENTURY PROSE II.**  
New trends of fiction after the First World War.

## UNIVERSITY OF MASSACHUSETTS

775. 20TH-CENTURY DRAMA.  
From Wedekind to Brecht.

777. BIBLIOGRAPHY AND METHODOLOGY.  
An introduction to tools and methods of research.

DAVID WYMAN, *Professor*, B.A., Boston, 1951; M.Ed., Plymouth Teachers College, 1961; M.A., Harvard, 1962; Ph.D., 1966.

## GRADUATE SCHOOL

### GRADUATE PROGRAMS IN HISTORY

More complete information on graduate study in History may be found in the Departmental statement, *Graduate Program in History*, available from the History office. Because requirements are currently under revision, students are advised to consult the most recent edition of this statement.

### THE DOCTOR OF PHILOSOPHY DEGREE PROGRAM

The Department of History offers doctoral work in four major areas of history: Europe, Great Britain, United States and Latin America. Each of these areas is divided into various sub-fields.

On admission as a Ph.D. candidate each student is assigned a Guidance Committee to advise and approve the choice of doctoral fields appropriate to the student's major interests. The candidate chooses an area of specialization, and within this area a major field.

*Course work:* Candidates without previous graduate training: 15 courses including four graduate seminars. Candidates with an M.A. from another institution: eight courses at the 700-800 series including two graduate seminars.

*Language proficiency:* Candidates must pass the departmental examination demonstrating reading ability in one foreign language. Students specializing in areas for which knowledge of more than one foreign language is normal for scholarly work must pass the examination in the relevant languages.

*Preliminary Comprehensive Examination:* Candidates must pass the general examination in four fields (major area of specialization and three supporting fields). At least two but not more than three are in the candidates area of specialization. With the approval of the major adviser and of the departmental Graduate Program Director, the candidate may offer one field in a department other than history.

*Dissertation:* A dissertation is required. Candidates must submit and defend in an oral examination an acceptable dissertation on a topic approved by the candidate's Dissertation Committee. Doctoral degree candidates shall complete *all* requirements within six calendar years of initial registration to that degree program (if admitted *without* the Master's degree or its equivalent) or within four calendar years of initial registration (if admitted *with* the Master's degree or its equivalent).

*Residence:* Minimum: full-time residence at the University of Massachusetts for one academic year.

### THE MASTER OF ARTS DEGREE PROGRAM

Each M.A. candidate selects a major field of concentration from those offered by the History Department. The M.A. fields offered include the following: United States, Latin America, Europe, Great Britain, Near and Middle East, East Asia, History of Science. Selection of the student's adviser is based on the choice of a field of concentration.

*Language proficiency:* All M.A. candidates must demonstrate a reading knowledge in one foreign language. U.S. history specialists may substitute proficiency in an alternative tool of research.

*Course work:*

1) Each student must complete eight courses of which at least six must be in the 700-800 series.

## UNIVERSITY OF MASSACHUSETTS

## HISTORY

2) Students may write a Master's thesis for 8 credits as a substitute for two courses in the 700 series, one of which may be a seminar.

3) A minimum of two graduate seminars must be completed and one course in historiography.

4) Four courses is the normal permissible program per semester

**Examination:** The candidate must pass an oral examination on his primary field of interest to be conducted by a three member examining committee. The student is expected to complete his program within a three-year period from initial registration.

### THE MASTER OF ARTS PROGRAM FOR TEACHERS

This M.A. degree program emphasizes the special needs of secondary school teachers; it stresses breadth of knowledge rather than concentration, and critical reading more than the development of research techniques.

The student is required to complete eight courses at least four of which must be in the 700 to 800 level. Each student's program is planned with reference to preparation for teaching. The student must complete a semester course entitled "The Teaching of History," and may include three courses in associated disciplines at the discretion of the adviser.

Examinations in foreign languages are not required of students in this program, yet admission to certain courses in the history of non-English speaking countries necessitates a competence in the relevant language.

Nine credits is the minimum program per semester. The student should expect to complete his or her program within a three-year period.

A candidate must pass an oral examination based, in consultation with the adviser, upon an appropriate range of his or her graduate courses including "The Teaching of History." Three members of the graduate faculty will conduct the examination. Transfer to the regular Master of Arts program may be made with the approval of the department.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### COURSES OPEN TO GRADUATE STUDENTS ONLY (For either major or minor credit)

**700. SPECIAL PROBLEMS IN HISTORY.**  
Directed research and writing for qualified students.  
Prerequisite, permission of instructor. *Credit, 1-6.*

**701. EUROPEAN HISTORIOGRAPHY TO THE ENLIGHTENMENT.**  
Critical evaluation of the techniques and ideas of major historians and influential schools of historical interpretation from the Greeks through the Renaissance.  
*Credit, 4. Mr. Ware.*

**702. EUROPEAN HISTORIOGRAPHY; THE ENLIGHTENMENT TO THE PRESENT.**  
Techniques and ideas of major historians and influential schools of historical interpretation, and the relation of historiography to the intellectual and political history of modern Europe.  
*Credit, 4. Mr. Greenbaum. Mr. Johnston.*

**703. AMERICAN HISTORIOGRAPHY THROUGH THE CIVIL WAR.**  
Interpretations of major themes as developed in the works of leading historians.  
*Credit, 4. Mr. Davis.*

**704. AMERICAN HISTORIOGRAPHY; 1865 TO THE PRESENT.**  
Interpretations of major themes as developed in the works of leading historians.  
*Credit, 4. Mr. McFarland.*

**705. PHILOSOPHY OF HISTORY.**  
The "philosophy of history" both as epistemology and as a method of explanation, and a comparison of the aims of history and the sciences. Analysis of the nature of history: the difference between truth and fact, the possibility of objectivity, and the theory of historical explanation. Major historians in the field are read, from Thucydides and Augustine to Croce and Toynbee.  
*Credit, 4. Mr. Johnston.*

**706. LATIN AMERICAN HISTORIOGRAPHY.**  
Techniques and interpretations developed by representative historians from the conquest to the present.  
Prerequisite, reading knowledge of Spanish or Portuguese, or permission of instructor.  
*Credit, 4. Mr. Hanke.*

**707. LATE MEDIEVAL AND RENAISSANCE PALAEOGRAPHY.**  
Instruction in reading the scripts of original documents. Required of Ph.D. specialists in these fields.  
*Credit, 4. Mr. Haldi.*

**708. TOPICS IN ANCIENT HISTORY I.**  
The Near East and Greece. Papers may obtain seminar credit with instructor's approval.  
*Credit, 4. Mr. Kirk.*

**709. TOPICS IN ANCIENT HISTORY II.**  
Early Italy and Rome, to the end of the Empire in the West. Papers may obtain seminar credit with instructor's approval.  
*Credit, 4. Mr. Kirk.*

**710. TOPICS IN HISTORY.**  
Readings, discussions, reports.  
*Credit, 4*

**711. TOPICS IN EARLY MEDIEVAL HISTORY.**  
Continuity between ancient and medieval civilization.  
Prerequisites, working knowledge of Latin and one modern language (German, French, Italian) or permission of instructor.  
*Credit, 4. Mr. Lewis. Mr. Ware.*

**712. TOPICS IN THE AGE OF THE RENAISSANCE AND REFORMATION.**  
European culture between 1400 and 1600. A reading knowledge of a modern European language is generally required.  
*Credit, 4. Mr. Haldi.*

**713. TOPICS IN THE AGE OF THE ENLIGHTENMENT.**  
The movement of ideas in Atlantic civilization during the 18th century. The mind and writings of representative European and American thinkers. Emphasis on politics, religion, science, literature and the arts.  
*Credit, 4. Mr. Greenbaum.*

**714. TOPICS IN TUDOR AND STUART ENGLAND.**  
Selected aspects of the Tudor age; the interplay of social, and political factors involved in the Stuart Revolution. Constitutional developments emphasized.  
*Credit, 4. Mr. Shipley.*

**715. TOPICS IN RECENT EUROPEAN HISTORY.**  
Basic developments in diplomatic, political, social, and economic history since 1800. Emphasis on organic growth and change.  
*Credit, 4. Mr. Gordon.*

**716. TOPICS IN WORLD WAR II AND AFTERMATH.**  
Pre-nuclear total war in its military development and its political, economic, and social ramifications in modern Western society; the postwar settlements and their effects.  
*Credit, 4. Mr. Gordon.*

**717. TOPICS IN THE RECENT SOCIAL HISTORY OF EUROPE.**  
The social changes resulting from the industrialization of Europe since 1815 and their relationship to economic and political developments. The methods and materials needed for effective work in recent social history. A series of short problems illustrating proper utilization of the sources.  
*Credit, 4. Mr. Gordon.*

## HISTORY

## GRADUATE SCHOOL

### 718. TOPICS IN NINETEENTH-CENTURY INTELLECTUAL HISTORY.

Selected major currents in European thought since the French Revolution, their origins, development, and influence. Reading knowledge of French or German is desirable.

*Credit, 4. Mr. Johnston.*

### 719. PROBLEMS IN BRITISH IMPERIAL HISTORY SINCE 1783.

Aspects of such general topics as the problems of imperial government after the American Revolution, the Durham Report and the growth of the dominions, the difficulties and effect of implantation of British institutions in Asia and Africa, the lessening of British control and the Statute of Westminster, and the political and economic importance of the Commonwealth in world affairs.

*Credit, 4. Mr. Wickwire, Mrs. Wickwire.*

### 720. TOPICS IN BRITAIN IN THE 19TH CENTURY.

Central themes and topics. Emphasis on the history of thought in its relation to political, economic, and social developments.

*Credit, 4. Mr. Hernon.*

### 721. PROBLEMS IN RUSSIAN HISTORY.

Russia in the 19th and 20th centuries. Emphasis on Russian and Soviet historiography. Intensive reading and careful analyses of selected topics.

*Credit, 4. Mr. McNeal, Mr. Jones.*

### 722. TOPICS IN MODERN SPANISH HISTORY.

Spanish history from the end of the reign of Philip II to the end of the Spanish Civil War.

*Credit, 4.*

### 730. TOPICS IN EARLY AMERICAN HISTORY.

Colonial America from discovery and settlement of the New World through the Federalist era.

*Credit, 4. Mr. Bernhard, Mr. Bell.*

### 731. TOPICS IN THE ERA OF THE CONFEDERATION AND THE CONSTITUTION.

The formative years of the American nation; the evolution of federal and state constitutions; basic political issues and conflicts; the pattern of economic and social development.

*Credit, 4. Mr. Davis, Mr. Bernhard.*

### 732. TOPICS IN THE NATIONAL PERIOD.

A reading course. Basic features of American political, social, and economic history from the rise of Jeffersonianism to the Civil War.

*Credit, 4. Mr. Cantor, Mr. Richards.*

### 733. TOPICS IN THE AMERICAN CIVIL WAR ERA.

Analysis and interpretation of slavery and abolition, Southern nationalism, the breakdown of national parties, causes of the War, wartime politics and the War's impact.

*Credit, 4. Mr. Oates.*

### 734. TOPICS IN THE GILDED AGE.

Investigation of national re-unification, Grantism, dead center politics, genteel reform, the new industrialism and business leadership, labor and agrarian problems.

*Credit, 4. Mr. McFarland.*

### 735. TOPICS IN THE PROGRESSIVE ERA OF THE UNITED STATES.

Emphasis on the political, social, economic, and cultural aspects of the Progressive Era, and an analysis of the interpretations of historians and others.

*Credit, 4. Mr. Tager, Mr. Thompson.*

### 736. TOPICS IN AMERICAN DIPLOMATIC HISTORY.

Readings in the primary and secondary sources for the study of important phases in American diplomacy.

*Credit, 4. Mr. Hart.*

### 737. TOPICS IN THE UNITED STATES BETWEEN THE WORLD WARS.

Major issues in American political, social, and economic life between the two World Wars.

*Credit, 4. Mr. Quint, Mr. Wyman.*

### 738. TOPICS IN UNITED STATES INTELLECTUAL HISTORY.

Specific aspects of such general topics as the American adaptation of the European heritage, the growth of the concept of Americanism, the emergence of patrician leadership, the achievement of realistic democracy, the triumph of nationalism, the assertion of individualism in a corporate society, and the scientific-humanistic culture conflict.

*Credit, 4. Mr. Quint, Mr. Cantor, Mr. Boyer.*

### 739. TOPICS IN MASSACHUSETTS HISTORY.

Development of the Commonwealth and its relationship to regional and national institutions and thought from early colonial times to the present. Abundant primary and secondary source materials. A foundation for further research.

*Credit, 4. Mr. Nissenbaum.*

### 740. TOPICS IN UNITED STATES URBAN HISTORY.

The origins of the modern American city and the complex problems engendered by large-scale urbanization.

*Credit, 4. Mr. Tager.*

### 741. TOPICS IN AMERICAN SOCIAL HISTORY.

A behavioral approach to the history of American society: the family, religion, ethnicity, socialization of children, explanations of social change etc.

*Credit, 4. Mr. DePillis.*

### 745. TOPICS IN MODERN AND CONTEMPORARY SOUTH AMERICA.

Political, economic, social, and ideological forces in the history of Latin America since independence. Reading knowledge of Spanish or Portuguese desirable.

*Credit, 4. Mr. Potash.*

### 748. TOPICS IN ISLAMIC AND MODERN MIDDLE-EASTERN HISTORY AND POLITICS.

Readings in primary and secondary sources for the study of important aspects of Islamic and Middle Eastern development.

Prerequisite, permission of instructor.

*Credit, 4. Mr. Biddle, Mr. Kirk.*

### 750. RESEARCH SEMINAR IN HISTORY.

Training in historical research.

Prerequisite, permission of instructor.

*Credit, 4.*

### 751. SEMINAR IN MEDIEVAL HISTORY.

Training in historical research.

Prerequisite, permission of instructor.

*Credit, 4. Mr. Lewis, Mr. Ware.*

### 752. SEMINAR IN RENAISSANCE AND REFORMATION.

Training in historical research.

Prerequisite, permission of instructor.

*Credit, 4 each semester; total credit, 4. Mr. Ilardi.*

### 753. SEMINAR IN THE ENLIGHTENMENT.

Training in historical research.

Prerequisite, permission of instructor.

*Credit, 4. Mr. Greenbaum.*

### 754. SEMINAR IN 18TH-CENTURY BRITAIN.

Training in historical research.

Prerequisite, permission of instructor.

*Credit, 4. Mr. Wickwire.*

### 755. SEMINAR IN MODERN ENGLISH HISTORY.

Research on selected topics, 1890-1940.

Prerequisite, permission of instructor.

*Credit, 4. Mr. Hernon.*

### 756. SEMINAR IN MODERN GERMANY.

Training in historical research.

Prerequisite, permission of instructor.

*Credit, 4. Mr. Gordon.*

### 757. SEMINAR IN MODERN FRANCE.

Training in historical research.

Prerequisite, permission of instructor.

*Credit, 4. Mr. Rearick.*

## UNIVERSITY OF MASSACHUSETTS

### 758. SEMINAR IN RUSSIAN HISTORY

Training in historical research.

Prerequisite, permission of instructor.

*Credit, 4.* Mr. Jones, Mr. McNeal.

### 759. EUROPEAN DIPLOMACY SINCE 1915.

Training in historical research and an introduction to the relationships among European nations in a critical period.

Prerequisite, permission of instructor.

*Credit, 4.* Mr. Swartz.

### 761. SEMINAR IN EARLY AMERICAN HISTORY.

Training in historical research.

Prerequisite, permission of instructor.

*Credit, 4.* Mr. Bell, Mr. Bernhard

### 762. SEMINAR IN THE AGE OF JACKSONIAN DEMOCRACY.

Training in historical research.

Prerequisite, permission of instructor.

*Credit, 4.* Mr. Richards.

### 763. SEMINAR IN THE CIVIL WAR AND RECONSTRUCTION.

Training in historical research.

Prerequisite, permission of instructor.

*Credit, 4.* Mr. Oates

### 764. SEMINAR IN THE WESTWARD MOVEMENT OF THE UNITED STATES

Training in historical research.

Prerequisite, permission of instructor.

*Credit, 4.* Mr. DePillis, Mr. Davis.

### 765. SEMINAR IN THE PROGRESSIVE ERA IN THE UNITED STATES.

Training in historical research.

Prerequisite, permission of instructor. *Credit, 4.* Mr. Quint

### 766. SEMINAR IN THE UNITED STATES BETWEEN THE WORLD WARS.

Training in historical research.

Prerequisite, permission of instructor. *Credit, 4.* Mr. Quint

### 767. SEMINAR IN AMERICAN DIPLOMATIC HISTORY

Training in historical research.

Prerequisite, permission of instructor. *Credit, 4.* Mr. Hart

### 768. SEMINAR IN AMERICAN INTELLECTUAL HISTORY TO THE CIVIL WAR.

Training in historical research.

Prerequisite, permission of instructor.

*Credit, 4.* Mr. Cantor.

### 769. SEMINAR IN AMERICAN INTELLECTUAL HISTORY SINCE THE CIVIL WAR.

Training in historical research.

Prerequisite, permission of instructor. *Credit, 4.* Mr. Quint.

### 770. SEMINAR IN THE COLONIAL HISTORY OF SOUTH AMERICA.

Training in historical research.

Prerequisite, permission of instructor. *Credit, 4.*

### 771. SEMINAR IN ARGENTINE HISTORY.

Training in historical research.

Prerequisite, permission of instructor.

*Credit, 4.* Mr. Potash.

### 772. SEMINAR IN MEXICAN HISTORY.

Training in historical research.

Prerequisite, permission of instructor.

*Credit, 4.* Mr. Potash.

### 780. SEMINAR IN ISLAMIC AND MODERN MIDDLE EASTERN HISTORY AND POLITICS.

Training in historical research.

Prerequisite, permission of instructor.

A reading knowledge of a European language is highly desirable. *Credit, 4.* Mr. Biddle, Mr. Kirk.

## HISTORY

### 800. MASTER'S THESIS.

*Maximum credit, 8.*

### 900. DOCTORAL DISSERTATION

*Credit, 18*

### COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS (For either major or minor credit)

#### 500. THE ANCIENT WORLD TO 500 B.S.

From the origins of human society to the Greeks' confrontation with the Persian Empire.

Mr. Kirk.

#### 501. THE ANCIENT WORLD: PERICLES TO CONSTANTINE.

The successive assertions and breakdowns of leadership in the Greek and Roman world.

Mr. Kirk

#### 502. EARLY MIDDLE AGES (300-1100).

Spread of Christianity; pagan and early Christian culture; Germanic kingship; the Carolingian world; early feudalism; monasticism and ecclesiastical centralization.

Mr. Lewis, Mr. Ware.

#### 503. THE LATER MIDDLE AGES (1100-1350).

Revival of towns and commerce; the growth and development of the feudal monarchies and ecclesiastical authority; rise of secularism.

Mr. Lewis, Mr. Ware

#### 505. RENAISSANCE AND REFORMATION: 1300-1600.

The changes in European thought and institutions during the development of Humanism.

Mr. Hardi

#### 506. RENAISSANCE AND REFORMATION: 1300-1600.

The impact on the late Renaissance of the Protestant and Catholic Reformations.

Mr. Hardi

#### 507. EUROPE IN THE ENLIGHTENMENT: 1685-1789

Civilization of Western Europe in the 18th century, its social milieu, intellectual setting, institutional forces, religious tendencies, aesthetic contributions, and the growth of the revolutionary spirit.

Mr. Greenbaum.

#### 508. THE FRENCH REVOLUTION AND NAPOLEON.

Political change in Europe from the Old Regime and the French Revolution to the fall of Napoleon.

Mr. Greenbaum.

#### 509. HISTORY OF EUROPE: 1815-1870.

Major developments in the internal and international affairs of the European states from the Congress of Vienna to the Franco-German War.

Mr. Reaick

#### 510. EUROPE: 1870-1918.

Internal developments of the principal countries; conditions and diplomacy which led to the World War; military and diplomatic history of the war years.

Mr. vanSteenberg.

#### 511. EUROPE SINCE 1918.

Major developments in the internal and international affairs of the European states since World War I.

Mr. vanSteenberg.

#### 512. EUROPEAN INTELLECTUAL HISTORY IN THE 19TH CENTURY.

Chief intellectual currents in Europe; romanticism, liberalism, religious revival, socialism, Darwinism, racism and mass culture.

Mr. Johnston.

#### 513. EUROPEAN INTELLECTUAL HISTORY IN THE 20TH CENTURY.

Philosophical, academic, literary, aesthetic, political and popular currents since 1900.

Prerequisite, permission of instructor. Mr. Johnston.

#### 514 (I), 515 (II). THE HISTORY OF RUSSIA.

Political, economic, social, and intellectual development of Russia. Either semester may be elected independently.

*Credit, 3 each semester.* Mr. Jones, Mr. McNeal.

## HISTORY

### 516. THE RUSSIAN REVOLUTION.

Intensive study of the origins, course, and impact of the Bolshevik Revolution. Mr. McNeal.

### 517. SOVIET RUSSIA.

Major social, political, intellectual developments, and the international relations of Soviet Russia since the Bolshevik Revolution. Mr. McNeal.

### 518. EARLY MODERN GERMANY.

From the end of the Thirty Years' War to the collapse of the Napoleonic hegemony. Mr. Gordon.

The evolution and development of Germany since the Congress of Vienna; emphasis on diplomatic, political, military and social-economic trends and problems. Mr. Gordon.

### 520. MODERN SCANDINAVIA.

The major issues of domestic and foreign politics of the states of Northern Europe in the 19th and 20th centuries. Mr. vanSteenberg.

### 521. FRANCE SINCE 1789.

Selected formative political crises from 1789 to the present and their settings in the economic, social, and intellectual life of modern France. Mr. Rearick.

### 522. IMPERIAL SPAIN: 1450-1810.

Early modern Spain from the time of Ferdinand and Isabella to the outbreak of the Spanish-American wars for independence, including the Habsburg and early Bourbon periods. Mr. White.

### 524. EUROPEAN DIPLOMATIC HISTORY: 1870-1914.

The internal politics and foreign policies of the major European powers. Emphasis on the themes of nationalism, liberalism, alliance systems, and the origins of World War I. Mr. Swartz.

### 525. EUROPEAN DIPLOMATIC HISTORY: 1914-1956.

The internal politics and foreign policies of the major European powers. Emphasis on the importance of World War I, the polarization of national and international politics; the origins, course, and aftermath of World War II, and the post-war world. Mr. Swartz.

### 526 (I), 527 (II). MILITARY HISTORY OF MODERN EUROPE.

Development of European military theory and practice. First semester, Napoleonic era to 1914; second semester, 1914 to the present. Mr. Gordon.

### 528. 17TH-CENTURY EUROPE.

Europe from the Wars of the Counter-Reformation to the Glorious Revolution. Civilization of the Baroque in its social, political, economic, religious and intellectual settings. Mr. Greenbaum.

### 529. SOCIAL HISTORY OF EARLY MODERN EUROPE.

The social institutions of Europe as they changed from a system of feudal organization to pre-industrial society, including the evolution of the town to the city, the changing role of the church and agrarian life, and the development of an intellectual class. Mrs. Chrisman.

### 530. HISTORY OF MODERN ITALY.

Survey of modern Italy from the origins of the Risorgimento in the 18th century to the "opening to the left" of the 1960's, with particular reference to domestic problems after the unification, to Italian foreign policy up to the Second World War, and to the rise and consolidation of fascism. Mr. Sarti.

### 531 (I), 532 (II). ENGLISH HISTORY.

Economic, social, and cultural influences, as well as constitutional development. Either semester may be elected independently. Credit, 3 each semester. Mr. Wickwire, Mrs. Wickwire.

## GRADUATE SCHOOL

### 533. MEDIEVAL ENGLAND.

England from the fifth to the fifteenth century, with attention to the Anglo-Saxon period, the Norman conquest, and the evolution of government to the accession of the Tudors. Mr. Ware.

### 534 (I), 535 (II). TUDOR-STUART ENGLAND: 1485-1688.

Selected aspects of the constitutional, social, intellectual, and imperial history of England in this period. Either semester may be elected independently. Credit, 3 each semester. Mr. Shipley.

### 536. BRITAIN IN THE 18TH CENTURY.

Selected aspects of social, intellectual, imperial, and constitutional history including the Acts of Union. Impact of the Industrial and French Revolutions. Mr. Wickwire, Mrs. Wickwire.

### 537 (I), 538 (II). MODERN BRITAIN.

Selected topics on the political, social, and intellectual development of Britain in the nineteenth and twentieth centuries. Either semester may be elected independently. Credit, 3 each semester. Mr. Hernon, Mrs. Berkman.

### 539. HISTORY OF THE BRITISH EMPIRE AND COMMONWEALTH SINCE 1783.

Evolution of British imperial policy; growth of the Dominions, the Commonwealth, and the dependent Empire; role of the Empire in world politics. Mr. Wickwire, Mrs. Wickwire.

### 540 (I), 541 (II). SOCIAL HISTORY OF EUROPE SINCE THE FRENCH REVOLUTION.

Analysis of social classes, their rise, alteration, and fall. Interrelationships of political, economic, and social developments. Mr. Gordon, Mr. Sarti.

### 601. HISTORY OF ARGENTINA 19TH, 20TH CENTURIES.

Argentina since the 18th century. Attention to political, social, and economic change and, in the 20 century, to the growing importance of labor and the military in politics. Mr. Potash.

### 602. THE HISTORY OF MEXICO.

Mexico from the end of the 18th century to the present. Emphasis on political, economic, and social developments. Mr. Potash.

### 603. THE CARIBBEAN.

The Caribbean as a focus of conflict and adjustment from the 15th century to the present. Mrs. Loy.

### 604. HISTORY OF GRAN COLOMBIA.

Colombia, Venezuela, and Ecuador from colonial settlement to the present. Mrs. Loy.

### 605. HISTORY OF THE ANDEAN REPUBLICS.

Peru, Bolivia, and Chile from the late colonial period to the present. Emphasis on political, social and economic developments; particular attention to institutions.

### 607. THE HISTORY OF THE PORTUGUESE EMPIRE.

A survey of the colonial empire Portugal created in Morocco, West Africa, Mozambique, India, Brazil, and the Far East — from the capture of Ceuta in 1415 until Portugal recognized the independence of Brazil in 1825. Comparative treatment of economic affairs, political institutions, race relations, and cultural developments. Mr. White.

### 608. THE HISTORY OF BRAZIL: 1822-1970.

A general view of the cultural, economic, and political development of Brazil since 1822. How the largest and most populous nation in Latin America has become a significant power. Mr. White.

### 616. AMERICAN COLONIAL HISTORY TO 1763.

Discovery and exploration, early European settlements, systems of political and economic control, religious and intellectual development. Anglo-French rivalry. Mr. Bernhard, Mr. Bell.

## UNIVERSITY OF MASSACHUSETTS

617. **THE AMERICAN REVOLUTIONARY ERA.**  
Coming of the Revolution; War for Independence; evolution of American federalism. Mr. Bernhard, Mr. Bell.

618. **THE EARLY NATIONAL PERIOD, 1789-1828.**  
Development of the United States in its formative years, emphasizing political, intellectual, and diplomatic factors. Mr. Bernhard.

619. **JACKSONIAN AMERICA.**  
Political, economic, and social developments in the period before the Civil War. Mr. Richards.

620. **CIVIL WAR.**  
Debate over slavery, political party conflicts, the secession crisis, conduct of the war, political problems during the war. Mr. Oates.

621. **RECONSTRUCTION ERA.**  
Problems of the nation's reunification after the Civil War. Mr. Swenson.

622. **THE GILDED AGE.**  
The emergence of modern political issues during the final decades of the 19th century. Emphasis on the role of industrialization, corporate consolidation, urban growth, and labor, agrarian and genteel protest. Mr. McFarland.

624. **THE PROGRESSIVE AGE (1900-1920).**  
The political response to the changing economic and social conditions in American life. Mr. Thompson, Mr. Tager.

625. **THE UNITED STATES BETWEEN THE WORLD WARS.**  
American political, economic, and intellectual life between the two World Wars. Mr. Griffith, Mr. Wyman.

626 (I), 627 (II). **HISTORY OF AMERICAN THOUGHT AND CULTURE.**  
The basic strands of American thought and their reflection in American culture. First semester deals with the period before 1865. Either semester may be elected independently. Mr. Cantor, Mr. Boyer, Mr. Nissenbaum.

628. **UNITED STATES CONSTITUTIONAL HISTORY TO THE CIVIL WAR.**  
Origins and development of American constitutionalism from the 17th century to the outbreak of sectional armed conflict. Mr. Cantor.

629. **UNITED STATES CONSTITUTIONAL HISTORY FROM THE CIVIL WAR TO THE PRESENT.**  
Evolution of constitutional power in modern America. Mr. Cantor.

630 (I), 631 (II). **SOCIAL HISTORY OF THE UNITED STATES.**  
The evolving status of individuals and groups and problems of migration, livelihood, urbanization, and social conflict. Either semester may be selected independently. Mr. DePillis.

632. **THE SOUTH IN AMERICAN HISTORY.**  
From early settlement to contemporary regional problems. Mr. Thompson.

633. **HISTORY OF AMERICAN WESTWARD EXPANSION: 1763-1893.**  
Advance of settlement from the Appalachians to the Pacific and the influence of the frontier upon social, economic, and political conditions. Mr. Davis, Mr. Oates.

634 (I), 635 (II). **DIPLOMATIC HISTORY OF THE UNITED STATES.**  
Development of American foreign relations, 1776 to the present. Either semester may be elected independently. Mr. Hart, Mr. Pelz.

636. **HISTORY OF THE AMERICAN LABOR MOVEMENT.**  
Evolution of the trade unionism in American life from late

## HOME ECONOMICS

18th century origins through post-Civil War developments to the present. Critical evaluation of changes in labor history. Mr. Laurie.

637. **THE CITY IN THE MODERN UNITED STATES.**  
The industrial city and the full-scale urbanization of the modern United States. The effect of city life upon the social, political, and economic institutions of America. Emphasis on the historical origins of the problems of modern urban existence. Mr. Tager.

639. **UNITED STATES SINCE PEARL HARBOR**  
Emphasis on political, economic, and social currents since World War II. Mr. Griffith, Mr. Wyman.

640. **CIVILIZATION OF ISLAM I.**  
The development of Islam from theocracy to empire with emphasis on the evolution of Islamic law and theology, Arabic literature, Persian literature, Sufism, and Shiism from 500 A.D. to 1200 A.D. Mr. Biddle.

641. **CIVILIZATION OF ISLAM II.**  
The emergence of non-Arab peoples as the preponderant political influence in the Islamic world and the impact of these peoples on the institutions and traditions of Islam. The empires of the Persians, the Turks, and Muslim civilization in India, 1000 A.D. to 1600 A.D. Mr. Biddle.

642. **THE MODERN MIDDLE EAST.**  
From the impact of the West on the Islamic empires to the present "confrontation" of the West and the Soviet Union Arab and Israeli nationalism. Mr. Kirk.

660. **HISTORY OF MODERN CHINA: THE 19TH CENTURY.**  
The nature of the "traditional" Chinese order inherited by China's alien Manchu rulers; China's response to the West; rise of rebellions; failure of conservative reform; disintegration of an ancient civilization. Mr. Drake.

661. **HISTORY OF MODERN CHINA: THE 20TH CENTURY.**  
Twentieth-century China's revolutions — intellectual, social, economic, political — and their settings, up to the present. Mr. Drake.

662. **HISTORY OF JAPANESE CIVILIZATION**  
The development of Japanese civilization from its origins to the mid-nineteenth century. Mr. Minear.

663. **HISTORY OF MODERN JAPAN.**  
Japan's modernization from the mid-19th century. Mr. Minear.

## Home Economics

### GRADUATE FACULTY

HELEN R. VAZNAIAN, *Associate Professor and Director of the Division of Home Economics*, B.S., State College, Framingham, 1946; M.Ed., Boston University, 1951; Ph.D., Connecticut, 1973.

MARION A. NIEDERPRUM, *Professor and Graduate Program Director*, B.S., New York at Buffalo, 1935; M.S., New York University, 1944; Ph.D., University of Michigan, 1956.

NYLDA LOPEZ-ANSARI, *Associate Professor*, B.S., Inter American University, San German, Puerto Rico, 1954; M.S., Pennsylvania State, 1958; Ph.D., Florida State, 1969.

MARY E. GREEN, *Associate Professor*, B.S., Framingham State, 1956; M.Ed., Boston State, 1960; Ph.D., Cornell, 1968.

## HOTEL, RESTAURANT AND TRAVEL ADMINISTRATION

AURELIA TOYER MILLER, *Associate Professor*, B.S., Bluefield State, 1938; M.A., Atlanta, 1942; Ph.D., New York University, 1952.

BILLIE G. MURPHY, *Associate Professor*, B.A., Blue Mountain, 1951; M.S., Alabama, 1952; Ph.D., Pennsylvania State, 1972.

ANNE H. RIDEOUT, *Professor*, B.S., Middle Tennessee State, 1959; M.A., Connecticut, 1968; Ed.D., Massachusetts, 1974.

WARREN F. SCHUMACHER, *Assistant Professor*, B.A., Cathedral, 1952; J.C.D., Gregorian University (Italy), 1961; M.S., Iona, 1967.

### SUPPORTING FACULTY

KENNETH A. ERTEL, *Professor of Education*.

JACK HRUSKA, *Associate Professor of Education*.

IRENE NYSTROM, *Lecturer in Education*.

The Division of Home Economics grants a Master of Science degree to those who complete one of its several graduate programs of study which are designed to facilitate the development of personal and professional competencies essential to the thrust of Home Economics, namely the improvement of individual and family life in a changing society. The programs of study prepare students for a variety of professional positions in education, in government and business, in Cooperative Extension and community services, for example — administrators of community service agencies, teachers of Home Economics, specialists in clothing and textiles and consumer advocates. In consultation with a graduate adviser and/or Guidance Committee, an individualized, interdisciplinary program is developed in accord with the student's academic background, major content of area of interest and future professional goals.

A candidate must have an accredited baccalaureate degree in Home Economics or in a related root discipline and the approval of the Admission Committee of the Graduate Faculty of the Division of Home Economics. Acceptance also depends upon the fulfillment of the general regulations of the Graduate School of the University. Adequate study basic to an academic area of emphasis may be a prerequisite to graduate work in a particular program.

Additional information may be obtained by writing to the Graduate Program Director in the Division of Home Economics.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED.

#### COURSES OPEN TO GRADUATE STUDENTS ONLY (for either major or minor credit)

700. SPECIAL PROBLEMS IN AN AREA OF HOME ECONOMICS. *Credit, 1-6.*

710. SEMINARS IN VARIOUS AREAS OF HOME ECONOMICS, such as:  
INTERPERSONAL RELATIONSHIPS IN A FAMILIAL CONTEXT. *Ms. Ansari.*

READINGS IN CHILD DEVELOPMENT. *Ms. Ansari.*

CONSUMER AND ECONOMIC PROBLEMS. *Ms. Miller.*

## GRADUATE SCHOOL

ECONOMICS OF THE FAMILY. *Ms. Miller.*

CONSUMER BEHAVIOR. *Ms. Murphy.*

INTRODUCTION TO RESEARCH METHODS IN HOME ECONOMICS. *Ms. Murphy.*

CLOTHING BEHAVIOR. *Ms. Murphy.*

SUPERVISION IN HOME ECONOMICS EDUCATION. *Ms. Green.*

800. MASTER'S THESIS. *Credit, 6-10.*  
Individual research.

#### COURSES OPEN TO BOTH GRADUATE AND UNDER-GRADUATE STUDENTS (For either major or minor credit)

565. HISTORY OF COSTUME.  
Western costume from ancient civilization to the present; the relationship of clothing to the period. Study tours.  
Prerequisite, HOM EC 125.

642. TEXTILES.  
Analysis and evaluation of recent scientific and technical developments in fibers and finishes.  
Prerequisite, HOM EC 240.

661. APPAREL DESIGN.  
Patterns and fitting problems; development and use of master pattern in executing original designs.  
One class hour, two 2-hour laboratories.  
Prerequisite, HOM EC 259, or permission of instructor.

681. ADULT EDUCATION IN HOME ECONOMICS.  
Organization of material, and selection, use, and evaluation of teaching techniques suited to group work with adolescents and adults. Credit toward meeting state standards for teachers and A.D.A. requirements.  
Prerequisite, minimum of 6 credits in major area.

682. CURRICULUM AND METHODS IN HOME ECONOMICS.  
Organization, scope, and sequence of learning experiences in home economics education. Philosophy and content of curriculum, development of resource units, and methods of teaching.  
Prerequisites, Psych 601, 563, and Educa 251. *Credit, 4.*

## Hotel, Restaurant and Travel Administration

### GRADUATE FACULTY

STEVENSON W. FLETCHER, III, *Associate Professor and Head of the Department of Hotel, Restaurant and Travel Administration*, B.S., Pennsylvania State, 1960; M.S., 1964; Ph.D., Massachusetts, 1970.

MORTON BACKER, *Professor of Accounting*.

JOSEPH L. BALINTFY, *Professor of General Business and Finance*.

NORMAN G. COURNOYER, *Professor*, J.D., American University Law School, 1955; M.B.A., Massachusetts, 1962; Ph.D., 1970.

CARL DENNLER, JR., *Professor of Accounting*.

ARTHUR ELKINS, *Associate Professor of Management*.

CHARLES E. ESHBACH, *Professor*, B.S., Massachusetts, 1937; M.P.A., Harvard, 1959; M.S., Massachusetts, 1964.

FREDERICK E. FINCH, *Professor of Management*.

## UNIVERSITY OF MASSACHUSETTS

## HOTEL, RESTAURANT AND TRAVEL ADMINISTRATION

JOSEPH A. LITTERER, *Professor of Management.*

PETER B. MANNING, *Associate Professor, B.S., Vermont, 1957; M.S., Rhode Island, 1961; Ph.D., University of Minnesota, 1969.*

JANE F. McCULLOUGH, *Associate Professor, B.S., Ohio University, 1943; M.S., 1953.*

GORDON W. PAUL, *Professor of Marketing.*

ABRAHAM PIZAM, *Associate Professor, B.A., Hebrew University, 1963; M.P.A., New York University, 1965; Ph.D., Cornell, 1970.*

GEORGE SCHWARTZ, *Professor of Marketing.*

JACK S. WOLF, *Professor of Marketing.*

MAX S. WORTMAN, *Professor of Management.*

ALBERT L. WRISLEY, JR., *Professor, B.S., Cornell, 1950; M.A., Michigan State, 1963; Ph.D., Massachusetts, 1971.*

### THE MASTER OF SCIENCE DEGREE PROGRAM

The Department of Hotel, Restaurant and Travel Administration jointly with the School of Business Administration offers a program leading to the M.S. degree in Hotel, Restaurant and Travel Administration. The program is designed for students whose undergraduate education is primarily in hotel and restaurant management, business administration and related fields. The program includes courses in Hotel, Restaurant and Travel Administration and Business Administration, which develop the student's analytical and research abilities. The degree requirements are:

1. Basic course work in economics, mathematics, statistics, computer methods, accounting, management, finance, marketing, and Hotel, Restaurant and Travel Administration. Students having deficiencies in any of these areas are required to complete appropriate Foundation Courses described elsewhere in this catalog under Business Administration. Students lacking a background in Hotel, Restaurant and Travel Administration are required to complete HRTA 590 and/or other appropriate Hotel, Restaurant and Travel Administration courses.

2. All candidates shall complete the following courses: BA 656/657, BA711, BA722, BA751, HRTA 701, HRTA 702, HRTA 703 and HRTA 704.

3. All candidates shall complete at least two electives from the 500, 600 and 700 level offering in the Department of Hotel, Restaurant and Travel Administration or School of Business Administration. Electives from other departments may be chosen, with the consent of the adviser.

4. The candidate must pass an oral examination based upon his or her graduate work. Three members of the graduate faculty conduct the examination.

### APPLICATION

Application for Graduate Study should be made directly through the Dean of the Graduate School, as described elsewhere in this *Bulletin*. A complete application consists of (a) the application form, (b) two references, (c) two sets of official transcripts of all college-level work, and (d) an official score report on the Admission Test for Graduate Study in Business (ATGSB). The Graduate Record Examination is not acceptable for admission. Information on the ATGSB may be obtained from the Educational Testing Service, 20 Nassau Street, Princeton, NJ 08540. Application

deadlines are found elsewhere in this *Bulletin*. Action is taken immediately upon receipt of a complete application by the Graduate School.

Standards for admission are consistent with those described earlier in this *Bulletin*. A minimum ATGSB score, as determined by the Program Admission Committee, must be obtained by all applicants. Foreign students are not exempt from this requirement. Recommended are use of one of the commercially available study guides, and taking the ATGSB as early as possible in order to allow time for retaking the exam without delaying the admissions process. For applicants desiring entry in the Summer Session or Fall semester the ATGSB application must be at the Educational Testing Service before the scheduled examination date in March.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED.

#### COURSES OPEN TO GRADUATE STUDENTS ONLY.

#### 700. SPECIAL PROBLEMS.

Independent study and research on selected problems in Hotel, Restaurant and Travel Administration.

*Credit, 3-6 each semester.*

#### 701. SEMINAR IN PERSONNEL AND INDUSTRIAL RELATIONS IN THE HOSPITALITY FIELD.

Personnel techniques and industrial relations practices in hotels and restaurants. Initiating and accommodating change, individual and organizational within the hotel or restaurant.

*Mr. Cournoyer.*

#### 702. PLANNING AND DECISION MODELS FOR THE HOSPITALITY INDUSTRIES.

The application of planning and decision models to management problems of the hospitality industries. Emphasis on analytical and quantitative decision models.

*Mr. Wrisley.*

#### 703. MARKET AND ECONOMIC FEASIBILITY STUDIES IN THE HOSPITALITY INDUSTRIES.

The identification and description of factors which affect a proposed new hotel or restaurant and the development of pro forma statements projecting costs and profits for such ventures.

*Mr. Cournoyer.*

#### 704. MANAGEMENT INFORMATION SYSTEMS FOR THE HOSPITALITY INDUSTRIES.

The design and implementation of various management information systems within hospitality industry operations, and their implications for management organization, planning and control.

#### 705. ECONOMICS OF TOURISM.

The dimensions of tourism, markets, travel trends. Economics, social and cultural implications. Socio-economic models and measurements of the consequences of tourism on a region.

#### 706. SEMINAR IN FACILITIES PROGRAMMING FOR THE HOSPITALITY INDUSTRIES.

Principles and concepts from related disciplines as they apply to the planning and operation of lodging and feeding facilities. Emphasis on techniques for computer-assisted solutions.

*Mr. Fletcher.*

#### 800. MASTER'S THESIS.

#### COURSE OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS.

(For either major or minor credit)

#### 590. SEMINAR IN HOTEL AND FOOD SERVICE ADMINISTRATION.

The areas of importance to the operation of a hotel or food service operation.

*Mr. Wrisley.*

## Industrial Engineering and Operations Research

### GRADUATE FACULTY

HUGH J. MISER, *Professor and Acting Head of the Department of Industrial Engineering and Operations Research*, B.S., Vanderbilt, 1938; M.A., Armour Institute of Technology, 1940; Ph.D., Ohio State, 1946.

ROBERT D. DAVIS, *Associate Professor and Graduate Program Director*, B.S., Trinity College, 1956; Ph.D., Northwestern, 1968.

JOSEPH L. BALINTFY, *Professor of General Business and Finance*.

WILLIAM J. DUFFY, *Associate Professor*, B.S., University of Michigan, 1955; M.S., 1969; Ph.D., 1971.

RICHARD J. GIGLIO, *Professor*, B.S., Massachusetts Institute of Technology, 1959; M.S. Stanford, 1964; Ph.D., 1966.

FRANK C. KAMINSKY, *Associate Professor*, B.S., Connecticut, 1961; M.S., Northwestern, 1964; Ph.D., 1965.

KLAUS E. KRONER, *Associate Professor*, B.A., College of Wooster, 1949; B.E.E., New York University, 1957; M.S., American International, 1962.

STANLEY LIPPERT, *Associate Professor*, B.A., California at Los Angeles, 1935.

ROBERT F. RIKKERS, *Associate Professor*, B.S., Grinnell College, 1961; M.S., Northwestern, 1964; Ph.D., 1965.

EDWARD J. RISING, *Professor*, B.M.E., Rensselaer Polytechnic Institute, 1950; M.M.E., Syracuse University, 1954; Ph.D., State University of Iowa, 1959.

RICHARD W. TRUESWELL, *Professor*, M.E., Stevens Institute of Technology, 1952; M.S.I.E., 1958; Ph.D., Northwestern, 1964.

### INDUSTRIAL ENGINEERING AND OPERATIONS RESEARCH

The graduate program in industrial engineering emphasizes the modern and analytical aspects of industrial engineering. Operations-research theory and applications are stressed, although not to the exclusion of traditional industrial engineering.

A Ph.D. in industrial engineering is offered in the major areas of operations research, manufacturing and production, and human-factors engineering. Minor areas of specialization are available within the Department in data processing and information-handling systems and in other areas outside the Department such as computer science, business administration, engineering (all majors), statistics, economics and mathematics. Although not formally established as a major or minor area of study it is possible to concentrate on the study of health care delivery systems and other selected topical areas. The requirements for the Ph.D. degree are essentially described in this catalog under general requirements for the Ph.D. degree.

A master's thesis is optional. If no thesis is written, a special project must be completed, bringing the mini-

mum total number of credits required to 33 rather than 30 as under the thesis program. Industrial Engineering and Operations Research graduate students may select theoretical or applied research projects related to either the industrial-financial sector or the public sector; current projects in the public sector are concerned with health-care delivery, the environment, transportation, and community service.

The Department requires no foreign-language reading competency for the doctoral degree.

Additional information may be obtained by writing to the Head of the Department.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### COURSES OPEN TO GRADUATE STUDENTS ONLY (For either major or minor credit)

700. SPECIAL PROBLEMS IN INDUSTRIAL ENGINEERING AND OPERATIONS RESEARCH. Special projects in industrial engineering and/or operations research. Scope varied to meet specific conditions. Prerequisite as required by the problem. *Credit, 1-6.*

701. INDUSTRIAL ENGINEERING AND OPERATIONS RESEARCH. A series of seminars on current, or recent, research conducted by faculty, graduate students, and/or invited lecturers. Required course for all Industrial Engineering and Operations Research graduate students regardless of background. *Credit, 1.*

720. ADVANCED TOPICS IN OPERATIONS RESEARCH I. Theory and application of linear programming. Includes formulation of linear programming models, simplex, revised simplex and dual simplex algorithms, duality, parametric procedures, interpretation of results, and the decomposition principle. Prerequisite, permission of instructor. Mr. Davis, Mr. Giglio, Mr. Rikkers.

722. ADVANCED TOPICS IN OPERATIONS RESEARCH II. Applications and solution techniques for transshipment and discrete programming problems; included are primal-dual algorithms for transshipment problems, primal and dual cutting plane, branch and bound, and heuristic algorithms for discrete programs. Prerequisite, IE/OR 720 or equivalent. Mr. Balintfy, Mr. Davis, Mr. Giglio, Mr. Rikkers.

724. NON-LINEAR AND DYNAMIC PROGRAMMING. Theory and methods required to solve non-linear problems: Kuhn-Tucker theory, quadratic, separable and geometric programming gradient techniques, and dynamic programming. Also methods of stochastic programming are surveyed. Formulations and applications are stressed and case examples are presented. Prerequisite, IE/OR 720. Mr. Davis, Mr. Giglio, Mr. Rikkers.

726. OPERATIONS RESEARCH APPLICATION. Introduction to the practice of operations research. Cases from the literature, the instructor's experience, and backgrounds of government, industry, and education. Field work on an actual case. Prerequisites, IE/OR 680, 720 (concurrent), or permission of instructor. Mr. Giglio, Mr. Miser.

728. RECENT DEVELOPMENTS IN MATHEMATICAL PROGRAMMING. In-depth study of the theory and/or application of recent developments in mathematical programming. Prerequisites, IE/OR 722 and 724. Mr. Davis, Mr. Giglio, Mr. Rikkers.

**751. DESIGN FOR PRODUCTION**

The analysis of the factors and techniques, theoretical and practical, involved in the effective design of production systems.

Prerequisite, basic knowledge of statistics and operations research. Mr. Sadowski.

**752. MECHANIZATION AND AUTOMATION**

Investigation and analysis of the planning and control problems associated with the mechanization and automation of production systems.

Prerequisite, basic knowledge of the area. Mr. Sadowski.

**753. METHODS OF MEASUREMENT OF HUMAN WORK**

Analysis of physiological and/or psychological aspects of work situations. Learning, skilled performance, decision processes.

3 class hours, lectures and projects.

Prerequisite, permission of instructor.

Mr. Duffy, Mr. Lippert.

**754. ADVANCED TOPICS IN ENGINEERING ECONOMY.**

An integrated treatment of elements of engineering economy, economics, accounting, finance and operations research to provide a unified background for economics decision-making.

Prerequisites, background in economics, engineering mathematics, and elementary probability theory. Mr. Giglio.

**755. QUALITY CONTROL AND RELIABILITY ENGINEERING.**

Current methods and techniques in quality control and reliability will be developed and discussed with emphasis being placed on the application of these principles.

Prerequisite, IE/OR 572. Mr. Rising, Mr. Sadowski.

**756. ADVANCED TOPICS IN DATA PROCESSING.**

Probability theory and information theory, components and operation of analog and digital computers, the analysis of large-scale data-processing systems as applied to the functioning of organizational control systems.

Prerequisite, IE/OR 556. Mr. Trueswell.

**757. HUMAN FACTORS DESIGN ENGINEERING.**

The design of engineering systems, machines, consumer goods, etc. which accommodate the characteristics of the human users, operators and maintainers. Methods are developed for obtaining data about human performance, preferences, tolerances, and group behavior needed in engineering design problems. The case method is used with comprehensive readings in the literature. Student projects relating to human factors in design are encouraged.

Prerequisite, permission of instructor.

Mr. Duffy, Mr. Lippert.

**758. DESIGN OF CLOSELY-CONFINED MANNED-OPERATIONS STATIONS (OE 781).**

Introductory anatomy and physiology; respiration, effects of various air composition and pressures on efficiency, console design, anthropometry, work place layout; design of controls, psychological and physiological effects of work in confined spaces; system design and allocation of function.

Three class hours, one 2-hour laboratory per week.

Prerequisite, IE/OR 757 or permission of instructor.

Credit, 4. Mr. Duffy, Mr. Lippert.

**761. DATA PROCESSING SYSTEMS ANALYSIS AND DESIGN.**

Analysis and design of small, medium, and large-scale electronic data processing systems. Real-time systems applications currently in use and proposed in the data-processing areas as opposed to the scientific areas. Electronic data processing systems and their effect on industrial and other organizations.

Mr. Anderson, Mr. Trueswell.

**762. COMPUTER METHOD FOR OPERATIONS RESEARCH/MANAGEMENT SCIENCE APPLICATIONS.**

The development of computer systems to process data and implement algorithms in the operations research/management science literature. A project-oriented course; both technical and user-oriented manuals will be prepared for each project.

Prerequisites, IE/OR 722 or IE/OR 724 (concurrent) and facility with a scientific programming language such as FORTRAN IV.

Mr. Kaminsky, Mr. Rikkers.

**763. INFORMATION SCIENCE AND TECHNOLOGY**

The information searching tools and techniques available to scientific and industrial organizations. Individual and group behavior in using these techniques. Critical analyses of information searching and retrieval systems, both manual and automated.

Mr. Trueswell.

**777. MANUFACTURING CONTROL.**

A quantitative and qualitative analysis of decision-making techniques in manufacturing and production control. Techniques in areas such as scheduling, queuing, inventory control, and process control are studied, extended, and evaluated.

Prerequisites, basic knowledge of statistics, principles of operations research, and an elementary course in the field.

Mr. Rising, Mr. Sadowski.

**783. SIMULATION AND MONTE CARLO TECHNIQUE.**

Theory and application of simulation to problems of interest to the Industrial Engineer. Students are expected to design, develop, test, and evaluate several different types of complex simulation models.

Prerequisites, IE/OR 572, 573. Mr. Sadowski and Staff.

**784. STOCHASTIC PROCESSES IN INDUSTRIAL ENGINEERING I**

Application and theory of stochastic processes with primary emphasis on Markovian processes. Applications in inventory control, maintenance, and queuing theory.

Prerequisite, IE/OR 571. Mr. Kaminsky, Mr. Rikkers.

**785. STOCHASTIC PROCESSES IN INDUSTRIAL ENGINEERING II**

Continuation of IE/OR 784: the study of Markov processes. Included are non-Markovian processes, regenerative stochastic processes, and imbedded Markov processes. Both theory and applications.

Prerequisite, IE/OR 784. Mr. Kaminsky, Mr. Rikkers.

**786. DECISION ANALYSIS**

Decision problems involving the choice between alternatives when uncertainty is present. Emphasis on the practical applications of this method, rather than on the more abstract theory. Topics include the structure of a Decision Analysis problem, the assessment of the decision-maker's value structure.

**791. SEMINAR IN OPERATIONS RESEARCH.**

Current applications, research activities, and research problems in operations research. Advanced master's and Ph.D. students only.

Mr. Davis, Mr. Giglio, Mr. Kaminsky,  
Mr. Miser, Mr. Rikkers.

**792. SEMINAR IN MANUFACTURING AND PRODUCTION.**

Current application, research activities, and research problems in manufacturing and production. Advanced master's and Ph.D. students only.

Mr. Rising, Mr. Sadowski.

**793. SEMINAR IN DATA-PROCESSING AND INFORMATION-HANDLING SYSTEMS**

Current applications, research activities, and research problems in information-handling and data-processing systems. Advanced master's and Ph.D. students only.

Mr. Trueswell.

**800. MASTER'S THESIS.**

Credit, 3-6.

## INDUSTRIAL ENGINEERING AND OPERATIONS RESEARCH

## GRADUATE SCHOOL

### 900. DOCTORAL DISSERTATION.

*Credit, 18.*

### COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS (For either major or minor credit)

#### 553. METHODS AND STANDARDS ENGINEERING.

The principles involved in the simplification of the work pattern and the design of the work place, and in the establishment of production standards.

Three class hours, one 3-hour laboratory period.

Prerequisite, IE/OR 271, previously or concurrently.

*Credit, 4.* Mr. Duffy, Mr. Kroner, Mr. Lippert.

#### 556. DATA PROCESSING AND INFORMATION HANDLING SYSTEMS.

Principles and applications of data-processing and electronic computer systems for use by industrial engineers as a management tool for control and decision making.

Prerequisite, permission of instructor.

Mr. Trueswell.

#### 641. HOSPITAL INDUSTRIAL ENGINEERING I.

Introduction to the application of industrial engineering techniques to hospital management. Emphasis on the institution of industrial engineering programs in hospitals and the choice of suitable projects. Guest lecturers.

Mr. Rising.

#### 642. HOSPITAL INDUSTRIAL ENGINEERING II.

A projects course based upon material covered in IE/OR 641. A study is first made of previous industrial engineering projects in hospitals; each student then conducts a project of his own in a local hospital.

Prerequisite, IE/OR 641.

Mr. Rising.

#### 660. SAFETY ENGINEERING.

Occupational health and safety for industrial engineers. Especial attention directed toward requirements of the Occupational Safety and Health Administration of the Federal Government.

Mr. Lippert.

#### 675. JOB EVALUATION.

The principles used to determine an evaluation of all occupations in order to establish an equitable rating between them, to establish sound wage and salary policies.

Prerequisite, IE/OR 151.

*Credit, 2.* Mr. Duffy, Mr. Lippert.

#### 676. TIME STUDY.

The principles involved in the establishment of production standards and their application in the management function of cost accounting, estimating, production control incentives, budgetary control.

Prerequisite, IE/OR 151 concurrently except for Business Administration majors.

Mr. Duffy, Mr. Lippert.

#### 677. LAYOUT AND DESIGN OF INDUSTRIAL FACILITIES.

The principles applying to plant layout, materials handling, and plant location. Modes of layout presentations illustrated by means of a student project.

Prerequisite, IE/OR 678 or permission of instructor.

Mr. Kroner, Mr. Sadowski.

#### 682. WORK SIMPLIFICATION.

The principles involved in the simplification of means of doing work and in the application and use of these principles.

One class hour, one 3-hour laboratory period.

Prerequisites, ME 568 and IE/OR 676 concurrently.

*Credit, 2.* Mr. Duffy, Mr. Lippert.

### COURSES NOT FOR MAJOR CREDIT

(No graduate credit for students majoring in Industrial Engineering & Operations Research)

#### 560. DESIGN OF MAN-MACHINE SYSTEMS I.

Introduction to principles of human-factors engineering. Anthropometric, physiological, and psychological data sources. Data-gathering and analysis techniques useful to

designers and industrial engineers. Occupational health and safety standards.

Three class hours include lectures, demonstrations, and experiments. Project option.

Mr. Duffy, Mr. Lippert.

#### 561. DESIGN MAN-MACHINE SYSTEMS II.

Human factors data applications to design of equipment and industrial urban and vehicle environment. Decision processes, communication. Problems of layout in industry, hospitals, etc. Involves more complex problem applications than IE/OR 260/560.

Three class hours include lectures, demonstrations, and experiments.

Project option.

Prerequisite IE/OR 260/560 or permission of instructor.

Mr. Duffy, Mr. Lippert.

#### 571. BASIC PROBABILITY FOR ENGINEERS.

Probability theory, including: samples spaces; discrete and continuous random variables; functions of random variables; marginal, conditional, and joint probability, density and cumulative distribution functions and movements.

Prerequisite, Math 124.

Mr. Davis, Mr. Giglio, Mr. Kaminsky, Mr. Rikkers.

#### 572. PRINCIPLES OF ENGINEERING STATISTICS.

Statistical principles as applied to engineering problems including hypothesis testing, estimation, analysis of variance, design of experiments, sampling plans, statistical quality control.

Prerequisite, IE/OR 571.

Mr. Kaminsky.

#### 573. INTRODUCTION TO SIMULATION METHODS

(also listed as GB 573).

Introduction to the principles and methods of computer simulation for the analysis and design of complex systems. Problems associated with developing valid and meaningful conclusions from simulation experimentation. Emphasis on experimental design, model validation and verification, and analysis of results.

Prerequisite, IE/OR 571 and basic knowledge of FORTRAN.

Mr. Kaczka, Mr. Rising, Mr. Balintfy, Mr. Sadowski.

#### 653. INDUSTRIAL-ENGINEERING ECONOMICS I.

Accounting tools used by the industrial engineer for effective cost control and the economic operation of industrial enterprises.

Mr. Giglio, Mr. Kroner, Mr. Sadowski.

#### 654. INDUSTRIAL-ENGINEERING ECONOMICS II.

Intended for all technical personnel. Concepts and techniques required to make sound economic decisions. Topics include use of interest formulas, replacement theory, scheduling algorithms, lease buy decisions, taxation and depreciation, decision-making under risk, forecasting and financing of projects in both the public and private sections.

Mr. Giglio, Mr. Kroner, Mr. Sadowski.

#### 678. PRODUCTION PLANNING AND CONTROL.

Analysis of quantitative and qualitative techniques for production planning and control with emphasis on their application to various production systems.

Prerequisites, IE/OR 572,680.

Mr. Kroner, Mr. Rising, Mr. Sadowski.

#### 679. OPERATIONS RESEARCH I.

Deterministic models of operations research; structure and formulation of decision models for planning and operating systems and algorithms for the solution of linear programs, network problems, integer programs, and multi-stage decision problems. Credit not allowed for student who have taken Management 253,254.

Mr. Davis, Mr. Giglio, Mr. Kaminsky, Mr. Rikkers.

#### 680. OPERATIONS RESEARCH II.

Stochastic operations research models including probabilistic dynamic programming models, Markov chain theory, inventory models, and queuing models. Credit not allowed for students who have taken Management 253, 254.

## UNIVERSITY OF MASSACHUSETTS

## LABOR STUDIES

Prerequisites, IE/OR 679 and IE/OR 571 or an equivalent background in probability theory.  
Mr. Davis, Mr. Giglio, Mr. Kaminsky, Mr. Ridders.

### Labor Studies

#### GRADUATE FACULTY

HARVEY L. FRIEDMAN, *Associate Professor of Political Science and Director of the Labor Relations and Research Center*, J.D., Boston University, 1947.

SOLOMON BARKIN, *Professor of Economics*.

JOHN L. BLACKMAN, JR., *Associate Professor of Economics*.

DAVID R. BLOODSWORTH, *Assistant Director of the Labor Relations and Research Center*, M.S. in Labor Studies, Massachusetts, 1968.

TIM L. BORNSTEIN, *Associate Professor of Law and Industrial Relations*.

JOHN T. CONLON, *Professor of Management*.

HILDA GOLDEN, *Associate Professor of Sociology*.

BRUCE G. LAURIE, *Assistant Professor of History*.

GEORGE T. SULZNER, *Associate Professor of Political Science*.

RICHARD W. TRUESWELL, *Professor of Industrial Engineering*.

BARBARA F. TURNER, *Associate Professor of Human Development and Psychology*.

STANLEY J. YOUNG, *Professor of Management*.

#### THE MASTER OF SCIENCE IN LABOR STUDIES DEGREE PROGRAM

The graduate curriculum leading to the Master of Science in Labor Studies is an interdepartmental one, with responsibility for coordinating students' programs vested in the interdisciplinary committee recommended by the Advisory Council of the Labor Center and approved by the Dean of the Graduate School.

Students in this program are individually advised by members of the Interdisciplinary Committee.

Two years is considered the normal period for completing this degree.

Students who successfully complete the graduate curriculum in Labor Studies will be prepared primarily for academic work, labor union employment, and government service.

The basic requirements for the degree are:

1. Forty-two graduate credits of which no more than nine may be transferred from other accredited institutions.

2. A research project (in the first year), an internship (in the summer), and an administrative assignment in the worker's education extension teaching area (in the second year) are expected of each candidate.

3. A thesis is optional.

Students admitted to the Master of Science in Labor Studies degree program must meet the admission requirements of the Graduate School. An undergraduate major in a social science or in business administration is a normal prerequisite to admission. Applicants for admission should ordinarily have completed introductory college courses in principles of economics,

labor economics or labor problems, statistics, and sociology or psychology. Students may be admitted who are deficient in one or more of these courses, but such students will be required to remove any deficiencies without credit toward the M.S. degree. College-level courses that would be helpful, although not required, include industrial relations, government, and industrial engineering. A feature of the program requires all students to serve a summer internship between their first and second year and an assignment in field work with unions, government agencies, etc.

Students are required to take the following courses in order to qualify for this degree:

BA 751. Organizational Behavior.

History 636. History of the American Labor Movement.

Econ. 743. Wage Theory and Wage Relationships.

Econ. 741. Collective Bargaining.

Econ. 747. Manpower Development.

Labor Rel 710. Seminar in Labor Relations.

Labor Rel 705. Practicum in Labor Research.

One graduate course in the 500, 600, or 700 series in psychology; sociology and/or industrial engineering, approved by the Director. In addition, students are required to choose five electives, at least one of which must be selected from Labor Rel 764, Econ 742, 745, 641, 746, SBA 760 & 762.

#### Required Courses marked with \*.

#### Labor Relations and Research Center Course Offerings

700. SPECIAL PROBLEMS. *Credit, 1-6.*

\*705. PRACTICUM IN LABOR RESEARCH I AND II

The practical aspects of labor relations with periodic seminars on methodology. Research projects of the Center are used for experience, as well as areas of particular concern to the students. *Credit, 6.*

\*710. SEMINAR IN LABOR RELATIONS

Critical issues in the labor field, such as nature of work, "unemployment pockets," racial integration in unions. Based upon historical perspective, selected research and field work. Taken in second year. *Credit, 3. Mr. Friedman.*

764. THE GOVERNMENT OF UNIONS.

The organization and structure of unions, management of union activity, and policies and practices of unions, including administration, contract negotiations, union organization and grievance handling. *Credit, 3. Mr. Friedman.*

777. LABOR RELATIONS IN THE PUBLIC SECTOR.

Labor relations for employees of federal, state, and local government including but not limited to educational employees, professionals, and persons anticipating careers in government. Special attention to statutory requirements.

*Credit, 3. Mr. Friedman.*

#### School of Business Administration Course Offerings

700J. EMPLOYEE RELATIONS LAW.

\*751. ORGANIZATIONAL BEHAVIOR.

761. SEMINAR IN PERSONNEL MANAGEMENT.

762. MANAGEMENT OF INDUSTRIAL RELATIONS.

763. SEMINAR IN INDUSTRIAL RELATIONS.

803. MANAGEMENT SYSTEMS.

## LANDSCAPE ARCHITECTURE AND REGIONAL PLANNING

## GRADUATE SCHOOL

### Department of Economics Course Offerings

- 542. LABOR LAW AND LEGISLATION.
- 638. ECONOMICS OF HEALTH.
- 641. ECONOMIC SECURITY.
- 645. HUMAN RESOURCE ECONOMICS.
- 647. ECONOMICS OF THE LABOR MARKET.
- \*741. COLLECTIVE BARGAINING.
- \*743. WAGE THEORY AND WAGE RELATIONSHIPS.
- 745. LABOR DISPUTE SETTLEMENT.
- 746. COMPARATIVE LABOR MOVEMENTS.
- \*747. MANPOWER DEVELOPMENT.

### Department of Psychology Course Offerings

- 580. SOCIAL PSYCHOLOGY.
- 588. INDUSTRIAL PSYCHOLOGY.

### Department of Sociology Course Offerings

- 551. URBAN SOCIOLOGY.
- 556. RACE RELATIONS.
- 575. SOCIAL PROBLEMS.
- 592. INTRODUCTION TO SOCIAL WELFARE.
- 718. INDUSTRIAL SOCIOLOGY.
- 731. SOCIAL GERONTOLOGY.
- 759. SOCIAL STRATIFICATION.
- 785. COMPLEX ORGANIZATIONS.

### Department of Political Science Course Offerings

- 517. MASSACHUSETTS POLITICS.
- 523. PUBLIC ADMINISTRATION.
- 560. CONSTITUTIONAL LAW.
- 561. CIVIL LIBERTIES.
- 605. THE LEGISLATIVE PROCESS.
- 614. METROPOLITAN POLITICS.
- 624. ADMINISTRATIVE LAW.
- 627. COMPARATIVE PUBLIC POLICY.

### Department of History Course Offerings

- 624. THE PROGRESSIVE AGE (1900-1920).
- 625. THE UNITED STATES BETWEEN THE WORLD WARS.
- 630. SOCIAL HISTORY OF THE UNITED STATES.
- \*636. HISTORY OF THE AMERICAN LABOR MOVEMENT.
- 637. THE CITY IN THE MODERN UNITED STATES.

### Department of Industrial Engineering and Operations Research Course Offerings

- 752. MECHANIZATION AND AUTOMATION.
- 753. METHODS OF MEASUREMENT OF HUMAN WORK.

## *Landscape Architecture and Regional Planning*

### GRADUATE FACULTY

PAUL N. PROCOPIO, *Professor of Landscape Architecture and Acting Head of the Department*, B.S., Massachusetts, 1941; M.S., 1954.

JULIUS GY. FABOS, *Professor of Landscape Architecture and Resource Planning and Graduate Program Director*, B.S., Rutgers, 1961; M.L.A., Harvard, 1964; Ph.D., University of Michigan, 1973.

THEODORE S. BACON, JR., *Professor of City and Regional Planning*, B.A., Amherst, 1942; M.C.P., Massachusetts Institute of Technology, 1956.

MORTON B. BRAUN, *Lecturer in City and Regional Planning*, B.A., Harvard, 1941; M.G.R., Massachusetts Institute of Technology, 1948.

ROBERT O. BRUSH, *Lecturer, North Eastern Forestry Research Unit*, B.S., Massachusetts, 1966; M.L.A., 1968.

WALTER H. BUMGARDNER, *Assistant Professor of Park Administration and Regional Planning*, B.S., Southern Illinois, 1966; M.S., 1968; Ph.D., Texas A and M, 1974.

CARL A. CARLOZZI, *Adjunct Associate Professor of Resource Planning*, B.S., Kent State, 1955; M.A., 1957; Ph.D., Michigan, 1965.

RICHARD J. COSTLEY, *Professor of Park Administration and Regional Planning*, B.S., Utah State, 1934; M.S., Illinois, 1936.

CHESTER CRAMER, *Assistant Professor of Landscape Architecture*, B.S., Massachusetts, 1966; M.L.A., Harvard, 1968.

HUGH C. DAVIS, *Professor of Resource Planning*, B.S., Rollins College, 1950; M.S., University of Michigan, 1955; Ph.D., 1960.

NICHOLAS T. DINES, *Associate Professor of Landscape Architecture*, B.S., Michigan State, 1966; M.L.A., Harvard, 1968.

JOHN H. FOSTER, *Adjunct Professor of Regional Planning and Professor of Agricultural and Food Economics*.

ARNOLD FRIEDMANN, *Adjunct Professor of Landscape Architecture and Professor of Design*, B.F.A., Pratt Institute of New York University, 1953; M.S., 1960.

BARRIE B. GREENBIE, *Professor of Urban and Regional Planning*, B.S., Florida, 1953; M.S., Wisconsin, 1968; Ph.D., 1972.

CHRISTOPHER M. GREENE, *Visiting Lecturer of Regional Planning*, B.A., Wesleyan, 1969; M.L.A., Massachusetts, 1972.

TOM S. HAMILTON, JR., *Associate Professor of Land-*

## UNIVERSITY OF MASSACHUSETTS

## LANDSCAPE ARCHITECTURE AND REGIONAL PLANNING

*scape Architecture*, B.F.A., Illinois, 1950; M.S., Massachusetts, 1952.

BENJAMIN ISGUR, *Adjunct Professor of Resource Planning*, B.S., Massachusetts, 1933; M.S., 1935; Ph.D., 1940.

ROBERT L. KENT, JR., *Associate Professor of Landscape Architecture*, B.S., Michigan State, 1957; M.L.A., 1959.

GORDON S. KING, *Professor of Arboriculture and Park Administration*, B.S., Michigan State, 1941; M.S., Massachusetts, 1956.

JOHN H. MARTIN, *Associate Professor of Architecture and Landscape Architecture*, A.R.I.B.A., Brighton College of Art, 1956; Certificate, University College, London, 1960; M.L.A., Harvard, 1967.

HAROLD E. MOSHER, *Professor of Landscape Architecture*, B.S., Massachusetts, 1942; B.L.A., 1947; M.L.A., 1957.

GUSTAVE D. OLSON, JR., *Assistant Professor in Landscape Operations and Park Administration*, B.S., Massachusetts, 1968; M.R.P., 1972.

RUTHERFORD H. PLATT, *Adjunct Assistant Professor of Regional Planning, Assistant Professor of Geography and Regional Planning, and Research Associate, Institute for Man and Environment*, B.A., Yale, 1962; J.D., Chicago, 1967; Ph.D., 1971.

ANDREW J. W. SCIEFFEY, *Professor of Regional and Policy Planning*, B.A., Haverford, 1951; M.S., Michigan, 1952; Ph.D., 1958.

HARRY E. SCHWARZ, *Lecturer in Regional Planning*, B.C.E., George Washington, 1954.

PAUL W. SHULDINER, *Adjunct Professor of Regional Planning and Professor of Civil Engineering*, B.S., Illinois, 1951; M.S., California at Berkeley, 1961.

MELVIN H. SMITH, *Adjunct Professor of Landscape Architecture and Lecturer in Architecture*, B.S., Massachusetts Institute of Technology, 1954.

WILLIAM H. STEWART, *Visiting Lecturer of Landscape Architecture*, B.L.A., Michigan, 1961; M.L.A., 1968.

ROSS S. WHALEY, *Professor of Resource and Economic Planning and Dean of the College of Food and Natural Resources*, B.S., Michigan, 1959; M.S., Colorado State, 1961; Ph.D., Michigan, 1969.

ERVIN H. ZUBE, *Professor of Landscape Architecture and Regional Planning and Director of the Institute for Man and Environment*, B.S., Wisconsin, 1954; M.L.A., Harvard, 1959; F.A.A.R., American Academy in Rome, 1961; Ph.D., Clark, 1973.

### DEGREE PROGRAMS

At the graduate level, the department offers the Master of Landscape Architecture (M.L.A.) and Master of Regional Planning (M.R.P.) degrees. In an attempt to concentrate on areas in which faculty have particular abilities in the hope of matching them with special interests and needs of students and their prospective employers, the Department offers three general areas of concentration:

#### LANDSCAPE ARCHITECTURE PROGRAM (M.L.A. Degree)

This program is intended to provide the student with basic technical knowledge in the execution of the

responsibilities of the landscape architect in general practice. Emphasis is on both social and natural systems and the manifestations of their interrelationships through physical form. Studio work emphasizes real world problems as much as possible through designs for actual environments in the campus area. Some of these are projects that may actually be carried out in the field, studio work also emphasizes design as *Art*. Employment in private landscape architecture firms as well as many public agencies concerned with quality of the visual environment is the most likely goal for the graduates of this program, but some landscape architects also find planning and administrative jobs in various corporations and agencies.

#### LANDSCAPE PLANNING PROGRAM (M.L.A. or M.R.P. Degrees)

This program emphasizes the physical and ecological aspects of regional landscape planning and design with emphasis on in-depth knowledge of natural processes in relation to the visual and cultural values of landscapes. The principal objective of this program is to produce planners capable of integrating physical and aesthetic aspects of the regional landscape with institutional and political decision making processes. The advent of citizen concerns over land use, and consequent federal and state environmental protection acts, makes this program particularly appropriate for planners and designers with a large-scale environmental outlook.

#### REGIONAL PLANNING PROGRAM (M.R.P. Degree)

The purpose of this program is to develop in the student an understanding of the political, administrative and institutional framework within which regional planning is carried out and plans implemented. While geared heavily to social and institutional concerns, it relates these to ecological constraints and design criteria which will weigh increasingly in planning decisions affecting the regional landscape. Graduates of this program are particularly suited to (though certainly not limited to) employment in municipal, regional and state planning offices.

It is recognized that these programs do not cover the wide spectrum of activities which may be included within either of the professions of Landscape Architecture or Regional Planning. The Department and the University offer a number of complementary courses. These programs are established as guides rather than blueprints, but they reflect special competency, experience and interests which the faculty wishes to share with students as well as planning agencies and the public at large.

### DEGREE REQUIREMENTS:

Master of Landscape Architecture  
Master of Regional Planning

The Master's degree program offers a latitude to the student with regard to the selection of courses. Rigid degree requirements are not stated insofar as formal course work is concerned. It is required that all students meet with their academic advisers prior to the start of classes to determine a suitable program. However, the degree is conferred only upon those graduate students who have satisfactorily met the following basic requirements:

## LANDSCAPE ARCHITECTURE AND REGIONAL PLANNING

## GRADUATE SCHOOL

- 1) Work covering at least four semesters in residence.
- 2) A minimum of three months spent in professional practice or research.
- 3) The earning of not fewer than 46 credits, of which 28 consist of graduate level courses given within the Department of Landscape Architecture and Regional Planning.
- 4) The preparation of a satisfactory thesis or terminal project and satisfactory completion of an oral examination on the same by the end of the fourth semester in residence. (Basically, a terminal project is similar to a thesis in terms of scope of work required. However, the mode of presentation for the terminal project is much more flexible; e.g., large fold-out maps are not permitted in the presentation of a thesis, but are permitted in a terminal project.)
- 5) Fulfillment of the requirements indicated in the curriculum guidelines (for the student's program) which were in effect at the time of the student's first semester in this graduate program.
- 6) See additional requirements under the General Information Section of this *Bulletin*.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### COURSES OPEN TO GRADUATE STUDENTS ONLY

#### Landscape Architecture

700. SPECIAL PROBLEMS. Credit, 1-5.
701. DESIGN PROBLEMS I.  
Emphasis on the development of skills in site design. Deals with smaller-scale site-development problems, site analysis, program development, design process, and alternative methods of communication. Individual and team projects.  
Prerequisite, Env Des 235, 236, & 615. Credit, 5. Mr. Gluck.
702. DESIGN PROBLEMS II.  
Essentially a problem-solving course, drawing upon techniques from landscape design, physical planning, and architectural design. Problems of varying scale and complexity. Current real world problems emphasized.  
Prerequisite, Env Des 615.  
Credit, 5. Mr. Gluck, Mr. Martin.
703. ECOLOGY AND PHYSIOGRAPHY.  
Visual evaluation of plant associations as related to land form and environmental conditions. Field studies.  
Mr. Mosher.
706. PRESENTATION.  
Advanced visual communications techniques applicable to landscape architecture.
707. CONSTRUCTION.  
Problems in landscape construction as related to general design.  
Mr. Dines.
708. CONSTRUCTION.  
Road alignment, computations, and advanced landscape construction.  
Mr. Dines.
- 713,714. SEMINAR.  
Professional topics in landscape architecture. Mr. Martin.
721. LANDSCAPE PLANNING.  
An introduction to landscape types, values, and landscape assessment techniques. Landscape planning considerations for land use and management, and traditional as well as developing landscape planning procedures are also discussed.  
Credit, 2, each semester. Mr. Fabos, Mr. Zube.

#### 731. ADVANCED DESIGN PROJECTS.

Advanced design projects.  
Credit, 5. Mr. Martin, Mr. Procopio.

#### 737. PROFESSIONAL PRACTICE.

Professional office-management and procedures; ethics, commissions, contracts, responsibilities, specifications; and cost estimating.  
Mr. Kent.

#### 793-794. SEMINAR.

Topics in environmental planning and design research and theory.  
Credit, 2 each semester.

#### 800. MASTER'S THESIS.

Credit, 8.

#### 801. TERMINAL PROJECT.

Credit, 8.

#### Regional Planning.

#### 700. SPECIAL PROBLEMS.

Credit, 1-5.

#### 741. WATER RESOURCES PLANNING.

Water resources planning as a part of environmental planning, the state of the art from technical and institutional viewpoints, the steps and components of the water resources planning process.  
Mr. Schwarz.

#### 743. LAND AND THE DEVELOPMENT OF COMMUNITIES.

Land and its use from ancient to modern times. Emphasis on the resource base and its importance as the intensity of land-use increases in the development of both rural communities and highly urbanized areas.  
Mr. Bacon.

#### 744. METROPOLITAN AND REGIONAL PLANNING.

The growth and decentralization of cities and the formation of metropolitan areas. Planning as applied to the metropolitan complex and for various types of regions.  
Mr. Bacon.

#### 751. PLANNING IN THE POLITICAL MOVEMENT.

Planning as a decision-making process, the attributes of the political and administrative environment within which planning takes place, and the implications of this environment for the planning process and the planner.  
Mr. Sears.

#### 753. RESOURCE POLICY AND PLANNING.

Policy formation and the planning process at the local, state and regional levels; the role of Congress, the bureaucracy and citizen interests in policy formation; the interplay among forces of economics, technology, ecology and design in the determination of policy goals and planning horizons.  
Mr. Scheffey, Mr. Whaley.

#### 758. ENVIRONMENTAL ADMINISTRATION.

Alternative administrative arrangements for dealing with problems of environmental management and control at various levels of government.  
Mr. Scheffey.

#### 765. DYNAMICS OF HUMAN HABITATIONS.

The complex interactions that take place between man and the physical environment. Information and viewpoints from psychology, sociology, biology, ecology, ethnology, art, architecture, and planning.  
Mr. Greenbie.

#### 775. PROJECTS IN PLANNING I.

Development of elementary planning and design methods, application in the planning of projects.  
Mr. Braun.

#### 776. PROJECTS IN PLANNING II.

Development of advanced-level planning and design methods, application in the planning of projects.  
Prerequisite, Reg Pl 775.  
Mr. Braun.

#### 781. REGIONAL PLANNING STUDIO.

Preparation of regional-development plans based upon an interdisciplinary approach to the analysis and evaluation of regional problems and potentials.  
Credit, 5.  
Mr. Carlozzi, Mr. Fabos, Mr. Foster, Mr. Sears.

## UNIVERSITY OF MASSACHUSETTS

### 788. URBAN AND REGIONAL SIMULATION AND GAMING.

Purposes and characteristics of models, simulations, and games. Brief examination of several recent urban and regional planning models, in-depth examination of two or three. The model-building process. Mr. Sears.

795.(I), 796.(II). SEMINAR.

800. MASTER'S THESIS. Credit, 8.

801. TERMINAL PROJECT. Credit, 8.

### COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS

#### Environmental Design

##### 543. HISTORY AND THEORY I.

A broad survey of the history of the designed human environment, from the origins of human society into the Renaissance. Mr. Martin.

##### 544. HISTORY AND THEORY II

A broad survey of the history of the designed human environment, from the Renaissance to the present. Mr. Fabos.

##### 615. GRAPHIC COMMUNICATION II.

Current techniques used in the graphic communication of the analysis and solution of environmental-design problems, and the development of facility in the use of various media. Prerequisite, Env Des 212. Mr. Dines. Credit, 4.

##### 628. APPLIED DESIGN.

The development of an approach embodying the application of theory and design principles to the solution of environmental design problems. Prerequisites, 615 and 647. Credit, 4. Mr. Cramer, Mr. Martin.

##### 647. THEORY I

Basic physical and ecological principles to be considered in design and planning. Mr. Cramer, Mr. Gluck.

##### 648. THEORY II.

Basic economic, social, and political principles to be considered in design and planning. Mr. Cramer, Mr. Gluck.

#### Landscape Architecture

##### 653. LAND FORM.

The manipulation of land surfaces and its graphic representation through topographical plans, cross sections, profiles, and models.

Prerequisite, Env Des 212. Credit, 2. Mr. Procopio.

##### 656. CONSTRUCTION MATERIALS.

Material used in landscape construction, their design potential and limitations.

Prerequisite, Ld Arc 653. Mr. Kent.

##### 668. OPEN-SPACE PLANNING AND DESIGN.

The relationship of open-space planning to city and regional planning; the various functions of open space; the problems of planning and designing parks and recreation areas to satisfy varying needs. Mr. Bumgardner, Mr. Greenbie.

#### Regional Planning

##### 545. METROPOLITAN TRANSPORTATION.

(See Business Administration 545).

##### 573. CITY-PLANNING HISTORY.

The historical aspects of changing land uses, the evolution of community form, and the development of urban areas.

Mr. Bacon.

## LINGUISTICS

### 574. CITY PLANNING.

Planning techniques and legal tools for guidance and control of contemporary urban and metropolitan development. Special consideration of problems of land use, housing, transportation, and related urban elements. Mr. Bacon.

### 602. ECOLOGICAL PRINCIPLES OF RESOURCE PLANNING.

(See Forestry 602).

Prerequisite, permission of instructor. Mr. Carlozzi.

### 677. URBAN PROBLEMS I.

Urban issues in the context of metropolitan and regional implications, changing functions and relationships of central cities and suburbs, housing, zoning, urban blight, employment, and industrial location, formulation of planning goals.

### 678. URBAN PROBLEMS II.

Arterial systems, fiscal problems and capital problems, grant programs, local administrative organization, metropolitan and regional organization.

## Linguistics

### GRADUATE FACULTY

SAMUEL JAY KEYSER, *Professor and Head of the Department of Linguistics*, B.A., George Washington University, 1956; B.A., Honors, Oxford University (Merton), 1958; M.A., Yale University, 1960; Ph.D., 1962.

THOMAS ROEPER, *Assistant Professor and Graduate Program Director*, B.A., Reed, 1965; Ph.D., Harvard, 1973.

EMMON WERNER BACH, *Professor*, B.A., University of Chicago, 1949; M.A., 1955; Ph.D., 1959.

JAMES E. CATHEY, *Associate Professor of Germanic Languages and Literatures*.

DONALD C. FREEMAN, *Professor*, B.A., Middlebury, 1959; M.A., Brown, 1961; Ph.D., Connecticut, 1965.

TERENCE PARSONS, *Professor of Philosophy*.

BARBARA HALL PARTEE, *Professor of Linguistics and of Philosophy*, B.A., Swarthmore, 1961; Ph.D., Massachusetts Institute of Technology, 1965.

ALAN S. PRINCE, *Assistant Professor*, B.A., McGill, 1971. Ph.D., Massachusetts Institute of Technology, 1975.

ROBERT ROTHSTEIN, *Associate Professor of Slavic Languages and Literatures*.

ELISABETH O. SELKIRK, *Assistant Professor*, B.A., California at Berkeley, 1967; Ph.D., Massachusetts Institute of Technology, 1972.

EDWIN S. WILLIAMS, *Assistant Professor*, A.B., Princeton, 1970; Ph.D., Massachusetts Institute of Technology, 1974.

The Department of Linguistics offers graduate work leading to the Ph.D. degree; a small number of students are also admitted for work leading to the M.A. degree. Students may concentrate their graduate work in any of the following areas: syntax, semantics, phonology, diachronic linguistics, psycholinguistics, formal foundations of linguistic theory, particular languages or language families, and prosody, metrics, and stylistics. The Department of Linguistics teaches English as a Foreign Language for foreign graduate students, but does not offer any courses in the Teaching of English as

## LINGUISTICS

## GRADUATE SCHOOL

a Foreign Language. Graduate training in the Department of Linguistics is strongly oriented toward preparing students to carry on individual creative research as early as possible in their graduate careers, and the Graduate Program is set up so as to maximize close student-faculty contact. The requirements for the M.A. and Ph.D. degrees listed below are subject to periodic review; students are therefore advised to check with the Department for any changes in requirements.

### THE MASTER OF ARTS DEGREE PROGRAM

*Prerequisites for admission:* A B.A. or B.S. degree in nearly any field of undergraduate study. The following undergraduate fields from a useful background to linguistics: anthropology, computer science, English, a foreign language or language family, logic, mathematics, philosophy, psychology, and sociology. A student may be required to make up deficiencies in undergraduate training before being admitted to regular status.

*Program of study:* Thirty credit hours of graduate work, in which the following courses would normally be included: Linguistics 701, Linguistics 702, Linguistics 502, and other core courses. Certain courses may be waived on the basis of previous work.

*Examination and Thesis:* A thesis is not required to complete the M.A. M.A. examinations will cover significant areas of graduate work in linguistics.

### THE DOCTOR OF PHILOSOPHY DEGREE PROGRAM

*Prerequisites for Admission:* A B.A., B.S., or M.A. degree.

*Program of Study:* Forty-eight credits of graduate work, at least half of which consist of 700-level linguistics courses.

*Language requirement:* There is no formal language requirement in the Ph.D. program. (However, students are generally expected to be able to read relevant journal articles in a foreign language.) Students are also strongly encouraged to carry out linguistic research on a foreign language as part of their graduate work.

*Examinations:* Ph.D. candidates must satisfy the general examination requirement by submitting two linguistic papers, embodying the student's original research, in two distinct areas of the discipline. A final oral examination is held after the doctoral dissertation is submitted.

*Dissertation:* A dissertation is required.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### COURSES OPEN TO GRADUATE STUDENTS ONLY

**700. SPECIAL PROBLEMS.**  
Selected research problems in Linguistics. *Credit, 1-12.*

**701. INTENSIVE INTRODUCTION TO TRANSFORMATIONAL GRAMMAR.**  
An intensive introduction to the concepts of transformational grammar. Survey in depth of problems and methods of research, with emphasis on different types of linguistic evidence and argument. *Credit, 6.*

**702. INTRODUCTION TO THE STUDY OF AN UNFAMILIAR LANGUAGE.**  
Investigation, with the aid of an informant, of the structure of an unfamiliar language and of specific analytical problems

it presents. The relevance of these to universal grammar.  
*Prerequisite, Ling 701. Mr. Bach.*

**703. GENERATIVE PHONOLOGY.**  
Introduction to generative phonology primarily for graduate students in linguistics. The formalism is developed and justified in response to increasingly complex sets of data.  
*Prerequisites, Ling 701, 514. Mr. Keyser, Ms. Selkirk.*

**704. SYNTACTIC THEORY.**  
Advanced survey of problems in the syntax of natural language encountered in attempting to characterize formally the notion of "grammar of a natural language."  
*Prerequisite, Ling 701. Mr. Bach, Ms. Bresnan, Ms. Partee, Ms. Selkirk.*

**705. DIACHRONIC LINGUISTICS.**  
Topics from traditional historical linguistics from the standpoint of transformational generative grammar: language change, relative chronology of sound changes, comparative method, internal reconstruction, and linguistic universals.  
*Prerequisite: Ling 701. Mr. Keyser.*

**706. PHONOLOGICAL THEORY.**  
The investigation of issues in current generative phonological theory. Students construct theoretical arguments using original evidence.  
*Prerequisites: Ling 701, 703. Mr. Keyser, Ms. Selkirk.*

**707. UNIVERSAL GRAMMAR.**  
Universal principles of natural language. Universal hypotheses made to date in the development of linguistic theory.  
*Prerequisites, Ling 701, 702. Mr. Bach.*

**708. STRUCTURE OF ENGLISH.**  
An intermediate-level survey of problems in the syntax of English, designed to follow directly from Ling 701.  
*Prerequisite, Ling 701. Mr. Bach, Ms. Bresnan, Ms. Partee.*

**710. SEMANTICS AND GENERATIVE GRAMMAR.**  
A comprehensive survey of semantic problems in transformational-generative linguistics. Feature theory, generative semantics, performatives, interpretation of derived structures, semantic theory of truth, interpretation and logic of human language.  
*Mr. Bach, Ms. Bresnan, Ms. Partee.*

**711. PSYCHOLINGUISTICS: LANGUAGE ACQUISITION.**  
The theoretical foundations and methodology of the study of child language. The relationship between language acquisition, the study of universal grammar, and theoretical psychology. An experimental term project is customary.  
*Prerequisite, Ling 701. Mr. Roeper.*

**712. PSYCHOLINGUISTICS: THE PERCEPTION OF LINGUISTIC FORM.**  
An introduction to psycholinguistics concentrating on the psychological perception of linguistic form. The psychological reality of linguistic models and perceptual and learning strategies.  
*Prerequisite, Ling 701. Mr. Roeper.*

**713. LINGUISTICS AND LITERATURE.**  
The application of modern linguistics to literary analysis. Meter, style, and explication of text on the basis of linguistic criteria.  
*Mr. Freeman, Mr. Keyser.*

**714. CONTEMPORARY PHONETICS.**  
Phonetics and the theory of language. Universal phonetic alphabet, acoustic phonetics, perceptual phonetics, articulatory phonetics and distinctive features.  
*Prerequisite, Ling 701 or permission of instructor.*

**715. THEORY OF GRAMMAR.**  
Survey and comparison of theories of language. Structural linguistics, stratificational grammar, scale-and-category grammar, transformational-generative grammar. The nature of linguistic evidence.  
*Prerequisite, Ling 701 or permission of instructor. Mr. Bach, Mr. Freeman, Mr. Keyser.*

## UNIVERSITY OF MASSACHUSETTS

## LINGUISTICS

### 716. DIALECTOLOGY.

The geographical and cultural variations within a language; mapping of dialects. Analysis and interpretation of dialect materials.

### 726. MATHEMATICAL LINGUISTICS.

Topics relating mathematics, logic, computer science and linguistic theory. Typical topics: grammars and automata, formal models of transformational grammar; syntax-directed compilers.

Prerequisites: Ling 509 or Math 200 or COINS 201.  
Mr. Bach, Ms. Bresnan, Ms. Partee.

### 740. STRUCTURE OF AN AFRICAN LANGUAGE.

### 741. STRUCTURE OF AN AMERICAN INDIAN LANGUAGE.

### 742. STRUCTURE OF AN INDO-EUROPEAN LANGUAGE.

### 743. STRUCTURE OF A MALAYO-POLYNESIAN LANGUAGE.

### 744. STRUCTURE OF A FINNO-UGRIC LANGUAGE.

### 745. STRUCTURE OF A NEAR EASTERN LANGUAGE.

### 746. STRUCTURE OF AN ORIENTAL LANGUAGE.

### 747. STRUCTURE OF A SOUTH EAST ASIAN LANGUAGE.

### 748. STRUCTURE OF A NON-INDO-EUROPEAN LANGUAGE.

The phonology and syntax of a language other than English. Emphasis on the application of current linguistic theory to analytical problems presented by that language and the testing of current theoretical hypotheses by reference to those problems. An informant will generally be used. Within each of these courses, languages vary from year to year; any of them may be repeated for credit.  
Prerequisites: Ling 702, 703.

### 750. TOPICS IN LINGUISTIC THEORY.

Treatment in depth of a selected area of linguistic theory. Topics vary. May be repeated for credit.  
Prerequisite, permission of instructor.

### 751. TOPICS IN PHONOLOGY.

Advanced, intensive work on specific phonological problems, or on the phonology of a single language or of a small group of languages.  
Prerequisites: Ling 703, 706.

### 752. TOPICS IN SYNTAX.

An intensive review of current research in syntactic theory, with emphasis on individual student research in syntactic theory.  
Prerequisite: Ling 704.

### 753. TOPICS IN SEMANTICS.

Intensive investigation of topics in semantics. Topics vary from year to year.  
Prerequisite: Ling 710.

### 754. TOPICS IN DIACHRONIC LINGUISTICS.

An advanced seminar, mainly for those students who wish to specialize in language change. Investigation of the empirical claims made by current transformational theory in regard to language change.  
Prerequisites: Ling 703, 705.

### 790. SEMINAR.

Current research topics and literature.

### 910. RESEARCH TUTORIAL: SYNTAX.

Intensive investigation of a previously unexplored topic in syntax under close faculty supervision. Topic varies from year to year.

### 820. RESEARCH TUTORIAL: PHONOLOGY.

Intensive investigation of a previously unexplored topic in phonology under close faculty supervision. Topic varies from year to year.

### 830. RESEARCH TUTORIAL: LINGUISTIC THEORY.

Intensive investigation of a previously unexplored topic in linguistic theory under close faculty supervision. Topic varies from year to year.

### 900. DOCTORAL DISSERTATION. *Credit, 18*

### COURSES OPEN TO UNDERGRADUATES AND GRADUATES (for either major or minor credit).

### 561. INTRODUCTION TO LINGUISTIC THEORY.

The nature of language; in-depth study of important aspects of the structure of the native language, from the standpoint of modern linguistic theory. Emphasis on syntactic problems; some attention to phonology, language acquisition, etc.

### 502. PHONOLOGICAL THEORY.

Introduction to the theoretical and psychological bases of contemporary phonological analysis; the concepts of distinctive feature analysis. Natural phonological processes illustrated by problems chosen from languages of the world.  
Prerequisites: Ling 201/501 and 214/514.

Mr. Heny, Mr. Keyser, Ms. Selkirk.

### 503. INTRODUCTORY SYNTAX.

The principles of contemporary linguistic theory applied to specific syntactic problems drawn mostly from English. The theoretical implications of the selected problems discussed in depth.

Prerequisite: Ling 201/501.

Mr. Bach, Ms. Bresnan, Mr. Keyser, Ms. Partee.

### 504. FIELD METHODS.

Methods of eliciting significant linguistic information in the field. How to work with an informant. Investigation, with the aid of the informant, of the structure of an unfamiliar language and of specific analytical problems it presents.

Mr. Bach, Mr. Heny.

### 509. FORMAL FOUNDATIONS OF LINGUISTIC THEORY.

Topics in formal systems as they relate to modern linguistic theory, including set theory, group theory, automata theory and formal grammars.

Prerequisite: Ling 201. Ms. Bresnan, Ms. Partee.

### 510. INTRODUCTION TO SEMANTICS.

Survey of semantics in relation to transformational theory. Application of formal logic and connections with philosophy of language. Emphasis typically on quantification, referential opacity, other structural problems.

Prerequisites: Ling 203, Phil 370.

Mr. Bach, Ms. Bresnan, Ms. Partee.

### 511. INTRODUCTION TO PSYCHOLINGUISTICS.

Introduction to psycholinguistics: theoretical foundations, methodology, and experimental techniques. Emphasis on the acquisition of language, child language and linguistic universals, and learning and perceptual strategies.

Prerequisite: Ling 201. Mr. Roeper.

### 513. SOCIOLINGUISTICS.

Language as a social phenomenon. Linguistic, sociological and ethical issues related to language in its social context. The social interpretation of optional grammatical rules in dialectal variation.

Mr. Roeper.

### 514. INTRODUCTORY PHONETICS FOR LINGUISTS.

Principles of the International Phonetic Association. Phonetic script. Identifying and making unfamiliar sounds. The structure of the vocal tract.

*Credit, 1.* Mr. Heny.

### 623. STUDY OF THE NATIVE LANGUAGE.

The relevance of linguistic theory and results of linguistics to

## MARINE SCIENCES

the study of English. Issues of style, poetics, the teaching of English, and others. Mr. Freeman, Mr. Keyser.

COURSE OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS

410. ENGLISH FOR FOREIGN STUDENTS. Credit, 0.

## Manufacturing Engineering

### GRADUATE FACULTY

GEOFFREY BOOTHROYD, *Professor and Chairman of the Manufacturing Engineering Program*, B. Sc., University of London, 1957; Ph.D., University of London, 1962; D.Sc., 1974.

WILLIAM J. DUFFY, *Associate Professor*, B.S., University of Michigan, 1955; M.S., 1969; Ph.D., 1971.

LAURENCE MURCH, *Assistant Professor*, B.S., Northeastern, 1965; M.S., Clarkson College of Technology, 1968; Ph.D., Massachusetts, 1972.

CORRADO R. POLI, *Professor*, B.S., Rensselaer Polytechnic Institute, 1957; M.S., 1958; Ph.D., Ohio State, 1965.

WILLIAM R.D. WILSON, *Associate Professor*, B.S., Queens University of Belfast, 1963; Ph.D., 1967.

### PROGRAM IN MANUFACTURING ENGINEERING

The Master of Science program in Manufacturing Engineering is designed to meet the needs of those graduates in Mechanical or Industrial Engineering or in other disciplines who are interested in Manufacturing Engineering.

Manufacturing Engineers are those concerned with the planning and selection of methods of manufacture, the design of equipment for manufacture, the improvements of established manufacturing techniques and the development of new ones.

The program contains a common core and two alternative sections; the section depends on the student's background. Students already prepared in any of the required courses may substitute an appropriate elective course.

### REQUIREMENTS

#### Common Core

|                                                    |           |
|----------------------------------------------------|-----------|
| MAE 520 Machining and Machining Tools              | Credits 3 |
| MAE 521 Automation in Manufacturing                | 3         |
| IE 755 Quality Control and Reliability Engineering | 3         |
| IE 690 Human Factors in Manufacturing Engineering  | 3         |
| IE/ME 790 Project (or IE/ME 800 Thesis if desired) | 6         |
| 3 Electives                                        | 9         |

#### Remaining Courses

Credits

(For students with an I.E. background)

## GRADUATE SCHOOL

|                                                                                    |   |
|------------------------------------------------------------------------------------|---|
| MAE 535 Manufacturing Processes                                                    | 3 |
| MAE 537 Manufacturing Processes Laboratory (For students with and M.E. background) | 1 |
| IE 700 Probability and Statistics                                                  | 3 |

### Suggested 3-Credit Electives

|                                               |   |
|-----------------------------------------------|---|
| IE 573 Introduction to Simulation Methods     | 3 |
| IE 678 Production Planning and Control        | 3 |
| IE 777 Manufacturing Control                  | 3 |
| IE 754 Advanced Topics in Engineering Economy | 3 |
| MAE 585 Vibrations and Control                | 3 |
| MAE 554 Product Design I                      | 3 |
| MAE 780 Metal Forming Processes               | 3 |
| MAE 608 Physical Metallurgical Principles     | 3 |
| MAE 709 Mechanical Properties of Materials    | 3 |

### Note

IE courses are listed under Industrial Engineering  
MAE courses are listed under Mechanical Engineering

In addition all students must satisfy the Graduate School's requirements for the Master's Degree.

## Marine Sciences

### GRADUATE FACULTY

MICHAEL N. KREISLER, *Acting Chairman of the Marine Sciences Program and Associate Dean of the Graduate School*.

DAYTON E. CARRITT, *Professor of Geology*.

CHARLES F. COLE, *Professor of Fisheries Biology*.

D. CRAIG EDWARDS, *Associate Professor of Zoology*.

DENTON B. HARRIS, *Assistant Professor of Civil Engineering and Coordinator of the Ocean Engineering Program*.

ALAN W. NIEDORODA, *Assistant Professor of Geology and Director of the Coastal Research Center*.

EDWARD A. PERRY, *Associate Professor of Geology*.

GREGORY W. WEBB, *Professor of Geology*.

ROBERT T. WILCE, *Professor of Botany*.

JOHN W. ZAHRADNIK, *Professor of Mechanical Engineering and Principal Scientist, Aquacultural Engineering Laboratory, Wareham*.

The interdisciplinary program in Marine Sciences leads to the Master of Science degree, enabling the student to go directly into marine research, industry or public service, or to continue work for the Ph.D. degree in one of the specialty fields. The program includes a core curriculum of biological, chemical, geological, and physical oceanography. In addition to the areas of the core curriculum, the following areas of concentration are also available: Aquaculture, Botany, Fisheries, Nutrition and Food Sciences, Ocean Engineering, and Zoology. It is conducted on the Amherst campus, the Marine Station in Gloucester, the Aquacultural Engineering Laboratory in Wareham and at selected coastal sites. The primary research emphasis is presently in estuarine and coastal waters.

## UNIVERSITY OF MASSACHUSETTS

Students entering the Marine Sciences program should have completed an undergraduate degree in science or engineering. Acceptance to the program involves admission to the Graduate School of the University and admission by the Graduate Faculty Committee of the Marine Sciences program.

NOTE: No new students will be admitted to this program until further notice.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### Courses for Students in Other Programs

##### 525. INTRODUCTORY OCEANOGRAPHY.

A survey of the oceans and sea water, the substrate, marine life, and processes; oceanographic techniques. For students in engineering and others desiring a general knowledge of the sea.

701/702. MARINE SCIENCE SEMINAR. *Credit, 1.*

#### Core Courses

##### GEOLOGY 655. PHYSICAL OCEANOGRAPHY.

Physics of water masses and ocean circulation; waves, tides and current dynamics; techniques of oceanographic study. Prerequisite, one year of college physics; calculus recommended. Mr. Niedoroda.

##### GEOLOGY 752. GEOLOGICAL OCEANOGRAPHY.

Physical characteristics and geological processes of the ocean basins and margins, and their bearing on interpretation of geological history. Mr. Webb.

##### 530. CHEMICAL OCEANOGRAPHY.

The chemical properties of the ocean that influence and are influenced by marine physical, biological and geological systems. Prerequisites, one-year college-level chemistry, physics, and mathematics. Mr. Carritt.

#### Optional Specialty Courses

700. SPECIAL PROBLEMS. *Credit, 1-6.*

##### 710. TOPICS IN MARINE CHEMISTRY.

The present state and trends in a few segments of marine chemistry by reading of contemporary literature and contact with visiting scientists. Prerequisite, graduate standing in a science or engineering department, or permission of instructor. Pre-enrollment interview requested. Mr. Carritt.

MARINE SCIENCE 800. THESIS. *Credit, 1-6.*

(Other optional courses are listed under the headings of the several cooperating departments.)

## Mathematics and Statistics

### GRADUATE FACULTY

JIN CHEN SU, *Professor and Acting Head of the Department of Mathematics and Statistics*, B.S., National Taiwan University, 1954; Ph.D., University of Pennsylvania, 1962.

FRANKLIN A. WATTENBERG, *Associate Professor and Graduate Program Director*, B.S., Wayne State, 1964. M.S., University of Wisconsin, 1965; Ph.D., 1968.

STEPHEN I. ALLEN, *Associate Professor*, B.A., Amherst College, 1937; M.A., Harvard University, 1946; Ph.D., University of Pittsburgh, 1963.

## MATHEMATICS AND STATISTICS

MARY KATHERINE BENNETT, *Associate Professor*, B.A., Albertus Magnus College, 1961; M.A., Massachusetts, 1965; Ph.D., 1966.

JOSEPH T. BORREGO, JR., *Associate Professor*, B.A., University of Florida, 1961; M.S., 1962; Ph.D., 1966.

DONALD E. CATLIN, *Associate Professor*, B.S., Pennsylvania State, 1958; M.A., 1961; Ph.D., University of Florida, 1965.

EDUARDO H. CATTANI, *Assistant Professor*, Universidad de Buenos Aires, Licenciado en Matemáticas, 1967; Ph.D., Washington University, 1972.

CHAN-NAN CHIANG, *Assistant Professor*, B.S., National Taiwan University, 1963; Ph.D., Notre Dame, 1970.

YU W. CHEN, *Professor*, Ph.D., University of Goettingen, Germany, 1934.

JACK CLARK, *Assistant Professor*, B.S., Massachusetts Institute of Technology, 1964; M.S., Stanford, 1966; Ph.D., 1972.

HASKELL COHEN, *Professor*, B.A., University of Omaha, 1942; S.M., University of Chicago, 1947; Ph.D., Tulane, 1952.

EDWARD A. CONNORS, *Associate Professor*, B.A., Holy Cross, 1962; M.A., Massachusetts, 1964; Ph.D. Notre Dame, 1968.

THURLOW A. COOK, *Assistant Professor*, B.A., University of Rochester, 1961; M.A., University of Buffalo, 1963; Ph.D., Florida State, 1967.

HELEN F. CULLEN, *Professor*, B.A., Radcliffe, 1940; M.A., Michigan, 1944; Ph.D., 1950.

RAM C. DAHIYA, *Associate Professor*, B.A., Panjab University, 1962; M.A., University of Delhi, 1964; M.S., Wisconsin, 1967; Ph.D., 1970.

DAVID J. DICKINSON, *Associate Professor*, B.A., University of Denver, 1942; M.A., Columbia, 1948; Ph.D., Michigan, 1954.

MURRAY EISENBLRG, *Associate Professor*, B.A., University of Pennsylvania, 1960; M.A., 1962; Ph.D., Wesleyan, 1965.

RICHARD S. ELLIS, *Assistant Professor*, B.A., Harvard, 1969; M.S., New York, 1971; Ph.D., 1972.

HANS R. FISCHER, *Professor*, University of Zurich, Matriculation, 1952; Ph.D., 1959.

JOHN FOGARTY, *Associate Professor*, B.A., Harvard, 1961; Ph.D., 1966.

DAVID J. FOLIS, *Professor*, B.A., Miami, 1952; M.S., 1953; Ph.D., Tulane, 1958.

MICHAEL A. GAUGER, *Assistant Professor*, B.S., Notre Dame, 1967; Ph.D., 1971.

DONALD GEMAN, *Associate Professor*, B.A., Illinois, 1965; Ph.D., Northwestern, 1970.

ALAN GLEIT, *Associate Professor*, B.A., Harvard, 1965; M.S., Stanford, 1967; Ph.D., 1969.

DAVID R. HAYES, *Professor*, B.A., Duke, 1959; Ph.D., 1963.

DAVID A. HOFFMAN, *Assistant Professor*, A.B., University of Rochester, 1966; M.Sc., Stanford, 1968; Ph.D., 1971.

## MATHEMATICS AND STATISTICS

SAMUEL S. HOLLAND, JR., *Professor*, B.A., Massachusetts Institute of Technology, 1950; M.S., Chicago, 1952; Ph.D., Harvard, 1961.

JOSEPH HOROWITZ, *Associate Professor*, B.S., Massachusetts Institute of Technology, 1962; M.S., University of Michigan, 1963; Ph.D., 1967.

JAMES E. HUMPHREYS, *Professor*, A.B., Oberlin, 1961; A.M., Yale, 1964; Ph.D., 1966.

NORMAN E. HURT, *Assistant Professor*, Ph.D., University of Chicago, 1967.

HENRY G. JACOB, *Professor*, B.E., Yale, 1943; M.E., 1947; Ph.D., 1953.

MELVIN JANOWITZ, *Professor*, B.A., University of Minnesota, 1950; Ph.D., Wayne State, 1963.

AROLDO G. KAPLAN, *Assistant Professor*, Licenciado, University of Cordoba, 1964; Ph.D., Washington University, 1971.

ELEANOR KILLAM, *Assistant Professor*, B.S., New Hampshire, 1955; M.S., 1956; Ph.D., Yale, 1961.

HOWARD C. SHAW, *Assistant Professor*, B.S., Massachusetts Institute of Technology, 1968; M.A., Michigan, 1971; Ph.D., 1975.

JON L. SICKS, *Associate Professor*, B.A., Indiana University, 1961; Ph.D., 1965.

MORRIS SKIBINSKY, *Professor*, B.S., City College of New York, 1948; M.A., University of North Carolina, 1951; Ph.D., 1954.

DORIS S. STOCKTON, *Associate Professor*, B.S., Douglass College in Rutgers University, 1945; M.S., Brown, 1947; Ph.D., 1959.

MARSHALL H. STONE, *Professor*, B.A., Harvard, 1922; M.A., 1924; Ph.D., 1926.

WAYMAN L. STROTHER, *Professor*, B.S., Alabama State, 1943; M.S., University of Chicago, 1949; Ph.D., Tulane, 1951.

ROBERT W. WAGNER, *Professor*, B.A., Ohio, 1934; M.A., University of Michigan, 1935; Ph.D., 1937.

JU-KWEI WANG, *Professor*, B.S., National Taiwan University, 1954; Ph.D., Stanford, 1960.

GEORGE W. WHAPPLES, *Professor*, B.A., Knox College, 1935; M.A., Wisconsin, 1937; Ph.D., 1939.

FLOYD L. WILLIAMS, *Assistant Professor*, B.S., Lincoln University, 1962; Ph.D., Washington University, 1964.

JOEL ZINN, *Assistant Professor*, B.A., Queen's College, CUNY, 1966; M.A., University of Wisconsin, 1969; Ph.D., 1972.

The Department of Mathematics and Statistics offers programs leading to both the Master of Arts and Doctor of Philosophy degrees. These programs allow the student considerable flexibility in selecting a course of study which emphasizes a broad knowledge of mathematics and its applications as well as concentration within one or more of the areas of algebra, analysis, applied mathematics, probability and statistics, and topology. A detailed description of degree requirements may be obtained from the departmental Graduate Program Director.

### THE DOCTOR OF PHILOSOPHY DEGREE PROGRAM

*Admission.* Applications for admission to the Ph.D. program are screened by a departmental committee, which bases its recommendations for admissions and financial aid on the applicant's undergraduate record, letters of recommendation, GRE scores, and other data. Admission is highly selective, and there is no minimal set of courses or grades that will guarantee admission. Applicants are encouraged to submit additional data on their mathematical training, such as texts used and topics covered in courses, details of any honors projects or individual reading, etc.

*Course requirements.* The doctoral aspirant must successfully complete 36 credits in graduate courses,

including: (a) year-long courses in three of the basic areas of algebra, analysis, applied mathematics, statistics-probability, and topology, together with a semester course in each of the other two basic areas (courses in other departments may be approved to satisfy the applied mathematics requirement); (b) a semester of complex analysis; (c) a "special" course (from among those so designated each semester) whose purpose is to pose and solve a specific, often classical, problem by developing the requisite mathematical tools, but not necessarily in their most general or finished form.

**Qualifying Examination.** Each year a written examination will be offered in each of the areas of algebra, analysis, applied mathematics, statistics-probability and topology. To qualify for the Ph.D., the student entering with a Bachelor's (Master's) degree must pass the examination in three of these areas by the end of the third (second) year of graduate study in the department.

**Preliminary Comprehensive Examination.** Once the student has passed the Qualifying Examination, to be admitted to Ph.D. candidacy he or she must pass the Preliminary Comprehensive Examination. This examination, which is oral, is based on material dealing with a central theme related to the student's prospective area of concentration.

**Foreign language requirement.** For the Ph.D. the department requires a reading knowledge of two of the following languages: French, German, and Russian at the Graduate School's level 3—sufficient to understand mathematical or statistical journal articles in the language. The requirement in each of the two languages may be satisfied either by passing one of the written examinations offered by the department each year, or by successfully completing in the department a semester course or seminar in which the lectures or source materials are in the foreign language.

As a requirement for the Ph.D. degree, all students in the doctoral program are expected to gain experience in communicating their subject by participating in the instruction of students. This requirement may be satisfied by performing the duties ordinarily assigned to a Teaching Assistant or Teaching Associate, but the precise kind and extent of activities necessary to satisfy it will be determined on an individual basis for each doctoral student.

Each year a variety of advanced seminars, including joint seminars with other departments or with nearby institutions, are available for credit. Students are encouraged to attend the departmental Colloquium, which meets regularly and where visiting speakers present topics of current research.

#### THE MASTER'S DEGREE PROGRAM

An entering Master's candidate should normally have completed at least 18 semester credit hours in undergraduate mathematics and statistics beyond the calculus. A one-year course in linear and modern algebra and a one-year course in advanced calculus would be highly desirable.

Within the Master's program the department offers a Mathematics Option and a Statistics Option. Differences in the Master's degree requirements under the two options are stated below.

To earn a Master's degree a student must:

(1) Complete 30 credit hours, at least 18 of which must be in courses in the department numbered 700 or above. Any course outside the department or num-

bered below 700 must have departmental approval to be included in these 30 credit hours. The student must earn an average grade of B, and may include at most 6 credit hours with a grade below B in the courses presented to satisfy this requirement. Within the Mathematics Option these courses must include one "special" course (see Ph.D. course requirement (c) above) and the first semester of the basic course in each of three of the areas of algebra, analysis, applied mathematics, statistics-probability, and topology. Within the Statistics Option these courses must include Statistics 706, 12 additional credit hours of courses in probability and statistics numbered 700 or above, the first semester of the basic course in each of two of the areas of algebra, analysis, applied mathematics and topology, and a 3-credit-hour project in statistics.

(2) Pass the Master's examination. Every year the department offers a written examination at the Master's level in each of the basic areas. To pass the Master's examination under the Mathematics Option the student must either pass the examinations in three of the areas of algebra, analysis, applied mathematics, statistics-probability, topology, or else pass the Ph.D. written Qualifying Examination. To pass the Master's examination under the Statistics Option the student must pass a series of two examinations in probability and statistics.

There is neither a thesis requirement nor a foreign language requirement for the Master's degree. A Master's candidate who has not completed the degree requirements by the end of his second year will ordinarily not be permitted to re-register in the department.

#### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

##### COURSES OPEN TO GRADUATE STUDENTS ONLY

##### Mathematics Courses

###### 700. SPECIAL PROBLEMS

Topics may be chosen from the fields of algebra, geometry, theory of functions, topology, and applied mathematics. Prerequisite, permission of instructor. Credit, 1-3.

###### 701 (I), 702 (II). TOPICS IN ALGEBRA.

Basic topics in algebra. Prerequisite, permission of instructor. Credit, 1-3 each semester.

###### 703 (I), 704 (II). TOPICS IN GEOMETRY.

Basic topics in geometry. Prerequisite, permission of instructor. Credit, 1-3 each semester.

###### 705 (I), 706 (II). TOPICS IN ANALYSIS.

Basic topics in analysis. Prerequisite, permission of instructor. Credit, 1-3 each semester.

###### 711. ALGEBRA I.

Linear algebra via the theory of modules over principal ideal rings; Jordan decomposition, canonical forms, spectral theorem. Tensor products, symmetric and exterior algebras. Determinants, Cayley-Hamilton theorems, application to geometry.

###### 712. ALGEBRA II.

Either topics from field theory, Noetherian rings, and applications, or topics from rings with chain conditions, groups, and group representations. Prerequisite, Math 711 or equivalent.

## MATHEMATICS AND STATISTICS

### 713. INTRODUCTION TO ALGEBRAIC NUMBER THEORY.

Valuations, rings of integral elements, ideal theory in algebraic number fields of algebraic functions of one variable, Dirichlet-Hasse unit theorem and Riemann-Roch theorem for curves.

Prerequisite, Math 711-712 or equivalent.

### 714. QUADRATIC FORMS.

Quadratic spaces, orthogonal group, representation and equivalence of quadratic forms over arithmetic fields, Hasse-Minkowski theorem, integral theory of quadratic forms over arithmetic domains, genus, spinor genus.

Prerequisites, Math 711-712 and 713 or equivalents.

### 715 (I), 716 (II). CLASS FIELD THEORY.

Local class field theory, residues in fields of algebraic functions, global class field theory, generalized local class field theory, application to simple algebras and quadratic forms.

Prerequisite, Math 713. *Credit, 3 each semester.*

### 721. COMPLEX ANALYSIS.

Complex number field, elementary functions, holomorphic functions, integration, power and Laurent series, harmonic functions, conformal mappings, applications.

### 722. INTERMEDIATE COMPLEX ANALYSIS.

Topics from intermediate complex analysis.

Prerequisite, Math 721 or equivalent.

### 723. REAL ANALYSIS I.

Lebesgue measure and Lebesgue integration, differentiation, and  $L_p$  spaces.

### 724. REAL ANALYSIS II.

Abstract measure theory, probability, Lebesgue-Stieltjes integration, Radon-Nikodym Theorem, weak convergence of measures, central limit theorem.

Prerequisite, Math 723.

### 725. INTRODUCTION TO FUNCTIONAL ANALYSIS.

Banach and Hilbert spaces, continuous linear operators, spectral theory, Banach algebras.

Prerequisites, Math 723 or 705.

### 726. FUNCTIONAL ANALYSIS.

Topics from Banach algebras and representation theorems for Banach algebras; von Neumann algebras; analysis in Banach algebras, spectral theory; analytical theory of semigroups; vector lattices, Krein-Milman theorem.

### 731 (I), 732 (II). INTRODUCTION TO PARTIAL DIFFERENTIAL EQUATIONS.

Equations in mathematical physics, types of systems, characteristic manifolds, questions of uniqueness and existence, generalized derivatives.

Prerequisite, Math 626. *Credit, 3 each semester.*

### 735. LATTICE THEORY I.

Partially ordered sets, lattices, modular lattices, Boolean algebras, representation theory for lattices.

Prerequisite, Math 512.

### 736. LATTICE THEORY II

Continuation of Math 735. Stone's representation theorem for Boolean algebras, Loomis' representation theorem for Boolean sigma-algebras, theory of orthomodular lattices and their coordinating Baer\*-semigroups.

Prerequisite, Math 735.

745 (I), 746 (II). ADVANCED APPLIED MATHEMATICS. Topics from engineering and mathematical physics presented rigorously and with free use of abstract mathematical concepts and modern mathematical machinery.

Prerequisite, permission of instructor.

*Credit, 3 each semester.*

### 771. TOPOLOGY I.

Compactness, local compactness, compactification, products, quotients, separation axioms, theory of retracts, connected-

## GRADUATE SCHOOL

ness, continua, path connectedness, local connectedness, fundamental group, covering spaces.

### 772. TOPOLOGY II.

Introduction to the topology and geometry of differentiable manifolds.

Prerequisite, Math 771.

### 773. ALGEBRAIC METHODS IN TOPOLOGY.

Topics from homotopy, homology, and cohomology with applications.

Prerequisite, Math 771.

### 781. ALGEBRAIC TOPOLOGY I.

Homotopy theory, simplicial and Čech homology theories.

Prerequisites, Math 771, 711.

### 782. ALGEBRAIC TOPOLOGY II.

General homology theory, universal coefficient theorems, singular homology theories, ring structure in cohomology theories, spectral sequences, Steenrod operations.

Prerequisite, Math 781.

### 803. ADVANCED TOPICS IN ALGEBRAIC TOPOLOGY.

Presheaves and sheaves, sheaf cohomology, Čech cohomology, applications; deRham theorem; spectral sequences.

Prerequisite, Math 782.

### 811 (I), 812 (II). ADVANCED ALGEBRA.

Advanced topics in algebra.

Prerequisite, permission of instructor.

*Credit, 3 each semester.*

### 821 (I), 822 (II). ADVANCED COMPLEX ANALYSIS.

Advanced topics in complex analysis.

Prerequisite, permission of instructor.

*Credit, 3 each semester.*

### 823 (I), 824 (II). ADVANCED ANALYSIS.

Advanced topics in analysis.

Prerequisite, permission of instructor.

*Credit, 3 each semester.*

### 831 (I), 832 (II). ADVANCED ORDINARY OR PARTIAL DIFFERENTIAL EQUATIONS.

Advanced topics chosen from dynamic systems, differential operators with constant coefficients, hyperbolic and elliptic operators, non-linear equations, asymptotic expansions.

Prerequisite, permission of instructor.

*Credit, 3 each semester.*

### 835. ADVANCED LATTICE THEORY I.

Advanced topics chosen from the fields of orthomodular lattices, quasi-orthomodular lattices, continuous geometries, complemented modular lattices, and their representation theories.

Prerequisite, Math 736.

### 836. ADVANCED LATTICE THEORY II.

Continuation of Math 835. One or more of the topics of Math 835 examined in detail up to the present frontiers of knowledge.

Prerequisite, Math 835.

### 852 (I), 852 (II). DIFFERENTIAL TOPOLOGY.

Differential manifolds, immersions and imbeddings; Whitney approximation theorems; vector bundles; tangent and normal bundles; characteristic classes and cobordism.

Prerequisites, Math 772 and 781. *Credit, 3 each semester.*

### 853 (I), 854 (II). TOPOLOGICAL SEMIGROUPS.

Topics: from ideals in semigroups, Green's relations, Rees-Suschkewitsch theorem, semigroup structures on continua, homomorphisms, irreducible semigroups, actions by semigroups, and other topics of current interest.

Prerequisites, Math 771-772 or equivalent.

*Credit, 3 each semester.*

### 861 (I), 862 (II). ADVANCED GEOMETRY.

Advanced topics in geometry.

*Credit, 3 each semester.*

## UNIVERSITY OF MASSACHUSETTS

871 (I), 872 (II). **ADVANCED TOPOLOGY.**  
Advanced topics in topology. *Credit, 3 each semester.*

881 (I), 882 (II). **ADVANCED PURE AND/OR APPLIED MATHEMATICS.** *Credit, 3 each semester.*

883 (I), 884 (II). **DIRECTED READINGS.** *Credit, up to 6.*

889 (I), 890 (II). **PROBLEM SEMINAR.**  
Introduces beginning graduate students to the methods of mathematical research. *Credit, 1 each semester.*

891 (I), 892 (II). **PROSEMINAR.**  
Presentation by the beginning graduate student of material from the mathematics literature. *Credit, 1 each semester.*

893 (I), 894 (II). **LITERATURE SEMINAR.**  
Presentation by the intermediate graduate student of material from the mathematics literature. *Credit, 1 each semester.*

895 (I), 896 (II), 897 (III), 898 (IV). **RESEARCH SEMINAR.**  
Presentation by the advanced graduate student of research articles, perhaps his own research. *Credit, 1 each semester.*

900. **DOCTORAL DISSERTATION.** *Credit, 10.*

### Statistics Courses

701 (I), 702 (II). **STATISTICAL TEST AND DECISION PROCEDURES.**  
Statistical decision theory, theory of hypothesis testing, optimal tests, non-parametric procedures.  
Prerequisites, Stat 707; Math 611 and 625, or equivalent. *Credit, 3 each semester.*

705 (I), 706 (II). **PROBABILITY THEORY FOR STATISTICS.**  
Sample spaces, probability measures, combinatorics, random variables, distributions, independence, moment generating functions. Measures, expectations, convolutions, laws of large numbers, uniqueness, and Radon-Nikodym theorems.  
Prerequisite, Math 165 or equivalent.  
Prerequisite or corequisite, Math 625 or equivalent. *Credit, 3 each semester.*

707. **A FIRST COURSE IN MATHEMATICAL STATISTICS.**  
Distribution theory, maximum likelihood estimation, confidence intervals, sufficiency, point estimation, hypotheses testing, Bayesian inference, decision theory, nonparametric statistics, survey of special topics.  
Prerequisite, Stat 705.

725 (I), 726 (II). **ESTIMATION THEORY AND HYPOTHESIS TESTING.**  
Maximum likelihood, types of estimation, properties of estimators, 2 sample problem, k sample problem.  
Prerequisites or corequisites, Stat 562 and 582; Math 611 and 625, or equivalent. *Credit, 3 each semester.*

751. **RANDOM PROCESSES I.**  
Foundations of the theory of random processes; survey of various special processes and applications, e.g., Markov processes, random walks, queuing and renewal processes, Brownian motion, diffusion processes, stationary processes.  
Prerequisites, Math 723 or Stat 705, 706 or Stat 851 or permission of instructor.

752. **RANDOM PROCESSES II.**  
Topics of current interest in random processes, e.g. Markov processes, martingales, stationary processes, statistical analysis of time series, application of random processes.  
Prerequisite, Stat 751.

805 (I), 806 (II). **ADVANCED MATHEMATICAL STATISTICS.**  
Review 705, 706, 707. Characteristic functions, central limit

## MATHEMATICS AND STATISTICS

theorems, matrix algebra and multivariate analysis, bounds for the variance. Sufficiency, completeness, efficiency, maximum likelihood, least squares, tests, interval estimation, multiple comparisons.  
Prerequisites, Stat 706 and 707. *Credit, 3 each semester.*

841 (I), 842 (II). **RECENT DEVELOPMENTS IN STATISTICS.**  
Content varies with instructor. Possible topics include: inference in stochastic processes, decision processes, spectral analysis of stationary processes, geometry of moment spaces, sequential procedures, optimal stopping.  
Prerequisites, Stat 706 and 707, Math 611 and 625 or equivalent. *Credit, 3 each semester.*

851 (I), 852 (II). **ADVANCED PROBABILITY, I AND II.**  
Probability theory from a measure-theoretic viewpoint. The general theory of conditioning, martingale theory, Markov processes, general central limit problem. Advanced topics, e.g. potential theory, ergodic theory.

880. **SEMINAR.**  
Research papers by staff and students; invited lectures by prominent statisticians. *Credit, 1-3.*

**COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS**  
(For either major or minor credit)

### Mathematics Courses

533. **PROBABILITY.**  
A postulational study of probability, including counting methods, random variables; additional topics chosen from Bayes' Theorem, statistical independence, laws of large numbers, and Markov processes.  
Prerequisites, Math 165/166 or Math 174/184, and Math 167. In addition Math 500 and/or Math 511 are strongly recommended.

541. **APPLIED ANALYSIS I.**  
Complex analysis including analytic functions, residues, and conformal mappings; superposition of solutions of linear differential equations; orthogonal functions and Fourier series.  
Prerequisite, Math 174/184 or Math 165/166.

542. **APPLIED ANALYSIS II.**  
Continuation of Math 541. Properties of Fourier series; boundary value problems; orthogonal functions; Laplace and Fourier transforms; applications to physical and engineering sciences.  
Prerequisite, Math 541; differential equations and a year of physics are desirable.

545, 546. **APPLIED MATHEMATICS I AND II.**  
Topics from engineering and mathematical physics presented rigorously and with free use of abstract mathematical concepts and modern mathematical machinery.  
Prerequisites, Math 165, 166 and either Math 167 or Math 500. *Credit, 3 each semester.*

551. **NUMERICAL ANALYSIS I.**  
A first course in techniques of numerical approximation in analysis and algebra. Not for credit after Comp Sci 251.  
Prerequisites, Math 174/184 or 165/166, and Comp Sci 121 or 131 or knowledge of basic FORTRAN.

552. **NUMERICAL ANALYSIS II.**  
Continuation of Math 551, including numerical solution of partial differential equations.  
Prerequisite, Math 551.

571. **THEORY OF NUMBERS.**  
Euclidean algorithm, prime numbers, congruences, quadratic reciprocity, further topics in number theory. Recommended for prospective high school mathematics teachers.  
Prerequisite, Math 167 or Math 500, or permission of instructor.

## MATHEMATICS AND STATISTICS

## GRADUATE SCHOOL

### 611. THEORY OF GROUP REPRESENTATIONS.

Abstract groups, subgroups, quotient groups, homomorphisms, representations, irreducible representations, characters, orthogonality relations. Intended for students qualified to study algebra at a significantly higher level of abstraction than Math 511.  
Prerequisites, Math 167 and permission of the Department.

### 612. ADVANCED TOPICS IN ALGEBRA.

Topics chosen from: rings, integral domains, modules over principal ideal domains, field extensions, and Galois theory.  
Prerequisite, Math 611, or Math 511 and permission of instructor.

### 625. INTRODUCTORY MODERN ANALYSIS I.

Basic topology of Euclidean  $n$ -space and metric spaces, convergence of sequences and series, continuous functions and their local and global properties.  
Prerequisites, Math 174/184 or Math 165/166, and Math 167. Math 500 is strongly recommended.

### 626. INTRODUCTORY MODERN ANALYSIS II.

Continuation of Math 625. Differentiation, Riemann integration, sequences and series of functions, functions of several variables.  
Prerequisite, Math 625.

### 631. ORDINARY DIFFERENTIAL EQUATIONS.

First and second-order equations, existence and uniqueness theorems, systems of equations.  
Prerequisites, Math 174/184 or Math 165/166, and Math 167.

### 632. TOPICS IN ORDINARY DIFFERENTIAL EQUATIONS.

Topics to be chosen from: Sturm-Liouville Theory, series solutions, stability theory and singular points, numerical methods, transform methods.  
Prerequisite, Math 631.

### 634. INTRODUCTION TO PARTIAL DIFFERENTIAL EQUATIONS.

Classification of second-order partial differential equations, wave equation, Laplace's equation, heat equation, separation of variables.  
Prerequisites, Math 174/184 or Math 165/166, Math 167, and Math 631 or Math 643.

### 645. LINEAR ALGEBRA FOR APPLIED MATHEMATICS.

Introduction to vector spaces, inner products, and matrices, linear transformations, tensors, determinants, orientation, the spectral theorem for normal operators, complexification, real normal operators, and exterior algebra.  
Prerequisite, Math 167. Math 500 recommended but not required.

### 646. VECTOR AND TENSOR ANALYSIS WITH APPLICATIONS.

Continuation of Math 645. Frechet derivatives, the inverse and implicit function theorems, vector and tensor fields, exterior differentiation, differential forms, differentiable manifolds.  
Prerequisites, Math 645 and Math 165/166 or Math 174/184.

### 663. DIFFERENTIAL GEOMETRY.

Differential geometry of curves and surfaces in Euclidean 3-space using vector methods.  
Prerequisites, Math 174/184 or Math 165/166, and Math 167, or permission of instructor.

### 671. SET THEORY.

Basic properties of sets. Ordered sets. Complete ordered sets. Well-ordered sets. Cardinal and ordinal numbers. Axiom of choice, well-ordering theorem, and Zorn's lemma. Cardinal arithmetic.  
Prerequisite, Math 167 or permission of instructor.

## Statistics Courses

### 561. DESIGN OF EXPERIMENTS (METHODS).

Purpose of experimental designs and their basic assumptions; individual comparisons, components of error, confounding; applications from various fields.  
Prerequisite, Stat 121, 532, or 616.

### 562. ADVANCED STATISTICAL ANALYSIS OF EXPERIMENTAL DATA (II).

Analysis of data with disproportionate subclass numbers. Includes method of fitting constants, method of weighted squares of means, absorption of equations, expectations of mean squares, and tests of hypotheses.  
Prerequisite, Stat 561.

### 571. SURVEY SAMPLING.

Theory and practice of sampling, optimum allocation of resources, estimation of sample size, various sampling methods, ratio and regression estimates, problem of non-response.  
Prerequisite, Stat 121, 532, or 616.

### 572. SAMPLING THEORY AND METHODS.

Problems and methods of sampling, production and quality control, acceptance sampling, O.C. and A.S.N. curves, types and properties of estimators.  
Prerequisite, Stat 121, 532, or 616.

### 581. MULTIVARIATE ANALYSIS (METHODS).

Applications of the theory in Statistics 582 to actual problems; research studies by the students, critiques of published research, or analysis of other bodies of data.  
Prerequisite, Stat 551, or 616.

### 582. MULTIVARIATE ANALYSIS (THEORY).

Correlation and regression, principal components, canonical analysis, analysis of dispersion and covariance, tests of homogeneity, discriminant functions.  
Prerequisite, Stat 616.

### 615. INTRODUCTION TO THE THEORY OF STATISTICS I.

Probability, random variables, distributions (with emphasis on binomial and normal distributions), expectation, bivariate and multivariate distributions, sampling distributions, central limit theorem, point estimation, maximum likelihood estimators, interval estimation.  
Prerequisite, Math 124/125/134 or 117/119 or 132/136/138 or 154.

### 616. INTRODUCTION TO THE THEORY OF STATISTICS II.

Interval estimation, hypothesis testing, analysis of variance, regression, correlation, decision theory.  
Prerequisite, Stat 615.

## NOT FOR GRADUATE CREDIT IN MATHEMATICS AND STATISTICS

(These courses cannot be credited toward an advanced degree in mathematics and statistics.)

## Mathematics Courses

**500. FUNDAMENTAL CONCEPTS OF MATHEMATICS.** Non-axiomatic propositional calculus (with truth tables), basic quantification theory and set algebra. Binary relations, equivalence relations, partitions, functions. Development of the basic algebraic and topological features of real numbers.  
Prerequisite, permission of instructor.

### 511. INTRODUCTION TO MODERN ALGEBRA I.

Introduction to groups, rings, and fields.  
Prerequisite, Math 167. Math 500 may be helpful but is not necessary.

### 512. INTRODUCTION TO MODERN ALGEBRA II.

Continuation of Math 511. Algebraic field extensions and

## UNIVERSITY OF MASSACHUSETTS

solutions by radicals, canonical forms of matrices, quadratic forms, theory of groups, or other topics in algebra.  
Prerequisite, Math 511.

### 525. ADVANCED CALCULUS I.

Elementary topology of the line and Euclidean  $n$ -space, continuous functions, Riemann integration, infinite series and power series. Not for credit after Math 625.  
Prerequisite, Math 165/166 or Math 174/184 and Math 167. Math 500 may be very helpful but is not necessary.

### 526. ADVANCED CALCULUS II.

Continuation of Math 525. Multivariate analysis and the theorems of Green, Gauss, and Stokes. Not for credit after Math 626.  
Prerequisite, Math 525.

### 557. LINEAR PROGRAMMING AND THEORY OF GAMES.

The Simplex Method and extensions; duality theorems; transportation problems and other applications; finite two-person zero-sum games and the fundamental theorem.  
Prerequisite, Math 167 or permission of instructor.

### 561. AFFINE AND PROJECTIVE GEOMETRY I.

Coordination of the Desarguesian affine plane; the projective plane as an extension of the affine plane. Highly recommended for prospective secondary school mathematics teachers.  
Prerequisite, Math 167 or permission of instructor.

### 562. AFFINE AND PROJECTIVE GEOMETRY II.

Continuation of Math 561. Topics from affine, projective, Euclidean, and non-Euclidean geometry.  
Prerequisite, Math 561.

### 575. TOPICS IN HISTORY OF MATHEMATICS.

A detailed examination of the work of a single great mathematician, the mathematics of a single historical period, or the historical development of a single mathematical idea.  
Prerequisite, Math 174/184 or Math 165/166.

### 665. TOPOLOGY I.

Introduction to the topology of metric spaces and topological spaces; metrics, topologies, continuity, connectedness, compactness.  
Prerequisite, Math 525 or Math 625 or permission of instructor.

### 666. TOPOLOGY II.

Introduction to the geometric ideas behind algebraic topology. Polyhedra, manifolds, Jordan curve theorem, homology mod 2, classification of surfaces, Brouwer fixed-point theorem.  
Prerequisites, Math 511 or 611, and Math 665.

## Statistics Courses

### 531. INTRODUCTION TO FUNDAMENTALS OF STATISTICAL INFERENCE I.

Random experiments and probability models; independence; conditional probability; sampling, random variables; data representations; special distributions; deduction and inference.

### 532. INTRODUCTION TO FUNDAMENTALS OF STATISTICAL INFERENCE II

Point, interval, and model estimation, hypothesis testing; optimality concepts; power; least squares techniques; decision theoretic notions.  
Prerequisite, Stat 531.

### 551. ELEMENTARY LEAST SQUARES, REGRESSION, AND ANALYSIS OF VARIANCE.

Theory of least squares, analysis of variance, simple linear and multiple regression, and application of these techniques to the real data.  
Prerequisite, Stat 121 or 532.

## MECHANICAL ENGINEERING

# Mechanical Engineering

## GRADUATE FACULTY

EDWARD SUNDERLAND, *Professor and Head of the Department of Mechanical Engineering*, B.S.M.E., Massachusetts Institute of Technology, 1954, M.S.M.E., Purdue, 1956; Ph.D., 1958.

CORRADO R. POLI, *Professor and Graduate Program Director*, B.S., Rensselaer Polytechnic Institute, 1957; M.S., 1958; Ph.D., Ohio State, 1965.

LAWRENCE L. AMBS, *Assistant Professor*, B.S. University of Minnesota, 1960; M.S., 1962; Ph.D., 1967.

MAURICE E. BATES, *Professor*, B.S.E., Michigan, 1934; M.S., Massachusetts Institute of Technology, 1935; Ph.D., 1937.

GEOFFREY BOOTHROYD, *Professor*, B.S.E., University of London, 1957; Ph.D., 1962; D.Sc., 1974.

DUANE E. CROMACK, *Associate Professor*, B.S., Massachusetts, 1959; M.E., Yale, 1961; Eng.D., Rensselaer Polytechnic Institute, 1968.

F. ERSKINE CROSSLEY, *Professor*, B.A., Cambridge University, 1937; M.A., 1941; Eng.D., Yale University, 1949.

ROBERT W. DAY, *Professor*, B.S., Massachusetts, 1948; M.M.E., Rensselaer Polytechnic Institute, 1954.

JOHN H. DITTFACH, *Professor*, B.S.M.E., Minnesota, 1947; M.S.M.E., 1948.

JOHN R. DIXON, *Professor*, B.S., Massachusetts Institute of Technology, 1952; M.S., 1953; Ph.D., Carnegie Institute of Technology, 1961.

WILLIAM P. GOSS, *Associate Professor*, B.S., Connecticut, 1961; M.S., 1962; Ph.D., 1967.

KARL JAKUS, *Associate Professor*, B.M.E., Wisconsin, 1963; M.S., California at Berkeley, 1965; Ph.D., 1968.

ROBERT H. KIRCHHOFF, *Associate Professor*, B.M.E., University of Santa Clara, 1961; M.S., University of Arizona, 1963; Ph.D., California at Berkeley, 1969.

JON G. MCGOWAN, *Professor*, B.S., Carnegie Institute of Technology, 1961; M.S., Stanford, 1962; Ph.D., Carnegie Institute of Technology, 1965.

LAURENCE MURCH, *Assistant Professor*, B.S., Northeastern, 1965; M.S., Clarkson College of Technology, 1968; Ph.D., Massachusetts, 1972.

CARL W. NELSON, *Associate Professor of Metallurgy*, B.S., Case Institute of Technology, 1956; M.S., 1963; Ph.D., 1965.

JOSEPH M. O'BYRNE, *Associate Professor*, B.S.M.E., Cincinnati, 1950; M.E., 1952; M.S.M.E., Kentucky, 1952.

ROBERT K. PATTERSON, *Associate Professor*, B.S., Maine, 1948; M.S., 1955.

KENNETH G. PICHA, *Professor*, B.S., Georgia Institute of Technology, 1946, M.S., 1948, Ph.D., Minnesota, 1957.

JOHN E. RITTER, *Professor of Materials Engineering*, B.S., Massachusetts Institute of Technology, 1961, M.S., 1962, Ph.D., Cornell, 1966.

G. ALBERT RUSSELL, *Associate Professor*, B.S., Massachusetts Institute of Technology, 1958; M.S., Arizona State, 1961; Ph.D., Connecticut, 1967.

## MECHANICAL ENGINEERING

FRANKLIN UMHOLTZ, *Associate Professor*, B.A., California State, 1958; M.A., 1961.

WILLIAM R. D. WILSON, *Associate Professor*, B.S., Queens University of Belfast, 1963; Ph.D., 1967.

JOHN W. ZAHRADNIK, *Professor*, B.S., Pennsylvania State, 1950; M.S., Iowa State, 1951; Ph.D., Massachusetts Institute of Technology, 1965.

GEORGE E. ZINSMEISTER, *Associate Professor*, B.M.E., Rensselaer Polytechnic Institute, 1961; M.S., Purdue, 1963; Ph.D., 1965.

The Master of Science program in Mechanical Engineering is designed to meet the needs of students planning either doctoral study or professional employment. Thirty credit hours are required, 6 of which are to be earned by taking one course from any two of the following groups:

- Group A: MAE 702 Thermodynamics.  
MAE 722 Advanced Fluid Mechanics.
- Group B: MAE 730 Advanced Solid Mechanics.  
MAE 740 Advanced Dynamics.
- Group C: MAE 608 Physical Metallurgical Principles.
- Group C: MAE 780 Metal Forming Processes.

Six credits of Mathematics are required, and a thesis or project of from 6 to 9 credits is normally required. The remaining credits are electives for specialization in such area as heat transfer, fluid mechanics, thermodynamics, dynamics and vibrations, machine or system design, propulsion, aerodynamics, biological processing, and metallurgy or material processing. In addition, all students must satisfy the Graduate School's requirements for the Master's degree.

The Master of Science program in Manufacturing Engineering is available for those students who are more interested in the manufacturing aspects of Mechanical engineering.

The Doctor of Philosophy program in Mechanical Engineering imposes no minimum credit hours but each course program must include the following elements:

- a. Advanced and comprehensive study in the fundamentals of mechanical engineering including appropriate science courses in mathematics, physics, and chemistry;
- b. Intensive study of a special discipline within mechanical engineering (for example, heat transfer, mechanics, gas or fluid dynamics, design, etc.), including study of the current literature;
- c. Either intensive study of a second special discipline within mechanical engineering, including study of the current literature, or study in another discipline. The selection of this second discipline and the program of study is subject to approval by the student's Guidance Committee and by the Mechanical Engineering Graduate Committee but it is the intent of the option to allow and even encourage wide latitude in the selection of fields from engineering, science, social science, arts, or humanities.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

COURSES OPEN TO GRADUATE STUDENT ONLY  
(For either major or minor credit)

## GRADUATE SCHOOL

### 700. SPECIAL PROBLEMS IN MECHANICAL AND AEROSPACE ENGINEERING.

Special investigation or research problems, the scope to be varied to meet specific conditions.  
Prerequisite, as required by the problem. *Credit, 1-6.*

### 701. ADVANCED THERMODYNAMICS.

Theory of advanced, direct and indirect, energy conversion systems. Thermodynamic cycle optimization methods. Irreversible thermodynamics as applied to steady state energy conversion systems. Direct energy conversion systems include MHD, fuel cells, thermoelectric, thermionic, and other current systems.  
Prerequisite, MAE 702 or equivalent. *Mr. McGowan.*

### 702. THERMODYNAMICS.

Review of classical thermodynamics and conventional energy conversion systems. Introduction to kinetic theory of gases, and statistical thermodynamics. Selected topics in chemical thermodynamics.  
Prerequisite, graduate standing or permission of instructor. *Mr. Amb, Mr. McGowan.*

### 703. ADVANCED MECHANICAL ENGINEERING ANALYSIS I.

Methods of analysis of mechanical engineering problems. Modular structure allows students to choose topics appropriate to their background and specific area of study. For current offerings contact the Mechanical and Aerospace Engineering Department Office.  
Prerequisite, graduate standing or permission of instructor.

### 704. ADVANCED MECHANICAL ENGINEERING ANALYSIS II.

Continuation of MAE 703.  
Prerequisite, MAE 703.

### 705. ADVANCED HEAT TRANSFER I — CONDUCTION.

Development of the general heat conduction equation for nonhomogeneous and anisotropic materials with temperature dependent properties. Formulation of boundary conditions in heat conduction problems. Solution of sample resulting boundary value problems using separation of variables, integral transform and finite difference techniques.  
Prerequisite, MAE 582 or equivalent. *Mr. Zinsmeister.*

### 706. ADVANCED HEAT TRANSFER II — CONVECTION.

Development of the general energy equation for convective heat transfer from basic concepts of energy and mass flow. Application to laminar and turbulent, internal and external convective heat transfer problems. Solution methods, including boundary layer theory, similarity concepts, integral approximation methods, and numerical techniques. Introduction to mass transfer.  
Prerequisite, MAE 722, or equivalent. *Mr. Goss, Mr. Jakus.*

### 707. VISCOUS FLUIDS.

Exact solutions to the Navier-Stokes equations, slow flow, and boundary layer flow. One-dimensional gas dynamics, shock waves, the acoustic equations, and application of the theory of characteristics to compressible flow.  
Prerequisite, MAE 722 or equivalent. *Mr. Jakus.*

### 709. MECHANICAL PROPERTIES OF MATERIALS.

Dislocation theory and its application to the mechanical properties of non-organic materials.  
Prerequisite, MAE 608 or equivalent. *Mr. Nelson, Mr. Ritter.*

### 713. ADVANCED PROPULSION SYSTEMS.

Design, control, and integration of propulsion systems with the vehicle. Air-breathing engines, chemical rocket motors, electrical and nuclear engines. Power and energy limited systems for various mission requirements.  
Prerequisite, MAE 578 or equivalent. *Mr. Amb.*

## UNIVERSITY OF MASSACHUSETTS

### 722. ADVANCED FLUID MECHANICS.

Fundamentals of fluid mechanics including kinematics, the stress tensor, and the basic equations from the conservation of mass, momentum, and energy. The dynamics of an inviscid fluid and vortex motion. MAE 722 and 707 form a one-year comprehensive course in fluid mechanics.

Prerequisite, MAE 265 or equivalent.

Mr. Jakus, Mr. Kirchhoff.

### 730. ADVANCED SOLID MECHANICS.

A unified treatment of the analysis of solids. Consideration of continuity, mechanical energy, stress and strain. Application to elasticity, thermoelasticity, and plasticity.

Prerequisite, graduate standing or permission of instructor.

### 740. ADVANCED DYNAMICS.

Advanced dynamics of particles, systems of particles, variable mass systems, and rigid bodies. Gyroscopic motion. Rotating and accelerating frames of reference. Use of energy methods, LaGrange's equations. Hamilton's principle, and Eulerian angles in engineering problems.

Prerequisite, graduate standing or permission of instructor.

Mr. Poli.

### 741. VIBRATIONS II.

Vibration of discrete systems with many degrees of freedom, normal modes and frequencies, approximate methods. Introduction to nonlinear vibrations. Nonlinearities in inertia, damping, restoring forces, etc. Singular points and stability, including approximate methods of solution. Liapunov's method.

Prerequisite, MAE 740.

Mr. Poli.

### 743. STABILITY OF STRUCTURES.

Correlations of various linear and nonlinear theories with experiments. Creep buckling. Thermal buckling. Buckling due to dynamic loads. Buckling of non-conservative systems.

Prerequisite, graduate standing.

### 744. THERMAL EFFECTS IN STRUCTURES.

Uncoupled thermoelastic theory, thermal stresses in beams, rings, plates, and shells. Thermally induced vibrations of beams, plates, and shells. Inelastic thermal stress problems. Stresses in the presence of creep. Ablation phenomena.

Prerequisite, graduate standing.

### 746. ADVANCED VIBRATIONS.

Free and forced vibrations of strings, rods, bars, and thin elastic plates. Free vibrations of circular, cylindrical, and conical shells. Forced harmonic vibrations of thin shells. Propagation of elastic waves. Rayleigh surface waves. Statistical concepts of random vibration analysis.

Prerequisite, MAE 740.

Mr. Poli.

### 750. MECHANISMS AND THEORY OF MACHINES I.

Structure and type synthesis of mechanisms; a solution to the designer's problem of selecting the type of mechanism for a job; applications of the theory of graphs. Digital computer methods for design of linkages; optimization of nonlinear systems. Geometry of plane curves, and instantaneous kinematics of a plane moving body.

(Open to qualified undergraduates with permission of instructor.)

Mr. Crossley.

### 751. MECHANISMS AND THEORY OF MACHINES II.

Dynamics of cam drives; design by computer or simulation by analog computer. Gear train design; problems of efficiency and circulation power in loops. Analog computer simulation of two- and three-dimensional mechanisms in motion. Some three-dimensional linkages and design methods.

Mr. Crossley.

### 760. ADVANCED MECHANICAL ENGINEERING DESIGN I.

Application of control systems theory to design of thermal, fluid, mechanical, electromechanical, and combined systems. Consideration of optimization, stability and methods of simulation.

Credit, 4.

## MECHANICAL ENGINEERING

### 761. ADVANCED MECHANICAL ENGINEERING DESIGN II.

Optimization in design. Methods of optimization; numerical and variational, linear and non-linear. Advantages, disadvantages, restrictions and use of the various methods.

### 770. ADVANCED COMBUSTION.

Topics in chemically reacting flow systems, heat, mass, and momentum transfer in chemically reacting ducted flows. Topics include chemical equilibrium, chemical kinetics, transport properties, laminar and turbulent flows, droplets and sprays.

Prerequisite, graduate standing and permission of instructor.

Mr. Ambs.

### 780. METAL FORMING PROCESSES.

The theory of plasticity including yield criteria and flow laws. Upper and lower bound methods and their application to the analysis of selected metal forming processes. Practical problems encountered in metal forming.

Prerequisite, MAE 520.

Mr. Boothroyd, Mr. Wilson.

### 790. ENGINEERING PROJECT.

A research, design, or development project. Written preparation and oral defense of a project proposal giving objectives, literature survey, and proposed plan. Written preparation and oral defense of a final report giving results and conclusions. May be repeated for credit.

Prerequisite, graduate standing.

Credit, 1-10.

### 799. LITERATURE SURVEY AND SEMINAR.

A comprehensive study and organization of the current literature on a selected topic. Presentation of the survey in an open seminar including Department faculty and graduate students. Open only to students who have passed Preliminary Examinations.

Not for credit.

## Selected Topics Courses

To best serve the varied interests of its graduate students, the Department has available the following set of selected topics courses. These are one-semester courses and not individualized reading courses. The particular choice of subject matter to be covered in any one of these courses depends upon the specialized needs and interests of the students and is tailored to their requests. The courses are offered only on sufficient demand.

### 801. SELECTED TOPICS IN THERMODYNAMICS.

Current topics in thermodynamics. An in-depth investigation of a specific topic or specialized thermodynamic system. Emphasis on concurrent reading of the literature.

Prerequisite, MAE 701.

Mr. Ambs, Mr. McGowan.

### 811. SELECTED TOPICS IN HEAT TRANSFER.

Topics may be chosen from the following: nonlinear problems in heat conduction with emphasis on temperature-dependent properties; heat conduction in composite and anisotropic materials; heat transfer with change of phase (boiling, condensation, sublimation, melting, and freezing); finite difference and integral approximation techniques in heat transfer; introduction to radiation heat transfer including combined radiation-conduction and radiation-convection.

Prerequisites, MAE 705 and/or MAE 706.

Mr. Goss, Mr. Zinsmeister.

### 821. SELECTED TOPICS IN FLUID MECHANICS.

Any one or two of the following topics: numerical methods in fluid mechanics; advanced measurement techniques; advanced compressible flow; singular perturbation theory; magnetohydrodynamics; free molecule flow-kinetic theory.

Prerequisite, MAE 707.

Mr. Kirchhoff.

### 831. SELECTED TOPICS IN SOLID MECHANICS.

Topics normally chosen from such areas as stability of structures, thermal effects in structures, inelastic behavior of materials, and shell theory.

Prerequisite, MAE 730.

Mr. Poli.

## MECHANICAL ENGINEERING

### 841. SELECTED TOPICS IN VIBRATIONS.

A more in-depth study of some of the topics covered in 741 and 746; usually topics in the area of nonlinear vibrations, stability theory, or random vibrations.  
Prerequisites, MAE 741 and/or MAE 746. Mr. Poli.

### 851. SELECTED TOPICS ON MECHANISMS AND MACHINE DESIGN.

A few of the following may be studied as a continuation of MAE 751: Classical Burmester theory. The geometry of screw systems, line complexes, and their relation to the mobility of linkages. Use of dual numbers, quaternions, and dual matrices in the computer solution of spatial mechanism design problems. Application of Chebyshev approximation methods in design. Dynamic analysis and balancing of linkages. Dynamics of mechanical systems with play, backlash, or separation of the parts as in cams, with either analog or computer simulation. Dynamics of mechanisms containing springs of highly elastic elements; nonlinear vibratory systems; stability according to Mathieu-Hill; systems with different regimes of behavior.  
Prerequisite, MAE 751. Mr. Crossley.

### 871. SPECIAL TOPICS IN COMBUSTION AND PROPULSION.

Special topics according to student and instructor interest selected from the current literature. An in-depth student investigation of some aspect of the problem.  
Prerequisites, MAE 713 and/or MAE 770. Mr. Ambs.

### 881. SELECTED TOPICS IN MATERIALS.

Advanced study in topics of current interest. Examples include thermodynamics of phase transfer motions, mechanical behavior of ceramic materials, composite materials, and relaxation phenomena in metals.  
Prerequisite, MAE 709. Mr. Nelson, Mr. Ritter.

### 800. MASTER'S THESIS.

Credit, 3-10.

### 900. DOCTORAL DISSERTATION.

Credit, 18.

### COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS (For either major or minor credit)

#### 520. MACHINING AND MACHINE TOOLS.

Fundamentals of metal cutting including temperatures generated and dynamic stability of the cutting process. Lubrication and wear of cutting tools and cutting conditions for maximum production or minimum cost. Design of machine tools. Numerical control and economics of machine tools.  
Mr. Boothroyd.

#### 521. AUTOMATION IN MANUFACTURING.

In-depth study of the automatic assembly process including feeding and orienting of parts and the performance and economics of assembly systems. Design of parts and products for automatic assembly.  
Mr. Boothroyd.

#### 535. MANUFACTURING PROCESSES.

Introduction to casting, forming, cutting, and joining processes for metals and plastics. Includes the economics, relative advantages and limitations of the processes.  
Mr. Wilson.

#### 537. MANUFACTURING PROCESSES LABORATORY.

Experiments, workshops and short experimental projects based on the topics covered in MAE 535. Emphasis on experimental technique and presentation of results. One 3-hour laboratory period.  
Credit 1. Mr. Wilson.

#### 548. STRUCTURES FOR MECHANICAL AND AEROSPACE ENGINEERS I.

Introduction to the load and temperature environment of structures. Review of stress and strain with an introduction to the theory of elasticity. Theories of bending, extension, torsion and shear of slender beams without structural discontinuities. Introduction to work-energy principles and their application to the deflection and stress analysis of complex

structures. Examples from the fields of mechanical and aerospace engineering.

Prerequisite, MAE 145.

Mr. Poli.

#### 549. STRUCTURES FOR MECHANICAL AND AEROSPACE ENGINEERS II.

Continuation of MAE 548. Elastic instability. Applications to axially symmetrical problems, curved beams and stress concentrations. Applications to plates and shells. Introduction to problems involving viscous and plastic behavior. Numerical methods.

Prerequisites, MAE 548 or permission of instructor.

Mr. Poli.

#### 554. PRODUCT DESIGN I.

Human values in design. Central philosophy of product design. Emphasis on the relation between technical and human values, creativity, and design methodology. Laboratory includes the development of simple product concepts visualized in rapidly developed three-dimensional mockups. Two class hours, two 2-hour laboratory periods.

Mr. Umholtz.

#### 555. AQUACULTURAL ENGINEERING SYSTEMS (OE 591).

Rate theory and similitude in the scaling of biological processes. Case study of biological data used in the derivation of useful engineering system design relationships for the culture of mollusks. A bioengineering comparison of several systems used in aquaculture.

Mr. Zahradnik.

#### 557. PRODUCT DESIGN II.

Continuation of MAE 554. Integration of knowledge, methodology, and skills obtained in previous work applied and extended to product design. Semester-long design project with formal presentation to professional jury.

Prerequisite, MAE 554.

Two class hours, two 2-hour laboratory periods.

Mr. Umholtz.

#### 574. PERFORMANCE OF FLIGHT VEHICLES.

Aircraft performance, static and maneuvering. Fundamental astronautics, two-body, problem transfer orbits, rendezvous, intercept, lunar and interplanetary trajectories.

Prerequisites, MAE 246, 265. Mr. Cromack, Mr. Poli.

#### 576. COMBUSTION.

Phenomenological study of combustion processes in flowing systems.

Prerequisite, MAE 264.

Mr. Ambs.

#### 577. INTERNAL COMBUSTION ENGINES.

The thermodynamic and performance aspects of reciprocating gasoline and Diesel engines, steady flow gas turbines and turbo-jet engines, and rockets are major topics.

Prerequisite, MAE 264.

Mr. Ambs, Mr. Dittfach.

#### 578. AEROSPACE PROPULSION.

Primary and auxiliary power sources. Matching of air-breathing and rocket motors with vehicle. Electrical and nuclear propulsion systems.

Prerequisite, MAE 287.

Mr. Ambs.

#### 582. HEAT TRANSFER.

Fundamental principles of heat transfer by conduction, radiation, and convection. Methods of evaluating heat transfer rates and predicting operating temperatures.

Prerequisites, MAE 264 and Math 186 or 541.

Mr. O'Byrne, Mr. Zinsmeister.

#### 583. MACHINE DESIGN.

Principles of the design of various machine parts; economy of manufacture, safety, styling, invention and creativity. Two class hours, one 3-hour laboratory period.

Prerequisites, MAE 293, 235, and 237.

Mr. Bates, Mr. Crossley.

#### 585. VIBRATIONS I.

The linear vibrations of machines and machine structures.

## UNIVERSITY OF MASSACHUSETTS

Uses of active and passive isolation, balancing, absorption, damping and feedback control to reduce the effects of vibrations.

Prerequisite, MAE 246.

Mr. Poli.

### 586. ADVANCED MACHINE DESIGN.

Continuation of MAE 563. Additional elementary parts are analyzed, and some complete machines are studied. Considerable emphasis on invention and creativity.

Two class hours, one 3-hour laboratory period.

Prerequisite, MAE 583.

Mr. Bates, Mr. Crossley.

### 587. GAS DYNAMICS.

Continuation of MAE 265. Continuous and discrete media. Compressible flow equations and compressibility effects. Flow in variable area ducts, normal and oblique shocks. Two dimensional flow. Applications.

Prerequisites, MAE 265 and MAE 263.

Mr. Day, Mr. Kirchhoff.

### 591. MECHANICAL AND AERO-SPACE ENGINEERING ANALYSIS II.

Continuation of MAE 284 with emphasis on more complex problems and more advanced mathematical methods.

Two class hours, one 3-hour laboratory period.

Prerequisite, MAE 284.

Mr. Zinsmeister.

### 594. MECHANICAL AND AERO-SPACE SYSTEMS ANALYSIS.

Application of engineering analysis techniques to large-scale systems. Concepts and methodology of systems engineering.

Prerequisite, EE 142 or permission of instructor.

Mr. Russell.

### 595. MECHANICAL AND AERO-SPACE ENGINEERING DESIGN.

Application of fundamentals of technology to complex design projects.

One class hour, two 3-hour laboratory periods.

Mr. Dixon, Mr. Tartaglia.

### 597. LUBRICATION, FRICTION, AND WEAR.

Hydrodynamic and boundary lubrication, adhesive, abrasive and hysteretic friction and wear processes. Applications in the design of bearings, seals, gears and other systems involving surfaces in relative motion.

Prerequisite, graduate standing or permission of instructor.

### 608. PHYSICAL METALLURGICAL PRINCIPLES.

Principles underlying the structure and behavior of metals. Equilibrium and non-equilibrium phase relations in one- and two-component systems. Kinetics of diffusion and nucleation. Phase transformations, heat treatment, and hardenability.

Prerequisite, graduate standing or permission of instructor.

Mr. Nelson, Mr. Ritter.

### 615. AERODYNAMICS.

Application of theoretical fluid mechanics to aerodynamics including topics of theory of lift; finite wing theory; the effects of compressibility and viscosity on lift and drag; slender body theory.

Prerequisite, MAE 265 or equivalent.

Mr. Cromack.

### 616. STABILITY AND CONTROL OF VEHICLES.

Introduction to the general concepts of stability of motion. The stability of air, space, and ground vehicles.

Prerequisite, MAE 574 or permission of instructor.

Mr. Cromack, Mr. Poli.

### 650. X-RAY DIFFRACTION.

Principles of crystallography. X-ray diffraction.

Prerequisite, MAE 608.

Mr. Nelson, Mr. Ritter.

## Microbiology

### GRADUATE FACULTY

ROBERT P. MORTLOCK, *Professor and Head of the Department of Microbiology*, B.S., Rensselaer Polytechnic Institute, 1953; Ph.D., Illinois, 1958.

## MICROBIOLOGY

ERCOLE CANALE-PAROLA, *Professor and Graduate Program Director*, B.S., Illinois, 1956; M.S., 1957; Ph.D., 1961.

CHARLES D. COX, *Professor*, B.S., Illinois, 1940; M.S., 1941; Ph.D., 1947.

CLIFTON E. DOWELL, JR., *Associate Professor*, B.A., Texas Christian, 1955; M.A., 1957; Ph.D., University of Texas, 1962.

STANLEY C. HOLT, *Professor*, B.S., New York University, 1958; M.S., Michigan State, 1960; Ph.D., California at Davis, 1964.

THOMAS G. LESSIE, *Associate Professor*, B.S., Queens College, 1958; M.A., Harvard, 1961; Ph.D., 1963.

LEONARD C. NORKIN, *Assistant Professor*, B.S., Rensselaer Polytechnic Institute, 1964; Ph.D., Columbia, 1969.

ALBEY M. REINER, *Associate Professor*, B.S., Princeton, 1952; M.S., Wisconsin, 1964; Ph.D., Harvard, 1965.

CURTIS B. THORNE, *Professor*, B.S., West Virginia Wesleyan, 1943; M.S., Wisconsin, 1944; Ph.D., 1948.

MARTIN S. WILDER, *Associate Professor*, B.S., Brooklyn College, 1960; M.S., University of Kansas, 1963; Ph.D., 1966.

The Department of Microbiology provides facilities for students intending to complete the requirements for the Master of Science and Doctor of Philosophy degrees. Students accepted for graduate study are expected to have met the usual requirements for the bachelor's degree. Those students considered by the Department to be deficient in cognate sciences may be accepted as graduate student majors in microbiology and have their deficiencies removed during graduate study. Extensive advanced undergraduate courses in microbiology are not as essential as undergraduate background in chemistry, biological sciences, mathematics and physics, in preparation for graduate work in microbiology. Satisfactory knowledge of microbiology and cognate sciences is required for admission to advanced courses in microbiology. The department requires no foreign-language reading competency for the doctorate.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

### COURSES OPEN TO GRADUATE STUDENTS ONLY (For either major or minor credit)

#### 700. RESEARCH.

Not for thesis credit. May be repeated for a total of no more than 9 credits for a master's degree or 18 credits for a doctor's degree. Permission of instructor required.

*Credit, 2-6 each semester.*

#### 710. ADVANCED IMMUNOLOGY.

Advanced theories and laboratory procedures basic to immunology and serology. Permission of instructor required.

*Credit, 3-6. Mr. Cox.*

#### 720. ANIMAL VIROLOGY.

The molecular biology of animal viruses and viral genetic systems. Special consideration of poliovirus, influenza, and the DNA and RNA tumor viruses. Permission of instructor required.

*Mr. Norkin.*

#### 730. MICROBIAL FERMENTATIONS.

Microbial products. Theories and methods of industrial pro-

## MUSIC

duction. Laboratory experiments deal with microorganisms and procedures used in industry. Permission of instructor required.

### 740. ADVANCED MICROBIAL PHYSIOLOGY.

Laboratory. Growth of bacteria; macro-molecular composition, bacterial respiration and electron transport systems; fractionation and characterization of bacterial enzymes. Emphasis on regulation of their formation and activity. Permission of instructor required.

*Credit, 2-5. Mr. Lessie, Mr. Mortlock.*

### 750. MICROBIAL CYTOLOGY.

Lectures, literature reviews, and laboratory; a comprehensive survey of the structure of microbial cells and the functions of their components; use of the electron microscope and ancillary equipment. Permission of instructor required.

*Credit, 3-5. Mr. Holt.*

### 760. MICROBIAL METABOLISM.

Metabolic pathways and mechanisms in microorganisms. Lectures, readings and discussions. Permission of instructor required.

*Mr. Mortlock.*

### 770. MICROBIAL GENETICS.

Inheritance and variation in microorganisms. Mechanisms of recombination, transformation, transduction, and other genetic phenomena in microorganisms. Emphasis on molecular basis. Permission of instructor required.

*Credit, 4. Mr. Thorne.*

### 780. HOST-PARASITE RELATIONSHIPS.

Intensive treatment of specific relationships between parasitic microorganisms and their hosts, by appropriate literature and laboratory studies. Permission of instructor required.

*Credit, 2-5. Mr. Wilder.*

### 790. SEMINAR.

Reports and discussion of pertinent literature and research. Normally required of all graduate majors each semester in residence. Permission of instructor required.

*Credit, 1.*

### 800. MASTER'S THESIS.

*Credit, 10.*

### 890. CURRENT TOPICS.

Intensive consideration of a specific microbiological topic of current interest utilizing staff and student participation and visiting scientists. Lectures and discussions only. Credit depends upon particular topic. Permission of instructor required.

*Credit, 1-2.*

### 900. DOCTORAL DISSERTATION.

*Credit, 18.*

## COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS

(For either major or minor credit)

### 550. GENERAL MICROBIOLOGY.

Cytology, pathogenic bacteriology, immunology and virology.

Two class hours, one three-hour laboratory period. Prerequisites, one semester of biological science and completion of, or concurrent registration in, a course in organic chemistry.

### 551. GENERAL MICROBIOLOGY.

Ecology, physiology, and genetics of microorganisms.

Two class hours, one three-hour laboratory period. Prerequisites, a college course in a biological science and completion of, or concurrent registration in, a course in organic chemistry.

### 580. PATHOGENIC BACTERIOLOGY.

Principles of host-parasite interactions; microbial virulence; pathogenic mechanisms; innate and acquired immunity to infectious disease.

Prerequisite, Microbiol 550.

*Credit, 4. Mr. Wilder.*

## GRADUATE SCHOOL

### 610. IMMUNOLOGY.

The nature of antigens and antibodies, their interactions and significance in resistance and hypersensitivity.

Two class hours, two 3-hour laboratory periods.

Prerequisite, Microbiol 550, or permission of instructor.

*Credit, 4. Mr. Cox.*

### 620. VIROLOGY.

The structure, and the chemical, physical, and biological properties of bacterial viruses.

Two class hours, two 3-hour laboratory periods.

Prerequisites, Microbiol 550 and permission of instructor.

*Credit, 4. Mr. Dowell.*

### 640. MICROBIAL PHYSIOLOGY.

Microbial chemistry and growth. Composition of bacterial cells, energy metabolism, biosynthesis of macro-molecules and macromolecule precursor materials, and regulatory mechanisms governing these events. Permission of instructor required.

*Mr. Mortlock, Mr. Lessie.*

### 660. MICROBIAL DIVERSITY.

Physiology, ecology, and morphology of selected groups of microorganisms. Behavior of bacteria in response to environmental stimuli.

Two class hours, two three-hour laboratory periods.

Prerequisite, Microbiol 551 or permission of instructor.

*Credit, 4. Mr. Canale-Parola.*

## Music

### GRADUATE FACULTY

ROBERT V. SUTTON, *Professor and Head of the Department of Music*, B.M., University of Alabama, 1948; M.M., Eastman School of Music, 1949; Ph.D., 1955.

ALBERT G. HUTTEMAN, *Associate Professor and Graduate Program Director*, B.M., New England Conservatory of Music, 1956; M.F.A., Ohio, 1957; Ph.D., Iowa, 1968.

HORACE C. BOYER, *Assistant Professor*, B.A., Bethune-Cookman College, 1957; M.A., Eastman School of Music, 1964; Ph.D., 1973.

NIGEL COXE, *Associate Professor*, L.R.A.M., Royal Academy of Music, London, 1950; F.R.A.M., 1964.

RICHARD DU BOIS, *Professor*, B.Mus., Heidelberg College, 1948; M.M., American Conservatory of Music, 1949; Ph.D., University of Iowa, 1964.

WILLIAM D. GAVER, *Assistant Professor*, B.M., Eastman School of Music, 1954; M.M., University of Houston, 1958; D.M.A., Missouri at Kansas City, 1971.

ROBERT STERN, *Professor*, B.A., Rochester, 1955; M.A., Eastman School of Music, 1956; Ph.D., 1962.

PETER H. TANNER, *Associate Professor*, B.M., Eastman School of Music, 1958; M.M., 1959; Ph.D., The Catholic University of America, 1967.

FREDERICK C. TILLIS, *Professor*, B.A., Wiley College, 1949; M.A., University of Iowa, 1952; Ph.D., 1963.

MIRIAM WHAPLES, *Associate Professor*, B.A., Indiana University, 1950; M.M., 1954; Ph.D., 1958.

A minimum of 33 hours and a comprehensive oral examination are required for the Master of Music degree. A basic core of courses in music theory and history and ensemble work is required of all degree candi-

UNIVERSITY OF MASSACHUSETTS

MUSIC

dates. The further hours are required of all degree candidates. The further hours are required according to the area of concentration, as advised, and electives are usually possible.

Areas of concentration are: Performance; Music Education; Music-History & Musicology; Theory-Composition. Candidates for the M.M. in Composition must submit, in lieu of a thesis, one original composition in large form (chamber music, orchestral, choral with instruments, or the like).

For admission in any area of concentration an audition in person (or by tape) is required in the applicant's major performance subject (instrument or voice). In Theory-Composition, scores of recent works are additionally required. On graduate registration day and on the day preceding it, Placement Tests are held in music theory, history and piano proficiency. Applicants should write immediately and separately to the Music Department for the M.M. leaflet, and name their performance subject and any alternative concentration. A double concentration is also usually possible with six or more additional hours.

ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

COURSES OPEN TO GRADUATE STUDENTS ONLY

700. SPECIAL PROBLEMS. *Credit, 1-6.*

701, 702. SEMINAR IN MUSICOLOGY.  
Materials and methods of systematic and historical musicology. Specialized topics investigated each semester. The application to different problems of various subjects such as history, acoustics, aesthetics, analysis. May be repeated for credit with varying content as advised. *Mr. King.*

710. COUNTERPOINT (CANON AND FUGUE).  
Writing and analysis of invertible counterpoint, various canonic devices, and fugue. *Mr. Beranson, Mr. Fussell.*

711, 712. COMPOSITION  
Free composition in various forms and media. Individual lessons. Weekly seminar. *Mr. Beranson.*

713-716. ANALYSIS OF MUSIC LITERATURE.  
Representative compositions from each period. Analysis by score and sound of the various musical forms and media.

713. ANALYSIS OF MUSIC LITERATURE, 1600-1750.

714. ANALYSIS OF MUSIC LITERATURE, 1750-1825.

715. ANALYSIS OF MUSIC LITERATURE, 1825-1900.

716. ANALYSIS OF MUSIC LITERATURE, 1890-PRESENT.

717. HISTORY AND PEDAGOGY OF THEORY.  
Principal authors of treatises dealing with composition, counterpoint, and harmony. Emphasis on the relationship between the works discussed and contemporary pedagogical techniques of presenting theory and allied subjects.

721-738. PERFORMANCE—INDIVIDUAL INSTRUCTION.  
Literature and instrumental technique or voice production. Audition required. *Credit, 1-3.*

721. APPLIED PIANO.  
*Mr. Cox.*

723. APPLIED VOICE

724. APPLIED VIOLIN.

725. APPLIED VIOLA.

726. APPLIED CELLO.

728. APPLIED FLUTE.

729. APPLIED OBOE.

730. APPLIED CLARINET

731. APPLIED BASSOON.

732. APPLIED SAXOPHONE

733. APPLIED TRUMPET

734. APPLIED FRENCH HORN

735. APPLIED TROMBONE.

736. APPLIED BARITONE HORN.

737. APPLIED TUBA

738. APPLIED PERCUSSION. *Mr. Tanner.*

742. RESEARCH IN MUSIC EDUCATION  
Individual research projects in selected areas of Music Education. *Mr. duBois.*

751. MUSIC EDUCATION IN THE ELEMENTARY SCHOOL.  
Exploration and evaluation of recent trends in elementary school music. Curriculum planning, materials, techniques. *Mr. Gaver.*

753. CHORAL MUSIC IN THE PUBLIC SCHOOL.  
Organization of the choral program in the junior and senior high school. Materials and methods of teaching small and large vocal ensembles. *Mr. duBois.*

800. MASTER'S THESIS. *Credit, 3-10.*

812. MUSIC HISTORY — MEDIEVAL.  
Repertoire study and stylistic analysis; study of notation. *Mrs. Whaples.*

813. MUSIC HISTORY — RENAISSANCE.  
Such composers as Dunstable, Dufay, Binchois, Okeghem, Obrecht, Isaac, Josquin, Milan, Tallis, Palestrina, Lassus, Victoria, Byrd, the Gabrielis, and their contemporaries. Media, forms, society. Reading, listening, score-study, analysis. *Mr. King.*

814. MUSIC HISTORY — BAROQUE.  
Such composers as the Camerata, Monteverdi, Schutz, Lully, Purcell, Corelli, Couperin, Rameau, the Scarlattis, and their contemporaries. Reading, listening, score study, analysis. *Mr. King.*

815. MUSIC HISTORY — THE AGE OF BACH AND HANDEL.  
J.S. Bach, the Bach family, Handel, their predecessors and contemporaries. Media, forms, society. Reading, listening, score study, analysis. *Mr. King.*

COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS

014. REMEDIAL THEORY  
For students deficient in undergraduate theory. Materials adapted to individual requirements. *Credit, 0.*

509. MUSIC HISTORY — MUSIC OF THE 20TH CENTURY.  
Music, European and American, written since 1900. Includes

## NURSING

Stravinsky, Bartok, Hindemith, Copland, jazz, and electronic music. Mr. Tillis.

### 515. COUNTERPOINT.

Techniques of counterpoint, and analysis of polyphonic music of the 16th century. Composition in small forms, utilizing contrapuntal techniques. Mr. Stern.

### 516. ORCHESTRATION.

Problems in scoring for various ensembles including full orchestra. Mr. Stern.

### 517. CONTEMPORARY TECHNIQUES.

Melody, rhythm, harmony, and form in 20th-century music. Analysis, listening, written assignments. Credit, 2. Mr. Stern.

### 519, 520. JAZZ THEORY AND IMPROVISATION I AND II.

Theory as applied to performing, analyzing and composing in the jazz medium. Mr. Tillis.

### 526. ADVANCED CHORAL LITERATURE AND TECHNIQUES.

Historical survey of choral literature and the study of performance practices.

### 527. ADVANCED ORCHESTRAL LITERATURE AND TECHNIQUES.

Historical survey of orchestral literature and the study of performance practices.

### 601. MUSIC HISTORY — HAYDN, MOZART, AND BEETHOVEN.

Reading, listening, score study. Music of Haydn, Mozart and Beethoven, and possibly that of their contemporaries. Mr. King.

### 602. MUSIC HISTORY — FROM SCHUBERT TO DEBUSSY.

Historical study of 19th-century music in small and large forms, and various media including keyboard instruments. Lieder, chamber music, symphony, opera. Reading, listening, score study. Mr. King.

### 603. MUSIC HISTORY — HISTORY OF OPERA.

History of opera from the late 16th through the present century. Mr. King.

### 618. JAZZ ARRANGING AND COMPOSITION.

Writing arrangements and composing for jazz ensembles and the school stage band. Analysis, listening and instrumental scoring. Mr. Tillis.

### 664. ADVANCED INSTRUMENTAL CONDUCTING.

Score analysis, rehearsal techniques, and advanced conducting problems of orchestral ensembles.

### 665. ADVANCED CHORAL CONDUCTING.

Score analysis, rehearsal techniques, and advanced conducting problems of choral ensembles. Mr. duBois.

## Performing Organizations

### 761. UNIVERSITY CHORALE.

Advanced choir, selected by audition. Preparation and performance of choral literature ranging from the Renaissance to contemporary music. Performance on campus and on concert tours. Three or four rehearsals a week. Chamber Singers selected from this group. Credit, 1. Mr. duBois.

### 762. UNIVERSITY CHORUS.

Open to all. Preparation and concert performance of oratorios and other large choral works. Credit, 1.

### 765. WOMEN'S CHOIR.

A select choir specializing in literature for women's voices. Audition required. Credit, 1.

## GRADUATE SCHOOL

### 767. CHAMBER SINGERS.

Vocal ensembles specializing in performance of chamber music from Renaissance to contemporary. Audition required. Credit, 1. Mr. duBois.

### 768. MADRIGAL SINGERS.

Vocal ensemble specializing in music of the Renaissance. Audition required. Credit, 1.

### 771. UNIVERSITY ORCHESTRA.

Preparation and performance of orchestral literature of various styles and periods. Credit, 1.

### 781. MARCHING BAND.

Preparation and performance of pre-game and half-time shows during the football season. May be taken one semester with a semester of Music 782 or 783, or for two semesters. Credit, 1.

### 782. SYMPHONY BAND.

Preparation and performance of band and wind ensemble literature of various styles and periods. May be taken one semester with a semester of Music 781 or 783, or for two semesters. Credit, 1.

### 783. CONCERT BAND.

Preparation and limited performance of selected band literature. May be taken one semester with a semester of Music 781, or 782, or for two semesters. Credit, 1.

### 787. ENSEMBLE.

Preparation and performance of appropriate literature for small instrumental and vocal ensembles. Credit, 1.

### 788. JAZZ WORKSHOP.

Preparation and performance of literature for jazz ensembles and the school stage band. Mr. Tillis.

## Nursing

## GRADUATE FACULTY

IRA D. TRAIL, *Professor and Director of the Division of Nursing*, R.N., Bellevue Hospital, 1947; B.S., Hunter College, 1950; M.A., Columbia, 1960; Dr. P.H., California at Los Angeles, 1971.

GLADYS ANCRUM, *Associate Professor and Chairman of the Graduate Program in Community Health Nursing*, B.S., Columbia, 1954; M.A., 1958; M.P.H., California at Los Angeles, 1965; D.P.H., 1968.

ANNA H. GALLAGHER, *Professor of Nursing and Professor of Curriculum Development*, R.N., Philadelphia General Hospital, 1939; B.S., University of Pennsylvania, 1950; M.S., 1951; Ed.D., 1956.

ELAINE L. LAMONICA, *Assistant Professor*, B.S., Columbia Union, 1964; M.S., Florida, 1974; Ed.D., Massachusetts, 1975.

GWEN MARRAM, *Professor and Chairman of Graduate Program in Mental Health Nursing*, B.S., California at San Francisco, 1965; M.S., 1966; Ph.D., Stanford, 1972.

ALVIN E. WINDER, *Professor*, B.A. Brooklyn College, 1947; M.S., University of Illinois, 1948; Ph.D., University of Chicago, 1952.

## UNIVERSITY OF MASSACHUSETTS

## NURSING

The program has been developed in consideration of four broad areas: first, the need for clinical specialization to follow the general preparation in baccalaureate education; second, the changing needs of society in regard to nursing which are intimately related to the rapid advances in health practice based upon the explosion of knowledge in the sciences; third, the imperative need for the development of theoretical content for the profession of nursing based upon research and other scholarly pursuits; and, fourth, the need for the development of leadership personnel who have new knowledge, new insights and concepts, and who are prepared to cope with the constantly changing functions and roles of the professional nurse. Clinical specialization in Community Health Nursing, Bio-psychological Nursing, and Psychiatric-Mental Health Nursing is provided.

The first three semesters emphasize advanced study in clinical nursing, both theory and practice, and advanced study of the natural and behavioral sciences, and an introduction to research methodology. In the fourth semester, the student may elect to concentrate in one of the functional areas — supervision and administration of nursing, or the teaching of nursing. Concurrent field practice is provided in both areas. As a third alternative, the student may choose to continue clinical study, concentrating in greater depth in some specialized area of the major field or in a second area of clinical interest.

The Division of Nursing Graduate Program is committed to Affirmative Action guidelines of the University of Massachusetts.

Candidates for admission, in addition to the minimum Graduate School requirements, must present evidence of:

- 1) Successful completion of a course in applied statistics.
- 2) Graduation from a baccalaureate program in nursing accredited by the National League for Nursing.
- 3) Evidence of academic ability, on the basis of the Graduate Record Examination and G.P.A.
- 4) Professional references indicating expectation of success in a graduate program.

### REQUIREMENTS FOR THE MASTER'S DEGREE IN NURSING INCLUDE:

1. Total of 48 credits, of which a minimum of 36 are in combined clinical nursing and related behavioral

and natural sciences and research. The remaining 12 credits may be in one of the functional areas of administration or teaching of nursing or may be devoted to the study of a specialized area in the major clinical field or a second clinical field.

2. Field practice, required of all students who elect a concentration in administration or teaching in the fourth semester.

3. Master's Thesis (Nursing 800) in a selected area of nursing. Must be completed by all students.

### CORE REQUIREMENTS FOR THE MASTER'S DEGREE IN NURSING INCLUDE:

#### Required of all Graduate Students in Nursing

Advanced Biometric Statistics

Inquiry and Research Methodology in Nursing

Master's Thesis

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### 708. RESEARCH TECHNIQUES IN NURSING

Assists nursing students in developing their own research projects. Organized around the process of inquiry which emphasizes the skills of critical thinking. Includes the procedure for developing research design and the application of experimental and descriptive methodological research techniques most appropriate to research in nursing. Prerequisite, Advanced Biometric Statistics.

### COURSES OPEN TO GRADUATE STUDENTS OF NURSING ONLY

#### Biopsychological Nursing

##### 703. MEDICAL-SURGICAL NURSING I.

Development of a working frame of reference relative to interactive behavior between nurses and clients. Various theories of behavior in regard to their clinical relevance. A goal-directed framework for nursing responses.

##### 704. MEDICAL-SURGICAL NURSING II.

The essential biological nature of humans in relation to homeostasis, reactions to stress and maladaptive states seen in illness. Emphasis on the way clinical data may be analyzed within a general systems framework which may be used as a clinical model for practice.

##### 705. MEDICAL-SURGICAL NURSING III.

A seminar associated with a clinical practicum both of which are designed to provide a model of clinical study and research. Includes modes of maintaining a cognitive base, practice expertise, investigative research and of initiating social change relevant to health care systems.

Prerequisites, Nursing 703, 704.

Credit, 6.

##### 706. MEDICAL-SURGICAL NURSING IV.

Guided study in selected areas of bio-psychological nursing. Activities include seminar, clinical practicum, investigative efforts and writing. Students design individual programs in collaboration with faculty preceptors to meet goals set in each of these areas.

Prerequisite, Nursing 705.

Credit, 6-12.

#### Mental Health Nursing

##### 709. PSYCHIATRIC NURSING I.

Theories about mental health, psychopathology and psy-

## OCEAN ENGINEERING

chotherapeutics; an overview of the wide range of concepts and principles applicable to mental health nursing practice and research. Each student studies in depth, a theoretical framework of his/her choice.

### 710 (A,B.) PSYCHIATRIC NURSING II.

Seminar and practicum in mental health nursing focusing on nursing care of individuals. Students establish one-to-one relationships with individuals suffering temporary emotional crises or long-term mental illness. Students are expected to sharpen their assessment skills and study the effects of life crises on individuals. Students apply theories of relationship therapy and current research in mental illness to their study of nursing practice with individuals. *Credit, 4.*

### 711. PSYCHIATRIC NURSING III.

Seminar and clinical practicum in mental health nursing focusing on groups of individuals. Students learn group therapy and leadership skills as they assume leadership and co-leadership roles with groups of clients who are experiencing emotional crisis or illness. Students integrate theory and research about group work with their study of nursing practice with groups of clients. *Credit, 4.*

### 712. PSYCHIATRIC NURSING IV.

Seminar and clinical practicum in mental health nursing focusing on families. Students focus on the family as a system in their study of single-family or multiple-family groups. Students apply theory and research about family dynamics and mental health to their study of nursing practice with families. *Credit, 4.*

## Community Health Nursing

### 715. COMMUNITY HEALTH NURSING I.

The interaction of two social sub-systems — health and the family. The effects of domestic organization and relationships on health, as well as the effects of health problems on domestic life. Patterns of family life seen in comparative, sometimes cross-cultural perspective; emphasis on sociological explanations of domestic and health behavior rather than on individualistic psychological explanations.

### 716. COMMUNITY HEALTH NURSING II.

Seminar and practicum on those aspects of a community directly influencing the health and nursing needs of people. Identification of the interactions and interrelationships between family and community that affect health care and health behavior. Evolving patterns in the delivery of health services.

### 717. COMMUNITY HEALTH NURSING III.

Seminar on the role of the community health nurse in the light of broader health issues. Participants select or create a definitive field work experience to develop a particular nursing role. This role must be justified in relation to current issues and problems in community health, i.e., fragmentation of health care, patient advocacy, hospital versus home care, racism and sexism in health systems. *Credit, 6.*

### 718. COMMUNITY HEALTH NURSING IV.

Additional clinical experience in independent study in Community Health Nursing. Objectives for such an experience must be clearly formulated between the student and the faculty sponsor. Students may negotiate for the number of credits according to time and effort required for the project. *Credit, 6-12.*

### 751. NURSING ADMINISTRATION SEMINAR.

The leadership role of the nursing administrator in the context of various theories of management and organization. Emphasis on the processes of policy formulation and decision-making and the administrator's role as a change agent in determining the character and quality of clinical nursing in an agency. Analysis of administrative problems encountered in concurrent field practice.

### 761. NURSING ADMINISTRATION FIELD PRACTICE.

Under guidance of the faculty adviser and the preceptor in

## GRADUATE SCHOOL

the agency, experiences in various hospital units. Experience and analysis of some of the administrative problems related to provision of direct nursing care. Opportunity to participate in the major activities and to carry selected responsibilities of either the administrator of a clinical department or the director of nursing services, depending upon student background. *Credit, 6.*

### 762. PRACTICUM IN TEACHING.

Experience in teaching in the classroom and clinical setting. Emphasis on experience and critical evaluation of the range of teaching methods cogent to a professional field. *Credit, 3-6.*

### 800. MASTER'S THESIS.

*Credit, 6.*

## Ocean Engineering

### GRADUATE FACULTY

KARL JAKUS, *Associate Professor of Mechanical Engineering.*

MELTON M. MILLER, JR., *Associate Professor of Civil Engineering.*

JOHN W. ZAHRADNIK, *Professor of Mechanical Engineering.*

## OCEAN ENGINEERING

Ocean Engineering is that activity which combines knowledge of the oceans with engineering skill to preserve and utilize the oceans, their contents and boundaries, for the achievement of human objectives.

The Ocean Engineering Program is administered as a degree-granting subdivision of the Civil Engineering Department; however, the administrative mechanism provided preserves the interdisciplinary nature of ocean engineering as an objective of academic pursuit. Present programs lead to the Master of Science in Ocean Engineering and Doctor of Philosophy degrees.

Programs leading to the degree of Master of Science in Ocean Engineering are designed to promote understanding of the ocean environment while developing greater competence in a field of engineering applicable to ocean-oriented technical problems. The holder of this degree is expected to have attained a general knowledge of ocean technology as it pertains to engineering endeavors. In addition to this breadth of knowledge he or she should have gained sufficient depth in his chosen professional specialty to approach ocean problems with confidence.

Doctoral study programs in ocean engineering have been designed to prepare individuals for high-level professional careers in academic, governmental, or industrial situations. Substantially greater competence in ocean technology is required of doctoral candidates, but professional breadth has not been sacrificed to attain this goal. Although the research leading to the doctoral dissertation assumes a predominant role in the study program, the problem-oriented character of professional engineering is preserved in selection of the research topic. Upon completion of an approved course of study, award of the doctoral degree indicates that the candidate has demonstrated excellence on a field of engineering which has significant relevance to ocean technology, and has acquired sufficient knowledge of oceanic processes to utilize this specialty with due regard for the ocean environment.

At least five "specialties" are identified among the ocean engineering courses:

1. Acoustics and Information Processing
2. Applied Physical Oceanography
3. Ocean Systems Engineering and Design
4. Ocean Structures and Materials, and
5. Aquacultural Engineering.

Each of these represents an area of specialized knowledge which is supported by courses from one or more of the traditional disciplines of engineering and science. Proficiency in at least one of the available specialties is required of candidates for the degree Master of Science in Ocean Engineering. Doctoral candidates are required to pursue at least one specialty in considerable depth, and proficiency in a second area is encouraged.

#### REQUIREMENTS FOR DEGREES IN OCEAN ENGINEERING

##### General

All appropriate University requirements, as listed in this *Bulletin*, must be fulfilled. It is further assumed that a student seeking a degree in Ocean Engineering will have a baccalaureate in either engineering or science, with sufficient mathematics, physics, and chemistry to undertake graduate studies in engineering. The potential degree candidate should be prepared to demonstrate an adequate proficiency in each of the following subject areas:

- 1) general chemistry and physics
- 2) calculus and elementary differential equations
- 3) engineering mechanics (statics, dynamics, fluid mechanics, strength of materials)
- 4) basic thermodynamics and heat transfer
- 5) basic electrical circuits, and
- 6) fundamental engineering skills (drafting, technical writing, and computer programming).

Degree candidates who are lacking proficiency in the

above areas may be required to undertake additional coursework to correct any deficiencies.

The ocean engineering core curriculum must be included in the program of every degree candidate. The core curriculum consists of five courses:

- 1) Engineering Oceanography - CE/OE 559 - 3 credits
- 2) Materials in the Ocean Environment - CE/OE 581 - 3 credits
- 3) Marine Design - CE/OE 591 - 4 credits
- 4) Public Policy and Use of the Seas - CE/OE 593 - 2 credits
- 5) Ocean Engineering Field Laboratory - CE/OE 795 - 3 credits.

All degree candidates are required to enroll in Ocean Engineering Seminar during each semester of their residence at the University. The credits earned through enrollment and participation in the seminar (one per semester) are in addition to the minimum already stipulated by the University for the degree.

#### MASTER OF SCIENCE IN OCEAN ENGINEERING

All candidates for this degree must complete a thesis which accounts for at least 6 credits in the program. The remaining credits of the 30 stipulated by the University for the M.S. degree may be satisfied by a selection of electives which are approved by the candidate's adviser. Electives are not restricted to ocean engineering courses but they must form a cohesive program with a clearly defined objective.

If coursework is pursued on a full-time basis, it is possible to complete the requirements for this degree in one calendar year. However, if financial aid is obtained through an assistantship, or if undergraduate deficiencies must be removed by additional coursework, a somewhat longer time will be necessary for completion of all requirements. Because some graduate courses can be offered only in alternate years, students are encouraged to plan for a two-year M.S. program.

#### DOCTOR OF PHILOSOPHY

No specific course requirements other than the core curriculum are prescribed for the doctoral program. It is the obligation of the candidate, under the direction of the adviser, to propose a unified program of study and research which will lead to the achievement of specified academic and professional objectives. The proposed program should reflect the philosophy of doctoral studies already set forth in this section; that is, a professional engineering viewpoint of ocean technology must be evident. The program must receive the unanimous approval of the candidate's Guidance Committee.

All candidates are required to obtain a first-hand familiarity with the oceanic environment. Normally, this experience can be obtained through responsible participation in a prolonged oceanographic cruise coastal laboratory research project. Faculty of the Ocean Engineering Program can provide assistance in the arrangement of the appropriate experience for the candidates.

If coursework and dissertation research are pursued on a full-time basis, it is possible to complete the requirements for the Ph.D. degree in approximately two calendar years following the award of the Master of Science degree. If financial aid is obtained through an assistantship, a somewhat longer time is necessary for completion of all requirements. Prospective candidates

## PHILOSOPHY

are urged to plan on the more realistic estimate of approximately three calendar years to complete the degree requirements following the award of the M.S. degree.

Preparation of dissertations *in absentia* generally is not approved.

### COURSE OFFERINGS IN OCEAN ENGINEERING

Study programs in Ocean Engineering typically consist of courses from two categories: (a) courses which are specifically oriented to ocean problems and thus carry the Ocean Engineering designation (an OE number) and (b) courses which enhance the preparation for any of the Ocean Engineering specialties but are not necessarily oriented to ocean problems. The proper selection of courses from both of these categories should ensure acquisition by the student of a broad ocean-associated knowledge combined with an acceptable level of professional competence. Ocean Engineering courses are grouped below according to recognized Program specialty areas. Course descriptions are given under the parenthesized departmental course numbers.

#### General

OE 559 (CE 559). ENGINEERING OCEANOGRAPHY.

OE 581 (CE 581). MATERIALS IN THE OCEAN ENVIRONMENT.

OE 591 (CE 591). MARINE DESIGN.

OE 593 (CE 593). PUBLIC POLICY AND THE USE OF THE SEAS.

OE 795 (CE 795). OCEAN ENGINEERING FIELD LABORATORY.

#### Acoustics and Information Processing

OE 587 (ECE 587). MARINE INSTRUMENTATION.

OE 764 (ECE 764). UNDERWATER ACOUSTICS.

#### Applied Physical Oceanography

OE 751 (CE 751). FLUID MECHANICS OF THE OCEANS.

OE 752 (CE 752). OCEAN WAVE THEORY.

OE 765 (CE 765). COASTAL AND ESTUARINE HYDRODYNAMICS.

#### Ocean Systems Engineering and Design

OE 590 (CE 590). ENGINEERING DESIGN AND SYSTEM PAYLOAD DEVICES.

OE 792 (CE 792). DEEP OCEAN SYSTEMS ENGINEERING AND DESIGN.

OE 794 (CE 794). FUNDAMENTALS OF NAVAL ARCHITECTURE.

#### Ocean Engineering Structures

OE 724 (CE 724). SUBMARINE SOIL MECHANICS AND FOUNDATION ENGINEERING.

OE 738 (CE 738). ANALYSIS AND DESIGN OF OCEAN ENGINEERING STRUCTURES.

OE 783 (CE 783). STRUCTURAL MECHANICS OF DEEP SUBMERSIBLE VEHICLES.

## GRADUATE SCHOOL

### Aquacultural Engineering

OE 555 (MAE 555). AQUACULTURAL ENGINEERING SYSTEMS.

## Philosophy

### GRADUATE FACULTY

ROBERT C. SLEIGH, JR., *Professor, Acting Chairman of the Graduate Faculty of Philosophy, and Acting Head of the Department of Philosophy*, A.B., Dartmouth, 1954; M.A., Brown, 1957; Ph.D., 1963.

JOHN G. ROBISON, *Associate Professor and Associate Head of the Department of Philosophy*, B.A., Georgia, 1957; M.A., Emory, 1958; Ph.D., Pennsylvania, 1962.

HERBERT HEIDELBERGER, *Professor and Graduate Program Director*, B.A., New York University, 1955; M.A., Princeton, 1960; Ph.D., 1962.

ROBERT ACKERMANN, *Professor*, A.B., Capital University, 1954; M.A., Ohio University, 1957; Ph.D., Michigan State, 1960.

BRUCE AUNE, *Professor*, A.B., Minnesota, 1955; M.A., 1957; Ph.D., 1960.

JOHN BENNETT, *Visiting Assistant Professor*, B.A., Swarthmore, 1966; Ph.D., Michigan, 1975.

JOHN A. BRENTLINGER, *Associate Professor*, A.B., Chicago, 1958; M.A., Yale, 1960; Ph.D., 1962.

VERE C. CHAPPELL, *Professor and Acting Associate Provost and Dean of the Graduate School*, B.A., Yale, 1951; M.A., 1953; Ph.D., 1958.

RODERICK M. CHISHOLM, *Adjunct Professor (Romeo Elton Professor of Natural Theology and Professor of Philosophy*, Brown University), A.B., Brown, 1938; A.M., Harvard, 1940; Ph.D., 1942.

LEONARD H. EHRLICH, *Professor*, B.S., Roosevelt, 1947; M.A., Yale, 1958; Ph.D., 1960.

JOSEPH EPSTEIN, *Professor* (Amherst College).

FRED FELDMAN, *Associate Professor*, B.A., Bard, 1963; M.A., Harpur, 1965; Ph.D., Brown, 1968.

ANN FERGUSON, *Associate Professor*, B.A., Swarthmore, 1959; M.A., Brown, 1961; Ph.D., 1965.

EDMUND L. GETTIER, III, *Professor*, B.A., Johns Hopkins, 1949; Ph.D., Cornell, 1961.

MICHAEL JUBIEN, *Assistant Professor*, A.B., Dartmouth, 1965; Ph.D., Rockefeller, 1972.

THOMAS R. KEARNS, *Assistant Professor* (Amherst College).

WILLIAM E. KENNICK, *Professor* (Amherst College).

MURRAY J. KITELEY, *Professor* (Smith College).

WILLIAM MARSH, *Associate Professor of Mathematics* (Hampshire College).

GARETH MATTHEWS, *Professor*, A.B., Franklin College, 1951; A.M., Harvard, 1952; Ph.D., 1961.

## UNIVERSITY OF MASSACHUSETTS

FELIX OPPENHEIM, *Professor of Political Science and of Philosophy.*

KATHRYN PYNE PARSONS, *Associate Professor* (Smith College).

TERENCE PARSONS, *Professor of Philosophy and of Linguistics*, B.A., Rochester, 1961; Ph.D., Stanford, 1966.

BARBARA HALL PARTEE, *Professor of Linguistics and of Philosophy*, B.A., Swarthmore, 1961; Ph.D., Massachusetts Institute of Technology, 1965.

RICHARD S. ROBIN, *Professor* (Mount Holyoke College).

DAVID S. SCHWARZ, *Assistant Professor* (Mount Holyoke College).

MALCOLM B. E. SMITH, *Associate Professor* (Smith College).

GEORGE V. TOVEY, *Professor* (Mount Holyoke College).

A. THOMAS TYMOCZKO, *Assistant Professor* (Smith College).

ROBERT PAUL WOLFF, *Professor*, A.B., Harvard, 1953, A.M., 1954; Ph.D., 1957.

Two graduate programs are offered in philosophy. The M.A. program is operated by the University's Department of Philosophy, and the Ph.D. program by its Graduate Faculty of Philosophy, which includes members of the Amherst, Hampshire, Mount Holyoke, and Smith College Faculties as well as the University Department.

### THE COOPERATIVE Ph.D. PROGRAM

The Ph.D. degree in philosophy is offered by the University in cooperation with Amherst, Hampshire, Mount Holyoke, and Smith Colleges. Though the degree is awarded by the University's Board of Trustees, a student may be in residence at any one of the five institutions; the institution of residence is noted on his permanent record.

The Cooperative Program in Philosophy is administered by the University's Graduate Faculty of Philosophy. This Faculty consists of all those teachers of philosophy at the five institutions who have been admitted to the Graduate Faculty of the University.

Admission to the Program is determined by the Graduate School upon recommendations by the Admissions Committee of the Faculty.

Upon entering the Program, each student is assigned a Faculty member as Adviser, who provides consultation concerning schedule of courses, progress, and any special problems encountered.

Students generally take four courses (12 credit hours) each semester during their first two years in the Program. The total course requirement for the Ph.D. degree is 16 courses (48 hours) exclusive of Philosophy 800 and 900. Of these 16, eight (24 hours) must be University philosophy courses numbered above 700. The remaining eight may include: up to six hours of Philosophy 700; University philosophy courses at the 500- or 600-level; comparable courses at the four cooperating Colleges or, with the approval of the Faculty's Gradu-

## PHILOSOPHY

ate Program Director, at other institutions; or, again with the approval of the Graduate Program Director, graduate courses in other fields at the University or the cooperating Colleges.

Nine of the 16 courses required for the Ph.D. degree must be distributed among three fields of philosophy, as follows: four in history of philosophy (at least one in ancient and two in modern philosophy), three in metaphysics and epistemology (at least one in each of metaphysics and epistemology), and two in ethics and value theory (at least one in ethics).

In addition to the Department course requirement, the University requires 18 hours of Philosophy 900.

There is no language requirement for the Ph.D. in philosophy.

By the end of their second year of graduate study (four semesters of being registered for one or more courses), students in the Program must have satisfied the Ph.D. logic requirement by earning a grade of B or better in two of the University Department's four 600-level logic courses, or the equivalent.

By the end of their third year of graduate study, except in special cases to be determined by the Faculty, students in the Program must have completed three acceptable "starred papers." The three papers must be written in three different fields of philosophy, one of which must be history of philosophy; the other starred paper fields are (1) philosophy of logic and philosophy of language; (2) philosophy of science; (3) metaphysics, epistemology, and philosophy of mind; (4) philosophy of religion and existential philosophy; and (5) ethics, political and social philosophy, and aesthetics. An acceptable starred paper is one that gives solid evidence of its author's ability to do the kind of original research that is required to produce a satisfactory dissertation in philosophy.

A starred paper may be submitted at any time during a student's first three years of graduate study; submissions during the first and second years are particularly encouraged.

Students in the Cooperative Ph.D. Program may receive the M.A. degree upon satisfying the Ph.D. course, logic, and starred paper requirements.

Having completed the course, logic, and starred paper requirements, students in the Program acquire a Dissertation Committee, which then oversees the rest of their work for the Ph.D. degree, replacing their adviser. This committee is formally appointed by the Dean of the Graduate School, on the recommendation of the Faculty's Graduate Program Director. The chairman of the Dissertation Committee is the director of the student's dissertation.

When the dissertation is finished, it is submitted to the Dissertation Committee for judgment. If, and only if, the committee approves it unanimously, the Final Oral Examination is scheduled.

The Final Oral Examination is conducted by the Dissertation Committee. The examination is open to the University Community at large, students and faculty, and any member of the Philosophy Faculty may participate in the questioning of the candidate. Only the members of the Dissertation Committee, however, take part in judging the candidate's performance; their vote must be unanimous in order for the examination to be passed.

Having passed the Final Oral, the student then has the dissertation finally typed, according to the specifications given in the *Graduate School Handbook*. The typed original and one copy must be submitted to the

## PHILOSOPHY

Graduate School, and a second copy, bound, to the Faculty of Philosophy, by the Graduate School deadlines for the May, September, or February graduations, respectively.

### THE M.A. PROGRAM

The M.A. Program in Philosophy is administered by the University's Department of Philosophy.

Admission to the Program is determined by the Graduate School upon recommendations made by the Department's Admissions Committee.

Upon entering the Program, each student is assigned a Department member as Adviser, who provides consultation concerning schedule of courses, progress, and any special problems encountered.

Students generally take four courses (12 credit hours) each semester during their first year in the Program. The total course requirement for the M.A. degree is 10 courses (30 hours). Of these 10, four (12 hours) must be University philosophy courses numbered above 700, exclusive of Philosophy 800. The remaining six may include: up to six hours of Philosophy 700; six hours of Philosophy 800 (for students who write a thesis); University philosophy courses at the 500- or 600-level; comparable courses at Amherst, Hampshire, Mount Holyoke, and Smith Colleges; or, with the approval of the Department's Graduate Program Director, up to six hours of graduate courses in other fields at the University or the four Colleges.

Six of the 10 courses required for the M.A. degree must be distributed among three fields of philosophy, as follows: three in history of philosophy (at least one in ancient and one in modern philosophy), two in metaphysics and epistemology, and one in ethics and value theory.

There is no language requirement for the M.A. in philosophy.

During their second semester of graduate study, students in the Program choose one of two alternative ways, Option A or B, below, of completing the requirements for the M.A. degree.

*Option A.* Under this option, students are required to complete two acceptable Ph.D. starred papers, one each in any two of the six starred paper fields. They then take an oral examination, conducted by the Department, which is based mainly on, though not necessarily restricted to, their starred papers.

*Option B.* Under this option, students write a Master's thesis, under the supervision of a Thesis Committee. This committee is formally appointed by the Dean of the Graduate School, on the recommendation of the Department's Graduate Program Director, after the student has completed eight of the 10 courses required for the M.A. degree. Six hours of Philosophy 800 may then be used for the remaining two courses. When the thesis is finished and has been approved by the committee unanimously, the student takes a Final Oral Examination, conducted by the committee, whose vote on the student's performance must be unanimous in order for a passing grade to be given. Having passed this examination, the student then has the thesis finally typed and bound, according to the specifications given in the Graduate School Handbook. The dates for submitting the thesis to the Graduate School are the same as those given above for the Ph.D. dissertation.

All requirements for the M.A. degree under both Option A and Option B must be completed within two

## GRADUATE SCHOOL

calendar years of a student's first enrollment in the Program.

Graduate degrees are offered in both physics and astronomy by the Department. Candidates planning to major in astronomy are referred to the description of the astronomy program (see Astronomy).

The general requirements for the Ph.D. in Physics are those of the Graduate School. These are implemented along the following lines. During the first two years, a student takes a normal load of basic courses. The basic courses of the program are 701, 702, 703, 704, 705, 706, 707, 709, 710, 714, 715, 718, 719. The student must complete a research requirement of three research-oriented courses. Two of these must be outside of the student's area of specialization. After passing the qualifying examination, normally in the second year, the student is expected to devote his or her major effort to research. Courses taken during this period usually are in the student's research field. The department requires no foreign-language reading competency for the doctorate.

All degree candidates are required to perform teaching in the department. A waiver of this requirement must be requested from the graduate studies committee.

The requirements for the master's degree consist of 30 graduate credits, at least 15 of which shall be in the 700-900 courses, and at least 21 of which shall be in

## GRADUATE SCHOOL

physics. The 15 credits of 700-900 courses shall include one course in the basic Quantum Mechanics sequence or its equivalent, and may include 6 credits of master's thesis, Physics 800. At least five courses in physics must be passed with a grade of A or B, and a general examination must be passed before the degree is awarded.

Candidates planning to major in physics should have completed at least (preferably, more than) 15 semester credit hours in undergraduate physics beyond an introductory course (such as Physics 161, 162, 163) and also 6 credits of mathematics beyond college-level calculus.

### MASTER OF ARTS IN TEACHING (MAT) PROGRAM IN PHYSICS

The Master of Arts in Teaching Degree (MAT) is offered, in cooperation with the School of Education, to candidates interested in physics teaching at the secondary school level.

The program requires 39 credits distributed as follows: Physics or physics-related courses, 21 credits; Education courses, 9 credits; Internship or equivalent practicum, 9 credits. The education credits must include at least two of these four areas: educational psychology, philosophy of education, methods and materials, and curriculum development.

For the community-college level option 45 credits are required, distributed as follows: Physics or physics-related courses, 24 credits; Education courses (including curriculum) teaching clinic, directed observation, advising and counselling, and philosophy of education, 12 credits; Internship or equivalent practicum, 9 credits.

*Prerequisites for Admission:* A bachelor's degree with a major in one of the physical sciences, adequate training in mathematics, and a 2.75 minimum grade point average.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### COURSES OPEN TO GRADUATE STUDENTS ONLY

##### 700. INDEPENDENT STUDY.

Special study in some branch of physics, either theoretical or experimental, under direction of a faculty member. A written proposal must be submitted to that faculty member and to the Head of the Department for approval prior to registration.

##### 701. CLASSICAL MECHANICS.

Lagrange's and Hamilton's equations, central force problem, rigid bodies, small oscillations, continuum mechanics, fluid dynamics.

*Prerequisites:* Physics 552, 556, and Math 241.

##### 702. STATISTICAL PHYSICS.

Survey of thermodynamics, Boltzmann distribution, statistical interpretation of thermodynamics, Gibbsian ensembles and the method of Darwin, Fowler; quantum distributions and their applications, transport phenomena.

*Prerequisites:* Physics 701, 703, and 706 (the latter may be taken concurrently.)

##### 703. INTRODUCTORY QUANTUM MECHANICS I.

Breakdown of classical physics, wave mechanics including the Schrodinger equation and its interpretation, one-dimensional problems, uncertainty principle, harmonic oscillator, hydrogen atom.

*Prerequisites:* Physics 701 and 705 (both may be taken concurrently.)

**704. INTERMEDIATE QUANTUM MECHANICS II.**

Abstract quantum mechanics, linear algebra and Hilbert space, representation theory, three-dimensional problems, orbital angular momentum spins, vector coupling.  
Prerequisites, Physics 703, or equivalent.

**705. METHODS OF MATHEMATICAL PHYSICS.**

Selected topics with application to physics in linear algebra and Hilbert space theory, complex variables, Green's functions, partial differential equations, integral transforms, integral equations.  
*Credit, 4*

**706. CLASSICAL ELECTRODYNAMICS I.**

Electrostatic fields in vacuum and material media, two and three dimensional potential problems, the magnetostatic field, interaction of steady currents, Maxwell's equations, the electromagnetic field, special relativity, and covariant formulation of electrodynamics.  
Prerequisites, Physics 701 and 705.

**707. CLASSICAL ELECTRODYNAMICS II.**

The field of a moving charge, the Lienard-Wiechert potentials, Lorentz transformation and special relativity, covariant formulation of Maxwell's equations. Radiation of electromagnetic waves; the near field and far field, radiation damping and self fields, spectral resolution of radiation. Magnetohydrodynamics and plasma physics, collisions, scattering and absorption.  
Prerequisite, Physics 706.

**709. INTERMEDIATE QUANTUM MECHANICS III**

Approximation methods, WKB, bound State perturbation theory, time-dependent perturbation theory, variational method, selfconsistent techniques, scattering theory.  
Prerequisite, Physics 704.

**710. ADVANCED QUANTUM MECHANICS IV.**

Semi-classical radiation theory, non-relativistic second quantization, advanced scattering theory; relativistic wave-equations.  
Prerequisite, Physics 709.

**715. INTRODUCTORY SOLID STATE PHYSICS.**

Solids treated as translational symmetry structures, and their effect in x-ray and particle scattering, thermal and vibrational properties of solids, Binding energy of solids, electronics in periodic potentials, and the formation of bands. The free electron model of metals.  
Prerequisite, Physics 704.

**717. PLASMA PHYSICS.**

Properties of plasma, equation of motion, particle versus continuum description, magnetohydrodynamics, stabilities, linear theory of waves and oscillations. Landau damping, nonlinear effects and transport phenomena.  
Prerequisites, Physics 702, 707.

**718. BASIC PHYSICS OF ATOMS AND MOLECULES.**

Quantum description of free atoms and molecules and their interactions with external fields, radiation, and electrons.

**719. NUCLEAR PHYSICS.**

Basic concepts of nuclear physics, instruments and methods. Topics include natural radioactivity, nuclear radiations — their properties and interaction with matter, nuclear-radiation detectors, electrostatic and magnetic analyzers, mass spectrometry, charged particle accelerators, elementary discussion of alpha and beta decay, nuclear isomerism, internal conversion, nuclear reactions, neutron physics, fissions, nuclear spin and magnetic moments, cosmic rays and elementary particles.  
Prerequisite, Physics 703 or equivalent.

**723. TOPICS IN MATHEMATICAL PHYSICS.**

Subjects vary somewhat depending on the instructor, but probably include applications of the theory of functions, group theory and symmetries, Hilbert and Banach spaces in quantum mechanics.  
Prerequisites, Physics 705 and permission of instructor.

**724. GROUP THEORY IN QUANTUM MECHANICS.**

Finite dimensional groups and their representations; representations of the permutation group; representations of SU<sub>n</sub>, tensor representations, decomposition of direct product representations; three-dimensional rotation group, Clebsch-Gordon and Racah coefficients; the Lorentz group and its representations; applications to atomic, solid state, nuclear, and high energy physics.  
Prerequisite, Physics 709.

**811 (I), 812 (II). FIELD THEORY**

Relativistic quantum mechanics of a single particle. Klein-Gordon and Dirac equations, formal scattering theory, field quantization, interacting fields, S-matrix, reduction formulae, perturbation theory and Feynman diagrams renormalization, dispersion relations, and recent developments.  
Prerequisites, Physics 709 (may be taken concurrently) for 811; Physics 811 for 812.

**813. HIGH ENERGY PHYSICS.**

Experimental and theoretical aspects of: meson and baryon resonances; leptonic and non-leptonic, strangeness changing and non-changing weak decays; high energy experiments and the phenomenology of Regge poles.  
Topics vary with the instructor.  
Prerequisite, Physics 714.

**816. SOLID STATE PHYSICS**

Transport phenomena in solids including semiconductors, optical properties of solids, superconductivity, superfluidity, magnetism. Topics vary with the instructor.  
Prerequisite, Physics 715.

**817. ADVANCED STATISTICAL PHYSICS**

Phase transitions, including condensation; description of imperfect gases. Transport theory and other nonequilibrium phenomena. Irreversible processes. Field theoretic quantum statistical physics.  
Prerequisites, Physics 702, 811.

**818. ATOMIC STRUCTURE.**

An advanced course covering the field of atomic structure including the theory of complex spectra, fine structure, hyperfine structure, electron spin, Zeeman effect, the theory of atomic collisions, general theory of multiplets and magnetic and radiative properties of atoms.  
Prerequisite, Physics 709.

**820. NUCLEAR THEORY**

A theoretical understanding of nuclear structure. Topics include internuclear forces, the deuteron and the two-body problem, nuclear models and structure of complex nuclei, electromagnetic properties of nuclei, theory of alpha and beta decay, theory of nuclear reactions.  
Prerequisites, Physics 709 and 719.

**821. RELATIVITY.**

Mathematical and conceptual aspects of the special and general theories of relativity. Lorentz transformations, covariant formulation of the laws of nature. The equivalence principle, curved spaces, solutions of the equations of relativity.  
Prerequisites, Physics 701, 706.

**850. ADVANCED TOPICS IN PHYSICS.**

One or more subjects of special interest covered in lectures.  
Prerequisite, permission of instructor.

**851. SPECIAL TOPICS IN NUCLEAR PHYSICS.**

Advanced and current topics in nuclear physics.  
Prerequisite, Physics 820.

**852. SPECIAL TOPICS IN HIGH ENERGY PHYSICS.**

Advanced and current topics in high energy physics.  
Prerequisite, Physics 813.

**853. SPECIAL TOPICS IN SOLID STATE PHYSICS.**

Advanced and current topics in solid state physics.  
Prerequisite, Physics 816.

## PLANT AND SOIL SCIENCES

### 854. SPECIAL TOPICS IN ATOMIC PHYSICS.

Advanced and current topics in atomic physics.  
Prerequisite, Physics 818.

### 860. SEMINAR ON RESEARCH TOPICS.

Instruction via reading assignments and seminars on research topics not currently covered in regular courses.  
Prerequisite, permission of instructor. *Credit, 1-3.*

### 800. MASTER'S THESIS.

*Credit, 6.*

### 900. DOCTORAL DISSERTATION.

*Credit, 18.*

### COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS (For either major or minor credit)

#### 564. WAVE MOTION.

Physical optics, acoustics, and other wave phenomena in a single unified structure.  
Prerequisite, Physics 552.

#### 571 (I), 572 (II). STATISTICAL PHYSICS.

Thermodynamics, kinetic theory, and statistical mechanics in a single unified structure.  
Prerequisites, Physics 552, 556. *Credit, 3 each semester.*

#### 585. MODERN PHYSICS I.

Review of classical mechanics, theory of relativity, black body radiation, photoelectric effect, Compton effect, background for development of quantum mechanics, Bohr atom.  
Prerequisites, Physics 552, 556.

#### 586. MODERN PHYSICS II AND QUANTUM MECHANICS.

Quantum mechanics, applications to atomic and nuclear physics, such as atomic spectra, Zeeman effect, angular momentum, barrier penetration.  
Prerequisite, Physics 585. *Credit, 4.*

#### 588. SOLID STATE PHYSICS.

An introduction to theoretical and experimental physics of the solid state.  
Prerequisite, Physics 585.

#### 619. ELECTRONICS INSTRUMENTATION.

A laboratory-oriented course designed expressly for physicists and chemists. Basic electronics principles, servo systems, operational amplifiers, digital circuits, other modern devices.  
Prerequisite, permission of instructor.

#### 620. RADIATION PHYSICS.

For science majors specializing in nuclear medicine, radiology, environmental sciences, radiation protection, and applied areas using ionizing radiations. Principles of atoms and nuclei, radioactivity, interaction of radiation with matter, radiation detectors and methods, applications of radioactive and stable nuclei as tracers. Special topics.  
Three lectures weekly; three-hour laboratory once every two weeks.

Prerequisite, permission of instructor. *Credit, 4.*

#### 675 (I), 676 (II). ADVANCED EXPERIMENTAL WORK.

Selected experiments and projects, according to the needs of individual student.  
Prerequisite, Physics 551. *Credit, 1 to 3 each semester.*

(For major credit subject to approval of Graduate Studies Committee)

#### 551. ELECTRICITY AND MAGNETISM I.

Classical field theory, static electric fields and magnetic fields of steady currents. Scalar and vector potentials, Laplace's equation and its solutions.  
Prerequisites, Physics 142 or 162 or 183; Math 174 or 186.

#### 552. ELECTRICITY AND MAGNETISM II.

Continuation of 551. Time varying fields, Maxwell's equations, and applications to radiation.  
Prerequisites, Physics 551 and Math 187 or 343.

#### 555 (I), 556 (II). MECHANICS.

Development of the fundamental concept of dynamics with applications to particles and rigid bodies in translation and rotation.

Prerequisites Physics 142, 162 or 184; Math 174 or 186.

*Credit, 3 each semester.*

## Plant and Soil Sciences

### GRADUATE FACULTY

FRANKLIN W. SOUTHWICK, *Professor of Plant Science and Head of the Department of Plant and Soil Sciences*, B.S., Massachusetts, 1939; M.S., Ohio State, 1940; Ph.D., Cornell, 1943.

HERBERT V. MARSH, *Professor of Plant Science and Graduate Program Director*, B.S., Massachusetts, 1954; M.S., 1958; Ph.D., North Carolina State, 1961.

JOHN H. BAKER, *Professor of Soil Science*, B.S., Massachusetts, 1952; M.S., Cornell, 1954; Ph.D., 1959.

ALLEN V. BARKER, *Professor of Plant and Soil Science*, B.S., Illinois, 1958; M.S., Cornell, 1959; Ph.D., 1962.

ALFRED W. BOICOURT, *Professor of Plant Science*, B.S., Cornell, 1938; M.S., 1941.

WILLIAM J. BRAMLAGE, *Professor of Plant Science*, B.S., Ohio State, 1959; M.S., Maryland, 1961; Ph.D., 1963.

ROBERT N. CARROW, *Assistant Professor of Plant and Soil Science*, B.S., Michigan State, 1968; Ph.D., 1972.

MACK DRAKE, *Professor of Plant and Soil Science*, B.S., Purdue, 1937; M.S., Purdue and Alabama Polytechnic, 1939; Ph.D., 1946.

WALTON C. GALINAT, *Professor of Plant Science*, Ph.D., University of Wisconsin, 1953.

GEORGE B. GODDARD, *Associate Professor of Plant Science*, B.S., Massachusetts, 1954; M.S., 1958; Ph.D., 1963.

DUANE W. GREENE, *Associate Professor of Plant Science*, B.S., Colgate, 1964; M.S., Michigan State, 1966; Ph.D., 1969.

HAIM B. GUNNER, *Professor of Environmental Sciences*, B.S.A., University of Toronto, 1946; M.Sc., University of Manitoba, 1948; Ph.D., Cornell, 1962.

JOHN R. HAVIS, *Professor of Plant Science*, B.S., Texas Technological College, 1942; M.S., Cornell, 1947; Ph.D., 1949.

PAUL H. JENNINGS, *Associate Professor of Plant Science*, B.V.A., Massachusetts, 1960; M.S., North Carolina State, 1962; Ph.D., 1965.

MARY B. KIRKHAM, *Assistant Professor of Plant Science*, B.A., Wellesley, 1966; M.S., University of Wisconsin, 1969; Ph.D., 1971.

WILLIAM H. LACHMAN, *Professor of Plant Science*, B.S., Pennsylvania State, 1934; M.S., 1936.

WILLIAM J. LORD, *Professor of Plant Science*, B.S., New Hampshire, 1943; M.S., 1953; Ph.D., Pennsylvania State, 1955.

## UNIVERSITY OF MASSACHUSETTS

DONALD N. MAYNARD, *Professor of Plant Science*, B.S., Connecticut, 1954; M.S., North Carolina State, 1956; Ph.D., Massachusetts, 1963.

WILLIAM A. ROSENAU, *Associate Professor of Plant and Soil Science*, B.S., Yale, 1948; M.S., Connecticut, 1950; Ph.D., Pennsylvania State, 1961.

GORDON L. STEWART, *Associate Professor of Soil Science*, B.S., Utah State, 1955; M.S., 1957; Ph.D., Washington State, 1962.

CECIL L. THOMPSON, *Professor of Plant Science*, B.S.A., University of Toronto, 1937; M.S., University of Minnesota, 1945.

JOSEPH TROLL, *Professor of Plant Science*, B.S., Rhode Island, 1954; M.S., 1957; Ph.D., Massachusetts, 1965.

JONAS VENGRIŠ, *Professor of Plant Science*, Agr. College, Lithuania, 1934; Diploma, 1936; Dr. Agr. Sci., University of Bonn, Germany, 1939.

DONALD M. VIETOR, *Assistant Professor of Plant Science*, B.S., Minnesota, 1967; M.S., 1969; Ph.D., Cornell, 1975.

MARTIN E. WEIKS, *Professor of Plant and Soil Science*, B.S., South Dakota State, 1934; Ph.D., Wisconsin, 1937.

JOHN M. ZAK, *Professor of Plant and Soil Science*, B.S., Massachusetts, 1936; M.S., 1938.

The Department of Plant and Soil Sciences offers doctoral work in either Plant Science or Soil Science. Specialization and thesis problems related to horticultural and agronomic plants and in soil science are available to both Master of Science and Doctor of Philosophy degree candidates.

The department has no foreign-language requirement for the doctoral degree.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### COURSES OPEN TO GRADUATE STUDENTS ONLY (For either major or minor credit)

##### 700, 701. SPECIAL PROBLEMS.

Selected research problems are not related to a candidate's thesis. *Credit, 3 each semester.*

##### 702, 703. RESEARCH LITERATURE.

A critical review of the scientific literature in an area of specialization. *Credit, 3 each semester.*

##### 710. MORPHOLOGY OF ECONOMIC PLANTS.

The anatomy of the plant body with emphasis on those structures which have horticultural and agronomic significance. Prerequisite, Botany 291 or permission of instructor.

Mr. Goddard.

##### 715. PLANT GROWTH REGULATORS.

Recent advances in the field of plant growth regulators; including phytochromes, auxins, gibberellins, kinins and herbicides. Emphasis on investigations of the mechanisms whereby these materials control plant growth and development.

Prerequisites, Botany 511 and one semester of biochemistry. Mr. Marsh, Mr. Rubenstein.

##### 717. WATER AND TEMPERATURE STRESS IN PLANTS.

Concepts of water absorption and distribution; factors in development of plant water stress. Low temperature injury and acclimation in plants.

Prerequisites, Botany 511 or permission of instructor. Mr. Havis.

## PLANT AND SOIL SCIENCES

### 730. ADVANCED SOIL CHEMISTRY.

Lecture and discussion of current theories of the chemistry of soils.

Prerequisite, permission of instructor. Mr. Baker

### 745. MICROBIAL ECOLOGY OF THE SOIL.

The biochemistry and physiology of interactions among micro-organisms in the soil environment and their relationships with the soil environment. Lectures, discussion and a critical review of current literature.

Prerequisite: Plant and Soil Sci 615 or permission of instructor. Mr. Gunner.

### 750. PLANT PHOTOSYNTHESIS.

Lectures and discussions of the mechanisms, requirements, evolution and specific related processes. Extensive study of the basic literature required.

Prerequisite, Botany 512, or Chem 524, or equivalent. Mr. Barker.

### 760. NITROGEN METABOLISM.

A comprehensive presentation of nitrogen metabolism in plants. The biological mechanisms of nitrogen absorption, synthesis, and degradation of nitrogenous compounds, nitrogen fixation, specific roles of nitrogenous compounds and nitrogen toxicities.

Prerequisite, Botany 512, or Chem 524, or equivalent. Mr. Barker.

### 791. SEMINAR.

Required of all graduate students majoring in the Department. *Credit, 1 each semester.*

### 800. MASTER'S THESIS.

*Credit, 10.*

### 900. DOCTORAL DISSERTATION. *Maximum credit, 18*

### COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS (For either major or minor credit)

#### 550. FORAGE AND FIELD CROPS.

Discussion of aspects of the physiology, morphology, seedling establishment, fertilization, harvest management, and storage of forage and field crop species.

Mr. Vietor

#### 555. AGROSTOLOGY.

The establishment and maintenance of turf grasses used on lawns, athletic fields, highways, airports, and cemeteries.

Mr. Troll.

#### 615. MICROBIOLOGY OF THE SOIL.

Soil microorganisms; their distribution, ecology and transformation of organic and inorganic substrates. Microbiology of the rhizosphere and the biological equilibrium.

Prerequisite, Microbiol 250 or permission of instructor. Mr. Gunner

#### 630. PLANT NUTRITION.

The accumulation and transport of inorganic ions in plants and their function in plant metabolism.

Mr. Maynard

#### 635. TAXONOMY OF ECONOMIC PLANTS.

Plant families, genera, species, and cultivars of importance in the horticultural and agronomic fields.

Mr. Boicourt.

#### 640. PLANT BREEDING.

An advanced study of genetic topics peculiar to plants; the methods and problems of the plant breeder.

Prerequisite, Zool 240 or equivalent. Mr. Lachman.

#### 645. POST-HARVEST PHYSIOLOGY.

Physiological and biochemical processes occurring in fruits, vegetables, and flowers after harvest, and the effects of environmental modifications on these processes in maintaining quality and prolonging their useful life.

Mr. Bramlage.

#### 660. ECOLOGY AND CONTROL OF WEEDS.

Identification and ecology of common weeds and principles of weed control with emphasis on the use of chemical herbicides.

Mr. Vengris.

## PLANT PATHOLOGY

665. SOIL FORMATION AND CLASSIFICATION.  
The development of soils as related to physical, chemical, biological, climatic and geological factors. Locations of various soil classes in different continents are considered.

Credit, 4. Mr. M. Weeks.

665. SOIL FORMATION AND CLASSIFICATION.  
The development of soils as related to physical, chemical, biological, climatic, and geological factors.

Credit, 4. Mr. M. Weeks.

670. SOIL PHYSICS.

Physical properties of soils; water and pollutant retention and transport; soil, air, temperature, texture and structure; their measurements, evaluations, environmental implications and influence in the soil - water - plant continuum.

Prerequisites, introductory courses in physics, mathematics or chemistry, or permission of instructor. Mr. Stewart.

675. SOIL CHEMISTRY.

Soil chemical properties as related to chemical reactions of plant nutrients in soils.

Prerequisites. Chem 112 and Plant and Soil Sci 105 or equivalent. Mr. Baker.

680. SOIL FERTILITY.

Mineral nutrients in the growth of plants; the use of fertilizers and other soil amendments; soil reaction; mineral deficiencies and toxicities in plants. Mr. Drake.

## Plant Pathology

### GRADUATE FACULTY

RICHARD A. ROHDE, *Professor, Head of the Department of Plant Pathology, and Graduate Program Director*, A.B., Drew University, 1951; M.S., Maryland, 1956; Ph.D., 1958.

GEORGE N. AGRIOS, *Professor*, B.S., University of Thessaloniki, Greece, 1957; Ph.D., Iowa State, 1960.

WILLIAM A. FEDER, *Professor*, B.A., Johns Hopkins, 1941; Ph.D., California at Berkeley, 1950.

CONSTANTINE J. GILGUT, *Professor*, B.S., Massachusetts, 1931; M.S., 1934; M.A., Harvard, 1937; Ph.D., 1942.

FRANCIS W. HOLMES, *Professor*, B.A., Oberlin, 1950; Ph.D., Cornell, 1954.

WILLIAM J. MANNING, *Associate Professor*, B.S., Michigan State, 1963; M.S., Delaware, 1966; Ph.D., 1968.

MARK S. MOUNT, *Associate Professor*, B.S., Illinois Wesleyan, 1963; M.S., Michigan State, 1965; Ph.D., 1968.

WILLIAM N. RICE, *Associate Professor*, B.S., Sioux Falls College, 1936; M.S., Iowa State, 1939; Ph.D., 1944.

TERRY A. TATTAR, *Assistant Professor*, B.A., Northeastern, 1967; Ph.D., New Hampshire, 1971.

BERT M. ZUCKERMAN, *Professor*, B.S., North Carolina State, 1948; M.S., N.Y. State College of Forestry, 1949; Ph.D., Illinois, 1954.

Students accepted for graduate study towards the Master of Science or Doctor of Philosophy degree are expected to have fulfilled the usual requirements for a bachelor's degree in a related discipline. Requirements for the M.S. degree ordinarily include a thesis, but course work, including Plant Pathology 700, may be substituted with permission of the adviser and Graduate Studies Committee. Facilities at the Suburban

## GRADUATE SCHOOL

Experiment Station, Waltham, and the Cranberry Experiment Station, East Wareham, are available for projects in special areas. The department has no foreign-language requirement.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### COURSES OPEN TO GRADUATE STUDENTS ONLY (For either major or minor credit)

700. SPECIAL PROBLEMS.

Selected research problems in plant pathology. Credit, 1-5.

790. SEMINAR.

Reports and discussion on the current literature and research in plant pathology; special reports by resident and visiting speakers.

One class hour.

Credit, 1 each semester.

800. MASTER'S THESIS.

Credit, 10.

804. FOREST PATHOLOGY.

Review and critical examination of the recent developments in the major problem areas in forest pathology. Format is informal group discussion.

Prerequisite, Plant Path 569.

Mr. Tattar.

805. ADVANCED PLANT PATHOLOGY — PARASITISM AND PATHOGENESIS.

The physiology of diseased plants. Emphasis on the biochemical and physiological changes induced in the host by plant pathogens. Laboratory consists of biochemical investigations of diseased plants.

Prerequisite, Plant Path 551.

Credit, 4. Mr. Mount.

806. ADVANCED PLANT PATHOLOGY — EPIPHYTOLOGY.

The interactions of host, parasite, and environment in the rise and decline of devastating epiphytotics. The mechanisms that govern disease disposition, disease-resistance, and immunity.

Prerequisites, Botany 531 and Plant Path 551.

900. DOCTORAL DISSERTATION.

Credit, 20.

#### COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS (For either major or minor credit)

551. PLANT PATHOLOGY.

The causes, nature and control of plant diseases. Diagnosis of plant diseases. Mechanisms, biochemistry and genetics of plant disease induction, development and control.

Prerequisite, a course in Botany.

Mr. Agrios.

569. FOREST AND SHADE TREE PATHOLOGY.

The causes, nature and control of tree diseases. Physiology and genetics of host-parasite-environment interaction in trees. Forest and shade tree disease management and principles of decay prevention in forest products. Mr. Tattar.

575. METHODS IN PLANT PATHOLOGY.

General techniques and specialized methods used in the investigation of plant diseases.

Prerequisite, one semester of Plant Pathology.

640. GENETICS OF PLANT-PATHOGEN INTERACTION.

Characterization of genetic factors which control plant disease reaction and virulence. The influence of environment on genetic stability of pathogens. Mutations, parasexuality, and plant population genetics in relation to disease development.

Prerequisite, Plant Path 251 or 551.

Mr. Mount.

661. PLANT VIROLOGY.

Plant virus structure, infection, synthesis, assay and purification. Symptomatology and physiology of virus infected plants.

## UNIVERSITY OF MASSACHUSETTS

Transmission, identification and control of plant viruses. Virus diseases of major plant groups. Prerequisite, Plant Path 251 or 551 or permission of instructor. Credit 4. Mr. Agrios.

### 678. NEMATOLOGY.

Anatomy, morphology, and classification of plant-parasitic and other soil-inhabiting nematodes. Parasitic relationships with plants and current control-measures stressed. Prerequisite, a year of biological science.

Credit, 4. Mr. Rohde.

## Political Science

### GRADUATE FACULTY

LEWIS C. MAINZER, *Professor and Acting Chairman of the Department of Political Science*, B.A., New York University, 1948; M.A., Chicago, 1950; Ph.D., 1956.

GERARD BRAUNTHAL, *Professor and Graduate Program Director*, B.A., Queens, 1947; M.A., Michigan, 1948; Ph.D., Columbia, 1953.

DEAN ALFANGE, JR., *Associate Professor and Acting Vice Chancellor for Academic Affairs and Provost*, B.A., Hamilton, 1950; M.A., Colorado, 1960; Ph.D., Cornell, 1967.

LUTHER A. ALLEN, *Professor*, B.A., Williams, 1941; M.A., State University of Iowa, 1942; Ph.D., Chicago, 1952.

DAVID A. BOOTH, *Professor*, B.S., London School of Economics, 1952; M.A., Virginia, 1953; Ph.D., 1957.

WILLIAM E. CONNOLLY, *Professor*, B.A., Michigan at Flint, 1960; M.A., 1962; Ph.D., 1965.

KENNETH M. DOLBEARE, *Professor*, B.A., Haverford, 1951; L.B., Brooklyn Law School, 1958; Ph.D., Columbia, 1965.

PATRICK EAGAN, *Assistant Professor*, B.S., Regis, 1952; M.A., Colorado State, 1955; Ph.D., California at Riverside, 1971.

ERIC EINHORN, *Associate Professor*, B.A., Pennsylvania, 1965; M.A., Harvard, 1968; Ph.D., 1972.

JEAN B. ELSHTAIN, *Assistant Professor*, B.A., Colorado State, 1963; M.A., University of Colorado, 1965; Ph.D., Brandeis, 1973.

MADGE ERTEL, *Lecturer*, B.A., Minnesota, 1953; M.A., Idaho, 1965; Ph.D., 1971.

EDWARD E. FEIT, *Professor*, B.A., Witwatersrand, 1944; M.A., University of South Africa, 1949; Ph.D., Michigan, 1965.

JOHN H. FENTON, *Commonwealth Professor of Government*, B.A., Kentucky, 1948; M.A., 1951; Ph.D., Harvard, 1956.

PETER J. FLIESS, *Professor*, B.A., Stanford, 1944; M.A., Harvard, 1947; Ph.D., 1951.

HARVEY L. FRIEDMAN, *Associate Professor and Director of the Labor Relations and Research Center*, J.D., Boston, 1947.

EDWIN ANDRUS GERE, JR., *Associate Professor*, B.A., Alfred, 1948; M.A., Pennsylvania State, 1956; Ph.D., New York at Albany, 1968.

SHELDON GOLDMAN, *Professor*, B.A., New York University, 1961; M.A., Harvard, 1964; Ph.D., 1965.

## POLITICAL SCIENCE

GLEN GORDON, *Professor*, B.A., New York University, 1952; M.A., Chicago, 1957; Ph.D., 1963.

FRANKLIN W. HOUN, *Professor*, B.A., National Chenchi University, 1946; M.A., Denver, 1950; Ph.D., Wisconsin, 1953.

IRVING HOWARDS, *Professor*, B.A., Wisconsin, 1953; M.A., 1955; Ph.D., 1957.

JEROME B. KING, *Professor*, B.A., Dartmouth, 1949; M.S., Stanford, 1954; Ph.D., 1955.

HARVEY KLINF, *Assistant Professor*, B.A., North Carolina, 1966; Ph.D., Texas, 1970.

FRED A. KRAMER, *Associate Professor*, B.A., Johns Hopkins, 1963; M.A., Rutgers, 1964; Ph.D., Syracuse, 1969.

JOHN W. LEDERLE, *Joseph B. Ely Professor*, B.A., Michigan, 1933; M.A., 1934; L.L.B., 1936; Ph.D., 1942.

GLINTER LEWY, *Professor*, B.S.S., City College of New York, 1951; M.A., Columbia, 1952; Ph.D., 1957.

JOHN M. MAKI, *Professor*, B.A., Washington, 1932; M.A., 1936; Ph.D., Harvard, 1948.

LEILA MFO, *Associate Professor*, B.A., American University at Cairo, 1947; M.A., Syracuse, 1949; Ph.D., Indiana, 1961.

JEROME M. MILEUR, *Associate Professor*, B.A., Southern Illinois, 1955; M.A., Illinois, 1958; Ph.D., Southern Illinois, 1971.

FELIX E. OPPENHEIM, *Professor of Political Science and of Philosophy*, Docteur-en-droit, Brussels, 1935; Ph.D., Princeton, 1942.

KARI W. RYAVEC, *Associate Professor*, B.A., Miami University, 1957; M.A., Columbia, 1962; Ph.D., 1968.

ROBERT ANTHONY SHANLEY, *Associate Professor*, B.A., Columbia, 1946; M.A., 1948; Ph.D., Georgetown, 1955.

GEORGE T. SULZNER, *Associate Professor*, B.A., Muskingum College, 1959; M.A., Michigan, 1961; Ph.D., 1967.

ANWAR H. SYED, *Professor*, B.A., University of the Punjab, 1946; M.A., 1951; M.A., Chicago, 1953; M.A., Pennsylvania, 1954; Ph.D., 1957.

HOWARD J. WIARDA, *Professor*, B.A., Michigan, 1961; M.A., Florida, 1962; Ph.D., 1965.

The Department of Political Science offers graduate work leading to the Master of Arts, Master of Public Administration, and Doctor of Philosophy degrees. Detailed information on requirements for degrees may be obtained from the Department of Political Science.

The Department's courses are grouped into 16 subfields in three major divisions. In some subfields there is a proseminar which prepares beginning students for the more specialized advanced seminars by acquainting them with the fundamental concepts, theories, modes of inquiry, and research findings. In all subfields there are tutorials and directed studies courses. The tutorial is basically a reading course, the content of which is arranged by agreement of one or more students and a professor. Generally a tutorial treats a topic of their mutual interest not covered by existing formal courses. The directed studies courses is a specialized advanced seminar which covers a topic not offered in regular seminar form; it is an in-depth study of a particular

## POLITICAL SCIENCE

aspect of a subfield, and varies with the interests of professors and students.

The Master of Public Administration program, though academic in content, is especially suited to those planning, or currently embarked upon, a career in the public service. It typically necessitates one year of course work. An internship or public service work experience is required.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### COURSES OPEN TO GRADUATE STUDENTS ONLY

##### 700. SPECIAL PROBLEMS.

##### 701 — 709. AMERICAN GOVERNMENT AND POLITICS.

##### 701. TUTORIAL IN AMERICAN GOVERNMENT AND POLITICS.

##### 702. DIRECTED STUDIES IN AMERICAN GOVERNMENT AND POLITICS.

##### 703. LEGISLATIVE BEHAVIOR.

Selected topics in American legislative systems, national and state; attention to major research techniques and recent theoretical developments.

##### 704. AMERICAN POLITICAL PARTY SYSTEMS.

The structure and activities of American parties and their impact on individual and group political behavior and on government and public policy. Focus on both national and state party systems. Mr. Fenton.

##### 705. PROSEMINAR IN AMERICAN GOVERNMENT AND POLITICS.

##### 710 — 719. COMPARATIVE POLITICS.

##### 710. PROSEMINAR IN COMPARATIVE POLITICS.

##### 711. TUTORIAL IN COMPARATIVE POLITICS.

##### 712. DIRECTED STUDIES IN COMPARATIVE POLITICS.

##### 713. COMPARATIVE POLITICAL PARTIES.

The ideology, structure, and dynamics of diverse types of political parties, party systems, and electoral systems; their interrelationships. Mr. Braunthal.

##### 714. MILITARY POLITICS.

Comparative study of contemporary problems in civilian-military relations. Mr. Feit.

##### 720 — 729. INTERNATIONAL RELATIONS.

##### 720. PROSEMINAR IN INTERNATIONAL RELATIONS.

##### 721. TUTORIAL IN INTERNATIONAL RELATIONS.

##### 722. DIRECTED STUDIES IN INTERNATIONAL RELATIONS.

##### 723. PROBLEMS OF INTERNATIONAL RELATIONS.

Analysis of major problems in international relations. Mr. Fliess.

##### 724. INTERNATIONAL LAW AND ORGANIZATION.

Analysis of major problems in international law and organization.

##### 725. THEORY OF INTERNATIONAL POLITICS.

Analysis and conceptualization of the forces and drives that condition politics among nations. Mr. Fliess.

## GRADUATE SCHOOL

##### 726. NATIONALISM.

Analysis of nationalism as a political ideology with emphasis on its role in emergent nations. Mr. Fliess.

##### 727. IMPERIALISM.

Analysis of imperialism as a recurrent phenomenon in international relations with emphasis on the relations between advanced and emergent nations. Mr. Fliess.

##### 730 — 739. PUBLIC ADMINISTRATION.

##### 730. PROSEMINAR IN PUBLIC ADMINISTRATION.

##### 731. TUTORIAL IN PUBLIC ADMINISTRATION.

##### 732. DIRECTED STUDIES IN PUBLIC ADMINISTRATION.

##### 733. PUBLIC ADMINISTRATION: ORGANIZATION.

Behavior within governmental bureaucracy, in terms of the interaction between the individual and organizational influences.

##### 734. PUBLIC ADMINISTRATION: RESPONSIBILITY.

The meaning and institutions of political responsibility of governmental bureaucracy. Mr. Mainzer.

##### 735. COMPARATIVE PUBLIC ADMINISTRATION.

Comparative analysis of the government administrative systems of the U.S., Britain, Canada, France, the U.S.S.R., and other selected countries. Mr. Kramer.

##### 736. PUBLIC BUDGETING AND SYSTEMATIC ANALYSIS.

The theory and techniques of budgeting and systematic analysis and the political processes that relate these techniques to decision-making within the governmental organization. Mr. Kramer.

##### 739. PUBLIC ADMINISTRATION INTERNSHIP REPORT.

An internship experience in government service, including a supervised written report and an oral examination. Normally takes nine months to a year.

##### 740-749. PUBLIC LAW.

##### 740. PROSEMINAR IN PUBLIC LAW.

##### 741. TUTORIAL IN PUBLIC LAW.

##### 742. DIRECTED STUDIES IN PUBLIC LAW.

##### 743. LAW AND THE POLITICAL PROCESS.

The interrelationships between law and politics, and the functions of law in organized societies. Mr. Alfange, Mr. Beth, Mr. Goldman.

##### 744. THEORIES OF LAW AND JUDICIAL BEHAVIOR.

The theories of law, jurisprudence, and for judicial behavior. Mr. Alfange, Mr. Beth, Mr. Goldman.

##### 750-759. STATE AND LOCAL POLITICS.

##### 750. PROSEMINAR IN STATE AND LOCAL POLITICS.

##### 751. TUTORIAL IN STATE AND LOCAL POLITICS.

##### 752. DIRECTED STUDY IN STATE AND LOCAL POLITICS.

##### 753. URBAN POLITICAL SYSTEMS.

Comparative analysis of relationships among socioeconomic, environmental, and political structures and processes, and public policy outcomes in cities. Research applications of contemporary concepts and theories. Mr. Booth, Mr. Howards.

##### 754. THEORY OF LOCAL GOVERNMENT.

Theories of local government; general uniformities in the governmental process. Mr. Booth, Mr. Howards.

## UNIVERSITY OF MASSACHUSETTS

### 760-769. POLITICAL THEORY.

#### 760. PROSEMINAR IN POLITICAL THEORY.

#### 761. TUTORIAL IN POLITICAL THEORY.

#### 762. DIRECTED STUDIES IN POLITICAL THEORY.

#### 763. RECENT POLITICAL THEORY.

Contemporary theories about the possibilities and limits of operationalism, behavioralism, and the decision-making approach in political science. Mr. Oppenheim.

#### 764. CHURCH AND STATE.

Relations between western and non-western religions and the state; analysis of the ideas and other forces underlying this relationship, especially since 1918. Mr. Lewy.

#### 765. THE INDIVIDUAL AND THE STATE.

The problem of political obligation in political theory and in its historical and social contexts; the medieval right of resistance, the social contract, anarchism, resistance to totalitarianism, non-violent resistance, conscientious objection to war. Mr. Lewy.

#### 766. PHILOSOPHICAL FOUNDATIONS OF POLITICAL SCIENCE.

Critical examination of the principal contemporary views concerning the methods of gaining knowledge of political phenomena. Mr. Connolly.

#### 767. EMPIRICAL RESEARCH IN POLITICAL BEHAVIOR.

Introduction to research techniques as applied to special problems in the field of political behavior. Emphasis on various approaches to the study of the individual voter, the American politician, interest groups and legislatures. Mr. Fenton.

#### 768. REVOLUTIONS AND REVOLUTIONARY MOVEMENTS.

The phenomenon of revolution in modern times; the theory and practice of revolution in Jacobinism, Marxism, anarchism, Leninism, syndicalism, fascism, Castroism. Mr. Lewy.

### 770-779. AREA STUDIES.

#### 771. TUTORIAL IN AREA STUDIES.

#### 772. DIRECTED STUDIES IN AREA STUDIES.

#### 773. POLITICS OF SOUTH ASIA.

Selected problems relating to government and politics of India, Pakistan, and Ceylon. Mr. Sved.

#### 774. POLITICS OF EAST ASIA.

Selected problems relating to the politics of China, Japan, and other Asian countries. Mr. Houn, Mr. Maki.

#### 776. AFRICAN POLITICS.

Selected contemporary problems in African government and politics. Mr. Feit.

#### 777. LATIN AMERICAN POLITICS.

Comparative study of Latin American politics and government. Mr. Kline, Mr. Wiarda.

#### 778. EUROPEAN POLITICS.

Selected political cultures and systems in Europe. Mr. Braunthal, Mr. King.

#### 779. POLITICS AND FOREIGN POLICIES OF THE MIDDLE EAST AND NORTH AFRICA.

The regional and international politics of the Middle East and North Africa, focusing on questions and problems that promote conflict or collaboration in the area. Miss Meo.

#### 800. MASTER'S THESIS.

Credit, 6.

#### 900. DOCTORAL DISSERTATION.

Credit, 10.

## POLITICAL SCIENCE

### COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS.

#### American National Government and Politics

#### 505. THE PRESIDENCY IN AMERICAN GOVERNMENT.

The growth of the executive in the United States government. Varying conceptions of the presidential office. Constitutional and political aspects of the office in legislation, administration, and conduct of foreign and military affairs. The president as party leader.

Mr. Gordon, Mr. Kramer, Mr. Sulzner.

#### 508. POLITICAL PARTIES AND ELECTIONS.

American political processes. Emphasis on parties, pressure groups and public opinion.

Mr. Fenton, Mr. Mileur, Mr. Shanley.

#### 603. AMERICAN POLITICAL THOUGHT.

The development of American political thought from Colonial times to the present. Mr. Gere, Mr. King, Mr. Sved.

#### 605. THE LEGISLATIVE PROCESS.

The role of the legislature in national and state government. The functions of legislatures; legislative procedures; the role of political parties and pressure groups in the legislative process. Mr. Gordon, Mr. Sulzner.

#### 607. BLACK POLITICS.

Theoretical and historical analysis of the relationship of Black people to the American political system. The development of Black ideologies, political organizations, and strategies, and alternative forms of participation in the American political system.

#### 608. PUBLIC OPINION IN POLITICS.

Opinion and communication as aspects of the political process. Emphasis on communication through mass media. The relations between mass attitudes and communication and political institutions and the formation of public policy.

Mr. Fenton.

#### State and Local Government and Politics

#### 514. MUNICIPAL GOVERNMENT.

Survey of the structure and function of government in American municipalities.

Mr. Booth, Mr. Gere, Mr. Howards, Mr. Shanley.

#### 516. COMPARATIVE LOCAL GOVERNMENT.

The formal institutions and patterns of political behavior in cities of the world. Common urban problems, community participation, decision-making. Mr. Howards.

#### 517. MASSACHUSETTS POLITICS.

Analysis of the significant characteristics of Massachusetts politics as applied to political problems from an historical perspective with both a theoretical and practical base. Field work, readings, lectures, and discussions. Mr. Friedman.

#### 519. STATE GOVERNMENT.

American state politics, organization, and functions. Emphasis on the role of the state in our federal system.

Mr. Booth, Mr. Gere, Mr. Howards, Mr. Shanley.

#### 611. AMERICAN FEDERALISM.

An examination of the American system of federalism as it has developed and changed from the early days of the Republic to the present time, with emphasis on the shift from a legal to a programmatic orientation and an emerging complex of intergovernmental relations.

Mr. Gere, Mr. Eagan.

#### 614. METROPOLITAN POLITICS.

Problems of metropolitan areas; actual and possible political approaches to their solution. Emphasis on the role of parties.

## POLITICAL SCIENCE

the development of political leadership, existing political institutions, and pressure group activity.  
Prerequisite, Pol Sci 508 or permission of instructor.

Mr. Booth, Mr. Howards, Mr. Shanley.

### Public Administration and Policy Studies

#### 523. PUBLIC ADMINISTRATION.

Organization of bureaucracy, bureaucratic life, constitutional position, and political role of governmental bureaucracy.

Mr. Kramer, Mr. Lederle, Mr. Mainzer.

#### 526. POLITICAL THEORY, IDEOLOGY, AND PUBLIC POLICY.

The evaluation of social policy; a consideration of normative issues raised in controversies concerning social and economic policy in the light of main traditions of Western political thought and the logical and ethical aspects of social choice.

Mr. Eagan.

#### 620. GOVERNMENT OF BUREAUCRACIES.

Inquiry into the meaning and possibility of "democracy" within large-scale organizations. Mr. Kramer, Mr. Mainzer.

#### 623. PUBLIC PERSONNEL ADMINISTRATION.

The personnel function in bureaucracy; patronage and merit; career service and political executives; authority and informal organization; employee rights and collective action.

Mr. Kramer, Mr. Lederle, Mr. Mainzer.

#### 624. ADMINISTRATIVE LAW.

Governmental activities in the regulation of industry, agriculture, and labor. Emphasis on the legal framework within which these activities operate.

Mr. Lederle.

#### 626. AMERICAN PUBLIC POLICY.

In-depth study of selected areas of American policy. May include theory of, and approaches to, the study of public policy.

#### 627. COMPARATIVE PUBLIC POLICY.

A comparative analysis of policy formation; the process of social and economic policy decision-making in selected industrial societies; the interaction of institutions, ideas, and power in decisions concerning social welfare, economic planning, and related policy areas.

Mr. Einhorn.

### Comparative Government and Area Studies

#### 531. POLITICAL DEVELOPMENT AND MODERNIZATION.

Comparative analysis of political change and development in the emerging nations.

Mr. Coulter, Mr. Kramer,  
Mr. Maki, Mr. Syed, Mr. Wiarda.

#### 533. GOVERNMENT AND POLITICS OF THE MIDDLE EAST.

A review of the dynamics of the traditional Islamic political system and of the transformation of that system under the impact of Western penetration of the Middle East. Contemporary Middle East politics with special reference to the politics of Israel, Syria, Lebanon and the UAR.

Miss Meo.

#### 535. EAST CENTRAL EUROPE.

Survey of the major governments in the East Central European area with emphasis on the nature of Communist Party control. Governments of Czechoslovakia, East Germany, Hungary, Poland, Rumania, Yugoslavia, and others.

Mr. Ryavec, Mr. Vali.

#### 538. GOVERNMENT AND POLITICS OF SOUTH AND SOUTHEAST ASIA.

Comparative study of the institutions and dynamics of government and politics in South and Southeast Asia, especially India, Pakistan, Indonesia, and Malaysia, with reference to issues of political stability, economic development, and relations with the U.S. and other great powers.

Mr. Allen, Mr. Syed.

## GRADUATE SCHOOL

#### 539. WEST EUROPEAN COMPARATIVE POLITICS.

Analysis of the political cultures, institutions, systems, and processes of selected West European countries. Emphasis on social and economic factors relating to contemporary political issues.

Mr. Braunthal, Mr. Einhorn, Mr. King.

#### 540. GOVERNMENT AND POLITICS OF SOUTH AMERICA.

Comparative analysis of the interest groups, political parties, and government institutions of the South American countries. Emphasis on the background and political culture in which Latin American politics and government takes place.

Mr. Kline, Mr. Wiarda.

#### 541. GOVERNMENT AND POLITICS OF CENTRAL AMERICA AND THE CARIBBEAN.

Comparative analysis of the interest groups, political parties, and government institutions of the Central American and Caribbean countries. Emphasis on communism and the role of the U.S.

Mr. Kline, Mr. Wiarda.

#### 542. THE POLITICS OF SUB-SAHARAN AFRICA.

The organization and processes of African politics, centering on the general political problems facing contemporary African governments.

Mr. Feit.

#### 543. COMPARATIVE AFRICAN GOVERNMENTS.

Comparative study of the political process in five African states.

Mr. Feit.

#### 548. GREAT BRITAIN AND THE COMMONWEALTH.

The practice of parliamentary government in Great Britain and the Commonwealth countries. Emphasis on development of the conception of the Commonwealth, the institutions through which the Commonwealth operates, and its contemporary world politics.

#### 634. GOVERNMENT AND POLITICS OF JAPAN.

Government and politics of modern Japan with emphasis on the post-1945 period; descriptive analysis of structure and function of government and political process.

Mr. Maki.

#### 636. GOVERNMENT AND POLITICS OF THE SOVIET UNION.

Historical and ideological influences on Soviet politics; the interconnection of social and political institutions and processes; membership, organization, and operation of the Communist Party; the state structure and law; and contemporary Soviet foreign policy.

Prerequisite, Pol Sci 131, or History 100-101, or permission of instructor.

Mr. Ryavec, Mr. Vali.

#### 637. GOVERNMENT AND POLITICS OF CHINA.

An analysis of the genesis and dynamics of the Chinese Communist movement, the ideology and organization of the party and the government, and major domestic and foreign policies since 1949, with special reference to the Maoist attempt to reform man and society as well as to achieve modernization.

Mr. Houn.

#### 640. POLITICS IN THE IBERIAN PENINSULA: THE POLITICAL SYSTEMS OF SPAIN AND PORTUGAL.

The unique aspects of the process of political development and/or decay in Spain and Portugal. Emphasis on the heritage of these two nations as reflected in their New World colonies in the Americas and on the present-day pattern of politics in the Iberian peninsula.

Prerequisites, Pol Sci 131 or permission of instructor.

Mr. Wiarda.

#### 647. ARMED FORCES AND POLITICAL POLICY.

Comparative study of civilian-military relations in the Western and non-Western nations, concentrating both on regular and irregular armed forces.

Mr. Feit.

### International Relations

#### 555. AMERICAN FOREIGN POLICY.

Constitutional, political, and administrative considerations

## UNIVERSITY OF MASSACHUSETTS

which influence the formulation and execution of American foreign policy. Emphasis on current issues. Mr. Allen.

### 558. INTER-AMERICAN RELATIONS.

Analysis of the effects of the United States — government, business, labor and other groups — on the internal politics and economics of the Latin-American countries.

Mr. Kline, Mr. Wiarda.

### 650. SOVIET FOREIGN POLICY.

An analysis of community and change in Soviet perceptions, goals, methods, and priorities in foreign policy. Emphasis on the period since World War II.

Mr. Ryavec.

### 651. CHINESE FOREIGN POLICY.

Examination of the geographical, historical, ideological, economic, military, and other factors in Peking's foreign policy since 1949. Emphasis on mainland China's relations with various countries and her positions on major international issues.

Mr. Houn.

### 656. INTERNATIONAL LAW.

The origin, character, and function of international law.

Mr. Fliess.

### 657. INTERNATIONAL ORGANIZATION.

International organization in the 20th century. Emphasis on the United Nations and regional organization.

### 658. INTERNATIONAL RELATIONS: ASIA.

Introduction to general problems of Asian international relations since 1859, with detailed examination of problems since World War I. Emphasis on China, Japan, and the new nations.

Mr. Houn, Mr. Maki.

### 659. WESTER EUROPEAN FOREIGN POLICIES.

Analysis of the emerging institutional patterns of the West European communities. Emphasis on the major political, military, and economic regional organizations and their relations with Communist nations and the United States.

Mr. Braunthal, Mr. Einhorn.

## Public Law and Judicial Process

### 560. CONSTITUTIONAL LAW.

The United States Supreme Court and leading cases interpreting the United States Constitution.

Mr. Alfange, Mr. Beth, Mr. Goldman.

### 561. CIVIL LIBERTIES.

The development in American Constitutional law of the concept of civil liberty, including the fields of free speech and religion, fair trial, and race discrimination. The function of courts in safeguarding these liberties.

Mr. Alfange, Mr. Beth, Mr. Goldman.

### 662. POLITICS, LAW AND JUDICIAL BEHAVIOR.

American court systems including examination of the processing of cases, judicial backgrounds and selection, judicial decisional behavior, some major court policies and the responses to them from groups and institutions with the larger political system.

Mr. Alfange, Mr. Beth, Mr. Goldman.

## Political Theory and Methodology

### 570. ANCIENT AND MEDIEVAL POLITICAL THOUGHT.

Development of political thought and its relation to cultural and institutional growth from the time of the Greeks to the end of the Middle Ages.

Mr. Connolly, Ms. Elshain, Mr. King, Mr. Lewy, Mr. Oppenheim.

### 571. MODERN POLITICAL THOUGHT.

Development of political thought and its relation to cultural and institutional growth from the rise of the modern state to the present.

Mr. Connolly, Ms. Elshain, Mr. King, Mr. Lewy, Mr. Oppenheim, Mr. Syed.

## POLYMER SCIENCE AND ENGINEERING

### 574. PROBLEMS IN POLITICAL THOUGHT.

Some basic problems of political science, political ethics, and political philosophy through study of selected classical and modern political thinkers.

Mr. Connolly, Ms. Elshain, Mr. Mileur, Mr. Oppenheim.

### 673. HUMAN NATURE AND POLITICS.

The role of the individual in the political process and especially with the problem of political perception, the way in which symbols structure reality, and the use of symbols to maintain stability or effect change in the political system.

Mr. Connolly, Mr. Feit.

### 678. COMMUNIST POLITICAL THOUGHT.

The philosophic and religious origins of Soviet Communism in Western and Eastern Europe. Analysis of the classics from Marx to Khrushchev.

Mr. Fliess.

## Polymer Science and Engineering

### GRADUATE FACULTY

ROGER S. PORTER, *Professor and Head of the Department of Polymer Science and Engineering*, B.S., University of California at Los Angeles, 1950; Ph.D., University of Washington, Seattle, 1956.

OTTO VOGL, *Professor and Graduate Program Director*, Ph.D., University of Vienna, 1950.

JAMES C. W. CHIEN, *Professor of Chemistry*.

RICHARD J. FARRIS, *Adjunct Associate Professor and Associate Professor of Civil Engineering*.

ALLEN S. HAY, *Adjunct Professor*, B.S., Lehigh, 1962; Ph.D., Polytechnic Institute of Brooklyn, 1966.

FRANK E. KARASZ, *Professor*, B.S., Imperial College, University of London, 1954; Ph.D., University of Washington, 1957.

ROBERT L. LAURENCE, *Professor of Chemical Engineering*.

ROBERT W. LENZ, *Professor of Chemical Engineering*.

WILLIAM J. MACKNIGHT, *Professor of Chemistry*.

STANLEY MIDDLEMAN, *Professor of Chemical Engineering*.

EDWARD P. OTOCKA, *Adjunct Professor*, B.Sc., Alberta, 1950; M.Sc., 1952; Ph.D., Illinois, 1955.

ISAAC SANCHEZ, *Associate Professor*, B.S., St. Mary's University, 1963; Ph.D., Delaware, 1969.

RICHARD S. STEIN, *Commonwealth Professor of Chemistry and Director of the Polymer Research Institute*.

## THE DOCTOR OF PHILOSOPHY DEGREE PROGRAM

### Admission Requirements:

1. A B.S. or B.A. in chemistry, engineering, or physics.
2. Undergraduate work in two of the following areas:
  - a. Organic chemistry.
  - b. Physical chemistry.
  - c. Thermodynamics.
  - d. Unit operations.
  - e. Mechanics of materials.

## POLYMER SCIENCE AND ENGINEERING

### *Suggested Program:*

1. Undergraduate courses in areas under 2, above.
2. Core and basic requirements as follows:

|                                                       | <i>Credits</i> |
|-------------------------------------------------------|----------------|
| 501. INTRODUCTION TO POLYMER SCIENCE.                 | 3              |
| 502. POLYMER SCIENCE LAB.                             | 3              |
| 503. POLYMER SYNTHESIS LAB.                           | 3              |
| 790. ORGANIC POLYMERIZATION REACTIONS.                | 3              |
| 748-9. PHYSICAL CHEMISTRY OF HIGH POLYMERS.           | 3              |
| 792. RHEOLOGY.                                        | 3              |
| 793. POLYMER PROCESSING.                              | 3              |
| 720 — 769. POLYMER SCIENCE AND ENGINEERING ELECTIVES. | 2-3            |
| 780 — 3. POLYMER SCIENCE AND ENGINEERING SEMINAR.     | 1 ea.          |
| 786 — 7. RESEARCH PROPOSAL.                           | 1 ea.          |

Also, course electives (10-20 credits), a language and comprehensive examinations as approved by Polymer Science and Engineering and as required by the Graduate School.

|                    |     |
|--------------------|-----|
| 900. DISSERTATION. | 18. |
|--------------------|-----|

### THE MASTER OF SCIENCE DEGREE PROGRAM

Requirements for admission are the same as those for entry into Ph.D. Program.

### *Suggested Programs*

With thesis:

|                                                       | <i>Credits</i> |
|-------------------------------------------------------|----------------|
| 501. INTRODUCTION TO POLYMER SCIENCE.                 | 3              |
| 502. POLYMER SCIENCE LAB.                             | 3              |
| 790. ORGANIC POLYMERIZATION REACTIONS.                | 3              |
| 791. PHYSICAL CHEMISTRY OF HIGH POLYMERS.             | 3              |
| 792. RHEOLOGY.                                        | 3              |
| 720 — 769. POLYMER SCIENCE AND ENGINEERING ELECTIVES. | 2-3 ea.        |
| 780 — 3. POLYMER SCIENCE AND ENGINEERING SEMINAR.     | 1 ea.          |
| 800. MASTER'S THESIS.                                 | 10             |

Without thesis:

|                                           | <i>Credits</i> |
|-------------------------------------------|----------------|
| 501. INTRODUCTION TO POLYMER SCIENCE.     | 3              |
| 502. POLYMER SCIENCE LABORATORY.          | 3              |
| 790. ORGANIC POLYMERIZATION REACTIONS.    | 3              |
| 791. PHYSICAL CHEMISTRY OF HIGH POLYMERS. | 3              |
| 792. RHEOLOGY.                            | 3              |

## GRADUATE SCHOOL

|                                                       |         |
|-------------------------------------------------------|---------|
| 720 — 769. POLYMER SCIENCE AND ENGINEERING ELECTIVES. | 2-3 ea. |
|-------------------------------------------------------|---------|

|                                |     |
|--------------------------------|-----|
| 770. INTRODUCTION TO RESEARCH. | 1-3 |
|--------------------------------|-----|

|                                                   |       |
|---------------------------------------------------|-------|
| 780 — 3. POLYMER SCIENCE AND ENGINEERING SEMINAR. | 1 ea. |
|---------------------------------------------------|-------|

Also, course electives selected from suggested list for the Ph.D. program (brochure available from the Department upon request). Both the master's and doctor's programs in Polymer Science and Engineering are interdisciplinary in nature and are designed to provide a broad and fundamental education in polymers. Entering students will normally have a bachelor's or master's degree in chemistry, engineering, or physics. Flexibility in the first year's curriculum allows for basic work in fields other than the student's undergraduate major and for prerequisites for advanced work in the PSE program. There is a basic core of courses within the PSE program, with sufficient electives to provide options for students with either a chemistry-physics emphasis or an engineering emphasis. An intermediate-level reading knowledge of one foreign language for all doctoral candidates. The language test is administered by the PSE Department.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

COURSES OPEN TO GRADUATE STUDENTS ONLY  
(For either major or minor credit)

### 721. MICROSCOPY AND MORPHOLOGY OF POLYMERS.

The use of the light and electron microscope. Phase contrast, interference methods, selected area diffraction, scattering techniques, and replication and decoration methods for the study and characterization of the morphology of polymeric structures.

Two class hours, four laboratory hours per week.  
Prerequisites, PSE 501, general physics, optics desirable.  
Mr. Price.

770. INTRODUCTION TO RESEARCH.  
Independent student research on a specific project in polymer science or engineering, selected to teach research methods and techniques and to acquire new knowledge.  
Requirement, approval of the department head. *Credit, 1-3.*

780 — 783. POLYMER SCIENCE AND ENGINEERING SEMINAR.  
Students, staff members, and visitors present seminars dealing with current research and literature reviews in polymer science and engineering and in related areas of materials science.  
About two seminar hours per week. *Credit, 1 each semester.*

786-787. RESEARCH PROPOSAL.  
Students write and defend a proposal for an experimental investigation of a research problem not directly related to their thesis topic. The project selected requires approval of the thesis committee, and involves primarily library research.  
*Credit, 1 each semester.*

790. ORGANIC POLYMERIZATION REACTIONS.  
Mechanisms, kinetics, and thermodynamics of principal types of polymerization reactions. Also Chem 797.  
Prerequisites, PSE 501; Chem 571 or equivalent. Mr. Vogl.

798-799. PHYSICAL CHEMISTRY OF HIGH POLYMERS.  
Structure of solid polymers, determination of molecular weights, sizes and shapes, mechanical properties of solid polymers, colligative properties of polymer solutions, polyelectrolytes, and physical chemistry of proteins.  
Prerequisite, Chem 785 or equivalent.

*Credit, 3 each semester.*  
Mr. Karasy, Mr. Sanchez, Mr. Stein.

## UNIVERSITY OF MASSACHUSETTS

### 792. RHEOLOGY.

Definition and measurement of rheological properties; continuum mechanics and constitutive equations; molecular theories of polymer deformation; correlation and interrelation of material functions. Relation of the various approaches taken in describing the viscous and viscoelastic properties of polymers, evaluation of these approaches; the role of modern rheology in the characterization and processing of polymers.

Mr. Middleman, Mr. Porter.

### 793. POLYMER PROCESSING.

Application of principles of chemical engineering to analysis of polymer processes such as extrusion, roll coating, mixing, etc. Applied fluid dynamics; some attention to heat and mass transfer.

Prerequisite, PSE 792.

Mr. Middleman, Mr. Porter.

### 800. MASTER'S THESIS.

Credit, 6-10.

### 900. DOCTORAL DISSERTATION

Credit, 18.

### COURSE OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS

(For either major or minor credit)

#### 501. INTRODUCTION TO POLYMER SCIENCE.

Physical and organic chemistry of polymers for persons with basic training in chemistry, physics, or engineering. A survey of preparative methods of polymers, means of preparation of polymers of controlled structure, the physical chemistry of polymer molecules in solution, liquid and solid phases, thermodynamics and statistics of polymers, methods of characterization, mechanical properties of polymeric solids and fundamentals of industrial preparative and fabrication techniques. Prerequisite, one year of physical chemistry and one semester of organic chemistry and permission of instructor.

#### 502. POLYMER SCIENCE LABORATORY

Characterization of polymers by physical and physicochemical methods including colligation and rheological determination.

Laboratory and one lecture hour/week. Technical report required.

Mr. Chien, Mr. Price.

#### 503. POLYMER SYNTHESIS LABORATORY

Experiments performed to prepare and characterize the most important types of polymers. Radical, cationic, anionic polymerizations, copolymerizations, chain transfer in polymerizations as well as some typical processes for the preparation of polymers and the direct preparation of finished articles by monomer casting.

Laboratory open one day a week, oral presentation of results.

Mr. Vogl

### RELATED COURSES

ALEXANDRA KAPLAN, *Associate Professor*, B.A., Michigan, 1963; Ph.D., Columbia, 1968.

SOLIS L. KATES, *Professor*, B.S., City College of New York, 1935; M.S., 1937; Ph.D., Columbia, 1948.

GEORGE LEVINGER, *Professor*, B.A., Columbia, 1946; M.A., California at Berkeley, 1951; Ph.D., Michigan, 1955.

ALAN LIEBERMAN, *Assistant Professor*, B.S., Brooklyn College, 1953; M.A., Connecticut, 1955; Ph.D., 1960.

RICHARD T. LOUITT, *Professor*, B.A., DePaul, 1954; M.A., Michigan, 1959; Ph.D., 1961.

VONNIE C. MCLOYD, *Assistant Professor*, B.A., Talladega College, M.A., 1971; Michigan, 1973; Ph.D., 1975.

JOHN W. MOORE, *Professor*, B.A., Lawrence, 1958; Ph.D., Indiana, 1962.

STANLEY M. MOSS, *Professor*, B.A., Ohio State, 1957; M.A., 1958; Ph.D., 1962.

JEROME L. MYERS, *Professor*, B.A., Syracuse, 1953; M.A., Wisconsin, 1955; Ph.D., 1957.

NANCY A. MYERS, *Professor*, B.A., Mount Holyoke, 1952; M.A., Wisconsin, 1954; Ph.D., 1957.

BERNADETTE NELSON-SHAPIRO, *Assistant Professor*, B.A., Stanford, 1967; M.A., 1969; Ph.D., 1973.

MELINDA NOVAK, *Assistant Professor*, B.A., Connecticut, 1967; M.A., Wisconsin, 1971; Ph.D., 1973.

ALEXANDER POLLATSEK, *Associate Professor*, B.S., Michigan, 1961; M.A., Harvard, 1963; M.S., Michigan, 1964; M.A., 1965; Ph.D., 1969.

HAROLD RAUSH, *Professor*, B.A., Michigan, 1941; M.A., 1942; Ph.D., Stanford, 1950.

MIRIAM G.K. ROGERS, *Visiting Lecturer*, B.A., McGill, 1965; M.A., Oregon, 1972; Ph.D., 1974.

JAMES M. ROYER, *Assistant Professor*, B.A., Chico State, 1967; M.A., Illinois, 1969; Ph.D., 1970.

HARRY SCHUMER, *Associate Professor*, B.S., Ohio State, 1954; M.A., 1956; Ph.D., 1961.

NORMAN SIMONSON, *Assistant Professor*, B.A., Rochester, 1960; Ph.D., Pennsylvania State, 1968.

J. ALFRED SOUTHWORTH, *Professor*, B.S., U.S. Naval Academy, 1943; M.A., Harvard, 1955; Ph.D., 1956.

## GRADUATE SCHOOL

D. N. SPINELLI, *Professor of Computer and Information Science and Psychology*.

ERVIN STAUB, *Professor*, B.A., Minnesota, 1962; Ph.D., Stanford, 1965.

IVAN STEINER, *Professor*, B.A., Central Michigan, 1941; M.A., Michigan, 1948; Ph.D., 1952.

BETH SULZER-AZAROFF, *Professor*, B.S., City College of New York, 1950; M.A., 1953; Ph.D., Minnesota, 1966.

HARIHARAN SWAMINATHAN, *Assistant Professor of Education and Psychology*.

DAVID M. TODD, *Associate Professor*, B.A., Alma, 1965; Ph.D., Michigan, 1971.

GILBERT C. TOLHURST, *Professor of Communication Disorders and Psychology*.

BARBARA F. TURNER, *Associate Professor of Human Development and Psychology*.

CASTELLANO B. TURNER, *Associate Professor*, B.A., DePaul, 1957; M.A., 1963; Chicago, 1966.

GEORGE N. WADE, *Assistant Professor*, B.S., Pennsylvania State, 1967; Ph.D., California at Berkeley, 1970.

NORMAN WATT, *Professor*, B.A., Northwestern, 1957; M.A., Ohio State, 1960; Ph.D., 1962.

ARNOLD WELL, *Associate Professor*, B.S., McGill, 1961; M.S., Alberta, 1963; M.A., Oregon, 1966; Ph.D., 1969.

PATRICIA A. WISOCKI, *Assistant Professor*, B.A., Marygrove, 1965; Boston College, 1967; Ph.D., 1971.

The aim of the Graduate Program in Psychology is to train scientists who will pursue careers in the following general areas: Biopsychology (including animal and comparative, physiological, and sensory), Cognitive Processes, Clinical\* (including behavior modification, community mental health, and family therapy), Developmental, Education (a joint program with the School of Education), Personality, and Social. Students may develop programs of study which cut across these established areas, e.g., between Biopsychology and Cognitive Processes, with the approval of the Graduate Program Director.

The aim of the program is implemented by a variety of course offerings. All students are requested to take, directly or by examination, some course outside their primary area of study in order to gain breadth of knowledge in psychology. These "core" courses are complemented by specialized offerings, including field experience where applicable. A strong emphasis is placed on research, first with faculty, and then on individual student research which culminates in the doctoral dissertation. In addition, because a large percentage of our Ph.D.'s pursue their careers in an academic setting, all students are encouraged to participate in one teaching practicum. Qualified students may also be allowed to assume complete responsibility for small independent sections of larger courses. The "core" consists of six courses: Two in statistics, one in Systematic Psychology (which may be waived for students hav-

## UNIVERSITY OF MASSACHUSETTS

ing received a grade of A or B in an undergraduate course in history or psychology), and three outside one's area of specialization.

All students are admitted to work toward the Ph.D. degree. However, the Master of Science degree is ordinarily earned after completion of 30 credits of study, including a Master's thesis. The M.S. is usually attained in two years, and the Ph.D. in four, except for the Ph.D. in Clinical Psychology for which an additional year's internship is required. Students may complete these requirements in less time.

There is no University nor department-wide foreign language requirement for the student's program of study and research. Similarly, the satisfactory completion of a basic course in Computer Science, or some other technical course, may be required for the Ph.D. degree. Such a course is usually completed early in the student's program of study so that it can serve subsequently as a research tool.

For admission, applicants should have 18 credits or semester hours of psychology courses beyond an introductory course. Included in these courses should be one in statistics, and one in experimental psychology. The latter may be a laboratory course in either physiological, sensory, emotion and motivation, or learning and thinking. Applicants who have done outstanding work in other areas of study, but do not have the required undergraduate credits in psychology, are urged to apply for admission to graduate work. They may be asked to make up some credits or courses. After satisfactory completion of a semester's work of advanced undergraduate courses, such students may petition the Department to waive any remaining undergraduate deficiencies.

In addition to the other Graduate School admission requirements, applicants should also submit to the Department the results of the Miller Analogies Test.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### COURSES OPEN TO GRADUATE STUDENTS ONLY (For either major or minor credit)

##### 700. PROBLEM IN PSYCHOLOGY.

A research project which may be taken in lieu of the master's thesis or by doctoral students as minor research.

*Credit, 3 each semester; maximum credit 12.*

##### 706. DEVELOPMENTAL PSYCHOLOGY.

Selected issues, both historical and contemporary, in developmental psychology.

##### 711. SENSORY PROCESSES I.

Auditory, cutaneous senses, and labyrinthine senses; the fundamental data with their implications concerning functioning of these systems.

Prerequisites, Psych 210 or 6 credits of advanced psychology or equivalent.

##### 712. SENSORY PROCESSES II.

Visual, gustatory, and olfactory sense; the fundamental data with their implications concerning functioning of these systems.

Prerequisites, Psych 210 or 6 credits of advanced psychology or equivalent.

##### 715. PERCEPTION.

Primarily vision and audition. Stress on perceptual process, as opposed to sensory processes. The perception of form, space, depth; perceptual development and learning, etc.

Prerequisite, Psych 510 or equivalent.

## PSYCHOLOGY

##### 720. LEARNING.

Basic phenomena and current research in animal and human learning.

##### 721. CONDITIONING.

The basic laws of classical conditioning. Topics include the physiological bases of conditioning to more complex behavior, and relevant research techniques for animal and human experimentation. Lectures and laboratories.

##### 723. ANIMAL LEARNING.

The implication of the basic laws of learning for explaining complex aspects of animal learning. Examples or topics may include application of classical conditioning models to instrumental situations, aversive control, discrimination learning, and private learning.

##### 725. HUMAN INFORMATION PROCESSING I.

Basic processes in human cognition and performance. Topics include attention, judgment, choice, short term memory, and long-term memory.

Prerequisite, Psych 720 or permission of instructor.

##### 726. HUMAN INFORMATION PROCESSING II.

Complex aspects of human cognition and performance. Topics include sequential behavior, concept formation, thinking, and psycholinguistics.

Prerequisite, Psych 725 or permission of instructor.

##### 731. EMOTION AND MOTIVATION

The nature, determinants, and interrelationships of emotion and motivation; techniques involved in investigating these phenomena. Lectures and laboratories.

##### 735. SYSTEMATIC PSYCHOLOGY.

The general structure of psychological theory and an historical and comparative consideration of the backgrounds, viewpoints on scientific methodology, research interests and techniques, and the component variables, hypotheses, and laws of structural, Gestalt, functional, and behavioristic movements.

##### 741. CORRELATIONAL TECHNIQUES

Reasoning and assumptions underlying correlation analyses; inference; introduction to multivariate techniques; partial correlation; multiple correlation and regression, introduction to factor analysis.

Prerequisite, Psych 545, previously or concurrently, or permission of instructor.

##### 742. PSYCHOLOGICAL SCALING.

Theories underlying measurement and scaling in psychology and the social sciences; models of judgment and choice; models of psychological similarity; models of attitudes and abilities; a comparison of unidimensional multidimensional approaches.

Prerequisite, Psych 545, previously or concurrently, or permission of instructor.

##### 744. FACTOR ANALYSIS.

Theory and methods of factor analysis in psychological research. Literature and laboratory exercises.

Prerequisite, Psych 741 or equivalent.

##### 745. ADVANCED APPLIED STATISTICS.

Various experimental designs, the assumptions underlying their use, and the appropriate statistical analysis; orthogonal and randomized designs, trend analysis, nonparametric techniques, and multivariate analysis.

Prerequisite, Psych 545 or equivalent.

##### 746. QUANTITATIVE METHODS IN PSYCHOLOGY.

Mathematical descriptions of psychophysical and time-dependent data; parameter estimation; stochastic processes.

Prerequisites, Psych 545 and Math 123 or equivalent.

##### 750. PHYSIOLOGICAL PSYCHOLOGY.

An intensive overview of the field. Topics include an introduction to neuroanatomy, techniques used in investigations of brain function, the physiological bases of emotion, motivation, reward and punishment, species-typical behavior, learning, and memory.

## PSYCHOLOGY

## GRADUATE SCHOOL

**751. ADVANCED PHYSIOLOGICAL PSYCHOLOGY.**  
In-depth analysis of modern concepts in the study of the physiological and biochemical bases of behavior.  
Prerequisite, permission of instructor.

**752. THE NEUROANATOMICAL BASIS OF BEHAVIOR.**  
Structure and function of the mammalian nervous system as they relate to sensory-motor and motivational systems.  
Prerequisite, Psych 550 or equivalent, or permission of instructor.

**753. PSYCHOPHARMACOLOGY.**  
The neurochemical mechanisms of drugs that affect mood and behavior.  
Prerequisite, Psych 550, 552, or equivalent.

**760. THEORIES OF CHILD DEVELOPMENT.**  
The more relevant theories of child development, specifically those which have served as the impetus for experimental research with children. Theoretical analysis of the personality; social and cognitive development of children.

**762. LEARNING AND MEMORY PROCESSES IN CHILDREN.**  
Theoretical and experimental approaches to topics in learning and memory.  
Two class hours, one 2-hour laboratory period.  
Prerequisite, Psych 721 or 262 or permission of instructor.

**763. COGNITIVE PROCESSES IN CHILDREN.**  
Piagetian, behavioristic, and information-processing approaches to research in conceptual development.  
Two class hours, one 2-hour laboratory period.  
Prerequisite, Psych 721 or 262 or permission of instructor.

**764. PERCEPTUAL DEVELOPMENT IN CHILDREN.**  
An introduction to theories of perceptual development, consideration of sensory and perceptual capacities of the infant, and analysis of developmental changes in perception in the infant and older children.

**766. PERSONALITY AND SOCIAL DEVELOPMENT IN CHILDREN.**  
Review and analysis of the literature on personality development and the socialization process in children.  
Prerequisites, Psych 262, 270, or equivalent.

**775. THE PSYCHOLOGY OF EXCEPTIONAL CHILDREN.**  
The etiology, diagnosis, and treatment of exceptional children, with emphasis on intellectual, social, physical, and sensory deviation.  
Prerequisites, Psych 262, 235, or permission of instructor.

**777. DIAGNOSIS AND TREATMENT OF BEHAVIOR DISORDERS IN CHILDREN.**  
The diagnosis and treatment of psychological maladjustments in infancy and childhood; treatment procedures, resources, and methods used in dealing with behavior and personality problems. Lectures, discussions, practicum sessions.  
Prerequisites, Psych 325, 262 or 762, and 833.

**780. ADVANCED SOCIAL PSYCHOLOGY.**  
An overview of theory and experimental research in social psychology. Topics include social perception, attitude structure and change, dyadic interaction, and group processes.

**781. ATTITUDES.**  
Theory, method, and data concerned with the nature and structure of attitudes and opinions, the formation of attitudes, attitude change in response to communication and interpersonal influence.  
Prerequisite, Psych 780.

**782. SOCIAL JUDGMENT AND INTERPERSONAL PERCEPTION.**  
The influence of culture, values, needs, and attitudes on per-

ceptual judgments; judgmental and inferential processes about persons and interpersonal behavior.  
Prerequisites, Psych 780 and 710, or permission of instructor.

**783. SOCIAL LEARNING.**  
Concentration on theories of social learning, particularly those concerned with the analysis of the effectiveness of social reinforcement and observational learning.  
Prerequisite, Psych 720 or equivalent.

**784. GROUP DYNAMICS.**  
Interpersonal and group processes; attraction, influence, group structure, communication, cooperation, leadership, group performance. Focus on theory, experimentation, and special problems of the field.  
Prerequisite, Psych 780.

**793. ADVANCED EDUCATIONAL PSYCHOLOGY.**  
The psychological principles and concepts of development learning as related to educative process and their application to teaching. Primarily intended for graduate students in Education.  
Prerequisite, Psych 301 or equivalent, or permission of instructor.

**794. SOCIAL PSYCHOLOGY IN THE SCHOOLS.**  
Review and analysis of the social psychological literature as it pertains to school and educational issues. Emphasis on social interaction in the classroom.  
Prerequisite, Psych 280 or equivalent, or permission of instructor.

**795. PSYCHOLOGY OF CLASSROOM LEARNING.**  
Review and analysis of the findings of psychology that pertain to instruction. Emphasis on the practical control of learning activities especially as seen in the classroom.  
Prerequisite, Psych 280 or equivalent, or permission of instructor.

**821. PERSONALITY.**  
The basic concepts and principles in the study of personality, including theoretical research issues. Emphasis on recent research in specific areas of personality.

**830. CLINICAL I.**  
Roles and functions of clinicians in various settings, current professional issues. Introduction to assessment as related to alternative view of abnormality and personality. Lecture and laboratory. *Credit, 6.*

**831. CLINICAL II.**  
Psychological evaluation with emphasis on interviewing and testing procedures. Involves both seminar and practicum; most appropriate for students in clinical psychology. Lecture and laboratory.  
Prerequisite, Psych 830. *Credit, 6.*

**833. CLINICAL III.**  
Problem-formulating and problem-solving within various clinical situations and clinical models. Integration and communication of findings from psychological assessment. Lecture and laboratory.  
Prerequisite, permission of instructor. *Credit, 6.*

**834. OBJECTIVE PERSONALITY INTEREST, AND APTITUDE ASSESSMENT.**  
Review and analysis of the psychological literature pertaining to structured personality, interest, and aptitude tests.  
Two class hours, one 2-hour laboratory period.

**835. CLINICAL IV.**  
The theory of the individual techniques of psychotherapy and demonstration of these techniques through video and other tapes, and role-playing.  
Three lecture hours, two laboratory hours.  
Prerequisite, Psych 833. *Credit, 4.*

**836. CLINICAL V.**  
Theoretical and research approaches to group and family

## UNIVERSITY OF MASSACHUSETTS

therapies. Laboratory provides practicum experiences in these techniques.  
Three lecture hours and three hours of laboratory.  
Prerequisite, Psych 835. *Credit, 4.*

**840. SEMINAR IN CLINICAL PRACTICE.**  
A topic concerned with the practice of clinical psychology.

**841. SEMINAR IN PERSONALITY.**  
A topic concerned with the area of personality.

**842. SEMINAR IN CLINICAL RESEARCH.**  
A topic concerned with research in clinical psychology.

**843. SEMINAR IN CLINICAL SPECIALTY.**  
A topic concerned with a specialty area within clinical psychology.

**852. SEMINAR IN COGNITIVE PROCESSES.**  
Advanced consideration of selected topics in human cognition and performance. Topics chosen from attention, judgment, choice, memory, sequential behavior, concept formation, and psycholinguistics.  
May be repeated for credit. *Credit, 1-9.*

**853. SEMINAR IN QUANTITATIVE THEORIES OF BEHAVIOR.**  
Examination and evaluation of quantitative theories of selected behavioral phenomena. Topics selected from choice, detection and recognition, judgment, memory, learning, and concept-formation.  
Prerequisite, Psych 746 or permission of instructor. May be repeated for credit. *Credit, 1-9.*

**860. BASIC CONCEPTS IN COUNSELING PSYCHOLOGY.**  
Introductory review and analysis of the psychological literature related to the practice, research, and training functions in counseling psychology.  
Prerequisite, 18 credits of psychology or permission of instructor.

**865. COUNSELING THEORIES AND TECHNIQUES.**  
Detailed consideration of current theories and techniques employed in counseling psychology.  
Prerequisites, Psych 270, 311, or permission of instructor.

**866. THE PSYCHOLOGY OF VOCATIONAL DEVELOPMENT.**  
Review and analysis of the psychological literature concerning the psychological basis for vocational choice.  
Prerequisite, Psych 834 or equivalent.

**868. GROUP COUNSELING AND PSYCHOTHERAPY.**  
Review and analysis of the psychological literature in conjunction with experience in multiple counseling and therapeutic processes.  
Two class hours, one 2-hour laboratory period.  
Prerequisite, Psych 835 or 865 or equivalent.

**871 (I), 872 (II). PRACTICUM**  
Practice in the application of psychological techniques to clinical settings and counseling; and practice in teaching in any area of psychology. Either semester may be elected independently.  
Taught with the staffs of cooperating institutions and agencies. *Credit, 3-12.*

**873 (I), 874 (II). TEACHING PRACTICUM IN PSYCHOLOGY.**  
Required of all doctoral candidates. Experience in procedures, leading discussion groups and teaching labs. Close supervision by faculty members. Students meet once a week to discuss problems in teaching. *Credit, 3-12.*

**881. TOPICAL SEMINAR IN LEARNING PSYCHOLOGY**  
A critical analysis of advanced topics in the field of learning; emphasis on the current periodical literature.

## PSYCHOLOGY

Prerequisite, one graduate course in learning or permission of instructor.  
*Credit, 3 each semester; maximum credit, 12.*

**882. TOPICAL SEMINAR IN PSYCHOLOGICAL PSYCHOLOGY.**  
A critical analysis of advanced topics in the field of psychological psychology; emphasis on the current periodical literature.  
Prerequisite, one graduate course in psychological psychology or permission of instructor.  
*Credit, 3 each semester; maximum credit, 12.*

**883. TOPICAL SEMINAR IN SENSORY PSYCHOLOGY**  
A critical analysis of advanced topics in the field of sensory psychology; emphasis on the current periodical literature.  
Prerequisite, one graduate course in physiological psychology or permission of instructor.  
*Credit, 3 each semester; maximum credit, 12.*

**891 (I), 892 (II). SEMINAR.**  
Selected topics of current significance in psychology. Research studies analyzed and theoretical advanced explored. Either semester may be elected independently. Both may be taken only with a change in topic.  
Prerequisite, permission of instructor.  
*Credit, 3 each semester; maximum credit, 9.*

**895 (I), 896 (II). RESEARCH METHODOLOGY.**  
Study and evaluation of research methods and of problems in the major fields of psychology. *Credit, 3 each semester.*

**800. MASTER'S THESIS.** *Credit, 8-10.*

**900. DOCTORAL DISSERTATION.** *Credit, 10.*

### COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS (For either major or minor credit)

**542. ADVANCED EXPERIMENTAL PSYCHOLOGY**  
A presentation and critical evaluation of laboratory techniques and experimental methods used in psychology.  
Prerequisite, one undergraduate course in experimental psychology or permission of instructor.  
*Credit, 3 each semester; maximum credit, 9*  
Offered spring semester  
Prerequisites, Psych 101, 141.  
May be repeated for maximum of 6 credits.

**545. STATISTICAL INFERENCE IN PSYCHOLOGY**  
Application of statistical procedures to analysis of psychological data and to problems of measurement in psychology and related fields.  
Two class hours, one 2-hour laboratory period.  
Offered fall semester.  
Prerequisites, Psych 101; Psych 145 or Stat 121

**550. PHYSIOLOGICAL PSYCHOLOGY.**  
Neural bases of behavior, current issues in physiological psychology; psychobiological investigations of learning, sensory processes, motivation, and instinctive behavior  
Prerequisites, Psych 101 and Zool 101 or permission of instructor.

**551. LABORATORY IN PHYSIOLOGICAL PSYCHOLOGY.**  
Development of skills in laboratory techniques used in physiological psychology, including animal neurosurgery, electrophysiological stimulation and recording, and assessment of drug-behavior interactions.  
Two 2-hour laboratory periods.  
Prerequisites, Psych 141 and Psych 250. *Credit, 2.*

**552. DRUGS AND BEHAVIOR.**  
The psychobiological foundations of drug-behavior interactions. Topics: Ultrastructure and chemistry of the nervous system, basic pharmacology, and mechanisms of action of drugs that affect mood and behavior.  
Prerequisite, Psych 250 or permission of instructor.

## PSYCHOLOGY

### 563. PSYCHOLOGY OF ADOLESCENCE.

The development and emotional, social, and intellectual adjustment of the individual during the adolescent years.  
Prerequisite, Psych 101.

### 572. LABORATORY IN PSYCHOPHYSIOLOGY.

The recording and analysis of physiological data from intact human subjects; emphasis on variables mediated by the autonomic nervous system (e.g., electrodermal and cardiovascular activity) One class hour, one 2-hour laboratory period, independent projects.  
Prerequisites: Some knowledge of basic physiology and electronics is strongly recommended.

### 588. INDUSTRIAL PSYCHOLOGY.

Psychological principles underlying personnel selection and training, communication, and decision-making in industry. Offered fall semester.  
Prerequisite, Psych 101.

### 589. ORGANIZATIONAL PSYCHOLOGY.

Introduction to the psychology of organizational participation. Personal adaptation and organizational processes in a wide variety of organizational settings.  
Offered spring semester.

### 606 (1). COMPARATIVE PSYCHOLOGY.

Emphasis on experimental investigations in a wide range of species. Topics include sensory and physiological systems, learning, and early experience.  
Offered fall semester.  
Prerequisite, permission of instructor.

### 611. PSYCHOLOGICAL TESTS.

Survey of tests of intelligence, aptitude, interest, personality, and adjustment. Test rationale, construction, characteristics, uses, and evaluation emphasized.  
Two class hours, one 2-hour laboratory period.  
Offered spring semester.  
Prerequisite, Psych 101.

### 645. INTRODUCTION TO QUANTITATIVE THEORIES OF BEHAVIOR.

Introduction to quantification of theories of learning, retention, choice, perception, and the interaction of individuals in group situations.  
Offered spring semester.  
Prerequisite, Psych 145, 305, or permission of instructor.

## COURSES NOT FOR MAJOR CREDIT

(No graduate credit for students majoring in psychology)

### 510. SENSATION AND PERCEPTION.

Methods, data, and theories of the functioning of various sensory systems. Topics include a survey of basic sensory processes in the cutaneous sense, audition, vision, gustation, and olfaction, and higher perceptual process in selected senses.  
Prerequisite, Psych 101.

### 511. LABORATORY IN SENSATION AND PERCEPTION.

Selected laboratory exercises in audition and vision and a semester project chosen by the student, with the aid of the instructor, in some area of sensation or perception.  
Two 2-hour laboratory periods.  
Prerequisites, Psych 141 and 210.

Credit, 2.

### 520. LEARNING AND THINKING.

A general survey of animal and human learning and performance. Topics include factors affecting acquisition, generalization, discrimination, extinction, and transfer in animals and humans; memory; and higher cognitive processes in humans.  
Prerequisite, Psych 101.

### 521. LABORATORY IN HUMAN LEARNING.

Introduction to methods used in investigating rote verbal learning, concept formation, short-term retention, verbal

conditioning, artificial language, learning, motor-skills, and other phenomena in human learning and retention.

Two 2-hour laboratory periods.

Prerequisites, Psych 141 and 220.

Credit, 2.

### 522. LABORATORY IN ANIMAL LEARNING.

Introduction to methods used in investigating classical conditioning and operant behavior primarily using laboratory animals as subjects. Topics include: acquisition, generalization, discrimination, extinction, and transfer phenomena.  
Two 2-hour laboratory periods.

Prerequisites, Psych 141 and 220.

Credit, 2.

### 530. EMOTION AND MOTIVATION.

Introduction to theories and research on the nature and determinants of motivation. Topics include instinct, behavior energization concepts, biological and acquired bases of emotions and motives, frustration, conflict, and stress.  
Prerequisite, Psych 101.

### 531. LABORATORY IN MOTIVATION.

Methods of investigating motivation, including both laboratory and field studies using human and animal subjects. Includes individual and small group projects.

Two 2-hour laboratory periods.

Prerequisites, Psych 141, 230.

Credit, 2.

### 560. CHILD BEHAVIOR AND DEVELOPMENT.

Psychological development of the child, including theories, methods, and data of child-behavior studies.  
Prerequisite, Psych 101.

### 561. LABORATORY IN CHILD BEHAVIOR AND DEVELOPMENT.

Selected experiments investigating perceptual, conceptual, learning, and social processes in children.

Two 2-hour laboratory periods.

Prerequisites, Psych 141 and 260.

Credit, 2.

### 562. CHILD PSYCHOLOGY.

Psychological development of the child, including language emotions, intelligence, social behavior, motivation and personality.

Not open to psychology majors.

Prerequisite, Psych 101.

### 565. INTRODUCTION TO THE STUDY OF EXCEPTIONAL CHILDREN.

The etiology, diagnosis, characteristics, education, and prognosis of deviations in mental, physical, and socio-emotional development.

Prerequisites, Psych 101, 262, or permission of instructor.

### 570. PERSONALITY.

Introduction to the scientific study of personality. Personality development, structure, and dynamics from major theoretical orientations.

Prerequisite, Psych 101.

### 571. EXPERIMENTAL STUDY OF PERSONALITY.

Review and evaluation of research approaches to the study of personality. Data, theories, and methods of investigation. Selected projects.

Two 2-hour laboratory periods.

Prerequisites, Psych 141 and 270.

Credit, 2.

### 580. SOCIAL PSYCHOLOGY.

Introduction to the principles and study of social behavior. The psychological factors involved in attitude formation and change, communication and persuasion, and small group processes.

Prerequisite, Psych 101.

### 581. LABORATORY IN ATTITUDES AND OPINIONS.

Methods and research concerning attitude formation and change, attitude and opinion measurement, communication and persuasion.

Two 2-hour laboratory periods.

Prerequisites, Psych 141 and 280, or permission of instructor.

Credit, 2.

## UNIVERSITY OF MASSACHUSETTS

### 582. LABORATORY IN GROUP BEHAVIOR.

Methods and research concerning the behavior of individuals in groups. Interpersonal attraction, social interaction and influence, power and conflict, communication, group structure, leadership, and productivity.

Two 2-hour laboratory periods.

Prerequisites, Psych 141 and 280, or permission of instructor.  
*Credit, 2.*

### 601. EDUCATIONAL PSYCHOLOGY.

Psychological facts and principles of development, learning, and measurement as applied to educational situations.

Two class hours, one 2-hour laboratory period.

Prerequisite, Psych 101.

### 605. HISTORICAL AND CONTEMPORARY SYSTEMS.

General structure of psychological theory; analysis and comparison of historical systems in the tradition of British empiricism-associationism and Continental rationalism, and of derivative near-contemporary and contemporary mentalistic, functionalistic, and behavioristic systems.

Prerequisite, Psych 101.

### 625. ABNORMAL PSYCHOLOGY.

Etiology, symptoms, and therapy of behavior abnormalities including neuroses, psychoses, epilepsies, speech disorders, and mental deficiency.

Prerequisite, Psych 101.

### 631. CLINICAL PSYCHOLOGY.

Introduction of the theoretical approach and methods used in understanding and treating the psychologically-disturbed individual.

Two class hours, one 2-hour laboratory period.

Prerequisite, Psych 325 or permission of instructor.

### 665. THEORIES AND PRACTICE IN COUNSELING.

Theories, techniques, and tests necessary in counseling and guidance. Practice in organization and evaluating relevant data in the analysis of illustrative cases.

Two class hours, one 2-hour laboratory period.

Offered spring semester.

Prerequisites, Psych 270 or 311 or permission of instructor.

### 675. MENTAL RETARDATION.

Introduction to mental retardation. Topics include psychological, sociological, educational, bio-medical, and legal considerations.

Prerequisites, Psych 101 and permission of instructor.

## Public Health

## GRADUATE FACULTY

WILLIAM A. DARITY, *Professor, Dean of the School of Health Sciences, Director of the the Division of Public Health, and Graduate Program Director*, B.S., Shaw University, 1948; M.S.P.H., North Carolina Central, 1949; Ph.D., North Carolina at Chapel Hill, 1964.

TYZZ-LANG CHEN, *Assistant Professor*, B.Ed., National Taiwan University, 1962; M.A., University of Maryland, 1966; Ph.D., Ohio State, 1970; M.P.H., California at Berkeley, 1971.

SALVATORE DINARDI, *Associate Professor*, B.A., Hofstra 1965; Ph.D., Massachusetts, 1971.

ROBERT W. GAGE, *Professor and Vice Chancellor for Student Affairs*, B.S., Massachusetts, 1939; M.D., Harvard, 1942.

DAVID W. HOSMER, *Assistant Professor*, B.A., Vermont, 1966; M.A., 1968; Ph.D., Washington, 1971.

## PUBLIC HEALTH

STANLEY LEMESHOW, *Assistant Professor*, B.B.A., City University of New York, 1969; M.P.H., North Carolina at Chapel Hill, 1970; Ph.D., California at Los Angeles, 1976.

WARREN LITSKY, *Commonwealth Professor of Environmental Sciences and Public Health*, B.A., Clark 1945; M.S., Massachusetts, 1948; Ph.D., Michigan State, 1951.

GARY S. MOORE, *Assistant Professor*, B.S., Massachusetts, 1966; M.S., 1969; Dr.P.H., North Carolina at Chapel Hill, 1971.

A. TAHER MOUSTAFA, *Associate Professor*, M.D., Cairo University, 1954; M.P.H., University of Alexandria, 1959; Dr.P.H., California at Berkeley, 1962.

JESSE W. ORTIZ, *Associate Professor*, B.Ph., Northwestern, 1961; M.S., Loyola, 1965; M.P.H., Michigan, 1968; Dr.P.H., 1970.

HOWARD A. PETERS, *Associate Professor*, B.A., University of Omaha, 1951; M.P.H., North Carolina at Chapel Hill, 1958; Ph.D., 1965.

JEROME S. PETERSON, *Adjunct Professor*, B.S., Syracuse, 1925; M.D., College of Physicians and Surgeons, Columbia, 1931; M.P.H., Harvard School of Public Health, 1939.

RICHARD B. REYNOLDS, *Associate Professor*, B.A., Colorado, 1958; M.P.H., California at Berkeley, 1967; Dr.P.H., 1973.

PAULA STAMPS, *Assistant Professor*, B.S., Missouri, 1968; M.S., Oklahoma, 1970, Ph.D., 1972.

BRUCE C. STUART, *Associate Professor*, B.A., Whitman, 1965; M.A., Washington State, 1968; Ph.D., 1970.

IRA D. TRAIL, *Professor of Nursing and Public Health*, R.N., Bellevue Hospital, 1947, B.S. Hunter, 1950; M.A., Columbia, 1960, Dr. P.H., California at Los Angeles, 1971.

ROBERT W. TUTHILL, *Associate Professor*, B.A., Massachusetts, 1956; M.A., Pennsylvania, 1961; Ph.D., North Carolina at Chapel Hill, 1970.

## COURSE OF STUDY

Students interested in obtaining graduate preparation in the various areas of public health will be accepted in the Division of Public Health if their previous academic background indicates an aptitude for graduate study. Applicants must satisfy the entrance requirements of the Graduate School. Usually applicants will be best prepared by having completed an undergraduate major in either the physical sciences, biological sciences, public health, or the social and behavioral sciences. For all students a minimum background is essential in both the social and behavioral sciences and the biological sciences. In special circumstances, students will be accepted with other undergraduate study majors.

The course of study is organized to prepare students for concentration in:

1. Biostatistics and/or health statistics.
2. Community health education.
3. Environmental health.
4. Epidemiology.
5. Health administration.
6. Health laboratory science.

The course of study leads to the Master of Science degree. Students will also be prepared for advanced graduate studies. The Division encourages an interdisciplinary academic and research approach and will arrange a cooperative program with other departments when this is in the interest of the student. Students who have completed undergraduate study in public health or have followed courses similar or parallel to the Public Health 500-600 series will not be permitted to take such courses for graduate credit.

Also, students who have deficiencies in certain specific, essential, undergraduate courses will be required to take such courses without graduate credit.

Each applicant's situation is evaluated and handled on an individual basis.

Examples of typical programs of study in each of the areas of concentration are available.

Interested persons may secure this information by writing to the Division.

## RESEARCH

All graduate students in the Division of Public Health must carry out some form of investigation or research as a requirement for the Master of Science degree. This will be in the form of a thesis conducted under the direction of a departmental faculty member who is also a member of the Graduate Faculty. Before receiving the Master of Science degree, all students must pass an oral comprehensive examination. This examination is given by at least three members of the Graduate Faculty. The comprehensive examination covers the research project as well as the subject matter the student will have covered leading up to the Master of Science degree.

## COURSES REQUIRED OF ALL STUDENTS FOR MASTER OF SCIENCE DEGREE

The following courses, with some minor adjustments, are required of all Public Health majors:

## PUBLIC HEALTH

|                                                                                                                                                                                                                                                                                 | Credits    |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| PH 620. Introduction to Health Administration.                                                                                                                                                                                                                                  | 4          |
| PH 660. Principles of Environmental Health.                                                                                                                                                                                                                                     | 3          |
| PH 630. Principles of Epidemiology.                                                                                                                                                                                                                                             | 3          |
| PH 640. Public Health Statistics.                                                                                                                                                                                                                                               | 3          |

## UNIVERSITY OF MASSACHUSETTS

in cooperation with the faculty adviser. The total program and the topic for investigation or research must have the approval of the Division's Graduate Coordination Committee. Two academic years is the normal period required for satisfying requirements for the Master of Science degree in the Division of Public Health.

### MASTER OF ARTS IN TEACHING (MAT) PROGRAM IN PUBLIC HEALTH

The Master of Arts in Teaching degree (MAT) is offered in cooperation with the Graduate School to candidates who are interested in health education teaching at the elementary and secondary school level and the community college level.

The program for the secondary level requires 40 graduate credits, distributed as follows: Education courses, nine credits, Education practicum, nine credits. At least 12 credits in Public Health, to include at least two courses and two seminars. The remaining credits (at least 10) will be taken in the Division of Public Health or must be courses approved by the Division of Public Health.

For the community-college level option, 45 graduate credits are required, distributed as follows: 24 credits in the field of Public Health, 12 credits in professional Education courses, and nine credits for teaching practicum.

*Prerequisites for admission:* For all candidates, a bachelor's degree in an appropriate discipline or equivalency.

For Medical Technology candidates, the MT (ASCP) certification and at least one year's experience on a professional level, or its equivalency. Applicants interested in the MAT in public health should be sure to indicate this on their application.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### COURSES OPEN TO GRADUATE STUDENTS ONLY

##### 700. SPECIAL PROBLEMS IN PUBLIC HEALTH.

Special investigational or research problems for advanced students. The scope of the work can be varied to meet specified conditions. *Credit, 3-6.*

##### 702. ADVANCED METHODS IN HEALTH EDUCATION.

Health education efforts that have influenced community health. Individual study, programming and research methods.

*Prerequisite, permission of instructor.* Mr. Chen.

##### 708. RESEARCH METHODS IN COMMUNITY HEALTH EDUCATION.

Logic and techniques of research methods as applied to health education. Formulations, research problems, developing research designs, collecting, analyzing and reporting data as they relate to the solution of community health problems.

*Prerequisite, permission of instructor.* Mr. Chen, Ms. Stamps.

##### 720. ORGANIZATION AND MANAGEMENT OF MEDICAL CARE.

Organizational patterns for delivery of medical care. Cost, methods of payment, health personnel and facilities, planning, evaluation of medical care-health, amendments to the Social Security Act, national and international trends.

*Prerequisite, permission of instructor.* Mr. Moustafa.

##### 730. EPIDEMIOLOGICAL INVESTIGATION

Examination of vital statistics and their use in epidemiologi-

cal investigations. Students formulate and carry out an epidemiological analysis using secondary data.

*Prerequisite, PH 630.*

##### 734. HEALTH PROGRAM EVALUATION.

Approaches to evaluating categorical health programs. Class undertakes a systematic analysis of previous evaluation efforts in health areas of individual interest.

*Prerequisite, permission of instructor.* Mr. Tuthill

##### 735. SOCIAL EPIDEMIOLOGY

Life styles of populations and the risks to which individuals in these populations are vulnerable. Models linking social stress, physiological responses, psychosocial mediators, and social support systems which promote or reduce susceptibility to disease.

*Prerequisite, permission of instructor.* Mr. Tuthill.

##### 737. ADVANCED EPIDEMIOLOGY.

The application of epidemiological techniques to the study of a specific health problem.

*Prerequisite, PH 730.*

##### 740. EVALUATION OF PUBLIC HEALTH RESEARCH

Principles of statistics applied to the evaluation of public health research.

Mr. Gross

##### 741. SURVIVAL THEORY IN PUBLIC HEALTH AND SCIENCE

Application of statistical distribution theory to assess and predict survival in human beings and animals who are, for example, exposed to a radiation hazard, as well as electrical and mechanical equipments.

*Prerequisites, PH 640 and Math 616 or permission of instructor.* Mr. Gross

##### 742. ADVANCED METHODS IN BIOMETRIC RESEARCH

Applications of advanced statistical procedures such as Hotellings'  $T^2$  statistic, nonlinear regression, and stepwise linear regression to problems in biology, medicine and public health.

*Prerequisites, PH 640, Math 616, and FORTRAN programming ability, or permission of instructor.* Mr. Gross

##### 760. ENVIRONMENTAL HEALTH PLANNING.

Principles of environmental health as translated into community programs planned to meet desirable objectives. Different surveys and rating systems as measuring devices for the effectiveness of programs.

*Prerequisite, PH 660 or equivalent.* Mr. Peters

##### 761. TOPICS IN RADIATION PROTECTION.

Details of man's radiation environment, including the impact of nuclear power generation radioisotope releases, medical radiation, and applications of radiation processing of materials and foods.

*Prerequisite, permission of instructor of PH 663.*

##### 773. AIR SAMPLING AND ANALYSIS

Applications of fluid mechanics and gas laws to measurement and collection of atmospheric pollutants which are injurious to health. These pollutants are analyzed by various chemical techniques.

*Prerequisite, PH 662 or permission of instructor.* Mr. DiNardi.

##### 780. PUBLIC HEALTH LAW

Constitutional and social bases for public health law. The development of statutes and regulations and their effects on social problems, including review of court decisions and the preparation of administrative regulations.

Mr. Hartzer

##### 782. SUPERVISED FIELD TRAINING (INTERNSHIP).

For majors. Opportunity for supervised field observation and professional experience in selected public health agencies. Assignment in either associate function or internship.

Departmental staff; consultants in public health agencies.

*Credit, 3-12.*

## PUBLIC HEALTH

### 795, 796. SEMINAR.

Lectures and reports on current literature and special topics.  
*Credit, 1 each semester; maximum credit, 4.*

Mr. Berger.

### 800. MASTER'S THESIS.

Independent research leading to a thesis on a public health subject. Results should be suitable for publication.

*Credit, 3-10.*

## COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS

### 560. THE ENVIRONMENT AND PUBLIC HEALTH.

The relationship of public health to various environmental problems. Consideration of the technological, social, economic and political resources needed to effect an improvement. Not open to Public Health graduate students.

Mr. DiNardi.

### 563. INSTITUTIONAL HYGIENE AND SANITATION.

Application of bacteriology to the prevention of food poisoning events. Evaluation of sanitary measures designed to prevent disease transmission via food and institutional environments. Role of governmental agencies.

Mr. Wisniewski.

### 564. MICROSCOPY OF WATER.

Microscopic forms of life, exclusive of bacteria. Counting and control of plankton in potable waters. Elements of limnology.

3 class hours, one 2-hour laboratory period.

Mr. Wisniewski.

### 601. PRINCIPLES OF COMMUNITY HEALTH EDUCATION.

Exploration of methods and approaches to community health, community dimensions, and community potential. Types and use of various methods leading to community action.

3 class hours, one 2-hour laboratory period.

Prerequisite, permission of instructor.

*Credit, 4.* Mr. Chen, Mr. Darity, Mr. Reynolds.

### 602. COMMUNITY DEVELOPMENT IN HEALTH EDUCATION.

Latest approaches in community development and community organization procedures. Exploratory readings, field assignments; emphasis on leadership development and coordinated community action.

Prerequisite, permission of instructor.

Mr. Reynolds.

### 604. SCHOOL HEALTH.

The principal concepts, methods and dynamics of the organization of a school health program at the elementary and secondary levels. Stress on the planning and teaching in problem areas through the efforts of all leadership persons in the school and in the community.

Prerequisite, permission of instructor.

Mr. Butts, Mr. Chen.

### 605. CURRENT ISSUES IN HEALTH EDUCATION.

Issues such as human sexuality, drug use and abuse, family planning, poverty and health and socialized health care.

Mr. Darity.

### 611. HUMAN SEXUALITY AND SEX EDUCATION.

Human sexuality in relation to modern life. Emphasis on sexuality as it may appear in the infant, the child, the adolescent, and the young married adult; examination and clarification of one of the crucial dynamics of the present era.

Prerequisite, permission of instructor.

Ms. Butts.

### 612. PUBLIC HEALTH AND FAMILY PLANNING.

Public health problems associated with family health and population limitation. Historical factors, limitation methods, and barriers and facilitators related to family health size.

Prerequisite, permission of instructor.

Mr. Darity.

### 620. INTRODUCTION TO HEALTH ADMINISTRATION.

Introduction to the philosophy, nature, and scope of modern health services. Discussion of major health issues and pro-

## GRADUATE SCHOOL

grams. Organization of health services by local, national and international health agencies.

Prerequisites, Soc 101 and Zool 101, or permission of instructor.

*Credit, 4.* Mr. Moustafa, Ms. Stamps.

### 621. ORGANIZATION AND ADMINISTRATION OF HEALTH PROGRAMS.

The organization of health programs to meet the needs of the people. Emerging health problems and approaches to solving these problems. Emphasis on comprehensive planning and evaluation procedures.

Prerequisite, PH 620 or permission of instructor.

*Credit, 4.* Mr. Moustafa, Ms. Stamps.

### 630. PRINCIPLES OF EPIDEMIOLOGY.

An epidemiological perspective of health. Approaches for (1) describing patterns of disease in groups of people and (2) elucidating processes creating differing health levels in human groups.

Ms. Goggin, Mr. Tuthill.

### 632. CHRONIC DISEASE EPIDEMIOLOGY.

An analysis of the impact of selected chronic diseases on modern society. Current theories of cause and prevention related to present and future needs in health care and research efforts.

Prerequisite, PH 630 or permission of instructor.

Ms. Goggin.

### 633. COMMUNICABLE DISEASE EPIDEMIOLOGY.

A review of selected infectious diseases; emphasis on current theories of distribution, transmission and control.

Ms. Goggin.

### 640. PUBLIC HEALTH STATISTICS.

Principles of statistics applied to the evaluation of public health practices.

Three class hours, one 1-hour laboratory period.

Prerequisite, permission of instructor.

Mr. Gross, Mr. Hosmer.

### 650. BASIC PUBLIC HEALTH LABORATORY PROCEDURES.

Standard methods used in present day applied bacteriology; soils, dairy products, water and shellfish, and air.

Two class hours, two 2-hour laboratory periods.

Prerequisite, Microbiol 140 or permission of instructor.

Mr. Litsky.

### 651. ADVANCED PUBLIC HEALTH LABORATORY PROCEDURES.

Field collection of samples, stream pollution study, food poisoning and infection, standard methods of food analysis.

One 4-hour and one 2-hour laboratory period.

Prerequisite, PH 650 or permission of instructor.

Mr. Ortiz.

### 652. CLINICAL BACTERIOLOGY.

Procedures in clinical laboratory work.

One class hour, two 2-hour laboratory periods.

Prerequisites, Microbiol 250 or permission of instructor.

Mr. Ortiz.

### 660. PRINCIPLES OF ENVIRONMENTAL HEALTH.

The application of scientific knowledge to the control of man's environment as applied to human health. The physical, chemical and biological aspects of the air, water, land, food, housing, and occupation environments.

Public health or science majors with junior standing, or permission of instructor.

Mr. DiNardi, Mr. Peters.

### 661. ENVIRONMENTAL HEALTH PRACTICES.

The concepts of control methods used by the environmental health and engineering practitioner. Topics include; water, wastewater, solid wastes, food sanitation, vector control, housing, and accident control measures.

Limited to environmental health and engineering majors.

Other science majors by permission of instructor.

Mr. Peters.

### 662. PRINCIPLES OF AIR POLLUTION.

Air pollution as a major public health problem. Topics

## UNIVERSITY OF MASSACHUSETTS

include: air pollutants, and their sources, health and economic effects, meteorology, sampling and analysis, air quality criteria and standards, control technology, control regulations and programs.  
Limited to public health and engineering majors. Other science majors by permission of instructor.

Mr. Peters.

**663. PRINCIPLES OF RADIATION PROTECTION.**  
Effect and control of radiation in the mammalian system. Includes sources, measurements, radiosensitivity, radiation chemistry, cellular effects and acute and delayed effects in occupational, medical, and environmental exposures.  
Prerequisite, permission of instructor.

Staff.

**670. PRINCIPLES OF OCCUPATIONAL HEALTH.**  
The relation of the occupational environment to the health, efficiency, and well-being of workers. Emphasis on industrial hygiene, including toxic materials, physical stresses and control methods.  
Limited to public health and engineering majors. Other science majors by permission of instructor.

Mr. Peters.

## PARTIAL LIST OF COURSES IN OTHER SCHOOLS AND DEPARTMENTS FOR WHICH MAJOR CREDIT WILL BE GIVEN IN THE DIVISION OF PUBLIC HEALTH

Biochem. 523, 524. General Biochemistry.

Bus. Ad. 742. Operations Management.

Bus. Ad. 751. Organizational Behavior

Bus. Ad. 752. Business Policy.

Chem. Eng. 660. Air Pollution Control Processes.

Civ. Eng. 571. Introduction to Environmental Pollution Control.

Civ. Eng. 672. Environmental Engineering Analysis I

Civ. Eng. 674. Radiological Health Engineering.

Civ. Eng. 675. Surface Water Quality Control.

Econ. 562. American Economic History.

Econ. 566. Economic Development.

Econ. 571. Comparative Economic Systems.

Educ. 516. Evaluation Models.

Educ. 518. Research Methods in Education.

Educ. 535. Education Media, Technology, and Systems.

Educ. 550. Conceptions of Liberal Education.

Educ. 551. Foundations of Education.

Educ. 554. Educational Anthropology.

Educ. 655. Introduction to Statistics and Computer Analysis.

Educ. 713. Human Appraisals and Evaluation.

Educ. 744. History of Higher Education in America.

Educ. 881. Comparative Education.

Educ. 884. Educational Sociology.

Microbiol. 580. Pathogenic Bacteriology.

Microbiol. 610. Immunology.

## Slavic Languages and Literatures

### GRADUATE FACULTY

LASZLO M. TIKOS, *Professor and Head of the Department of Slavic Languages and Literatures*, M.A., University of Debrecen, Hungary, 1954; Ph.D., University of Tübingen, Germany, 1962.

ROBERT A. ROTHSTEIN, *Associate Professor and Graduate Program Director*, B.S., Massachusetts Institute of Technology, 1960; M.A., Harvard, 1961; Ph.D., 1967.

GEORGE IVASK, *Professor*, Ph.D., Harvard, 1955.

J. JOSEPH LAKE, *Associate Professor*, B.A., Georgetown, 1964; M.A., Yale, 1968; Ph.D., 1969.

MAURICE I. LEVIN, *Professor*, B.A., Boston, 1953; M.A., Harvard, 1958; Ph.D., 1964.

### MASTER OF ARTS

*Prerequisites for admission:* A bachelor's degree with a major in Russian language and literature or area stud-

## SLAVIC LANGUAGES AND LITERATURES

## GRADUATE SCHOOL

ies, plus an indication of ability to do successful graduate work. Deficiencies in literary background and/or insufficient command of spoken or written Russian must be remedied before the candidate can be admitted to certain courses required for the degree.

*Language:* For this degree the student must have, or must acquire, a reading knowledge of at least one major language other than Russian or English, preferably French or German. In addition, the student is required to demonstrate proficiency in speaking, understanding, reading and writing contemporary standard Russian.

*Program of study:* A total of 30 credits, at least 24 of which must be earned in this Department. The student is required to pass a comprehensive examination in order to demonstrate 1) proficiency in the language itself; 2) familiarity with the whole body of Russian literature; 3) thorough knowledge of the structure and history of the Russian language; 4) knowledge of Russian and Soviet history and culture.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### COURSES OPEN TO GRADUATE STUDENTS ONLY (For either major or minor credit)

##### SLAVIC

700. PROBLEMS COURSE.  
Directed study in some special area of literature or linguistics. *Credit, 3-12.*

710. OLD CHURCH SLAVIC.  
Introduction to the phonology, morphology, and syntax of Old Church Slavonic; selected readings and textual analysis. Required of all first-year graduate students. *Mr. Lake.*

770. PROSEMINAR I. BIBLIOGRAPHY AND METHODOLOGY.  
Introduction to tools and methods of research. Designed to acquaint with major reference works, scholarly publication, and basic approaches to literary criticism. Required of all graduate degree candidates.

771, 772. PROSEMINAR II AND III. INTERPRETATION OF TEXTS.  
Problems in philology or in literary interpretation. Reports and papers on selected texts. *Prerequisite, Slavic 770. Credit, 3 each semester.*

780. SEMINAR.  
Close study of a single topic, author or work. One main purpose is to suggest projects for independent research to advanced students. Subject matter varies from year to year. *Credit, 3-9.*

##### RUSSIAN

711. READINGS IN RUSSIAN LITERATURE OF THE EARLY PERIOD.  
Close reading and analysis of the major works of Russian literature before Pushkin. Emphasis on the place of each in Russian literature. Conducted in Russian with readings in the original. *Mr. Ivask.*

712. READINGS IN RUSSIAN LITERATURE SINCE PUSHKIN.  
Close reading and analysis of the major works of Russian literature since Pushkin. Emphasis on the place of each in Russian literature. Conducted in Russian with readings in the original. *Mr. Ivask.*

720. THE HISTORY OF THE RUSSIAN LANGUAGE.  
Historical development of the Russian language, its relation

to other languages, changes in sound, form, and vocabulary from the earliest period to the present. *Prerequisite, proficiency in Russian. Mr. Lake.*

#### COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS (For either major or minor credit)

##### SLAVIC

559. THE SLAVIC PEOPLES, THEIR LANGUAGES AND CIVILIZATIONS.  
A survey of the historical, social, intellectual, and cultural evolution of the Slavic peoples from the earliest times to the present. Emphasis on the non-Russian Slavs. Conducted in English. *Mr. Rothstein.*

##### RUSSIAN

553. DOSTOEVSKY.  
Historical and literary background. Close text analysis. Student reports. Readings of selected works in the original required of Russian majors. *Mr. Tikos.*

554. TOLSTOY.  
Historical and literary background. Close text analysis. Student reports. Readings of selected works in the original required of Russian majors. *Mr. Tikos.*

556. RUSSIAN DRAMA.  
Drama in the originals from the beginning to the establishment of a national theatre culminating in plays of Ostrovsky, Chekhov, Gorky. *Prerequisite, proficiency in Russian. Mr. Tikos.*

557. SOVIET LITERATURE.  
The beginnings and development of Soviet prose, drama, and criticism from Gorky to Sholokhov and Pasternak. *Mr. Tikos.*

558. RUSSIAN POETRY.  
Russian poetry in the originals, from the early 19th century to the present. Emphasis on the major poetic trends. *Prerequisite, proficiency in Russian. Mr. Ivask.*

566. RUSSIAN PHONETICS.  
Detailed analysis of the Russian sound system. Articulation and intonation, largely in comparison with the English sound system. Recommended for those preparing to teach Russian. *Prerequisite, proficiency in Russian. Mr. Levin.*

610. THE TEACHING OF RUSSIAN.  
A systematic analysis of the major linguistic problems facing the teacher of Russian and the methods used in solving them. *Prerequisite, Russian 665 or permission of instructor. Mr. Levin.*

619. PUSHKIN.  
The most important works of Pushkin, prose and poetry. Facility in speaking and writing Russian required. Conducted on a seminar basis with each student actively participating. *Mr. Ivask.*

620. GOGOL.  
The most important works of Gogol: *The Inspector-General*, *Dead Souls*, *The Overcoat*, and selected passages from his *Correspondence with Friends*, and other works. Facility in speaking and writing Russian required. Conducted on a seminar basis with each student actively participating. *Mr. Ivask.*

665. STRUCTURE OF RUSSIAN.  
Descriptive analysis of the morphology of contemporary standard Russian; additional emphasis on selected problems of derivation. *Prerequisite, proficiency in Russian. Mr. Levin.*

## UNIVERSITY OF MASSACHUSETTS

### 666. CONTRASTIVE STRUCTURES OF RUSSIAN AND ENGLISH.

Contrastive analysis of Russian and English with emphasis on those elements of Russian structure that differ significantly from English.  
Prerequisite, Russian 665. Mr. Rothstein

### COURSES NOT FOR MAJOR CREDIT

#### 419, 429, 439. RUSSIAN READING COURSE.

Intensive study of Russian grammar. Emphasis on developing reading ability only. Appropriate for graduate students preparing for their reading examinations. No credit.

#### 449. RUSSIAN EXPOSITORY PROSE.

Readings in non-literary Russian texts from a wide variety of scientific and technical fields. Emphasis on developing reading skill in the student's specialized field.  
Prerequisite, three semesters of Russian or equivalent. No credit.

## Sociology

### GRADUATE FACULTY

N. JAY DEMERATH, III, *Professor and Chairman of the Department of Sociology*, B.A. Harvard, 1958, M.A., California at Berkeley, 1961; Ph.D., 1964.

MICHAEL LEWIS, *Associate Professor and Graduate Program Director*, B.A., Brooklyn College, 1959; M.A., Princeton, 1962; Ph.D., 1967.

ANDY B. ANDERSON, *Associate Professor*, B.A., Southern Methodist, 1963; Ph.D., Tulane, 1967.

ALBERT CHEVAN, *Associate Professor*, B.S., Cornell, 1953; M.S., Connecticut, 1957; Ph.D., Pennsylvania, 1968.

ROLAND J. CHILTON, *Professor*, B.A., Monmouth, 1951, M.A., Wisconsin, 1958, Ph.D., Indiana, 1962.

EDWIN D. DRIVER, *Professor*, B.A., Temple, 1945, M.A., Pennsylvania, 1947; Ph.D., 1956.

ROBERT R. FAULKNER, *Associate Professor*, B.A., California at Los Angeles, 1963; M.A., 1965; Ph.D., 1968.

HILDA H. GOLDEN, *Associate Professor*, B.A., Skidmore, 1942; M.A., Duke, 1944, Ph.D., 1950.

MILTON M. GORDON, *Professor*, B.A., Bowdoin, 1939, M.A., Columbia, 1940; Ph.D., 1950.

ANTHONY B. HARRIS, *Assistant Professor*, B.A., Queens College, 1964; M.A., Cambridge, 1966; Ph.D., Princeton, 1972.

JOHN P. HEWITT, *Associate Professor*, B.A., New York at Buffalo, 1963; M.A., Princeton, 1965, Ph.D., 1966.

PAUL HOLLANDER, *Professor*, B.A., London, 1959, M.A., Illinois, 1960; M.A., Princeton, 1962; Ph.D., 1963.

CHRISTOPHER J. HURN, *Associate Professor*, B.S., London, 1960; M.A., Northwestern, 1965; Ph.D., 1968.

LEWIS M. KILLIAN, *Professor*, B.A., Georgia, 1940; M.A., 1941; Ph.D., Chicago, 1949.

JOHN W. LOY, JR., *Associate Professor of Physical Education*.

JOHN F. MANFREDI, *Associate Professor*, B.A., Pennsylvania, 1942; M.A., Harvard, 1948, Ph.D., 1951.

## SOCIOLOGY

SURINDER K. MEHTA, *Associate Professor*, B.A., Oregon, 1952; M.A., 1955; Ph.D., Chicago, 1959.

PETER PARK, *Professor*, B.A., Columbia, 1953, M.A., Yale, 1955; Ph.D., 1958.

EUGENE B. PIEDMONT, *Professor and Associate Dean of the Graduate School*, B.S., State University of New York, 1956; M.A., Rochester, 1959, Ph.D., Buffalo, 1962.

GERALD M. PLATT, *Professor*, B.A., Brooklyn College, 1955, M.A., 1957; Ph.D., California at Los Angeles, 1964.

W. CLARK ROOF, *Associate Professor*, B.A., Wofford College, 1961; M.A., North Carolina, 1969; Ph.D., 1971.

ALICE S. ROSSI, *Professor*, B.A., Brooklyn College, 1947, Ph.D., Columbia, 1957.

PETER H. ROSSI, *Professor*, B.S., C.C.N.Y., 1943, Ph.D., Columbia, 1951.

JON E. SIMPSON, *Associate Professor*, B.A., Ohio Wesleyan, 1954; M.A., Ohio State, 1958, Ph.D., 1961.

RANDALL G. STOKES, *Associate Professor*, B.A., California State at San Diego, 1966; M.A., Duke, 1967; Ph.D., 1971.

GORDON F. SUTTON, *Associate Professor*, B.A., Wayne State, 1953, M.A., 1955, Ph.D., Michigan, 1959.

CURT TAUSKY, *Professor*, B.A., Portland State, 1959, Ph.D., Oregon, 1963.

RICHARD C. TESSLER, *Assistant Professor*, B.A., Wisconsin, 1968; M.S., 1970; Ph.D., 1972.

MARCIA WESTKOTT, *Assistant Professor*, B.A., Ursinus, 1964; M.A., Pennsylvania, 1969; Ph.D., 1972.

THOMAS O. WILKINSON, *Professor*, B.A., North Carolina, 1945; M.A., Duke, 1950; Ph.D., Columbia, 1957.

JAMES D. WRIGHT, *Associate Professor*, B.A., Purdue, 1969; M.S., Wisconsin, 1970, Ph.D., 1973.

SONIA R. WRIGHT, *Lecturer*, B.S., Purdue, 1965, M.S., 1967, Ph.D., 1973.

DAVID W. YAUKEY, *Professor*, B.A., Oberlin, 1949, M.A., Washington State, 1950; Ph.D., Washington, 1956.

The graduate program in sociology is divided into two tracks. One is for Master of Arts candidates; the other is for students who have been accepted into the Doctor of Philosophy degree program. These two tracks, however, are not completely separate programs; no courses are designed specifically for either track. Although students entering with a bachelor's degree are usually required to obtain a Master of Arts degree en route to the Ph.D., the M.A. student may petition the Graduate Studies Committee for a waiver of the thesis requirement and thereby transfer to the doctoral program.

Students working toward either the Master of Arts or the Doctor of Philosophy degree in sociology must fulfill the general requirements of the Graduate School. The Doctor of Philosophy degree utilizes as its

guiding principle the effective preparation of candidates to excel at two tasks: (1) the Comprehensive Examination and (2) the dissertation. Since no relationship is assumed to obtain between specific courses taken and the high expectations of the Comprehensive Examination, course requirements are deliberately flexible, but require the following: Advanced Statistics, Advanced Methods (to be selected from four alternative methods seminars), Advanced Theory (to be selected from five alternative theory seminars). The Comprehensive Examinations cover one of two major areas selected by the student, Structural Sociology or Social Psychology, plus a "special field" selected by the student.

The Comprehensive Examination may not be taken until a minimum of 30 credits of graduate course work has been completed. Upon successfully passing the Comprehensive Examination, the student is admitted to candidacy for the Ph.D. degree and may proceed with the dissertation. A public oral final examination, not necessarily limited to the dissertation, is also required at its completion.

There is no general foreign-language requirement for degree qualification in sociology. Doctoral students may be expected to demonstrate satisfactory levels of competence in one or more languages other than English in those cases where such a requirement is deemed desirable by the faculty (e.g., a specific dissertation project).

Master's degree candidates must complete a minimum of 30 credits. Of these at least 24 credits must be for coursework; six are awarded for successfully completing a thesis. Normally, *at least two* of the required eight courses shall be taken in sociological theory, *at least one* in research methods, and *another* in statistics. The thesis, followed by a final oral examination, is required of all terminal master's degree candidates.

Applicants for admission to graduate study in sociology are expected to be familiar with fundamental sociological concepts and literatures. Candidates may be asked to remove deficiencies, without receiving graduate credit, prior to or after admission.

Applications for admission will *not* be evaluated until *all* credentials have been received. These include Graduate Record Examination scores (both Aptitude and Advanced), two letters of recommendation, and transcripts of all previous academic study. Students requesting any form of financial aid are responsible for ensuring that all application materials are on file in the Graduate School by February 1 (for fall entrance) and October 1 (for spring entrance). The respective deadlines for filing applications for admission are March 1 and October 1, but early submission is strongly encouraged.

Applicants from countries whose native tongue is not English must, in addition to submitting all the above credentials, take the Test of English as a Foreign Language (TOEFL). The Graduate School also requires all foreign students to take an English examination at the beginning of their initial semester, after admission. Remedial work may be prescribed on the basis of this examination.

A brochure, "Graduate Studies Program," which details the basic emphasis and requirements of the Department's programs, is available on request to the Graduate Program Director.

#### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### COURSES OPEN TO GRADUATE STUDENTS ONLY

##### 700. SPECIAL PROBLEMS.

A special project in sociology.  
Prerequisite, permission of instructor.

##### 712. SOCIAL CHANGE.

Analysis of change as a process, especially the factors making for acceptance or rejection of innovations. Consequences of contacts between societies, with emphasis on underdeveloped areas.

Prerequisite, Soc 272 or permission of instructor.

Mr. Stokes.

##### 713. SOCIOLOGY OF KNOWLEDGE.

The intellectual and social background of Karl Mannheim's and Max Scheler's *Sociology of Knowledge*. Discussion of selected writings. Comparisons with Durkheim, Sorokin, Mead.

##### 714. CRIMINOLOGY.

Criminological theories, past and present, with emphasis on present research trends as they relate to theoretical formulations.

Prerequisite, permission of instructor.

Mr. Chilton, Mr. Driver, Mr. Simpson.

##### 717. JUVENILE DELINQUENCY.

Theories of causation and treatment of delinquency.

Prerequisite, Soc 278 or permission of instructor.

Mr. Chilton, Mr. Driver, Mr. Simpson.

##### 718. INDUSTRIAL SOCIOLOGY.

The different ways selected industrial or developing societies are organized to elicit work efforts, e.g., Russia, China, Israel, Japan, U.S., Cuba.

##### 719. THE SOCIOLOGY OF RELIGION.

The relations of religious ideology and ecclesiastical organization to the total social institutional system. Attention to the religions of larger civilizations, especially Islam, Buddhism, medieval Christianity, Gentile paganism, Protestantism, and Judaism.

Mr. Manfredi, Mr. Roof.

##### 720. CONTEMPORARY BELIEF SYSTEMS.

Comparative belief systems in modern industrial societies, including both theoretical and methodological considerations. Problems of defining "religion" in contemporary society, theoretical approaches for analyzing modern belief systems, and problems of method and analysis.

Mr. Roof.

##### 722. SOCIOLOGY OF EDUCATION.

Educational characteristics of an industrial population; comparative social structures and their school systems; educational selection and social stratification; educational development as effect and cause of social change; the culture of schools and universities.

Prerequisites, one graduate course in sociological theory and one course in research methods.

Mr. Hurn, Mr. Platt.

##### 725. SYMBOLIC INTERACTION SEMINAR.

The symbolic interactionist approach to social psychology and the social structure, including historical as well as contemporary contributions. Emphasis on the relation of symbolic interaction to other approaches in sociology.

Mr. Hewitt.

##### 729. SOCIOLOGY OF SMALL GROUPS.

Small human groups viewed as relatively permanent relational structures which emerge out of the process of social interaction. Theoretical discussion of concepts and logic of the process of emergence.

Prerequisites, one prior graduate course in social psychology or permission of instructor.

##### 731. SOCIAL GERONTOLOGY.

Implications of aging for society and the individual. Position of the aged in nonindustrial and industrialized societies. Changing roles of older people in the American family and the community.

Prerequisites, Soc 257 or permission of instructor.

UNIVERSITY OF MASSACHUSETTS

**732. SOCIOLOGY OF MEDICINE.**  
A survey of theory and research concerned with medical care as a social institution. The relation of social factors to illness, and social process involved in medical education.  
Prerequisite, Soc 286 or permission of instructor.  
Mr. Piedmont.

**733. POLITICAL SOCIOLOGY.**  
Analysis of the major topics and problems of political sociology in a comparative context. Attention to contemporary social movements, political pluralism and extremism, the social roots of totalitarian and democratic societies.  
Mr. Hollander, Mr. Wright.

**735. SOCIAL MOVEMENTS**  
Analysis of the genesis, career, values, norms, structure, and endproducts of social movements, including studies of selected movements.  
Mr. Killian.

**736. COLLECTIVE BEHAVIOR.**  
The processes of interaction through which new social norms and forms of social organization emerge in the crowd, the public, and the social movement. Emphasis on principles of collective behavior in the crowd.  
Mr. Killian.

**737. SEMINAR ON PUBLIC POLICY AND SOCIAL SCIENCES.**  
The mobilization of the social sciences for the solution of domestic social problems. More concerned with the strategy of applied social science in the context of social policy than with substantive issues.  
Mr. Sutton.

**740. CRISIS RESOLUTION AND COMMUNICATION.**  
Discussion of relevant concepts. Case studies on international crises from 1947-1968 with attention to the calculations of decision-makers.

**750. BLACK MAN IN AMERICA**  
A socio-historical analysis of the interaction of the Black man and the American environment, from slavery to his migration to urban areas and subsequent isolation in the black ghetto.  
Mr. Killian

**757. SEMINAR IN THE FAMILY**  
Cross-cultural examination of family systems: their development, factors influencing changes, and direction of changes. Comparison of theoretical frames of relevance for theory construction and research.  
Prerequisite, Soc 257 or permission of instructor.  
Mr. Korson, Mr. Lewis, Mr. Piedmont.

**758. FAMILY AND KINSHIP COMPONENTS IN CONTEMPORARY SOCIAL PROBLEMS.**  
Relative importance of family and kinship in the analyses of contemporary sociologists, how this analysis informs inquiry into problems such as political and economic modernization, urbanization, stratification, the institutionalization of poverty.  
Mr. Lewis.

**759. SOCIAL STRATIFICATION.**  
The major contemporary writers and their contribution to this area. Research techniques in the analysis of social class and social mobility.  
Prerequisite, Soc 259 or permission of instructor.  
Mr. Gordon.

**762. DEMOGRAPHY.**  
An analysis of the demographic transition from peasant-agriculturalism to urban industrialism. Emphasis on the consequences of this transition for patterns of settlement and for fertility, mortality, and migration.  
Prerequisite, Soc 561 or permission of instructor.  
Mrs. Golden, Mr. Wilkinson.

**764. POPULATION CHARACTERISTICS AND SOCIOECONOMIC CHANGE.**  
Analysis of relationship between selected demographic characteristics and socioeconomic changes, with attention to the sociological uses of statistical information on the world's countries.  
Prerequisite, Soc 561 or permission of instructor.  
Mrs. Golden.

SOCIOLOGY

**766. HUMAN ECOLOGY: COMMUNITY STRUCTURE AND INTERRELATIONS**  
Theory and research of community functions and systems of communities with special reference to ecological organization and change.  
Mr. Mehta.

**772. POPULATION OF INDIA AND PAKISTAN**  
Trends in population growth and its distribution among various social strata. The relative influence of fertility, mortality, migration, social organization, and cultural values on growth patterns.  
Prerequisites, Soc 561 and 795.  
Mr. Driver.

**781. HISTORY OF SOCIOLOGICAL THEORY.**  
A survey of literature from classical times to the Utilitarians.  
Prerequisite, Soc 282 or permission of instructor.  
Mr. Manfredi.

**782. THE DEVELOPMENT OF SOCIOLOGICAL THEORY.**  
Selected European and American contributors and their systems of theory, in biographical, historical, and sociological perspective.  
Prerequisite, permission of instructor  
Mr. Page

**783. CONTEMPORARY SOCIOLOGICAL THEORY**  
The literature from 1900 to the present  
Prerequisite, Soc 282 or permission of instructor.  
Mr. Gordon.

**784. ADVANCED SOCIOLOGICAL THEORY**  
A methodological analysis of contemporary sociological theory. Emphasis on theory construction, formalization and evaluation.  
Prerequisite, Soc 282 or permission of instructor  
Mr. Roof

**785. COMPLEX ORGANIZATIONS**  
Major theories of organization. Emphasis on recent findings on the determinants of individual behavior and organizational effectiveness.  
Mr. Tausky.

**792. PROBLEMS OF THEORETICAL ANALYSIS IN CONTEMPORARY SOCIOLOGY.**  
Alternative theoretical orientations, including neopositivism, functionalism, systems theory, phenomenology; problems of intellectual style, sociology and other disciplines; human perspectives; sociology of knowledge and of sociology  
Prerequisite, permission of instructor.  
Mr. Page.

**794. COMPUTER METHODS IN SOCIOLOGY**  
A survey of computer-oriented analytical tools and data-processing systems available to the sociologist. The pace of the computer in research and the development of mathematical sociology. Students program and test a statistical or mathematical model.  
Prerequisite, knowledge of some computer language.  
Mr. Chevan

**795. RESEARCH METHODS.**  
Logical analysis of sociological inquiry; survey of major research techniques and examination of principal methodological problems in sociology.  
Mr. Chevan, Mr. Chilton, Mr. Park

**796. RESEARCH METHODS.**  
Research techniques in sociology, including: formulating research objectives; collecting, processing, and analyzing data for a project organized around the problems of measurement in sociology.  
Prerequisites, Soc 547 and 795.  
Mr. Chevan, Mr. Chilton, Mr. Park.

**797. SURVEY DESIGN AND ANALYSIS**  
Design and analysis of descriptive and explanatory sample surveys. Special attention to the problems of longitudinal studies designed to evaluate the effects of a complex experience.  
Prerequisite, Soc 795.  
Mr. Chevan.

## SPANISH

### 798. TECHNIQUES OF DATA COLLECTION IN SOCIAL RESEARCH.

The validity and reliability for various purposes of a number of observational techniques, including: the interview, the paper and pencil questionnaire, content analysis, and participant observation.

Prerequisite, Soc 795.

Mr. Chevan.

### 800. MASTER'S THESIS.

Credit, 6.

### 900. DOCTORAL DISSERTATION.

Credit, 18.

## COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS

### 547. ELEMENTARY STATISTICS.

Basic statistical principles and techniques with special reference to application in sociology.

Mr. Mehta, Mr. Park.

### 548. SOCIAL STATISTICS.

Introduction to principles of multivariate techniques, including sociology and related fields.

Prerequisite, Soc 547 or equivalent.

Mr. Mehta, Mr. Park.

### 551. URBAN SOCIOLOGY.

A comparative analysis of world urbanization with special reference to demographic characteristics of urban populations, urban ecology, and urban social structure.

Prerequisite, Soc 101 or permission of instructor.

Mrs. Golden, Mr. Mehta.

### 552. URBANIZATION AND THE CITY.

A comparative analysis of world urbanization, its causes, and consequences. Regional variations in the nature of urbanization and trends in major countries related to major aspects of the social structure of cities.

Prerequisite, Soc 101.

Mrs. Golden.

### 556. RACE RELATIONS.

Social, economic, and political aspects of racial problems in the U.S., with particular reference to the Negro and major ethnic groups. Problems resulting from contact of races in Asia, Africa, and South America.

Mr. Gordon.

### 557. FAMILY.

Development of the customs of courtship and marriage of the contemporary American family; basis causes of changes and trends of the family including mate selection, marriage laws, marital prediction, husband-wife relations.

Mr. Korson.

### 558. SOCIAL INTERACTION.

The processes leading to the socialization of the group member; emphasis on role properties, play, control models, and power definitions.

Mr. Hewitt.

### 561. POPULATION PROBLEMS.

Physical and social factors which influence population change through births, deaths, and migration; emphasis on the population problems of underdeveloped areas in the world today.

Mr. Wilkinson.

### 565. THE POPULATION OF JAPAN.

A demographic survey of the history and development of modern Japan. Emphasis on the similarities and contrasts between Japan's demographic transition and that of the West.

Prerequisite, Soc 261 or equivalent.

Mr. Wilkinson.

### 570. SOCIAL STRUCTURE OF INDIA.

Origins, distribution, and cultural traits of the major groups in India. Marriage, family, and caste patterns, and their relation to and positions in the economic and political system.

Mr. Driver.

### 575. SOCIAL PROBLEMS.

Incidence, distribution, and interrelations among the major types of social tensions in human societies. Research and field trips likely.

Mr. Lewis.

## GRADUATE SCHOOL

### 580. SOVIET SOCIETY.

Survey of the major social institutions, processes, and problems of Soviet society. Special reference to official and popular values and norms, stratification, social control, the family, types of socialization and social problems.

Mr. Hollander.

### 587. SOCIOLOGY OF MENTAL DISORDERS.

Influence of social factors on diagnosis, treatment, and possible etiology of mental disorders. Application of sociological concepts and methods in considering the nature and extent of mental disorders.

Prerequisite, Soc 286 or permission of instructor.

Mr. Piedmont.

### 592. BACKGROUND TO THE STUDY OF SOCIAL WELFARE.

Historical development and current status of British and American concerns about poverty in the context of the Industrial Revolution; sociological perspectives concerning differentials in access to economic security and social rewards.

Mr. Sutton.

### 663. FERTILITY AND SOCIETY.

A review of past and present trends in fertility on a world-wide basis, an analysis of the social determinants and consequences of these trends, and an assessment of likely future trends.

Prerequisites, Soc 261 and permission of instructor.

Mr. Yaukey.

### 667. POPULATION THEORIES AND POLICIES.

The major theories concerning population growth, distribution, internal and international migration, and population quality. Theorists include the pre-Malthusians, Malthus, Marx, Keynes, Stouffer, Petersen, Myrdal, Clark, Coale, Keyfitz, Spengler, Davis, and others.

Mr. Driver.

## INTERDEPARTMENTAL COURSES

### SOCIAL SCIENCES 550. AFRICA, SOUTH OF THE SAHARA.

Introductory study of recent political, economic, and social developments in the principal countries in Africa, south of the Sahara.

Prerequisites, at least two courses in one or more of the following fields: government, economics, sociology.

Mr. Driver.

### SOCIAL SCIENCES 569. INDIA AND SOUTH ASIA.

Introductory study of recent political, economic, and social developments in India and the countries of South Asia.

Prerequisites, at least two semester courses in one or more of the following fields: government, economics, sociology, anthropology.

Mr. Driver.

## RELATED COURSES

### PSYCH 780. ADVANCED SOCIAL PSYCHOLOGY.

### PSYCH 781. ATTITUDES.

### PSYCH 784. GROUP DYNAMICS.

### PUBLIC HEALTH 735. SOCIAL EPIDEMIOLOGY.

## Spanish

## GRADUATE FACULTY

H. L. BOUDREAU, *Professor, Chairman of the Department of Spanish and Portuguese*, B.A., Illinois, 1948; M.A., 1950; Ph.D., Wisconsin, 1965.

SUMNER M. GREENFIELD, *Professor and Graduate Program Director*, B.A., Boston College, 1946; M.A., Boston University, 1947; M.A., Harvard, 1951; Ph.D., 1957.

## UNIVERSITY OF MASSACHUSETTS

## SPANISH

ANTONIO ANDRADE, JR., *Assistant Professor*, B.A., San Jose State, 1959; M.A., 1967; Ph.D., Indiana, 1975.

ROBERT L. BANCROFT, *Professor*, B.A., Washington, 1935; M.A., 1947; Ph.D., Columbia, 1957.

PEDEO BARREDA, *Associate Professor*, M.A., State University of New York at Buffalo, 1966; Ph.D., 1969.

BLANCHE DE PUY, *Professor*, B.A., Wellesley, 1942; M. Litt., Pittsburgh, 1951; Ph.D., Stanford, 1961.

FRANCISCO FERNÁNDEZ-TURIENZO, *Associate Professor*, B.A., Universidad Pont. de Salamanca, 1956; M.A., University of Basilea (Switzerland), 1965; Ph.D., 1965.

JULES PICCUS, *Professor*, B.A., Queens, 1942; M.A., Princeton, 1949; Ph.D., 1951.

IRVING P. ROTHBERG, *Professor*, B.S., Temple University, 1948; M.A., Pennsylvania State, 1951; Ph.D., 1954.

NINA M. SCOTT, *Associate Professor*, B.A., Wellesley, 1959; M.A., Stanford, 1961; Ph.D., 1968.

ROSALIE S. SOONS, *Assistant Professor*, A.B., Bryn Mawr, 1947; M.A., Connecticut, 1965; Ph.D., 1967.

JOHN J. STACZEK, *Assistant Professor*, B.A., Ohio State, 1965; M.S., Georgetown, 1970; Ph.D., 1973.

HARLAN G. STURM, *Associate Professor*, B.A., Minnesota, 1963; M.A., 1965; Ph.D., North Carolina, 1967.

SIDNEY F. WEXLER, *Professor*, B.S., New York University, 1932; M.A., Colorado, 1933; Ph.D., New York University, 1952.

JUAN C. ZAMORA, *Assistant Professor*, M.A., New York at Buffalo, 1966; Ph.D., 1971.

### REQUIREMENTS FOR THE MASTER OF ARTS DEGREE

Students may specialize in Literature, in Bilingual-Bicultural Studies, or in Hispanic Linguistics. In addition to the general requirements for the degree at the University, the following special requirements must be met:

1. Spanish 707, 708 (General View of Hispanic Literature and Methods of Analysis and Research).
2. One course in Hispanic Linguistics. (Contact the Department for the specific number and title).
3. A reading knowledge of a second foreign language pertinent to the student's program.
4. Spanish 500 may be elected for six credits.
5. Terminal examinations as follows:
  - a. Comprehensive examination.
  - b. For those electing Spanish 800, oral defense of thesis.
6. Students specializing in Bilingual-Bicultural Studies have a 36-credit program but are relieved of requirements 1 and 3 above.

### REQUIREMENTS FOR THE Ph.D. DEGREE

Students may specialize in Literature or in Hispanic Linguistics. In addition to the general requirements for the degree at the University, the following special requirements must be met:

1. Spanish 707, 708 (General View of Hispanic Literature and Methods of Analysis and Research), or equivalent knowledge.
2. One course in Hispanic Linguistics, or equivalent knowledge. (Contact the Department for the specific number and title).
3. A reading knowledge at the intermediate level of two foreign languages pertinent to the student's program.
4. Written and oral comprehensive examinations.
5. Spanish 900 (Doctoral Dissertation).

N.B.: Graduate programs in the Department of Spanish and Portuguese have recently been revised.

Courses not listed below (particularly in Hispanic Linguistics and in Bilingual-Bicultural Studies) are also being offered.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### COURSES OPEN TO GRADUATE STUDENTS ONLY (For either major or minor credit)

#### COURSE NOT FOR MAJOR CREDIT

##### 409. GRADUATE READING COURSE

For graduate students preparing for the M.A. or Ph.D. reading examination. No previous knowledge of Spanish required. *No credit.*

##### 700. PROBLEM COURSE

Directed study in some phase of linguistics literature. *Credit, 1-6.*

##### 707, 708. GENERAL VIEW OF HISPANIC LITERATURE AND METHODS OF ANALYSIS AND RESEARCH *Credit, 6.*

Specific topics of Spanish 710 through 799 announced in the spring of the preceding year.

##### 710. THE SPANISH LANGUAGE

The development of Spanish and its relationship to other Romance languages. *Credit, 3-12. Mr. Piccus.*

##### 715. SEMINARS IN EARLY MEDIEVAL LITERATURE

A phase of Spanish literature of the 12th and 13th centuries. Prerequisite, a knowledge of Latin, Spanish 710, or equivalent. *Credit, 3-12. Mr. Piccus, Mr. Sturm.*

##### 720. SEMINARS IN LATER MEDIEVAL LITERATURE

A phase of Spanish literature of the 14th and 15th centuries. *Credit, 3-12. Mr. Piccus, Mr. Sturm.*

##### 730. SEMINARS IN RENAISSANCE AND BAROQUE LITERATURE

Aspects of Spanish intellectual and spiritual movements of the 16th and 17th centuries as reflected in Renaissance and Baroque literature. *Credit, 3-12. Mr. F. Turienzo, Mr. Rothberg.*

## SPANISH

735. SEMINARS IN THE GOLDEN AGE OF POETRY.  
The poets and poetic currents of the Spanish Golden Age.  
*Credit, 3-12. Mr. F-Turienzo, Mr. Rothberg.*

740. SEMINARS IN GOLDEN-AGE FICTION.  
Aspects of the novel in 16th- and 17th-century Spain.  
*Credit, 3-12. Mr. F-Turienzo, Mr. Rothberg.*

745. SEMINARS IN THE GOLDEN AGE OF DRAMA.  
The development and apogee of the Spanish *comedia* in the Golden Age.  
*Credit, 3-12. Mr. Rothberg.*

755. SEMINARS IN 18TH-CENTURY LITERATURE.  
Phases of Spanish thought and literature in the 18th century.  
*Credit, 3-12. Mr. Greenfield.*

760. SEMINARS IN 19TH-CENTURY POETRY AND DRAMA.  
Aspects of the theater and poetry of 19th-century Spain.  
*Credit, 3-12. Mr. Boudreau, Mr. Greenfield, Ms. Soons.*

765. SEMINARS IN 19TH-CENTURY PROSE.  
Nineteenth-century Spanish thought or narrative literature.  
*Credit, 3-12. Mr. Boudreau, Ms. De Puy, Mr. Greenfield.*

770. SEMINARS IN INTELLECTUAL AND ESTHETIC MOVEMENTS.  
Intellectual and esthetic developments in the modern Hispanic world.  
*Credit, 3-12. Ms. De Puy, Mr. F-Turienzo, Mr. Greenfield.*

775. THEATER OF LORCA. *Credit, 3-12.*

780. SEMINARS IN 20TH-CENTURY PROSE.  
The novel, short story, and essay in modern Spain.  
*Credit, 3-12. Mr. Boudreau, Ms. De Puy, Mr. Greenfield.*

785. SEMINARS IN SPANISH-AMERICAN POETRY AND DRAMA.  
Individual Spanish-American poets or dramatists, and in groups or movements.  
*Credit, 3-12. Mr. Bancroft, Mr. Barreda.*

790. SEMINARS IN SPANISH-AMERICAN PROSE.  
The novel, short story, chronicle, and essay in Spanish America.  
*Credit, 3-12. Mr. Bancroft, Mr. Barreda.*

799. SEMINARS IN HISPANIC LANGUAGE AND LITERATURE.  
Phases of Spanish language and Spanish and Spanish-American literature that involve two or more of the areas of courses number 710 through 790.  
*Credit, 3-12.*

800. MASTER'S THESIS. *Maximum credit, 9.*

900. DOCTORAL DISSERTATION. *Credit, 15.*

COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS  
(For either major or minor credit)

609. ADVANCED COMPOSITION.  
The elements of stylistics. *Mr. Barreda.*

620. SPANISH LITERATURE TO 1500.  
Spanish literature in the Middle Ages and Renaissance.  
*Mr. Piccus, Mr. Sturm.*

621. SPANISH MEDIEVAL POETRY.  
Spanish epic, lyric poetry and other verse of the period.  
*Mr. Piccus, Mr. Sturm.*

622. SPANISH MEDIEVAL PROSE.  
Narrative, historical, and didactic prose works of medieval Spain.  
*Mr. Piccus, Mr. Sturm.*

631. PROSE OF THE GOLDEN AGE.  
Major prose works in 16th- and 17th-century Spain. Emphasis on the novel, excluding the *Quijote*.  
*Mr. F-Turienzo, Mr. Rothberg.*

## GRADUATE SCHOOL

632. LYRIC POETRY OF THE GOLDEN AGE.  
Spanish poetry of the 16th and 17th centuries from Garcilaso to Gongora.  
*Mr. F-Turienzo, Mr. Rothberg.*

633. DRAMA OF THE GOLDEN AGE.  
The *comedia* during the period of maximum creation, 1556-1681.  
*Mr. Rothberg, Mr. Sturm.*

634. CERVANTES.  
Intensive study of the *Quijote*. *Mr. F-Turienzo.*

640. SPANISH LITERATURE FROM 1700 THROUGH ROMANTICISM.  
Spanish literature and thought in the 18th century and the Romantic movement. *Mr. Greenfield.*

641. 19TH-CENTURY SPANISH NOVEL.  
Prose fiction in the second half of the 19th century.  
*Mr. Boudreau, Ms. De Puy, Mr. Greenfield, Ms. Soons.*

645. MODERN SPANISH THEATER.  
Development of the theater in Spain from the post-romantic period to the present. *Mr. Greenfield.*

646. 20TH CENTURY SPANISH PROSE FICTION.  
The novel in Spain from the Generation of '98 to the present.  
*Mr. Boudreau, Ms. De Puy, Mr. Greenfield, Ms. Soons.*

647. MODERN SPANISH POETRY.  
Poetry in Spain from Becquer to the present.  
*Mr. Boudreau, Ms. Soons.*

648. THE ESSAY AS A LITERARY GENRE.

650. SPANISH-AMERICAN LITERATURE TO 1900.  
A general view, with intensive study of selected major works.  
*Mr. Bancroft, Mr. Barreda.*

651. THE MODERNISTA MOVEMENT.  
*Modernismo* in Spanish America, including a comparative study of its manifestations in Spain.  
*Mr. Bancroft, Mr. Barreda, Mr. Greenfield.*

652. MAJOR SPANISH-AMERICAN WRITERS.  
Intensive study of major figures in Spanish-American literature.  
*Mr. Bancroft, Mr. Barreda, Mr. Greenfield.*

653. SPANISH-AMERICAN POETRY AND DRAMA SINCE MODERNISMO.  
The principal authors and movements in the 20th century.  
*Mr. Bancroft, Mr. Barreda.*

655. MODERN SPANISH-AMERICAN PROSE FICTION.  
Spanish-American prose fiction in the late 19th and early 20th centuries.  
*Mr. Bancroft, Mr. Barreda.*

656. CONTEMPORARY PROSE FICTION IN SPANISH AMERICA.  
The recent novel and short story.  
*Mr. Bancroft, Mr. Barreda.*

657. HISPANIC LITERATURE OF THE CARIBBEAN.  
A comparative study of the development of the literature of Puerto Rico, Cuba and the Dominican Republic, and of the historical cultural and socio-political factors that have shaped it.  
*Mr. Barreda.*

673. AMERICAN POETRY AND DRAMA.

675. THE TEACHING OF SPANISH.  
A systematic analysis of the major problems anticipated in the teaching of Spanish. *Mr. Staczek.*

678. SPANISH PHONETICS.  
Spanish phonetic theory and its application to the teaching of Spanish.  
3 class hours, 1 laboratory session. *Mr. Staczek, Mr. Zamora.*

## UNIVERSITY OF MASSACHUSETTS

679. **THE STRUCTURE OF MODERN SPANISH.** Syntax and morphology of contemporary Spanish. Both the oral and written systems analyzed from the points of view of the major modern grammatical theories. Structural differences between Spanish and English; problems of interference for the nonnative. Mr. Zamora.

## Sport Studies

### GRADUATE FACULTY

HAROLD J. VANDERZWAAG, *Professor and Head of the Department of Sport Studies*, B.A., Calvin College, 1951; M.A., Michigan, 1952; Ph.D., 1962.

PETER J. GRAHAM, *Assistant Professor*, B.S., Massachusetts, 1964; M.A., Michigan State, 1965; Ed.D., Massachusetts, 1975.

GUY M. LEWIS, *Professor*, B.S., East Carolina, 1950; M.Ed., North Carolina, 1952; Ph.D., Maryland, 1964.

JOHN W. LOY, *Professor*, Lewis & Clark, 1961; M.A., Iowa, 1963; Ph.D., Wisconsin, 1967.

BETTY SPEARS, *Professor*, B.S., Purdue, 1940; M.S., Wellesley, 1944; Ph.D., New York University, 1956.

JUDITH S. TOYAMA, *Assistant Professor*, B.A., Southern California, 1969; M.A., Wisconsin, 1971; Ph.D., Waterloo, 1975.

### GRADUATE FACULTY MEMBERS IN THE SCHOOL OF PHYSICAL EDUCATION WITH RELATED INTERESTS

WALTER KROLL, *Professor*, P.E.D., Indiana, 1959.

C. LYNN VENDIEN, *Professor*, Ed.D., Stanford, 1957.

## SPORT STUDIES

### CURRICULAR REQUIREMENTS

M.S. in Physical Education and Ph.D. in Human Movement

Graduate degrees offered by the School of Physical Education are the Master of Science (M.S.) in Physical Education and the Doctor of Philosophy (Ph.D.) in Human Movement. Three programs of study leading to the M.S. degree have been structured as concentrations and identified as Exercise Science, General and Sport Studies. The latter concentration includes a related professional program in Sport Administration. Concentrations in either Exercise Science or Sport Studies are available at the Ph.D. level. Sport Studies consists of specialization in the history, sociology, social psychology and philosophy of sport. Outlined below are specific curricular requirements for the concentrations in sport studies:

## SPORT STUDIES

|                            |           |
|----------------------------|-----------|
| M.S. ( <i>non-thesis</i> ) |           |
| *Core                      | — 12 hrs. |
| Seminars                   | — 9       |
| Electives                  | — 9       |
|                            | 30 hrs.   |

|                        |           |
|------------------------|-----------|
| M.S. ( <i>thesis</i> ) |           |
| *Core                  | — 12 hrs. |
| Thesis                 | — 6       |
| Seminars               | — 6       |
| Electives              | — 6       |
|                        | 30 hrs.   |

|                                                                  |           |
|------------------------------------------------------------------|-----------|
| M.S. — <i>Sport Administration</i>                               |           |
| *Core                                                            | — 12 hrs. |
| 700. Special Problems<br>(Sport Administration)                  | — 3       |
| 700. Special Problems<br>(Internship in Sport Admin.)            | — 6       |
| Electives (at least 6 hours in the<br>School of Business Admin.) | — 9       |
|                                                                  | 30 hrs.   |

\*Core Courses —  
563 Sport and Theories of Psychological Processes  
564 Philosophy of Sport  
565 Sociology of Sport  
561 World History of Sport, or  
662 History of Sport in the United States

|                                                                       |         |
|-----------------------------------------------------------------------|---------|
| <i>Ph.D.</i>                                                          |         |
| A. School of Physical Education —                                     |         |
| Content Courses                                                       | 30 hrs. |
| 1. Basic Courses<br>(500 and 600 level)                               | 15 hrs. |
| 2. Advanced Courses                                                   | 15 hrs. |
| a. Seminars in major and minor<br>specializations*                    | 6 hrs.  |
| b. Advanced Topics and<br>Seminars                                    | 9 hrs.  |
| B. School of Physical Education —                                     |         |
| Research                                                              | 30 hrs. |
| 1. Thesis (800)                                                       | 6 hrs.  |
| 2. Seminar in Human<br>Movement (899)                                 | 6 hrs.  |
| 3. Dissertation (900)                                                 | 18 hrs. |
| C. Related Work (taken in departments outside<br>School of Phys. Ed.) | 30 hrs. |
| 1. Cognate Field**                                                    | 15 hrs. |
| 2. Electives                                                          | 15 hrs. |
| TOTAL                                                                 | 90 hrs. |

(18 of the 30 hours in related work must be taken at the 700 or above level.)

\*Seminar —  
782. Seminar in the Sociology of Sport

\*\*Study in one of the following departments—  
History  
Sociology  
Psychology  
Philosophy

## THEATER

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

(For either major or minor credit)

#### Sociology of Sport

##### 565. SOCIOLOGY OF SPORT.

Sport as a social institution, including both the structure and function of sport.

Prerequisite, PE 200.

Mr. Loy.

##### 782. SEMINAR IN THE SOCIOLOGY OF SPORT.

An analysis of the utility of sociological paradigms, models and theories for the explanation of sport phenomena, including autotelic and agonetic behavior.

Prerequisites, PE 565, one sociological theory course, and one research methods course.

Mr. Loy.

#### Philosophy of Sport

##### 564. PHILOSOPHY OF SPORT.

A philosophical analysis of key concepts which influence the objectives of various programs in the broad realm of sport.

Prerequisite, PE 203.

Mr. VanderZwaag.

##### 664. ATHLETICS: A PHILOSOPHIC INQUIRY.

A critical analysis of those historical, sociological, and psychological factors which have influenced the concept of athletics and caused issues in programs associated with this concept.

Prerequisite, PE 564.

Mr. VanderZwaag.

#### History of Sport

##### 561. WORLD HISTORY OF SPORT.

Factors influencing the rise of sport and the role of sport in society.

Prerequisite, PE 202.

Mr. Lewis.

##### 662. HISTORY OF SPORT IN THE UNITED STATES.

Sport in America from earliest times to the contemporary period. Emphasis on the social, political, and economic factors which affected the development of sport.

Prerequisite, PE 561.

Mr. Lewis.

##### 666. HISTORY OF SCHOOL AND COLLEGE SPORT.

Developments in sport at educational institutions from the age of unorganized play to the present.

Prerequisites, PE 561 or PE 662.

Mr. Lewis.

#### Other Courses

##### 663. COMPARATIVE SPORT.

A comparative analysis of sport in selected countries. Emphasis on historical, cultural, and social values affecting the status of sport.

Prerequisite, PE 561.

Miss Vendien.

##### 700. SPECIAL PROBLEMS.

Topics include: sport and theories of psychological processes, history of women in sport, sport administration, internship in sport administration, the social psychology of sport, the philosophy of sport, the history of sport, and advanced individual research topics.

Credit, 1-9, fall; 1-6, spring.

##### 799. CONTEMPORARY PROBLEMS IN HUMAN MOVEMENT.

Seminar, review, analysis, and evaluation of contemporary problems. A broad review of literature combined with critical analysis of selected items.

Credit, 3-6.

##### 800. MASTER'S THESIS.

Credit, 3-6

## GRADUATE SCHOOL

### 834. KINESTHETIC FORM.

The problem of the definition of form in movement as it relates to learning.

Miss Hubbard.

### 899. SEMINAR IN HUMAN MOVEMENT.

Topics in human movement not covered in regular course.

Credit, 1 each semester; Maximum credit, 6.

## Theater

### GRADUATE FACULTY

DAVID M. KNAUF, *Professor and Chairman of the Department of Theater*, B.F.A., Ohio University, 1958; M.A., 1960; Ph.D., Iowa, 1962.

DORIS E. ABRAMSON, *Associate Professor and Graduate Program Director*, B.A., Massachusetts, 1949; M.A., Smith, 1951; Ph.D., Columbia, 1967.

JEFFREY A. FIALA, *Associate Professor*, B.S., Wisconsin, 1967; M.F.A., 1970.

JUNE B. GAEKE, *Assistant Professor*, B.S., Wisconsin, 1969; M.F.A., 1971.

HARRY E. MAHNKEN, *Associate Professor*, B.A., Geneva College, 1951; M.F.A., Carnegie Institute of Technology, 1955.

### MASTER OF FINE ARTS IN THEATER

The Department of Theater offers a three-year, 60-credit, in-residence program leading to the degree of Master of Fine Arts in Theater with specialized training in dramaturgy (theatrical criticism and playwriting), performance (acting and directing), and scenography (scenic, lighting and costume design and execution).

The training program is preprofessional, and graduates are expected to qualify for careers in permanent, full-scale producing companies or ensembles, whether regional or university and community based. The program is not intended for beginners. It presumes a strong humanistic background, functional experience in all the arts of theater, and previous demonstration of high artistic promise in the area of intended specialization. The long-range objective of the training program is stage innovation. It is assumed, however, that theatrical invention presupposes thorough knowledge of the history of dramatic convention, theoretical as well as practical understanding of the resources of performance as an artistic medium, and demonstrable mastery

of the techniques and instruments of stage expression. The program is not conducive to premature ingenuity, and prospective students without the stamina, determination, and patience to undergo extensive trial and preparation for performance and production should not apply. Those with restrictive interests (e.g. in improvisation or environmental staging or musical theater alone) will also be thwarted by the breadth of training required and should seek out other programs better suited to their particular needs.

The Department of Theater is housed in an elaborate new center for the performing arts with fully equipped laboratories, studios, workshops, and stages designed for all styles and types of performance. The University Library and other archives in the area hold extensive collections for production research.

Enrollment in the graduate program in Theater is restricted in order to insure the highest possible quality of training. At present, the number of openings is limited to vacancies created through graduation and attrition. Instruction is organized in academic-year units, and applications are normally considered for the fall term only.

Applicants should follow the procedures and meet the requirements for admission established by the Graduate School. In addition, a minimum cumulative grade point average of 3.0 (on a 4.0 scale) should have been earned on all previous college work. The Graduate Record Examination is required. The Miller Analogies Test may also be requested if evidence of potential success in the Theater program is in question.

All applicants must submit a complete résumé of production experiences and interview with the Graduate Committee. Those who intend to concentrate in acting and directing should be prepared to audition. Applicants who wish to concentrate in theatrical criticism, playwriting, and directing should submit appropriate critical essays. Those interested in playwriting should also offer drafts of at least two original scripts. Applicants who intend to focus their training in scenic, lighting, or costume design should submit a portfolio. Manuscripts and portfolios are returned upon request.

Completed application forms, transcripts, letters of recommendation, and examination scores should be sent directly to the Graduate Admissions Office, Graduate Research Center, University of Massachusetts, Amherst, MA 01002. All other supportive material should be sent to the Graduate Program Director, Department of Theater, Fine Arts Center, University of Massachusetts, Amherst, MA 01002.

Instruction in the program is centered in individually planned projects carried out within the framework of specialized studios and workshops, supported by directed readings in the history and theory of stage practice and by various seminars in play and production research and analysis.

The program is organized into three sequential periods of training, one for apprentices, one for journeymen, and one for masters. Admission to each successive period is by review only. Students enter the program as apprentices and train for a minimum of two semesters. It is a period of intensive trial and review structured to permit scrutiny of the student's artistic attitudes, aptitudes, and potential. Apprentices assume limited responsibilities in the public performances of the University Theater. Those permitted by review to continue in the program train as journeymen for a minimum of two consecutive semesters. Emphasis is on the student's ability to synthesize knowledge, experience,

skill, and imagination and to collaborate on team efforts. Journeymen assume more important responsibilities in the public performances of the University Theater. Those admitted by review to candidacy for the degree train as masters for a minimum of two consecutive semesters. Focus is on the confirmation of artistic skill, authority in craft and performance, and originality of expression. Masters produce a major creative work and share with the faculty and staff full responsibility for the public performances of the University Theater.

With the exception of Theater 700, Special Problems, and Theater 800, Master's Thesis, all graduate instruction in Theater is currently offered under experimental course numbers. For complete information, contact the Graduate Program Director.

**ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED**

**COURSES OPEN TO GRADUATE STUDENTS ONLY**

- 700. SPECIAL PROBLEMS.**  
Independent study in special subjects. *Credit, 1-3.*
- 741. ADVANCED SCENE DESIGN.**  
Special problems in conceiving the visual elements of theatre. Experimental design and design for atypical theatre structures emphasized.  
Prerequisite, Theater 241/541 or equivalent.
- 742. HISTORY OF THEATRICAL COSTUME I.**  
Period costumes from primitive man to the 17th century; projects in design from a number of these periods.  
Prerequisite, Theater 242/542 or equivalent.
- 743. HISTORY OF THEATRICAL COSTUME II.**  
Period costume from the 17th century to the present; projects in design from a number of these periods.  
Prerequisite, Theater 242/542 or equivalent.
- 744. ADVANCED ACTING.**  
Investigation of an experimentation with various actor-character relationships.  
Prerequisite, Theater 244/544 or equivalent.
- 745. ADVANCED DIRECTING.**  
Various styles of staging period and contemporary dramas; examination of these styles within their historical contexts.  
Prerequisite, Theater 246/546 or equivalent.
- 747. TOPICS IN THEATER HISTORY.**  
Detailed study of selected eras in the development of theater.
- 748. TOPICS IN CONTEMPORARY THEATER.**  
Distinctive 20th-century theatrical concepts in Europe and the United States.
- 756. THEATER MANAGEMENT.**  
Modern theatrical-production organization, economics, special contractual problems, and administration.
- 757. ADVANCED STAGE LIGHTING.**  
Aesthetics of stage lighting and the problems and practices of the lighting designer. Emphasis on the lighting of selected plays.  
Prerequisite, Theater 257/557 or equivalent.
- 758. THEATER PRACTICUM.**  
Conception and execution of two creative theatrical assignments selected with and supervised by the student's adviser. The number of hours varies depending on the projects. Typically, the sequence would be three hours credit for each of the M.F.A. candidate's first two semesters. *Credit, 1-6.*

## WILDLIFE AND FISHERIES BIOLOGY

### 761. CONTEMPORARY DRAMATIC THEORY AND CRITICISM.

Important theories of dramatic art from 1900 to the present. Prerequisite, Theater 261/561 or equivalent.

### 763. THEATER AND RITUAL.

Relationship of ritual and theatre from primitive man to Genet.

### 765. THE RHETORIC OF THEATER.

Theories of rhetoric and poetic as relevant to drama and (of specific approaches) to the rhetorical criticism of plays.

### 800. MASTER'S THESIS.

*Credit, 3-6.*

### COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS

#### 540. TECHNICAL PRODUCTION.

The materials and methods in construction for the stage. Prerequisites, Theater 115 and 140.

#### 541. PRINCIPLES OF SCENE DESIGN.

Intensive study and application of scene design principles to a series of design projects. Practical experience through laboratory work in scene painting and decoration. Prerequisites, Theater 115 and 140.

#### 542. DESIGN AND CONSTRUCTION OF COSTUME.

Silhouette, draping, color, texture, drafting of patterns, construction, and the application of these basic principles to a series of design projects. Prerequisites, Theater 115 and 140.

#### 544. ACTING II.

Character analysis and development with attention to the interrelationship of characters. Prerequisites, Theater 115 and 243.

#### 546. DIRECTING II.

Problems in the interpretation and staging of various types of contemporary drama. Attention to rehearsal and performance procedures. Prerequisite, Theater 245.

#### 547. THEATER HISTORY I.

The history of the theater in western civilization from its beginnings to 1642; an investigation of the classical, medieval, and Renaissance theaters. Emphasis on the origins and development of drama, spectacle, theater production, and theater architecture.

#### 548. THEATER HISTORY II.

History of the theater in western civilization. Emphasis on the 18th and 19th centuries, the Continental, English, American and modern theaters.

#### 551. ORAL INTERPRETATION OF CHILDREN'S LITERATURE.

Selection and interpretation of literary materials for children.

#### 552. ADVANCED ORAL INTERPRETATION OF LITERATURE.

Concentration on the philosophical and technical bases for reading the lyric poem, fiction, drama, and documentary materials. Prerequisite, Theater 152.

#### 553. CHILDREN'S DRAMA I.

Informal dramatics, without an audience, in classroom and recreation programs, serving children's need for creative outlets and furthering awareness, self-expression, self concepts, and social growth through imagination, pantomime, and improvised story dramatization.

#### 554. CHILDREN'S DRAMA II.

Formal aspects of children's theater; the selection and presentation, by adults or older young people, of suitable plays for the child audience.

## GRADUATE SCHOOL

### 557. STAGE AND TELEVISION LIGHTING.

Principles, practices, and equipment involved in stage and television lighting. Prerequisites, Theater 115 and 140.

### 561. HISTORY OF DRAMATIC THEORY.

A survey of important trends and documents in the history of dramatic theory from Plato to 1900. Prerequisite, Theater 260.

### 562. THE BLACK PRESENCE IN AMERICAN DRAMA.

Selected works by American white and black playwrights, from mid-19th century to the present.

### 564. HISTORY OF THE AMERICAN THEATER AND DRAMA.

The history of the American theater from its beginnings in the 18th century to the present. Concerned in each period with the drama itself, the building in which it is performed, scenic effects, and the contribution of actor and director.

### 660. PLAYWRITING.

The problems of translating idea into dramatic action. Prerequisite, permission of instructor.

## Wildlife and Fisheries Biology

### GRADUATE FACULTY

DONALD R. PROGULSKE, *Professor and Head of the Department of Forestry and Wildlife Management*, B.S., Massachusetts, 1950; M.S., Virginia Polytechnic Institute, 1952; Ph.D., University of Missouri, 1956.

CHARLES F. COLE, *Professor of Fisheries Biology and Graduate Program Director in Fisheries*, B.A., Cornell, 1950; Ph.D., 1957.

FREDERICK GREELEY, *Associate Professor of Wildlife Biology and Graduate Program Director in Wildlife*, B.A., Kenyon College, 1941; M.S., Wisconsin, 1949; Ph.D., 1954.

CARL A. CARLOZZI, *Associate Professor of Resource Planning*.

WENDELL E. DODGE, *Associate Professor of Wildlife Biology*, B.A., New Hampshire, 1955; M.S., Massachusetts, 1958; Ph.D., 1967.

JAMES E. JOHNSON, *Assistant Professor of Fisheries Biology*, B.S., Purdue, 1962; M.S., Butler, 1965; Ph.D., Arizona State, 1969.

JOSEPH J. KENNELLY, *Associate Professor of Wildlife Biology*, B.S., Cornell, 1958; M.S., 1960; Ph.D., 1964.

JOSEPH S. LARSON, *Professor of Wildlife Biology*, B.S., Massachusetts, 1956; M.S., 1958; Ph.D., Virginia Polytechnic Institute, 1966.

JAMES D. PARRISH, *Assistant Professor of Fisheries Biology*, B.S., South Carolina, 1956; Ph.D., Rhode Island, 1972.

ROGER J. REED, *Professor of Fisheries Biology*, B.S., Pittsburgh, 1951; M.S., 1953; Ph.D., 1956.

MICHAEL R. ROSS, *Assistant Professor of Fisheries Biology*, B.S., Miami, 1969; M.Sc., Ohio, 1971; Ph.D., 1975.

### THE DOCTOR OF PHILOSOPHY DEGREE PROGRAM IN WILDLIFE AND FISHERIES BIOLOGY

Students completing the master's degree at the University or elsewhere may be accepted into our doctoral

## UNIVERSITY OF MASSACHUSETTS

program but are formally admitted to candidacy only after the completion of a successful written and oral preliminary comprehensive examination based on concepts in general biology, ecology, fisheries and wildlife biology, and such other areas as may be stipulated by the student's Guidance Committee. Selection of courses is done by the student and his Guidance Committee and usually extends into areas beyond biology, leading the student towards competency in independent research in either fisheries or wildlife biology. A reading knowledge of one or more foreign languages sufficient to understand journal material may be required of doctoral students in certain areas of specialization. The degree normally requires three years of study beyond the master's degree.

### THE MASTER OF SCIENCE DEGREE PROGRAM IN EITHER FISHERIES BIOLOGY OR WILDLIFE BIOLOGY

Students may be accepted into the master's degree program leading to a degree either in fisheries biology or in wildlife biology. Applicants normally come from undergraduate biological backgrounds or from applied biological areas such as fisheries or wildlife. Students with backgrounds in areas tangential to the field of resource conservation may apply with the understanding that deficiencies could extend their time in the program; normally, two years are required for the completion of the master's degree. Candidates normally write theses worth 10 hours of credit and are given a final oral examination upon its completion. Occasional wildlife biology students completing a degree without a thesis must pass both a written and an oral examination. Students completing a thesis must offer in addition a minimum of 20 graduate credits, at least 6 of which must be earned in 701-800 series courses. There is no language requirement for the master's degree.

### GENERAL INFORMATION

The Forestry and Wildlife Management Department offers graduate work leading to the Master of Science degree either in wildlife or in fisheries biology and the Doctor of Philosophy in wildlife and fisheries biology. Staff and facilities are available for supporting research in upland and wetland avian biology, mammalian biology and management; and estuarine, anadromous, and warmwater fisheries research as well as in the broader areas of natural resource management. Graduate training is required for professional entrance into state, federal, and private employment in resource management and into teaching positions stressing applied ecological principles in both secondary and college-level programs. Most applicants come from biological backgrounds as undergraduates; occasional exceptions can be made, with the provision that deficiencies be made up. Applicants are encouraged to correspond with the Graduate Program Director in the Department for answers to specific questions, but all application materials should be sent directly to the Graduate School; scores from the Graduate Record Examination, including the Advanced Biology, must accompany all applications. The application must clearly indicate whether the candidate wishes to enter the wildlife biology or the fisheries biology degree program. Research support at both the master's and doctoral level is frequently available either from grants to individual faculty members or through support provided by the Cooperative

## WILDLIFE AND FISHERIES BIOLOGY

Wildlife and Fishery Units; this latter support is provided by the Massachusetts Division of Fisheries and Game, the Massachusetts Division of Marine Fisheries, the United States Bureau of Sport Fisheries and Wildlife, and the Wildlife Management Institute. Undergraduates receiving wildlife or fisheries degrees from the University of Massachusetts are strongly urged to apply to other universities in order to vary their professional training.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### COURSES OPEN TO GRADUATE STUDENTS ONLY (For either major or minor credit)

700. SPECIAL PROBLEMS IN WILDLIFE OR FISHERIES BIOLOGY.

Credit, 3 per semester; maximum credit, 6.

701, 702. SEMINAR IN WILDLIFE AND/OR FISHERIES BIOLOGY.

Review and discussion of the literature, including such subjects as population dynamics and manipulation, fish and game law and administration, Afro-Eurasian problems, influence of land-use, and Arctic environments.

Credit, 1-3 per semester; maximum credit, 6.

712. SHIPBOARD OCEANOGRAPHIC OPERATIONS.

The planning and execution of an integrated research training cruise on board a research vessel. Familiarizes students with standard oceanographic procedures and normal shipboard equipment and its use.

Prerequisite, graduate status in a basic or applied science related to the sea. One two-hour class per week and a 3-5 day training cruise (also listed as Marine Sci 712).

Mr. C. F. Cole.

745. DYNAMICS OF EXPLOITED FISH POPULATIONS. The development and manipulation of mathematical models of fish stocks to demonstrate sustained yield principles.

Two one-hour lectures and one two-hour discussion-practice session.

Prerequisite, permission of instructor. Mr. C. F. Cole.

756. FISHERIES BIOMETRICS.

The statistical treatment of fisheries research problems, including studies on age and growth, food habits, population estimates, condition factors, and population dynamics.

Prerequisites, Fish Biol 565 and Stat 121 or permission of instructor.

757. ADVANCED FISHERIES MANAGEMENT.

Scientific basis for modern fisheries management, emphasizing coldwater fishes, anadromous species, large reservoir and river fisheries, and conflicts of interest with other water uses.

Prerequisites, Fish Biol 565 and 756, or permission of instructor.

758. ADVANCED WILDLIFE MANAGEMENT.

Interrelationships of wildlife and forestry, grazing, cultivation, pollution, and other uses of natural resources.

800. MASTER'S THESIS.

Credit, 6-10.

900. DOCTORAL DISSERTATION.

Credit, 18.

#### COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS (For either major or minor credit)

561. PRINCIPLES OF WILDLIFE BIOLOGY.

Fundamental ecology and principles of wildlife management, with emphasis on population characteristics and responses.

Lecture only, for non-majors. Credit, 2. Mr. Greeley.

Lecture and laboratory, for majors. Credit, 3. Mr. Greeley.

## ZOOLOGY

562. **TECHNIQUES OF WILDLIFE BIOLOGY.**  
Methods of collecting and interpreting data in wildlife management, with emphasis on field and laboratory experience in census methods and criteria for determining sex, age, and other characteristics of wild birds and mammals.  
Prerequisites, one course in Statistics and Wild Biol 561 or permission of instructor.  
Mr. Larson.

563. **MANAGEMENT OF WETLAND WILDLIFE.**  
The origin and distribution of wetlands in North America; identification and habitat requirements of wetland wildlife; public and private management of wetland environments.  
Prerequisites, Wild Biol 561 or permission of instructor.  
Mr. Larson.

564. **MANAGEMENT OF UPLAND WILDLIFE.**  
Life histories, identification, and habitat requirements of upland game birds, game mammals, and furbearers; management of upland habitats.  
Mr. Greeley.

565. **TECHNIQUES OF FISHERIES BIOLOGY.**  
Principles and techniques of fishery management, stressing population and growth dynamics, and field procedures.

567. **LABORATORY IN PRINCIPLES OF FISHERY BIOLOGY.**  
Field techniques in fishery biology; operation and use of fishery research and management equipment. Laboratory analysis of field-collected data using automatic data processing; manuscript preparation.  
Corequisite, Fish Biol 565.  
One 4-hour laboratory.  
Credit, 1.

570. **ECOLOGY OF FISHES.**  
Biological responses of fishes to the environment. Aspects of feeding, home range, breeding behavior, and other responses to the environment.  
Prerequisites, Fish Biol 565 and Zool 602 or permission of instructor.

572. **INTRODUCTION TO MARINE FISHERIES.**  
Factors affecting world marine fisheries resources and development. Review of selected species of commercial importance and of selected world fisheries. Several overnight field trips requiring Saturday attendance by arrangement.  
Prerequisites, Fish Biol 565 and Zool 600 or permission of instructor.  
Mr. C. F. Cole.

## Zoology

### GRADUATE FACULTY

JOHN D. PALMER, *Professor and Chairman of the Department of Zoology*, B.A., Lake Forest, 1957; M.S., Northwestern, 1959; Ph.D., 1962.

STUART D. LUDLAM, *Associate Professor and Graduate Program Director*, B.A., Cornell, 1960; Ph.D., 1964.

LAWRENCE M. BARTLETT, *Professor*, B.S., Massachusetts, 1939; M.S. 1942; Ph.D., Cornell, 1949.

MARGERY C. COOMBS, *Assistant Professor*, B.A., Oberlin College, 1967; M.A., Columbia, 1968; Ph.D., 1973.

VINCENT G. DETHIER, *Gilbert L. Woodside Professor*, A.B., Harvard, 1936; A.M., 1937; Ph.D., 1939.

D. CRAIG EDWARDS, *Associate Professor*, B.S., Swarthmore, 1961; Ph.D., Chicago, 1965.

BRONISLAW M. HONIGBERG, *Professor*, B.A., California at Berkeley, 1943; M.A., 1946; Ph.D., 1950.

MINDAUGAS S. KAULENAS, *Associate Professor*, B.Sc., University of London, 1961; Ph.D., 1964.

DAVID J. KLINGENER, *Associate Professor*, B.A., Swarthmore, 1959; A.M., Michigan, 1961; Ph.D., 1964.

## GRADUATE SCHOOL

JOSEPH G. KUNKEL, *Associate Professor*, B.A., Columbia, 1964; Ph.D., Case Western Reserve, 1968.

BRUCE R. LEVIN, *Associate Professor*, B.S., University of Michigan, 1963; M.S., 1964; Ph.D., 1967.

BRADFORD C. LISTER, *Donald Fairbairn Visiting Professor*, B.A., Tufts, 1969; Ph.D., Princeton, 1974.

ARTHUR P. MANGE, *Associate Professor*, B.S., Cornell, 1954; Wisconsin, 1958; Ph.D., 1963.

JOHN G. MONER, *Professor*, Johns Hopkins, 1949; M.A., Princeton, 1951; Ph.D., 1953.

DREW M. NODEN, *Assistant Professor*, B.A., Washington and Jefferson; Ph.D., Washington, 1972.

MELINDA A. NOVAK, *Assistant Professor of Psychology*.

WILLIAM B. NUTTING, *Professor*, B.S., Massachusetts, 1940; M.S., 1948; Ph.D., Cornell, 1950.

W. BRIAN O'CONNOR, *Associate Professor*, B.S., St. Michael's, 1962; M.S., Purdue, 1966; Ph.D., 1967.

HERBERT E. POTSWALD, *Associate Professor*, B.A., University of Minnesota, 1959; Ph.D., University of Washington, 1964.

HAROLD RAUCH, *Professor*, B.S., Queens College, 1944; M.S., Illinois, 1947; Ph.D., Brown, 1950.

JOHN L. ROBERTS, *Professor*, B.S., Wisconsin, 1947; M.S., 1948; Ph.D., California at Los Angeles, 1952.

LARRY S. ROBERTS, *Professor*, B.S., Southern Methodist, 1956; M.S., Illinois, 1958; D.Sc., Johns Hopkins, 1961.

H. DUNCAN ROLLASON, JR., *Professor*, B.A., Middlebury, 1939; M.A., Williams, 1941; M.A., Harvard, 1943; Ph.D., 1949.

THEODORE D. SARGENT, *Professor*, B.S., Massachusetts, 1958; M.S., Wisconsin, 1960; Ph.D., 1963.

DENNIS G. SEARCY, *Assistant Professor*, B.S., Oregon State, 1964; Ph.D., California at Los Angeles, 1968.

JAMES G. SNEDECOR, *Professor*, B.S., Iowa State, 1939; Ph.D., Indiana University, 1947.

DANA P. SNYDER, *Associate Professor*, B.S., Illinois, 1947; M.S., 1948; Ph.D., Michigan, 1951.

ALASTAIR M. STUART, *Professor*, B.Sc., Glasgow, 1953; Ph.D., Harvard, 1961.

CHRISTOPHER L. F. WOODCOCK, *Associate Professor*, B.Sc., University College, London, 1963; Ph.D., 1966.

GORDON A. WYSE, *Associate Professor*, B.S., Swarthmore, 1961; M.S., University of Michigan, 1963; Ph.D., 1967.

The Department of Zoology offers the Master of Science and Doctor of Philosophy degrees. The following major fields are represented in the department: Animal Behavior, Biochemical Zoology, Cytology (including fine structure), Developmental Biology, Ecology, Genetics, Invertebrate Zoology, Limnology, Parasitology, Physiology, Population Biology, Vertebrate Paleontology, and Vertebrate Zoology.

Applicants for admission to the advanced degree programs should have a bachelor's degree, have had at least 10 credit hours in biology and normally have been in the upper 20% of their class in college. A recommended undergraduate curriculum would include courses in comparative anatomy, embryology, genetics, invertebrate zoology, physiology, mathematics

## UNIVERSITY OF MASSACHUSETTS

## ZOOLOGY

(through elementary calculus), physics, organic chemistry, and either French, German or Russian.

Applicants who already have a Master's degree equivalent to our own may be accepted for entry into the Ph.D. program. All applicants should submit Graduate Record Examination scores to the Graduate School.

Requests for further information about the graduate program should be directed to the Department of Zoology.

### ADVANCED DEGREES

#### I. FOR STUDENTS ENTERING WITH A BACHELOR'S DEGREE AS THEIR HIGHEST DEGREE, THE FOLLOWING REQUIREMENTS MUST BE MET:

##### A. REQUIREMENTS COMMON TO BOTH THE M.S. AND Ph.D. DEGREES.

1) All students must demonstrate a proficiency in six areas of zoology (Cell Biology; Developmental Biology; Ecology and Behavior; Genetics and Evolution; Morphology and Systematics; Physiology) by successfully accumulating nine points out of 12 in a Qualifying Examination given each semester during their first two years (if a Master's candidate), or in the case of those wishing to proceed to the Ph.D. normally during their first one and a half years.

2) All students must enroll in the Zoology 850 seminar and obtain a minimum average of one credit per year of residence, or until a total of four credits has been acquired.

3) Teaching is regarded as an important part of graduate training, and all students are required to teach half-time for two semesters, unless equivalent experience has been obtained previously at another institution.

4) A foreign language requirement must be met. The normal languages are French, German and Russian. For the M.S. one language passed at the intermediate level, and for the Ph.D. one language passed at the advanced level or two languages passed at the intermediate level are acceptable. Foreign students whose native language is not English may meet the requirement for the Ph.D. by passing one language at the intermediate level.

##### B. REQUIREMENTS FOR THE M.S.

1) All requirements under "A" above.

2) EITHER:

(i) Acceptance of a thesis containing original research (Zoology 800, 10 credits); 20 graduate credits, at least 6 of which must be earned in the 700-900 series in Zoology (or in courses approved for major credit in Zoology) excluding Zoology 700, 800 and 850.

(ii) A program of original research under one supervisor, but without the preparation of a thesis. This program will consist of 9 credits of Zoology 700, Special Problems. In addition, 21 graduate credits must be taken, at least 6 of which must be earned in the 700-900 series in Zoology (or in courses approved for major credit in Zoology) excluding Zoology 700, 800 and 850.

(iii) Three credits of Zoology 700, Special Problems, to be completed in one semester; 29 additional grad-

uate credits must be taken with at least 12 being from the 700-900 series in Zoology (or in courses approved for major credit in Zoology) excluding Zoology 700, 800 and 850.

3) The passing of a final examination.

##### C. REQUIREMENTS FOR THE Ph.D.

1) All requirements under "A" above.

2) The passing of an Oral Preliminary Examination demonstrating advanced knowledge of one major and two minor fields selected from the following: Animal Behavior, Cell Physiology and Biochemistry, Developmental Biology, Ecology, Parasitology, Physiology, Systematics and Evolution. Equivalent work in another department may be substituted as one minor area; this requires the consent of the student's guidance committee and the Departmental Graduate Operations Committee. Note: the Graduate School requires that the departmental language requirement must be met before the Preliminary Examination can be taken.

3) The preparation of a thesis with original research.

4) The passing of a final examination.

#### II. FOR STUDENTS ENTERING WITH A MASTER'S DEGREE, THE FOLLOWING REQUIREMENTS MUST BE MET:

##### A. Requirements for the Ph.D.

1) All requirements under I-A above except I-A (1), the passing of a qualifying examination.

2) Acceptance by a faculty member willing to act as a supervisor.

3) The passing of a preliminary examination (see C-2 above).

4) The preparation of a thesis containing original research.

5) The passing of a final examination.

III. A more detailed account of the requirements for the advanced degrees, the qualifying examination, and a timetable (regarded as a standard for "reasonable and satisfactory progress") are given in a Departmental booklet: "Academic Policies Concerning Graduate Programs". This is sent to all incoming students and together with the above, and the Graduate School rules delineates the requirements for the degrees.

### ALL COURSES CARRY 3 CREDITS UNLESS OTHERWISE SPECIFIED

#### COURSES OPEN TO GRADUATE STUDENTS ONLY

(For either major or minor credit)

##### 700. SPECIAL PROBLEMS.

*Credit, 1-9.*

##### 702. GENERAL CYTOLOGY

The morphological features of cells in relation to their function. Lectures, seminar reports and individual laboratory work.

Offered spring semester.

Prerequisite, Zool 523.

##### 707. BIOLOGICAL STRUCTURE ANALYSIS.

A practical approach to methods for studying biological structures above the molecular level. Lectures, discussions, and laboratory experiments and demonstrations cover light and electron microscopy, X-ray diffraction, and related techniques.

Offered spring semester.

Prerequisite, permission of instructor.

Mr. Woodcock.

## ZOOLOGY

## GRADUATE SCHOOL

### 708. ELECTRON MICROSCOPY.

A practical approach to the electron microscopy of biological specimens in which each student will undertake a lab project. Basic theory will be presented in lecture sessions. Offered fall semester.

Prerequisite, permission of instructor. Mr. Woodcock.

### 710. FINE STRUCTURE AND FUNCTION OF CELLS.

Lectures, discussions, reading, and reports on fine structure of cells and dynamic morphology. Offered spring semester.

Prerequisites, Zool 523, 660. Mr. Woodcock.

### 720. EXPERIMENTAL EMBRYOLOGY.

Lectures and discussions on the casual analysis of animal development. Laboratory on *in vivo* and *in vitro* culture methods. Offered fall semester.

Prerequisites, Zool 680 or 527. Mr. Noden.

### 724. ADVANCED DEVELOPMENTAL BIOLOGY.

Molecular basis of cell and tissue differentiation. Emphasis on gene action, synthesis and function of macromolecules, and hormonal control of developmental processes. Offered spring semester.

Prerequisites, Biochem 523 or Zool 660; Zool 540. Mr. Kaulenas.

### 730. PHYSIOLOGICAL GENETICS.

The nature of the gene and its action in the developmental and physiological processes of the organism. Offered spring semester.

Prerequisites, Zool 540 and permission of instructor. Mr. Kaulenas, Mr. Rauch.

### 740. ADVANCED INVERTEBRATE ZOOLOGY.

Continuation of Zoology 582. Emphasis on development. Offered spring semester.

Prerequisite, Zool 582. Mr. Potswald.

### 744. METAZOAN SYMBIOSIS.

Host-symbiont relationships of mutuals, commensals, and parasites. Systematics, morphology, life histories, and physiology of metazoan symbionts of animals. Laboratory on research techniques. Offered fall semester.

Prerequisites, a course in invertebrate zoology or parasitology; permission of instructor. Mr. L.S. Roberts.

### 750. SELECTED TOPICS IN ANIMAL BEHAVIOR.

Topics selected from active areas of current research (e.g., communication, development, systems analysis, sociobiology) with an emphasis on critical analyses of theory and methodology. Three hours lecture-discussion-reports. Offered spring semester.

Prerequisite, Zool 650, or permission of instructor. Mr. Sargent, Mr. Stuart.

### 751. BIOLOGY OF ANIMAL POPULATIONS.

Organization and process in the local population. The viewpoint is holistic, emphasizing the population as an integrated functional unit of life. Extensive student participation in discussion and presentation of critiques of current concepts. Offered fall semester.

Prerequisites, Zool 757 and either 546, 650, or 755; or equivalent background; permission of instructor. Mr. Snyder.

### 755. SYSTEMATICS AND EVOLUTIONARY MECHANISMS.

A theoretical consideration of evolution and systematics at and above the species level. Offered fall semester.

Prerequisite, Zool 540. Mr. Klingener.

### 757. POPULATION AND COMMUNITY ECOLOGY.

Distribution patterns of organisms, population growth and regulation, interspecific competition and other population interactions, and community structure and energetics. Sampling methods, use of models, individual and group projects in the laboratory. Two hours lecture-discussion, one laboratory. Offered spring semester.

Prerequisites, one course each in ecology, invertebrate zoology, Math 124; statistics desirable. Mr. Edwards.

Prerequisites, one course each in ecology, invertebrate zoology, Math 124; statistics desirable. Mr. Edwards.

Prerequisites, one course each in ecology, invertebrate zoology, Math 124; statistics desirable. Mr. Edwards.

Prerequisites, one course each in ecology, invertebrate zoology, Math 124; statistics desirable. Mr. Edwards.

### 770. COMPARATIVE NEUROPHYSIOLOGY.

Sensory and nervous function in invertebrates and vertebrates. Emphasis on integrative mechanisms underlying animal behavior. Offered fall semester.

Prerequisites, a year of chemistry and physics, and cell physiology or physiological psychology; or permission of instructor. Credit, 3. Mr. Wyse.

### 780. PHYSIOLOGICAL REGULATORY MECHANISMS.

Physiological regulation and its basis in cells and organisms. Prerequisite, Zool 660 or equivalent.

Credit, 2-4 per semester.

Mr. J. L. Roberts, Mr. Moner.

### 784. ENDOCRINOLOGY.

The importance of the endocrines in their control over normal functions (growth, metabolism, reproduction, etc.) in a variety of animals. Two class hours, one 3-hour laboratory period. Offered spring semester.

Prerequisite, Zool 666. Mr. Snedecor.

### 790. WRITING FOR THE LIFE SCIENCES.

Principles and techniques of scientific writing for students in the life sciences whose researches are well advanced. Offered spring semester.

Prerequisite, permission of instructor. Staff.

### 810. TOPICS IN ZOOLOGY.

One or more topics of special or current interest covered in lectures and discussion. Credit, 1-6 per semester.

### 850. SEMINAR.

Each semester a topic from each of the following areas is chosen for discussion: cytology, genetics, and developmental biology; physiology and biochemistry; environmental and systematic biology. Credit, 1 per semester.

### 800. MASTER'S THESIS.

Credit, 10.

### 900. DOCTORAL DISSERTATION.

Credit, 10.

### COURSES OPEN TO BOTH GRADUATE AND UNDERGRADUATE STUDENTS (For either major or minor credit)

### 521. COMPARATIVE VERTEBRATE ANATOMY.

Structure and phylogeny of vertebrates. Laboratory work illustrating evolutionary trends and specializations. Experience in dissection. Two class hours, one 3-hour laboratory period.

Prerequisite, Zool 101 or 540. Mrs. Coombs, Mr. Klingener.

### 523. HISTOLOGY.

Structure of cells, tissues and organs as related to function, with emphasis on the mammal; introduction to microtechnique. Two class hours, one 3-hour laboratory period.

Prerequisite, Zool 101 or 540. Mr. Potswald, Mrs. Rollason.

### 527. EMBRYOLOGY.

A survey of embryonic development combining descriptive and analytical approaches. Developmental concepts and mechanisms are emphasized. Laboratories cover both descriptive and experimental embryology, utilizing living organisms whenever possible. Offered spring semester.

Two class hours, one 3-hour laboratory period. Prerequisite, Zool 101 or 540. Mr. Noden.

## UNIVERSITY OF MASSACHUSETTS

## ZOOLOGY

### 530. SYSTEMS OF THE HUMAN BODY.

Lectures on human anatomy and physiology, based on an integrated discussion of systems of the body. Laboratories emphasize the functional properties of the human organism; supplemental exercises in gross anatomy of the cat and rat. For students in Medical Technology and Public Health. A limited number of students in the engineering and physical science fields allowed by permission of instructor.

Three class hours, one 3-hour laboratory period.  
Offered spring semester.

Prerequisites, Chem 111, 112; Zool 101, 223 (or 223 concurrently). Credit, 4. Mr. O'Connor

### 540. PRINCIPLES OF GENETICS.

Mechanisms of heredity in plants and animals, emphasizing transmission and action of genes, population genetics, and evolution.

Prerequisites, Chem 111 and one semester of biological science. Mr. Levin, Mr. Mange, Mr. Rauch.

### 543. INTRODUCTORY POPULATION BIOLOGY

An evolutionary and integrated introduction to the demographic, ecological, genetic, and geographic aspects of the biology of populations. Consideration of social implications and utility. Background in probability theory, statistics, and mathematical and numerical modelling is presented.

Prerequisites, Zool 145 or 540 or equivalent, and 1 semester of mathematics.

Two class hours and one 2-hour period for discussion and problem solving. Mr. Levin.

### 546. POPULATION GENETICS.

The causes of evolution, emphasizing genetical, ecological, and behavioral aspects. Some problems approached through mathematical models, stressing their biological implications. Offered fall semester.

Prerequisites, Zool 540 and Math 123 or 135; and permission of instructor.

### 550. MATHEMATICAL IDEAS IN BIOLOGY.

An introduction to some biological problems using mathematical concepts and techniques as tools. Emphasis on biology; topics are introduced at an elementary level. They include "thinking" machines and artificial intelligence, energetics and locomotion of animals, and elementary models for populations. Intended for biologists, pre-meds, biophysicists, and mathematicians.

Prerequisite, Zool 551 and 552 concurrently or equivalent background.

### 551. BIOLOGY REVIEW FOR ZOOLOGY 550.

A survey of basic aspects of cytology, life cycles, anatomy, genetics, behavior, and populations. Concurrent registration in Zool 550 required. Intended for students with an adequate mathematical background but weak in biology.

### 552. MATHEMATICS REVIEW FOR ZOOLOGY 550.

A survey of basic aspects of sets, functions, derivation and integration, qualitative study of difference and differential equations. Concurrent registration in Zool 550 is required. Intended for students with an adequate biological background but weak in mathematics.

### 575. BIOLOGY OF PROTOZOA

Morphology and physiology of Protozoa; the contributions made to basic problems of biology through studies of these organisms. Lectures, readings, laboratory demonstrations and exercises. Exact format varies from year to year. Total, 5 hours lecture and laboratories.

Offered spring semester.

Prerequisites, Chem 262 and 264.

Mr. Honigberg.

### 581. BIOLOGY OF LOWER INVERTEBRATES

Survey of invertebrate animals based on evolutionary and phylogenetic considerations. Ecological roles and physiological functions of the various groups are stressed. Includes the Protozoa, Porifera, Cnidaria, Platyhelminthes, Nematoda, Mollusca, etc.

Two class hours, one 3-hour laboratory.

Offered spring semester.

Prerequisites, Zool 101 or 540.

Mr. Nutting, Mr. L. S. Roberts.

### 582. BIOLOGY OF HIGHER INVERTEBRATES.

Survey of invertebrate animals based on evolutionary and phylogenetic considerations. Ecological roles and physiological functions of the various groups are stressed. Includes the Annelida, Arthropoda, Ectopoda, Echinodermata, etc.

Two class hours, one 3-hour laboratory.

Offered fall semester

Prerequisites, Zool 101 or 540.

Mr. Nutting, Mr. L. S. Roberts.

### 583. GENERAL PARASITOLOGY

Morphology, life cycles, and physiology of protozoan and helminth parasites. Emphasis on broad aspects of parasitism.

Two class hours, one 3-hour laboratory period.

Offered fall semester.

Prerequisites, Zool 101 or 540; Chem 112 or 114

Mr. Honigberg.

### 600. VERTEBRATE ZOOLOGY.

History, relationships, patterns of distribution, classification of vertebrates with emphasis on fishes.

One class hour, two 2-hour laboratory periods, field trips.

Offered fall semester.

Prerequisite, Zool 101 or 540.

Mr. Andrews

### 602. ICHTHYOLOGY

Morphology, ecology, and relationships of fishes, and their distribution in space and time.

Two class hours, one 3-hour laboratory period.

Prerequisite, Zool 521 or 600

Mr. Andrews.

### 606. ORNITHOLOGY

Avian biology including structural and functional adaptations; emphasis on behavioral patterns. Laboratory includes field trips.

Two class hours, one 3-hour laboratory period.

Offered spring semester

Prerequisite, Zool 521 or 600. Mr. Bartlett, Mr. Sargent.

### 608. MAMMALOLOGY

Evolution, distribution, classification and ecology of mammals. Laboratory includes identification of local fauna and selected ecological techniques.

Two class hours, one 3-hour laboratory period

Offered spring semester.

Prerequisites, Zool 521 or 600.

Mr. Snyder

### 635. LIMNOLOGY

The physical, chemical, and biological aspects of inland waters.

Two class hours, one 3-hour laboratory or field trip.

Offered spring semester.

Prerequisites, Bot 100, Zool 101, Chem 112, and Phys 103

Mr. Ludlam

### 637. ECOLOGY

A rigorous and comprehensive survey of modern ecology. Topics covered are: energy and nutrient budgets, community ecology, species diversity, population growth and regulation, and species interactions. Both theoretical and experimental examples are presented.

Two class hours, and one 3-hour laboratory period (field trips and experimentation).

Offered fall semester

Prerequisites, Introductory zoology, genetics, introductory calculus, and an invertebrate or vertebrate zoology course, or permission of instructor.

### 650. ANIMAL BEHAVIOR.

The biological bases of animal behavior, with an analysis of the methods and objectives of current research.

Three class hours.

Offered fall semester.

Prerequisites, Zool 101 or 540 and Psych 101; or Psych 215; or permission of instructor.

Mr. Sargent, Mr. Stuart

### 660. CELL PHYSIOLOGY

The structure and function of cells. Emphasis on membrane systems, including active transport, nucleic acid and protein

synthesis, and the mechanisms involved in the control of cellular processes.

Two class hours, one 3-hour laboratory period.  
Prerequisites, one year of biology and Biochem 223 or equivalent. Mr. Kaulenas, Mr. Kunkel, Mr. Moner, Mr. Searcy.

#### 666. VERTEBRATE PHYSIOLOGY.

Function of organs and organ systems in vertebrates.  
Three class hours, one 3-hour laboratory period.  
Offered fall semester.  
Prerequisite, Zool 660 or Chem 520 or 523. Mr. Snedecor.

#### 670. COMPARATIVE PHYSIOLOGY.

Physiological principles involved in adaptations of animals to their environment; emphasis in the laboratory on experimental methods used to study adaptive mechanisms.  
Three class hours, one 3-hour laboratory period.  
Offered spring semester.  
Prerequisite, Zool 660. Mr. J. L. Roberts.

#### 680. DEVELOPMENTAL BIOLOGY.

Lectures emphasize physiological and biochemical aspects of development. Laboratory period used for demonstrations, discussions, and literature reviews, as well as for experimental work.  
Two class hours, one 3-hour laboratory period.  
Prerequisite, Zool 660. Mr. Kaulenas, Mr. Kunkel.

#### PARTIAL LIST OF COURSES IN OTHER DEPARTMENTS WHICH MAY BE TAKEN FOR MAJOR CREDIT

AN SCI 706. QUANTITATIVE INHERITANCE AND SELECTION.

AN SCI 724. ADVANCED AVIAN PHYSIOLOGY.

AN SCI 725. MAMMALIAN REPRODUCTION.

BOTANY 711, 712. ADVANCED PLANT PHYSIOLOGY.

BOTANY 721. ADVANCED PLANT ECOLOGY.

BIOCHEM 729. ENZYMES.

ENT 611. INSECT BEHAVIOR.

MICROBIOL 710. ADVANCED IMMUNOLOGY.

MICROBIOL 720. MAMMALIAN VIROLOGY.

MICROBIOL 770. MICROBIAL GENETICS.

AN SCI 621. PHYSIOLOGY OF REPRODUCTION.

BOTANY 521. PLANT ECOLOGY.

BOTANY 611. CYTOLOGY.

BIOCHEM 524. GENERAL BIOCHEMISTRY.

CHEM 544. RADIOCHEMISTRY.

CHEM 581, 582. ELEMENTARY PHYSICAL CHEMISTRY.

GEOL 540. INVERTEBRATE PALEONTOLOGY.

MICROBIOL 550. GENERAL MICROBIOLOGY.

MICROBIOL 610. IMMUNOLOGY.

MICROBIOL 620. VIROLOGY.

PSYCH 550. PHYSIOLOGICAL PSYCHOLOGY.

## Faculty Emeriti

### AGRICULTURAL AND FOOD ECONOMICS

FAYETTE HINDS BRANCH, *Extension Professor Emeritus of Agricultural Economics and Farm Management.*

ADRIAN HERVE LINDSEY, *Professor Emeritus of Agricultural Economics and Head Emeritus of the Department of Agricultural Economics and Farm Management.*

DAVID ROZMAN, *Research Professor Emeritus.*

RUTH EVELYN SHERBURNE, *Instructor Emeritus.*

### ANIMAL SCIENCE

KENNETH BULLIS, *Professor Emeritus (1961).*

FRED P. JEFFREY, *Professor Emeritus (1971).*

HENRY VAN ROEKEL, *Professor Emeritus (1965).*

### BUSINESS ADMINISTRATION

HAROLD E. HARDY, *Professor Emeritus of Marketing.*

HENRY BENJAMIN KIRSHEN, *Dean Emeritus of the School of Business Administration.*

RUDOLPH HAROLD KYLER, *Associate Professor Emeritus of Business Administration.*

### CHEMICAL ENGINEERING

HANS C. DUUS, *Professor Emeritus*

### CHEMISTRY

EMMETT BENNETT, *Professor Emeritus.*

### CIVIL ENGINEERING

ELMER C. OSGOOD, *Professor Emeritus (1973).*

### EDUCATION

ALBERT WILLIAM PURVIS, *Dean Emeritus (1967).*

### ELECTRICAL ENGINEERING

JOSEPH W. LANGFORD, *Professor Emeritus (1972).*

### ENGLISH

ELLSWORTH BARNARD, *Professor Emeritus (1973).*

MARIE CAMPBELL, *Professor Emeritus (1973).*

H. LELAND VARLEY, *Professor Emeritus (1973).*

### ENTOMOLOGY

CHARLES P. ALEXANDER, *Professor Emeritus (1959).*

## UNIVERSITY OF MASSACHUSETTS

FRANK R. SHAW, *Professor Emeritus* (1970).

MARION E. SMITH, *Associate Professor Emeritus* (1971).

HARVEY L. SWEETMAN, *Professor Emeritus* (1966).

ELLSWORTH H. WHEELER, *Professor Emeritus* (1969).

### FOOD AND AGRICULTURAL ENGINEERING

GERALD A. FITZGERALD, *Professor Emeritus* (1970).

### FOOD SCIENCE AND TECHNOLOGY

ARTHUR S. LEVINE, *Professor Emeritus* (1968).

### FORESTRY AND WOOD TECHNOLOGY

J. HARRY RICH, *Professor Emeritus of Forestry* (1958).

### FRENCH

STOWELL C. GODING, *Professor Emeritus*.

### GERMANIC LANGUAGES AND LITERATURES

FREDERICK C. ELLERT, *Professor Emeritus* (1970).

### HISTORY

THEODORE C. CALDWELL, *Professor Emeritus* (1970).

HAROLD CARY, *Professor Emeritus* (1969).

### HOME ECONOMICS

GLADYS MAE COOK, *Associate Professor Emeritus* (1968).

MAY ESTELLA FOLEY, *Extension Professor Emeritus*.

BARBARA HIGGINS, *Extension Professor Emeritus* (1968).

N. MAY LARSON, *Extension Professor Emeritus*.

MARY E. LOJNIN, *Associate Professor Emeritus* (1969).

H. RUTH MCINTIRE, *Professor Emeritus*.

HELEN SWIFT MITCHELL, *Dean Emeritus of the School of Home Economics* (1960).

ANNE WILLIAMS WERTZ, *Commonwealth Professor Emeritus of Research* (1963).

### PHILOSOPHY

ROGER W. HOLMES, *Mary Lyon Professor Emeritus* (1971) (Mount Holyoke College).

ALICE A. LAZEROWITZ, *Sophia and Austin Smith Professor Emeritus* (1972) (Smith College).

MORRIS LAZEROWITZ, *Sophia and Austin Smith Professor Emeritus* (1973) (Smith College).

CLARENCE SHULTE, *Professor Emeritus* (1971).

### PLANT PATHOLOGY

WAITER M. BANFIELD, *Professor Emeritus* (1972).

EMIL FREDERICK GUBA, *Commonwealth Professor Emeritus*.

LINUS HALE JONES, *Assistant Research Professor Emeritus*.

MALCOLM A. MCKENZIE, *Professor and Director, Shade Tree Laboratory Emeritus* (1973).

### PLANT AND SOIL SCIENCES

JOHN S. BAILEY, *Professor Emeritus* (1964).

ARTHUR P. FRENCH, *Professor Emeritus* (1961).

GRANT B. SNYDER, *Professor Emeritus* (1963).

CLARK L. THAYER, *Professor Emeritus* (1957).

WILBUR H. THIES, *Professor Emeritus* (1955).

HAROLD E. WHITE, *Professor Emeritus* (1963).

### SLAVIC LANGUAGES AND LITERATURE

ARON PRESSMAN, *Professor Emeritus*.

### WILDLIFE AND FISHERIES BIOLOGY

WILLIAM G. SHELDON, *Leader Emeritus of Cooperative Wildlife Research Unit* (1972).

REUBEN E. TRIPPENSEE, *Professor Emeritus of Wildlife Management* (1960).

## Associated Five-College Graduate Faculty

E. JEFFERSON MURPHY, *Five-College Coordinator*, A.B., Amherst University, 1948; M.A., 1949; Ph.D., University of Connecticut, 1973.

BRUCE B. BENSON, *Professor of Physics*, B.A., Amherst, 1943; M.S., Yale, 1945; Ph.D., 1947.

## Amherst College

HUGH J. J. AITKEN, *Professor of Economics*, M.A., St. Andrews University, Scotland, 1943; M.A., University of Toronto, Canada, 1948; Ph.D., Harvard, 1951.

LAWRENCE A. BABB, *Associate Professor of Anthropology and Sociology*, B.A., University of Michigan, 1963; M.A., University of Rochester, 1965; Ph.D., 1969.

NORMAN BIRNBAUM, *Professor of Sociology*, A.B., Williams, 1947; M.A., Harvard, 1951; M.A., Oxford, England, 1960; Ph.D., Harvard, 1958.

GERALD P. BROPHY, *Professor of Geology*, A.B., Columbia, 1951; M.A., 1953; Ph.D., 1954.

LINCOLN P. BROWER, *Professor of Biology*, A.B., Princeton, 1953; Ph.D., Yale, 1957.

## GRADUATE SCHOOL

ASA J. DAVIS, *Professor of History and Black Studies*, B.A., Wilberforce University, 1948; S.T.B., Harvard, 1951; S.T.M., 1952; Ph.D., 1960.

COLBY W. DEMPSEY, *Professor of Physics*, B.A., Oberlin, 1952; M.A., Rice, 1955; Ph.D., 1957.

JAN EMIL DIZARD, *Associate Professor of Sociology*, B.A., University of Minnesota, M.A., 1964; Ph.D., University of Chicago, 1967.

JOSEPH EPSTEIN, *Professor of Philosophy*, B.S.S., City College of New York, 1939; M.A., Amherst, 1961; Ph.D., Columbia, 1951.

RICHARD D. FINK, *Professor of Chemistry*, A.B., Harvard, 1958; Ph.D., Massachusetts Institute of Technology, 1962.

STUART GORDON FISHER, *Assistant Professor of Biology*, B.S., Wake Forest, 1965; M.A., 1967; Ph.D., Dartmouth, 1970.

RICHARD M. FOOSE, *Professor of Geology*, B.S., Franklin and Marshall, 1937; M.S., Northwestern, 1939; Ph.D., Johns Hopkins, 1942.

PROSSER T. GIFFORD, *Professor of History*, B.A., Yale College, 1951; B.A., Oxford University, 1953; LL.B., Harvard University, 1956; Ph.D., Yale University, 1964.

ELMO GIORDANETTI, *Professor of Romance Languages*, B.A., Bowdoin, 1951; M.A., Princeton, 1954; Ph.D., 1959.

WALTER GODCHAUX III, *Assistant Professor of Biology*, B.S., Massachusetts Institute of Technology, 1960; Ph.D., 1965.

JOEL E. GORDON, *Professor of Physics*, A.B., Harvard, 1952; Ph.D., Columbia, 1958.

GEORGE S. GREENSTEIN, *Assistant Professor of Astronomy*, B.S., Stanford University, 1962; Ph.D., Yale University, 1968.

ROBERT FREEMAN GROSE, *Associate Professor of Psychology*, B.A., Yale University, 1944; M.S., 1947; Ph.D., 1953.

MUFARO J. HOVE, *Assistant Professor*, B.Sc., Wittenburg University, 1967; M.Sc., Northwestern, 1968; Ph.D., 1971.

ERNEST A. JOHNSON, JR., *Professor of Romance Languages*, B.A., Amherst, 1939; M.A., Chicago, 1940; Ph.D., Harvard, 1950.

GEORGE KATEB, *Professor of Political Science*, A.B., Columbia, 1952; A.M., 1953; Ph.D., 1960.

THOMAS R. KEARNS, *Associate Professor of Philosophy*, B.A., University of Illinois, 1959; LL.B., University of California, 1962; M.A., 1964; Ph.D., University of Wisconsin, 1968.

WILLIAM E. KENNICK, *Professor of Philosophy*, A.B., Oberlin, 1945; Ph.D., Cornell, 1952.

ALLEN KROPF, *Professor of Chemistry*, B.S., Queens, 1951; Ph.D., Utah, 1954.

EDWARD R. LEADBETTER, *Professor of Biology*, B.S., Franklin and Marshall, 1955; Ph.D., Texas, 1959.

ROBERT MAY, *Clinical Psychologist*, B.A., Wesleyan University, 1962; Ph.D., Harvard University, 1969.

NANA NKETSIA, *Professor*, B.A., Oxford University; Ph.D., Oxford University.

ROSE R. OLVER, *Professor of Psychology*, B.A., Swarthmore College, 1958; Ph.D., Radcliffe College, 1962.

DONALD S. PITKIN, *Professor of Anthropology*, B.A., Harvard, 1947; M.A., 1950; Ph.D., 1954.

ROBERT H. ROMER, *Professor of Physics*, A.B., Amherst, 1952; Ph.D., Princeton, 1955.

GEORGE S. SACERDOTE, *Assistant Professor of Mathematics*, S.B., Massachusetts Institute of Technology, 1967; Ph.D., Illinois, 1976.

G. DANN SARGENT, *Associate Professor of Chemistry*, A.B., Middlebury, 1957; B.A., Oxford, England, 1959; M.A., 1963; M.A., Harvard, 1963; Ph.D., 1964.

MARC S. SILVER, *Professor of Chemistry*, A.B., Harvard, 1955; Ph.D., California Institute of Technology, 1959.

CHARLES A. SORENSON, *Assistant Professor of Psychology*, B.A., California, 1966; Ph.D., 1971.

DUDLEY H. TOWNE, *Professor of Physics*, B.S., Yale, 1947; M.A., Harvard, 1949; Ph.D., 1954.

HENRY T. YOST, JR., *Professor of Biology*, A.B., Johns Hopkins, 1947; Ph.D., 1951.

## Hampshire College

MERLE BRUNO, *Assistant Professor of Biology*, B.S., Syracuse University, 1960; M.A., Harvard University, 1963; Ph.D., 1971.

RAYMOND P. COPPINGER, *Associate Professor of Biology*, A.B., Boston, 1959; M.A., Massachusetts, 1964; Ph.D., 1968.

JOHN M. FOSTER, *Professor of Biology*, A.B., Swarthmore, 1950; M.A., Harvard, 1953; Ph.D., 1954.

COURTNEY P. GORDON, *Associate Professor of Astronomy*, B.A., Vassar, 1961; A.M., Michigan, 1963; Ph.D., 1967.

KURTISS J. GORDON, *Associate Professor of Astronomy*, B.S., Antioch, 1964; A.M., Michigan, 1966; Ph.D., 1969.

EVERETT M. HAFNER, *Professor of Physics*, B.S., Union, 1940; Ph.D., Rochester, 1948.

ALLEN R. HANSON, *Assistant Professor of Computer Science*, B.S., Clarkson College, 1964; M.S., Cornell University, 1966; Ph.D., 1969.

GLORIA JOSEPH, *Professor of Education*, B.S., New York University; M.A., City College of New York; Ph.D., Cornell, 1967.

RICHARD C. LYON, *Professor of English and American Studies*, B.A., Texas, 1951; B.A., Cambridge, 1953; M.A., 1955; M.A., Connecticut, 1958; Ph.D., Minnesota, 1962.

ROBERT MARQUEZ, *Associate Professor of Hispanic and American Literature*, B.A., Brandeis, 1966; M.A., Harvard, 1967; Ph.D., 1973.

WILLIAM MARSH, *Associate Professor of Mathematics*, A.B., Dartmouth, 1962; M.A., 1965; Ph.D., 1966.

## UNIVERSITY OF MASSACHUSETTS

MICHAEL R. SUTHERLAND, *Assistant Professor of Statistics*, B.A., Antioch, 1967; Ph.D., Harvard, 1974.

ROBERT P. VON DIR LIPPE, *Associate Professor of Sociology*, B.A., Stanford, 1953; M.A., 1958; Ph.D., 1962.

BARBARA YNGVESSON, *Associate Professor of Anthropology*, A.B., Barnard College, 1962; Ph.D., University of California at Berkeley, 1970.

## Mount Holyoke College

OLIVER E. ALLYN, *Professor of Theatre Arts*, B.F.A., Art Institute of Chicago, 1954; M.F.A., 1956.

JOHN J. BALOUEFF, *Associate Professor of Russian Languages and Literatures*, B. ès. L., Paris, France, 1935; Diplôme, 1937; Diploma, Antwerp, 1940; M.A., Stetson University, 1965.

ROBERT F. BERKEY, *Professor of Religion*, B.A., Otterbein College, 1952; B.D., and S.T.M., Oberlin, 1955-56; Ph.D., Hartford Seminary Foundation, 1958.

JAMES M. BRUCE, *Associate Professor of Sociology and Anthropology*, B.A., University of Oklahoma, 1961; M.A., 1965; Ph.D., Brown, 1969.

MARY K. CAMPBELL, *Associate Professor of Chemistry*, B.A., Rosemont College, 1960; Ph.D., Indiana University, 1966.

SIDONIF CASSIRER, *Professor of German*, B.A., Hunter College, 1948; M.A., Yale, 1950; Ph.D., 1957.

MARJORIE CHILDERS, *Assistant Professor of Sociology*, A.B., Vassar, 1963; M.A., New School for Social Research, 1966; Ph.D., 1973.

JOAN E. CIRUTI, *Professor of Spanish*, B.A., Southeastern Louisiana College, 1950; M.A., University of Oklahoma, 1954; Ph.D., Tulane, 1959.

TOM R. DENNIS, *Assistant Professor of Astronomy*, B.A., University of Michigan, 1963; M.A., 1964; M.A., Princeton, 1963; Ph.D., 1970.

FRANCIS J. DETOMA, *Associate Professor of Biological Sciences*, A.B., Clark University, 1962; M.Sc., Chicago, 1965; Ph.D., 1968.

PAUL ANTHONY DOBOSH, *Assistant Professor of Chemistry*, B.S., Carnegie Institute of Technology, 1965; M.S., 1967; Ph.D., Carnegie-Mellon University, 1969.

JOHN W. DURSO, *Associate Professor of Physics and of Computer Studies*, A.B., Cornell, 1959; Ph.D., Pennsylvania State University, 1964.

JAMES D. ELLIS, *Professor of English*, B.A., Oberlin, 1957; M.A., University of Iowa, 1961; Ph.D., 1964.

PETER M. ENGGASS, *Associate Professor of Geography*, B.A., University of Michigan, 1955; M.A., 1959; Ph.D., 1966.

ANTHONY EDWARD FARNHAM, *Professor of English*, A.B., California at Berkeley, 1951; A.M., Harvard University, 1957; Ph.D., 1964.

DEANE W. FERM, *Lecturer in Religion*, B.A., College of Wooster, 1949; M.A., Yale, 1952; B.D., 1953; Ph.D., 1954.

JEAN GROSSHOLTZ, *Professor of Political Science*, B.A., Pennsylvania State, 1956; M.A., University of Denver, 1957; Ph.D., Massachusetts Institute of Technology, 1961.

GEORGE E. HALL, *Professor of Chemistry*, B.S., Yale, 1933; Ph.D., 1942.

JEAN C. HARRIS, *Professor of Art*, B.A., Smith, 1949; A.M., Radcliffe, 1954; Ph.D., 1961.

ANNA J. HARRISON, *Professor of Chemistry*, A.B., University of Missouri, 1933; B.S., 1935; M.A., 1937; Ph.D., 1948.

EDWARD HIRSCH, *Assistant Professor of Psychology*, B.A., Brooklyn College, 1965; M.A., Temple University, 1966; Ph.D., Rutgers University, 1971.

RICHARD A. JOHNSON, *Professor of English*, B.A., Swarthmore, 1959; Ph.D., Cornell, 1965.

THEODORE C. JONES, *Assistant Professor of Biological Sciences*, B.A., Amherst, 1961; Ph.D., University of Washington, 1967.

MARJORIE KAUFMAN, *Professor of English*, B.S., Wisconsin State College, 1944; M.A., University of Washington, 1947; Ph.D., University of Minnesota, 1954.

EMILE AUGUSTE LANGLOIS, *Associate Professor of French*, Lic. d'Anglais, Sorbonne, 1958; Diplôme d'Études Supérieures, 1960; Agrégé de l'Université, 1967; D. de 3<sup>e</sup> cycle, Université de Montpellier, 1969.

WILLIAM S. McFEELY, *Professor of History*, B.A., Amherst, 1952; M.A., Yale, 1962; Ph.D., 1966.

JACQUES-HENRI PERIVIER, *Professor of French*, Baccalauréat, St. Joseph, Poitiers, France, 1950; Licence-en-Droit, University of Paris, 1955; A.M., University of Pennsylvania; Ph.D., 1965.

HARRIET POLIATSEK, *Associate Professor of Mathematics*, B.A., University of Michigan, 1963; M.A., 1964; Ph.D., 1967.

MARILYN Z. PRYOR, *Associate Professor of Biological Sciences*, B.S., Madison College, 1956; M.S., Tennessee, 1958; Ph.D., 1961.

BETTY N. QUINN, *Professor of Classics*, B.A., Mount Holyoke, 1941; M.A., Bryn Mawr, 1942; Ph.D., 1944.

JOHN RAPOPORT, *Associate Professor of Economics*, B.A., Dartmouth College, 1965; M.A., University of Pennsylvania, 1966; Ph.D., 1970.

ELLEN REESE, *Lecturer in Psychology*, A.B., 1948; Mount Holyoke College; A.M., 1954.

ROBERT L. ROBERTSON, JR., *Professor of Economics*, B.S., Cornell, 1953; M.S., University of Wisconsin, 1956; Ph.D., 1960.

RICHARD S. ROBIN, *Professor of Philosophy*, A.B., Harvard, 1948; Ph.D., 1958.

VLADIMIR SAJKOVIC, *Professor of Russian Languages and Literature*, Diploma, Russkoi Realnoe Hchilishche, Terjoki, Finland, 1932; M.A., University of Pennsylvania, 1949; Ph.D., 1953.

DAVID SAMUEL SCHWARZ, *Assistant Professor of Philosophy*, B.A., Ripon College, 1965; B.Phil., St. Andrews, 1968; Ph.D., California at Berkeley, 1972.

## GRADUATE SCHOOL

BULKELEY SMITH, JR., *Professor of Sociology*, B.A., Yale, 1947; M.A., 1954; Ph.D., 1958.

CURTIS G. SMITH, *Professor of Biological Sciences*, A.B., Chicago, 1948; Ph.D., 1954.

ISABELLE B. SPRAGUE, *Professor of Biological Sciences*, A.B., Mount Holyoke, 1937; M.A., 1939; Ph.D., University of Kansas, 1953.

EUGENIO SUAREZ-GALBAN, *Associate Professor of Spanish*, B.A., Boston College, 1961; M.A., New York University, 1964; Ph.D., 1967.

JEAN SUDRANN, *Professor of English*, B.A., Mount Holyoke, 1939; M.A., Columbia University, 1940; Ph.D., 1950.

MARGARET L. SWITTEN, *Professor of French*, B.M., Westminster Choir College, 1947; B.A., Barnard, 1948; M.A., Bryn Mawr, 1949; Ph.D., 1952.

JOHN L. TEALL, *E. Nevius Rodman Professor of History*, A.B., Yale, 1948; M.A., 1950; Ph.D., 1956.

GEORGE V. TOVEY, *Professor of Philosophy*, A.B., Lafayette, 1942; Ph.D., University of Iowa, 1950.

JANE K. TOWNSEND, *Professor of Biological Sciences*, B.S., Beloit College, 1944; M.A., University of Wisconsin, 1946; Ph.D., University of Iowa, 1950.

EDWIN S. WEAVER, *Professor of Chemistry*, B.S., Yale, 1954; Ph.D., Cornell, 1959.

KENNETH L. WILLIAMSON, *Professor of Chemistry*, A.B., Harvard, 1956; Ph.D., Wisconsin, 1960.

## Smith College

MARIA N. BANERJEE, *Associate Professor of Russian*, Baccalaureat d'études secondaires, University of Paris, 1955; M.A., University of Montreal, 1957; Ph.D., Harvard University, 1962.

LEONARD BERKMAN, *Assistant Professor of Theater*, B.A., Columbia University, 1960; M.F.A., Yale University, 1963; D.F.A., Yale University, 1970.

H. ROBERT BURGER, III, *Professor of Geology*, B.S., Yale, 1962; A.M., Indiana, 1964; Ph.D., 1966.

C. JOHN BURK, *Professor in the Biological Sciences*, A.B., Miami, Ohio, 1957; M.A., North Carolina, 1959; Ph.D., 1961.

HELEN CHINYOY, *Professor of Theater*, B.A., New York University, 1943; Ph.D., Columbia University, 1963.

ALLEN H. CURRAN, *Associate Professor of Geology*, B.S., Washington, and Lee, 1962; M.S., North Carolina at Chapel Hill, 1965; Ph.D., 1968.

THOMAS S. DERR, *Associate Professor of Religion*, A.B., Harvard, 1953; B.D., Union Theological Seminary, 1956; Ph.D., Columbia University, 1972.

GEORGE E. DIMOCK, JR., *Professor of Classical Languages and Literatures*, B.A., Yale, 1939; M.A., 1940; Ph.D., 1949.

GEORGE S. DURHAM, *Professor of Chemistry*, B.A., Reed, 1935; Ph.D., New York University, 1939.

LAWRENCE A. FINK, *Professor of Education and Child Study*, B.A., Stanford University, 1951; M.A., Columbia University, 1958; Ed.D., 1963.

GEORGE M. FLECK, *Associate Professor of Chemistry*, B.S., Yale, 1956; Ph.D., Wisconsin, 1961.

RAYMOND H. GILES, JR., *Associate Professor of Education and Afro-American Studies*, B.A., Hunter College, 1961; M.A., City University of New York; Ed.D., University of Massachusetts, 1972.

MYRON GLAZER, *Professor of Sociology*, B.A., City College of New York, 1956; M.A., Rutgers University, 1961; M.A., Princeton University, 1963; Ph.D., 1965.

DAVID A. HASKELL, *Associate Professor in the Biological Sciences*, B.Sc., Ohio State, 1951; M.S., Purdue, 1957; Ph.D., 1960.

KENNETH B. HELLMAN, *Associate Professor of Chemistry*, A.B., Drew, 1956; M.S., Michigan State, 1959; Ph.D., 1962.

CHARLES HENDERSON, JR., *Professor of Classics*, A.B., Davidson, 1942; M.A., North Carolina, 1947; Ph.D., 1955.

SEYMOUR W. ITZKOFF, *Professor of Education*, B.A., University of Hartford, 1950; M.A., Columbia University, 1955; Ed.D., 1964.

ERNA R. BERNDT KELLEY, *Professor of Hispanic Studies*, B.A., Wisconsin, 1954; M.A., 1955; Ph.D., 1959.

EDITH KERN, *Doris Silbert Professor in Comparative Literature*, Ph.D., Johns Hopkins University.

MURRAY J. KITELEY, *Professor of Philosophy*, B.A., Minnesota, 1950; M.A., 1958; Ph.D., 1959.

THOMAS H. LOWRY, *Associate Professor of Chemistry*, A.B., Princeton, 1960; Ph.D., Harvard, 1965.

GEORGE F. MAIR, *Professor of Economics*, A.B., Princeton, 1943; M.A., 1948; Ph.D., 1957.

JEANNE McFARLAND, *Assistant Professor of Economics*, B.A., University of Arizona, 1962; M.A., University of California at Berkeley, 1970; Ph.D., 1972.

BARBARA S. MUSGRAVE, *Professor of Psychology*, B.A., Minnesota, 1954; M.A., 1960; Ph.D., Massachusetts, 1960.

JOAQUINA NAVARRO, *Professor of Hispanic Studies*, B.A., Instituto Escuela, Madrid, 1934; M.A., Columbia, 1942; Ph.D., 1954.

KATHRYN PYNE PARSONS, *Associate Professor of Philosophy*, B.A., Indiana University, 1961; Ph.D., Stanford University, 1968.

JEANNE POWELL, *Associate Professor in the Biological Sciences*, A.B., Pembroke, 1954; M.A., Bryn Mawr, 1959; Ph.D., 1967.

DONALD B. REUTENER, JR., *Associate Professor of Psychology*, B.A., Oberlin College, 1960; M.A., Ohio State University, 1967; Ph.D., 1969.

PETER ROSE, *Sophia Smith Professor of Sociology and Anthropology*, A.B., Syracuse, 1954; M.A., Cornell, 1957; Ph.D., 1959.

STANLEY ROTHMAN, *Professor of Government*, B.S.E., City College of New York, 1949; M.A., Brown, 1951; Ph.D., Barnard, 1958.

## UNIVERSITY OF MASSACHUSETTS

JUDITH RYAN, *Professor of German*, B.A., Sydney University, 1964; Ph.D., University of Münster, Germany, 1970.

WILLY SCHUMANN, *Professor of German*, B.A., Southern Methodist, 1952; M.A., 1953; Ph.D., Columbia, 1959.

WALTRAUT C. SEITTER, *Eliza Appleton Haven Professor of Astronomy*, M.A., Smith, 1955; Ph.D., University of Bonn, Germany, 1962.

MARGARET L. SHOOK, *Associate Professor of English*, B.A., Smith College, 1953; Ph.D., University of California, 1966.

MALCOLM B. E. SMITH, *Associate Professor of Philosophy*, B.A., Virginia Military Institute, 1961; Ph.D., Cornell University, 1969.

J. DIEDRICK SNOEK, *Associate Professor of Psychology*, B.A., Western Reserve University, 1954; M.A., University of Michigan, 1956; Ph.D., 1959.

MILTON D. SOFFER, *Professor of Chemistry*, B.S., Arkansas, 1937; A.M., Harvard, 1939; Ph.D., 1942.

THOMAS A. TYMOCZKO, *Assistant Professor of Philosophy*, A.B., Harvard University, 1965; Ph.D., 1972.

HANS VAGET, *Associate Professor of German*, M.A., University of Tübingen, 1964; Ph.D., Columbia University, 1969.

GEORGE DE VILLAFRANCA, *Gates Professor in the Biological Sciences*, B.S., Yale, 1948; Ph.D., 1953.

KLEMENS VON KLEMPERER, *L. Clark Seelye Professor of History*, M.A., Harvard University, 1940; Ph.D., 1949.

|                                                   | Assistant Secretary.....                 | Dorothy K. Eichel                                   |

## The University

Founded in 1863, the University of Massachusetts is one of 66 land grant colleges and universities in the United States providing public education, research and service. The University campus in Amherst, situated on 1,100 acres in the picturesque Connecticut River Valley, has approximately 24,000 students and is served by a \$200-million physical plant. The University has continually expanded to meet the growing needs of the Commonwealth. The University of Massachusetts at Boston opened in 1965 and currently enrolls approximately 7,000 students. Inaugurated in the fall of 1970, the new University of Massachusetts Medical School in Worcester opened its teaching hospital in 1975.

At Amherst, a broad and continuous program is provided by the undergraduate schools and colleges, the Graduate School and the Division of Continuing Education. Basic units are the College of Arts and Sciences, the College of Food and Natural Resources, and the Schools of Business Administration, Education, Engineering, Health Sciences and Physical Education. The University also has voluntary Army and Air Force ROTC programs, an active Phi Beta Kappa chapter, and more than 400 student organizations. Numerous centers, bureaus and institutes actively serve the Commonwealth in such fields as government research, labor relations, natural resources and population.

The University has joined Amherst, Hampshire, Mount Holyoke and Smith Colleges in a five-college cooperative program, developing numerous academic programs, offering opportunities for course interchange to students, as well as operating a radio station and offering lectures, special courses, and inter-library loans.

The University has had an active Summer Session since 1909, and summer study is a long tradition in Amherst. In addition, the University established the Division of Continuing Education in 1970, and began a merger of administrative operations of the Summer Session and Continuing Education in 1975. This merger has been completed during the course of the present academic year, and the Summer Session of 1976 will represent the full assumption of administrative responsibility by the Division of Continuing Education, working directly with the Office of the Provost.

The Division has expanded the concept of "student" to include adults attending credit courses on a part-time basis, evenings or weekends, on campus or off, and persons participating in non-credit activities including conferences, workshops and institutes. The Division is largely self-funded, and operates the Summer Session on a fee-assisted basis as a service to the University and to students of the Commonwealth, with administrative costs being absorbed by the University.

# Block Calendar

Summer Session courses have been scheduled in blocks of three, six, nine and twelve weeks. Each block has been labeled with a letter from C through L. On this page are calendars containing the most relevant information for the summer. The regular Academic Calendar, containing a complete listing of all Summer Session registration and deadline information as well as summer activities, begins on page 5. Detailed instructions on how to register may be found on page 12.

It is the student's responsibility to select courses with schedules that do not conflict, and to design a program free from error.

The University of Massachusetts Summer Session has been designed to provide maximum flexibility for all students. Courses have been scheduled in blocks of three, six, nine and twelve weeks. Each block has been labeled with a letter from C through L. A special K block has been designated for courses scheduled independently. (For information about block K, see 'Thesis, Dissertation, Special Problems and Independent Study Credit.')

At the left are listed all courses offered in this catalog. In this special Block Schedule, they have been organized by the block to make it convenient for the student to select courses when limited by a particular block time, or when seeking to avoid conflicts of scheduling. Some courses are offered consecutively, some are offered concurrently, while others may appear in more than one block.

It is the student's responsibility to select courses with schedules that do not conflict, and to design a program free from error.

Below is a refund schedule listed by the block. At the right the Academic Calendar begins. The Calendar includes all deadlines, beginning and ending dates of classes for each block, as well as summer activities from the middle of May until August 20, when Summer Session ends.

Detailed instructions on How to Register may be found on page 12.

## Refund Schedule

### Block C (June 1 - August 20)

|                   |           |
|-------------------|-----------|
| June 1 - June 5   | 80%       |
| June 6 - June 11  | 60%       |
| June 12 - June 18 | 40%       |
| After June 18     | No Refund |

### Block D (June 1 - July 10)

|                  |           |
|------------------|-----------|
| June 1 - June 5  | 60%       |
| June 6 - June 11 | 20%       |
| After June 11    | No Refund |

### Block E (July 12 - August 20)

|                   |           |
|-------------------|-----------|
| July 12 - July 16 | 60%       |
| July 17 - July 23 | 20%       |
| After July 23     | No Refund |

### Block F (June 1 - June 18)

|                  |           |
|------------------|-----------|
| June 11 - June 5 | 50%       |
| After June 5     | No Refund |

### Block G (June 21 - July 10)

|                   |           |
|-------------------|-----------|
| June 21 - June 25 | 50%       |
| After June 25     | No Refund |

### Block H (July 12 - July 30)

|                   |           |
|-------------------|-----------|
| July 12 - July 16 | 50%       |
| After July 16     | No Refund |

### Block I (August 2 - August 20)

|                     |           |
|---------------------|-----------|
| August 2 - August 6 | 50%       |
| After August 6      | No Refund |

### Block J (June 1 - July 30)

|                  |           |
|------------------|-----------|
| June 1 - June 8  | 60%       |
| June 9 - June 15 | 20%       |
| After June 15    | No Refund |

### Block L (June 21 - July 30)

|                   |           |
|-------------------|-----------|
| June 21 - June 26 | 60%       |
| June 27 - July 2  | 20%       |
| After July 2      | No Refund |

# TOWARD TOMORROW FAIR

## June 24-27

The Toward Tomorrow Fair, June 24-27, 1976 is one of the ways the University of Massachusetts at Amherst is observing the national bicentennial. Toward Tomorrow, a county fair of the future, will feature a large exhibition field with outdoor booths and displays prepared by citizen, business, and research groups from the Northeast.

Workshops, speeches, films and entertainment are also planned. The New England Solar Energy Association has engaged for the Fair many alternative energy displays, including wind generators and electric cars. More than 15,000 people are expected to attend. Low-cost tickets will be sold at the gate. For additional information contact: Toward Tomorrow Fair, 200 Hills North, University of Massachusetts, Amherst, MA, 01002, (413) 545-0474.

# Fife and Drum Corps Muster

## Free — July 13, 7p.m., Intramural Field

This Bicentennial Revolutionary War Muster will be presented free by four fife and drum corps, and will include narration. The four groups in this concert will be The Ancient Mariners, The Swiss Mariners, The Dickerson Fife and Drum Corps, and The Mattatuk Fife and Drum Corps. Come join the muster and the era in a Summer 1976 celebration.

# 12 General Information

## Enrollment

Any person who has graduated from high school or who has a certificate of general educational development is entitled to enroll in undergraduate courses offered through the Summer Session of the University of Massachusetts at Amherst. The University assumes that the student will accurately assess his or her ability to take a college level course. It is the student's responsibility to observe prerequisites for individual courses.

University of Massachusetts undergraduate students under Academic Suspension for the Fall 1976 semester are not relieved of the necessity to take a semester off from the University because they have taken courses in the Summer Session. The suspension is still operative for the Fall semester.

The University invites superior high school students to begin their college education immediately upon graduation by enrolling in the Summer Session. For the highly motivated student, perhaps already convinced that his/her formal education will require graduate or professional studies, an early start may conserve valuable time. Similarly, students in financial need may find it less expensive to complete their undergraduate education in less than four years. Summer Session attendance can substantially reduce the time necessary to obtain a bachelor's degree.

A bachelor's degree is normally required for admission to graduate level courses unless otherwise specified in the catalog or unless written permission to enroll is obtained following counsel with the teaching faculty member.

*Enrollment allows a student to take courses, but does not imply acceptance into a degree program at the University of Massachusetts.*

## How to Register

Advance registration may be accomplished by submitting a registration form by mail with full payment to:

UMass Summer Session  
Post Office Box 835  
Amherst, MA 01002

Course registrations and schedules will be arranged for persons applying by the appropriate date as listed below. Course registrations and scheduling will be handled on a "first come, first served" basis. Although every effort is made to accommodate scheduling requests, the University cannot guarantee enrollment in a particular course section. Early application will help to ensure a preferred schedule and will enable the student to avoid the necessity of attending Walk-In Registration.

Registration forms are included in this catalog and may also be obtained from the Registrar's Office, 213 Whitmore Building, from the Graduate School, Graduate Research Center, or from the Division of Continuing Education, Hills House North, University of Massachusetts, Amherst, MA 01002.

**Advance Registration Procedure—Registering by Mail**

1. Review and select courses from this Summer Session Catalog:
2. Complete Summer Session registration form: Use schedule line numbers and section numbers given in the Schedule of Courses, paying particular attention to the letter codes indicating the schedule *block* in which the courses are being offered. Summer Session is being offered in a series of nine schedule blocks varying in length from three to 12 weeks. See *Description of Codes*.
3. Students currently enrolled at the University of Mas-

sachusetts (Undergraduate, Graduate, Continuing Education, or Boston branch) should include their current student identification number in the appropriate section on the registration form.

4. Mail form and full payment to UMass Summer Session, P.O. Box 835, Amherst, MA 01002, keeping in mind relevant deadlines as listed below.

5. Course changes received prior to the appropriate deadline will be processed. If received later than the deadline, they must be taken care of by the student at Walk-In Registration.

6. All fees must be paid in full at the time of registration.

7. Advance registrations will be confirmed by return mail during the week prior to the beginning of each block. Confirmations will be mailed to the student's local address if it is an off-campus address, otherwise to the student's permanent home address.

### *Deadlines for Advanced Registration*

|               |                                                     |
|---------------|-----------------------------------------------------|
| Wed., May 19  | For classes beginning June 1<br>(Blocks C, D, F, J) |

### **Thesis, Dissertation, Special Problems and Independent Study Credit**

1. *Graduate students* contemplating Special Problems, Thesis, or Dissertation course work (700, 800, 900 course numbers) during the Summer Session or *undergraduates* contemplating Independent Study (385, 386 or UWW) should seek the permission of the appropriate department heads and/or advisors.

2. Complete Summer Session Registration Application form using the space designated *Thesis, Dissertation, Special Problems and Independent Study Only*. Schedule line numbers will be available at the appropriate departmental offices and at the Summer Session Registrar's Office, Whitmore Building. (A student who fails to register properly for such work will not receive an identification card and is not entitled to use University facilities during the Summer Session.)

3. Payment must be made in full at the time of registration. University tuition rates (not Summer Session course fees) will apply to all Special Problems, Thesis, Dissertation and Independent Study registrations. See *Expenses*.

4. Independent Study, Graduate Special Problems, Thesis and Dissertation Credit have different in-state and out-of-state tuitions. A Certificate of Residence must be on file or submitted with registration for students applying for the in-state tuition rate.

5. Students may register for Thesis, Dissertation and Special Problems during any of the nine calendar blocks

of the Summer Session. However, all such registrations should be listed under the designation of *K* block.

### Change of Program

Students wishing to add or drop courses, or withdraw from the Summer Session, must formally notify the Summer Session Registrar's Office in writing by mail or in person during regular office hours. Notifying the instructor or ceasing to attend class does not constitute official withdrawal. Failure to use proper procedures could result in an "F" being recorded as a final grade. Students dropping courses during the refund period will receive refunds only if proper procedures are followed.

#### Course Changes

1. Course changes may be made at Walk-In Registration or at Summer Session Registrar's Office after Walk-In Registration. (Observe deadlines listed below and in the *Academic Calendar* section of this Catalog.)
2. Review and select courses from this Summer Session Catalog.
3. Complete course Add-Drop form, available at Summer Session Registrar's Office, Whitmore Building.
4. Secure departmental approval signature and have name entered on class roster before having the Registrar's Office review the form.
5. Pay any remaining bill at Bursar's Office.
6. Submit completed course Add-Drop form (with Bursar's clearance stamp) to Summer Session Registrar's Office.

#### Add Period Deadlines

Students may add a course with written permission of the instructor through the first week for courses of six or more weeks duration.\*

#### Drop Period Deadlines

1. Students may drop a course with no record through the first week for courses of six or more weeks duration.\*
2. Students may drop a course with a "W" from the first week to a period not to exceed one-third of the duration of the course, for courses of six or more weeks.\*
3. Courses dropped after the first one-third of the duration of the course will receive an "F" unless a retroactive withdrawal ("W") for extenuating circumstances is approved by the Academic Dean.\* (Applies to undergraduate students only.)

Consult the *Academic Calendar* in this catalog for specific add, drop, and withdrawal deadline dates. The above policy applies to all undergraduate and graduate students attending the Summer Session, except where specified otherwise.

### Cancellations

All University Summer Session courses are funded by course fees. In the event that instructional costs cannot be met due to underenrollment, any course may be cancelled at the discretion of the Summer Session Director. Undergraduate courses are subject to a minimum enrollment of 10 students, graduate courses to five students, and double numbered, undergraduate/graduate, to 10 students.

Students who are affected by a course cancellation due to underenrollment, and who do not wish to enroll in alternative courses will receive a refund for the cancelled course. Registrations are handled on a first come, first served basis; students are advised to register early.

*\*In the case of the three-week sessions, add, drop, and withdrawal deadlines will be determined on a proportional basis by the individual Academic Dean. Visiting summer students and Continuing Education students secure approval of the Director of Summer Session, Hills House North.*

### Identification Cards

#### University Students

Regularly enrolled Undergraduate, Graduate, Continuing Education, and Boston branch students may obtain a Summer 1976 *validation sticker* for their picture identification cards at the ID Office, Knowlton House Basement, Monday through Friday, 9 a.m. to 4 p.m., or at any of the scheduled Summer Walk-In Registrations. Students are required to present their summer schedule card as proof of registration.

#### Visiting or New Students

Summer visiting or new students may have pictures taken for *temporary summer identification cards* at the ID Office Knowlton House Basement, Monday through Friday, 9 a.m. to 4 p.m., or at any of the scheduled Summer Walk-In Registrations. Students are required to present their summer schedule card as proof of registration, as well as one other form of identification. Students who have not pre-registered by mail must wait 24 to 48 hours after completing registration for the assignment of a student number before they may have their ID picture taken. ID cards may be picked up at the ID Office 24 hours after having the picture taken.

## Academic Credit

### Credit for Summer Work

All courses offered in the Summer Session carry degree credit and are equivalent to courses offered at the University during the regular academic year unless specified otherwise. Credits obtained in these courses are ordinarily accepted as transfer credits by other colleges and universities.

Students who are registering for graduate level work during the Summer Session and who desire to pursue an advanced degree at the University must file an application for admission with supporting documentation at the Graduate Admissions Office. Once admitted to a degree program, a student may transfer a maximum of six graduate credits earned prior to admission into that program.

### Grades

All grade reports for the Summer Session will be mailed to students at the end of August after the close of the entire 12-week Summer Session. Transcripts will not be available for the shorter sessions until this time. Submit transcript requests to the appropriate Records Office as indicated below.

A permanent record of courses taken in the Summer Session will be maintained by the following administrative units:

For admitted and visiting undergraduates at the Amherst campus—*Amherst Undergraduate Records Office, 213 Whitmore Building.*

For admitted and visiting graduate students at the Amherst campus—*Graduate Records Office, Graduate Research Center.*

For admitted Boston campus students—*Boston Campus Records Office.*

For previously enrolled Continuing Education students—*Continuing Education Records Office, Hills House Front Lobby.*

## 14 General Information

### Overload of Credits

A maximum course load is considered to be 12 credit hours of University work for undergraduates, nine credit hours of University work for graduate students, for the 12-week Summer Session. Students who wish to register for additional credits must secure approval as follows:

#### Undergraduates

1. Undergraduates pick up Summer Overload Request form at the Registrar's Office, 213 Whitmore Building.
2. University students secure a signature of their Academic Dean; previously enrolled Continuing Education students secure signature of the Continuing Education Director or of Student Services, Hills House North; visiting students secure signature of the Director of Summer Session, Hills House North.

3. Return form to Summer Session Registrar, Whitmore Building.

*Note:* A senior graduating in summer or the following January may register for 15 credits without extra permission.

#### Graduate Students

1. Secure approval of the Director of Graduate Studies in major department.
2. Return approval to Summer Session Registrar, Whitmore Building.

### Thesis, Dissertation, Special Problems and Independent Study Credit

Graduate students contemplating Special Problems, Thesis, or Dissertation course work (700, 800, 900 course numbers) during the Summer Session or undergraduates contemplating Independent Study (385, 386 or UWW) should seek the permission of the appropriate department heads and/or advisors. Schedule line numbers will be available at the appropriate departmental offices and at the Summer Session Registrar's Office. University tuition rates (not Summer Session course fees) will apply to all such registrations. See *Expenses*. A student who fails to register properly for such work will not receive an identification card and is not entitled to use University facilities during the Summer Session.

### Auditing

A student who intends to audit a course must register and pay the stated fees. There is no special audit fee. A student may not change from graded to audit status after the end of the Add/Drop Period. See *Change of Program Deadlines*. Requests for audit status should be submitted to the Summer Session Registrar's Office, Whitmore Building.

### Pass/Fail Option

A regularly enrolled undergraduate student must be enrolled for six credit hours during the Summer Session to use his/her pass/fail option, unless he or she is an Education major. A non-Education major taking a course in Education may elect one other outside pass/fail course. Graduate students wishing to use the pass/fail option should consult both the Graduate School and the appropriate academic department.

### Pass/Fail Policy, School of Education

All courses given under the supervision of the School of Education, both graduate and undergraduate, are graded on a pass/fail basis only. This is not optional on the part of the student except in the following special case. Master's Degree students enrolled at the University of Massachusetts are re-

quired by Graduate School policy to earn 18 graded credits during their 33-hour Master's program. A student eligible to receive a letter grade should make the request known to the instructor early in the semester so that the grade may be added to the roster at the end of the course.

Please do not request exceptions to the pass/fail policy. The School of Education understands that there may be a number of institutions which simply do not accept the pass/fail mark. In these cases, the student should contact the instructor and request a letter which states that the School of Education is on a pass/fail basis but indicates what the grade would have been if the student had been taking the course for a letter grade.

If further information is desired regarding the School of Education pass/fail policy, call or write Michael G. Schwartz, 125B School of Education, University of Massachusetts, Amherst, MA 01002, phone 545-2701.

### Core Requirements, Undergraduate Students

Courses which may be applied toward completion of University of Massachusetts core requirements are designated by a capital letter, in parentheses, following the course title: e.g., Rhetoric (B); Humanities (C); Social/Behavioral Sciences (D); Math/Natural Sciences (E).

## Expenses

Students are urged to preregister by mail to help ensure a preferred schedule and to enable the student to register without attending Walk-In Registration. *Full payment must accompany registration.*

Make checks payable to: University of Massachusetts  
Mail to: Summer Session  
Box 835  
Amherst, MA 01002

#### Fee Waivers

Waivers for University employees, cooperating teachers, graduate assistants, associates and fellows, and State and Community College faculty may be applied to all course fees. Fee waivers apply only to course fees and do not cover the Summer Services Fee or other expenses such as lab fees.

### General Fees

#### Course Fees

*Undergraduate*—\$25/credit

*Graduate*—\$40/credit

Massachusetts residency does not affect the above course fees.

#### Summer Services Fee

A Summer Services Fee of \$6.50 per week will be assessed of each student registering for credit courses. This fee is charged for each week of enrollment. For example, a student registering for one course in Block F (three weeks), and also for courses in Block D (six weeks), will be assessed 6 weeks times \$6.50 to equal \$39. A valid ID will be issued for the period of time during which the student is enrolled.

Summer Services Fee entitles student to services and programs provided by the University Health Center, Campus Center and Summer Activities Office. See *Student Services* and *Student Affairs*.

---

#### Thesis, Dissertation, Special Problems and Independent Study Credit—Tuition

Students applying for Thesis, Dissertation, Special Problems and Independent Study Credit pay tuition on an in-

state and out-of-state basis. A Certificate of Residence (see Index) is included in this catalog, and must be on file or submitted with registration. Valid tuition waivers may be applied.

|               | <i>In-State</i> | <i>Out-of-State</i> |
|---------------|-----------------|---------------------|
| Undergraduate | \$15/credit     | \$77.50/credit      |
| Graduate      | \$22.50/credit  | \$45/credit         |

## Summer Services Fee

A Summer Services Fee is required of all Thesis, Dissertation, Special Problems and Independent Study students at the rate of \$6.50 per credit. A valid ID will be issued for a period equal to one week per credit.

## Optional Fees

### Housing and Food Services Fee

See *Student Services and Student Affairs*.

### Physical Education Fee

Students may pay a \$5 Physical Education Fee, which entitles the student to the use of all PE facilities (pool, bowling alley, gym) as scheduled by the Physical Education Department. A locker or basket may be obtained on a space-available basis. All services and facilities are regulated by the Physical Education Department.

Payment of the fee should be made to the Ticket Office in Boyden Gymnasium, and the receipt taken to the Intramural Office where a Physical Education ID card will be issued.

### Parking Fees and Expenses

Vehicles presently registered in the Balanced Transportation and Parking System may park in their assigned lot or any edge lot.

Vehicles that are not registered must be registered with the Transportation and Parking Office, Room 1, Munson Hall, office hours 8:30 a.m. to 4 p.m. The registration fee is \$5, and enables the vehicle to use all edge lots: 21, 22, 23, 24, 25, 26, 31, 32, 34, 44, 46, 47, 48, 49, 50. If an individual wants to register a vehicle for a core lot, the cost is a \$5 registration fee plus the monthly convenience fee of \$3 for a core lot, and \$4.20 for lot 71.

### Bus Transportation

The Student Senate Transit Service will provide regularly scheduled free bus transportation during the Summer Session. It is anticipated that buses will serve students commuting from Belchertown, South Amherst, North Amherst, Sunderland, South Deerfield and points in between on all weekdays when classes are in session. Sufficient buses will be scheduled to transport students to the campus in the morning, to outlying points, return at midday, and home at the end of the day. For bus service information, call 545-0056.

# Student Services and Activities

## Summer Activities

Each year the University of Massachusetts Summer Activities Committee offers a varied and balanced presentation of the arts, intramural sports, and recreational activities. The Summer 1976 program is planned to include an outdoor arts festival, Bicentennial activities, musical concerts, and traveling art exhibits. A film series provides at least one film a week. Organized sports include softball, volleyball, tennis, and badminton. Individual participation is encouraged for swimming, outing trips, and picnics. The student radio station (WMUA)

and a summer newspaper will provide detailed information about activities, both on campus and in the Pioneer Valley.

Details of the summer program events and ticket information will be available at registration, and in the Summer Activities Office, or by calling 545-2351.

## Undergraduate Advising

General academic advising will be available to Summer Session students from College and School undergraduate academic advising staffs. Appointments are not necessary in all cases, but are recommended in order to ensure prompt attention. Counseling staff, hours, and locations, as well as telephone numbers are listed below.

### College of Arts and Sciences

James W. Shaw, Julie Berwald: Machmer E-22, 545-2191

CASIAC office hours are Monday-Friday, 9 a.m.-4 p.m.

Special advising for summer session students will be available Tuesday, June 1, and Friday, June 28.

### School of Business Administration

Nelson E. Pion, John C. Morand: SBA 211, 545-2852 Monday-Friday, 9 a.m.-5 p.m.

### Division of Continuing Education

Jackie S. Posner: Hills House North 100A, 545-3430

Joan P. Eignor: Hills House North 101, 545-3430

Harry F. Neunder: Hills House North 103, 545-3430

Counseling is available Monday-Thursday, 8:30 a.m.-7 p.m., and Friday, 8:30 a.m.-5 p.m.

### School of Education

Michael G. Schwartz: School of Education Building 125B, 545-2701

Information and advice on teacher certification programs may be obtained—appointments please. Hours are Monday-Friday, 9 a.m.-5 p.m. The office will be closed on those days when summer counseling for new students takes place.

# nureyev

## ballet film: don quixote

June 17, 18, 19

7:30 p.m.

Bowker Auditorium

Tickets:

UMass students  
with valid ID \$2

Others \$3

Rudolf Nureyev and Lucette Aldous are joyous lovers in the film version of "Don Quixote." The two stars are joined by Robert Helpmann and the Australian Ballet in the title role of the Walter Reade presentation.

# 16 General Information

## School of Engineering

Melton M. Miller, Joseph S. Marcus: Engineering East  
201, 545-0300

Monday-Friday, 9 a.m.-5 p.m.

## College of Food and Natural Resources

Ernest M. Buck: Stockbridge Hall 102, 545-2890, and  
545-1969

Monday-Friday, 8:30 a.m.-4:30 p.m.

Most regularly enrolled students in the College are assigned faculty advisors in their chosen majors. Supplementing this primary advising program is a central, undergraduate academic counseling center located in Room 102, Stockbridge Hall, where all students may acquire general information about academic programs and regulations, and may seek assistance with specific academically related problems.

## School of Health Sciences

Howard Peters: Public Health N231, 545-2177

Monday-Friday, 9 a.m.-4 p.m.

## School of Physical Education

Margaret A. Coffey: Boyden 224, 545-2338

Hours by appointment.

## Housing and Food Services

University residence halls will be available to students wishing to live on campus during the Summer Session. Information and applications may be obtained from the University Housing Office, Whitmore Building.

Residence halls will be open for occupancy on the day immediately preceding registration.

All residence hall rooms are provided with basic furniture, including beds and mattresses, desks, desk chairs, lounge chair, waste baskets, and bulletin boards. Each student is responsible for providing ashtrays, pillows, bed linen, blankets, and towels. Linen service may be obtained by contract with a private linen service.

Those students electing to reside off campus may obtain housing information by writing to the Housing Office, Whitmore Administration Building, University of Massachusetts, Amherst, MA 01002.

The University Food Services will offer a 10-meal or a 15-meal ticket during the Summer Session. The menu for these meal tickets is multi-selective with seconds on all menu items except the entree. Food may be purchased on a cash basis at snack bars in the Campus Center and in Worcester Dining Commons. Food tickets will be honored at Franklin Dining Commons.

## General Financial Assistance

### Eligibility

The Financial Aid Office will accept applications for assistance during the Summer Session 1976. All students must carry at least six credits to be eligible. Assistance is contingent upon good academic standing, therefore students on suspension are *not* eligible.

Consideration will be given to full-time University of Massachusetts students and Continuing Education students who were enrolled prior to the 1976 Summer Session.

### Kind of Assistance

Most of the aid funds available will be in the form of National Direct Student Loans.

### Deadlines

Application deadline for University students is May 3. Continuing Education students are expected to complete their applications by May 17. Applications for University students are available in the Financial Aid Office, 243 Whitmore Building. Applications for Continuing Education students may be obtained from the Division of Continuing Education, Hills House North. UMass students may call 545-0801, and Continuing Education students 545-3430, for further information.

### UMass

Applications: Financial Aid Office  
Deadline: May 3  
Phone: 545-0801

### CE

Hills House  
May 17  
545-3430

## Veterans Benefits

Veterans are eligible to receive full-time benefits for carrying a minimum of 2 credits for a three-week session, 4 credits for a six-week session, 6 credits for the nine-week session and 8 credits for the twelve-week session. If a veteran takes less than the minimum amount of credits for full-time status, his/her monthly benefits will be adjusted accordingly.

Veterans eligible for a state tuition waiver during the school year may be eligible for a tuition waiver for summer school.

To receive these benefits, veterans should contact the Veterans Affairs Office, 236 Whitmore Building, (413) 545-1346, eight to ten weeks prior to the beginning of the particular summer session block(s) to allow ample time for processing paperwork.

## Law Enforcement Education Program

Limited funding may be available for in-service law enforcement officers under LEEP. Applications may be obtained in the Continuing Education Records Office, Room 100, Hills House North, or the Financial Aid Office, 243 Whitmore Building. Completed applications for Continuing Education students should be returned to Harry Neunder, 103 Hills House North, and for UMass students, applications should be returned to the Financial Aid Office, 243 Whitmore.

## Student Affairs

Student Affairs, under the direction of Vice Chancellor Robert W. Gage, provides services for students' non-academic needs. Student Affairs offices and departments, with a brief description of services, are listed in this section.

### Admissions, Records, and Financial Aid

Dean of Admissions, Records, and Financial Aid  
Dr. William D. Tunis, 255 Whitmore (5-0222)

#### Undergraduate Admissions

Director: Robert J. Doolan  
255 Whitmore (5-0222)

The Admissions Office is responsible for all administrative procedures with respect to undergraduate admissions to the University including liaison with high school guidance counselors and admissions standards set in coordination with the Faculty Senate, Provost and other academic departments.

#### Transfer Affairs

Director: Eli Sherman  
208 Whitmore (5-0860)

The Office of Transfer Affairs serves as a general resource center for all matters pertaining to the transfer process. One of the major functions of the office is to work with academic departments on campus and at the community colleges in a cooperative effort to provide smooth transition for the transfer student in academic programs from one institution to the other.

#### Registrar

Registrar: Ralph D. Jones  
213 Whitmore (5-0555)

The Registrar's Office is responsible for enrollment and registration of undergraduates, administrative procedures relating to course loads (adding and dropping courses), course of study, withdrawals, producing grade reports, transcripts, records of matriculation, maintaining permanent academic record cards and related activities.

#### Financial Aid

Director: Richard A. Dent  
232 Whitmore (5-0801)

The Office assists students with financial counseling and also aids in finding suitable employment, awards, loans, grants, scholarships, and assigning part-time work. The Financial Aid Office is responsible for administering all federal, state and private financial aid for the Amherst campus as well as coordinating all student employment. The Financial Aid Office also has information concerning area employment, scholarships, loans, etc. Students are advised to apply early for all financial aid.

### Campus Center

Acting Director: William F. Field  
Room 818, Campus Center (5-0585)

The Campus Center Director administers and coordinates the policies of the Campus Center Complex (which includes the Student Union Building and the new Campus Center). The duties include close coordination with the Campus Center Governing Board, serving on various committees concerned with student services, and supervision of the Campus Center Complex staff and services. Major areas of responsibility include the University Store, Campus Center Food Services,

Lobby and Games Area, Campus Center Overnight Accommodations, Parking Garage, Print Shop, and Conference Operations.

### Department of Public Safety

Director: David L. Johnston  
Dickinson Hall (5-3111 emergency, 5-2121 business)

The Department of Public Safety is made up of the University Police, the Security Guard force and the University of Massachusetts Police Training Institute. The Department works in conjunction with federal, state and local law enforcement agencies to provide high quality law enforcement.

The campus security force is responsible for the security of University property, parking control, emergency transportation of sick and injured, and guard services.

University Police Officers are responsible for the public safety of all persons within the physical boundaries of the University campus.

The Guards are assigned to parking control during the day and patrol of the residence hall areas at night. They may request unauthorized persons to leave buildings after normal closing hours and assist authorized persons to enter buildings.

*Anti-Crime Programs:* the Department of Public Safety cooperates with the National Operation Identification Program. Students, faculty, and staff may borrow an engraving tool for 24 hours and place their social security numbers on their valuables. Bicycle registration is conducted bi-annually in the spring and fall. Registration is free. Social security numbers are engraved on bikes, a decal is attached, and advice is given on locks.

*Sensitive Crime Units:* in response to the needs of University and community women, the Department of Public Safety formed this specialized unit to deal with rape, attempted rape, exhibitionists, harassment, and obscene phone calls. Trained male and female officers are available to victims 24 hours a day to counsel and aid with compassion and sensitivity. Victims may report a crime anonymously; they may leave a description of the criminal and help prevent other women from becoming victims. The Department provides full referral services for counseling, medical treatment, and aftercare. Please call 545-COPS.

In accordance with the provisions of the Code of Student Conduct, student ID cards or other means of identification must be shown upon request to any properly identified member of the Department of Public Safety, to enable him/her to perform assigned duties.

The Department of Public Safety is located behind Thompson Tower and is staffed 24 hours a day.

### Health Services

Director: Barry Averill  
Health Center (549-2671)

The Health Services, supported principally through a Summer Services fee, is organized to help prevent or treat health problems.

#### Medical Care

Medical Director: Dr. Thomas McBride

Students may seek unlimited consultations with the physicians, nurse practitioners, and specialists in the outpatient unit of the Health Services. Students may consult with one of these staff members on a walk-in basis or by phoning for an appointment (549-2600). Specialty services such as x-ray, laboratory, medical records, pharmacy and physical therapy are located in the Health Center. Emergency treatment is available 24 hours a day. The Health Center is also a hospital providing bed care for students with more serious illnesses.

Vision examinations are available on a co-payment basis.

# 18 General Information

The details of medical problems are held in strict confidence and will not be released to anyone without the patient's written permission."

## Division of Mental Health

Director: Dr. Leighton Whitaker (5-2337)

Life at the University can sometimes become a perplexing experience, and it may be helpful to talk out feelings, sort out confusion, and develop new perspectives with a member of the Mental Health staff. Psychiatrists, clinical psychologists, and social workers are available for short term one-to-one consultations, and they also provide group therapy and couples consultation when appropriate. As part of the Summer Services fee, students are entitled to consult with any of the staff. No referral is needed and records are confidential.

## Division of Health Education

Director: Jane Zapka

The Health Education staff provides a broad range of programs aimed at developing individual and community responsibility for promoting optimal health. Discussions and workshops are offered to the community on such topics as nutrition, women's health, sexuality and alcohol. Opportunities for consumer activity include the Student Health Advisory Board.

## Division of Dental Health

Director: Dr. Henry Lubin

The Dental Health Division provides emergency dental care, initial examination and dental education services as part of the health fee. Routine restorative care is available on a modified fee-for-service basis as time permits. Removal of impacted teeth will be offered through the Health Center or by referral to a participating surgeon on a co-payment basis.

## Division of Environmental Health and Safety

The Environmental Health and Safety Division provides continuous surveillance of various campus situations, such as housing, food services, and fire and radiation protection.

## Housing Office

Director: J. Bruce Cochrane  
235 Whitmore (5-2100)

Housing in the University's residence halls will be provided to students seeking such accommodations. Students seeking residence hall housing during Summer Session should contact the Housing Office, Whitmore Building, for further information.

## Student Activities

Acting Coordinators: James Riley, Armand Demers  
Student Union (5-2351)

Student Activities, which is comprised primarily of the Recognized Student Organizations (RSO) Office and the Program unit, is responsible for working with student organizations and governance groups in all areas of program development and implementation, business and financial affairs of student groups, and development of policies and resources relevant to the activities and services of students and student groups. Currently there are approximately 500 student groups representing the areas of social action organizations, publications, communications media, residence halls, student government, and special interest groups such as cultural, educational, recreational, social, religious, and political organizations.

The major emphases of the Student Activities operation are:

1. the personal development and education of students

through counsel and training regarding leadership and organizational development, problem-solving, decision-making, effecting change, and interpersonal relationships within organizations;

2. advice, practical experience, and development of skills in such areas as accounting, budgeting and other business practices;

3. provision of a computerized bookkeeping system in support of RSO groups;

4. providing resource materials and counsel regarding budgeting, purchasing, contracting, program selection and planning;

5. the presentation of a wide spectrum of quality services and events for students and the University community.

## Student Development Center

Director: Sally Freeman  
Berkshire House (5-2700, 5-0333)

The Student Development Center provides personal, social, educational and career counseling and placement services to present and past students.

Students have utilized the Center's resources in regard to developmental concerns, personal difficulties and decision-making career and educational matters. The Center maintains, as well, a new student counseling program. Still others have come to consult on research design, test and questionnaire construction, human consciousness, humanistic psychology, and interpersonal communication. All are assured of confidentiality on personal matters discussed with Center staff.

The career planning services of the Student Development Center include vocational counseling and career development services to undergraduates, graduates, and alumni. Informal testing is occasionally used to assist students with remedial problems, to aid in the identification and development of personal and vocational goals and objectives, and to begin a student's career. Applications and information for all National Testing Programs are available and include GRE, LSAT, MCAT, MTE, MAT, and CLEP.

A resource library in the Center provides occupational information, industrial literature, graduate school information, and self-help career aids.

The Center maintains a credential service with up-to-date files of personnel records, developmental resumes and letters of recommendation. Information is also available on local, specialized and out-of-state teacher certification requirements.

## Veterans Affairs

Director: Francis X. Cotter, Jr.  
236 Whitmore (5-1346)

The Veterans Affairs Office provides assistance and coordinates paperwork for students eligible for educational benefits through the Veterans Administration, either as veterans or as children of deceased or disabled veterans. Applicants should present certification of eligibility at registration. If already receiving benefits, they should enroll again for them. Generally, the Veterans Office provides special assistance to the veteran in the areas of housing, part-time work, short-term loans, academic and financial counseling, disabled veterans programs, and opportunities for state and federal benefits. Veteran outreach services are also provided.

# register by mail

Full payment is mandatory at time of registration.

## Course Selection

The University of Massachusetts Summer Session has been designed to provide maximum flexibility for all students. Courses have been scheduled in blocks of three, six, nine and twelve weeks. Each block has been labeled with a letter from C through L. A special K block has been designated for courses independently scheduled. (For information about block K, see *Thesis, Dissertation, Special Problems and Independent Study Credit*.)

A special Block Schedule has been provided for the convenience of the student on page 4 of this catalog to facilitate selection of courses since some are offered consecutively, some are offered concurrently, while others may appear in more than one block.

It is the student's responsibility to select courses with schedules that do not conflict and to design a program free from error.

Courses are listed in the following manner:

### Course Numbers

|         |                                                                      |
|---------|----------------------------------------------------------------------|
| 000-099 | non-credit courses; non-quality point courses; entrance deficiencies |
| 100-199 | undergraduate credit only-Lower Division                             |
| 200-399 | undergraduate credit only-Upper Division                             |
| 400-499 | professional courses which presume a bachelor's degree               |
| 500-699 | graduate credit only; courses corresponding to 200-399 series        |
| 700-999 | graduate level courses                                               |

### Credit

When a course carries two numbers, for example 267/567, it means the course is being offered for either undergraduate and graduate credit. It is important that students indicate only one of these numbers—the one corresponding to the level of credit desired.

All courses carry three credits unless otherwise indicated. In cases of specifically arranged hours, the student and instructor must agree on the number of credits to be earned. The student must indicate the desired number of credits on the registration application.

# register by mail

Full payment is mandatory at time of registration.

### Core Requirement

Courses which may be applied toward completion of UMass core requirements are designated by a capital letter, in parentheses, following the course title.

### Registration Procedure

Once courses have been selected from the Course Descriptions section of this catalog, proceed to the Schedule of Courses and find the same course with its department, schedule line number, section/block, and number of credits. Include complete information on the registration application form. Detailed registration instructions appear on pages 12 and 13 of this catalog.

In the event that instructional costs cannot be met due to underenrollment, any course may be cancelled at the discretion of the Summer Session Director.

Inquiries concerning information contained in this catalog should be addressed to:

Summer Session Office  
Hills House North  
University of Massachusetts  
Amherst, MA 01002

## Course Descriptions

### Accounting

#### Introduction to Financial Accounting ACCTG 120

Introduction to principles underlying the preparation of financial statements.

#### Introduction to Managerial Accounting ACCTG 130

Continuation of Acctg 120 with major emphasis on the development and application of accounting data for planning and control.

#### Business Applications of Computers ACCTG 210

Basic business data processing methods with emphasis on general business problems and their application to the COBOL language. Prerequisites: ACCTG 110, 130, 110.

#### Financial Reporting I ACCTG 220

Intensive examination of fundamental concepts underlying financial reporting. Current literature dealing with effects of alternative methods upon measurement of periodic income. Prerequisite: ACCTG 130.

#### Financial Reporting II ACCTG 221

Continuation of Acctg 220 and intensive examination of current authoritative pronouncements on accounting principles. Prerequisite: ACCTG 220.

#### Cost Accounting ACCTG 230

Methods of cost analysis for job order, process, and standard cost systems, with

emphasis on cost control and interpretation. Prerequisite: ACCTG 130.

#### Managerial Cost Analysis ACCTG 235

Analysis of Cost-Volume-Profit relationships, cost behavior, budgeting and planning, responsibility accounting and control systems, behavioral aspects of budgets, divisional performance evaluation, inventory planning and accounting aspects of capital budgeting. Prerequisites: ACCTG 120, 130 and basic calculus.

#### Law IV: Business Law for Accountants ACCTG 263

Legal concepts and rules encountered in business transactions, with particular attention to subjects currently included in CPA examinations. Prerequisite: GB FIN 260 or permission of instructor.

**Federal Income Tax Procedure**  
ACCTG 370

Federal income tax laws and regulations as they affect individuals; preparation of tax returns. Prerequisite: ACCTG 120.

**Advanced Federal Tax Procedures**  
ACCTG 371

A continuation of Acctg 370 emphasizing corporations, partnerships, estates and trusts, gifts and estate taxes, tax planning and research. Prerequisite: ACCTG 370.

## Afro-American Studies

**Survey of African Art (C)**  
AFROAM 111

The literature on African art and an analysis of both the theoretical basis for its study and of the distinguishing characteristics of its major traditions. An historical survey of Black art from prehistoric times (5000 B.C.) to the European arrival. The neo-traditional art and the tourist trade.

**Afro-American History: Civil War to Present (C)** AFROAM 133

Major issues and actions during the Civil War and Reconstruction to the politics of accommodation in the early 20th century to the rise of Black Power.

**Afro-American Literature and Its Cultural Roots (C)** AFROAM 151

The relevant forms of Black cultural expression contributing to the shape and character of contemporary Black Culture: the literary application of these in traditional Black writers. In four parts: (1) West African cultural patterns and the Black past; (2) the transition — slavery, the culture of survival; (3) the culture through the literature; and (4) Black perceptions vs. white perceptions.

**Revolution in the Third World (D)**  
AFROAM 261

The nature of revolution in the Third World; emphasis on the struggles for national liberation and economic independence. The phenomena of colonialism, neo-colonialism, and military take-over. These topics approached using theory and case studies of revolutions in Algeria, Cuba, China, Viet Nam and Guinea-Bissau.

## Animal Sciences

**Introductory Animal Science**  
AN SCI 121

Modern animal and poultry science and the many scientific disciplines it encompasses. The poultry, dairy, meat, recreational and laboratory animal industries in terms of national and world economics and their role in serving mankind.

**Beginning Equitation I**  
AN SCI 150

An introductory course for those with no previous riding experience or who have not had formal instruction. Establishes correct balance seat position and use of the aids. Includes grooming, bridling and saddling, the walk trot (sitting and rising), diagonals and the start of canter work.

**Beginning Equitation II**  
AN SCI 151

Strengthens the position and security of the rider and introduces basic riding theory. Work without stirrups is done at a walk and trot and the canter is developed. Trotting poles are used to introduce the jump position at the walk and trot. Prerequisite: permission of instructor or completion of AN SCI 150.

**Intermediate Equitation I**  
AN SCI 152

Develops the balanced seat position at the walk, trot (sitting and rising), and canter, with and without stirrups. Jump position at the walk, trot and canter is practiced over cavaletti. Circles, figure eights, transitions and individual tests are utilized to develop control and precision. Prerequisites: permission of instructor and previous formal instruction.

**Intermediate Equitation II**  
AN SCI 153

Extension of AN SCI 152 with the riders secure in their position at the walk, trot (sitting and rising), canter and over cavaletti with and without stirrups. The horses used at this level are more difficult, being either younger, untrained horses, or the more sensitive, schooled horses. Concentrates on beginning dressage, cross country and stadium jumping. Prerequisites: permission of instructor and previous formal instruction.

**Special Problems in Training the Horse** AN SCI 156

Basic training techniques designed to acquaint the student with the methodology and philosophy of training horses from the ground. Proceeds progressively beginning with the training of young horses, and eventually leading up to the schooling necessary with older horses. Major topics include lungeing, long reining and backing the horse. Prerequisites: AN SCI 151 and permission of instructor.

**Special Problems in Teaching Equitation Instruction** AN SCI 157

Prepares students to be potential instructors. Includes theory; powers of instruction and practical application under supervision; riding school management. Prerequisites: AN SCI 153 or 154, permission of instructor, sophomore or junior status.

**Systemic Animal Physiology**  
AN SCI 220

A comparative study of the organ physiology of mammals and birds. Emphasis on those aspects most pertinent to animal science.

**Principles of Animal Nutrition**  
AN SCI 330

Scientific principles of nutrition in both ruminants and nonruminants.

**Horse Management**  
AN SCI 359

The nutrition, physiology, genetics, reproduction and health of the horse. Limited to Animal Science majors or by permission.

## Anthropology

**Introduction to Archaeology (D)**  
ANTH 102

The history, methods and theory of archaeology, with an outline of the main characteristics of the prehistoric record throughout the world.

**Introduction to Physical Anthropology**  
ANTH 103

Human evolution, human variation, racial classifications, racism, and modern theories of variation.

**Introduction to Cultural Anthropology (D)** ANTH 104

Social and cultural anthropology dealing with variations among societies in technology and economics, social and political organization, art, religion, and ideology.

**Biodemography: Connecticut Valley Research** ANTH 290M

Anthropology of the Connecticut Valley by actually participating in research. Reviews relevant literature on the history and geography of settlement in the Upper Valley. Field trips to historical sites in the area and elsewhere in Massachusetts.

**Religion and Ritual (D)**  
ANTH 340/640

Myths, rituals and religious beliefs of cultures in Africa, Asia, South America, Australia and the Ancient World. Prerequisite: ANTH 104 or permission of instructor.

**Summer Field School in Archaeology**  
ANTH 377/677

Practical experience and training in archaeology. Both prehistoric and colonial sites are excavated, and instruction is given in archaeological methods and techniques. Prerequisites: ANTH 102 or equivalent, and permission of instructor.

## Art

**Basic Drawing (C)**  
ART 100

Drawing in black and white, applying pencil, crayon, charcoal techniques to representation in line and tone, emphasizing sound observation and effective presentation.

**Basic Design I (C)**  
ART 120

Two-dimensional design concepts arising out of work with specific problems in a variety of media.

**Interior Design I**  
ART 210

Introduction to graphics, interior layouts, normative and descriptive elevations, 2- and 3-point perspective drawing, architectural measurement and theory of proportion.

## 22 Courses

### Painting I (C)

ART 220/520

Easel painting in oil and related media, based on elementary understanding of physical properties of medium, and encouraging individual directions within limitation of sound composition. Prerequisites: ART 100, 120.

### Painting III

ART 224/524

Continuation of Art 220. Prerequisite: ART 220.

### Advanced Drawing

ART 230

Investigation and development of various techniques and media with special emphasis on figure drawing. Prerequisites: ART 100, 102.

### Printmaking: Relief I (C)

ART 240

Basic study of material, technique, and aesthetic considerations peculiar to relief. Students print their own work. Prerequisites: ART 100, 120 or permission of instructor.

### Modern Art, 1880-Present (C)

ART 287

Major artists and developments from Post-Impressionism to the present.

### American Art (C)

ART 295

The earliest colonial art, the impact of later European influences, regional art of the 19th and 20th centuries, and contemporary developments.

### Interior Design III

ART 330/630

Planning, design, analysis and programming of interior spaces both residential and public. Interior materials, uses, applications, specifications and schedules. Prerequisites: ART 210 and 211 or equivalent.

## Astronomy

### Exploring the Universe (E)

ASTRON 100

Not open to Physical Science or Engineering majors. The earth, its structure and age, the moon, the sun, other planets and the origin of the solar system. Stars and galaxies, their birth and death. The universe, its structure and evolution. Supplemented by occasional hours of evening observation.

## Biochemistry

### Elementary Biochemistry (E)

BIOCHM 220/520

Intended for all students who need an extensive one semester survey of general biochemistry as a professional background for their major. The course considers the structure and metabolism of the common molecules of living organisms. Prerequisite: one semester of organic chemistry.

### Elementary Biochemistry Lab

BIOCHM 221/521

Laboratory for BIOCHM 220/520. Prerequisite: BIOCHM 220/520 previously or concurrently.

## Botany

### Plants and Environment (E)

BOTANY 121

The interrelationships between plants and their environment, emphasizing the impact of man's influence and control on the economy of natural biological areas. Designed for non-science majors. Not open to science majors without permission of major department.

### Genetics and Evolution (E)

BOTANY 175

Survey of the cell and those fundamental genetic principles which are the basis of evolution. Origin and history of organic evolution. Mechanisms of evolution. Intended for non-science majors.

## Business

## Administration

### Introduction to Computers for Business

BA 110

The BASIC and FORTRAN computer programming languages with emphasis on the use of the computer for business data processing and problem solving.

### Business Policy and Strategy

BA 371

An integrative case course requiring application of the students' skills, knowledge,

and understanding to the identification and possible solution of practical problems encountered by general managers who are responsible at various organizational levels for formulating strategies and their successful implementation.

## Chemical Engineering

### Fundamentals

CH E 125

Nature and scope of chemical engineering through study of selected chemical processes and of material and energy balances. Prerequisite: CHEM 112 or 114.

### Chemical Engineering Thermodynamics

CH E 126

The fundamental principles of thermodynamics. An in-depth discussion of the First and Second laws; study of properties of single-component systems, thermodynamic cycles, phase and chemical equilibria. Solution methods for complex energy and material balance problems are introduced. Prerequisites: CHEM 160, MATH 165, CH E 125.

## Chemistry

### General Chemistry (E)

CHEM 110

The fundamental chemical laws and theories. Meets minimum prerequisite requirements of CHEM 160 but not CHEM 127.

### General Chemistry (E)

CHEM 111, 112

The fundamental chemical laws and theories. Provides a sound scientific training for engineers and other students planning to take advanced courses in chemistry.

Student artists will present a new exhibit each week throughout the summer. Attendance at all displays is free. Students should check the summer paper for specific dates.

Joan Zalinsky, Ceramic Sculpture  
Steve Janis, Recent paintings on the subject of outer space  
Bill Tata, Recent works in minimal sculpture

art shows:  
summer 1976

**Organic Chemistry (E)**

**CHEM 160**

For students whose major department does not require a year course in organic chemistry. Concurrent enrollment in CHEM 162 required. Prerequisite: CHEM 110 or 112.

**Organic Chemistry Lab**

**CHEM 162**

A laboratory survey of the chemistry of the major functional groups. Concurrent enrollment in CHEM 160 required.

**Organic Chemistry for Non-Majors (E)**

**CHEM 261/561**

The first course of a two-semester sequence (261/561, 262/562) which covers a survey of the principal classes of organic compounds and their reactions, with emphasis on the relation between structure and reactivity. Concurrent enrollment in CHEM 263/563 is required. Prerequisite: CHEM 112 or 114.

**Organic Chemistry for Non-Majors (E)**

**CHEM 262/562**

Continuation of CHEM 261/561. Concurrent enrollment in CHEM 264/564 is required. Prerequisite: CHEM 261/561.

**Organic Lab for Non-Majors**

**CHEM 263/563**

The experimental techniques of organic chemistry. Concurrent enrollment in CHEM 261/561 required.

**Organic Lab for Non-Majors**

**CHEM 264/564**

Continuation of CHEM 263/563. Concurrent enrollment in CHEM 262/562 is required. Prerequisite: CHEM 263/563.

## Chinese

**Intensive Intermediate Chinese**

**CHINSE 280**

Training in the proficiency of spoken Mandarin. Explanations of and intensive drills in advanced grammatical structures. Increases knowledge of both orthodox and simplified characters up to 2000 level. Introduction of modern literary style and exercises in short essays and composition. Prerequisite: CHINSE 146 or one year of intensive Chinese.

## Communication Disorders

**Clinical Practice**

**COMDIS 588, 588A, 588B**

Supervised experience in therapy with individuals having articulatory type disorders. May be repeated once. Prerequisites: COMSTU 181 and 182.

## Communication Studies

**The Process of Communication**

**COMSTU 170**

Process and functions of communication in the two-person, small-group, and public contexts. Topics include outcomes of communication, development of a model of interpersonal communication, learning theory, person perception, interpersonal attraction, language and nonverbal messages. Emphasis on understanding the process of communication and increasing competence as a communicator. Class projects and exercises.

**Introduction to Media Production**

**COMSTU 190A**

Processes involved in the production of radio programs, television programs and films. Evolution of the production process, analysis of current procedures, discussion of future trends. Limited production experiences in all media.

**Modes of Film Communication**

**COMSTU 190B**

Various styles and functions in film communication and artistic expression in narrative and non-narrative forms. Focuses on film form and function, and on film as record, translation, original storytelling, social observation, persuasion and self-expression.

**Interpersonal Communication (C)**

**COMSTU 210**

Nature and effects of person-to-person speech communication. Emphasis on the behaviors of everyday verbal and non-verbal communication that produce effects on ourselves, others, society and future communication. The relationship of interpersonal to public communication.

**History and Development of the Motion Picture COMSTU 225**

Evolution of the motion picture as an international art form and social force. Analysis of form, technique and impact of film. Selected screening of representative film styles and content.

**Organizational Communication**

**COMSTU 290B**

Communication in organizational settings, including service groups, clubs, families and residential groups, religious organizations, educational institutions, and business organizations. Focus is on interpersonal and small group communication as they reflect and influence organizational philosophies, goals, roles and decision-making.

**Pro Seminar in Mass Communications**

**COMSTU 391C**

Analysis and discussion of major problems in the field of mass communications. Prerequisites: written permission of the instructor, senior standing, 18 hours in Mass Communication courses.

**Seminar in Mass Communications**

**COMSTU 707C**

Focus is on "Mass Communications and the Classroom." Evaluation of the nature,

trends, and effects of television and other mass media in relation to the educational process. Experimentation and exposure to practical aspects of the media and their use in education. Emphasis on student needs and interests.

**Directing the Forensic Program**

**COMSTU 715**

Problems related to forensic programs: coaching individual and group activities, judging, tournament administration, and administration of the entire forensics program. Prerequisite: permission of the instructor.

## Comparative Literature

**Introduction to Comparative Literature:**

**In Praise of Folly (C) COMLIT 101A**

The spirit of laughter in literature; whether lover or scoundrel, the comic hero is seen as a "wise fool" upholding the basic human values of mirth and pleasure in a society disrupted by its own seriousness. Laughter as social protest. Readings selected from: Aristophanes, *The Clouds*; Chaucer, *Canterbury Tales*; Cervantes, *Don Quixote*; Shakespeare, *Henry the Fourth*; Voltaire, *Candide*; Carroll, *Alice in Wonderland*; plays by Slawomir Mrozek. Requirements: three 5-page papers and work with the instructor on revision when necessary. Regular participation in class.

**Introduction to Comparative Literature:**

**Literature as Social Commentary (C)**

**COMLIT 101B**

The writer as moral legislator for his society. Heroic code of medieval England and certain ecclesiastical codes of conduct; recent authors writing in social climates they feel to be intolerable. Readings: *Beowulf*; selected short writings of St. Benedict; Leo Tolstoy; Jonathan Swift; Dickens, *Oliver Twist*; Sinclair, *The Jungle*; Camus, *The Plague*; Solzhenitsyn, *Cancer Ward*. Requirements: two or three 5-page papers; class participation.

## Computer and Information Science

**Introduction to Problem Solving Using the Computer COINS 122/422 (E)**

Problem solving and FORTRAN programming for students from all disciplines. Concepts associated with problem solving valid for many types of problems. Use of FORTRAN on the UMASS time-sharing system. Laboratory included.

**Assembly Language Programming**

**COINS 201/501**

Basic ideas of computer hardware and principles of computer systems organization: input/output equipment, machine organization, logical design, elementary data structures, and assembly language programming. Lab involves hands-on experience with pro-

## 24 Courses

grams, loaders, and assemblers. Prerequisite: COINS 122 or programming experience.

### Computational Modelling

#### COINS 350/650

An introduction to probabilistic techniques such as Markov process, random walk and Monte Carlo techniques. Statistical techniques, distributions, and correlation coefficients. Brief introduction to simulation languages. Simple queues, n-person zero sum games. Selected topics generated by class interest. Prerequisite: COINS 202.

## Economics

### Introduction to Microeconomics (D)

#### ECON 103

Introductory analysis of resource allocation and income distribution through microeconomic theory. Specific problems illustrate the use of the theoretical precepts developed.

### Introduction to Macroeconomics (D)

#### ECON 104

An introduction to the economic theory used to explain the behavior of the American economy. Emphasis on the macroeconomic goals of full employment, price stability, economic growth and balance of payments equilibrium.

### The Economics of Insecurity and Poverty (D) ECON 131

Public and private programs to prevent or alleviate economic insecurity, including poverty, substandard incomes and economic contingencies.

### Intermediate Microeconomic Theory (D) ECON 203

Microeconomic analysis of consumers, firms, industries, and markets; rational decision-making under conditions of certainty; balancing forces in a free enterprise economy. Prerequisite: ECON 103.

### Intermediate Macroeconomic Theory (D) ECON 204

Formulation and empirical testing of static and dynamic theories of aggregate income, employment, and prices with reference to fluctuations, growth, and economic forecasting. Prerequisites: ECON 103 and 104.

## Education

### Foundations of Education

#### EDUC 251/551

Study of selected problems and issues in modern education such as educational aims, societal expectations of the schools, church-state relations, professionalism, academic freedom, curriculum and methodological emphasis, urban education, and educational innovation. Fulfills Foundations requirement for those students seeking teacher certification.

### Principles and Methods of Teaching Elementary Reading and Language Arts EDUC 261/561

Approaches to the teaching of reading and language arts in the open classroom. Presents, demonstrates and discusses innovations in methods and materials. Individualized Reading stressed. Learning centers and their use, diagnosis, techniques of teaching creative and functional language arts, and children's literature.

### Principles and Methods of Teaching Elementary Math EDUC 263/563

Introduction to the methods, materials and curriculum of mathematics education in the elementary school.

### Principles of School Guidance EDUC 277/577

The nature of guidance and its need in the schools with an overview of an adequate guidance service for a school system. Provides information and experience on how counseling services help people understand themselves, others, and how they can function effectively in society. Knowledge from educational psychology, philosophy, history and sociology examined and applied to guidance and personnel programs. Learning as an active process. Extensive reading and some field experiences.

### Methods in Teaching Secondary English EDUC 309/609

Workshop concentrates on current issues and problems in the teaching of English in high school, new curricular questions, the teaching of reading and writing skills, the use of writing labs, the place of literature and media in a course of study and the potential of small group instruction and personal growth activities in the English classroom. Open to graduates and undergraduates, pre- and in-service teachers; fulfills Methods requirement for secondary certification. Prerequisite: substantial English background.

### Principles of Educational and Psychological Testing EDUC 332/632

Basic principles of educational and psychological testing. Descriptive statistics, scores and norms, test reliability and validity, evaluating standardized tests, factors affecting test scores, criterion-referenced testing, and test development techniques.

### Introduction to Research for Non-Research Majors EDUC 333/633

Purposes for research, different kinds of research (historical, survey and experimental), and specific research methodology, drawn from statistics, experimental design, and measurement and evaluation. Applies techniques to practical problems.

### Introduction to Statistics and Computer Analysis EDUC 355/655

Introduces education and social sciences students to methods for reducing data to a few convenient descriptive terms and for drawing inferences concerning these terms from the data collected. Basic probability, frequency and probability distributions, measures of central tendency (mean, median, mode), measures of variability (range, standard deviation), tabulation and graphing, measures of association, linear regression, sampling distributions, hypothesis testing, confidence intervals, and analysis of qualitative data.

viation), tabulation and graphing, measures of association, linear regression, sampling distributions, hypothesis testing, confidence intervals, and analysis of qualitative data.

### Methodology and Materials in Teaching Occupational Education (Agriculture) EDUC 375/675

Modified seminar approach to classroom teaching of agriculture. Problem-solving approach to teaching, preparation of behavioral objectives, performance-based instruction, micro-teaching, and a review of new and innovative materials for teaching vocational agriculture. Offered primarily for teachers of vocational agriculture who need certification as stipulated by the Massachusetts State Plan for Vocational Education. *Note:* This course is to be offered at the University's Suburban Experiment Station, Waltham, Ma., on Wednesdays (June 2-July 7, 1976) from 9-12 a.m. and 1-4 p.m. Prerequisites: Adolescent or Educational Psychology; Principles and Practices of Occupational Education; or permission of instructor.

### Introduction to School Counseling Theory EDUC 390A

Explores major theories of counseling to orient and expand ways of thinking about the counseling process. Readings and demonstrations according to the experiences and interests of students.

### Reading Instruction EDUC 390B

Introduces reading instructional practices in school settings. Critical overview of current approaches, methods and materials, supported by an introduction to some basic understandings about the reading process and the acquisition of written language.

### Introduction to Reading Diagnosis EDUC 390C

Methods for evaluating reading performance. Uses and misuses of standardized tests; construction of teacher-made tests; and assessment of students' reading through the analysis of oral reading miscues.

### Photography in Education EDUC 390D, 390E

Introduces 35 mm photography. Brief history of photography and the history of photography in education. Extensive darkroom work; critical analysis of work. Continuous application of strategies for education and the place of photography in the classroom. Strictly in black and white photography in darkroom. Prerequisite: own 35 mm camera, permission of instructor.

### Counseling for Human Development EDUC 390F

Survey of current psychotherapies. Brief introduction to Freudian concepts and their development by later psychologists; concentration on current, particularly existential (humanistic) psychotherapies (e.g., Rogerian, Gestalt, TA, etc.). Attention to each student's counseling theory, and development of personal style of counseling. Political implications of existential psychologies. Prerequisite: some counseling experience preferred.

### Workshop in African Education

#### EDUC 390G/686G

Critical educational problems and issues in selected African countries. The role of education in its historical, political, economic and sociological contexts. Reviews existing teaching materials on Africa and develops new materials for use in the schools.

### Family Counseling

#### EDUC 390H

Working knowledge of family dynamics and the role of the student's family of origin in his/her personal development; awareness of one's role and function in a self-defined family system; current theories and techniques of family counseling. Prerequisite: interview with instructor.

### Effective Classroom Communication

#### EDUC 390I/686I

Principles and problems of classroom instruction and the exercise of educational leadership to improve instruction at the elementary, secondary, and higher education level. Experiences in curriculum development, appropriate teaching techniques, and development of learning materials. Provides opportunities for micro-teaching and activity-based projects.

### Extension and Adult Education for

#### Development EDUC 390J/686J

Role of extension and adult education in developing less developed economies, emphasizing rural communities of the Third World. Explores possibilities of improving international development efforts by using nonformal education as development tool.

### Sign Language and Fingerspelling

#### EDUC 390K

Basic signs and fingerspelling, technique of total communication and its inherent characteristics of mime, body language, and facial expression. Lectures and discussion concerning deafness and the ramifications of this handicap.

### Curriculum for Creating

#### EDUC 390L/686L

Recent developments in basic psychological and neuropsychological research concerning right and left cerebral hemispheric functioning in humans. Workshop on creative and curriculum-extending devices. Preliminary form of curriculum materials for the extension of normal human intellectual and creative capacities for elementary and high school age levels. Extends consciousness levels toward developing personal creativity in a transdisciplinary effort. Prerequisite: some teaching experience preferred.

### Family Psychodynamics

#### EDUC 390M

Individual psychological development within the context of the family, including family life cycle, "healthy," "neurotic," and "psychotic" families, double-bind theory of schizophrenia, family communication systems, and a brief introduction to family therapy models. Seminar format using didactic readings, films; case studies using data from our own families. Prerequisite: some counseling experience preferred.

### Teaching Reading as a Comprehension-Centered Activity EDUC 700A

Advanced workshop developing reading instructional strategies and resources, emphasizing strategies for individualizing reading instruction, for making reading a comprehension-centered activity, and for building on readers' language strengths. Theoretical view of the reading process as the basis for decision-making and instructional planning.

### Options in Public Education

#### EDUC 700B

For teachers at South High School in Worcester who are involved in the UMass/Worcester Teacher Corps Program. Literature of options in public education and application of readings to the development of learning options in the new Southwest High School in Worcester. Prerequisite: must be a teacher at South High School in Worcester, Ma.

### Workshop for Inservice Schemes

#### EDUC 700C

Workshop in response to inservice teachers and administrators who assume responsibility for staff development and inservice work. Seminar on exploring the literature and research related to staff development, designing staff development strategies, implementing the strategies in the field, and evaluating the growth which occurs. Teams document their processes. Prerequisite: permission of instructor, Dr. Mason Bunker, 224 School of Education, 545-1587.

### Seminar in Education: Issues in Curriculum and Instruction in the Secondary Schools EDUC 705

Selected issues, theory and present practice with emphasis on determiners of curriculum, methods of instruction, individualization of instruction, and the role of evaluation.

### Seminar in Mathematics Education

#### EDUC 710

Survey of recent developments in elementary mathematics education and their implications for exploring mathematics in the elementary school. Emphasizes active learning and the use of physical materials.

### Children's Literature

#### EDUC 782

Lectures, demonstrations, discussions, practicum and readings surveying the field. Investigates various content areas (comparative folklore, poetry, and non-fiction), approaches for classroom use, contemporary problems, and the needs of specific populations. Critical issues in recent children's fiction, including divorce, sex, treatment of minorities and females, death, old age and family interaction.

### Laboratory for Counseling Skills

#### EDUC 831

General nature of theory-construction, levels of explanation, relationships of philosophy, psychology and sociology, various methods of facilitating human growth and development. Intensive 40-hour workshop in helping skills as defined in the microcounseling paradigm.

Lecture-discussion, presentation of specific videotaped models of helping, and 50% small-group work in units of four with closed-circuit videotape units. Students demonstrate specific competence in helping in small-group meetings with instructor. Prerequisite: permission of instructor, Microcounseling recommended.

### Educational Sociology

#### EDUC 884

The American public schools examined as one of many social institutions in the American culture. Emphasis on population, pressure groups, and the social structure of the schools within the community.

### School Counseling Theory

#### EDUC 910

Several theories of counseling encourage students to develop a system of helping. Rogerian, Gestalt, transactional analysis, psychosynthesis, behavioral social learning, psychodynamic, re-evaluation co-counseling, existential, trait and factor. Video and film models of alternative approaches to helping. Prerequisites: EDUC 577; at least one hour of credit in EDUC 701.

### Group Activities in Counseling

#### EDUC 915

A guidance study of school groups. Group dynamics, discussion techniques, group counseling, sociometric methods, and other school group activities. Laboratory training experience focusing on personal and group development. T-group sessions focus on inter-personal interaction and group dynamics, and effectiveness in assuming functions necessary for building and maintaining a group. Outside reading, theory and skill session in class, and observation of other groups. Group dynamics theory and practice, with individual development. Prerequisite: application form, Room 368, Hills South.

## Electrical and Computer Engineering

### Circuit Theory

#### ECE 204

Concepts used in the analysis of electrical circuits and systems: Fourier transforms, amplitude and phase responses, elementary synthesis, introduction to non-linear and time-varying networks. Prerequisite: ECE 142

## English

### Society and Literature (C)

#### ENGL 131

Concentrates on writers and novels such as Brontë, *Wuthering Heights*; Lawrence, *Women in Love*; Gissing, *The Odd Woman*.

## 26 Courses

*cn; Woolf, Mrs. Dalloway; Hesse, Steppenwolf; Joyce, Portrait of the Artist, or Dubliners; Hemingway, The Sun Also Rises; Steinbeck, The Grapes of Wrath; Toomer, Cane; Fowles, The French Lieutenant's Woman.* Focuses on individual writers but seeks to create a sense of interactions between writers and the modern society. Several short to moderate length papers.

### Reading Fiction (C) ENGL 152

An introduction to themes and techniques of fiction through a reading of selected short stories and novels with emphasis on such matters as structure, style, point of view, and the like.

### The Modern Novel 1930-1960 (C) ENGL 262

Analysis of some twelve novels. A continuation of ENGL 261, but may be elected independently.

### 19th Century American Literature (C) ENGL 273

Significant productions in expository prose, poetry; the emergence of an American literature.

### Stylistics

#### ENGL 290S (also LING 290S)

Three part course: 1) brief overview of the aims and techniques of linguistics, leading to a consideration of transformational generative grammar as a hypothesis about natural language; 2) application of this theory of grammar to the study of syntactic literary style; 3) relation of theories of metrical analysis to modern theories of phonology. Term paper and one short in-class presentation on a poem or prose passage of interest. Substantial reading recommended.

### Creative Writing

#### ENGL 341

Intensive practice in writing prose fiction, poetry, and occasionally other forms, supplemented by discussion of ideas and techniques in contemporary literature.

### Individual British Authors: John Donne (C) ENGL 382

The beginnings of learning how to read poems and how to share readings with others. John Donne offers versatility and depth of experience as an exciting, lyric English poet dealing with the love experience and its relationship to God.

### Individual American Authors: Robert Frost (C) ENGL 384

Enlarges understanding of Frost as a poet, essayist, and thinker. Includes reading and discussion of poems and major essays in the light of Frost's other writings and his major critics' writings. One class report and assessment of a critic of Frost required, plus a few short papers, a substantial term paper, and a final exam.

### Shakespeare

#### ENGL 732

Close examination of Shakespearian plays representing the characteristics of his dramatic art.

### Seminar in American Literature: Teaching Contemporary American Fiction in High School ENGL 838

Includes a resolution of conflict in novels of Pynchon, Vonnegut, DeLillo, McGuane, McMurtry, Oates, Gaines, Didion, Hawkes, Barth, Barthelme, Gardner, and Brautigan—Americans, Black and White, men and women. For in-service secondary school teachers, MAT candidates, and approved undergraduates. Emphasizes teaching and interpretation, and an intensive weekend seminar format for peer dialogue. Meets Saturday and Sunday, June 5-6, 19-20, 26-27, 9 a.m.-12 noon, 1-3:30 p.m. Please contact the instructor before registration to obtain detailed syllabus.

## Entomology

### Insects and Man (E)

#### ENT 126

A survey of the field; structure, development, evolution, classification, biology, and natural control of insects. Formation of an insect collection.

## Environmental Design

### Land Form

#### ENVDES 353

The manipulation of land surfaces; graphic representation through topographical plans cross sections, profiles and models. Open only to students in the Design Studio Option.

## Environmental Sciences

### Case Studies of Environmental Problems ENVSCI 250

A problem approach to provide the necessary conceptual framework for analysis of environmental problems. Selected case studies used to investigate the parameters of specific disciplines in relationship to "causes" and "cures" of environmental problems, and identify interfaces among those disciplines for future research. For students in environmental sciences, environmental sciences education, as well as those others who are interested in environmental studies. Prerequisite: two semesters of college science.

## Food & Resource Economics

### Basic Biometry (E)

#### F&R EC 177

Introduction to applied statistical principles and techniques for biological data.

### Environmental Economics

#### F&R EC 226

Issues relating to environmental aspects of land and water use. Emphasis on the economic implications of alternative courses of action as they affect both public and private sectors. Prerequisites: ECON 100 and 103 or equivalent background.

### Introductory Econometrics

#### F&R EC 290A

Introduction to econometric estimation methods. Topics include: an introduction to least squares regression, regression theory, multiple linear regression, regression extensions, correlation, serial correlation and related problems, and simultaneous equations estimation. Theory and application receive roughly equal emphasis. Prerequisite: an introductory course in statistics or consent of instructor.

# Register by Mail

## Advance registration deadlines:

**May 19**

**Blocks C,D,F,J**

**June 11**

**Blocks G,L**

**June 30**

**Blocks E,H**

**July 23**

**Block I**

**Registration information begins on page 12.**

## Forestry

### The Elements of Forest Mensuration FOREST 225

The measurement of trees, stands, and forest products; practice in timber estimating and log scaling; collection and compilation of forest inventory data.

## French

### Intensive Review FRENCH 123

Four language skills in preparation for third semester French. Intensive, fast moving course which reviews all the work normally done in two semesters of college French or two years of high school French. Open library language lab available. Prerequisite: two years of high school French.

### Intermediate French FRENCH 130

Intensive study and review. Readings in modern French literature. Prerequisite: FRENCH 123 or 126, or equivalent.

### Conversation FRENCH 162

Practice in conversational French. Prerequisite: FRENCH 161.

### Graduate Reading Course FRENCH 470

Intensive course stressing reading skills for graduate students needing to fulfill language proficiency requirements. No credit.

## General Business and Finance

### Corporation Finance GB FIN 201

Corporate financial behavior; appraisal of factors affecting decision-making regarding sources and application of funds; introduction to capital budgeting and cost of capital problem. Prerequisite: ACCTG 125 or permission of instructor.

### Administrative Statistics GB FIN 250

Probability and statistical distributions applied to business management problems; application of Bayes' theorem to sampling for business decision-making under uncertainty.

### Introduction to Law GB FIN 260

The nature, functions and limits of law. Various theoretical approaches to law as an important institution in society. Selected problems of law, power and stratification and the relationship of law and values in society. Analysis of the administration of law through legislation, administrative agencies and courts.

## Geography

### Introduction to Human Geography (D) GEOG 155

The spatial attributes of human societies; population, cultural characteristics, settlement, and economic activity. Selected regional case studies.

## Geology

### Physical Geology (E) GEOL 101

The nature and origin of the landscape features of the earth and their underlying rocks and structures, including the work of rivers, waves and currents, wind, and glaciers; the role of earthquakes, volcanoes, and the processes of mountainbuilding.

## German

### Elementary German GERMAN 110

For the non-German major who has no previous training in German. Emphasis on understanding and reading. Sequence to be followed: GERMAN 110, 120, 130, 140.

### Intensive Elementary German GERMAN 126

For non-German majors. Intensive training in all language skills. Equivalent of 110, 120.

### Intensive Intermediate German (C) GERMAN 146

A thorough review for non-German majors of grammar, reading and discussion of literary texts; emphasis on the cultural background of German speaking countries. Equivalent of 130, 140. Prerequisite: GERMAN 120, 126, or advanced placement.

### Graduate Reading Course GERMAN 409

Preparation for the graduate school language requirement and/or acquisition of reading knowledge of German for research purposes. Grammar and structure of German, combined with daily translation assignments. Brief vocabulary quizzes and somewhat longer reading comprehension exams on a regular basis as a preparation for the Princeton GSFLT Test. No previous knowledge of German required. No credit.

## History

### History of Latin American Civilization (C) HIST 121

An introduction to the history of Latin America. First semester: from pre-conquest times to the close of the colonial era; second semester: the evolution of Latin America in the 19th and 20th centuries.

### The Development of American Civilization to 1876 (C) HIST 150

A survey of the American national growth.

### The Development of American Civilization 1876 On (C) HIST 151

A survey of the American national growth.

### New Approaches to American History (C) HIST 185

In 1919 eight members of the Chicago White Sox baseball team conspired with gamblers to lose the World Series. Why did they do it, and what were the mechanics and the consequences of their action? The course does not demand a knowledge of or interest in baseball; it does assume an interest in the general development of American society.

### The History of Russia II (C) HIST 215/515

A survey of Russian political, social, economic, and intellectual history. The impact of modernization on Russia in the 19th and 20th centuries.

### Medieval England (C) HIST 233/533

England from the 5th to the 15th century, with particular attention to the Anglo-Saxon period, the Norman Conquest, and the evolution of government to the accession of the Tudors.

### The South in American History (C) HIST 332/632

From early settlement to contemporary regional problems.

### Topics in United States Intellectual History HIST 738

Specific aspects of such general topics as the American adaptation of the European heritage, the growth of the concept of Americanism, the emergence of patrician leadership, the achievement of realistic democracy, the triumph of nationalism, the assertion of individualism in a corporate society, and the scientific-humanistic culture conflict.

## Honors

### Honors Tutorial of Case Studies of Environmental Problems HONORS E-10

Specific case study of a current environmental problem as selected by students. The case studies will be presented orally (in the honors tutorial) as well as in written form. The first four tutorials will consist of discussion of selected topics from assigned readings. The remaining five tutorials will consist of student presentations. (ENVSCI 250)

## Hotel, Restaurant & Travel Administration

### Food Preparation and Services HRTA 156

Basic principles of menu planning and the management of purchasing, food production, and service.

# 28 Courses

## Hotel Systems and Operations

### HRTA 310

Analysis and evaluation of hotel systems and operations. Emphasis on analytical techniques, systems, computer-assisted operations, and change-induced problems. Opportunity to participate in operations of Campus Center. Prerequisites: HRTA 102, 200, 211.

## Industrial Engineering

### Industrial Engineering Economics II IE 354

An introduction to economic problems faced by engineers, comparison of alternatives in engineering projects, use of discounted cash flow techniques, breakeven and minimum cost points, and economic selection and replacement of structures and machines; decisions made in the face of risk and uncertainty. Instruction wherever advantageous by the case method. Intended as a service course for all technically-oriented individuals.

## Italian

### Elementary Italian ITAL 110, 120

For students with no previous creditable training in Italian. Intensive practice in language skills.

## Latin

### Intensive Elementary Latin LATIN 110

An introduction to the elements of the Latin language. For students with no previous experience with Latin.

### Intensive Intermediate Latin (C) LATIN 140

Mastery of the basic structures of the Latin language and attainment of intermediate competence in reading Latin prose. Prerequisite: LATIN 110, 112, 115, or 125, or 2-3 years of Latin in high school.

## Legal Studies

### Seminar: The First Amendment LEGAL 391M

The First Amendment guarantees the freedom of speech, press, religion, assembly and petition for redress of grievances. Explores the basic meaning of the First Amendment and several areas in which its current vitality is open to question. Readings: T. Emerson, *Toward a General Theory of the First Amendment*, multilithed cases and materials.

### Seminar: The Fourth Amendment LEGAL 391N

The Fourth Amendment protects citizens from unreasonable searches and seizures and is as close as the constitution comes to guaranteeing a right to privacy. Examines the history of the amendment, and its relationship to the problem of crime in society, to the role of the police, to surveillance of citizens and to the computerization of files. Readings: multilithed cases and readings.

### Seminar: The Sixth Amendment LEGAL 391O

Examines the history of the amendment with particular emphasis on the significance of the jury within our legal and social system. Readings: multilithed cases and readings; Anthony Lewis, *Gideon's Trumpet*.

### Total Institutions LEGAL 391P

Examines the role of persons in society as a total institution. Studies the legal and social dimensions of the correctional system and considers its relationship to other institutions in our culture. Readings: multilithed cases and readings; Goffman, *Asylums*.

## Leisure Studies and Services

### Man and Leisure LS&S 101

Concepts of leisure, play and recreation and their societal implications. Examination of leisure opportunities and experience with emphasis on the delivery of leisure services. Field trips.

## Linguistics

### Introduction to Linguistic Theory (C) LING 201

The nature of language; an in-depth study of important aspects of the structure of the student's language, viewed from the standpoint of modern linguistic theory. Emphasis on syntactic problems; some attention to phonology, language acquisition, etc.

### Introduction to Psycholinguistics (C) LING 211

Its theoretical foundations, methodology, and experimental techniques. Emphasis on the acquisition of language, child language and linguistic universals, and learning and perceptual strategies. Prerequisite: LING 201.

### Stylistics

#### LING 290S (also ENGL 290S)

Three part course: 1) brief overview of the aims and techniques of linguistics, leading to a consideration of transformational generative grammar as an hypothesis about natural language; 2) application of this theory of grammar to the study of syntactic literary style; 3) relation of theories of metrical analysis to modern theories of phonology. Term paper and one short in-class presentation on a poem or prose passage of interest. Substantial reading recommended.

## Management

### Principles of Management MGT 201

Introduction to administrative processes and procedures of management.

### Personnel Management MGT 214

Principles and policies followed by management in recruitment, development, direction, and control of personnel.

### Managerial Behavior MGT 230

Principles of human behavior in organizations; understanding of one's self as a person and as a manager; development of interpersonal managerial skills. Prerequisite: MGT 201.

### Administrative Theory MGT 231

Principles of administration, modern organization theories, specialization, functionalization, coordination, planning and control, authority status, leadership, decision-making, communication, and power-structuring. Prerequisites: MGT 201, 230.

### Business and Its Environment MGT 265

A critical examination of the social, political, technological, and ethical issues confronting the contemporary manager and the modern corporation. Competing concepts of the role of business in society. Prerequisite: junior standing or permission of instructor.

## Marketing

### Fundamentals of Marketing MKTG 201

The role of marketing in our economic and social structure. The planning, distribution, pricing and promotion of goods and services to consumer and industrial markets viewed as internal activities of the firm, and as shaped by environmental forces.

## Buyer Behavior

### MKTG 210

Analysis of buyer motivation and buying behavior. Explanatory theories of consumer market behavior and models of the decision-making process for winning patronage. Prerequisite: MKTG 201 or permission of instructor.

## Marketing Management

### MKTG 216

An advanced understanding of the nature and problems of marketing management: the process of marketing management, the environments facing the marketing manager, and the tools available for environmental analysis and control of marketing activities. Prerequisite: MKTG 201 or permission of instructor.

## Marketing Communications

### MKTG 222

Development of effective marketing communication strategies based upon an understanding of the characteristics of audiences. Conceptual material from communications theory applied to advertising and other promotional problems. Prerequisite: MKTG 201 or permission of instructor.

# Mathematics

## Mathematics in the Modern World (E)

### MATH 100

A cultural presentation of some mathematical ideas to demonstrate both the scientific and the humanistic values. Open to Mathematics majors for non-major elective credit.

## Algebraic Review

### MATH 101

A rapid review of algebraic manipulations and definitions utilized in calculus. Topics include common subsets of the real numbers; sums, products, and quotients of polynomials; factoring, rational expressions; exponent and radicals; linear and quadratic equations; radical equations; linear and quadratic inequalities; equations and inequalities involving absolute values.

## Analytic Geometry with Elementary

### Functions MATH 102

An introduction to the function concept and analytic geometry. Topics include relations and functions; one-to-one functions and their inverses; linear, quadratic, and other polynomial functions; exponential and logarithmic functions; lines; conic sections. Prerequisite: MATH 101.

## Precalculus Trigonometry

### MATH 103

An introduction to trigonometry covering topics considered essential for standard calculus. Topics include definitions and graphs of cosine, sine, tangent, cotangent, secant, and cosecant; essential identities; introductory triangle trigonometry. Prerequisite: MATH 102.

## Elementary Techniques of Mathematics (E) MATH 110

A survey of several specific topics designed to acquaint the student with the general nature of mathematics. Topics may include logic and sets, mathematical systems, calculus, probability, statistics, linear programming, and game theory.

## Mathematics for Business I (E)

### MATH 120

Designed for School of Business Administration students. Linear and analytic mathematical methods and their applications to business. Linear systems of equations, matrices, vectors, Markov chains, linear programming, derivatives. Credit not given after MATH 112, 115, 116, 118, or 167.

## Mathematics for Business II (E)

### MATH 121

Integration, functions of several variables, and applications to business. Credit given for only one of the courses 117, 119, 121, 132, 136, 138. Prerequisites: MATH 116, 120, or equivalent.

## Calculus for the Life and Social Sciences I (E) MATH 127

Introduction to differential and integral calculus. Applications to the life and social sciences stressed. Credit given for only one of the courses 116, 118, 127, 131, 135, 137, 146. Prerequisite: high school algebra and plane geometry.

## Calculus With Precalculus I (E)

### MATH 131

Introduction to differential and integral calculus of functions of a single variable with requisite analytic geometry and trigonometry: analytic geometry of lines and conic sections, trigonometric functions, continuity, derivatives, extrema, curve sketching, the integral. Intended for students not prepared for MATH 135 but who need less preparation than MATH 101-103. Credit given for only one of the courses 116, 118, 127, 131, 135, 137, 146. Prerequisites: high school algebra and plane geometry.

## Calculus With Precalculus II (E)

### MATH 132

Continuation of Math 131. Integration techniques, limits, partial derivatives, integrals as limits, improper integrals, theorems of Cauchy and Taylor, infinite series and power series, smooth curves. Credit given for only one of the courses 117, 119, 128, 132, 136, 138. Prerequisite: MATH 131/135.

## Multivariable Calculus (E)

### MATH 165

Functions of several variables, partial derivatives, multiple integrals, theorems of Green, Stokes, and Gauss. Prerequisite: MATH 173/183 or MATH 132/136/138.

## Introduction to Linear Algebra (E)

### MATH 167

Vector spaces over the real field, linear independence, linear equations, bases and dimension, inner product spaces, linear transformations and matrices, determinants, eigenvalues, applications to geometry. Not for credit after MATH 212. Prerequisite: second semester calculus to be taken concurrently.

## Introduction to Modern Algebra I (E)

### MATH 211

Introduction to groups, rings, and fields. Prerequisite: MATH 167. MATH 200 may be helpful but not necessary.

## Advanced Calculus I (E)

### MATH 225

Elementary topology of the line and Euclidean  $n$ -space, continuous functions, Riemann integration, infinite series and power series. Not for credit after MATH 325. Prerequisites: MATH 165/166 or MATH 174/184 and MATH 167. MATH 200 may be very helpful but is not required.

# Mechanical and Aerospace Engineering

## Energy and Man (E)

### M&A E 101

Energy and its role in a technological society. The fundamental laws of energy and energy conversion. Secondary environmental effects of energy production and transmission. Energy resources and energy management. Not open to engineering majors.

## Mechanics I

### M&A E 144

A vector treatment of the equilibrium of particles and rigid bodies. Topics include: vector algebra, forces, moments, couples, equations of equilibrium, free-body diagrams, graphical techniques, constraints, structures and mechanisms, friction, centroids and moments of inertia, the method of virtual work. Prerequisites: MATH 136, PHYSICS 161.

## Thermodynamics

### M&A E 163

The laws of thermodynamics introduced and applied to various energy-transforming devices. Property relations. Emphasis on the science of thermodynamics, providing a background for further study in those areas that involve thermodynamic principles. Prerequisites: PHYSIC 162, MATH 165.

# Music

## Introduction to Music Appreciation (C)

### MUSIC 101

Open to all students not majoring in music. Previous musical training not required. Basic music materials, principles of design, and cultural significance of representative works from the ninth century to the present.

## Afro-American Music (C)

### MUSIC 108

Spirituals, blues, songs, jazz and classical music of Afro-Americans.

## Elementary Music Theory for Non-Majors (C) MUSIC 111A

Notation, ear-training, solmization, sight-reading, harmony, counterpoint, analysis by score and sound of music literature from all periods, orchestration, improvisation and original composition. Prerequisite: ability to read music.

## 30 Courses

### Elementary Music Theory (C)

#### MUSIC 112

Notation, ear-training, solmization, sight-reading, harmony, counterpoint, analysis by score and sound of music literature from all periods, orchestration, improvisation and original composition. Prerequisite: ability to read music.

### Piano Class

#### MUSIC 120

Piano proficiency. Required of all music majors. Not open to non-majors. By examination, or no more than 4 hours credit allowed.

### Individual Instruction: Applied Voice

#### MUSIC 123

Attention to development of performance skills and study of appropriate literature.

### University Chorus

#### MUSIC 162/762

Preparation and concert performance of oratorios and other large choral works.

### Contemporary Techniques

#### MUSIC 217

Examination of melody, rhythm, harmony, and form in 20th century music. Analysis, listening, and written assignments. Prerequisite: MUSIC 114.

### Music for Elementary Teachers

#### MUSIC 231/700G

Assumes little or no background. Improvisations, composition experiences, using non-traditional and environmental sound sources, vocal sound exploration, traditional and non-traditional instrumental techniques, electronic music, and functional notation systems. Applications of techniques and materials for use with children at various levels. For professional and prospective classroom teachers.

### History of Opera

#### MUSIC 603

History of opera from late 16th through the present century.

### Seminar in Music Education

#### MUSIC 700H

Comprehensive view of contemporary trends in music and related arts education. Specific critical areas identified and analyzed. Exploration of new materials and curriculum practices K-12. Student critiques.

### Music Literature 1750-1825

#### MUSIC 714

Representative compositions from each period. Analysis by score and sound of the various musical forms and media.

### Instrumental Music in the Public School

#### MUSIC 752

The teaching of instrumental music: organization and pedagogical problems. Evaluation of current methods, materials, and research.

### Advanced Choral Conducting

#### MUSIC 755

Score analysis, rehearsal techniques, and advanced conducting problems of choral ensembles.

## Nursing

### Principles and Skills Basic to Professional Nursing and the Health Care of People

#### NURSE 120

Self-paced course provides skills basic to the provision of nursing care. Taught in a multi-media laboratory setting with faculty supervision. Prerequisites: all lower division prerequisites to the nursing major must be fulfilled before or concurrently with this course; permission of instructor.

### Pathophysiology

#### NURSE 200

Introduces concepts of pathophysiology. Emphasizes formation of concepts of pathology rather than the particulars of system dysfunction or individual disease entities; emphasizes ways in which various pathological processes affect the human organism at cellular, tissue, organ, organ system and whole body levels. Prerequisites: upper division standing, permission of instructor.

### Community Health Focus in Nursing

#### NURSE 210

Health status of a community by means of systematic collection and analysis of data, and report of findings. Includes theories of health, community, systems, communication, the nurse's role in health care. Clinical practice at Cooley Dickinson Hospital in Northampton. Students are responsible for their own transportation to and from the clinical area. Prerequisites: upper division standing, permission of instructor. Course limited to 20.

### Human Development: The Life Cycle

#### NURSE 240

Firm foundation in human development throughout the life cycle with emphasis on biological, psychological and sociological aspects. Prerequisite: permission of instructor.

### The Nursing Process

#### NURSE 250

Orientation to the Nursing Process in clinical decision-making for the Registered Nurse. The Nursing Process as a foundation for professional practice and in terms of its historical origins, present implications and future potential. Prerequisites: upper division standing, Registered Nurse, permission of instructor.

### Currents in Nursing

#### NURSE 310

Selected historical and contemporary currents. Attempts to project future currents and implications. Prerequisites: senior standing, permission of instructor.

### Nursing in Rehabilitation

#### NURSE 320

The role of the nurse in diagnosing and meeting needs of nursing care in assisting individuals and families toward rehabilitation. Includes community resources and services related to rehabilitation in major health problems; assisting individuals and families to gain access to needed health and health related services; concepts and theories related to collaboration with other health care workers. Prerequisites:

senior standing in nursing, permission of instructor.

### Nursing Practicum

#### NURSE 321

Clinical learning experiences in the care of individuals and families experiencing major health problems and needs for nursing care related to rehabilitation. Problem-solving approach in assessing health status and planning, implementing and evaluating nursing care for assigned individuals and families within the Community Satellite Learning Centers. Prerequisites: senior standing in nursing, permission of instructor.

## Park Administration

### Philosophy of Parks, Recreation and Leisure

#### PK ADM 390C

Contrasting concepts of leisure and recreation in relation to evolving recreational trends and needs. Analysis of the contemporary role of recreation in society with emphasis on the implications of leisure-time utilization and necessary managerial responses. Development of individual recreation philosophies.

## Philosophy

### Introduction to Philosophy (C)

#### PHIL 105

Some of the most important general questions, ideas, theories, and methods of inquiry which have given direction to Western thought.

### Introduction to Ethics (C)

#### PHIL 110

Classical and contemporary theories concerning policy formation and the justification of personal decisions and ways of life.

### Introduction to Logic (E)

#### PHIL 125

The nature of critical thinking, including the functions of language, the structure of deductive arguments, and a glimpse at inductive methods.

### Philosophical Approaches to Science (E)

#### PHIL 240

An introduction to the results of philosophical analysis of scientific practice, and the bearing of these results on a general description of scientific methodology.

### Existential Philosophies (C)

#### PHIL 264

Examination by a study of selected original texts of the main problems peculiar to this movement as a whole and to its main exponents individually. Prerequisite: one semester course in philosophy other than 125.

## Physical Education

### PE 100: Senior Lifesaving

#### PE G08

American Red Cross advanced lifesaving and cardiopulmonary resuscitation for double certification.

## PE 100: Water Safety Instructor

PE G09

Water Safety Instructor course.

## PE 100: Jogging and Conditioning

PE G11

Practical application of conditioning.

## Tennis II

PE G66

Tennis instruction.

## PE 100: Tennis I and Badminton

PE G67

Introduction to the basic skills of the game leading to a practical application in singles and doubles games.

## Professional Preparation in Physical Education

### Aquatics

PEP 151

Emphasis on skill acquisition at the intermediate level and focus on teaching and coaching techniques for aquatic activities.

### Tennis and Badminton

PEP 163

Emphasis on skill acquisition and teaching techniques of Tennis and Badminton.

### Outdoor Education

PEP 190H

Practical application in outdoor education experiences.

### Behavioral Analysis in P.E.

PEP 390D/700D

Practical applications of the principles of behavior modification for the teaching of physical education and the coaching of sport.

## Physics

### Introductory Physics I, II (E)

PHYSIC 141, 142

Mechanics, sound, heat; electricity, magnetism, light and modern physics, using trigonometry and algebra, but not calculus.

Intended for pre-medical, pre-dental, pre-veterinary, and some science major students. Prerequisites: MATH 130 previously or concurrently for PHYSIC 141; PHYSIC 141 for PHYSIC 142.

## Plant and Soil Sciences

### Organic Farming and Gardening (E)

PLSOIL 120

Basic principles of plant nutrition and culture, soil fertility and management by organic methods, biological and natural control of insect pests, weeds and plant diseases, variety selection, and alternative chemical methods.

## Plant Pathology

### Plant Diseases and Their Control

PLPATH 100

Occurrence and importance of plant diseases in the production of plants for food, clothing, shelter and beauty. Infectious agents and environmental factors that cause diseases of plants in the home and garden and principles of their control.

## Political Science

### American Politics (D)

POLSCI 101

Introduction to constitutional principles and public policy making in American national government. Democratic theory, major national political institutions, electoral behavior, and selected public policy questions.

### Comparative Politics (D)

POLSCI 131

Introduction to political structures, processes and comparative national development in parliamentary, one-party, and other political systems. The relationship of cultural values to institutions; emphasis on such forces of change as democracy, industrialization, and revolution.

### Political Misbehavior

POLSCI 190C

Compares misbehaviors in politics—corruption, graft, extortion, bribery. Includes the differing cultural definitions of corruption, misbehavior in the United States compared to that in other countries, and corruption in the United States over time. Concludes with a study of Watergate, placing it in historical and comparative focus.

### Public Administration (D)

POLSCI 223

Organization of bureaucracy, bureaucratic life, constitutional position and political role of governmental bureaucracy.

### Political Theory and Public Policy (D)

POLSCI 226/526

Evaluation of social policy in the United States. Emphasis on normative issues

raised in controversies over selected cases of social and economic policy in the light of the main traditions of Western political thought and of recent work on the logical and ethical aspects of social choice.

### Constitutional Law (D)

POLSCI 260

Study of the United States Supreme Court and leading cases interpreting the United States Constitution.

### American Public Policy

POLSCI 326A/726A

Selected aspects of the politics and administration of American environmental policy, including the politics of environmental decision-making and non-decisions. Intrinsic limitations of the American political economy in meeting environmental needs, and the interaction of economics and politics. Prerequisites: introductory course in political science recommended. Natural science as well as social science majors are encouraged to enroll.

### Government and Politics of the

Soviet Union (D) POLSCI 336/636

Survey of Soviet political life and assessment of the meaning and durability of its processes and institutions. The Communist Party and its membership and operation.

## Portuguese

### Elementary Portuguese

PORT 110, 120

For students with no previous creditable training in Portuguese. Intensive practice in the language skills.

### Intermediate Portuguese

PORT 130, 140

For students with one year of college Portuguese or equivalent. Training in the language skills; emphasis on speaking and understanding; readings in cultural and literary texts.

## Psychology

### Elementary Psychology (D)

PSYCH 101A, 101B

An introduction to the basic approaches and concepts of modern psychology. Examples from the areas of perception, conditioning, cognitive processes, social behavior, tests and measurements, and personality.

### Psychology as a Natural Science

PSYCH 120

Introduction to the natural science side of Psychology. Includes discussion of learning, cognition, neural bases of behavior, sensation, perception. Discusses broader issues of the science of psychology and introduces concepts of statistics.

### Psychology as a Social Science

PSYCH 130

Introduces topics in psychology related to the social science aspects of the subject. Includes material on developmental processes, child psychology, personality, social psychology, behavior pathology.

## 32 Courses

### Methods of Inquiry in Psychology PSYCH 140

Introduction to the way questions about behavior are formulated and then tested through laboratory experiments, field research methods, naturalistic observation techniques. Prerequisite: college level introductory psychology course.

### Statistics in Psychology PSYCH 145

Introduction to statistical principles and techniques as applied to psychological data.

### Learning and Thinking (D) PSYCH 220/520

A general survey of animal and human learning and performance. Topics include: factors affecting acquisition, generalization, discrimination, extinction, and transfer in animals and humans; memory; and higher cognitive processes in humans. Prerequisite: PSYCH 101.

### Motivation (D) PSYCH 230/530

Introduction to theories and research on the nature and determinants of motivation. Topics include instinct, behavior energization concepts, biological and acquired bases of emotions and motives, frustration, conflict and stress. Prerequisite: PSYCH 101.

### Child Behavior and Development (D) PSYCH 260

Psychological development of the child, including theories, methods, and data of child behavior studies. Prerequisite: PSYCH 101.

### Adolescent Psychology (D) PSYCH 263A/563A

The development and emotional, social and intellectual adjustment of the individual during adolescence. Prerequisite: PSYCH 101.

### Psychology of Exceptional Children (D) PSYCH 265

Emphasis on the etiology, diagnosis, characteristics, education, and prognosis of deviations in mental, physical, and socio-emotional development. Prerequisite: PSYCH 101, 262, or permission of instructor.

### Personality (D) PSYCH 270

Introduction to the scientific study of personality. Personality development, structure and dynamics from major theoretical orientations. Prerequisite: PSYCH 101.

### Social Psychology (D) PSYCH 280

Introduction to the principles and study of social behavior. The psychological factors involved in attitude formation and change, communication and persuasion, and small group processes. Prerequisite: PSYCH 101.

### Educational Psychology (D) PSYCH 301A, 301B

Psychological facts and principles of development, learning, and measurement as applied to educational situations. Prerequisite: PSYCH 101.

### Abnormal Psychology (D) PSYCH 325

Etiology, symptoms and therapy of behavior abnormalities including neuroses, psychoses, epilepsies, speech disorders, and mental deficiency. Prerequisite: PSYCH 101.

### Theories and Practice in Counseling PSYCH 365

Theories, techniques and tests necessary in counseling and guidance. Practice in organization and evaluating relevant data in the analysis of illustrative cases. Prerequisite: PSYCH 270, or 311, or permission of instructor.

### Practicum PSYCH 871

Practice in the application of psychological techniques to clinical settings and counseling; and practice in teaching in any area of psychology.

## Public Health

### School Health PUB HL 304/604

The principle concepts, methods, and dynamics of the organization of a school health program at the elementary and secondary level. Stress on planning and teaching in problem areas, (i.e., sex education, mental health and drugs). Prerequisite: junior or senior standing or permission of instructor.

### Public Health Statistics PUB HL 340/640

Principles of statistics applied to the evaluation of public health practices. Prerequisite: permission of instructor.

### Field Training PUB HL 382

A summer field training program with an official health agency, approved by the department. Must be under faculty supervision.

### Health Science Data: Statistical Methods for Environmental and Health Sciences PUB HL 700N

Course intended for Public Health, Environmental Sciences, and Statistics students interested in applications of statistical methods in environmental and health problems, such as air pollution, and laboratory experiments related to health problems.

### Field Training (Internship) PUB HL 782

For majors. Opportunity for supervised field observation and professional experience in selected public health agencies. Assignment in either associate function or internship.

## Regional Planning

### Philosophy of Parks, Recreation and Leisure REG PL 700M

Contrasting concepts of leisure and recreation in relation to evolving recreational trends and needs. Analysis of the contemporary role of recreation in society with emphasis on the implications of leisure-time utilization and necessary managerial responses. Development of individual recreation philosophies.

## Rhetoric

### Rhetoric of Language and Writing: Integrated Communication Skills I (B) RHET 100C

Integrated activities related to reading, writing, speaking and listening. The first half of a two semester sequence (RHET 100C followed by RHET 110C) but it may also be taken in conjunction with other rhetoric courses. Emphasizes meaningful selection of purpose, organization, supporting materials, tone and attitude for effective communication in today's business and social life. Assignments include written essays and speeches.

Rhetoric of Language and Writing: Elements of Writing (B) RHET 100G  
Basic language behavior with small classes and more writing assignments than, for example, RHET 100F. Emphasizes writing, editing, and rewriting to attain clarity in the use of words, syntax, and organization. Subject matter is interdisciplinary. Note: This is not a remedial writing course.

### Rhetoric of Language and Writing: Communicating about Poverty and Welfare Issues (B) RHET 100S

Skills necessary for clear and coherent written and oral communication. Focuses on issues in the social sciences, such as poverty, welfare, and related problems of social change. Emphasizes the meaningful selection of purpose, organization and supporting materials for effective communication in today's business and social life; mechanics of writing. Approximately 8 writing and speaking assignments. Offered in conjunction with Everywoman's Center. Please inquire further at Everywoman's Center or the Rhetoric Office.

### English as a Second Language: Elementary RHET 105A

Basic course in English structure, vocabulary and aural comprehension for students with limited knowledge and experience in English. Focuses on sentence structure and patterns as building-blocks for effective oral and written communication. Weekly quizzes, mid-semester and final exams, oral testing and demonstrated progress are main criteria. Class attendance and participation required. Prerequisite: permission of instructor.

### English as a Second Language: Intermediate RHET 105B

Continuation of 105A for students who have a knowledge of basic English structure and vocabulary, and who have developed effective aural ability and fluency of expression. Basic concepts of description, explanation, argumentation, narrative, and logical reasoning and organization. Final evaluation based upon tests, quizzes and demonstrated competence in aural comprehension, and informal oral and written expression. Prerequisite: successful completion of RHET 105A, or permission of instructor.

## English as a Second Language: Advanced RHET 105C

For ESL students whose aural comprehension, fluency and competence with English sentence structure are well developed. Focuses on reading, writing, discussion and oral presentation skills, provides student with the concepts for regular Rhetoric courses. Final evaluation based upon a mid-term and final exam, competence in written and oral expression as demonstrated in papers and discussions and the students' ability to reason and organize thought and materials in English. Class attendance and participation are required at all times. Prerequisite: successful completion of RHET 105B, or permission of instructor.

## Russian

### Elementary Russian RUSS 110, 120

Grammar, exercises in composition and conversation, selected readings. No previous language training required.

## School of Business Administration

### Business Applications of Computers S BA 510

Basic business data processing methods with emphasis on general business problems and their application of the COBOL language. Prerequisites: ACCTG 120, 130 and BA 110.

### Introduction to Accounting S BA 611

Principles underlying preparation of financial statements and the development and application of accounting data for planning and control.

### Marketing Environment S BA 622

Dimensions of change in social, economic, and political factors, related to efforts surrounding establishment and attainment of marketing policy and corporate objectives.

### Managerial Economics S BA 650

Application of the analysis of economics to problem solving at the level of the firm, of a government, of an economy, etc. Application of economic analysis to scarcity problems.

### Advanced Federal Tax Procedures S BA 671

A continuation of ACCTG 370 emphasizing corporations, partnerships, estates and trusts, gifts and estate taxes, tax planning and research. Prerequisite: ACCTG 370.

### Accounting Systems S BA 702

Accounting systems and their relationship to other business information systems.

### Financial Management S BA 706

Internal financial problems of firms; capital budgeting, cost of capital dividend policy, rate of return, and the financial aspects of growth. Readings and cases.

### Marketing Management S BA 722

Marketing concepts of planning, organization, control, and decision-making from the viewpoint of the business executive. Stress on tools available for analysis and control of marketing activities. Prerequisites: S BA 406, 411, 422, 440, 456, and 457, or equivalents.

### Business Policy S BA 752

Capstone course requiring application of knowledge, theories and techniques derived from previous courses, using integrative cases and empirical observations to formulate improved policies and plans.

### Quantitative Methods III S BA 756

Application of general methods to a wide variety of data analysis situations that occur in business and service organizations. The major tools are based upon linear statistical models and include: regression analysis, analysis of variance and the design and analysis of experiments, coupled with the use of the computer. Prerequisites: S BA 656 and 657 or equivalent.

## Sociology

### Social Problems SOCIO 103

Changes arising from culture contact, social reform, and technical innovations. Planned and unplanned change, particularly with respect to underdeveloped countries.

### Self, Society and Interrelationships (D) SOCIO 105

An introduction to basic concepts, perspectives, and data in sociology via the approach of social psychology. Focuses on the relationship between the individual, the group, and society. Topics discussed include socialization, social roles, social interaction, dynamics of small groups, the self, attitudes, and language and communication.

### Contemporary American Society (D) SOCIO 107

A "first course" in sociology, with special emphasis on contemporary American society. Current theories of how modern industrial societies are organized, and application to the American system.

### Theories and Perspectives (D) SOCIO 201

Required of all majors in the department, usually in the sophomore year. Examines the most important varieties of contemporary sociological thought, focusing upon the differing perspectives on, and assumptions about human society which underlie

contemporary sociological theories. Includes functional theory, conflict theory and symbolic interaction theories. Prerequisite: at least one other sociology course, preferably at the 100 level.

### Urban Sociology (D) SOCIO 251

A comparative analysis of cities and of urbanization with reference to demographic characteristics of urban populations, urban ecology, and urban social structure.

### Sociology of Religion (D) SOCIO 255

The relationship of religious beliefs and institutions to cultures and societies.

### Race Relations (D) SOCIO 256

The social, economic and political aspects of racial and ethnic problems in the United States; briefer consideration of similar problems in Africa and Asia.

### The Family (D) SOCIO 257

The development of the customs of courtship and marriage and the contemporary family. The basic causes of changes and trends of the family.

### Criminology (D) SOCIO 278

The nature of crimes and the factors underlying criminal behavior. The machinery of justice; the law, courts, police systems, and correctional institutions.

## Spanish

### Elementary Spanish SPAN 110

For students with no previous creditable training in Spanish. Intensive practice in language skills. To fulfill the language requirement, upon completion of the course most students are required to continue by taking SPAN 120, 130, 140.

### Intermediate Spanish SPAN 130

For upperclassmen who have completed SPAN 110-120, and freshmen and transfer students found qualified by placement examination. Training in language skill, with emphasis on speaking and understanding; readings in cultural and literary texts. Students completing SPAN 140 fulfill the language requirement.

### Spanish for Native Speakers SPAN 145

Review of Spanish grammar. Readings and composition. Open only to native speakers of Spanish.

Teaching English as a Second Language to Spanish Speakers SPAN 390H/700E  
Application of linguistic principles to the teaching of English for Spanish speakers.

### Hispanic Civilization: Spanish America SPAN 390J/700J

Culture of continental Spanish America.

## Sport Studies

### Psychology of Sport and Physical Activity SPORST 201

Variables of skilled performance; behavioral patterns and interactions in games, sports, and dance activities; evaluation of skilled performance. Prerequisite: PSYCH 101.

### History of School and College Sport SPORST 366/666

Developments in sport at educational institutions from the age of the unorganized plan to the present. Prerequisite: SPORST 561 or 662.

## Statistics

### Elementary Statistics (E) STATIS 121

Selected topics in elementary probability and statistics: discrete models for chance experiments, conditional probabilities; "odds" and betting schemes, combinatorics, averages and standard deviation, random sampling, binomial and normal distributions, regression, statistical inference, chi square test. Students who intend to use statistics as a research tool, but who do not have a calculus background, should elect STATIS 231, 232. Students with calculus background should elect STATIS 315, 316

### Statistics for Business STATIS 140

Random experiments and probability models; independence; conditional probability; sampling; random variables; data representations; special distributions, deduction and inference.

## Theater

### Introduction to Theater (C) THEATR 100

Introduction to the art of the theater: its history, form, function, influences, and place in society.

## Women's Studies

**Lives in Tension: Ida Wells, Emma Goldman, and Agnes Smedley** WOST 190Q  
Using the autobiographical writings of Ida Wells, Emma Goldman and Agnes Smedley, explores their reasons for becoming political activists. Uses the political writings of these women to explore the exact nature of tension, and when it arises. Considers an analysis of women's oppression and the more general analysis of a people's oppression.

### Women in Literature WOST 190Z

Close reading and examination of 19th and 20th century English and American novels, primarily by women. Develops analytic skills and discussion of a feminist aesthetic. Possible readings include Lee Edwards and Arlyn Diamond, *American Voices, American Women*; Chopin, *The Awakening*; G. Eliot, *Middlemarch*; C. Brontë, *Jane Eyre*; E. Brontë, *Wuthering Heights*; Kelley, *Weeds*; Smedley, *Daughter of Earth*; Woolf, *To the Lighthouse*; Atwood, *Surfacing*; Angelou, *I Know Why the Caged Bird Sings*. (Current material to be added as it appears in paperback.) Class will determine the readings selected.

**The Invisible Woman: A Critical Analysis of Traditional Sociology** WOST 290C  
Examines current subject division in modern sociology and the position of women as subjects in each of these. Makes visible a scientifically created and distorted impression of reality. Prerequisite: at least one course each in the Behavioral Sciences and Humanities or permission of instructor.

## Zoology

### Introductory Zoology (E) ZOO 101

Principles of zoology including cell structure and metabolism, heredity, development, behavior, evolution, ecology, and the anatomy and physiology of the major groups in the animal kingdom. Background for understanding current biological problems.

### Biology of Birds (E) ZOO 161

Selected topics in avian biology: birds' migrations and navigational capabilities; breeding behavior; structural and functional specializations; origin and evolution; ecology, economics, and aesthetic relations to man. For non-biologists only. Prerequisite: one semester of biological science.

### Scientific Illustration ZOO 286A/810B

Awareness and appreciation of the field of scientific illustration, and an effective introduction to its basic techniques. Develops skills to create scientific illustrations for use in technical papers and as effective teaching aids. A finished drawing or work in each of the media covered, as well as a final portfolio of the semester's work, are required. Enrollment is limited to 20. Prerequisite: some background in basic drawing and design may be helpful.

**register  
by mail**

Full payment is mandatory at time of registration.

## Schedule of Courses 35

[illegible]

## Schedule of Courses

[illegible]

## Schedule of Courses 37

## Foreign Programs

### French Studies at Lausanne

In its study program at Lausanne in Switzerland July 12 to August 20, the French Department offers graduate and undergraduate courses in language, stylistics, literature, civilization and phonetics. Courses are taught by professors from the Swiss University system. The program includes tours of the city and environs and excursions to the Glacier of Trient, Rolle, and the Haute Savoie. Students may earn up to six credits. Cost to the student is approximately \$800 for tuition, textbooks, room and board (demi-pension) and the tours; does not include international and independent travel and miscellaneous personal expenses. Contact: Professor S. S. Weiner, Department of French, Herter Hall, University of Massachusetts, Amherst, Ma. 01002.

### German Studies in Freiburg

The Department of Germanic Languages and Literatures sponsors a summer program in Germany with ten days in Berlin and five weeks in Freiburg. Courses include intermediate and advanced German language and culture, as well as a seminar in modern German literature. Students earn six University of Massachusetts credits. There is a two week period for independent travel in Europe between the sessions in Berlin and Freiburg. Dates of the program are June 16 to August 18.

The estimated fee of \$1,000 will cover transportation, room and board, and special excursions to a number of places of cultural and historic interest, including East Berlin, Switzerland, and the Black Forest. It does not include expenses incurred during the independent travel period. The program is open to undergraduates and to graduates by permission. Contact: Michael Buckley, Director, Berlin-Freiburg Summer Pro-

gram, International Programs Office, 239 Whitmore, University of Massachusetts, Amherst, Ma. 01002.

### Summer Program in Lucca

Courses in Italian medieval art, language, literature, and the history of Modern Italy will be offered this year as the summer program in Italy opens for the first time in the city of Lucca. The program runs from June 27 to August 9. From August 9 to August 20, when the group returns to the United States, students are free to travel on their own. Students are expected to register for six university credits. The program fee of \$1250 per student includes round-trip air transportation between New York and Rome, room and board in Lucca until August 9, field trips, tuition, and health fee. With the exception of the language course, all courses are taught in English. Knowledge of Italian is not a prerequisite for participation in the program. For further information, contact Professor Roland Sarti, Department of History, 618 Herter Hall, University of Massachusetts, Amherst, Ma. 01002.

### Oxford Summer Seminar

Two groups of courses mainly in English literature, but also in five interdisciplinary areas within the humanities, are regularly offered at Trinity College, Oxford, during July and part of August. The six-week session corresponds with the regular session of this University and awards University of Massachusetts credit. The courses are all taught by Oxford dons (current or past), and the Bodleian Library is available for extensive research. Graduate and undergraduate courses are offered and vary each year according to the availability of specialists at Oxford and the interests of students. Special evening lectures by noted authorities supplement these offerings. Overall cost to the student is \$1100. Contact: Professor Ernest Hofer, Department of English, Bartlett Hall, University of Massachusetts, Amherst, Ma. 01002.

# Credit-Free Workshop Program

*The Credit-Free Workshop Program is a series of workshops offered by the Division of Continuing Education specifically for persons interested in expanding their skills, furthering their careers, improving their community life, or partaking of the expertise offered by others, usually experts and teachers in their fields. The workshops are for those for whom academic credit is not a priority.*

## Admissions

The Division of Continuing Education has an open admissions policy with regard to the Credit-Free Workshops it offers. Interested persons may enroll for as many workshops as they wish without concern for their educational background.

### Sixty-five and Over Policy

Persons aged 65 and over may register, free of charge, on a space-available basis, for any Credit-Free Workshop. Please call the Records Office, 545-3653, for further information.

## Mail Registration

To register by mail complete the workshop registration form included on the back cover of this catalog, and mail with full payment to:

Credit-Free Workshops, AE76-15  
Division of Continuing Education  
P.O. Box 835  
Amherst, MA 01002

Make checks payable to: Continuing Education, AE76-15. All registrations must include a \$5 registration fee, in addition to the workshop fee, charged once.

## In-Person Registration

After May 21, walk in registrations will be accepted on a space-available basis. Come to the Continuing Education Records Office located in the lobby of Hills House. Office hours are:

Monday-Thursday, 8:30 a.m.-7 p.m.  
Friday, 8 a.m.-5 p.m.  
Saturday, 10 a.m.-1 p.m.

Enrollment in all workshops is limited to a number that is manageable and acceptable to each instructor, therefore early registration is encouraged. When requests for a workshop exceed the number to be enrolled, the Division will attempt to arrange for an additional section. Names of registrants will be placed on a waiting list in the order in which they are received.

## Fees

Credit-Free Workshops are self-funding and, in general, fees have been computed on the basis of the number of contact hours which a workshop meets. In order to make each workshop self-supporting, a minimum number of enrollments is usually necessary. When registration meets the minimum number, registrants will be notified immediately by mail with a class card which includes notice of the meeting place.

## Refund and Withdrawal

Full refund will be made by mail if a workshop is cancelled due to underenrollment.

If a student wishes to withdraw from a workshop, the Records Office must be notified in writing by mail, or in person

during regular office hours. Notifying the instructor or ceasing to attend class does not constitute official withdrawal. There will be an 80% refund for official withdrawal *after* the first workshop meeting and *before* the second meeting. There will be a 60% refund after the second workshop meeting, and before the third. After the third workshop meeting, there will be no refund.

## Refund Schedule

|                |           |
|----------------|-----------|
| <i>After:</i>  |           |
| First meeting  | 80%       |
| Second meeting | 60%       |
| Third meeting  | NO REFUND |

## Exceptions

There are NO REFUNDS for workshops with schedules covering less than three weeks unless withdrawal is effected prior to the beginning of the workshop. In cases of withdrawal prior to the beginning of a workshop, a full refund will be processed once the Records Office is notified in writing or in person.

## Cancellations

The Division of Continuing Education reserves the right to cancel, postpone, or combine workshops and to change instructors.

## Workshop Locations

Workshops will take place in Amherst. Exact locations will be announced by mail once students have registered.

## Reading Material

Reading material information may be obtained from the instructor on the first night of the workshop. Required books may be obtained at the University Textbook Annex; for hours, see Textbooks in this catalog.

## Supplies

Some workshops require supplies which are to be paid for by each participant if he or she chooses to have them. The estimated cost of these supplies is listed at the end of the workshop description. Since expense money is estimated and optional, it is not to be included in workshop and registration fees, and students should not pre-pay.

## Credit-Free Workshop Calendar

# 42 Workshops

## Workshop Descriptions

### Arts, Crafts, Skills

#### Gravestone Rubbing D001

Melvin G. Williams: Ph.D.

Morning session: slide-illustrated discussion on artistic and historical attractions of New England's seventeenth- and eighteenth-century graveyards. Afternoon session: guided practice in making gravestone rubbings, using both oil and wax techniques. Expenses are \$5. Saturday, June 1, 10 a.m.-3 p.m., \$11.

#### Handbuilding With Clay D002

Susan L. Friedman: M.F.A. Candidate

Acquaints beginners with handbuilding techniques in clay. Includes slab, coil and pinch pot techniques as the means for familiarizing the student with the properties of clay. Then students undertake a project of their own choosing. Final piece is produced as an original clay sculpture through a plaster casting technique. Expenses are \$15. Nine weeks, Tuesday, 7-10 p.m., \$50.

#### Pottery D003

Frederic A. Englander: Potter

Techniques of the potter's wheel, glazes, clay chemistry and handbuilding. Stoneware clay and glazes are fired in a reduction atmosphere to cone 10. Includes opportunity to fire eight pots. Additional pots may be fired for a minimal fee. Expenses are \$5. Six weeks, Tuesday and Thursday, 7:30-9:30 p.m., and Saturday, 10 a.m.-12 noon, \$65.

#### Puppetry D004

Betsy Morris: B.F.A., M.F.A. Candidate

The art of designing and constructing both hand puppets and marionettes from readily available materials. Includes sock puppets, cloth puppets, household or found-object puppets, papier-maché and plastic wood hand puppets. Improvisational puppet theatre with emphasis on characterization through handling of the puppet and vocal technique (including dialect) of the operator; puppet stage design and playwrighting. Expenses are \$6. Nine weeks, Wednesday, 6:30-9:30 p.m., \$50.

#### Wood and Linoleum Block Printing D005

Jane Liebman Wolff: M.A.T., Artist

Handprinting methods are used to create both black and white and color prints. The fine art of printing techniques and the care and use of tools are discussed. Students are encouraged to explore various media and design problems. Emphasis is on individual growth and expression. Estimated expenses are \$10-15. Nine weeks, Tuesday, 7-10 p.m., \$50.

### Dance/Movement

#### Ballet: Beginning D006

Ellen Inkellis: Dance Student at UMass

For those with little or no ballet or dance. Excellent exercise and a great aid in improving posture, carriage and grace. Nine weeks, Tuesday and Thursday, 7-8:30 p.m., \$50.

#### Creative Movement D007

Deborah Waldron

The basics of creative movement. Includes the development of the individual's potential, role of exercise and movement in good health, posture, and body awareness. Demonstrates exercises in movement techniques which strengthen, limber and balance muscles while avoiding strenuous effort. Includes techniques from ballet, modern, yoga, orthotherapy, dance therapy, jazz, and their role in creative movement. Nine weeks, Thursday, 6:30-9:30 p.m., \$50.

#### Modern Dance: Beginning D008

Donna Lee Potter: Dancer, University Dancers

Provides awareness of body, increases control, flexibility and stamina through the Alwin-Nikolais dance technique. Focus is on discipline and pure enjoyment of movement. No previous dance training necessary. Consistent attendance encouraged. Two sections: 1) Six weeks, Monday and Wednesday, 9-10:30 a.m., \$30; 2) Six weeks, Monday and Wednesday, 6:30-8 p.m., \$30.

#### Relaxation and Movement D009

Deborah Waldron

Movement is an integral part of life. For those who experience muscular problems during activity, explores subtle exercises that integrate movement, massage, and relaxation aimed at greater ease and efficiency in the performance of any activity. Helps in unlearning poor habits, and learning to center so that muscles work in unison. Suggested reading: Mabel Todd, *The Thinking Body*; George Downing, *The Massage Book*. Nine weeks, Wednesday, 7-10 p.m., \$51.

### Drawing

#### Cartoon, Comic Strip, and Comic Book Art D010

Brian Turner: Cartoonist

Graphic and storytelling aspects of gag and political cartoons, comic strips, and comic books. Emphasis on techniques, concepts, and execution. Includes some aspects of marketing, effect of comic strip on film, and animation. Workshop geared to individual levels. Nine weeks, Thursday, 7-10 p.m., \$53.

#### Imaginative Drawing D011

Betsy Morris: M.F.A. Candidate

Three basic approaches to drawing: learning to use one's inner resources for forms and ideas without being dependent upon seeing an external model; to focus attention on specific forms and then analyze them in drawing; to use natural forms as direct resource material for individualized expression. Two slide presentation/discussions and two outdoor sessions may be arranged. Nine weeks, Tuesday, 6:30-9:30 p.m., \$51.

#### Portrait Drawing D012

Jean L. Emmons: M.F.A. Candidate

Portrait drawing using photographs. Knowledge of proportion, lighting, formality and informality, and the artist's attitude towards the sitter. Includes a variety of drawing techniques. Expenses are \$20. Six weeks, Wednesday, 7-10 p.m., \$30.

### East West Integral Studies

*The East West Integral Studies Program is a composite of courses and workshops designed to be a means of sharing knowledge and skills with one another. Presented in Amherst by the Division of Continuing Education in association with the East West Foundation for One Peaceful World, located in Boston, the Integral Studies Program covers a broad range of subjects from both East and West, including practical study and experience, along with the underlying principles and theory. It is our hope that the Integral Studies Program will help provide the understanding and practical means for the creation of health, happiness, and freedom through the development of a wholistic view of life.*

#### Acupuncture Massage: Beginning D013

Ken Burns: Specialist in Oriental Medicine and and Philosophy, Teacher of Shiatsu Massage and Acupuncture Massage, East West Foundation

Acupuncture (Shiatsu, or finger pressure) massage, unlike Swedish massage, aims at treating illness or imbalance within the body by re-adjusting the flow of ki or life energy along the acupuncture points and meridians. Requires no specialized knowledge or instruments, and has been commonly practiced in the Orient for thousands of years. Workshop covers basic oriental methods of diagnosis and how to locate important points. Students learn to give a complete massage. Suggested reading: Michio Kushi, *Acupuncture and Ancient and Future Worlds*; George Ohsawa, *Acupuncture and the Philosophy of the Far East*; Ilza Vieth, *The Yellow Emperor's Classic of Internal Medicine*. Eight weeks, Wednesday, 6:30-9:30 p.m., \$50.

## Cooking: The Art of Natural Food and Macrobiotic Cooking

**D014 Olivia Oredson:** Teacher, East West Foundation, Boston, and East West Center, Minneapolis

Proper preparation of healthful and delicious foods, using all natural ingredients, with the correct balance of yin and yang elements. Philosophy of workshop is that cooking is the highest of all human arts, and its importance is overlooked in modern society; that our health, thinking, and happiness depend primarily on the quality of our blood, which nourishes and sustains all of our cells; and that this quality is, in turn, determined by what we eat. Students learn to prepare simple and delicious grains, vegetables, soups, breads, and dessert dishes. Suggested reading: Eunice Farmlant, *Macrobiotic Cooking*; Lima Ohsawa, *The Art of Just Cooking*; Iona Teergarden, *Freedom Through Cooking*. Eight weeks, Saturday, 12-3 p.m., \$50.

## Herbal Medicine: Wild Foods D015

**Ken Burns**

Examines the sources of learning about herbs available in this area. In addition to field and forest, discusses written materials, and botanical reserves such as the Arnold Arboretum and the garden of the Woods of the New England Wild Flower Society. Herbs most prominent locally are studied in detail regarding physical characteristics, season of flowering, favored terrain, and traditional uses. The Chinese Element Theory is applied to these herbs. Includes brief survey of American, European, Russian, Chinese and Japanese Herbal Folk medicines. Discusses healing on the cosmological level, using the Chinese concept: *man and earth not two*. Eight weeks, Thursday, 6:30-9:30 p.m., \$50.

## Macrobiotics and the Development of Community D016

**Woods Johnson**

Examines the importance of developing future world communities based on the understanding of the order of the universe, or yin and yang. Emphasizes the development of natural ecological technologies, agriculture, architecture, social structures, and sources of energy, as basic prerequisites for sound future communities. Much of the material will be based on experiences gained during the on-going development of the 550-acre East West Foundation Community in Ashburnham. Eight weeks, Saturday, 3:30-6:30 p.m., \$50.

## Spiritual Practices: Introduction D017

**Sherman Goldman:** Editor-in-Chief, East West Journal

Major traditional and contemporary methods of developing spiritual awareness. Lecture and workshop in practical techniques. Spiritual basis of reality, the major religious traditions, concepts of the Messiah, the planetary spirit, ghosts and nature deities, ancestor worship, sex and spirituality, love, responsibility and meditation. Techniques include chanting, dispelling illusions, seeing past and future lives, seeing auras, levitation, palm healing, and seeing the Inner Light. Suggested reading: Ram Dass, *Be Here Now*; Stanley Krippner, *Galaxies of Light*; George Ohsawa, *The Book of Judgement*; Chogyam Trungpa, *The Two Hands of God*; *The Bible*, *The Gospel According to Thomas*. Eight weeks, Saturday, 3:30-6:30 p.m., \$50.

## Zen Meditation: Introduction D018

**Rev. Genro Koudela**

Lectures, sutra chanting, and zazen meditation. Brief outline of Zen history, Buddhism, and the practice and study in a Zen monastery; the nature of Zen and its application in daily life. Instruction on zazen postures and technique. Students are requested to bring one or two cushions and/or blanket. Eight weeks, Wednesday, 6:30-9:30 p.m., \$50.

## Film

### Basic Photography D019

**Richard Barrell**

Emphasizes techniques, materials and equipment. Provides knowledge of cameras and how they function, including lenses, filters, and various photographic accessories and their

uses. Shows how and where to find inexpensive cameras and how to select a camera for purchase. Acquaints students with various films, papers, chemicals, and photographic equipment. Darkroom work will not be required. Expenses are \$20. Nine weeks, Tuesday, 7-9 p.m., \$30.

### Experimental/Documentary Cinema from WW II to Present

**D020 Thomas Thompson:** M.F.A.

An intensive six-day course studying experimental documentary film from WW II to present starting specifically with Maya Deren in the 40's and working through Anger, Brakage, and Sharits of the 50's, 60's, and 70's. A visual feast for the eyes and minds of those interested in truly independent cinema culminated by a one-day (Saturday), 16mm film production workshop in which the class will participate in the production of a series of short three-minute experimental films. Meets June 7, 8, 9, 10, 11 from 6-11 p.m., and June 12 from 10 a.m.-5 p.m., \$60.

### Super 8 Filmmaking: Introduction D021

**Roger Sherman**

Film as personal vision, including the meaning of personal expression, communication, witness, fantasy and self-discovery. The format is based upon production and discussion and will concern itself with history, theories of film, the media as social tool, camera use, editing, and documentary, experimental and home movies. Students must have access to Super 8 cameras. Editing equipment supplied. Expenses are \$50 for equipment, film and processing. Nine weeks, Tuesday, 9 a.m.-1 p.m., \$65.

## Folk Music

### American Folk Music Tradition D022

**David Stuart Knishkowsky:** M.A., English

Surveys American Folk Music with extra emphasis on the New England tradition. Includes background and development of folksongs, regional development, political expression, Woody Guthrie, and a brief look at the beginnings of jazz and modern music. An extensive bibliography will be supplied for those interested, but workshop makes no demands on the student except for an honest interest. Six weeks, Tuesday, 7:30-10 p.m., \$27. Begins June 21.

### Folk Guitar Finger-Style: Basic D023

**Vincent Mitchell**

Includes tuning; care of guitar; reading music; tablature; various finger-picking styles; songs traditional and by Paxton, Hurt, Cohen; chording; back-up picking; basic theory. Nine weeks, Monday, 7-9 p.m., \$32.

### Instrumental Folk-Rag Guitar: Intermediate D024

**Vincent Mitchell**

Finger-style guitar as solo instrument, music reading review, theory, guitar chording system, back-up picking, position scales, listening, playing, basic transcription. Songs by Fahey, Hurt, Scott Joplin. Nine weeks, Tuesday, 7-9 p.m., \$32.

## Home

### The Care and Feeding of Houseplants: Plant Parenthood

**D026 Susan J. Roy:** Horticulturist

Basic horticultural practices are brought to bear in the ongoing care of a typical collection of houseplants. Includes: a short history of the adaptation of plants to the house; a discussion of the environmental and chemical influences which affect the health of plants under the special conditions of an average home; basic discussion of houseplant pathology, entomology and remedies. Construction of a simple terrarium. Expenses are \$5-15. Nine weeks, Wednesday, 6:30-9:30 p.m., \$51.

### Colonial Restoration and Interior Decorating Ideas D027

**Stephen A. Olivo, Jr./Victoria L. Olivo, Contractor, Interior Designer**

Restoration and interior decorating with a personal emphasis. The why's, how's, and what's of recreating the look of

## 44 Workshops

colonial times in a workable, modern lifestyle. Field trips to homes restored by the instructors achieve a closer look at reasonably authentic and affordable restoration. Students learn the key to imaginative but simple Early American decorating, and the textures, moods, and settings of Colonial New England. Nine weeks, Thursday, 7-9 p.m., \$30.

### From the Ground Up: Landscaping and Grounds Maintenance for the Homeowner D028

Susan J. Roy: B.S., Plant and Soil Sciences; Arborist  
Basic horticultural principles in solving common problems that arise when landscaping. Student selects a project situation and applies topics. Discussions include selection and care of trees and shrubs, lawns, ground covers and mulches, maintenance of plant material, fertilizer and pesticide use, basic pathology and entomology. Ends with a critique of the individual projects and some forays into applied fields, such as gardening in containers. Nine weeks, Tuesday, 6-9 p.m., \$51.

### Home Buyer's Workshop D029

David W. Ryan: Real Estate Broker  
Steve Weisman: Lawyer

What a home buyer should know to make an intelligent purchase decision. Includes: legal aspects, construction, insurance, obtaining a mortgage, and negotiating. Reference materials provided and open discussion encouraged. Three weeks, Tuesday, 7-10 p.m., \$17.

## Language and Literature

### Creative Writing: Fiction D030

Jeffrey Laurie: M.F.A. Candidate

Seminar to review students' writing. Two or three stories each week, with emphasis on character, dramatic development, and narrative control. Feedback from class members and the instructor. Instructor available for individual consultation. Nine weeks, Wednesday, 7-9:30 p.m., \$46.

### Finding One's Way With Shakespeare D031

John Lacey: Professor, Buck's County Community College, Newton, Pennsylvania

Walk the brooding halls of Elsinore with Hamlet in his tormenting questioning of the riddles of existence; carouse and lust with Falstaff and Prince Hal in the colorful Boar's Head Tavern; rejoice in the lyricism of young love with Romeo and Juliet; rage against the injustices of the world with King Lear; recreate and renew the magic and mischief of a moonlit midsummer night; suffer the destruction of self with Othello in his jealous passion; find the center point of balance with Prospero and his hardwon vision of life's purposes. For the person who always wanted to find the excitement, relevance, and personal meaning that comes to vital life in Shakespeare's dramas. Five or six plays are explored in a free-moving workshop atmosphere. Estimated expenses are \$6-8. Nine weeks, Wednesday, 7-10 p.m., \$50.

### Sign Language and Finger Spelling: Advanced D032

Stanley Patrie: Teacher of the Deaf

Helps the student become more fluent in both expressive and receptive sign language. Introduces what is known as AMESLAM, a contraction of "American Sign Language," in which facial expression and a certain amount of "body English" play an important part. Six weeks, Wednesday, 7-9:30 p.m., \$27.

### Sign Language and Finger Spelling: Beginning D033

Stanley Patrie: Teacher of the Deaf

Manual communication as used by most deaf people in this country. Includes a brief history of the use of the language of signs, background information on deafness and how it affects those who have been born deaf or lost their hearing later in life. Students converse with totally deaf people, including the instructor, who is also deaf. Required text: Lottie Riekehof, *Talk to the Deaf*, Gospel, \$7.15. Six weeks, Tuesday, 7-9:30 p.m., \$27.

### Writing Well D034

John Lacey: Professor, Buck's County Community College, Newton, Pennsylvania

For the business, professional, or lay person who wishes to

improve his/her ability to write well in everyday situations. Development of individual mode or style of expression, to shape each communication to fulfill its function. Directed to individual problems and difficulties with participants coming to grips with the idea that writing well is possible and necessary in everyday business communications, in professional transactions, and in technological reports. Nine weeks, Tuesday, 7-10 p.m., \$50.

## Personal Growth

### Hatha Yoga: Beginning D035

Yael Ariel

Presents Yoga as a system of health through physical and mental disciplines designed to help improve body fitness and appearance. Concern is with body as a whole, as well as each individual part. Seven weeks, Tuesday, 7-8:30 p.m., \$20.

### Hatha Yoga: Intermediate and Advanced D036

Yael Ariel

Brings students to their best possible performance of the basic yoga postures. Emphasizes straightness in balance positions, increasing repetitions as strength develops, and new postures. Students learn how to meditate. Seven weeks, Thursday, 7-8:30 p.m., \$20.

### How to Fight City Hall! D037

Fran McNulty: City Councilor, Northampton

Encourages citizens to work for positive changes at all levels of government, whenever and wherever they see a need or identify a problem. Guests who have learned how to deal with bureaucracies at every governmental level in Massachusetts will lecture and lead discussions. The individual sessions will be adapted to the most current issues that may arise during the workshop. Estimated expenses are \$2.50. Six weeks, Tuesday, 7-9:30 p.m., \$26.

### Middle Age: Weekend Workshop D038

Marga Coler: R.N.; Ed.D.

Investigates the important issues of middle age: identity; changing self-concept and its effects on others; relationships with family, support systems, work and the labor market; decision-making. Saturday, June 5, 9 a.m.-6 p.m.; Sunday, June 6, 9 a.m.-4 p.m., \$30.

### Self Defeat and Self Realization D039

John Barbaro: Ed.D. Candidate

Self-defeating behaviors are those habits and personal patterns of living that impede the achievement of one's goals. Workshop systematically isolates those behaviors and their different aspects. Underlying motivations are outlined and workable alternatives are found. Suggested paperback reading: M. Schiffman, *Gestalt Self Therapy*; A. Lakein, *How to Get Control of Time and Your Life*; S.J. Warner, *Self-Realization and Self-Defeat*. Nine weeks, Tuesday, 7-9:30 p.m., \$41.

### Self Defense for Women and Men D040

John Barbaro

Rudimentary working knowledge of how to defend oneself, while causing as little damage to one's opponent as possible. The techniques are drawn from Aikido and simplified. Acquisition of skills so that student can participate in any Aikido class on a basic level. Rape and assault situations are outlined and discussed. Nine weeks, Tuesday and Thursday, 10-11:30 a.m., \$51.

### The Tarot: An Introduction to its Psychology and Symbolism D041

Paul Zelley: M. Div.; M.A.

Basic techniques of meditation using the archetypal Tarot card symbols. The Tarot trumps may be viewed as keys that unlock an individual's personal unconscious to lead to a greater awareness of the spiritual or higher self. Detailed analysis of the Tarot symbols and their relationship to everyday life. Discussions consist of a history of the Tarot, modern profane practices, such as fortune telling, and current misconceptions. Students make Tarot cards. Expenses are \$3.50 for cards. Nine weeks, Tuesday, 7-9 p.m., \$30.

## Women

### Assertiveness and Beyond: Training in Assertive Behavior for Women D042

Sheila Davis Inderlied: Ed.D., Leadership and Organizational Development

Considers implications of using assertive behavior in varied situations; the concept of androgyny; cultural myths about women and feminine stereotypes. For the professional woman, the woman in school, business or public service, and others. Friday, June 5, 7-10 p.m.; Saturday, June 6, 9:30 a.m.-5 p.m.; Thursdays, June 10, 17, 24, and July 1, 7-9 p.m.; Saturday, July 10, 10 a.m.-4 p.m., \$43.

### Women Working It Out: Life Planning/Career Development D044 Marcia McCann, Bette Taylor: Women's Programming Coordinators, Division of Continuing Education

Planned personal and/or professional development process with a focus on women's issues as they relate to women/work/education. Estimated expenses are \$10. Six weeks, Tuesday, 6:30-9:30 p.m., \$32.

## Working With Fabric

### A Busy Person's Approach to Patchwork D045

Victoria Olivo: Designer

The use of patchwork in making quick, inexpensive changes in one's home and clothing in minimum amount of time. Includes patchwork quilts that can be sewn in two weeks; pillows, pot holders, samplers, and other small color spots for the home; and application of calico on clothing using recycled material such as denim. Knowledge of sewing machine necessary. Three weeks, Tuesday, 7-9 p.m., \$10.

### Crewel and Creative Stitchery D046

Agnes Moustakis: Certified Teacher of Needlework

Instruction in the techniques of transferring patterns and the learning of 20 different stitches (advanced stitches for advanced students). Color, balance, and design stressed. Application to a selected piece carried through to blocking and completion. Estimated expenses are \$8-12. Six weeks, Wednesday, 7-10 p.m., \$30.

### Fabric Design and Printing D047

Carolyn Ray: M.F.A.

The design and printing of four-yard lengths of fabric in one and two colors. Includes the construction of a 4½ foot silk-screen, dye-mixing, use of paper and lacquer stencils, and a survey of design principles (figure-ground relationships, line vs. shape, and transparency). No prerequisites, although design and basic print-making background would be helpful. Expenses are \$15-25. Three weeks, Tuesdays and Thursdays, 6:30-9:30 p.m., \$30.

### Fundamentals of Weaving D048

Mary Canner: Fiber Artist

The fundamentals of handweaving, including utilizing card-board and simple two or four harness frame looms constructed in class. Work also with a standard four harness loom including a full treatment of warping and dressing a loom as well as the fundamentals of drafting, and draw-downs. Portable four harness floor looms will be available on a rental basis for those students who wish to pursue extra work on floor looms. Emphasis on exploration of the creative possibilities of handweaving through experimentation with basic weave structures, fibers, colors and textures. Student projects may be functional or non-functional ranging from fiber sculptures, wall hangings and tapestries to such things as pillows, bags, and small rugs. Expenses are \$10-15. Nine weeks, Tuesday, 7-10 p.m., \$50.

### Print Your Own T-Shirt! D049

Carolyn Ray: M.F.A.

Students will build and stretch silkscreens, and design and print T-shirts in one color and multicolor. Basic silkscreen techniques (paper lacquer and photo stencils), and ink-mix-

ing. Expenses are \$10-15. Three weeks, Monday and Wednesday, 6:30-9:30 p.m., \$30.

### Spinning and Natural Dyeing D050

Mary Canner: Fiber Artist

Spin and dye unique yarns for creative projects in weaving, knitting, crewel, etc. Methods of handspinning using drop spindles, whole fleece, teasing, carding with hand carders and carding machine, plying spinning textured and heather yarns, sources for supplies and equipment, plus work with other fibers including flax, alpaca, cotton and cashmere. The study of natural dyes from native and foreign natural substances, using all the special procedures for the ancient plant and animal dyes of indigo, cochineal, and madder. Expenses are \$10-15. Nine weeks, Thursday, 7-10 p.m., \$50.

### Upholstery D051

Walter Rupp: Upholsterer

Students learn step by step reupholstering procedure of typical piece of furniture. Demonstrations enable students to work independently. Questions and problems handled on an individual basis. Expenses are \$10. Nine weeks, Wednesday, 6:30-9:30 p.m., \$50.

### Weaving: Basic and Advanced Off-Loom Techniques D052

Blair Tate: B.F.A., Rhode Island School of Design

Various textile techniques: weaving, basketry, knitting, netting, sprang, finger and card weaving, with the purpose of gaining insight into their interrelationships and using this information for the creation of either a functional or non-functional object. Materials may be either traditional or experimental, such as ribbon, rope, chain, paper, rags, aluminum foil, etc. Expenses are \$9-29. Nine weeks, Thursday, 6:30-9:30 p.m., \$51.

## And More Workshops

### Auto Mechanics D053

Robert Warner: Mechanic

Operation and maintenance of automobiles at a basic and practical level. Includes troubleshooting, tune-ups, preventive maintenance, wheel-bearings and brakes, clutches, minor body repair, fuel economy, emission controls, ignition systems, and parts-buying. Each student has a two hour lab when a tune-up can be done on one's own auto under the supervision of the instructor. One lab session, 11 a.m.-1 p.m., is to be scheduled at student's convenience after the first class meeting. Tools and other equipment are provided by the instructor. Nine weeks, Saturday, 9-11 a.m., \$40.

### Chapter 766: Parents' Rights, Children's Rights and the Role of the Parent at the Core Evaluation D054

Peter Willner: Ed.D.

Studies the recently implemented special education law, Chapter 766. Focuses on the role of the parent at the Core Evaluation process. Includes discussion of the rights of the parent and the child within the school and at the time of the child's evaluation, and discussion of public school program options available to special-needs students as mandated in the Chapter 766 regulations. Three weeks, Wednesday, 7-10 p.m., \$15.

### Hang Gliding: Basic Pilot Training D055

Michael J. Morrissey, Charles La Versa: Glider Sports International approved instructors

Basic pilot (ground and flight) training for foot-launched ultralight aircraft. Includes history and development of foot-launched aviation; aerodynamics; micrometeorology for the glider pilot; safety; maintenance; and actual flight experience. Three classroom sessions of three hours each per student and two flight sessions of four hours each. All equipment furnished. Recommended reading: Bob Skinner and Rich Finley, *Basic Guide to Rogallo Flight, Flight Realities*. On-the-hill flight sessions scheduled at the students' convenience, weather permitting. Optional insurance is \$15. Three weeks, Wednesday, 7-10 p.m., \$60.

### How to Find the Information You Need D056

James Pursley: M.L.S., Community Information Specialist

Introduces information resources and how to use them. Designed to make people information self-sufficient.

### FULL PAYMENT MUST ACCOMPANY MAIL REGISTRATION

Make checks payable to: Division of Continuing Education, AE76-15  
Send to: Credit-Free Workshops, AE76-15  
Division of Continuing Education  
P.O. Box 835  
Amherst, Ma. 01002

TOTAL COURSE FEES \$ ☐  
REGISTRATION FEES \$ ☐ 5.00

TOTAL AMOUNT DUE AND ENCLOSED \$ ☐

Topics include information gathering strategies, library research, public documents and records, socio-economic data and special areas of concern to students. Small groups. Nine weeks, Thursday, 7-9 p.m., \$33.

## Toward Tomorrow: A Symposium of Alternatives

*The Toward Tomorrow Program is a series of workshops designed to provide people from all walks of life with new and valuable information about how to deal with a rapidly changing environment.*

*Participants interested in learning through these "hands-on" workshops will gain practical knowledge in such areas as wind power, solar heat, methane gas, home-steading, energy conservation and home building and remodeling.*

*Workshop instructors are experts in their respective fields and emphasize the "how to" aspects of the subject matter. Whenever possible, students will be involved in building, measuring, growing and problem-solving.*

### Toward Tomorrow Schedule

#### Five Day Workshops

|                  |              |          |
|------------------|--------------|----------|
| Monday           | 10 a.m.-noon | 2-5 p.m. |
| Tuesday-Thursday | 9 a.m.-noon  | 2-5 p.m. |
| Friday           | 9 a.m.-noon  |          |

#### Four Day Workshops

|                |             |          |
|----------------|-------------|----------|
| Tuesday-Friday | 9 a.m.-noon | 2-5 p.m. |
|----------------|-------------|----------|

#### Three Day Workshops

|          |             |          |
|----------|-------------|----------|
| Friday   | 1-5 p.m.    |          |
| Saturday | 9 a.m.-noon | 2-5 p.m. |
| Sunday   | noon-5 p.m. |          |

### Buying and Remodeling Older Homes D057

Nicholas T. Dines: Associate Professor of Landscape Architecture

How to assess and buy an older home with remodeling in mind. What to look for in heating, plumbing and electrical systems; what to look for in house construction, including foundations, frame, and roof; how to estimate the need for and cost of major repairs; how to lay out floor plans and construction details; and how to schedule work. July 19-23, Monday-Friday, \$70.

### Design and Build Your Own Home D058

Frank Brookshire: Architect

Slides and field trip to house under construction. Half time devoted to the elements that affect design: site, sun, wind, space requirements, materials, function (with emphasis on low-energy houses). Half time devoted to house-building: foundations, framing, doors and windows, heating systems (including wood, solar), plumbing, wiring, codes and zoning requirements. Actual problem-solving by students done in informal afternoon workshop sessions. Two sections: 1) June 28-July 2, Monday-Friday, \$70; 2) July 19-23, Monday-Friday, \$70.

### Energy Conservation and Design D059

Douglas Coonley: Architect

Energy conservation methods and applications to existing homes, new home design and other small buildings. Conservation of heat, cooling, ventilation, water use and supply, waste recycling and disposal, transportation, materials and overall costs are examined and applied to projects which participants have or will design during the workshop. Emphasizes readily available technology and equipment. July 9-11, Friday-Sunday, \$50.

### Homesteading D060

Leandre and Gretchen Poisson: Homesteaders

Covers many areas, including decentralized living, survival gardening, food preservation and processing, shelter, solar home heating, solar water heating, wind power, cash crops

and cottage industries. Maximum utilization of solar energy for a self-sufficient lifestyle. July 19-23, Monday-Friday, \$70.

### Integrated Energy Systems D061

Dan Scully and Doug Coonley

Emphasis on advantages versus disadvantages and capabilities of each source of energy. Also stresses interdependent integration of these systems with particular implications for building design. Exploratory design of an energy system for a home. July 6-9, Tuesday-Friday, \$60.

### Knowing Trees D062

Herschel G. Abbott: Professor of Forestry

Introduction to dendrology (study of trees); the taxonomy, ecological habits, geographical distribution and economic and social values of major tree species in North America. Special consideration is given to learning to identify the more common trees and shrubs in Massachusetts. July 6-9, Tuesday-Friday, \$60.

### Methane Gas Generation Workshop D063

Les Auerbach: Author, Consultant

Produce power from manure, sewage or any organic material. Fuel electric generator, greenhouse, home, car, tractor, refrigerator, freezer, milk cooler, etc. Emphasis on construction techniques; inexpensive materials. Students participate in the planning, design and construction of a working methane generator. Geared to creating abilities in each participant so that he or she may return to own environment and produce a tangible, material, fuel-producing, waste-recycling system. Results guaranteed! July 12-16, Monday-Friday, \$70.

### Methane Gas Generation Seminar D064

Les Auerbach

Focus is on the concepts, ideas, and processes necessary to develop a source of energy (methane gas) as part of a planned, environmentally sound, integrated life-support system. At the end of the seminar participants will have the knowledge and ability to produce their own power for practical uses relevant to each person's individual situation. July 16-18, Friday-Sunday, \$50.

### Organic Gardening: French Intensive Bed Method D065

Leandre and Gretchen Poisson: Rhode Island School of Design, Royal College of Art and London School of Economics

Covers French intensive bed method of gardening from organic soil building to harvest. An education for any vegetable gardener from the back yard to the complete homestead/survival gardener. July 9-11, Friday-Sunday, \$50.

### Practical Wind Power D066

Douglas Coonley

A consideration of wind as a source of energy for both home and community use. Emphasis on site selection, site and building design to facilitate the use of wind, alternative windmill designs, how to integrate with other energy sources, energy conservation, energy storage, auxiliary energy, control systems and cost. Participants do preliminary design of a wind system at their site location. July 16-18, Friday-Sunday, \$50.

### Solar Heat: Air and Water Collectors D067

Dan Scully: Architect

Discussion of solar heating and cooling systems utilizing air-cooled and water solar collectors, how they work and their various applications, ranging from food drying to space heating. Various types of collector designs are demonstrated. Alternatives for heat storage and distribution, and how they influence building design. Students participate in in-class design and construction of an air collector. July 9-11, Friday-Sunday, \$50.

### Solar Heating: Introduction D068

Douglas Mahone: Graduate Student in Architecture at M.I.T.

Introduction to the uses of solar energy for meeting the energy needs of homes and small buildings. Includes history of solar projects, air heaters versus water heaters, heat stor-

# 48 Workshops

age, energy conservation, commercially available equipment, solar heating system design, economics and solar heating. In addition to classroom work, students build actual working prototypes of collectors and test their performance. Students encouraged to start their own designs and coached in developing individual solutions. June 28-July 2, Monday-Friday, \$70.

## Wood-Stove Theory and Practice D069

Jay Shelton: Assistant Professor of Physics  
Fundamental theory of and experiments with chimney draft and flow, combustion, stove design, and temperature, heat, and heat transfer. Demonstrations of Franklin versus air-tight stoves, dry versus green wood, etc. June 28-July 2, Monday-Friday, \$70.

# Bicentennial

## Bicentennial America — Explore It For Credit

Teaching United States History Through Folk Music  
Education 390N  
July 7, 8, 9

*This unique course presents, through live music, lectures and demonstrations, an "inner view" of what participants in historical events may have felt. By placing folk songs in historical perspective, the student will obtain a revealing insight into an often overlooked aspect of American history. Attention is given to audience participation in chorus singing and other folk music expression, as well as to demonstrations of guitar, five string banjo, Appalachian dulcimer, autoharp, African and Native American drums. The course is given for one undergraduate credit at a cost of \$45.*

Special Problems in Clothing and Textiles  
Home Economics 700Y  
June 13-25

*This graduate level course introduces primary sources for research in historic textiles, costume, and furnishings in the Massachusetts Bay Colony Area. Lectures, slide presentations, special exhibits and guest speakers will be presented on the UMass/Amherst campus. Extensive tours will be made to museums such as the Merrimac Textile Museum, Slater's Mill, Historic Deerfield and the Costume Collection at the Boston Museum of Fine Arts. Students may elect to concentrate in one area. The course is given for three graduate credits, and costs \$200, which will include the cost of the tours.*

Fall 1976

Division of Continuing Education  
University of Massachusetts/Amherst

The Division of Continuing Education was founded in the fall of 1970, and since that time has extended the educational resources of the University of Massachusetts to students throughout the Commonwealth. In recognizing that education in a changing society is a lifelong necessity, the Division offers courses, programs, workshops, conferences, and services to a wide variety of non-traditional learners.

The Division's offerings fall mainly within two offices, the Center for Academic Extension and the Center for Continuing Studies. The Center for Academic Extension offers credit courses, taught mostly in the evening. Other credit offerings include the Teacher Education Program, and the Division's own bachelor's degree program, called the Bachelor of General Studies. Regular undergraduate University courses are also open to Continuing Education students on a space-available basis.

The Center for Continuing Studies offers a comprehensive Credit-Free Workshop Program each semester. Also within the Center for Continuing Studies are a number of other programs designed for the part-time, evening or non-traditional learner. These programs are in a number of areas and include the Technical Guidance Center for Environmental Quality, the Arts Extension Service, the Great Decisions Program, and Wintersession programming.

The Division of Continuing Education is located on the UMass/Amherst campus in Hills House North. Specific office hours are listed in the information section of this catalog.

## Small groups... Big ideas... Great Decisions

Great Decisions is a program bringing together citizens who meet informally in their own communities to discuss eight key foreign policy issues of critical importance to the United States. Groups can begin at any time, and Continuing Education would like to help you in whatever way it can. Please fill out the request form below and send to: Great Decisions, Division of Continuing Education, 314 Hills House North, University of Massachusetts, Amherst, Ma., 01002, or phone Lin Maria Riotto at [413] 545-3410.

### INFORMATION REQUEST FORM

Name \_\_\_\_\_ Telephone \_\_\_\_\_

Address \_\_\_\_\_

Check appropriate boxes below.

- ☐ Please tell me of Great Decisions Discussion Groups that I can join in my own locale.
- ☐ Please send me a Discussion Leaders Guide containing hints for organizing and conducting an effective discussion group.

- ☐ I would like to organize a Great Decisions discussion group in my community/neighborhood.
- ☐ I would like to serve as the Great Decisions Community Coordinator for my community.

## **OFF-CAMPUS EXTENSION**

THE DIVISION OF CONTINUING EDUCATION WILL OFFER ADDITIONAL DAY AND EVENING COURSES AT HOLYOKE COMMUNITY COLLEGE. THESE WILL INCLUDE SELECTIONS FROM THE DEPARTMENTS OF COMMUNICATION STUDIES, ENGLISH, ENVIRONMENTAL SCIENCES AND HISTORY. AT THE TIME THIS CATALOG WENT TO PRESS, ARRANGEMENTS WERE INCOMPLETE. STUDENTS INTERESTED IN FURTHER INFORMATION ON UNIVERSITY EXTENSION CLASSES AT HCC SHOULD WRITE TO: CENTER FOR ACADEMIC EXTENSION, P.O. BOX 835, AMHERST, MA. 01002 OR PHONE (413) 545-3440.

### **DIVISION OF CONTINUING EDUCATION**

**UNIVERSITY OF MASSACHUSETTS/AMHERST**

# BACHELOR OF GENERAL STUDIES PROGRAMS

## The BGS Degree

The Bachelor of General Studies (BGS) is a University of Massachusetts degree available to part-time, non-traditional students through the Division of Continuing Education. The BGS is designed to be flexible and responsive to special needs that cannot be met in regular UMass programs. It requires considerable initiative and self-knowledge on the part of the student, and offers someone with firmly established goals a chance to take an active part in planning his or her program. The BGS degree has been used advantageously by three different groups of Continuing Education students: 1) those who would like to orient their degree more specifically toward a career area, as in the cases of recent graduates who have majored in Health Care Administration and Electronic Instrumentation; 2) those who are already established in a career but would like the benefits of a generalist, liberal arts degree, such as Human Relations or Liberal Studies; (3) those who are looking for a specific match of disciplines, for example, Philosophy of Art or American Literature and Library Studies.

The Continuing Education counseling staff and faculty advisors chosen by the student can aid in the design of the BGS area of concentration, which is usually 30 credits of junior-senior level college or university work, at least 15 of which must be UMass credits. This designed program, expressed as a list of courses and a thorough written argument on the BGS Proposal Form, will be judged both by the faculty advisor and the BGS Program Committee of Continuing Education. Students with appropriate Associate's degrees may enroll in already-designed programs in Criminal Justice or Fire Science, described below.

A maximum of 75 semester credits from accredited colleges and/or universities may be used in the required 120 credits needed for graduation. Other credits included in the transfer total may be those earned through the College Level Examination Program (CLEP) tests, or credits for certain types of training in the U.S. military service. BGS students should matriculate as soon as they are eligible. Graduates must maintain a grade-point average of at least 2.0 on a 4.0 scale and fulfill the University core requirements. See **Core Requirements** and **Matriculation Process**.

The Continuing Education counseling staff recognizes the difficulties inherent in creating and justifying an ambitious course of study. We encourage students, whatever the stage of their planning, to discuss their ideas for a BGS degree with a Continuing Education counselor.

## BGS Criminal Justice

The BGS in Criminal Justice is designed to build upon the Associate's degree in Law Enforcement (or its equivalent in appropriate course work) from the community colleges. People already working in the criminal justice professions, and those considering such careers, should find this program flexible enough to meet their special needs as part-time students and their particular goals in criminal justice studies. This cooperative effort between UMass/Amherst and the community colleges is intended to produce highly competent officers for the police, courts, and corrections institutions of the Commonwealth.

### *Requirements:*

1. The general BGS regulations described above apply, except that students must have earned the A.S. degree in Law Enforcement (or its equivalent), and no BGS Proposal Form is required.
2. Effective for all students who enter the program after summer, 1976, the Criminal Justice Core (not to be confused with the University core requirement which is mentioned above and described in detail elsewhere in this catalog) must be fulfilled. This core is a group of five UMass junior-senior level courses (15 credits minimum) selected from academic disciplines related to criminal justice and distributed as follows:
  - Administration/Human Relations (3 credits)
  - Communications Skills (3 credits)
  - Political Science/Legal Studies (3 credits)
  - Social/Behavioral Sciences (3 credits)
  - One core elective (3 credits) selected with the help of an advisor from the above areas.
3. Effective for all students who enter the program after summer, 1976, the required courses in one of the following career tracks must be completed:

**A. Criminal Justice** This general career track is for students seeking advanced study in psychology, sociology, political science, legal studies and other departments concerned with the social problems of crime and the nature of the criminal justice system. Required are at least 15 credits—UMass junior-senior level.

**B. Administration in Criminal Justice** Students selecting this career track generally intend to qualify eventually for supervisory positions in the criminal justice system. Required are at least 6 credits in management or administration, 3 credits in communications skills, 3 credits in psychology or sociology, and 3 credits of

approved electives.

**C. Criminal Justice Education** This track is recommended for students interested in community college teaching positions, police academy teaching, and other criminal justice instruction. In addition to course work in education, sociology, psychology, and other relevant departments, a supervised teaching internship is required. Necessary are at least 15 credits—UMass junior-senior level.

Interested students should contact one of the Student Services counselors at 545-3430 for complete course lists and other information. Junior-senior level courses that may be used to satisfy some of the above program requirements can be found in this catalog under the following department designations and numbers: BGS 201; COINS 201; COMSTU 210; EDUC 290A, 290B, 290D, 390A; GB FIN 260; HIST 337; JS 201, 391D; LEGAL 201, 202, 290D; MGT 201, 214, 230, 231; POLSCI 223, 226, 260; PSYCH 210, 280, 365, 391J; SOCIOL 224, 246, 250, 292.

## BGS Fire Science

The BGS in Fire Science is designed to build upon the Associate's degree in Fire Science Technology (or its equivalent in appropriate course work) from the community colleges. Firefighters in both public and private agencies, and people considering such careers may choose one of three possible career tracks: Fire Science Administration, Fire Science Education, and Fire Science Technology. There is considerable flexibility within the requirements of each track allowing student and advisor to plan a program tailored to specific needs and interests. This cooperative effort between UMass/Amherst and the community colleges is intended to produce highly competent professional firefighters for the Commonwealth.

### Requirements:

1. The general BGS regulations described above apply, except that students must have earned the A.S. degree in Fire Science Technology (or its equivalent), and no BGS Proposal Form is required.

2. Effective for all students who enter the program after summer, 1976, introductory courses, some of them usually taken as part of the A.S. program, are required as outlined here:

*Fire Science Administration:* Introduction to Psychology, Introduction to Sociology, Introduction to Management, Financial and Managerial Accounting, Introduction to Logic, and Introduction to Problem Solving Using the Computer.

*Fire Science Education:* Introduction to Psychology, Introduction to Sociology, Public Speaking.

*Fire Science Technology:* College Calculus (2 semesters), General Physics for Science Majors (2 semesters with lab), General Chemistry for Science Majors (2 semesters with lab).

3. Effective for all students who enter the program after summer, 1976, a minimum of 15 credits in UMass junior-senior level courses in one career track must be selected and completed:

**A. Fire Science Administration** This option is for students who aspire to managerial positions within their firefighting organizations and therefore need advanced study in management, communications skills, political science, and sociology.

**B. Fire Science Education** This career track is intended for students who have a strong desire to teach in community college fire science programs. Such positions often require Master's degrees or doctorates, but this BGS program can provide a useful beginning in advanced courses in communications skills, education, psychology, and related departments. Each student in the education option must complete a supervised internship in community college fire science instruction.

**C. Fire Science Technology** The Division of Continuing Education and the UMass School of Engineering are now designing a program that will allow firefighters to complete BGS requirements in technical training beyond the A.S. degree in subject areas like hazardous materials, radiation protection, forest protection, combustion, safety engineering, and hydraulics.

Interested students should contact one of the Student Services counselors at 545-3430 for complete course lists and other information. UMass courses that may be used to satisfy some of the above requirements can be found in this catalog under the following department designations and numbers: ACCTG 120, 130; BGS 201; COINS 122, 201; COMSTU 121, 210; EDUC 290A, 290B, 290D; GB FIN 260; HIST 337; JS 201, 391D; LEGAL 201, 202, 290D; MGT 201, 214, 230, 231; POLSCI 223, 226, 260; PSYCH 101, 280; SOCIOL 105, 224.

## BGS Courses

BGS courses are offered by the Division for University credit, and are meant either to serve the special educational needs of older, part-time students, or to provide BGS degree candidates with training in areas of concentration not available in regular University course offerings. BGS courses offered this semester are:

|          |                                                                       |
|----------|-----------------------------------------------------------------------|
| BGS 100A | Women in Society: An Interdisciplinary Approach                       |
| BGS 100B | Back to School—Into the Job Market: Women and the Life-Career Process |
| BGS 201  | Occupational Safety and Health Management                             |

For a complete description of each BGS course, see Academic Extension Course Descriptions beginning on page 13.

## ACADEMIC EXTENSION CALENDAR

|                    |                   |                                                    |
|--------------------|-------------------|----------------------------------------------------|
| Wednesday-Saturday | July 12-August 13 | Mail Registration                                  |

| After Oct. 7      | NO REFUND |

## REGISTRATION AND RECORDS

### Admissions

Any person who has graduated from high school or who has a certificate of General Educational Development is entitled to enroll in undergraduate courses offered by the Division of Continuing Education at the University of Massachusetts at Amherst. The Division assumes that the student will accurately assess his or her ability to take a college level course. It is the student's responsibility to observe prerequisites for individual courses. Enrollment does not imply acceptance into a degree program.

In accordance with University policy, University of Massachusetts students under academic suspension or academic dismissal may not enroll in courses offered by the Division of Continuing Education.

### Mail Registration

1. To register by mail simply complete the registration form in this publication and mail with full remittance to:  
Academic Extension, AE76-3  
Division of Continuing Education  
P.O. Box 835  
Amherst, Massachusetts 01002
2. Make checks payable to **Continuing Education AE76-3**. All registrations must include total course fees plus a \$5 registration fee.
3. Deadline for mail registration is August 13 postmark.
4. Mail registrations will be confirmed by return mail late in August. Room assignments will be included in mail confirmation. Class sizes are limited, so register early.

### In-Person Registration

To register in person for Continuing Education courses in this catalog come to one of the following locations:

Hills House Main Lobby  
UMass/Amherst

*Wednesday-Saturday, August 18-21*

*10 a.m.-4 p.m. and 6-8 p.m. (Wednesday-Thursday)*

*10 a.m.-4 p.m. (Friday)*

*10 a.m.-2 p.m. (Saturday)*

Building B, Room 347  
Holyoke Community College  
Holyoke, Massachusetts  
*Tuesday, August 24*  
*9-11 a.m. and 5-7 p.m.*

### Registration, University Classes

Regular *undergraduate* University of Massachusetts classes are available to Continuing Education students on a space-available basis. Students must appear in person (August 18-21, Hills House Main Lobby, see page 5 for times) to register for undergraduate University classes with space available. There will be no exceptions to this policy. Students may *not* register for University classes prior to August 18, nor during the week of August 23.

Continuing Education students are normally limited to a total of nine credit hours of work per semester of which no more than six credit hours or two courses may be taken in regular University courses.\* See Overloads.

Effective Fall Semester 1975, the Division of Continuing Education no longer registers students in *graduate* University courses except for those graduate courses offered in Continuing Education's Academic Extension Program. Graduate School policy states that "admission to the Graduate School is to be prerequisite to enrollment in any UMass graduate course for credit or audit." Students wishing to register for graduate courses must complete a "Non-degree Student Application" form. Applications are available from the Graduate Admissions Office, Graduate Research Center, University of Massachusetts, Amherst, MA 01002. Registration for these courses will take place September 1, 1976, at Boyden Gymnasium, 9 a.m.-12 noon and 1:30-4:30 p.m. For further information concerning application and registration in graduate University courses, call the Graduate School at 545-0024.

\*"Regular University courses" means undergraduate courses not specifically taught through the Division of Continuing Education but available to Continuing Education students on a limited, space-available basis.

### Records and Registration Office Hours

|                           |                      |
|---------------------------|----------------------|
| Monday-Thursday           | 8:30 a.m.-7:00 p.m.  |
| Friday                    | 8:30 a.m.-5:00 p.m.  |
| Saturday                  | 10:00 a.m.-1:00 p.m. |
| (Closed holiday weekends) |                      |
| Phone: 545-3653           |                      |

### Change of Program

Students must formally notify the Division of Continuing Education, *in writing*, of all Adds, Drops, and Withdrawals. Changing from one section to another of the same course is considered to be an Add and a Drop. Failure to use proper procedure could result in an "F" being recorded as a final grade. Students dropping courses during the Refund Period will receive refunds only if proper procedures are followed. Please check the Academic Extension Calendar for Add, Drop, and Withdrawal Periods, as well as the Refund Schedule.

HRTA 100, as the department's introductory course, is open to all students who are interested in a career in the hospitality industry or who are simply interested in the scope, content and shape of the industry. A required project takes students to a restaurant, hotel, motel, or tourist destination. HRTA 100 is taught by Prof. S.W. Fletcher, head of the department.

**Hotel,  
Restaurant  
and Travel  
Administration**

## Transcripts

Permanent records of all courses taken through the Division of Continuing Education are maintained by the Division, and are *not transferred automatically* to other offices on campus, such as the Registrar's Office or the Graduate Records Office. Requests for transcripts must be made in writing either by letter or by official Transcript Request Card. Be sure to include the complete address of the person or institution to whom the transcripts will be sent.

*Official transcripts* will be sent only to Registrars or Recording Officers of institutions and to recognized business addresses. *Student copies*, so designated, may be obtained by following the same procedure. The first transcript will be issued free of charge. There will be a \$1 charge for all subsequent transcripts.

Address transcript requests to:

Transcript Request  
Division of Continuing Education  
Hills House North  
University of Massachusetts  
Amherst, Massachusetts 01002

## Cancellations

Continuing Education courses are funded solely by student fees. In the event that instructional costs cannot be met, any course may be cancelled at the discretion of the Division. Students who are affected by a course cancellation will be notified by mail. Students not wishing to enroll in an alternative course will receive a full refund.

In the event of severe weather conditions or other emergencies, it may be necessary to cancel classes. Usually, when University day classes are cancelled, evening classes are also cancelled. Announcements will be made over the following radio stations:

Amherst—WTTT, WFCR, WMUA  
Greenfield—WHA1  
Hartford—WTIC  
Northampton—WHMP  
Orange—WCAT  
Springfield—WHYN, WACE, WSPR  
Ware—WARE  
Worcester—WTAG

The Division reserves the right to cancel, add, or combine sections of courses listed in this publication or to change instructors as necessary.

## Degrees

The Division of Continuing Education offers part-time study which may lead to any undergraduate degree currently offered by the University of Massachusetts. The Bachelor of General Studies Degree, also conferred by the University of Massachusetts, is a degree unique to the Division of Continuing Education. See BGS, page 3.

## Matriculation Policy

The Division of Continuing Education has an open admissions policy requiring only a high school diploma, or its equivalent, for enrollment in undergraduate courses. Matriculation, or acceptance as a degree candidate, however, is based on a satisfactory performance (grade point average of 2.0 or better) in a specified number of University of Massachusetts courses, and declaration of a program of study.

Students not planning to transfer into the University's full-time program and who anticipate receiving a baccalaureate degree through the Division of Continuing Education should apply for matriculated status as soon as they have completed the appropriate number of credits (see below).

Application for matriculated status at the earliest possible stage will allow the Division to do a better job of helping the student in the planning of his or her program of study, as well as promote a greater awareness within the Division of what courses should be offered both on and off campus to meet student needs.

| Number of UMass/CE Credits<br>Needed to Apply for<br>Matriculated Status |    |
|--------------------------------------------------------------------------|----|
| Number of Transfer Credits                                               |    |
| 60 or more                                                               | 15 |
| 48-59                                                                    | 18 |
| 36-47                                                                    | 21 |
| 24-35                                                                    | 24 |
| 12-23                                                                    | 27 |
| 0-11                                                                     | 30 |

Further information and an application may be obtained from the Records Office of the Division of Continuing Education, located in the lobby of Hills House, telephone (413) 545-3653.

## Core Requirements

The University of Massachusetts core is a block of at least 33 credits within the specified 120 credits needed for graduation. Students must complete core requirements by taking certain specified courses in several fields of learning. An introduction to the humanities and fine arts, for instance, may be fulfilled by the successful completion of three courses chosen from those identified by the letter "C" after the course title. These 33 credits of introductory courses are distributed as follows.

- B Core: 6 credits in written and spoken English, usually offered by the Rhetoric Department. These courses are identified by the letter "B".
- C Core: 9 credits in humanities or fine arts, generally from the departments of Afro-American Studies, Art, Classics, Comparative Literature, English, History, Linguistics, Music, Philosophy and designated foreign literature courses. These are identified by the letter "C".
- D Core: 9 credits in social or behavioral sciences, generally from the departments of Afro-American Studies, Anthropology, Economics, Government, Political Science, Psychology, and Sociology. These are

## CREDIT/DEGREES

### Credit

Credit offered through the Division of Continuing Education is resident University of Massachusetts credit and is fully transferable. Credit courses numbered 500 and above are graduate level. Some double numbered courses, such as COMSTU 225/525, may be taken for either undergraduate or graduate credit. It is important that students indicate only one of these numbers—the one corresponding to the level of credit desired.

identified by the letter "D".

E Core: 9 credits in mathematics or natural sciences, generally from the departments of Astronomy, Botany, Chemistry, Mathematics, Physics, Statistics, and Zoology. These are identified by the letter "E".

Courses in this catalog which may be applied toward the completion of University core requirements are designated by a capital letter, in parentheses, following course titles as they appear in the Academic Extension course descriptions.

## Overloads

Continuing Education students are normally limited to a total of nine credit hours of work per semester of which no more than six credit hours or two courses may be regular University courses.

Students desiring to take more than a total of nine credit hours, of which no more than six are regular University courses, should complete a Petition for Credit Overload. These forms are available in the Continuing Education Records Office in the lobby of Hills House. Petitions must be accompanied by transcripts of previous college work and/or supporting letter(s) from appropriate advisor(s).

Permission for more than six credit hours or two regular University courses will be considered in the following situations only: 1) if a student has a job which requires working full time at night; or 2) if a student is matriculated through Continuing Education and needs a specific course which is not offered at night. Petitions for this purpose may be obtained from any member of the Division's counseling staff. **No more than a total of nine credit hours or three regular University courses will be approved in any case.**

## Credit Options

### Individualized Study

Individualized study is designed to provide an opportunity for Continuing Education students to fulfill credit requirements by working on an individual basis with an instructor.

Individualized study contracts may be undertaken in a special problems area, or for approved University courses.

Students may register at any time for individualized study by completing an Individualized Study Contract, available from the Division of Continuing Education, and by obtaining the necessary signatures. In each case, the program of study should be formulated by mutual agreement between the faculty member and the student. Such courses of study must be completed within one calendar year of the registration date or an incomplete will be recorded and computed as a 0.0 in the student's cumulative average. An individualized study fee of \$5 is charged for each registration in addition to the standard per credit fee of \$35.

Information for individualized study may be obtained from the Coordinator of Individualized Study Programs, 545-3430.

### Auditing

Students may choose to audit a course and have that audit recorded on the permanent record as an "AUD" provided that: 1) the student officially registers and pays all course fees; 2) the student officially elects the class as an audit (all requests must be submitted to the Continuing Education Records Office by the end of the Add/Drop Period, Sept. 11, 1976); 3) the student satisfies the instructor regarding his or her preparation and motivation for auditing the class; 4) the student satisfies all the criteria for

a successful audit as stipulated in advance by the instructor.

## College Level Examination Program (CLEP)

CLEP is a national program of credit-by-examination that offers the opportunity to obtain recognition for college-level achievement, no matter when, where, or how learning has been acquired—by means of formal or informal study. If the results are acceptable, college credit is given, applicable toward an undergraduate degree.

CLEP general exams are available in the areas of English Composition, Humanities, Social Studies, History, Natural Sciences, and Mathematics. There are over 30 subject exams in a wide variety of fields. All exams are given monthly on the University of Massachusetts/Amherst campus. Test fees are \$20 for one General or one Subject Exam; \$30 for two; and \$40 for any combination of three to five.

Further information and registration forms may be obtained from the Division of Continuing Education, 545-3430, or the Student Development Center, Berkshire House, 545-0333. In order to have the test scores sent directly to the Division of Continuing Education, place the number "3945" in the Score Report College Code box on the CLEP registration form.

### Pass/Fail Option, Continuing Education

Continuing Education students are eligible to use a pass/fail option in one course each semester. The student may elect to take up to and including five University core requirement courses on a pass/fail basis. In a course in which a student chooses the pass/fail option, the instructor will not be informed

# The Earth Is

# Your Home

Learn to identify the gross structure and composition of the earth; rock-forming minerals and the three classes of rocks; economically important ore; and decorative semi-precious and precious stones. *Geology 191, Introduction to Rocks and Minerals*, provides laboratory work using minerals from the University collection and also from the personal collection of the instructor, Professor Albert B. Nelson. This course, presented in cooperation with the Department of Geology and Geography, will be given for three credits on Monday evenings.

Make It Your Hobby Too

that the course is being taken pass/fail. At the end of the semester the instructor will turn in the letter grade earned. At this time, if a grade of A through D has been reported, the Records Office will record either a "P" or the letter grade on the student's permanent record, whichever is more beneficial to the cumulative average of the student. **All requests to employ the Pass/Fail Option must be filed with the Continuing Education Records Office prior to the end of the Add/Drop Period (September 11, 1976).**

#### Pass/Fail Policy, School of Education

The majority of courses given under the supervision of the School of Education, both graduate and undergraduate, are graded on a pass/fail basis only. This is not optional on the part of the student except in the following special case. Master's degree students enrolled at the University of Massachusetts are required by Graduate School policy to earn 18 graded credits during their 33-hour Master's program. A student eligible to receive a letter grade should make the request known to the instructor early in the semester so that the grade may be added to the roster at the end of the course.

Please do not request exceptions to the pass/fail policy. The School of Education understands that there may be a number of institutions which simply do not accept the pass/fail mark. In these cases, the student should contact the instructor and request a letter which states that the School of Education is on a pass/fail basis but indicates what the grade would have been if the student had been taking the course for a grade.

If further information is desired regarding the School of Education pass/fail policy, call or write Mike Schwartz, 125B Education Building, University of Massachusetts, Amherst, Massachusetts 01002, phone 545-2701.

## EXPENSES

Course fee for each three credit course is \$105. Massachusetts residency does *not* affect the course fee. Any other course fees are as stated in the course description or in the Schedule of Courses.

#### Course Fee

The following fees are not refundable except for officially cancelled courses. Explanations of optional fees are in the section following.

|                                                                                                      |         |
|------------------------------------------------------------------------------------------------------|---------|
| <b>Registration Fee</b> (charged once per semester)                                                  | \$ 5    |
| Required of all students                                                                             |         |
| <b>Late Registration Fee</b>                                                                         | \$10    |
| Required of all students registering after September 1                                               |         |
| <b>Laboratory Fee</b> (a limited number of courses)                                                  |         |
| Assessed <i>after</i> beginning of semester. Fee varies and is indicated in the Schedule of Courses. |         |
| <b>Change of Program Fee</b>                                                                         | \$ 2    |
| Charged for each change recorded                                                                     |         |
| <b>Commencement Fee*</b>                                                                             | \$10    |
| Assessed during semester of graduation                                                               |         |
| <b>Optional Fees</b>                                                                                 |         |
| Arts Council Fine Arts Fee                                                                           | \$ 3    |
| Health Services Fee                                                                                  | \$46    |
| Health Insurance Fee                                                                                 | \$56.50 |
| Available only with Health Services Fee                                                              |         |
| Physical Education Fee                                                                               | \$ 5    |
| Paid at Ticket Office, Boyden Gym                                                                    |         |
| Picture Identification Fee                                                                           | \$ 1    |

\*Students planning to receive a baccalaureate degree through the Division of Continuing Education at the end of fall semester 1976, or spring semester 1977, should notify the Director of Student Services of their intent by completing an Intent to Graduate form, available in the Records Office of the Division of Continuing Education, in the lobby of Hills House. A \$10 commencement fee is required, payable at the time the Intent to Graduate form is filed.

## Refunds

Refunds of course fees will be made according to the following schedule, with two exceptions: 1) a student involuntarily called to military service before the completion of a course will be given a pro rata refund of course fee; 2) students enrolled in courses which are cancelled due to lack of enrollment will be given a full refund. Refunds for course drops received through the mail will be computed according to the date of postmark.

#### Refund Schedule

|                 |           |
|-----------------|-----------|
| September 3-16  | 80%       |
| September 17-23 | 60%       |
| September 24-30 | 40%       |
| October 1-7     | 20%       |
| After October 7 | NO REFUND |

## Explanation of Optional Fees

The Division is pleased to be able to make available the following University services and programs for Continuing Education students. These programs and services are optional. Payment instructions for each are listed below.

#### Fine Arts Fee

Each year the Arts Council brings to the Amherst campus some of the world's most renowned performing artists. Artists who will be performing during the 1976-77 season include: Chicago Symphony, Leontyne Price, PDQ Bach, Royal Winnipeg Ballet, Count Basie, Boston Symphony, Alwin Nickolaï Dance Co., Dave Brubeck, and Julian Bream. Payment of the Arts Council fee allows students to purchase tickets with a 50% discount.

#### Health Services Fee

University Health Services staff are responsible for the direct provision of a wide range of integrated services. Primary care physicians serve as family doctors and coordinate the nature and extent of services to assure quality care, whether it is provided in the Health Center or under the supplementary insurance program. Laboratory, x-ray, physical therapy, pharmacy, specialty clinics, inpatient facilities, and other services are also available at the Health Center.

The student health program also provides mental health consultation, including short-term and group psychotherapy, a dental program, health education activities in such areas as drug use, nutrition, common health ailments and human sexuality, and an environmental health and safety monitoring unit.

The Health services fee is \$46 for fall semester only (effective date: September 1, 1976) and is payable to the Division at the time of registration. **Students must enroll for at least six credits to be eligible.**

#### Health Insurance Fee

The Chicago Insurance Company offers University of Mass-

achusetts students a hospital, surgical, and medical program to supplement the on-campus care provided by University Health Services. This insurance provides protection from September 1, 1976 to August 31, 1977 for specific medical expenses due to injury or emergency illness which causes loss that commences while the policy is in force, including university holidays, summer vacation, and other times when the student is away during the insured period.

This insurance plan offers liberal benefits for services provided by participating physicians and hospitals. The Cooley Dickinson Hospital and groups of general and orthopedic surgeons have entered into an agreement with University Health Services to provide high quality services at no additional cost to the subscriber. Emergency treatment and *authorized* specialist services in a non-participating hospital and by a non-participating physician, however, are covered to \$5,000 per occurrence. The insurance brochure is available from the Division of Continuing Education or University Health Services.

**Note:** Services obtained outside the University Health Center must be authorized in advance by a physician participating in the health plan in order to receive coverage from this insurance.

The cost for September 1, 1976-August 31, 1977, is \$56.50. Students must pay the Health Services fee of \$46 in order to purchase the insurance, the fee for which is payable to Continuing Education at the time of registration. Health insurance for the above period is available only to students who are registering for the 1976-77 academic year.

#### Dependents Health Services Fee

Students who pay a Health Services fee are eligible to enroll their dependents (spouse and/or children) in the Health Services Program. The payment of this fee will allow the student's dependents to receive the same comprehensive health services presently available to students at the University Health Center. Interested persons should contact the Business Office of the University Health Center.

#### Physical Education Fee

Continuing Education students may pay a \$5 physical education fee, which entitles them to use facilities such as pools, bowling alleys, or gyms, and equipment if it is available. A locker or basket may be obtained on a space-available basis. All services and facilities are regulated by the School of Physical Education, and Continuing Education students are expected to conform to established policies.

Payment should be made to the Ticket Office in Boyden Gymnasium, and the receipt taken to the Intramural Office where an I.D. card will be issued.

#### Picture Identification Cards

Picture I.D. cards will be available to all Continuing Education students at a cost of \$1. These cards are not mandatory for all students, but are essential when charging books out of the University Library. A picture I.D. card also provides handy identification when on campus and allows the student to cash checks (\$25 maximum) at the Student Union.

All students wishing to obtain a picture I.D. card must go to the Continuing Education Records Office, Hills House Front Lobby, to obtain a receipt of \$1 payment and a verification of student number. Students will need a second form of identification when the picture is taken. Finished cards may be picked up in 24 hours at the Continuing Education Records Office.

The cards will be validated each semester.

Students who already have a Continuing Education picture I.D. card from a previous semester may obtain a validation sticker for the fall semester at the Records Office once fall registration has been completed.

I.D. Office staff members will be available to take pictures for Continuing Education students during the following days and hours:

#### *In-Person Registration/Hills House Main Lobby*

August 18-20

Wednesday-Thursday, 10 a.m.-4 p.m. & 6-8 p.m.

Friday, 10 a.m.-4 p.m.

Saturday, 10 a.m.-2 p.m.

#### *Prior to the first day of classes/169 Whitmore*

August 23-27

Monday-Friday, 9 a.m.-4 p.m.

#### *After classes start/169 Whitmore*

October 1 and thereafter

Monday-Friday, 9 a.m.-4 p.m.

**Continuing Education students are urged to make every effort to obtain picture I.D. cards during the hours specifically set for them.**

#### Parking Costs

##### Amherst

Any student who registers for a class held on campus between the hours of 7 a.m. and 6 p.m., and who plans to park a vehicle on the Amherst campus, must either obtain a parking decal from the University Parking Office, Room 1, Munson Hall, park in the Campus Center Parking Garage, on a fee-per-hour basis, or use metered space. The rates and privileges for parking are determined by the University. Access to parking lots is not restricted after 6 p.m., or on weekends, and no fees are collected for vehicles which are parked during those times only.

##### Holyoke

Campus parking requires a parking permit, applications for which may be obtained at in-person registration. Those who are registering by mail may request a parking permit application and it will be sent by return mail. The parking application may be taken to the Security Office, Building E, HCC, and a permit will be issued at no charge.

#### Textbooks

##### Amherst

The Textbook Annex of the University of Massachusetts stocks books for Continuing Education courses and has extended its hours for the convenience of Continuing Education students. The Annex is arranged alphabetically by department and numerically from the lowest course number to the highest course number within the department. Information on books will be posted in the Annex. Blue counter cards signify Continuing Education courses.

The University Store and Textbook Annex hours for fall are listed below.

|        |         | Store               | Annex         |
|--------|---------|---------------------|---------------|
| Mon.   | Aug. 30 | 8:30 a.m.-4:30 p.m. | 9 a.m.-4 p.m. |
| Tues.  | Aug. 31 | 8:30 a.m.-4:30 p.m. | 9 a.m.-4 p.m. |
| Wed.   | Sept. 1 | 9 a.m.-5 p.m.       | 9 a.m.-5 p.m. |
| Thurs. | Sept. 2 | 9 a.m.-9 p.m.       | 9 a.m.-9 p.m. |
| Fri.   | Sept. 3 | 9 a.m.-5 p.m.       | 9 a.m.-5 p.m. |
| Sat.   | Sept. 4 | Closed              | Closed        |
| Sun.   | Sept. 5 | Closed              | Closed        |

|        |          |                |                |
|--------|----------|----------------|----------------|
| Mon.   | Sept. 6  | Closed         | Closed         |
| Tues.  | Sept. 7  | 9 a.m.-9 p.m.  | 9 a.m.-9 p.m.  |
| Wed.   | Sept. 8  | 9 a.m.-5 p.m.  | 9 a.m.-9 p.m.  |
| Thurs. | Sept. 9  | 9 a.m.-5 p.m.  | 9 a.m.-7 p.m.  |
| Fri.   | Sept. 10 | 9 a.m.-5 p.m.  | 9 a.m.-5 p.m.  |
| Sat.   | Sept. 11 | 11 a.m.-3 p.m. | 11 a.m.-3 p.m. |
| Sun.   | Sept. 12 | Closed         | Closed         |

From Monday, September 13, and throughout the semester, hours are as follows:

|               |                |                     |
|---------------|----------------|---------------------|
| Monday-Friday | 9 a.m.-5 p.m.  | 8:30 a.m.-4:30 p.m. |
| Saturdays     | 11 a.m.-3 p.m. | Closed              |

Continuing Education students are urged to make every effort to purchase books during the hours specifically set for them. Refer to the campus map in this catalog for directions to the Annex.

### Holyoke

Textbooks are available at the HCC Bookstore. In addition, students have complete access to the college library upon presentation of a current University of Massachusetts Continuing Education Identification Card.

## STUDENT SERVICES

### Orientation for CE Students

Wednesday, September 1, 1976

7:30 p.m., Hills House Lobby

Student orientation is designed to provide an opportunity for Continuing Education students to acquaint themselves with the Division's programs, degree options, policies, and people. A slide presentation will be shown at 7:30, followed by small group discussions which will allow each student to have questions answered in a personal manner. Orientation presents a chance to meet some of the staff of the Division, as well as fellow students, people who will be important in helping to make the coming semester a good one. Coffee and tea will be served.

### Counseling Services

The counseling staff of Student Services is available to aid students in planning their educational and/or vocational goals. A counselor will be available in Amherst Monday-Thursday, 9 a.m.-7 p.m., Friday, 9 a.m.-5 p.m.; and on Saturday by appointment.

#### General Counseling Staff

Joan P. Eignor  
Director of Student Services  
100A Hills House North  
(413) 545-3430

Harry Neunder  
103 Hills House North  
(413) 545-3430

Garrett J. McAuliffe  
101 Hills House North  
(413) 545-3430

#### Receptionist

Carolyn Cauty  
100 Hills House North  
(413) 545-3430

Although an appointment is not necessary, it will help us if we know you are planning to come.

### Off-Campus Counseling

Continuing Education students and others who may be interested in receiving academic counseling off campus may meet with Harry Neunder of the Student Services staff at Holyoke Community College, 12-1 p.m., on alternate Wednesdays: September 8 and 22, October 6 and 20, November 3 and 17, and December 1 and 15. Call 545-3430 for appointments and for the specific room location at Holyoke Community College.

### Financial Assistance

#### University Financial Aid

Continuing Education students carrying six credits or more and working on a degree or certificate are eligible to be considered for financial aid. Assistance will be awarded on the basis of need and merit and will cover only direct educational expenses. Eligible students may receive aid in the form of National Direct Student Loans, Basic Educational Opportunity Grants (B.E.O.G.), and/or University Scholarships.

Students who wish to apply should:

1. Complete the Basic Educational Opportunity Grant form and submit it to the designated address for evaluation. All students who have not completed a first bachelor's degree must submit this form. The BEOG form takes four to six weeks to process, so plan accordingly.

(Continued on next page)

### HIST 186 C CORE

# LIZZIE!

*Lizzie Borden took an axe,  
And gave her mother forty whacks.  
When she saw what she had done,  
She gave her father forty-one!*

On the hottest day of the summer of 1892, Lizzie Borden of Fall River, Massachusetts, hacked her father and mother to death with an axe. This brutal incident is the focus of an entire semester's work.

What drove Miss Lizzie to do it? The search for the answer leads deeper and deeper into the inner life of the Borden family, into the history of Fall River, and ultimately into the most basic questions of class structure and sexual politics in the Gilded Age. History 186, *New Approaches: Lizzie Borden*, gives students the opportunity to pose and answer questions through careful and intensive reading in a wide variety of primary sources.

History 186 is offered in cooperation with the History Department of the University of Massachusetts/Amherst for three credits on Thursday evenings.

*(Financial Aid, continued)*

2. Pick up a Financial Aid Application for Continuing Education Students from the Division of Continuing Education, Hills House North, or from the University Financial Aid Office in Whitmore Administration Building.
3. **Completed applications**, with B.E.O.G. eligibility report attached (when applicable), should be returned to the Continuing Education Records Office in the lobby of Hills House North no later than August 23, 1976. A \$4 processing fee for computing the financial statement will be charged of all applicants. This fee is non-refundable and is payable to Continuing Education, XE-121, at the time of application.
4. **To avoid delays in processing, have you...**
  - a. computed your budget on a 4-month basis?
  - b. checked your arithmetic?
  - c. completed the entire form?
  - d. paid your \$4 processing fee?

Awards will be made by the fourth week of the semester, but there is a six to eight week waiting period for receipt of processed checks. **It is the student's responsibility to make arrangements for maintenance costs in the interim. Please plan accordingly.**

#### Law Enforcement Education Program (LEEP)

In-service police officers, courts officers, and corrections officers may qualify for grants under the provisions of LEEP. Application forms, which must be submitted each semester, are available from Harry Neunder, 103 Hills House North, or from any member of the Student Services staff, (413) 545-3430. Completed forms must be returned to Mr. Neunder no later than Friday, September 10, 1976.

#### Veterans Benefits

All courses offered for credit through the Division of Continuing Education are approved by the Veteran's Ad-

ministration, and veterans can therefore apply for educational benefits. It is the student's responsibility to contact the Veterans Affairs Office, 236 Whitmore Administration Building, (413) 545-1346, to obtain necessary forms and instructions for completing them. There is no deadline to file for benefits, but the veteran should bear in mind that processing forms requires approximately eight weeks.

The Veterans Affairs Office offers many other programs and services which are available to Continuing Education students who are veterans. For information about benefits and services, Continuing Education veterans may talk with a student advisor from the Veterans Affairs Office on Tuesday and Thursday evenings, 5-7 p.m., Room 100, Hills North.

.....  
 • A representative from the UMass Financial Aid  
 • Office will be in Hills House Lobby at the following time  
 • to answer any questions about receiving financial aid.  
 • *August 18, 10 a.m.-4 p.m.*  
 • .....

## IMPORTANT COURSE DESCRIPTION INFORMATION

At the time this catalog was prepared, instructors for academic extension courses had not been selected.

Course descriptions which follow are those which appear in the University of Massachusetts' Course Directory, or which have been approved by the academic departments for inclusion in this catalog. For more complete course information, the student may visit either a Continuing Education academic counselor or the staff in the Center for Academic Extension, both located in Hills House North.

The Division of Continuing Education reserves the right to cancel, add or combine sections of courses listed in this publication, or to change instructors as necessary.

# Buddhist Art

## Visual Arts of Asia

*Visual Arts of Asia*, presented in cooperation with the Umass Art Department, is a historical survey of the Buddhist Tradition of art in Asia. It emphasizes the development of Buddhist art in India, Southeast Asia, China and Japan. The art will be treated as a manifestation of the growth of religious practices common to all the regions, yet having characteristics peculiar to each region. The best known and most typical monuments, paintings and sculpture are studied. Also considered is the relation of the art to the communities from which art objects come. Two slide exams and two papers determine the course grade. Texts for the course are: Sherman Lee, *A History of Far Eastern Art*; Edward Conze, *Buddhism, Its Essence and Development*; University Prints, *Buddhist Art*.

## ACADEMIC EXTENSION COURSES

### ACCOUNTING

#### Introduction to Financial Accounting

##### ACCTG 120

Introduction to principles underlying the preparation of financial statements.

#### Introduction to Managerial Accounting

##### ACCTG 130

Continuation of Accounting 120 with major emphasis on the development and application of accounting data for planning and control.

### ANIMAL SCIENCE

#### Horse Breeds, Types and Selection

##### AN SCI 386A

The history and development of breeds and their present-day type, conformation and use. Anatomy and conformation and the relationship of form to function. Organized and systematic approach to selection.

### ANTHROPOLOGY

#### Introduction to Physical Anthropology

##### ANTH 103

Human evolution, human variation, racial classifications, racism, and modern theories of variation.

#### Introduction to Cultural Anthropology (D)

##### ANTH 104

Social and cultural anthropology dealing with variations among societies in technology and economics, social and political organization, art, religion and ideology.

#### Man and the Horse

##### ANTH 290Z

Interdisciplinary study of the role of the horse from the archaeological past to the ethnographic present. Significance of genetic mechanisms and evolutionary processes in the development of the man-horse relationship; behavior and social organization of horses observed in the wild, and the changes which have come about through domestication; examination of the man-horse relationship in the contexts of different cultural systems.

### ART

#### Basic Drawing (C)

##### ART 100

Drawing in black and white, applying pencil, crayon, charcoal techniques to representation in line and tone, emphasizing sound observation and effective presentation. Six studio hours.

#### Introduction to the Visual Arts (C)

##### ART 117

Diverse media of the visual arts from a topical rather than a strictly historical viewpoint. Fundamental techniques of formal and stylistic analysis; surveys a wide range of topics in the context of the relation of art objects to their cultures, creators, critics and public.

#### Basic Design I (C)

##### ART 120

Two-dimensional design concepts arising out of work with specific problems in a variety of media. Six studio hours.

#### Visual Arts of Asia

##### ART 190C

Introduction to Art History focusing on Asian, rather than Western arts. Visual arts associated with Buddhism, tracing the imagery of Buddhism as it develops in India and as it is spread and transformed through the cultures of central Asia, China and Japan, and southeast Asia and Indonesia. See ad, page 12.

#### Printmaking: Relief I (C)

##### ART 240

Basic study of material, technique, and aesthetic considerations peculiar to relief. Students print their work. Prerequisites: Art 100, 120 or permission of the instructor. Six studio hours.

#### Printmaking: Intaglio I (C)

##### ART 242

Basic study of materials, techniques, and aesthetic considerations peculiar to etching, engraving, and aquatint. Students print their work. Prerequisites: Art 100, 120 or permission of the instructor. Six studio hours.

#### Sculpture I (C)

##### ART 260

Experimentation with materials. Investigation of the nature of three-dimensional form. Development of three-dimensional order. Individual projects. Prerequisites: Art 100, 122. Six studio hours.

### ASTRONOMY

#### Exploring the Universe (E)

##### ASTRON 100

The earth, its structure and age, the moon, the sun, other planets and the origin of the solar system. Stars and galaxies, their birth and death. The universe, its structure and evolution. Supplemented by occasional hours of evening observation. Not open to physical science or engineering majors.

### BACHELOR OF GENERAL STUDIES

#### Women in Society: An Interdisciplinary Approach

##### BGS 100A

Introduction to "women's place" in the society from sociological, psychological, economic, educational, religious and political perspectives. Study of past, present, and future aspects of these six broad disciplines helps provide a general understanding of the complexities women face in the U.S. today.

#### Women and the Life-Career Process (Back To School—Into The Job Market) BGS 100B

Life planning and career development, with occupational,

not political base, specifically for women entering or returning to higher education and/or world of paid work. Women's self-development, changing social positions, roles in work both inside and outside the home, and needs for continuing education. Professionally planned personal development process.

**Occupational Safety and Health Management (Holyoke)**  
**BGS 201**

Recognition, evaluation and elimination of Occupational Safety and Health hazards through the application of program management. Recent Occupational Safety and Health legislation (OSHA) with focus on the potential hazards in the occupational environment, the effects of excessive exposure and basic types of hazard control mechanisms.

**BOTANY**

**General Botany (E)**  
**BOTANY 101**

An introduction to basic biological principles of organization, development and evolution, using botanical illustrations. Foundations and approach in biological research, and the consequence of this research on human thought and experience. Not open to science majors without permission of major departments. Not to be taken serially with Botany 100.

**BUSINESS ADMINISTRATION**

**Introduction to Computers for Business**  
**BA 110**

BASIC and FORTRAN computer programming languages, with emphasis on the use of the computer for business data processing and problem solving.

**COMMUNICATION STUDIES**

**Introduction to Mass Communications (D)**  
**COMSTU 121**

History and development, structure, roles and functions. Standards for evaluation of the mass media.

**Interpersonal Communication (C)**  
**COMSTU 210**

Nature and effects of person-to-person speech communication. Emphasis on the behaviors of everyday verbal and non-verbal communication that produce effects on ourselves, others, society and future communication. The relationship of interpersonal to public communication.

**COMPUTER AND INFORMATION SCIENCE**

**Introduction to Problem Solving Using the Computer (E)**  
**COINS 122**

Problem solving and FORTRAN programming for students from all disciplines. Concepts associated with problem solving valid for many types of problems. Use of FORTRAN on the UMass time-sharing system. Laboratory included. Credit: 4. Course Fee: \$140.

**Assembly Language Programming**  
**COINS 201**

Basic ideas of computer hardware and principles of computer systems organization: input/output equipment, machine organization, logical design, elementary data structures, and assembly language programming. Lab involves hands-on experience with programs, loaders, and assemblers. Prerequisite: COINS 122 or programming experience. Credit: 4. Course Fee: \$140.

HIST 140 C CORE

**European History**  
**1500-1875**  
**with FILM**

*This unusual history course, presented in cooperation with the History Department, UMass/Amherst, provides an introduction to European history during the period from 1500 to 1815, with a guide to learning through film. Each film screening will be followed by a discussion evaluating the film's strengths and weaknesses as an aid to understanding the period presented.*

*The course deals with the period in European history prior to the Industrial Revolution: the era spanning the cultural Renaissance, the religious change of the Reformation, the crises of the seventeenth century, the expansion of European power into the rest of the world, the Enlightenment and the first truly modern revolution.*

*Films under consideration for the course include: "The Titan" (Michelangelo), "Here I Stand" (Martin Luther), "Cromwell" (English Revolution), "Blaise Pascal" (Scientific Revolution), "Farrebique" (French rural life), "The Last King of America—George III" (CBS production), "Tale of Two Cities" (Paris and London during the French Revolution, from the novel by Charles Dickens).*

*History 140 will be offered for three credits on Thursday evenings.*

## ECONOMICS

### Introduction to Microeconomics (D) ECON 103

Introductory analysis of resource allocation and income distribution through microeconomic theory. Specific problems illustrate the use of the theoretical precepts developed.

### Introduction to Macroeconomics (D) ECON 104

Introduction to the economic theory used to explain the behavior of the American economy. Macroeconomic goals of full employment, price stability, economic growth and balance of payments equilibrium.

### Economics and Urban Problems (D) ECON 181

Structure of the urban economy; goals, processes, problems, and policy in urban economic development.

## EDUCATION

### Photography I EDUC 290A

Intense workshop experience in photography. Lecture and lab (darkroom) scheduled for each class meeting. History of photography. Criticism of photography and visual literacy. Students complete all reading assignments and produce a portfolio to complete the course. Additional lab times scheduled outside of the regular class time.

### Innovative Approaches to Adult Education EDUC 290B/590B

Approaches to adult education in terms of planned efforts toward behavioral change in broad non-traditional perspective. Though the emphasis is on the adult audience in rural societies of the Third World, the principles could be applied to developed countries.

### Dramatizing the Curriculum EDUC 290C

Introduces a variety of dramatic techniques such as storytelling, dramatic action, mime, movement and narrative, which can be used to elicit different perspectives on literature and social studies. Discusses and makes use of tape recordings and videotape. Course assignments include selected readings, background research for dramatic projects and script writing.

### Human Crisis: Interventions for Helpers EDUC 290D

Crises in the human experience, such as drug, social and psychological, and practical techniques and skills for effectively dealing with these crises. Personal helping style and attitudes related to crisis and crisis intervention; counseling skills, crisis intervention theory and techniques, community referrals and resources.

### Nutrition, Learning and Behavior EDUC-D 390A/690A

Broad theoretical basis of the science of human nutrition and application of the current research work in the biomedical sciences: nutrition, molecular biology, human genetics and behavioral toxicology.

### Decision-Making Processes EDUC-T 590E

Three practical processes for the purpose of improving decision-making skills. Application of techniques and discussion regarding participant's specific decision-making areas. Examples, given by the instructor, are primarily directed to educational administration at the middle and higher levels. Some review of relevant literature. For information call Dr. Margaret M. Metha, 549-1112, after 6 p.m.

### Practicum for School Guidance EDUC-H 701

Field experience under supervision. For students in final part of master's program. Prerequisites: Education 577, 910, and 911. Credit: 6. Course Fee: \$210.

## ENGL 262 C CORE

# the modern novel

*A Clockwork Orange*: Burgess  
*The Lime Twig*: Hawkes  
*The Magus*: Fowles  
*Watt*: Beckett  
*The Invisible Man*: Ellison  
*Catch-22*: Heller  
*A Garden of Earthly Delights*: Oates  
*Henderson the Rain King*: Bellow  
*Temple of the Golden Pavilion*: Mishima  
*Breakfast of Champions*: Vonnegut  
*Arigato*: Condon

Within the context of modernism and its conflicts, English 262, presented in cooperation with the English Department, UMass/Amherst, considers the novel during the period from 1930 to 1970. The influences of theme are studied as they effect realistic and experimental forms of the novel. Themes considered are: innocence (Burgess, Hawkes, Condon); knowledge (Fowles, Beckett); society (Ellison, Heller); nature (Oates, Bellow); and art (Vonnegut, Mishima).

**Seminar: The Role of the Elementary School Counselor**  
**EDUC-H 791C**

Development of the role and rationale for the elementary school counselor. The counselor's role as a change agent in the school environment. Themes and techniques for working with children.

**Seminar: Individual Intelligence Testing**  
**EDUC-H 791D**

Administer, score and interpret the Wechsler Adult Intelligence Scale, the Wechsler Intelligence Scale for Children and the Wechsler Preschool and Primary Scale of Intelligence. Tests administered in the field and complete protocols are submitted for evaluation.

**School Counseling Theory**  
**EDUC-H 910**

Counseling theory and research evaluation. Methodology, philosophies, ethics, problems, and issues of school counseling. Prerequisites: Education 577 and at least one hour of credit in Education 701.

## ENGLISH

**Reading Fiction (C)**  
**ENGL 152**

Introduction to themes and techniques of fiction through a reading of selected short stories and novels with emphasis on structure, style, point of view, and the like.

**The Modern Novel: 1930-1960 (C)**  
**ENGL 262**

Analysis of some 12 novels. A continuation of English 261, but may be elected independently. See ad, page 15.

**Creative Writing**  
**ENGL 341**

Intensive practice in writing prose fiction, poetry, and occasionally other forms, supplemented by discussion of ideas and techniques in contemporary literature.

## ENTOMOLOGY

**Insects and Man (E)**  
**ENT 126**

Survey of the field: structure, development, evolution, classification, biology, and natural control of insects. Formation of an insect collection.

## FOOD SCIENCE AND NUTRITION

**World Food Habits**  
**FS&N 102**

Historical origins, scientific bases, and nutritional implications of current human eating habits throughout the world. Physiological factors, specific taboos, superstitions, prejudices, aversions, cultural factors, influence of modern factors, influence of modern production technology, etc.

## FRENCH

**Elementary French I**  
**FRENCH 110**

For those with no previous creditable training in French. Intensive practice in four language skills.

**Elementary French II**  
**FRENCH 120**

A continuation of French 110. For those with no previous creditable training in French. Intensive practice in the four language skills.

## GENERAL BUSINESS AND FINANCE

**Corporation Finance**  
**GB FIN 201**

Corporate financial behavior; appraisal of factors affecting decision-making regarding sources and application of funds; introduction to capital budgeting and cost of capital problems. Prerequisite: Accounting 120 or permission of the instructor.

**Administrative Statistics**  
**GB FIN 250**

Probability and statistical distributions applied to business management problems; application of Bayes' theorem to sampling for business decision-making under uncertainty.

**Introduction to Law**  
**GB FIN 260**

Nature, functions and limits of law. Various theoretical approaches to law as an important institution in society. Selected problems of law, power and stratification and the relationship of law and values in society. Analysis of the administration of law through legislation, administrative agencies and courts.

## GEOLOGY

**Geology and Man (E) (Amherst & Holyoke)**  
**GEOL 105**

Evidence for selected mineral-forming processes; minerals in industry; developments in mineral research and technology; geologic considerations in such engineering works as mines, foundations, tunnels, waterways and airfields.

**Introduction to Rocks and Minerals (E)**  
**GEOL 191**

General survey of rock-forming minerals, the rock classes, common ore minerals, gem minerals, and semi-precious stones. Not for geology majors, but designed for foresters, landscape architects, archaeologists, botanists, wildlife and natural resources students, and those interested in natural history. See ad, page 6.

## HISTORY

**European History, 1500-1815, with Films (C)**  
**HIST 140**

Historical development of Western European thought and institutions. History majors are strongly urged to take this course before registering for advanced European courses. See ad, page 14.

### New Approaches to the Study of American History (C) HIST 186

Each semester is devoted to analysis of a single event, such as the Lizzie Borden murder case. Opportunity to pose and answer questions through careful and intensive reading in primary sources. See ad, page

### Civil War Era, 1860-1877 (C) HIST 320

How and why the Civil War came about; course and conduct of the war; and the efforts of politicians to put the country back together again. Crucial issues: destiny of white Southerners, fate of blacks, and survival of the nation. Discussion encouraged.

### The City in the Modern United States (C) HIST 337

The industrial city and the full-scale urbanization of the modern United States. Effect of city life on the social, political and economic institutions of America. Historical origins of the problems of modern urban existence.

### HOTEL, RESTAURANT AND TRAVEL ADMINISTRATION

#### Introduction HRTA 100

Orientation to the hotel, restaurant and travel industry. Development of the industry, current trends and opportunities in various sectors. See ad, page 6.

### JOURNALISTIC STUDIES

#### Introduction to News Writing and News Reporting JS 200

News writing and reporting. Lectures, discussions, news reports and guest speakers. Students evaluate events and write concise accounts in journalistic style. Limited to 18 students.

### Introduction to Mass Communication JS 201

Impact of mass media on American life, emphasizing both information and entertainment. Student becomes a more aware consumer of mass media products and becomes familiar with basic techniques of media. Two papers, one evaluating newspapers and one on prime time television.

### Seminar: Public Relations Techniques JS 391D

Basic formats in public relations writing, including news releases, features, profiles, editorials, articles, annual reports, etc. Basic principles and practices in effectively informing the public. Guests include newspaper, radio and television journalists from Western Massachusetts.

### LEGAL STUDIES

#### Introductory Legal Studies LEGAL 201

Exploration of the purpose and functions of law and society: legal reasoning and decision-making; the impact of law; the relationship between power and law, and morality and law; problems of achieving justice in contemporary society. Sociology and problems of the legal professions. Legal phenomena in other than formal law settings.

#### Intermediate Legal Studies LEGAL 202

Relationship of the individual to the state and society. Legal safeguards of personal dignity and autonomy and the limits on personal freedom when it conflicts with social values. Legality and ethics of group action to alter the relationship of the individual to the state.

#### Individualism, Community and Legal Process LEGAL 290D

Community—its genesis, nature and forms, disintegration, and impact on individualism. Contradictions between individualism and community and the role which legal process

Talking to your plants won't solve all their problems. Plants also need scientific care. Learn about plant diseases and their influence on the food supply and the environment with this course taught for the first time through the Division of Continuing Education in cooperation with the Department of Plant and Soil Sciences, UMass/Amherst. Common diseases of local fields and gardens are used to illustrate the mechanisms of disease development and spread. The characteristics of microbial pathogens and their interactions with plants are discussed in terms of various strategies used for control. Professor R.A. Rohde, head of the department, brings 17 years of experience to the teaching of Plant Pathology 100: Plant Diseases and Their Control. Course meets on Wednesday evenings.

# plants have problems, too!

PL PATH 100.

plays in this conflict. Compromises between competing ideologies in the form of modern corporate organization and policy. Prerequisite: Legal 201 or permission of the instructor.

## LINGUISTICS

### Introduction to Linguistic Theory (C)

#### LING 201

The nature of language; an in-depth study of important aspects of the structure of the student's language, viewed from the standpoint of modern linguistic theory. Syntactic problems; some attention to phonology, language acquisition, etc.

## MANAGEMENT

### Principles of Management

#### MGT 201

Fundamentals of the management of organizations: behavioral background of formal organizational life, organizational design, integrating factors in collective behavior, organizational change, systems analysis, techniques of decision-making and control, the organization and its environment, and nature of management theory.

### Personnel Management

#### MGT 214

Principles and policies followed by management in recruitment, development, direction and control of personnel.

### Managerial Behavior (Amherst & Holyoke)

#### MGT 230

Principles of human behavior in organizations; understanding one's self as a person and as a manager; development of interpersonal managerial skills. Prerequisite: Management 201.

### Administrative Theory

#### MGT 231

Principles of administration, modern organizational theories, specialization, functionalization, coordination, planning and control, authority status, leadership, decision-making, communication and power structuring. Prerequisites: Management 201, 230.

## MARKETING

### Fundamentals of Marketing

#### MKTG 201

Role of marketing in economic and social structure. Planning, distributing, pricing and promoting goods and services to consumer and industrial markets viewed as internal activities of the firm, and as shaped by environmental forces.

### Buyer Behavior

#### MKTG 210

Analysis of buyer motivation and buying behavior. Theories of consumer market behavior and models of the decision-making process for winning patronage. Prerequisite: Marketing 201 or permission of the instructor.

### Sales Management

#### MKTG 225

Knowledge and skills in the management of the personal

selling function at field, intermediate and top levels. Planning, time and territory management, supervisory functions and control. Prerequisite: Marketing 201.

## MATHEMATICS

### Algebraic Review

#### MATH 101

Rapid review of algebraic manipulations and definitions utilized in calculus. Common subsets of the real numbers; sums, products, and quotients of polynomials; factoring, rational expressions; exponent and radicals; linear and quadratic equations; radical equations; linear and quadratic inequalities; equations and inequalities involving absolute values. Four class hours for one-third semester. Credit: 1. Course Fee: \$35.

### Analytic Geometry with Elementary Functions

#### MATH 102

Introduction to the function concept and analytic geometry. Relations and functions; one-to-one functions and their inverses; linear, quadratic, and other polynomial functions; exponential and logarithmic functions; lines; conic sections. Prerequisite: Math 101. Four class hours for one-third semester. Credit: 1. Course Fee: \$35.

### Precalculus Trigonometry

#### MATH 103

Introduction to trigonometry, covering topics considered essential for standard calculus. Definitions and graphs of cosine, sine, tangent, cotangent, secant, and cosecant; essential identities; introductory triangle trigonometry. Prerequisite: Math 102. Four class hours for one-third semester. Credit: 1. Course Fee: \$35.

### Mathematics for Business I (E)

#### MATH 120

For School of Business Administration students. Linear and analytic mathematical methods and their applications to business. Linear systems of equations, matrices, vectors, Markov chains, linear programming, derivatives. Credit not given after Math 112, 115, 116, 118, or 167.

### Calculus for the Life and Social Sciences I (E)

#### MATH 127

Introduction to differential and integral calculus. Applications to the life and social sciences. Credit given for only one of the courses 116, 118, 127, 131, 135, 137, 146. Prerequisites: high school algebra, analytic geometry.

## MUSIC

### Introduction to Music (C)

#### MUSIC 101

Basic music materials, principles of design, and cultural significance of representative works from the ninth century to the present. Open to all students not majoring in music. Previous musical training not required.

## NURSING

### Leadership in Nursing (Springfield)

#### NURSE 340

Development of a theoretical base for analysis and integration of organizational behavior concepts in health care settings; leadership styles and effectiveness in nursing; and

Comments:

models of management in the delivery of nursing care. Application to situations derived from the student's experiences with health care organizations.

**Seminar: A Model of the Patient Teaching Process  
NURSE 391A**

Nurse's role as a health teacher—helping patients learn continually to adjust to their disease or conditions in a changing environment. Principles of teaching and learning, basic communication skills; pedagogy vs. androgogy and the wellness-illness continuum.

**Seminar: Communication in Nursing  
NURSE 391B**

Interpersonal relationships of individuals who are seeking health care for problems other than psychiatric, such as medical-surgical patients in a general hospital, or out-patients. Students learn how to conduct structured and non-structured interviews, and develop communication skills.

**Seminar: Common Health Problems of Infants and Children:  
Nursing Care and Management (Springfield) NURSE 391C**

Problem-solving approach in the process of assessing, planning, implementing and evaluating nursing care involving health problems which frequently occur in infants and children. Impact of illness and hospitalization on infants and children and their families.

## PHILOSOPHY

**Introduction to Philosophy (C)  
PHIL 105**

Some of the most important general questions, ideas, theories, and methods of inquiry which have given direction to Western thought.

**Ethics (C)  
PHIL 110**

Classical and contemporary theories concerning policy formation and justification of personal decisions and ways of life.

**Plato and Aristotle (C)**

**PHIL 201**

Major works of Plato and Aristotle in ethics, logic, and metaphysics; systematic character of their thought and its contemporary relevance. Prerequisite: one course in philosophy.

## PHYSICS

**Introduction to Physics: The World Beyond Our Senses (E)  
PHYSIC 100**

The universe in terms of its basic building blocks—atoms, nuclei, and "elementary particles." New views of nature derived from the ability to see and measure the world of the very small.

## PLANT AND SOIL SCIENCES

**Basic Plant Science (E)  
PLSOIL 100**

Introduction to the study of crop plants: soil, mineral nutrition, physiological principles and environmental factors related to the growth and development of economic crops.

**Landscape Maintenance  
PLSOIL 190X**

Home outdoor maintenance: care of lawns, fruit and shade trees, shrubs and flowers. Home landscape development: planting, pruning, use of fertilizer and mulching. *Not open to Plant and Soil Sciences majors.*

**Small Fruit Technology  
PLSOIL 205**

Principles and modern practices involved in the culture of strawberries, highbush and lowbush blueberries, fresh market and wine grapes, raspberries, apples, pears, peaches and cherries. For both the home gardener and those interested in commercial production.

# Introduction to the Polish People

*Introduction to the Polish People*, offered in cooperation with the Slavic Languages and Literatures Department of the University of Massachusetts/Amherst, attempts to satisfy the needs of Polish-American students searching for their roots. In addition, the course deals academically with a major immigrant group which has played an important role in the development of the United States since 1608. Lectures emphasize Polish History, history of the Poles in America, folk arts and crafts, folk traditions, as well as the fine arts. The course includes the history of Poland in the 16th and 17th centuries, the Golden Age, and Poland's early struggle for political and religious freedom.

**POLISH 290C**

## PLANT PATHOLOGY

### Plant Diseases and Their Control PLPATH 100

Occurrence and importance of plant diseases in the production of plants for food, clothes, shelter and beauty. Infectious agents and environmental factors, and principles of their control. See ad, page 17.

## POLISH

### Introduction to the Polish People POLISH 290C

Survey of Polish civilization with lectures, slides, film, exhibits and demonstrations. No knowledge of the Polish language required. See ad, page 23.

## POLITICAL SCIENCE

### Public Administration (D) POLSCI 223

Organization of bureaucracy, bureaucratic life, constitutional position and political role of governmental bureaucracy.

### Political Theory and Public Policy (D) (Holyoke) POLSCI 226

Social policy in the United States. Normative issues raised in controversies over selected cases of social and economic policy in the light of main traditions of Western political thought and of recent work on logical and ethical aspects of social choice.

### Constitutional Law (D) POLSCI 260

The United States Supreme Court and leading cases interpreting the United States Constitution.

## PSYCHOLOGY

### Elementary Psychology (D) PSYCH 101

Introduction to the basic approaches and concepts of modern psychology. Examples from the areas of perception, conditioning, cognitive processes, social behavior, tests and measurement, and personality.

### Psychological Methods (D) PSYCH 141

Introduction to the ways questions about behavior are formulated and then tested through experiments. Lectures and laboratory experiences involving concepts from many areas of psychology expose psychology majors to procedures utilized in designing, conducting and reporting experiments. Prerequisite: Psychology 101.

### Sensation and Perception (D) PSYCH 210

Methods, data and theories of the functioning of various sensory systems. Surveys basic sensory processes in cutaneous sensation, audition, vision, gustation and olfaction; and higher perceptual processes in selected senses. Prerequisite: Psychology 101.

### Child Behavior and Development (D) PSYCH 260

Psychological development of the child, including theories, methods and data of child behavior studies. Prerequisite: Psychology 101.

### Social Psychology (D) PSYCH 280

Introduction to the principles and study of social behavior. Psychological factors involved in attitude formation and change, communication and persuasion, and small group processes. Prerequisite: Psychology 101.

### Theories and Practice in Counseling PSYCH 365

Theories, techniques and tests necessary in counseling and guidance. Practice in organizing and evaluating relevant data in the analysis of illustrative cases. Prerequisite: Psychology 270, or 311, or permission of the instructor.

### Seminar: Community Mental Health (Holyoke) PSYCH 391J

Review of the origins of the community mental health movement in terms of the shortcomings of traditional mental health models and the development of new approaches. Examination and evaluation of specific community mental health programs: crisis intervention, early detection, use of paraprofessionals, prevention of emotional disorder, environmental interventions, social change and social networks.

## RHETORIC

### Language and Writing (B) RHET 100G

Basic language behavior course: writing, editing and rewriting to attain clarity in the use of words, syntax and organization. Subject matter is interdisciplinary. **Note:** This is *not* a remedial writing course. It will begin at a more elementary level than other Group One courses, but will develop in rapid sequence to accomplish the same goals as other Rhetoric 100 courses.

### Language and Speaking (B) RHET 110A

Interpersonal and public communication: selection, arrangement and development of ideas and materials for oral communication; the use of language for conveying meaning, thinking, reasoning, problem-solving and decision-making; analysis of audience attitudes and beliefs; identification of purpose and assessment of effects of communication; ethical considerations in influencing others; and evaluation of one's own and others' public messages.

## SOCIOLOGY

### Self, Society and Interpersonal Relations (D) SOCIOL 105

Introduction to basic concepts, perspectives and data in sociology, via the approach of social psychology. Relationship between individual, group and society. Socialization, social roles, social interaction, dynamics of small groups, the self, attitudes and language and communication.

**Higher Education in America (D)****SOCIOL 224**

Organizational context within which undergraduate and post-graduate education take place. Historical and international comparison, with review of discussions of individual development. Higher education in its broader relationship to other human activities.

**Social Movements (D)****SOCIOL 246**

Analysis of structure, dynamics and significance of both political and religious social movements, particularly in modern society. Effects on a social movement of leadership, ideology, member commitment and control and opposition.

**Deviance and Social Order (D)****SOCIOL 250**

Relationship between deviance and the maintenance of social order. Sociological theories of individual and sub-cultural deviance, with emphasis on the role of agents of social control in the definition of categories of deviance and in the selection and treatment of deviants. Primarily for upper division students. Prerequisite: at least one other Sociology course, preferably at the 100 level.

**Background to the Study of Social Welfare (D)****SOCIOL 292**

Historical development and current status of British and American concerns about poverty in the context of the Industrial Revolution. Sociological perspectives concerning differentials in the access to economic security and social rewards. Problems of measurement and planning related to social policies.

**SPANISH****Elementary Spanish I****SPAN 110**

For students with no previous creditable training in Spanish. Intensive practice in language skills. To fulfill the language requirement, most students are required to continue by taking Spanish 120, 130, 140.

**STATISTICS****Elementary Statistics (E)****STATIS 121**

Selected topics in elementary probability and statistics: discrete models for chance experiments, conditional probabilities; "odds" and betting schemes, combinatorics, averages and standard deviation, random sampling, binomial and normal distributions, regression, statistical inference, chi-square test. Students who intend to use statistics as a research tool, but who do not have a calculus background, should elect Statistics 231, 232. Students with a calculus background should elect Statistics 315, 316.

**WOMEN'S STUDIES****Introduction to Women's Studies (Holyoke)****WOST 190**

Women's lives and the history of women's experiences from a variety of perspectives. Included are works of Betty

Friedan, Shulamith Firestone, Gornick and Moran, Joyce Ladner, Sheila Rowbotham, Ann Oakley, Simone de Beauvoir, and an anthology of feminist papers edited by Alice Rossi.

**The English Woman, 1815-1914****WOST 290C**

Changes effected in the lives of women by 19th century industrialization and urbanization. Includes love, marriage and divorce; education; childhood; class issues; politics; roles of famous women; and Feminism.

**ZOOLOGY****Introductory Zoology (E)****ZOOL 101**

Principles of zoology including cell structure and metabolism, heredity, development, behavior, evolution, ecology, and anatomy and physiology of major groups in the animal kingdom. Background for understanding current biological problems. Two class hours, one three-hour laboratory.

**Scientific Illustration****ZOOL 286A**

Introduction to basic techniques and development of skills necessary for creation of scientific illustrations for use in technical papers and teaching aids. Appreciation of the field of scientific illustration. Some background in basic design is helpful.

**STAY WITH IT!**

## BY ARRANGEMENT

*NURSE 391C/Common Health Problems of Infants and Children: Nursing Care and Management*

*Courses appearing in italics are to be held in Springfield; exact location to be announced.*

*Courses appearing in bold are to be held at Holyoke Community College; check Schedule of Courses for exact location.*

Can potato bugs read? Why do moths run into streetlights? Why do mosquitoes always seem to attack when we are trying to sleep? Do the ugliest lady cockroaches become wall flowers? Are insects sexier than humans? Is the only good bug a dead bug? Entomology 126 studies the answers to these questions as well as the widespread effect of insects on human life and well being.

NOTES....

## PROGRAM ALTERNATIVES

The Division of Continuing Education, in association with the University of Massachusetts/Amherst, offers both credit and credit-free learning experiences to adults who are interested in continuing their education. While activities of the Division can range from one-day intensive learning seminars to degrees for working professionals who want to pursue their education on a part-time basis, all the learning experiences provided by the Division have, in common with University courses, high academic standards.

Because the adult learner pursuing an education on a part-time basis does not have ready access to the informal support and information sources available to full-time students on the University campus, the Division's Student Services staff of trained professionals are available to provide academic counseling and information referral to Continuing Education students. These professionals help students design transdisciplinary degree programs, investigate specialized educational resources both on and off campus, and arrange for credit by examination or for prior experience when appropriate.

Perhaps the most valuable asset of the Division of Continuing Education is its recognition of the need to integrate the adult students's learning experiences with his or her on-going professional workday activities. The adult learner is a demanding and time conscious student who will not accept less than top quality from professionals who know their field and are able to communicate their expertise efficiently and effectively. The Division prides itself on its ability to satisfy the educational needs of a quality-conscious adult clientele by designing and delivering educational programs that respond to students' needs.

### The Continuing Education Unit

The Division of Continuing Education offers a number of programs which provide regular academic credit applicable to a degree, but other programs offered through the Division are designed with ends other than a degree in mind. These programs are designed for in-service training in a particular field of work, whether in industry or the professions.

The Continuing Education Unit provides a record of participation in programs specifically designed for in-service training. One Continuing Education Unit (CEU) represents ten contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction. Any CEU's earned while attending an approved program at the University of Massachusetts will be recorded on student transcripts by the Division of Continuing Education. CEU's are generally transferable from one institution to another.

## ARTS EXTENSION

The Arts Extension Service is a community development program which works to meet the needs of continuing education in the arts. One objective of the AES is to help develop effective and self-sufficient community arts organizations.

Activities include: consulting services in technical and management problems; workshops in community arts management and group dynamics; projects servicing the arts interests and needs of older people, inner city people, rural communities and other special interest groups; maintenance of the Arts Directory, a listing of regional artists; a series of arts seminars and conferences; a booking referral service for artists; Communities to Campus, a program aimed at making UMass/Amherst campus events more available to communities, and "The New England Artists Festival and Showcase", which brings the art and performance talent of western Massachusetts together for a major two-day celebration.

AES also serves as an arts reference center, providing information about and assistance with arts activities and services in western New England.

The Arts Extension Service publishes:

- The Arts Directory
- Arts Festivals; A Work Kit
- The Logo Handbook
- The AES News

For information contact Arts Extension Service, Hills House North, University of Massachusetts, Amherst, MA 01002, (413) 545-2013.

## GREAT DECISIONS

Great Decisions is a nationwide program with worldwide concerns. It is sponsored by the Foreign Policy Association, a national, nonpartisan, nonprofit organization. Though the program has been in operation for 21 years, this is the first time that it will be coordinated on a statewide basis in Massachusetts. Stan Rosenberg of the Division of Continuing Education will be responsible for coordination, which will include help with materials, hints on how to organize groups and acting as distributor of the FPA booklets to be used in the program.

Great Decisions involves the formation of informal community-based discussion groups, operating autonomously and at an appropriate level and pace. These groups will provide the means by which individuals can explore perspectives on eight key issues of importance to the U.S. and the world. This year, the eight issues are: Arab vs. Israelis; Our Mediterranean Commitments; Latin America and the U.S.; Asia After the Vietnam War; The American Dream Among Nations; The U.S. in the World Economy; India; and Rethinking U.S. Foreign Policy.

For more information about the statewide coordinating effort, or for help in planning a group or participating in one, contact Lin Maria Riotto, Division of Continuing Education, Hills North, UMass/Amherst, phone (413) 545-3410. For registration information see ad in this catalog.

## LIBRARY SCIENCE PROGRAM

The Division of Continuing Education, by arrangement with the University of Rhode Island, offers Library Science courses each semester which may be applied to a University of Rhode Island Master's degree in Library Science.

The MSLS degree requires 36 hours of credit, including six hours of electives. Half of the requirements for the degree may be completed through extension before the participant continues in residence at the University of Rhode Island's campus in Kingston. In order to be eligible for the degree program, students must possess a Bachelor's degree from an accredited college or university with an average of B or better. It is not necessary to be enrolled in the full degree program to receive credit for the courses, although a Bachelor's degree is still required.

Persons interested in further information about application procedures for the full degree program should contact the Dean's Office, Graduate Library School, University of Rhode Island, 74 Lower College Road, Kingston, R.I. 02881, telephone (401) 792-2947. Registration for individual Library Science courses is done through the Division of Continuing Education.

### Fall 1976 Library Science Courses

#### LSC 505\* Cataloging and Classification

Introduction to the principles and practices of descriptive and subject cataloging and classification, using the Dewey Decimal classification and Sears subject headings. Introduction to the Library of Congress classification. Emphasis is on books and book-like materials in libraries of various kinds. Tuesday, 7-9:30 p.m. Fay Cipkowitz. Three credits. Course Fee: \$140.

#### LSC 528\* Multi-Media and the Library

The role of A-V materials in media centers and other types of libraries. Prerequisite: LSC 520. Tuesday, 4-6:30 p.m. James Kenny. Three credits. Course Fee: \$140.

\*All Library Science courses are listed in the **Schedule of Courses** under CONTED. For registration purposes, use the **Schedule of Courses** for course names and registration numbers.

## TEACHER EDUCATION PROGRAM

The Division of Continuing Education in cooperation with the Teacher Education Council (TEC) of the School of Education, offers a program for post-baccalaureate students that leads to teacher certification in elementary and secondary education. Most of the Teacher Education Programs require a two semester commitment. Coursework is taken the first semester and student teaching is completed the second semester. Unfortunately, we do not have a summer program at this time. It should be noted that this is *not* a graduate program. It is designed *only* for teacher certification.

### Teacher Education Programs

### Admission

In order to enroll in any certification program, all applicants must have a bachelor's degree and must be selected by the Coordinator of Post-Baccalaureate Programs as well as by the programs for which they are applying. Applicants need: (1) a formal application form, (2) two letters of recommendation, (3) official transcripts, (4) interview by the Coordinator of Post-Baccalaureate Programs.

During the interview, applicants should determine the amount of course work required and student teaching site information. Once applicants have been formally accepted to specific programs, they must return to the Coordinator for finalizing the admissions process and for registration counseling.

### Registration and Fees

Registration and fees are handled through the Division of Continuing Education. The course fee is \$105 per three-credit course plus the usual registration fees. Students enrolling in this program will be governed by the administrative policies of the Division of Continuing Education; all academic policies and standards of the University and the School of Education will apply.

Can you say,  
"No onions, please,"

in French, Italian,  
Spanish or German?

Credit-Free language workshops will help you get along in a foreign country. These workshop descriptions begin on page 36.

## Program Application

For further information and an application form, write to Bernadine Freese, Division of Continuing Education, University of Massachusetts, Amherst, Massachusetts, 01002. Application deadline, April 1 for fall semester and November 1 for spring semester. Late applications will be considered on a space-available basis.

## Second Bachelor's Degree Program

The purpose of the Second Bachelor's Degree Program is to offer to those students who have earned a bachelor's degree the opportunity to do *part-time*, undergraduate study in a field unrelated to previous degree studies. The program is available: 1) as a route for those students who want to complete a prerequisite, undergraduate major in an area different from their first bachelor's degree study in preparation for graduate studies; or 2) as a route for those students who do not need to do graduate studies in order to meet job/career requirements or changes, but who do require additional education.

Write to Bernadine Y. Freese, Coordinator, Post-Baccalaureate Programs, Continuing Education, 105 Hills North, UMass., Amherst, 01002 for counseling and application.

The deadlines for applying are October 1 for the Spring and March 15 for the Fall. Late applications will be considered on a space-available basis. All academic policies and standards of the University, as well as the Division of Continuing Education, will apply.

## TECHNICAL GUIDANCE CENTER

The Technical Guidance Center for Environmental Quality functions as an environmental outreach program providing educational resources to the general public. These resources include books, periodicals, and governmental reports, as well as film listings and directories on the Center's areas of interest which focus on pollution, energy sources and conservation, natural resources development and environmental standards and controls.

The Center also provides information services, its own publication, *TGC Bulletin*, and a regular radio program, *environmental Monitor*, broadcast over station WFCR, 88.5 FM, Tuesdays at 12:45 p.m.

The Technical Guidance Center is developing a series of community environmental programs for children and adults. Offerings will provide a better understanding of how environmentally related decisions affect all of us. The emphasis will be action oriented in an attempt to equip citizens and community groups with ways to interact responsibly in the decisionmaking process. Subject areas will include: Policy and Future Alternatives, Assessing Science and Technology, Environmental Studies for Children, Ecological Principles Simplified, Strategies for Citizen Participation, and the Function of Conservation.

Other activities of the Technical Guidance Center are work-related programs to be designed to advance competence in special areas of concern in response to the needs of professionals. A survey of in-service teachers is being conducted to prepare for the offering of courses in environmental studies appropriate to teachers' needs. In addition, workshops and symposia will focus on timely topics relevant to changes

in environmental fields.

The Technical Guidance Center is located at 317 and 321 Hills North, University of Massachusetts, Amherst, Massachusetts, 01002, or phone (413)545-0347.

## WINTERSESSION

For the past four years, the Division has supplemented the University's programming during the interim period between fall and spring semesters, a period now called Wintersession. Next winter, the Division will offer a small number of both credit courses and credit-free workshops during a three week period from January 3 to 21. The Wintersession catalog will be ready during the fall, 1976, semester. Interested students may write to: Wintersession, 1977, Box 835, Amherst, MA 01002.

# CREDIT-FREE WORKSHOP PROGRAM

*The Credit-Free Workshop Program is a series of workshops offered by the Division of Continuing Education specifically for persons interested in expanding their skills, furthering their careers, improving their community life, or partaking of the expertise offered by others, usually experts and teachers in their fields. The workshops are for those for whom academic credit is not a priority.*

## Admissions

The Division of Continuing Education has an open admissions policy with regard to the Credit-Free Workshops it offers. Interested persons may enroll for as many workshops as they wish without concern for their educational background.

### Sixty-five and Over Policy

Persons aged 65 and over may register, free of charge, on a space-available basis, for any Credit-Free Workshop. Please call the Records Office, 545-3653, for further information.

## Mail Registration

To register by mail complete the workshop registration form included in this publication, and mail with full payment to:

Credit-Free Workshops, AE76-30  
Division of Continuing Education  
P.O. Box 835  
Amherst, MA 01002

Make checks payable to: Continuing Education, AE76-30. In addition to the workshop fee, all registrations must include a \$5 registration fee, charged once. When registration meets the minimum number, registrants will be notified immediately by mail with a class card which includes notice of the meeting place.

## In-Person Registration

After September 17, walk-in registrations will be accepted on a space-available basis. Come to the Continuing Education Records Office located in the lobby of Hills House. Office hours are:

*Monday-Thursday, 8:30 a.m.-7 p.m.*

*Friday, 8 a.m.-5 p.m.*

*Saturday, 10 a.m.-1 p.m.*

Enrollment in all workshops is limited to a number that is manageable and acceptable to each instructor, therefore early registration is encouraged. When requests for a workshop exceed the number to be enrolled, the Division will attempt to arrange for an additional section. Names of registrants will be placed on a waiting list in the order in which they are received.

## Fees

Credit-Free Workshops are self-funding and, in general, fees have been computed on the basis of the number of contact hours which a workshop meets. In order to make each workshop self-supporting, a minimum number of enrollments is usually necessary. Fees are included in the workshop descriptions beginning on the next page.

## Refund and Withdrawal

Full refund will be made by mail if a workshop is cancelled due to underenrollment.

If a student wishes to withdraw from a workshop, the Records Office must be notified in writing by mail, or in person during the regular office hours. Notifying the instructor or ceasing to attend class does not constitute official withdrawal. There will be an 80% refund for official withdrawal *after* the first workshop meeting and *before* the second meeting. There will be a 60% refund after the second workshop meeting, and before the third. After the third workshop meeting, there will be no refund.

### Refund Schedule

#### After:

|                |           |
|----------------|-----------|
| First meeting  | 80%       |
| Second meeting | 60%       |
| Third meeting  | NO REFUND |

### Exceptions

There are NO REFUNDS for workshops with schedules covering less than three weeks unless withdrawal is effected prior to the beginning of the workshop. In cases of withdrawal prior to the beginning of a workshop, a full refund will be processed once the Records Office is notified in writing or in person.

## Cancellations

The Division of Continuing Education reserves the right to cancel, postpone, or combine workshops and to change instructors.

## Workshop Locations

Workshops will take place in Amherst. Exact locations will be announced by mail once students have registered.

## Reading Material

Reading material information may be obtained from the instructor on the first night of the workshop. Required books may be obtained at the University Textbook Annex; for hours, see **Textbooks** in this catalog.

## Supplies

Some workshops require supplies which are to be paid for by each participant if he or she chooses to have them. The estimated cost of these supplies is listed at the end of the workshop description. Since expense money is estimated and optional, it is not to be included in workshop and registration fees, and students should not pre-pay.

CREDIT-FREE REGISTRATION  
FORM MAY BE FOUND ON  
PAGE 22, IN THE CENTER  
SECTION OF THIS CATALOG.

# WORKSHOPS

## ARTS & CRAFTS

### Cartoon Art

**Brian Turner: Cartoonist**

Development of style and technique in graphics, and story-telling in comics and cartooning. Differences among political, underground, gag, parody, strip, and other forms. Explication of history and recent technical/artistic developments. Use of tools, marketing, and some attention to animation, children's illustration, etc., as requested by participants. Recommended reading: Steranko, *History of the Comics*; and J. Robinson, *Comics*. Ten weeks, Monday, 7-10 p.m., \$60.

### Circus Arts

**Hemlock Robinson: Professional Performer**

Develops abilities in the field of circus arts with focus on exercise, juggling, mime, and character development. Develops individual's ability to integrate and perform acquired skills; critiques; possible group show at the end of the workshop. Ten weeks, Monday, 7-9 p.m., \$40.

### Colonial Restoration and Interior Decorating Ideas

**Stephen A. Olivo, Jr./Victoria L. Olivo: Contractor, Interior Designer**

Restoration and interior decorating with a personal emphasis. The why's, how's, and what's of recreating the look of colonial times in a workable, modern lifestyle. Field trips to homes restored by the instructors achieve a closer look at reasonably authentic and affordable restoration. Students learn the key to imaginative but simple Early American decorating, and the textures, moods, and settings of Colonial New England. Ten weeks, Thursday, 7-9 p.m., \$40.

### Crewel and Creative Stitchery

**Agnes Moustakis: Certified Teacher of Needlework**

Techniques of transferring patterns and use of 20 different

stitches (advanced stitches for advanced students). Color, balance, and design stressed. Application to a selected piece carried through to blocking and completion. Expenses are \$8-\$12. Ten weeks, Tuesday, 7-10 p.m., \$60.

### Matting and Mounting Fine Art Work

**Betsy Morris: M.F.A.**

Choosing the color, texture, and size of a mat or mount for drawings, photographs, prints, watercolors, and other works, and then cutting and assembling the finished work. Participants hear lecture and demonstration at first meeting; prepare art mat or mount at second meeting. Expenses are \$5. Two weeks, Saturday, 9:30-11 a.m., \$6.

### Patchwork: A Busy Person's Approach

**Victoria Olivo: Designer**

The use of patchwork in making quick, inexpensive changes in one's home and clothing in minimum amount of time. Includes patchwork quilts that can be sewn in two weeks; pillows, pot holders, samplers, and other small color spots for the home; and application of calico on clothing using recycled material such as denim. Knowledge of sewing machine necessary. Three weeks, Tuesday, 7-9 p.m., \$12.

### Pottery

**Fred Englander: Potter**

Introduces use of the potter's wheel and handbuilding techniques; discussion of clay and glaze chemistry. Stoneware clay and glazes fired in a reduction atmosphere to cone 10. Includes opportunity to fire eight pots. Additional pots may be fired for a minimal fee. Expenses are \$5. Ten weeks, Tuesday and Thursday, 7:30-9:30 p.m., \$80.

### Upholstery

**Walter Rupp: Upholsterer**

Students learn step by step reupholstering procedure of typical piece of furniture. Demonstrations enable students to work independently. Questions and problems handled on an individual basis. Expenses are \$10. Ten weeks, Wednesday, 6:30-9:30 p.m., \$60.

## CULTURING THE MIND - BODY

### Buddhist Insight Meditation

**Eric Lerner: B.A. Harvard, Sanskrit and Indian Philosophy; Writer; Meditator**

Insight meditation is neither a religion, nor a philosophy. Through the development of powerful concentration, Insight Meditation enables the student to experience first-hand the ever-changing nature of the self, leading to a state of non-judgement and non-reaction. Equanimity and freedom from compulsion allow being in the present moment totally. Like Zen but exercises are more concrete. Theory is taught only as it relates to actual practice. Recommended reading: Nyanaponika Thera, *The Heart of Buddhist Meditation*, Samuel Wiser Co., N.Y. Ten weeks, Tuesday, 7-10 p.m., \$60.

### Creative Movement

**Deborah Waldron**

Includes improvisation, alignment, relaxation exercises, dance therapy, massage, and physiology. Feel better, stronger and stretch out. Designed for the individual who wants to feel a balanced energy in the self and in relation to others. Recommended readings: G. Downing, *The Massage Book*; and M. Todd, *The Thinking Body*. Ten weeks, Wednesday, 7-9 p.m., \$40.

**The Tarot: An Introduction to its Psychology and Symbolism****Paul Zelle: M.Div., M.A.**

Basic techniques of meditation using the archetypal Tarot card symbols. Detailed analysis of the Tarot symbols and their relationship to everyday life. History of the Tarot, modern profane practices, such as fortune telling, and current misconceptions. Students make Tarot cards. Expenses are \$3 for cards. Ten weeks, Tuesday, 7-9 p.m., \$40.

**Yoga (Hatha) and Beyond: Beginning****Yael Ariel**

The Yoga system of health through physical and mental disciplines is designed to help improve body fitness and appearance as well as body awareness. Work with the body as a whole, concentrating on each individual part; and learn how to integrate Hatha Yoga into life to enhance health, fitness, and general feelings of well being. Eight weeks, Monday, 6:30-8 p.m., \$30.

**Yoga (Hatha) and Beyond: Intermediate****Yael Ariel**

Brings students to their best possible performance of the Yoga postures. Develops deeper understanding of the body and its behavior, and integrates Yoga into life to enhance health, fitness, and general feelings of well-being. New postures and meditation. Prerequisite: Yoga I. Eight weeks, Tuesday, 6:30-8 p.m., \$30.

**EAST WEST INTEGRAL STUDIES**

*The East West Integral Studies Program is a group of workshops designed to be a means of sharing knowledge and skills with one another. Presented in Amherst by the Division of Continuing Education in association with the East West Foundation, located in Boston, the Integral Studies Program covers a broad range of subjects from both East and West, including practical study and experience, along with the underlying principles and theory. It is our hope that the Integral Studies Program will help provide the understanding and practical means for the creation of health, happiness, and freedom through the development of a wholistic view of life.*

**Acupuncture Massage: Introduction****Ken Burns: Specialist in Oriental Medicine and Philosophy, Teacher of Shiatsu Massage and Acupuncture Massage, East West Foundation**

Acupuncture (Shiatsu, or finger pressure) massage, unlike Swedish massage, aims at treating illness or imbalance within the body by re-adjusting the flow of ki or life energy along the acupuncture points and meridians. Requires no specialized knowledge or instruments, and has been commonly practiced in the Orient for thousands of years. Workshop covers basic oriental methods of diagnosis and how to locate important points. Students learn to give a complete massage. Suggested reading: Michio Kushi, *Acupuncture and Ancient and Future Worlds*; George Ohsawa, *Acupuncture and the Philosophy of the Far East*; Ilza Vieth, *The Yellow Emperor's Classic of Internal Medicine*. Eight weeks, Monday, 6:30-9:30 p.m., \$50.

**Acupuncture Massage: Intermediate****Ken Burns**

Offered for those who completed the introductory course in Massage presented at UMass. Presents refinement of massage technique, preparing students to practice and teach the

art of Massage. Recommended reading: same as for beginning workshop. Prerequisite: completion of Acupuncture Massage I. Eight weeks, Tuesday, 6:30-9:30 p.m., \$50.

**Macrobiotics and Oriental Medicine: Introduction****Rod House: M.A., Art Education; East West Foundation**

Basic introduction to several areas of macrobiotics and oriental medicine: principle and application of Yin and Yang cosmology to phenomena on several levels; principles of diet and daily food; ecology, including the relationship of natural agriculture, wild plants, specific environment and its relationship to man; acupuncture, how and why it works, specifically Shiatsu, the art of hand-finger-foot pressure on points; general classification of major diseases and dietary relationship; introduction to consciousness, perception and creative preception; visual diagnosis; general introduction to "Do-In" (Self Massage) and Te Ate (Palm Healing). Recommended reading: Michio Kushi, *Teachings of Michio Kushi*, Volumes I and II. Eight weeks, Thursday, 6:30-9:30 p.m., \$50.

**Macrobiotic Cooking: Introduction****Janet Sadler: East West Foundation**

The practice of macrobiotic cooking reflects that health, spirituality and happiness depend on the quality of blood, and that is in turn determined by daily food. Introduces preparation of whole, natural foods. Emphasis on the balance of yin and yang in everyday eating, from season to season and for individual needs. Instructor demonstrates the use of basic, traditional foods in grain, bean/vegetable, soup, bread and dessert dishes for varied, delicious everyday meals. Recommended readings: Abehsera, *Cooking for Life*; Farmilant, *Macrobiotic Cooking*; Ohsawa, *The Art of Just Cooking*; Teeguarden, *Freedom Through Cooking*. Eight weeks, Saturday, 10 a.m.-1 p.m., \$50.

**Oki Yoga****Chuck Brummer: East West Foundation; Oki Yoga Institute**

Introduces students to Oki Yoga's practical methods of mind-body development and natural healing based on ancient Oriental philosophy. Various physical and mental exercises designed for relaxing, strengthening and purifying the body and mind are demonstrated and practiced. Includes how to correct poor posture, heal disease and eliminate tension, fatigue and worry through yoga practice. Zen meditation is investigated and Zen techniques are practiced. Traditional yoga postures and deep breathing as well as Hara (the body's central balance point) exercises included. Recommended readings: W. Durkh. *Hara*; Masahiro Oki, *Practical Yoga*. Eight weeks, Saturday, 9 a.m.-12 noon, \$50.

## Get acquainted with the writer inside you.

Learn to write well.  
Take a workshop  
designed  
specifically to  
help you to write  
as you were meant  
to write. See its  
description  
on page 37.

**The Art of Palm Healing and "Do-In" (Self Massage)****Woods Johnson: East West Foundation**

Covers the formation of the body and its organs. Includes larger influences, such as the constellations and the universal spirals that create us. Diagnosis of major and minor illnesses with the simple and practical practice of Palm Healing and "Do-In". Relationships between the shape of the human body and external phenomena. Recommended readings: Michio Kushi, *Teachings of Michio Kushi*, Volume I; Jacques de Langre, *The First Book of Do-In*. Eight weeks, Thursday, 6:30-9:30 p.m., \$50.

**DANCING****Ballet I-II****Ellen Patton: Dance Major; University Dancers**

Beginning ballet. Advancement includes learning some advanced technique. Attendance stressed. Ten weeks, Tuesday and Thursday, 7-8:30 p.m., \$60.

**Modern Dance: Beginning****Donna Lee Potter: Dance Major; University Dancers**

Provides awareness of body, increases control, flexibility and stamina through the Alwin Nikolais dance technique. Focus is on discipline and pure enjoyment of movement. No previous dance training necessary; consistent attendance encouraged. Ten weeks, Monday and Wednesday, 7-8:30 p.m., \$60.

**Tap Dancing: Beginning****Janny Densmore: Performer**

For those who have had little or no tap-dancing experience. No special talents are necessary, because anyone who wants to can learn to tap dance. Basic steps of tap are combined into routines. Emphasis on moving in rhythm to musical selections from the 30's and 40's. Open to all prepared for vigorous fun. Expenses are \$3-\$10 for taps or tap shoes. Ten weeks, Wednesday, 6-8 p.m., \$40.

**ENVIRONMENT****Alternative Energy: Methane Gas From Waste****Les Auerbach: Author; Consultant**

Focuses on the concepts, ideas and processes necessary to develop an alternative source of energy (methane) as part of a planned, environmentally sound, integrated life support system. Students plan, design and construct a working methane generator. Lectures, discussions and research help students apply theory to individual situations. Expenses are \$10. Ten weeks, Wednesday, 6:30-9:30 p.m., \$60.

**From the Ground Up: Landscaping and Grounds Maintenance for the Homeowner****Susan J. Roy: B.S., Plant and Soil Sciences; Arborist**

Basic horticultural principles in solving common problems that arise when landscaping. Discussions include selection and care of trees and shrubs, lawns, ground covers and mulches, maintenance of plant material, fertilizer and pesticide use, basic pathology and entomology. Not intended as a highly technical course for a practicing landscaper. Includes related topics, such as the physiology of roots, plant growth tendencies and the properties of soil. Ten weeks, Monday, 7:30-9:30 p.m., \$41.

**FOREIGN LANGUAGES: CONVERSATION**

*The following language workshops concentrate on the functional and basic aspects of speaking a foreign language. All are guided by one basic rule: to develop a practical working knowledge of a language, with a view toward getting along in the country of its use. To this end, the fundamental necessities are emphasized, including manners, customs, travel, hotels, and common phrases and expressions. The grammar presented is elementary. No previous knowledge of the language is required, though those with some are also welcome.*

**Conversational French****Elise Jouard Mullen**

Intensive workshop is designed for travelers to French-speaking countries. Ten weeks, Wednesday, 7-9 p.m., \$42.

**Getting Along in German I****Renate Krug v. Nidda: M.A.; Ph.D. Candidate**

Deals primarily with spoken German, with phrases and expressions needed to feel at home in another country. Ten weeks, Wednesday, 6:30-8:30 p.m., \$43.

**Getting Along in German II****George Vaught: Ph.D. Candidate**

Designed for those who have had some German in the past and who want to brush up. Brief review of elementary grammar. Ten weeks, Thursday, 7-9 p.m., \$43.

**Conversational Italian****Anthony Terrizzi: Professor of Italian**

Intensive workshop for travelers to Italy. Required reading: Hall and Bartoli, *Conversational Italian*. Ten weeks, Wednesday, 7-9 p.m., \$40.

**Conversational Spanish****Kathleen MacIntosh: Ph.D. Candidate**

Designed for those who want to learn to read and to understand the language basics. Ten weeks, Monday, 7-9 p.m., \$43.

**INSTRUMENTAL MUSIC****Folk-Guitar Finger-Style: Basic****Vincent Mitchell**

Covers reading guitar music, guitar care, tuning, tablature, basic theory as related to the guitar, chording, various finger-picking styles, and back-up picking, each class featuring a new song from traditional and contemporary folk music. Prerequisite: steady access to guitar and practice time. Ten weeks, Monday, 7-9 p.m., \$42.

**Instrumental Folk-Rag Guitar: Intermediate****Vincent Mitchell**

Delves into fingerpicking arrangements of folk and ragtime songs for guitar: John Hurt, Fahey, Scott Joplin, and others. Includes music reading review, theory, guitar chording system, back-up picking, position scales, listening, playing and basic transcription. Students must know how to read music for guitar, and be familiar with basic chording. Ten weeks, Tuesday, 7-9 p.m., \$42.

## LANGUAGE, LITERATURE & WRITING

### Creative Self-Stimulation for the Writer

**McKinley Moore: M.F.A.**

Deals with the psychology of creativity and the mechanics of writing. Using techniques to explore the senses, the memory, and the associative processes, the writer learns to stimulate and channel experiences into dynamic imaginative complexes. Questions of style, voice, and personality are considered; writings receive in-depth literary evaluations. Ten weeks, Tuesday, 7-9:30 p.m., \$52.

### Grantsmanship

**Nancy Mitiguy: Associated Foundation, Boston**

Although proposal-writing provides the focus, discussions also include program planning, setting objectives, budget preparation and identification of potential funding sources (public and private). Individual needs can be met. In small groups, participants write short proposals and present them for criticism. Participants are asked to bring 15-20 copies of brochures and proposals currently being used by their agencies. Workshop is designed for staff of non-profit agencies and is not applicable to individuals seeking funds for research and scholarships. Ten weeks, Wednesday, 7-9 p.m., \$42.

### Improve Your Handwriting

**Monica M. Knapp: M.S.**

Legible handwriting is one of the essential skills in written communication. Workshop increases legibility in both cursive and manuscript handwriting without sacrificing speed. Some time is spent studying samples of handwriting as clues to personality. Recommended reading: Stephen Kurdsen, *Graphology*. Ten weeks, Monday, 7-8 p.m., \$21.

### Literature and Fiction in Understanding Human Behavior:

#### Going Crazy

**Alfred J. Fortin: M.S.W.; Clinical Social Worker**

Analysis and comparison of different literary pictures of what it is like to go "mad". Includes the perspective of the person who provides understanding of mental and emotional breakdown. One assignment explores students' imagery in the area. Recommended readings: Robert Pirsig, *Zen and the Art of Motorcycle Maintenance*; Sylvia Plath, *The Bell Jar*. Nine weeks, Thursday, 7-9 p.m., \$38. Begins October 7.

### Sign Language and Finger Spelling: Beginning

**Stanley Patrie: Teacher of the Deaf**

Manual communication as used by most deaf people in this country. Includes a brief history of the use of the language of signs, background information on deafness and how it affects those who have been born deaf or lost their hearing later in life. Students converse with totally deaf people, including the instructor, who is also deaf. Required text: Lottie Riekehot, *Talk to the Deaf*, Gospel. Ten weeks, Monday, 7-9 p.m., \$42.

### Sign Language and Fingerspelling: Advanced

**Stanley Patrie**

Helps student become more fluent in both expressive and receptive sign language. Introduces what is known as AMESLAM, a contraction of "American Sign Language", in which facial expression and a certain amount of "body english" play an important part. Ten weeks, Wednesday, 7-9 p.m., \$42.

### Writing for Magazines: How to Earn a Living by Freelance Writing

**Steve Berman: Writer**

Covers entire process of selling, including subtleties of the various writer's markets—everything from *Harpers* and *Atlantic* to the mystery pulp magazines: getting ideas for stories, selling the idea to an editor and the actual writing of the piece. Ten weeks, Monday, 6:30-9:30 p.m., \$62.

### Writing Well

**John Lacey: Professor of English**

For the business, professional, or lay person who wishes to improve his/her ability to write well in everyday situations. Development of individual mode or style of expression, to shape each communication to fulfill its function. Directed to individual problems and difficulties with participants coming to grips with the idea that writing well is possible and necessary in everyday business communications, in professional transactions, and in technical reports. Ten weeks, Saturday, 9 a.m.-12 noon, \$60.

## OUTDOORS

### Hang Gliding: Basic Pilot Training

**Michael J. Morrissey and Robert Stewart: Glider Sports International approved instructors**

Basic pilot (ground and flight) training for foot-launched ultralight aircraft. Includes history and development of foot-launched aviation; aerodynamics; micrometeorology for the glider pilot; safety; maintenance; and actual flight experience. Three classroom sessions of three hours each per student and two flight sessions of four hours each. All equipment furnished. Recommended reading: Bob Skinner and Rich Finley, *Basic Guide to Rogallo Flight*, Flight Realities. On-the-hill flight sessions scheduled at the students' convenience, weather permitting. Optional insurance is \$15. Three weeks, Wednesday, 7-10 p.m., \$65.

### Inflated Structures: For Fun and For Real

**John D. Morrison: Artist**

Introduces inflatable plastic structures as an inexpensive and safe way to build. Includes ways to secure material for building, design, and work on small and medium sized structures. Eventual use extends from camping structures to actual homes. Explores possibilities and ways of wedding arts such as painting, film and photography to a structure that is non-imposing and comfortable. Six weeks, Tuesday, 7:30-9:30 p.m., \$24.

### Technical Rock Climbing: Introduction

**Jock and Lorn Cochran and Tony Contakos: Mistral Mountaineering**

Introduction to technical rock climbing takes place during one classroom session and two full days on the cliff. Indoor work includes knot-tying, belaying and safety system instruction as well as transportation arrangements and general preparation for the weekend. Climbing instruction at Chapel Ledges in South Ashfield develops climbing ability through the demonstration and practice of various techniques: jam, counterforce and friction, climbing various routes, and belaying and rappelling. For anyone 9 years or older; anyone under 16 years must be accompanied by an adult. Hiking or work boots are needed along with transportation and a bag lunch. Dress for weather, rain or shine. Recommended reading: Royal Robbins, *Basic Rockcraft*. Classroom,

Thursday, September 30, 7-10 p.m., UMass campus. Climbing instruction: October 2 and 3, 9 a.m.-4 p.m., South Ashfield, MA. \$40.

#### **Technical Rock Climbing: Intermediate**

**Jock and Lorni Cochran and Tony Contakos: Mistral Mountaineering**

Introduction to rock climbing with more specialized techniques: face climbing, crack climbing, layback and introduction to nut placement. Emphasis on actual climbing. Reviews belaying techniques, climbing calls and safety systems. Designed for those who have had introductory rock climbing course or experience. Recommended readings: Robbins, *Basic Rockcraft* and *Advanced Rockcraft*. Classroom: Thursday, October 14, 7-10 p.m., UMass campus. Climbing instruction: October 16 and 17, 9 a.m.-4 p.m., South Ashfield, MA. \$40.

#### **Tennis From the Beginning**

**Steven M. Rosenthal**

Provides fundamentals of stroke dynamics—balance, coordination, and rhythm. Covers forehand, backhand, and serve. Discusses rules of the game, scoring, and beginners strategy. Open to anyone with a desire to learn and the motivation to practice. Bring a racket, a can of balls, and wear sneakers. Five weeks, Tuesday and Thursday, 5-6 p.m., \$20.

## **PERSONAL GROWTH**

#### **Assertiveness Training for Men and Women**

**Bette H. Taylor: M.Ed.; Ed Bryon: Businessman**

Explores the meanings and consequences of passive, aggressive and assertive behavior. Focuses on situations where non-assertiveness is usual, whether at work or in personal relationships. Male enrollment encouraged as necessary for effective workshop. Saturday, October 2, 9 a.m.-3 p.m.; Tuesday, October 5, 7-10 p.m.; Tuesday, October 19, 7-10 p.m.; Saturday, October 23, 9 a.m.-3 p.m., \$37.

#### **Developing Consulting Skills**

**Robert C. Hawley: Ed.D.; Consultant in Education and Management**

For educational and organizational consultants, and those interested in developing consulting practices in education, organizational development, or the helping professions. Offers activities and guidelines: assessing needs, providing resources, structuring risks, giving feedback, uncovering blocks to effective collaboration, and determining appropriate task and maintenance ratios. Demonstrates avenues to creative problem solving such as brainstorming, synectics, and lateral thinking; techniques for decision-making such as cost-benefit analysis, risk-reward ratios, and decision charting; and group procedures such as role-playing, simulations, revealed difference surveys, and leaderless discussion groupings. Recommended readings: R. Hawley, *Value Exploration Through Role Playing*; R. and I. Hawley, *Developing Human Potential*; R. Likert, *The Human Organization*. Four weeks, Tuesday, 6:30-9:30 p.m., \$24.

#### **Leadership: Theory and Practice**

**Rima Miller: Ed.D. Candidate**

Participants view contemporary leadership theory in terms of its applicability. Includes introduction to various leadership theories and schools of thought, and case studies, paying some attention to racism and sexism. Participants explore their individual leadership styles. Includes lecture, discussion, readings, role playings/simulations, films. Ten weeks, Tuesday, 7-9 p.m., \$42.

#### **Managing Yourself Creatively**

**Hal Portner: M.Mus.; Ed.D. Candidate**

Acquaints participants with some imaginative ways to organize their time and themselves. Immerses students in a systematic involvement with life goals, behavior patterns, listening skills, problem-solving and decision-making techniques, effective reading and writing methods, and a pot pourri of related issues. Ten weeks, Tuesday, 6:30-8:30 p.m., \$43.

#### **Self-Defeat and Self-Realization**

**John Barbaro: M.Ed.; Ed.D. Candidate**

Self-defeating behaviors are those habits and personal patterns of living that impede the achievement of one's goals. Workshop systematically isolates those behaviors and their different aspects. Underlying motives are outlined and workable alternatives are found. Recommended readings: A. Lakein, *How to Get Control of Time and Your Life*; M. Schiffman, *Gestalt Self Therapy*; S. J. Warner, *Self-Realization and Self-Defeat*. Ten weeks, Tuesday, 7-9 p.m., \$42.

## **PHOTOGRAPHY**

#### **Basic Photography**

**Richard E. Barrell**

Introduces techniques, materials and equipment. Provides a knowledge of cameras and how they function, including lenses, filters, and various photographic accessories and their uses. How and where to buy cameras inexpensively. Acquaints students with various films, papers, chemicals and photo equipment. Darkroom work optional. Possible field trips to integrate concepts. Recommended readings: Adams, *Camera and Lens*; Eastman Kodak, *Basic Developing, Printing, and Enlarging*. Expenses are \$5-\$20. Ten weeks, Wednesday, 7-9 p.m., \$40.

#### **Introduction to Darkroom Procedures**

**Carol Reck: Photographer**

For beginners. A simple step-by-step presentation of the techniques of film developing, choice of papers and chemicals, contact printing and enlarging of negatives, presentation of finished prints. Student participation in the darkroom is an integral part of the workshop. Each student should have access to a camera. Expenses are \$10. Section 1: Ten weeks, Wednesday, 7:30-10 p.m.; Section 2: Ten weeks, Thursday, 7:30-10 p.m. Each section is \$78.

## **PRINT & DESIGN**

#### **Batik**

**Beth Turpin**

Create patterns on sheets, pillow cases, shirts, pants, wall plaques, etc., using batik method. Covers several methods of batik including a short cut to true batik. Batik may be combined with other media and methods. Recommended reading: Meilach, *Batik and Tie Dye*. Expenses are \$10. Ten weeks, Wednesday, 6:30-9:30 p.m., \$63.

#### **Drawing and Designing in Color**

**Betsy Morris: M.F.A. Candidate**

Introduces basic color theory and its practical application in art with an emphasis on drawing and design. Theory is demonstrated using illustrations based on the work of Josef Albers. Drawings done in pastels or colored pencils and include color mixing, spatial design, transparency, and the

effects of natural and artificial light. Individually designed final project concentrates on further explorations of color in drawing or related area. Expenses are \$5. Ten weeks, Tuesday, 6:30-9:30 p.m., \$60.

#### Fabric Design and Printing

Carolyn Ray: M.F.A.; Artist-in-Residence, Butterfield House

Designing and printing four-yard lengths of fabric in one and two colors. Includes the construction of a 4½ foot silk-screen, dye-mixing, and the use of paper, lacquer, and lacquer film stencils. Photo-silkscreening and the use of a "striping box". Work includes a survey of design principles: figure-ground relationships, line vs. shape, and the use of transparencies. Basic background in design and color design helpful. Expenses are \$15-\$20. Ten weeks, Wednesday, 7-10 p.m., \$60.

#### Gravestone Rubbing: Background, Technique, Practice

Melvin G. Williams: Ph.D.

Morning session: slide-illustrated discussion on artistic and historical attractions of New England's seventeenth- and eighteenth-century graveyards. Afternoon session: guided practice in making gravestone rubbings, using both oil and wax techniques. Expenses are \$5. Workshop to be held in Longmeadow, MA, Saturday, October 2, 10 a.m.-3 p.m., \$10.

#### Printmaking: Two Methods Without A Press

Betsy Morris: M.F.A. Candidate

Design and construction of both woodblocks and collagraphs (collages built from a variety of found objects). Production of prints in black and white and color. Concentration on one type after introduction. Includes printmaking for children. Expenses are \$10-\$15. Ten weeks, Wednesday, 6:30-9:30 p.m., \$60.

#### Wood and Linoleum Block Printing

Jane Liebman Wolff: M.A.T.; Printmaker

Handprinting methods create both black and white and color prints. Includes fine art of printing techniques and care and use of tools. Exploration of various media and design problems. Emphasis on individual growth and expression. Expenses are \$10-\$15. Ten weeks, Tuesday, 7-10 p.m., \$60.

## SEX EDUCATION

#### Progressive Parenthood: An Introduction to Parent Sex Education

Arthur J. Machia: Director of Progressive Parenthood

Nancy Callahan: R.N.; Nursing Instructor

Practical approach to teaching parents to teach their children about sexuality. Provides factual information as well as a "jumping-off" point for discussion of attitudes relating to childbearing. Class projects are designed to offer practical problem solving skills. Required readings: Freud, *The Sexual Enlightenment of Children*; Gordon, *The Sexual Adolescent*; Montreal Health, *V.D. and Birth Control Handbooks*; Pomeroy, *Your Child and Sex*. Expenses are \$13. Seven weeks, Tuesday, 7-9:30 p.m., \$35.

#### Sex Role Awareness for Men and Women

Carlene Riccelli: M.Ed., Counseling; Ed.D. Candidate

As sex role expectations for both men and women have changed over the past decade, there has been a corresponding effect on male-female, female-female, and male-male relationships. In a supportive environment, using small group exercises, readings, films and discussion, workshop explores alternatives for non-sexist relationships. Four weeks, Thursday, 6-10 p.m., \$33.

## ...AND MORE

#### Real Estate

David W. Ryan: Real Estate Broker

Basic knowledge and practices in real estate. Terms, instruments, and relationships, both legal and financial, are stressed in an analysis of real property brokerage, valuation and financing. Provides a base from which the student can explore specialized areas of real estate and is an excellent preparation for the Massachusetts Real Estate License examination. Textbook included in workshop fee. Ten weeks, Wednesday, 7-10 p.m., \$69.

Each Credit-Free Workshop is identified by a specific number, which must be included on the Registration Form (page 22). Below is a list of all the workshops with their registration numbers.

#### ARTS AND CRAFTS

- E001 Cartoon Art
- E002 Circus Arts
- E003 Colonial Restoration
- E004 Crewel
- E005 Matting and Mounting
- E006 Patchwork
- E007 Pottery
- E008 Upholstery

Students are responsible for obtaining a copy of the complete Spring 1977 Continuing Education catalog and for reading the General Information section. This section contains academic, credit and degree information important to all students. To aid the student, a copy of the Spring 1977 catalog will be mailed upon receipt of the registration for Wintersession 1977.

*For the past four years, the Division of Continuing Education has supplemented the University of Massachusetts' programming during the interim period between fall and spring semesters, a period now called Wintersession. This winter, the Division is offering a variety of both credit courses and Credit-Free Workshops during the three week period beginning January 3, 1977. Workshop schedules vary and are noted with the workshop descriptions.*

## CREDIT-FREE GENERAL INFORMATION

The Credit-Free Workshop Program is a series of workshops offered by the Division of Continuing Education specifically for persons interested in expanding their skills, furthering their careers, improving their community life, or partaking of the expertise offered by others, usually experts and teachers in their fields. The workshops are for those for whom academic credit is not a priority.

### ADMISSIONS

The Division of Continuing Education has an open admissions policy with regard to the Credit-Free Workshops it offers. Interested persons may enroll for as many workshops as they wish without concern for their educational background. Persons aged 65 and over may register, free of charge, on a space-available basis, for any Credit-Free Workshop. Please call the Records Office, 545-3653, for further information.

### REGISTRATION

To register by mail, complete the Credit-Free registration form in the center fold of this catalog, and mail by December 22, with full payment to:

Credit-Free Workshops  
AE 77-5  
Division of Continuing Education  
P. O. Box 835  
Amherst, MA 01002

Make checks payable to: Continuing Education, AE 77-5. In addition to the workshop fee, all registrations must include a \$5 registration fee, charged once.

**The registration fee is waived for Community In Action Workshops.** When registration meets the minimum number, registrants will be notified immediately by mail with a class card which includes notice of meeting place. Mail registrations must be postmarked December 22 at the latest.

**Walk-in registrations** will be accepted at any time on a space-available basis. Come to the Continuing Education Records Office located in the lobby of Hills House. Office hours are:

Monday-Thursday, 8:30 a.m.-7 p.m.

Friday, 8 a.m.-5 p.m.

Saturday, 10 a.m.-1 p.m. (Closed holiday weekends.)

Enrollment in all workshops is limited to a number that is manageable and

acceptable to each instructor, therefore early registration is encouraged. When requests for a workshop exceed the number to be enrolled, the Division will attempt to arrange for an additional section. Names of registrants will be placed on a waiting list in the order in which they are received.

## **FEES & EXPENSES**

Credit-Free Workshops are self-funding and, in general, fees have been computed on the basis of the number of contact hours which a workshop meets. In order to make each workshop self-supporting, a minimum number of enrollments is usually necessary. Specific fees may be found in the workshop descriptions.

Full refund will be made by mail if a workshop is cancelled due to underenrollment.

To withdraw from a workshop the student must notify the Records Office in writing by mail, or in person during the regular office hours. Notifying the instructor or ceasing to attend class does not constitute official withdrawal.

### **Refund Schedule**

After:

|                |           |
|----------------|-----------|
| First meeting  | 80%       |
| Second meeting | 60%       |
| Third meeting  | NO REFUND |

There are NO REFUNDS for workshops with schedules of less than one week unless withdrawal is effected prior to the beginning of the workshop. In cases of withdrawal prior to the beginning of a workshop, a full refund will be processed once the Records Office is notified in writing or in person.

## **OTHER IMPORTANT INFORMATION**

**Cancellations**—The Division of Continuing Education reserves the right to cancel, postpone, or combine workshops and to change instructors. We attempt to keep changes minimal. Weather cancellations are announced over local radio stations.

**Workshop locations**—Workshops will take place in Amherst unless otherwise noted in the workshop description. Exact locations will be announced by mail once students have registered.

**Reading Material**—Reading material information may be obtained from the instructor on the first night of the workshop. Required books may be obtained at the University Textbook Annex. The Annex will be open January 3 through January 7 from 9 a.m. to 4 p.m.; closed January 3-24.

**Supplies**—Some workshops require supplies which are to be paid for by each participant if he or she chooses to have them. The estimated cost of these supplies is listed at the end of the workshop description. Since expense money is estimated and optional it is not to be included in workshop and registration fees, and students should not pre-pay.

**Parking**—During the month of January there are no restrictions in parking areas except for tow-away zones.

Registration information for credit courses may be found at the end of this catalog, along with course descriptions.

# CREDIT-FREE WORKSHOPS

## **Beginning Modern Dance WS01**

**Donna Potter: University Dancer**

Covers a basic modern dance warm-up technique and learning movement patterns. Emphasis is on control, kinesthetic awareness, and enjoyment of moving through space to music. No previous experience required, only a desire and commitment to learn. Section 1: Three weeks, Monday-Thursday, 10-11:15 a.m., \$30. Section 2: Three weeks, Monday-Thursday, 6:30-7:45 p.m., \$30.

## **Developing Consulting Skills WS02**

**Robert C. Hawley: Ed.D.; Consultant in Education and Management**

For educational and organizational consultants, and those interested in developing consulting practices in education, organizational development, or the helping professions. Offers activities and guidelines: assessing needs, providing resources, structuring risks, giving feedback, uncovering blocks to effective collaboration, and determining appropriate task and maintenance ratios. Demonstrates avenues to creative problem solving such as brainstorming, synectics, and lateral thinking; techniques for decision-making such as cost-benefit analysis, risk-reward ratios, and decision charting; and group procedures such as role-playing, simulations, revealed difference surveys, and leaderless discussion groupings. Recommended readings: R. Hawley, *Value Exploration Through Role Playing*; R. and I. Hawley, *Developing Human Potential*; R. Likert, *The Human Organization*. Three weeks, Wednesday, 6:30-9:30 p.m., \$18.

## **Sign Language and Finger Spelling: Beginning WS03**

**Stanley Patrie: Teacher of the Deaf**

Manual communication as used by most deaf people in this country. Includes a brief history of the use of the language of signs, background information on deafness and how it affects those who have been born deaf or lost their hearing later in life. Students converse with totally deaf people, including the instructor, who is also deaf. Required text: Lottie Riekerhot, *Talk to the Deaf*, Gospel. Three weeks, Monday and Wednesday, 7-9:30 p.m., \$30.

## **Developing Creative Learning Games: What To Do With Your Child On A Rainy Day WS04**

**Eleanor Ashton and Maxine Markson: Ed.D. Candidates; specialists in early childhood education**

Focuses on the creation of learning games and centers for children under six that will support and extend the development of mathematical and reading readiness skills, scientific concepts, gross and fine motor abilities and aesthetic and social sensibilities of the preschool child. Participants use materials that are found in the home to develop educational games and centers. Provides a relaxed and informal environment for the exchange of ideas that "work" with young children. Two weeks, Tuesday and Thursday, 7-9 p.m., \$18. Workshop begins January 11.

## **Making Games for Your Classroom WS05**

**Joyce Davis: Resource Teacher**

Elementary school children really like to play games which are an excellent way to take the boredom out of necessary drill. This "hands-on" workshop helps teachers create math and reading games for the classroom. Emphasizes skill continuums and task analysis of the games. Recommended reading: Edco Reading and Learning Center, *A Practical Guide to Creating Reading Games*. Expenses are \$3. Three weeks, Wednesday, 7-9 p.m., \$14.

#### Pottery WS06

**Frederic A. Englander: Potter**

Techniques of the potter's wheel, glazes, clay chemistry and handbuilding. Stoneware clay and glazes are fired in a reduction atmosphere to cone 10. Includes opportunity to fire eight pots. Additional pots may be fired for a minimal fee. Expenses are \$5. Three weeks, Tuesday and Thursday, 7:30-9:30 p.m.; Saturday, 10 a.m.-12 noon, \$54.

#### Basic Folk Guitar Finger-Style WS07

**Vincent Mitchell: Guitarist**

Guitar care, tuning, picking technique, notereading, basic chording, basic guitar theory, tablature, back-up picking, capo, picking styles, one private lesson, listening session, and song swap. Songs traditional and by Woody Guthrie, Tom Paxton, Leonard Cohen, Paul Simon. "Sing Out!" magazine articles. Access to guitar necessary. Three weeks, Monday, Wednesday and Thursday, 7-9 p.m., \$38.

**WESTERN MASSACHUSETTS  
SCHOOL COMMITTEE  
WORKSHOPS**

A variety of five one-meeting workshops discuss school-related issues in the context of western Massachusetts communities, and are open to school committee members and all interested citizens. The workshops will meet during the period from January 11-February 16 and include:

- Fiscal Autonomy
- Mandated Programs
- State Reimbursement
- Public Participation
- Collective Bargaining
- Evaluation of Superintendent

For further information see workshop descriptions and program details on page 15. Program coordinator, Maria Roberts, may be reached at (413) 542-3430; write to Room 110 Hillis North, University of Massachusetts, Amherst, MA 01003.

### **Writing for Yourself WS08**

**Nancy Thayer: M.A.; Writer**

Deals intensively with the use of words for self-discovery, self-creation, and self-therapy. Illustrative readings from famous diaries and letters. Games and exercises in word choice and use to help us find ourselves; games and exercises in word control to help us form ourselves. Three weeks, Saturday, 9 a.m.-12 noon, \$19.

### **Conflict Resolution WS09**

**Jack J. Rosenblum: J.D., Yale; Ed.D. Candidate**

Skills dealing with conflict in creative and nourishing ways. Explores intra- and inter-personal conflicts and develops strategies to resolve them in a way that creates bonds and trust rather than resentment or suspicion. Uses role-play, guided fantasy, structured experiences and feedback; includes inevitable personal conflicts and attempts to resolve them. Learn to enjoy and bask in the warm glow that comes from having resolved a conflict successfully. Recommended reading: George Bach, *Creative Aggression*. Saturday and Sunday, January 22 and 23, 1977, 9 a.m.-5 p.m., \$65.

### **Self-Defeat and Self-Realization WS10**

**John Barbaro: M.Ed.; Ed.D. Candidate**

Self-defeating behaviors are those habits and personal patterns of living that impede the achievement of one's goals. Workshop systematically isolates those behaviors and their different aspects. Underlying motives are outlined and workable alternatives are discussed. Recommended readings: A. Lakein, *How to Get Control of Time and Your Life*; M. Schiffman, *Gestalt Self Therapy*; S.J. Warner, *Self-Realization and Self-Defeat*. Three weeks, Tuesday and Thursday, 7-9:30 p.m., \$34.

### **Creative Analysis—An Introduction WS11**

**Penny Horowitz: M.A.T., History; Ed.D. Candidate**

Creative Analysis uses words to solve problems. Students become acquainted with principles of thinking as they relate to language usage and have the opportunity to practice various problem-solving techniques such as qualification, classification and analogy. These and others are studied and then put together to create a general approach to solving problems of all kinds. Recommended reading: Samson and Upton, *Creative Analysis*. Three weeks, Tuesday and Thursday, 7:30-10 p.m., \$31.

### **Dreams and Dream Interpretation—A Jungian Approach WS12**

**Steven Bengis: Counselor and Therapist**

Introduces basics of Jungian depth psychology. In addition to exploring basic theory, discusses the analysis of dreams using dream examples. Non-experiential workshop, but students will be asked to keep a dream journal for their own use. Recommended reading: Whitmont, *A Symbolic Quest*. Three weeks, Monday and Thursday, 7:30-9:30 p.m., \$24.

### **The Tarot: An Introduction to its Psychology and Symbolism WS13**

**Paul R.S. Zelle: M.A.; M.Div.**

Basic techniques of meditation using the archetypal Tarot card symbols. The Tarot trumps may be viewed as keys that unlock an individual's personal unconscious to lead to a greater awareness of the spiritual or higher self. Detailed analysis of the Tarot symbols and their relationship to everyday life. Discussions consist of a history of the Tarot, modern profane practices, such as fortune telling, and current misconceptions. Students make Tarot cards. Expenses are \$3.50 for cards. Three weeks, Tuesday, 6:30-9:30 p.m.; Saturday, 9 a.m.-12 noon, \$36.

### **The Family: A Study of Women and Children in Fiction WS14**

**Leah B. Glasser: M.A.; Ph.D. Candidate**

Analysis of approaches to marriage and the family in fiction, especially as they concern the treatment of children and the status of women. A three week seminar for the person who

seeks an understanding of the confusing, often anxiety-producing roles we fulfill as members of a marriage or family and how the psychological effects of these roles are expressed in fiction. Examines the guilt and anxiety which naturally result in the consciousness of a woman or child growing up in a hostile, role-oriented world. Focus is on only one or two of the following recommended readings: C. Bronte, *Jane Eyre*; E. Bronte, *Wuthering Heights*; Woolf, *Mrs. Dalloway*. Three weeks, Monday and Wednesday, 7-9:30 p.m., \$36.

#### **A Crash Course in Basic Photography WS15**

**Richard Barrell: Photographer**

Discusses cameras and lenses and related equipment. Pictures shot the first week. Next comes processing the film and preparing contact prints. The final Saturday the negatives are printed. Each person acquires a sense of photography and at least one fine print. Expenses are \$5-\$20. Three weeks, Saturday, 9 a.m.-12 noon, \$18.

#### **Basic Calligraphy (The Art of Hand Lettering) WS16**

**Valerie Aston: Freelance Calligrapher**

Concentrates on the basic italic alphabet. If there is time, advanced alphabets will be introduced. Class is small to allow as much individual attention as needed. Expenses are \$2. Three weeks, Monday and Wednesday, 7:30-10 p.m., \$37.

#### **Cartoon Art WS17**

**Brian Turner: Cartoonist**

Development of style and technique in graphics, and story-telling in comics and cartooning. Differences explained among political, underground, gag, parody, and strip. Includes history and recent technical/artistic developments. Use of tools, marketing, with some attention to animation and children's book illustration as requested by participants. Art equipment costs will vary according to needs of individual. Recommended reading: Hamm, *Cartooning*; Robinson, *Comics*; Steranko, *History of the Comics*; Vol. I, II. Three weeks, Monday, 7-10 p.m., \$18.

#### **Print Collecting and Appreciation WS18**

**Leslie Kramer: M.F.A., Printmaking**

Designed for those who would like to collect art on a modest budget. Lecture-discussions on what to look for when buying an original print. Visits to a local museum or gallery uncover the range of artwork in this area. Topics covered include the difference between etching, lithography and serigraphy; what determines the value of an original print; and care and display. One Saturday afternoon field trip to be arranged. Recommended reading: Zigrosser, *A Guide to the Collecting and Care of Original Prints*. Three weeks, Saturday, 10 a.m.-12 noon, \$17.

#### **Woodcut Printing WS19**

**Betsy Morris: M.F.A.**

Introduction to the design and construction of woodblocks. Use of hand-printing methods to produce prints in black and white. Demonstration and explanation of color methods in woodblock printing. Emphasis on exploitation of the wood as a print medium. Expenses are \$10-\$15. Three weeks, Saturday, 9 a.m.-12 noon, \$18.

#### **Busy Person's Approach to Patchwork WS20**

**Victoria Olivo: Designer**

The use of patchwork in making quick, inexpensive changes in one's home and clothing in minimum amount of time. Includes patchwork quilts that can be sewn in two weeks; pillow pot holders, samplers, and other small color spots for the home; and application of calico or clothing using recycled material such as denim. Knowledge of sewing machine necessary. Three weeks, Tuesday, 7-9 p.m., \$12.

**Small Woodlot Management WS21****Charles Thompson: Graduate Student, Forestry**

Basic concepts of forest ecology: wood as a fuel, woodlot management for sawlogs, fuelwood, wildlife habitat. Relevant techniques of measurement. Saturday afternoon visits to area woodlots. Three weeks, Monday and Wednesday, 7:30-9 p.m.; Saturday, 1-4 p.m., \$36.

**Identification of Trees and Shrubs WS22****Charles Thompson**

Identification of native trees and shrubs of the Amherst area. The tree as a life form. The forest environment and basic concepts of woods ecology. Saturday morning field sessions. Expenses are \$3.25. Three weeks, Tuesday and Thursday, 7:30-9 p.m.; Saturday, 9 a.m.-12 noon, \$36.

**Dry It—You'll Like It! WS23****Merrilee Koplowitz: B.A., Nutrition; Carpenter**

Basic carpentry skills are used to dry foods as a means of preserving with minimum energy input and maximum flavor and nutrient retention. Each student constructs a sturdily built, well designed unit requiring only solar energy to operate. The solar food unit dries 16-20 pounds of fruits or most vegetables at one time. A comparable drier would cost at least \$100 to buy. Materials required to build it cost about \$50. Men and women with no previous carpentry experience or skills are encouraged to participate. Recommended reading: McMillian, *Dry It—You'll Like It!* January 3, 1977, 7:30-8:30 p.m.; January 15, 16, 22, 23, 1977, 10 a.m.-5 p.m., \$51.

**Little Kid and Big Kid Terrarium and Bottle Garden Construction WS24****Susan Roy: Certified Arborist; Horticulturist**

Both adults and children are invited to bring their plants and containers for a workshop on the mini-environment—planting technique, and the after-care of the terrarium. Some sand painting will be demonstrated. Planting done in a bottle will be shown. Saturday, January 22, 1977, 9-11 a.m., \$4.

**Williamsburg-Style Colonial Arrangements: How to Collect and Preserve Local****Herbs and Plants WS25****Susan Roy**

Discusses native herbs and weeds suitable for collecting and drying. Particular harvest times and best drying methods are included, along with a look at the best garden flowers to grow for dried arrangements. Students design and complete a dried arrangement. Materials will be provided and are included in the workshop fee. Bring scissors, wirecutters, florist tape and wire. Saturday, January 8, 1977, 9 a.m.-12 noon, \$18.

**Seminar in Massachusetts Special Education Law—Chapter 766 WS26****Daniel A. Burke: Doctoral Student; Special Education Supervisor**

Review of the legal process involved in Chapter 766 prior to the delivery of special education services by public school systems. Preparation for and participation in sample core evaluation team meetings. Provides skills in how to critically evaluate educational plans and monitor the progress of the pupil. Discussion of the special education resources which are available to support the student with special needs, teachers, administrators, parents, and ancillary personnel. Three weeks, Saturday, 9 a.m.-12 noon, \$18.

**Theatrical Lighting: Basic WS27****James MacRostie: Production Stage Manager, Fine Arts Center****Lewis E. Louraine, Jr.: Stage Manager, Fine Arts Center**

Fundamentals of theatrical lighting: how to develop a light plot, hang, circuit, focus and gel the lights. Includes types of dimmer systems and lighting equipment. Three weeks, Tuesday, 7-10 p.m., \$18.

# 22.5 Million Per Hour: IS YOUR ORGANIZATION GETTING ITS FAIR SHARE?

## Seminar in Grantsmanship WS54 Daniel Lynn Conrad: Consultant

How To Get More Grants: A Systems Approach To Grantsmanship is a one-day credit-free seminar which concentrates on grantsmanship skills. The seminar leader is Daniel Lynn Conrad, consultant and president of the Institute for Fund-Raising in San Francisco. The seminar will be held on Saturday, January 22, 1977, 8:30 a.m.-4:15 p.m. at the University of Massachusetts/Amherst. To register for the Seminar in Grantsmanship, read the registration information on pages 1 & 2, and fill in the registration in the center fold of this catalog. Program coordinator, Stan Rosenberg, may be reached at (413) 545-3420. Workshop cost: \$50.

## Theatrical Lighting: Advanced WS28

James MacRostie and Lewis E. Lorraine

Theory of lighting, lighting instruments, electricity and color. Lecture and demonstration. Three weeks, Thursday, 7-10 p.m., \$18.

## Technical Production WS29

Lewis E. Lorraine, Jr. and Michael Van Dyke: Assistant Technical Director, Amherst College

An overview of the technical aspects of theater from reading the play through design and construction to striking the show. Discussion and demonstration of skills and techniques. Sources of materials and information on how to locate and cajole theatrical supplies. Three weeks, Monday, 7:30-10 p.m., \$15.

## Basic Carpentry WS30

James MacRostie

Acquaints the student with basic carpentry techniques for either the stage or home. Included are repair and maintenance and proper use of home power tools. Expenses are \$10. Three weeks, Wednesday, 7-10 p.m., \$18.

## Managing Yourself Creatively WS31

Hal Portner: M.Mus.; Ed.D. Candidate

An activity-oriented weekend designed to acquaint participants with some imaginative/practical ways to organize their time and themselves. The sessions immerse each class member in a systematic involvement with life goals, behavior patterns, listening skills, decision-making techniques, and a potpourri of related issues. Dress comfortably, bring a notebook and a bag lunch. Saturday and Sunday, January 8 and 9, 1977, 10 a.m.-3 p.m., \$21.

# ARTS EXTENSION SERVICE

*The Arts Extension Service is a community development program which works to meet the needs of continuing education in the arts. One objective of the AES is to help develop effective and self-sufficient community arts organizations.*

*Activities include: consulting services in technical and management problems; workshops in community arts management and group dynamics; projects servicing the arts interests and needs of older people, inner city people, rural communities and other special interest groups; maintenance of the Arts Directory, a listing of regional artists; a series of arts seminars and conferences; a booking referral service for artists; Communities to Campus, a program aimed at making UMass/Amherst campus events more available to communities, and "The New England Artists Festival and Showcase", which brings the art and performance talent of Western Massachusetts together for a major two-day celebration*

## Arts Festivals and Special Events WS32

### Seminar leaders to be announced

How to put on an arts festival: planning, booking, budgeting, funding, promoting, presenting, hosting, and evaluating the event; the artists' point of view; use of case examples; how to make the occasion edifying, profitable, and enjoyable; possible spin-offs, special events and themes. Saturday, January 22, 1977, 9 a.m.-5 p.m., \$15 (lunch included).

*The following information must be provided before your application can be processed.*

# COMMUNITIES IN ACTION

*Communities In Action is a new program designed to meet some of the training needs of community organizations. This series of short, intensive and inexpensive workshops is intended for board members, staff and volunteers of citizen councils and non-profit community organizations of all types. Instructors for each of the three-hour workshops are practitioners with both theoretical knowledge and practical experience in the topic area. After spending just a few hours in the classroom, participants can return to their organizations bringing with them new skills and ideas. The registration fee for Communities In Action workshops has been waived as a service to communities and their organizations.*

*Communities In Action and other training workshops can be offered by your organization in your own community. For information please contact Stan Rosenberg, (413)545-3420.*

*To register, please read the general information on pages 1 and 2, and fill in the registration form in the center fold of this catalog. Or register in person in the Lobby of Hills House North, UMass/Amherst.*

## **Accountability Organizing—How To Do It WS35**

**Greg L. Speeter: Community Organizer/Representative, Holyoke-Chicopee Council for Children**

Describes a method of holding elected officials (be they student council representatives, school committee members, state representatives, etc.) accountable to the stated concerns of a constituency. Workshop is based on the successes and failures of the "Children's Campaign, '74." Workshop process includes building a "citizens platform" (through public hearings and community organization techniques); determining candidate commitment to the platform; developing a report card for the candidate's responses to the platform and methods of holding the elected candidate accountable, through group pressure, to his/her commitments. Monday, January 3, 1977, 7-10 p.m., \$5.

## **Setting Up Resource Systems WS36**

**Robert L. Lynch: Consultant, Arts Extension Service, Division of Continuing Education**

In every type of social art or other service situation, effective services can be rendered only after an effective resource and information system has been developed. This workshop explores, through round table discussion, types of resource systems, pros and cons of resource tools, creating a self-sustaining, inexpensive information flow and methods of gathering, keeping, updating and distributing information. Legal ramifications, competition and individual problems are included. Tuesday, January 4, 1977, 7-10 p.m., \$5.

## **Over-Simplified Accounting WS37**

**Caron H. Van Gilder: M.A., Arts Administration; Consultant, Arts Extension Service, Division of Continuing Education**

A microcosmic accounting workshop for small organizations. Simplified budgeting, setting up income and expense accounts, an overview of bookkeeping, financial reporting and how to control budgets. For organizations with budgets of \$10,000 to \$200,000. Wednesday, January 5, 1977, 7-10 p.m., \$5.

### **The Planning Process—Management by Objectives WS38**

**Donna J. Stephenson: Consultant, Arts Extension Service, Division of Continuing Education**

Using a results-oriented system, develops a working understanding of the fundamentals of objectives; what they are and why we care about them. Participants learn to articulate objectives which reflect the purpose of an organization. These objectives can be used for planning or re-defining programs and evaluating program progress. It is recommended that this workshop be taken in conjunction with the Long-Range Planning and Evaluation Workshops. Thursday, January 6, 1977, 7-10 p.m., \$5.

### **Organizing Community Dialogue WS39**

**Stan Rosenberg and Lin Riotto: Coordinators, Great Decisions Program, Division of Continuing Education**

Using the Great Decisions Program as a model, workshop focuses on developing skills required to launch a community discussion program. Subjects include choosing the material, identifying constituencies and potential participants, marketing the program, organizing the discussion environment, collaboration among community organizations and facilitating discussion. Participants can expect to learn skills that are applicable to types of community efforts other than discussion programs. Saturday, January 8, 9:30 a.m.-12 noon, FREE.

### **The Politics and Economics of Human Services—Who The Helping Profession Helps WS40**

**Greg L. Speeter, Community Organizer/Representative, Holyoke-Chicopee Council for Children**

Lecture/discussion covers roles and functions of various human service agencies; their effect or lack of effect on "clients", providers, politicians and corporate leaders; and alternative methods of providing services or preventing problems. Monday, January 10, 1977, 7-10 p.m., \$5.

### **Improving PR and Media Coverage for Your Organization WS41**

**Robbie Gordon: Free Lance Writer, Journalist, Graphic Artist**

Focuses on how to write press releases so the press won't bury your story; how to create interest in your group; quick, inexpensive and effective methods of publicity (including promotional campaigns, leaflets and newsletters, and the utilization of free public access media forums). Major thrust is on the nuts and bolts of publicity and on viewing your organization from the press' perspective. It is recommended that this workshop be taken in conjunction with The Written Word and Production of Publications. Tuesday, January 11, 1977, 7-10 p.m., \$5.

### **Long-Range Planning WS42**

**Nan S. Levinson: Consultant, Arts Extension Service, Division of Continuing Education**

Introduction to long-range planning as a management tool; case study will be used to learn techniques such as brain-storming, force field analysis, flow charts and responsibility charts. Practical application to community organizations will be stressed. It is recommended that this workshop be taken in conjunction with those on objectives and evaluation. Wednesday, January 12, 1977, 7-10 p.m., \$5.

### **Evaluating Community Programs WS43**

**Norma Friedman: Director, Kultutama, Inc. (non-profit community arts organization in Holyoke)**

Focuses on the theoretical and practical aspects of community program evaluation. Introductory workshop is geared toward the volunteer or administrator who is programming in his/her community, be it educational, recreational, social, etc. Evaluation techniques discussed with emphasis on theory rather than the specifics of each technique. Emphasizes idea

of evaluation as a continuous process with suggestions, exercises, discussion and a bibliography. It is recommended that this workshop be taken in conjunction with those on Long-Range Planning and Management by Objectives. Thursday, January 13, 1977, 7-10 p.m., \$5.

#### **The Written Word WS44**

**Nan Levinson and Bob Lynch: Consultants, Arts Extension Service, Division of Continuing Education**

Participatory workshop for those who have difficulty writing for organizational purposes; includes "how to's" of letter writing, press releases, proposals, brochures and reports. Critique method also employed. Participants are urged to bring samples of their work. It is recommended that this workshop be taken in conjunction with Improving Media and PR Coverage for Your Organization and Production of Publications. Monday, January 17, 1977, 7-10 p.m., \$5.

#### **"They"—Recruiting and Placing the Volunteer WS45**

**Donna J. Stephenson: Consultant, Arts Extension Service, Division of Continuing Education**

Using discussion and role play as a base, participants examine the process of recruitment including interviewing skills. Workshop addresses the skills necessary to resolve problems. Tuesday, January 18, 1977, 7-10 p.m., \$5.

#### **How To Put Together A "Yellow Pages" for Social Change WS46**

**Greg L. Speeter and Robbie Gordon: Co-Organizers, Holyoke-Chicopee Area Children's Yellow Pages**

A group of citizens assembled a "Children's Yellow Pages", an easy-to-read 102-page analysis of children's problems, listing of resources and plans for citizen involvement to prevent children's problems. Workshop describes how to assemble a yellow pages on any topic and how to mobilize a community around various problems. Includes developing a constituency, data gathering, issue building, organization of the manual, layout and graphics, distribution, methods of utilizing constituency in action organizing. Wednesday, January 19, 1977, 7-10 p.m., \$5.

## **DIALOGUE '77**

**A LOW COST, HIGH QUALITY RESOURCE FOR INDIVIDUALS AND ORGANIZATIONS**

Dialogue '77 offers a series of options which provide the opportunity to discuss issues of social concern. These issues include questions of community, leadership, the American Revolution and freedom. A reading and discussion format structures six of the workshops while the viewing and discussion of a film structures the other nine workshops. The approach is lively, informal, non-academic, and is planned to interest people from various walks of life and engage them in discussions of current social issues. For additional information contact Dialogue '77, Division of Continuing Education, 31 Hills House North, University of Massachusetts, Amherst, MA 01002, phone (413) 545-3420.

### **Production of Publications WS47**

**Lorraine Bogartz: Coordinator; Continuing Education Bulletins**

**Robbie Gordon: Free Lance Writer, Journalist, Graphic Artist**

Presents skills useful in producing publications for the purposes of informing a target audience and communicating with some precision both verbally and graphically. Includes preparation of copy, design and layout, and working with printers. Some focus on how to save money, and on how to get the job done without getting bogged down in details such as color choices, use of expensive camera work or impossible deadlines. Thursday, January 20, 1977, 7-10 p.m., \$5.

## **SCHOOL COMMITTEE WORKSHOPS**

*The following school committee workshops comprise a pilot program designed in consultation with Western Massachusetts School Committee members and others who are closely involved with the governance of public schools. The series will provide an opportunity to discuss school-related issues in the context of Western Massachusetts communities with the purpose of improving the effectiveness of school committees. The panel members for each workshop are practitioners who are involved with school and public policy decisions on a day-to-day basis.*

*Each of the workshops costs \$8. If all five workshops are registered for with the registration form in the center of this catalog, a special reduced rate of \$35 is the total cost. (For school committee chairpersons, the cost is \$32.) Groups registering for the whole series of five workshops may send a different representative to each of the five workshops if they wish. Those registering for the series at a reduced rate should use the following title and number:*

### **Workshop VI All Five School Committee Workshops WS53**

#### **Workshop I Role of Chairperson; School Committee Relationship With Superintendent WS48**

The conduct of meetings, agenda preparation, the open meeting law, conflict of interest law. Discussion of the working relationship between the School Committee and Superintendent, and the evaluation of the performance of the Superintendent. Tuesday, January 11, 1977, 7-10 p.m., \$8; special to chairpersons of school committees for this workshop only, \$5.

#### **Workshop II Fiscal Autonomy, Budgets, Finances WS49**

Fiscal autonomy of school committees in Massachusetts, understanding of budgets, mechanics of budget hearings, the problems of making financial decisions in inflationary times, and the facts of state reimbursement. Thursday, January 20, 1977, 7-10 p.m., \$8.

#### **Workshop III Personnel Decisions, Public Participation, Controversy WS50**

Focuses on laws and decisions related to appointment, tenure and dismissal of personnel; presents ways of providing for public participation in the formulation of school-related decisions; discusses controversy and new directions. Saturday, January 29, 1977, 9 a.m.-12 noon, \$8.

#### **Workshop IV Collective Bargaining and Contract Administration WS51**

Emphasizes a variety of ways of organizing for the School Committee side of negotiations, as well as coping with legal language and knowing when you need outside help. Focuses on grievances and grievance procedures. Saturday, February 5, 1977, 9 a.m.-12 noon, \$8.

#### **Workshop V School Committees and the State; Special Education, Sources of Help for School Committees WS52**

Covers relationship between School Committees and the Department of Education, and School Committees and the Legislature. Emphasizes the costs, limits and uncertain areas of Special Education. Includes information on sources of help available to School Committees. Wednesday, February 16, 1977, 7-10 p.m., \$8.

# CREDIT COURSE GENERAL INFORMATION

## ADMISSIONS

Any person who has graduated from high school or who has a certificate of General Educational Development is entitled to enroll in undergraduate courses offered by the Division of Continuing Education at the University of Massachusetts/Amherst. The Division assumes that the student will accurately assess his or her ability to take a college level course. It is the student's responsibility to observe prerequisites for individual courses. **Enrollment does not imply acceptance into a degree program.**

In accordance with University policy, University of Massachusetts students under academic suspension or academic dismissal may not enroll in credit courses offered by the Division of Continuing Education.

Courses taken during Wintersession will appear on the student's transcript as Fall 1976 credit.

## SCHEDULE

Credit courses will begin on Monday, January 3 and end Saturday, January 22. January 14 is a holiday and classes will not be held.

## REGISTRATION

To register by mail for credit courses simply remove and complete the form printed on the inside of the Wintersession catalog cover. Mail registration form and full remittance to:

Division of Continuing Education  
AE 77-5  
P.O. Box 835  
Amherst, MA 01002

Make checks payable to Continuing Education, AE 77- 5. All registrations must include a \$5 registration fee, charged once. Deadline for mail registration is December 22 postmark. Mail registrations will be confirmed by return mail late in December. Room assignments will be included in mail confirmation. Class sizes are limited, so register early.

To register in person for credit courses come to the Continuing Education Records Office in the lobby of Hills House, UMass/Amherst. Office hours are:

Monday-Thursday 8:30 a.m.-7 p.m.  
Friday 8:30 a.m.-5 p.m.  
Saturday 10 a.m.-1 p.m.  
(Closed holiday weekends)  
Phone: 545-3653.

## FEES & EXPENSES

The course fee for each three credit course is \$105. Massachusetts residency does not affect the course fee. Any other course fees are as stated in the course description.

|                                                                                                           |       |
|-----------------------------------------------------------------------------------------------------------|-------|
| Course fee (for a three credit course)                                                                    | \$105 |
| Registration fee<br>(charged once and not refundable unless course is canceled)                           | \$ 5  |
| Change of program fee<br>(charged for each change recorded)                                               | \$ 2  |
| Laboratory fee—assessed after beginning of course. Fee varies and is indicated in the course description. |       |

### Refund Schedule

|                     |            |
|---------------------|------------|
| January 3-January 7 | 50% refund |
| After January 7     | NO REFUND  |

**Financial Aid**—Only those students who have received financial aid during the fall semester, 1976, will be considered for financial aid during Wintersession. Those eligible and interested should give their names to Joan Eignor, 100A, Hills North, University of Massachusetts, Amherst, MA 01003.

## CHANGE OF PROGRAM

**Students wishing to make changes in their programs** must formally notify the Division in writing of all Adds, Drops, and Withdrawals. Failure to use proper procedure could result in an "F" being recorded as a final grade. Intent to audit or use the pass/fail option is considered a change of program.

**Deadlines for Program Changes**—For three week credit sessions, program change deadlines are determined on a proportional basis. After classes begin, students wishing to add, drop, audit or use the pass/fail option must secure approval of the Director of Continuing Education, Hills North.

## OTHER IMPORTANT INFORMATION

**Cancellations**—Continuing Education courses are funded solely by student fees. In the event that instructional costs cannot be met, any course may be canceled at the discretion of the Division. Students who are affected by a course cancellation will be notified by mail. Students not wishing to enroll in an alternative course will receive a full refund.

In the event of severe weather conditions or other emergencies, it may be necessary to cancel classes. Announcements will be made over local radio stations.

The Division reserves the right to cancel, add, or combine sections of courses listed in this catalog or to change instructors as necessary.

**Textbooks & Parking**—See Credit-Free General Information, page 1, under "Reading Material" and "Parking".

**NOTE:** Academic information contained in this supplement is abbreviated. Students are responsible for acquiring the general information contained in the Spring 1977 Continuing Education Catalog. Necessary academic information includes explanations of UMass credit, transcript requests, degrees, matriculation policy, core requirements, individualized study, auditing, and the pass/fail option. Catalogs are available in the Continuing Education Records Office, Hills House Lobby, UMass, 545-3653. Mail-in registrants will receive a catalog by return mail.

# CREDIT COURSES

All courses are for three credits unless otherwise noted in the course description.

## Basic Studio (Drawing Emphasis) (C)

### ART 104A

Introduction to visual concepts through a combination of formal representations and laboratory experience. Emphasis is on developing understanding of divergent points of view in art rather than the development of skills or creative accomplishments. MTWTF, 9 a.m.-12 noon and 1-3 p.m.

## Basic Studio (Design Emphasis) (C)

### ART 104B

Introduction to visual concepts through a combination of formal representations and laboratory experience. Emphasis is on developing understanding of divergent points of view in art rather than the development of skills or creative accomplishments. MTWTF, 9 a.m.-12 noon and 1-3 p.m.

## Modes of Film Communication

### COMSTU 190B

Lecture, discussion and film screenings provide a basic introduction to the nature and the several functions of film, and an examination of both narrative and non-narrative approaches to film. Basic grounding in design and function of contemporary film forms. MTWTF, 9 a.m.-12 noon. Lab fee: \$10.

## Advanced Public Speaking

### COMSTU 201

Practical communication. For students who want to go beyond the General Rhetoric Program in developing their ability to communicate ideas. Emphasis on one-to-group communication. MTWTF, 1-3 p.m.

## Geology and Man (E)

### GEOL 105

Evidence for selected mineral-forming processes; minerals in industry; developments in mineral research and technology; geologic considerations in such engineering works as mines, foundations, tunnels, waterways, and airfields. MTWTF, 9 a.m.-12 noon. Lab fee: \$3.

## Development of American Civilization, 1876 On (C)

### HIST 151

A survey of the American national growth. Topics covered include social change, immigration, and the emergence of industrial, urban society. Includes the evolution of American politics from the laissez-faire ideas and limited foreign commitments of the late 19th Century to the nation's present-day welfare state and global diplomacy. MTWTF, 9 a.m.-12 noon.

## Algebraic Review

### MATH 101

A rapid review of algebraic manipulations and definitions utilized in calculus. Topics include common subsets of the real numbers; sums, products, and quotients of polynomials; factoring, rational expressions; exponent and radicals; linear and quadratic equations; radical equations; linear and quadratic inequalities; equations and inequalities involving absolute values. MTWTF, 9-10 a.m. Credit: 1. Course fee: \$35.

## Analytic Geometry with Elementary Functions

### MATH 102

An introduction to the function concept and analytic geometry. Topics include relations and functions; one-to-one functions and their inverses; linear, quadratic, and other polynomial

functions; exponential and logarithmic functions; lines; conic sections. Prerequisite: Math 101. MTWTF, 11 a.m.-12 noon. Credit: 1. Course fee: \$35.

### **Precalculus Trigonometry**

#### **MATH 103**

An introduction to trigonometry covering topics considered essential for standard calculus. Topics include definitions and graphs of cosine, sine, tangent, cotangent, secant, and cosecant; essential identities; introductory triangle trigonometry. Prerequisite: Math 102. MTWTF, 1-2 p.m. Credit: 1. Course fee: \$35.

### **Philosophical Approaches to Science (E)**

#### **PHIL 240**

An introduction to the results of philosophical analysis of scientific practice, and the bearing of these results on a general description of scientific methodology. MTWTF, 1-3 p.m.

### **Child Behavior and Development (D)**

#### **PSYCH 260**

Psychological development of the child, including theories, methods, and data of child behavior studies. Prerequisite: Psych 101. MTWTF, 9 a.m.-12 noon.

### **Educational Psychology (D)**

#### **PSYCH 301**

Psychological facts and principles of development, learning, and measurement as applied to educational situations. Prerequisite: Psych 101. MTWTF, 1-3 p.m.

### **Language and Writing (B)**

#### **RHET 100G**

How words and styles are chosen to express ourselves and our world, with particular attention to the written language. Varied opportunities for written expression on different subjects for different purposes and audiences. Emphasizes responsible choice in the language used in both academic and everyday life. MTWTF, 9 a.m.-12 noon.

### **Conversational Spanish**

#### **SPAN 250, 251, 252, 253**

Directed free conversation. Improves the students' fluency in Spanish. No readings required. Prerequisite: Span 180/181 or equivalent speaking ability. NOTE: None of the conversation courses can be taken concurrently. Span 250: MTWTF, 9-10:30 a.m. Span 251: MTWTF, 10-11:30 a.m. Span 252: MTWTF, 10-11:30 a.m. Span 253: MTWTF, 11 a.m.-12:30 p.m. Credit for each: 1. Course fee for each: \$35.

### **Lives in Tension: Ida Wells, Emma Goldman, and Agnes Smedley**

#### **WOST 190Q**

Using the autobiographical writings of Ida Wells, Emma Goldman and Agnes Smedley, explores their reasons for becoming political activists. Uses the political writings of these women to explore the exact nature of tension, and when it arises. Considers an analysis of women's oppression and the more general analysis of a people's oppression. MTWTF, 1-3 p.m.

---

## **FORESTRY 225/525**

This course is included in Wintersession programming especially for University Forestry majors. Continuing Education students may register *only* with the written permission of the instructor. To register for this course, all students must come in person to the Continuing Education Records Office in the lobby of Hills House, phone 545-3653.

### **Elements of Forest Mensuration**

#### **FOREST 225/525**

Measurement of trees, stands, and forest products; practice in timber estimating and log scaling; selection and compilation of forest inventory data. By arrangement. Lab fee: \$10.

NOTE: Academic information contained in this supplement is abbreviated. Students are responsible for acquiring the general information contained in the Spring 1977 Continuing Education Catalog. Necessary academic information includes explanations of UMass credit, transcript requests, degrees, matriculation policy, core requirements, individualized study, auditing and the pass/fail option. Catalogs are available in the Continuing Education Records Office, Hills House Lobby, UMass, 545-3653. Mail-in registrants will receive a catalog by return mail.

# VOLUNTEER MANAGEMENT WORKSHOPS

*We live in a society that has always depended on volunteers of different kinds—some who can give money, others who give time, and a great many who freely give their special skills, full-time or part-time. If you look closely, you will see that almost anything that really matters to us, anything that embodies our deepest commitment to the way human life should be lived and cared for, depends on some form—more often many forms—of voluntarism.*

—Margaret Mead

Designed by the National Center for Voluntary Action with funds from the W.K. Kellogg Foundation, Volunteer Management Workshops concentrate on improving the quality and performance of volunteer leadership and management. The workshops were designed by practitioners for practitioners and consist of successful techniques, strategies and methods for volunteer management. Participants can expect to return to their organizations with exciting new ideas and skills to improve the quality of the volunteer experience and the contribution volunteers make toward the meeting of organizational goals.

For further information about the workshop program, contact Stan Rosenberg, Program Coordinator, at 314 Hills House North, University of Massachusetts, Amherst, MA 01003, phone (413) 545-3420.

# WINTERSESSION 1977

|                                        |  |                                                                                                                                                                                                                                                                                                                                                                                             |  |                                                                                                                                                                                                                                                                                                                                                                                             |  |                                                                                                                                                                                                                                                                                                                                                                                             |  |                                                                                                                                                                                                                                                                                                                                                                                             |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |  |                                                                                                                                                                                                                                                                                                                                                                                             |  |

## DIVISION OF CONTINUING EDUCATION UNIVERSITY OF MASSACHUSETTS/AMHERST

A catalog of UMass Evening College Courses  
and Credit-Free Workshops  
for the evening, part-time or non-traditional student

# STAY WITH IT!

Keep your education going  
with Credit-Free Workshops.  
Workshop information begins  
on page 37.

*I am only one  
I cannot do everything*

But still I am one  
But still I can do something  
And because I cannot do everything  
I will not refuse to do the something I can do

Name \_\_\_\_\_ Telephone \_\_\_\_\_

Address \_\_\_\_\_

Check appropriate boxes below.

- ☐ Please tell me of Great Decisions Discussion Groups that I can join in my own locale.
- ☐ Please send me a Discussion Leaders Guide containing hints for organizing and conducting an effective discussion group.

- ☐ I would like to organize a Great Decisions discussion group in my community/neighborhood.
- ☐ I would like to serve as the Great Decisions Community Coordinator for my community.

The Division of Continuing Education was founded in the fall of 1970, and since that time has extended the educational resources of the University of Massachusetts to students throughout the Commonwealth. In recognizing that education in a changing society is a lifelong necessity, the Division offers courses, programs, workshops, conferences, and services to a wide variety of non-traditional learners.

The Division's offerings fall mainly within two offices, Evening College and the Center for Continuing Studies. In addition to evening courses for credit, other credit offerings include the Teacher Education Program, the Second Bachelor's Degree Program, and the Bachelor of General Studies. Regular undergraduate University courses are also open to Continuing Education students on a space-available basis.

The Center for Continuing Studies offers a comprehensive Credit-Free Workshop Program each semester, as well as during the summer and the intersession period in January. Credit-Free programming includes offerings from the Arts Extension Service, Communities In Action, and East West Integral Studies. The Center for Continuing Studies also offers certificate/training programs.

The Division of Continuing Education is located on the UMass/Amherst campus in Hills House North. Specific office hours are listed in the information sections of this catalog.

| After March 1         | NO REFUND |

\*Please see page 9 for further information on Refunds.

## REGISTRATION AND RECORDS

### Admissions

Any person who has graduated from high school or who has a certificate of General Educational Development is entitled to enroll in undergraduate courses offered by the Division of Continuing Education at the University of Massachusetts at Amherst. The Division assumes that the student will accurately assess his or her ability to take a college level course. It is the student's responsibility to observe prerequisites for individual courses. **Enrollment does not imply acceptance into a degree program.**

In accordance with University policy, University of Massachusetts students under academic suspension or academic dismissal may not enroll in courses offered by the Division of Continuing Education.

### Mail Registration

1. To register by mail simply complete the registration form in this publication and mail with full remittance to:  
Evening College, AE77-1  
Division of Continuing Education  
P.O. Box 835  
Amherst, MA 01002
2. Make checks payable to **Continuing Education AE77-1**. All registrations must include total course fees plus a \$5 registration fee.
3. Deadline for mail registration is January 6 postmark.
4. Mail registrations will be confirmed by return mail in mid January. Room assignments will be included in mail confirmation. Class sizes are limited, so register early.

### In-Person Registration

To register in person for Continuing Education courses in this catalog come to one of the following locations:

Main Lobby, Hills House, UMass/Amherst  
*Tuesday, Wednesday, Thursday, Saturday,*  
*January 11, 12, 13 & 15*  
*10 a.m.-4 p.m. and 6-8 p.m. (Tues., Wed., Thurs.)*  
*10 a.m.-2 p.m. (Saturday)*  
*(January 14 is a holiday--no registration)*

or come to:

Building B, Room 347  
Holyoke Community College  
Holyoke, Massachusetts  
*Monday, January 17*  
*9-11 a.m. and 5-7 p.m.*

### Registration, University Classes

#### Undergraduate

Regular *undergraduate* University of Massachusetts classes are available to Continuing Education students on a space-available basis. Students must appear in person (January 11, 12, 13 & 15, Hills House Main Lobby, see page 4 for time) to register for undergraduate University classes with space available. There will be no exceptions to this policy. Students may *not* register for University classes prior to January 11, nor during the period January 17-January 24.

### Graduate

The Division of Continuing Education *does not* register post baccalaureate students in *graduate* University courses except for those graduate courses offered in Continuing Education's Evening College Program. Undergraduate students wishing to register for graduate University courses may usually do so with the written permission of the instructor. Post-baccalaureate students wishing to register for graduate courses must complete a "Non-Degree Student Application" form in accordance with the Graduate School policy, which states that "admission to the Graduate School is to be prerequisite to enrollment in any UMass graduate course for credit or audit." Applications are available from the Graduate Admissions Office, Graduate Research Center, University of Massachusetts, Amherst, MA 01003. Registration for graduate University students will take place January 24, 1977, at Boyden Gymnasium, 9 a.m.-12 noon and 1:30-4:30 p.m. For further information concerning application and registration in graduate University courses, call the Graduate School at 545-0024.

### Records and Registration Office Hours

|                           |                      |
|---------------------------|----------------------|
| Monday-Thursday           | 8:30 a.m.-7:00 p.m.  |
| Friday                    | 8:30 a.m.-5:00 p.m.  |
| Saturday                  | 10:00 a.m.-1:00 p.m. |
| (Closed holiday weekends) |                      |
| Phone: 545-3653           |                      |

**Plant Environment  
and Crop Production**

Concerned about the environment? Food and population problems? Food production practices? The interaction between plants and their environment? PLSOIL 115 is designed to provide students who have a non-science background with a concept of the requirements for plant growth and development. The emphasis is on providing information to equip students to deal with current problems related to crop production and the influence of human technology and culture on the environment.

## Change of Program

Students must formally notify the Division of Continuing Education, *in writing*, of all Adds, Drops, and Withdrawals. Changing from one section to another of the same course is considered to be an Add and a Drop.

During the Add/Drop Period, January 25-February 7, students may add courses; students may also drop courses with no record. February 8 through February 22, dropped courses will be noted on the student record with a "W" indicating Withdrawn. After February 22, students needing to drop a course must petition the Director of Continuing Education for approval of a late "W". Failure to use proper procedure could result in an "F" being recorded as a final grade. Students dropping courses during the Refund Period will receive refunds only if proper procedures are followed. Please check the Evening College Calendar for the Refund Schedule and additional notations of Add, Drop and Withdrawal periods.

## Transcripts

Permanent records of all courses taken through the Division of Continuing Education are maintained by the Division, and are *not transferred automatically* to other offices on campus, such as the Registrar's Office or the Graduate Records Office. Requests for transcripts must be made in writing either by letter or by official Transcript Request Card. Be sure to include the complete address of the person or institution to whom the transcripts will be sent. When requesting a transcript sent to the Student Development Center, please specify if it is for a certification or credentials folder.

*Official transcripts* will be sent only to Registrars or Recording Officers of institutions and to recognized business addresses. *Student copies*, so designated, may be obtained by following the same procedure. The first transcript will be issued free of charge. There will be a \$1 charge for all subsequent transcripts.

Address transcript requests to:

Transcript Request  
Division of Continuing Education  
Hills House North  
University of Massachusetts  
Amherst, MA 01003

## Cancellations

Continuing Education courses are funded solely by the fees students pay. Unfortunately, each semester there are

courses in which enrollments are not sufficient to compensate faculty. These courses will be canceled at the discretion of the Division. To allow students time to enroll in other courses, decisions to cancel courses are made as soon as possible after in-person registration on the basis of the number of enrollments at the time. **Students are therefore urged to register as early as possible** in order to give as accurate an assessment as possible of the number of students who want to enroll in each course. Those students affected by course cancellations will be notified by mail. Students not wishing to enroll in an alternate course will receive a full refund as soon as it can be processed.

In the event of severe weather conditions or other emergencies, it may be necessary to cancel classes. Usually, when University day classes are canceled, evening classes are also canceled. Announcements will be made over the following radio stations:

Amherst—WTTT, WFCR, WMUA  
Greenfield—WHA1  
Hartford—WTIC  
Northampton—WHMP  
Orange—WCAT  
Springfield—WHYN, WACE, WSPR  
Ware—WARE  
Worcester—WTAG

The Division reserves the right to cancel, add, or combine sections of courses listed in this publication or to change instructors if necessary.

## CREDIT/DEGREES

### Credit

Credit offered through the Division of Continuing Education is resident University of Massachusetts credit unless otherwise stated. Credit courses numbered 500 and above are graduate level. Some double-numbered courses, such as COMSTU 225/525, may be taken for either undergraduate or graduate credit. It is important that students indicate only one of these numbers—the one corresponding to the level of credit desired.

### Degrees

The Division of Continuing Education offers part-time study which may lead to any undergraduate degree currently offered by the University of Massachusetts. The Bachelor of General Studies Degree, also conferred by the University of Massachusetts, is a degree unique to the Division of Continuing Education. See BGS, page 22.

### Matriculation Policy

The Division of Continuing Education has an open admissions policy requiring only a high school diploma, or its equivalent, for enrollment in undergraduate courses. Matriculation, or acceptance as a degree candidate, however, is based on a satisfactory performance (grade point average of 2.0 or better) in a specified number of University of Massachusetts courses, and declaration of a program of study.

Students not planning to transfer into the University's full-time program and who anticipate receiving a baccalaureate degree through the Division of Continuing Education should apply for matriculated status as soon as they have completed the appropriate number of credits (see next page).

## DIALOGUE '77

A LOW COST, HIGH QUALITY RESOURCE  
FOR INDIVIDUALS AND ORGANIZATIONS

Dialogue '77 offers a series of options which provide the opportunity to discuss issues of social concern. These issues include questions of community, leadership, the American Revolution and freedom. A reading and discussion format structures six of the workshops while the viewing and discussion of a film structures the other nine workshops. The approach is lively, informal, non-academic, and is planned to interest people from various walks of life and engage them in discussions of current social issues. For additional information contact Dialogue '77, Division of Continuing Education, 314 Hills House North, University of Massachusetts, Amherst, MA, phone (413) 545-3420.

Application for matriculated status at the earliest possible stage will allow the Division to do a better job of helping the student in the planning of his or her program of study, as well as promote a greater awareness within the Division of what courses should be offered both on and off campus to meet student needs.

Bachelor of General Studies (BGS) students must have an approved BGS Proposal on file with the Division of Continuing Education prior to matriculation.

| Number of Transfer Credits | Number of UMass/CE Credits Needed to Apply for Matriculated Status |
|----------------------------|--------------------------------------------------------------------|
| 60 or more                 | 15                                                                 |
| 48-59                      | 18                                                                 |
| 36-47                      | 21                                                                 |
| 24-35                      | 24                                                                 |
| 12-23                      | 27                                                                 |
| 0-11                       | 30                                                                 |

Further information and an application may be obtained from the Records Office of the Division of Continuing Education, located in the lobby of Hills House, telephone (413)545-3653.

## Core Requirements

The University of Massachusetts core is a block of at least 33 credits within the specified 120 credits needed for graduation. Students must complete core requirements by taking certain specified courses in several fields of learning. An introduction to the humanities and fine arts, for instance, may be fulfilled by the successful completion of at least three courses chosen from those identified by the letter "C" after the course title. Core courses are distributed as follows.

- B Core: 6 credits in written and spoken English, usually offered by the Rhetoric Department. These courses are identified by the letter "B".
- C Core: 9 to 12 credits in humanities or fine arts, generally from the departments of Afro-American Studies, Art, Classics, Comparative Literature, English, History, Linguistics, Music, Philosophy and designated foreign literature courses. These are identified by the letter "C".
- D Core: 9 to 12 credits in social or behavioral sciences, generally from the departments of Afro-American Studies, Anthropology, Economics, Political Science, Psychology, and Sociology. These are identified by the letter "D".
- E Core: 9 to 12 credits in mathematics or natural sciences, generally from the departments of Astronomy, Botany, Chemistry, Mathematics, Physics, Statistics, and Zoology. These are identified by the letter "E".

*Note: Consult with a Student Services counselor to determine if the chosen major is one that requires 12 credits in each of the "C", "D" and "E" areas.*

Courses in this catalog which may be applied toward the completion of University core requirements are designated by a capital letter, in parentheses, following course titles as they appear in the Academic Extension course descriptions.

## Overloads

The Division of Continuing Education exists to help meet

the needs of part-time students and uses an open admissions policy requiring only high school graduation or its equivalent. Policy therefore normally restricts Continuing Education students to enrollment in a maximum of three separate courses in any one semester.

Exceptions to this policy will be considered only if students fill out a petition for overload (available from any student services counselor) and supply transcripts or grade reports showing prior performance in college or university courses. These records and the petition will be assessed by a counselor who will provide the student with a letter approving or denying the overload request.

Please be aware that late applications for overload or delay in presenting necessary documents may prevent students from registering before the end of the add-drop period.

Continuing Education students may register for regular University of Massachusetts courses if space is available.

## Credit Options

### Individualized Study

Individualized study is designed to provide an opportunity for Continuing Education students to fulfill credit requirements by working on an individual basis with an instructor.

Individualized study contracts may be undertaken in a special problems area, or for approved University courses.

Students may register at any time for individualized study by completing an Individualized Study Contract, available from the Division of Continuing Education, and by obtaining the necessary signatures. In each case, the program of study should be formulated by mutual agreement between the faculty member and the student. Such courses of study must be completed within one calendar year of the registration date or an incomplete will be recorded and computed as a 0.0 in the student's cumulative average. An individualized study fee of \$5 is charged for each registration in addition to the standard per credit fee of \$35.

Graduate level Individualized Studies must be approved by the Dean of the Graduate School. Return completed contracts to the Coordinator of the Individualized Study Program prior to payment.

Information for individualized study may be obtained from Garrett J. McAuliffe, the Coordinator of Individualized Study Programs, Room 101, Hills North, 545-3430.

### Response Programming

Any organization or group of individuals may make a request for a specific course to be offered through the Division. Courses can be arranged to suit most schedules and may be offered in any suitable location as long as there is sufficient enrollment. Response courses can be requested by contacting the Director of Evening College. Phone numbers may be found on page 2.

### Auditing

Students may choose to audit a course and have that audit recorded on the permanent record as an "AUD" provided that: 1) the student officially registers and pays all course fees; 2) the student officially elects the class as an audit (all requests must be submitted to the Continuing Education Records Office by the end of the Add/Drop Period, Feb. 7, 1977); 3) the student satisfies the instructor regarding his or her preparation and motivation for auditing the class; 4) the student satisfies all the criteria for

a successful audit as stipulated in advance by the instructor.

### College Level Examination Program (CLEP)

CLEP is a national program of credit-by-examination that offers the opportunity to obtain recognition for college-level achievement, no matter when, where, or how learning has been acquired—by means of formal or informal study. If the results are acceptable, college credit is given, applicable toward an undergraduate degree.

CLEP general exams are available in the areas of English Composition, Humanities, Social Studies, History, Natural Sciences, and Mathematics. There are over 30 subject exams in a wide variety of fields. All exams are given monthly on the University of Massachusetts/Amherst campus. Test fees are \$20 for one General or one Subject Exam; \$30 for two; and \$40 for any combination of three to five.

Further information and registration forms may be obtained from the Division of Continuing Education, 545-3430, or the Community Development Center, Berkshire House, 545-0333. In order to have the test scores sent directly to the Division of Continuing Education, place the number "3945" in the Score Report College Code box on the CLEP registration form.

### Pass/Fail Option, Continuing Education

Continuing Education students are eligible to use a pass/fail option in one course each semester. The student may elect to take up to and including five University core requirement courses on a pass/fail basis. In a course in which a student chooses the pass/fail option, the instructor will not be informed that the course is being taken pass/fail. At the end of the sem-

ester the instructor will turn in the letter grade earned. At this time, if a grade of A through D has been reported, the Records Office will record either a "P" or the letter grade on the student's permanent record, whichever is more beneficial to the cumulative average of the student. **All requests to employ the Pass/Fail Option must be filed with the Continuing Education Records Office prior to the end of the Add/Drop Period (February 7, 1977).**

### Pass/Fail Policy, School of Education

The majority of courses given under the supervision of the School of Education, both graduate and undergraduate, are graded on a pass/fail basis only. This is not optional on the part of the student except in the following special case. Master's degree students enrolled at the University of Massachusetts are required by Graduate School policy to earn 18 graded credits during their 33-hour Master's program. A student eligible to receive a letter grade should make the request known to the instructor early in the semester so that the grade may be added to the roster at the end of the course.

Please do not request exceptions to the pass/fail policy. The School of Education understands that there may be a number of institutions which simply do not accept the pass/fail mark. In these cases, the student should contact the instructor and request a letter which states that the School of Education is on a pass/fail basis but indicates what the grade would have been if the student had been taking the course for a grade.

If further information is desired regarding the School of Education pass/fail policy, call or write Mike Schwartz, 125B Education Building, University of Massachusetts, Amherst, Massachusetts 01003, phone 545-2701.

## EXPENSES

Course fee for each three credit course is \$105. Massachusetts residency does *not* affect the course fee. *Any other course fees are as stated in the course description or in the Schedule of Courses.*

|                                               |              |
|-----------------------------------------------|--------------|
| <b>Course Fee (for a three credit course)</b> | <b>\$105</b> |
|-----------------------------------------------|--------------|

The following fees are not refundable except for officially cancelled courses. Explanations of optional fees are in the section following.

|                                                     |             |
|-----------------------------------------------------|-------------|

# PRACTICAL BEEKEEPING

Practical Beekeeping introduces the student to the biology and behavior of the honey bee, with an emphasis on those aspects which have some application to practical management. A method of management is presented and practical experience in handling bees is given in the labs. Students may, if they wish, purchase a hive with bees. This course is given in cooperation with the Department of Entomology on Thursday evenings for three credits.

ENT 226

## Refunds

Even though a student drops a course after in-person registration, instructional and other costs must be met. Therefore **Refunds** of course fees are adjusted according to the following schedule:

### Refund Schedule

|                       |           |
|-----------------------|-----------|
| January 26-February 8 | 80%       |
| February 9-15         | 60%       |
| February 16-22        | 40%       |
| February 23-March 1   | 20%       |
| After March 1         | NO REFUND |

Refunds for course drops made by mail will be computed according to the date of postmark.

There are two exceptions to the refund policy: (1) a student involuntarily called to military service before the completion of a course will be given a pro rata refund of course fees; (2) students enrolled in courses which are cancelled due to lack of enrollment will be given a full refund.

## Explanation of Optional Fees

The Division is pleased to be able to make available the following University services and programs for Continuing Education students. These programs and services are optional. Payment instructions for each are listed below.

### Fine Arts Fee

Each year the Arts Council brings to the Amherst campus some of the world's most renowned performing artists. Artists who will be performing during the 1976-77 season include: Chicago Symphony, Leontyne Price, PDQ Bach, Royal Winnipeg Ballet, Count Basie, Boston Symphony, Alwin Nickolaï Dance Co., Dave Brubeck, and Julian Bream. Payment of the Arts Council fee allows students to purchase tickets with a 50% discount.

### Health Services Fee

University Health Services staff are responsible for the direct provision of a wide range of integrated services. Primary care physicians serve as family doctors and coordinate the nature and extent of services to assure quality care, whether

it is provided in the Health Center or under the supplementary insurance program. Laboratory, x-ray, physical therapy, pharmacy, specialty clinics, inpatient facilities, and other services are also available at the Health Center.

The student health program also provides mental health consultation, including short-term and group psychotherapy, a dental program, health education activities in such areas as drug use, nutrition, common health ailments and human sexuality, and an environmental health and safety monitoring unit.

The Health Services Fee is \$46 for Spring semester only (effective date: January 27, 1977), and is payable to the Division at the time of registration. **Students must enroll for at least six credits to be eligible.**

### Health Insurance Fee

The Chicago Insurance Company offers University of Massachusetts students a hospital, surgical, and medical program to supplement the on-campus care provided by University Health Services. This insurance provides protection from January 27, 1977, to August 31, 1977, for specific medical expenses due to injury or emergency illness which causes loss that commences while the policy is in force, including university holidays, summer vacation, and other times when the student is away during the insured period.

This insurance plan offers liberal benefits for services provided by participating physicians and hospitals. The Cooley Dickenson Hospital and groups of general and orthopedic surgeons have entered into an agreement with University Health Services to provide high quality services at no additional cost to the subscriber. Emergency treatment and *authorized* specialist services in a non-participating hospital and by a non-participating physician, however, are covered to \$5,000 per occurrence. The insurance brochure is available from the Division of Continuing Education or University Health Services.

**Note:** Services obtained outside the University Health Center must be authorized in advance by a physician participating in the health plan in order to receive coverage from this insurance.

The cost for January 27, 1977-August 31, 1977, is \$34. Students must pay the Health Services fee of \$46 in order

LING 211 CORE

## Psycholinguistics - Language Acquisition

*When I tried to express my meaning by crying out and making various sounds and movements, so that my wishes should be obeyed, I found that I could not convey all that I meant or make myself understood by everyone whom I wished to understand me.... I noticed that people would name some object and then turn towards whatever it was that they had named.... So, by hearing words arranged in various phrases and constantly repeated, I gradually pieced together what they stood for, and when my tongue had mastered the pronunciation, I began to express my wishes by means of them.*

— St. Augustine, *Confessions*

How does a child learn language? This course explores a number of current theories of language acquisition and attempts to evaluate them in the light of current data. Study includes the possible uses of current theories in the more practical fields of communications disorders and reading. Was St. Augustine's theory right? Find out. This course is offered in cooperation with the Department of Linguistics on Thursday evenings for three credits.

to purchase the insurance, the fee for which is payable to Continuing Education at the time of registration. Health insurance for the above period is available only to students who are registering for the 1976-77 academic year for the first time this spring—it is **not** available to students who were enrolled in Continuing Education in the fall 1976 semester and who were eligible for insurance and chose not to use that option.

#### Dependents Health Services Fee

Students who pay a Health Services fee are eligible to enroll their dependents (spouse and/or children) in the Health Services Program. The payment of this fee will allow the student's dependents to receive the same comprehensive health services presently available to students at the University Health Center. Interested persons should contact the Business Office of the University Health Center.

#### Physical Education Fee

Continuing Education students may pay a \$5 physical education fee, which entitles them to use facilities such as pools, bowling alleys, or gyms, and equipment if it is available. A locker or basket may be obtained on a space-available basis. All services and facilities are regulated by the School of Physical Education, and Continuing Education students are expected to conform to established policies.

Payment should be made to the Ticket Office in Boyden Gymnasium, and the receipt taken to the Intramural Office where an I.D. card will be issued.

#### Picture Identification Cards

Picture I.D. cards will be available to all Continuing Education students at a cost of \$1. These cards are not mandatory for all students, but are essential when charging books out of the University Library. A picture I.D. card also provides handy identification when on campus and allows the student to cash checks (\$25 maximum) at the Student Union.

All students wishing to obtain a picture I.D. card must go to the Continuing Education Records Office, Hills House Front Lobby, to obtain a receipt of \$1 payment and a verification of student number. Students will need a second form of identification when the picture is taken. Finished cards may be picked up in 24 hours at the Continuing Education Records Office. The cards will be validated each semester.

Students who already have a Continuing Education picture I.D. card from a previous semester may obtain a validation sticker for the spring semester at the Records Office once spring registration has been completed.

I.D. Office staff members will be available to take pictures for Continuing Education students during the following days and hours:

##### *In-Person Registration*

January 11, 12 & 13

Tues., Wed., & Thurs., 9 a.m.-4 p.m./169 Whitmore  
6 p.m.-8 p.m./Hills Main Lobby

##### *Prior to the first day of classes/169 Whitmore*

January 17-21 & 24

Monday-Friday, 9 a.m.-4 p.m.

##### *After classes start/169 Whitmore*

February 7 and thereafter

Monday-Friday, 9 a.m.-4 p.m.

Continuing Education students are urged to make every effort to obtain picture I.D. cards during the hours specifically set for them.

## Parking Costs

### Amherst

Any student who registers for a class held on campus between the hours of 7 a.m. and 6 p.m. and who plans to park a vehicle on the Amherst campus must either obtain a parking decal from the University Parking Office (room 1, Munson Hall), park in the Campus Center Parking Garage (on a fee per hour basis), or use metered space. The rates and privileges for parking are determined by the University. Access to all *legal* spaces in parking lots is not restricted after 6 p.m. or on weekends, and no fees need be paid for vehicles which will be parked during those times only.

### Holyoke

Campus parking requires a parking permit, applications for which may be obtained at in-person registration. Those who are registering by mail may request a parking permit application and it will be sent by return mail. The parking application may be taken to the Security Office, Building E, HCC, and a permit will be issued at no charge.

## Textbooks

### Amherst

The Textbook Annex of the University of Massachusetts stocks books for Continuing Education courses and has extended its hours for the convenience of Continuing Education students. The Annex is arranged alphabetically by department and numerically from the lowest course number to the highest course number within the department. Information on books will be posted in the Annex. Blue counter cards signify Continuing Education courses.

The University Store and Textbook Annex hours for spring are listed below.

|        |         | <i>Store</i>   | <i>Annex</i>   |
|--------|---------|----------------|----------------|
| Mon.   | Jan. 24 | 9 a.m.-9 p.m.  | 9 a.m.-5 p.m.  |
| Tues.  | Jan. 25 | 9 a.m.-9 p.m.  | 9 a.m.-9 p.m.  |
| Wed.   | Jan. 26 | 9 a.m.-9 p.m.  | 9 a.m.-9 p.m.  |
| Thurs. | Jan. 27 | 9 a.m.-5 p.m.  | 9 a.m.-9 p.m.  |
| Fri.   | Jan. 28 | 9 a.m.-5 p.m.  | 9 a.m.-5 p.m.  |
| Sat.   | Jan. 29 | 11 a.m.-3 p.m. | 11 a.m.-3 p.m. |

From January 31 to the end of the term, the University Store will be open Monday-Friday, 9-5, Saturday, 11-3 (Saturday schedule may vary).

From January 31, February 4, the Textbook Annex will be open Monday-Friday, 9-5, no Saturday hours. From February 7 to the end of the term, the Annex will be open Monday-Friday, 9-4.

### Holyoke

Textbooks are available at the HCC Bookstore. In addition, students have complete access to the college library upon presentation of a current University of Massachusetts Continuing Education Identification Card.

**REGISTER EARLY  
REGISTER BY MAIL**

## STUDENT SERVICES

### Orientation for CE Students

Wednesday, January 19, 1977 (the Wed. before classes begin)

7:30 p.m., Hills House Lobby

Student orientation is your opportunity to meet many of the people from Continuing Education—both staff members and fellow students. Orientation is also a chance to find out about the Division's programs, policies, and options for study, as well as the resources of the rest of the university, such as tutoring, the library, etc. A slide presentation will be shown at 7:30 p.m., and refreshments will be served.

### Counseling Services

The counseling staff of Student Services is available to aid students in planning their educational and/or vocational goals. A counselor will be available in Amherst Monday-Thursday, 9 a.m.-7 p.m.; Friday, 9 a.m.-5 p.m.; and on Saturday by appointment.

#### General Counseling Staff

Joan P. Eignor  
Director of Student Services  
100A Hills House North  
(413) 545-3430

Harry Neunder  
103 Hills House North  
(413) 545-3430

Garrett J. McAuliffe  
101 Hills House North  
(413) 545-3430

#### Receptionist

Carolyn Canty  
100 Hills House North  
(413) 545-3430

Although an appointment is not necessary, it will help us if we know you are planning to come.

### Off-Campus Counseling

Continuing Education students and others who may be interested in receiving academic counseling off campus may meet with Harry Neunder of the Student Services staff at Holyoke Community College, 2-7 p.m. on Monday, February 28; Tuesday, March 29; and Wednesday, April 27. Call 545-3430 for appointments and for the specific room location at Holyoke Community College.

### Financial Assistance

#### University Financial Aid—Spring 1977

Continuing Education students carrying six credits or more

and working on a degree or certificate are eligible to be considered for financial aid. Assistance will be awarded on the basis of need and merit and will cover only direct educational expenses. Eligible students may receive aid in the form of National Direct Student Loans, and/or Basic Educational Grants (B.E.O.G.).

Students who wish to apply should:

1. Pick up a Financial Aid packet for Continuing Education Students from the Division of Continuing Education, Hills House North, Room 100.
2. Complete the Basic Educational Opportunity Grant form and submit it to the designated address for evaluation. **All students who have not completed a first bachelor's degree must submit this form.** The BEOG form takes four to six weeks to process, so plan accordingly.
3. **Completed applications**, with B.E.O.G. eligibility report attached (when applicable), and a copy of your 1975 1040 Income Tax Form should be returned to the Continuing Education Records Office in the lobby of Hills House North no later than January 21, 1977. A \$4 processing fee for computing the financial statement will be charged of all applicants. This fee is non-refundable and is payable to Continuing Education, XE-121, at the time of application.
4. **To avoid delays in processing, have you...**
  - a. computed your budget on a 4-month basis?
  - b. checked your arithmetic?
  - c. completed the entire form?
  - d. paid your \$4 processing fee?
  - e. included your B.E.O.G. eligibility index?
  - f. included your 1040 Income Tax Form from 1975?

Awards will be made by the fourth week of the semester, but there is a six to eight week waiting period for receipt of processed checks. It is the student's responsibility to make arrangements for maintenance costs in the interim. Please plan accordingly.

• • • • •  
• A representative from the UMass Financial Aid  
• Office will be in Hills House Lobby at the following time  
• to answer any questions about receiving financial aid.  
•  
• January 11, 10 a.m.-4 p.m.  
• • • • •

### Law Enforcement Education Program (LEEP)

In-service police officers, courts officers, and corrections officers may qualify for grants under the provisions of LEEP. Application forms, which must be submitted each semester, are available from Harry Neunder, 103 Hills House North, or from any member of the Student Services staff, (413) 545-3430. Completed forms must be returned to Mr. Neunder no later than Tuesday, February 8, 1977.

### Veterans Benefits

Courses offered for credit through the Division of Continuing Education are approved by the Veterans Administration, and veterans can therefore apply for educational benefits. There are, however, stipulations on benefits for independent study courses and courses not leading to a standard college degree. Students should contact the Veterans Affairs Office for more details. Continuing Education veterans may obtain the necessary forms and instructions for completing them by meeting with a student advisor from the Veterans Affairs Office on Tuesday and Thursday evenings, 5 p.m.-7 p.m.,

Room 100, Hills North. There is no deadline to file for benefits but the veteran should bear in mind that the processing of forms requires approximately eight weeks.

The Veterans Affairs Office offers many other programs and services which are available to Continuing Education veterans/students. For more information, please contact the office at 236 Whitmore Building, (413) 545-1346.

## IMPORTANT COURSE DESCRIPTION INFORMATION

The course descriptions which follow are those which appear in the University of Massachusetts course directory, or which have been approved by the academic departments for inclusion in this catalog. For more complete course information, students may visit either a Continuing Education academic counselor or the staff of the Evening College, both located in Hills House North.

It sometimes becomes necessary for the Division to cancel, add or combine sections of courses listed in this publication, or to change instructors.

ART 117 C CORE

*Art 117 is a basic introduction to art works and to the discipline of art history. It is organized topically rather than historically. The course is intended for individuals who have had no formal experience with the history or art, and who wish to broaden their experience of the visual arts.*

*Introduction to the Visual Arts deals with many aspects of a work of art, from rudiments of stylistic and formal analysis, to the examination of the progression of style through history; patronage, cross-influences, training and evaluation of the artist; criticism of the economics of art, iconography, and the connoisseur. The works of art to be examined will be drawn from both Western and non-Western traditions.*

*This course is offered with the cooperation of the Art Department on Monday evenings for three credits.*

# 12 Introduction to the Visual Arts

## EVENING COLLEGE COURSES

### ACCOUNTING

#### Introduction to Financial Accounting ACCTG 120

Introduction to principles underlying the preparation of financial statements.

#### Introduction to Managerial Accounting ACCTG 130

Continuation of Accounting 120 with major emphasis on the development and application of accounting data for planning and control.

#### Business Applications of Computers ACCTG 210

Basic business data processing methods with emphasis on general business problems and their application to the COBOL language. Prerequisites: Acctg 120, 130 and Acctg 110.

### AFRO-AMERICAN STUDIES

#### Survey of African Art (C) (Holyoke) AFROAM 111

The literature on African art and an analysis of both the theoretical basis for its study and of the distinguishing characteristics of its major traditions. An historical survey of Black art from prehistoric times (5000 B.C.) to the European arrival. The neo-traditional art and the tourist trade.

#### Afro-American Literature and its Cultural Roots (C) AFROAM 151

The relevant forms of Black cultural expression contributing to the shape and character of contemporary Black Culture; the literary application of these in traditional Black writers. In four parts: (1) West African cultural patterns and the Black past; (2) the transition—slavery, the culture of survival; (3) the culture through the literature; and (4) Black perceptions vs. white perceptions.

### ANTHROPOLOGY

#### Introduction to Archaeology (D) ANTH 102

The history, methods and theory of archaeology, with an outline of the main characteristics of the prehistoric record throughout world.

#### Introduction to Cultural Anthropology (D) ANTH 104

Social and cultural anthropology dealing with variations among societies in technology and economics, social and political organization, art, religion, and ideology.

#### Human Evolution ANTH 371

The mechanisms of evolutionary change, the fossil and archaeological evidence bearing on man's evolution, and an evaluation of the various interpretations of the evidence. Prerequisite: Anth 103.

### ART

#### Drawing Composition (C) ART 102

Continuation of Art 100. Emphasis on pictorial composition and advanced drawing techniques. 6 studio hours.

#### Introduction to the Visual Arts (C) ART 117

The diverse media of the visual arts from a topical rather than a strictly historical viewpoint. The fundamental techniques of formal and stylistic analysis; surveys a wide range of topics in the context of the relation of art objects to their cultures, creators, critics and public.

#### Design I ART 210

Introduction to graphics, interior layouts, normative and descriptive elevations, 2- and 3-point perspective drawing, architectural measurement and theory of proportion. Lab Fee: \$3.

#### Design II ART 211

Advanced elevations, layouts and perspectives; freehand perspective, theory of color, light. Prerequisite: Art 210. Lab Fee: \$3.

#### History of Decorative Arts ART 215

A history of the development of the decorative arts with emphasis on the decorative arts of the European tradition from the Renaissance to modern times. Historical development of styles as reflected in furniture, ceramics, weaving, and the other decorative arts.

#### Painting I (C) ART 220

Course for beginners and those with experience in painting. Includes work with acrylics, a fast drying paint which can be used on a variety of surfaces. Develops skills in the use of color. Emphasizes personal visual expression. Prerequisites: Art 100, 120. 6 studio hours.

#### Arts Management ART 290R

For a detailed description of Art 290R, please see page 39.

#### American Art (C) (Section 1, Amherst; Section 2, Holyoke) ART 295

The earliest colonial art, the impact of later European influences, regional art of the 19th and 20th centuries, and contemporary developments.

### ASTRONOMY

#### Exploring the Universe (E) (Holyoke) ASTRON 100

Not open to Physical Science or Engineering majors. The earth, its structure and age, the moon, the sun, other planets and the origin of the solar system. Stars and galaxies, their birth and death. The universe, its structure and evolution. Supplemented by occasional hours of evening observation.

#### The Solar System (E) ASTRON 101

Earth, moon, tides, laws of motion, planets and satellites, the sun. Origin of the solar system and current theories of the origin of life.

### BACHELOR OF GENERAL STUDIES

#### Women and the Life-Career Process (Back To School—Into The Job Market) BGS 100B

Life planning and career development, with occupational, not political base, specifically for women entering or returning to higher education and/or world of paid work. Women's self-development, changing social positions, roles in work both inside and outside the home, and needs for continuing education. Professionally planned personal development process.

## Occupational Safety and Health Management BGS 201

Recognition, evaluation and elimination of Occupational Safety and Health hazards through the application of program management. Recent Occupational Safety and Health legislation (OSHA) with focus on the potential hazards in the occupational environment, the effects of excessive exposure and basic types of hazard control mechanisms.

## Contemporary Practices in Corrections BGS 220A

Based on various innovative rehabilitative efforts for offenders at the state, local, and national levels. Course covers, but is not limited to, investigation of the implications of work release, education release, and human development programs within institutions, and the recently instituted enlightened offender sentencing procedures. Students explore the effects of these programs on police and courts practices and policies. Covers program case studies, augmented by presentations from participants in new programs currently in operation. Designed primarily for those working toward the BGS in Criminal Justice. Others are welcome.

## A Criminal Justice Study in Victimization BGS 221A

Crime affects the lives of countless thousands of victims every year. The presence of these victims has important implications for the criminal justice, social service and health agencies that provide care for crime victims and their families. Course is designed to identify crimes and their victims, to explore myths about victims, to develop insight into the meaning of victimization, to identify local and national resources available for victims, and to study legislation concerning crime victims. Special attention is given to victims of sensitive crimes like rape and child abuse. Provides a shift in emphasis from studies that focus on the offender. Designed primarily for those working toward the BGS in Criminal Justice. Others are welcome.

## BOTANY

### General Botany BOTANY 101 (E)

An introduction to basic biological principles of organization, development and evolution, using botanical illustrations. The foundations and approach in biological research, and the consequence of this research on human thought and experience. Not open to science majors without permission of major departments. Not to be taken serially with Botany 100. Lab Fee: \$2.

## SITUATION:

The Bolshoi Ballet and Dave Brubeck have just offered to do a joint performance in your community if you will make the necessary arrangements.

## QUESTION:

What do you say?

## ANSWER:

HELP!

If you need assistance with technical or management problems in your arts organization, or would like to discuss the possibilities of bringing the arts into your community, call us. We're here to help when you need us.

Coordinator of Consulting  
Arts Extension Service (413) 545-2013

## COMMUNICATION STUDIES

### MASS COMMUNICATIONS

#### Introduction to Mass Communications (D) COMSTU 121

Includes history and development, structure, roles, and functions. Standards for evaluation of the mass media.

#### Small Group Communication COMSTU 202

The theory and process of small group communication. Practical application to group discussion; leadership; and problem-solving.

#### Persuasion Theory (Holyoke) COMSTU 204

How attitudes are formed and changed through speech communication. An appropriate ethic of persuasion in today's society.

#### History and Development of the Motion Picture COMSTU 225

Evolution of the motion picture as an international art form and social force. Analysis of form, technique and impact of film. Selected screening of representative film styles and content. Lab Fee: \$10.

## COMPUTER AND INFORMATION SCIENCE

#### Introduction to Problem Solving Using the Computer (E) COINS 122

Problem-solving and FORTRAN programming for students from all disciplines. Concepts associated with problem-solving valid for many types of problems. Use of FORTRAN on the UMass time-sharing system. Laboratory included. Credit: 4. Lab Fee: \$10. Course Fee: \$140.

#### Assembly Language Programming COINS 201

Basic ideas of computer hardware and principles of computer systems organization, logical design, elementary data structures, and assembly language programming. Lab involves hands-on experience with programs, loaders, and assemblers. Prerequisite: Coins 122 or programming experience. Credit: 4. Lab Fee: \$10. Course Fee: \$140.

## ECONOMICS

#### Introduction to Microeconomics (D) ECON 103

Introductory analysis of resource allocation and income distribution through microeconomic theory. Specific problems illustrate use of the theoretical precepts developed.

#### Introduction to Macroeconomics (D) ECON 104

An introduction to the economic theory used to explain the behavior of the American economy. Emphasis on the macroeconomic goals of full employment, price stability, economic growth and balance of payments equilibrium.

#### Money and Banking (D) ECON 211

The development and operation of the monetary and banking systems of the United States; problems of achieving full employment and price stability through monetary controls. Prerequisite: Econ 104.

#### Regional Economics (D) (Holyoke) ECON 281

The process of regional economic growth; location theory and basic techniques of regional analysis; public and private area development programs. Prerequisite: Econ 103 recommended.

## State and Local Public Finance (D) (Holyoke) ECON 314

State and local government revenue and expenditure programs. Individual research projects relating to Massachusetts or surrounding states required. Prerequisite: Econ 100 or 103.

## EDUCATION

### Photography I EDUC 290A

Intense workshop experience in photography. Lecture and lab (dark-room) scheduled for each class meeting. History of photography. Criticism of photography and visual literacy. Students complete all reading assignments and produce a portfolio to complete the course. Additional lab times scheduled outside of the regular class time.

### How to Survive as a Teacher in Your School and System EDUC 290N

A practical introduction to school organizations, and the teacher's place in them. Includes: conflicting roles for the teacher; trouble-shooting; getting along—strategies and theories.

### Management and Change EDUC 590M

Characteristics of the systematic approach to educational change; alternative approaches toward educational change; resistance to change; diagnosing positive and resistive forces associated with change; application to a specific change effort in which the participants are involved.

## DESIGN EFFECTIVE LEARNING CLUSTER

### Aesthetic Elements in the Teaching Learning Process EDUC D 205

Enables teachers to increase their creativity and use of the arts in the classroom through improvisation workshops, discussions, readings and curriculum projects.

### Principles and Methods of Teaching Elementary Science EDUC D 262

An introduction to basic science teaching methods and curricula as related to the development of scientific thinking in children. Topics include: development of causal thinking in children (and general cognitive development); survey of innovative approaches in science teaching; introduction to major laws and principles in physics, chem-

istry, biology, and geology; approaches to teaching integrated science; integration of science with other aspects of the curriculum.

### Models of Early Childhood Education EDUC D 290N/D 590N

An introduction to early childhood education through eight rather distinct models which were a part of a national demonstration experiment carried out by the Office of Child Development entitled "Planned Variation." Students analyze each model on the basis of its theoretical underpinnings, and explore the extent to which its curriculum expresses that basic. Implications for daycare, preschool, and lower elementary education.

## HUMAN APPLICATIONS CLUSTER

### Human Relations in the Classroom EDUC H 220/H 520

For teachers, counselors, group leaders, educators, focuses on five specific skill-building areas in Humanistic/Psychological Education: the Teacher as Consultant; the Teacher as Counselor; the Teacher as Group Facilitator; the Teacher as Curriculum Designer; and the Teacher as Change Agent in the Schools. Theoretical orientation is Gestalt-existential with an emphasis on systems approaches to learning and change. Applications of developmental theory is also stressed.

### Family Counseling EDUC H747

Basic approaches to family counseling including communications, psychoanalytical and behavioral theories.

## EDUCATIONAL POLICY STUDIES CLUSTER

### Foundations of Education EDUC P 251

A study of selected problems and issues in modern education, such as educational aims, societal expectations of the schools, church-state relations, professionalism, academic freedom, curriculum and methodological emphasis, and urban educational innovation. Examines alternatives of attitude and action in critical situations in education. Considers resources available from philosophy, psychology, sociology, and history of education. Objective is to formulate realistic personal and professional goals for teaching.

### Curriculum Models in Early Childhood Education EDUC P 390D/P 690D

The purposes, structure and methods of five current early childhood education models are examined. Includes beliefs assumed by each model about the nature of child development and learning, the importance of education, and the nature and purpose of child care and early education.

Music 253 traces the history of jazz theory and performance from the African roots through contemporary practices. Emphasis is placed on those artists who have initiated or consummated significant developments. Most class time is devoted to listening and analysis/discussion, with evaluation based primarily on the extent of participation in discussion. The History of Jazz is offered in cooperation with the History Department on Monday evenings for three credits.

history of  
JAZZ

**Child/Environment Interaction: The Design of Physical Space and Materials for Young Children EDUC P 790D**

Develops a means of thinking about space and objects in order to: understand their influences; improve their educational value; make them more inviting; help the child cope with space-object problems; as well as generally to gain fuller and more effective use of these dimensions to meet the individual needs of children. Lab Fee: \$3.

**TRANSDISCIPLINARY CLUSTER**

**Improvisational Drama in Educational and Therapeutic Environments EDUC T 290S**

Creative drama and movement for use in therapeutic and educational environments. Emphasizes drama as a means of communication, self-expression and problem-solving. Uses theater games, mime, movement and story enactments to expand intuitive and imaginative capacities in order to develop those capacities in others.

**Diagnosis of Reading Disabilities EDUC T 575**

A study of current standard reading tests, special diagnostic screens for physical difficulties (vision, hearing, speech) and informal assessments of language abilities. A research review defining diagnostic differences between the reluctant readers and readers with severe learning problems. Each student in the class will work outside of class in a Diagnostic Module for Classroom Teachers which includes reading skills and strategies as well as techniques for writing criterion test items in the classroom. Prerequisite: one completed year as a classroom teacher.

**ENGLISH**

**Nature and Literature (C) ENGL 161**

Literature that deals with man's relationship to his environment. Topics may include changing conceptions of nature, changing attitudes toward nature. Readings may include works by Conrad, Darwin, Thoreau, Shakespeare, Frost, Homer, Faulkner.

**The Modern Novel: 1930-1960 (C) ENGL 262**

Analysis of some twelve novels. A continuation of Engl 261, but may be elected independently.

**American Folklore (C) (Holyoke) ENGL 281**

Oral traditions in America, with emphasis on surviving British lore, American Indian lore, Negro lore, and recent folk materials.

**Literature and Psychological Criticism (C) ENGL 284**

An examination and application of theories and techniques of psychological criticism to selected works of literature. The theoretical focus is psychoanalytic (Freudian); other theories (Jungian, phenomenological, existential) used as time permits.

**Creative Writing ENGL 341**

Intensive practice in writing prose fiction, poetry, and occasionally other forms, supplemented by discussion of ideas and techniques in contemporary literature. Lab Fee: \$5.

**ENTOMOLOGY**

**Insects and Man (E) (Holyoke) ENT 126**

Survey of the field: structure, development, evolution, classification, biology, and natural control of insects. Formation of an insect collection.

**Practical Beekeeping ENT 266**

Honeybees and their relatives, structure and biology of bees, methods of management, diseases, pollination, queen rearing, honey production, and history of beekeeping. Prerequisite: Ent 126 or permission of instructor. Lab Fee: \$2.

**FOOD & AGRICULTURAL ENGINEERING**

**Housing Design and Construction FDAGEN261**

Space arrangement, construction materials, construction problems and discussion, utilities, financing, maintenance and remodeling. Emphasis on planning and evaluation procedures and factors. Lab Fee: \$8.

**FOOD & RESOURCE ECONOMICS**

**World Food and Natural Resources (D) F&R EC 110**

Introduction to the natural, economic, and sociopolitical forces influencing world food and biological resource development. Potentials for meeting pressures on resources.

**FRENCH**

**Elementary French FRENCH 120**

For those with no previous creditable training in French. Intensive practice in the four language skills.

**GENERAL BUSINESS & FINANCE**

**Corporation Finance GB FIN 201**

Corporate financial behavior; appraisal of factors affecting decision-making regarding sources and application of funds; introduction to capital budgeting and cost of capital problem. Prerequisite: Acctg 125 or permission of instructor.

## **Principles of Insurance** **GB FIN 230**

Risks encountered by individuals and business firms and methods and institutions which have been established to insure against financial losses. Various forms of insurance are studied primarily from the buyers' point of view.

## **Introduction to Law** **GB FIN 260**

The nature, functions and limits of law. Various theoretical approaches to law as an important institution in society. Selected problems of law, power and stratification and the relationship of law and values in society. Analysis of the administration of law through legislation, administrative agencies and courts.

## **GEOLOGY & GEOGRAPHY**

### **History of Life (E)** **GEOL 107**

The adaptations of selected lineages of animals to the changing environments of the geologic past. Emphasis on those groups which best illustrate evolutionary principles or unsolved problems. Not open to those who have taken Geol 240. Lab Fee: \$4.50.

## **GERMAN**

### **Elementary German** **GERMAN 110**

For the non-German major who has no previous training in German. Emphasis on understanding and reading. Sequence to be followed: German 110, 120, 130, 140.

## **HISTORY**

### **European History, 1815 to the Present, with Films (C)** **HIST 141**

The historical development of Western European thought and institutions. History majors are strongly urged to take this course before registering for advanced European courses.

### **New Approaches to American History (C)** **HIST 186**

Learning history by doing. Analysis of Lizzie Borden murder case.

### **History of American Westward Expansion, 1763-1893 (C)** **(Holyoke) HIST 333**

Advance of settlement from the Appalachians to the Pacific and the influence of the frontier upon social, economic, and political conditions.

### **United States Since Pearl Harbor (C)** **HIST 339**

Emphasis on political, economic, and social currents since World War II.

## **HOTEL RESTAURANT & TRAVEL ADMINISTRATION**

### **Food Service Management** **HRTA 211**

Practices used by the food service industry pertaining to purchasing, receiving, and issuing food, beverages, and other supplies. Principles of food and beverage cost control.

## **INDUSTRIAL ENGINEERING & OPERATIONS RESEARCH**

### **Safety Engineering** **IE 360**

Design of equipment facilities and processes to minimize accidents. Evaluation and design of fire prevention equipment and accident control procedures in organizations.

## **ITALIAN**

### **Elementary Italian** **ITAL 110**

For students with no previous creditable training in Italian. Intensive practice in language skills.

## **LEGAL STUDIES**

### **Introductory Legal Studies** **LEGAL 201**

Exploration of the purpose and functions of law and society: legal reasoning and decision-making; the impact of law; the relationship between power and law, and morality and law, problems of achieving justice in contemporary society. Sociology and problems of the legal professions. Legal phenomena in other than formal law settings. Lab Fee: \$4.

IE 360

# Safety Engineering

Safety Engineering acquaints the student with several aspects of safety in industry: historical background, present regulations, the literature of safety, product safety, safety and design, public interest groups, and the use of measuring devices (sound pressure meters, light meters, devices for taking temperature, pressure, and air samples).

Student groups will be assigned current readings, chosen to coordinate with individual interests. The course will be organized around the levels of the students who participate.

Students will learn how to do a literature search on the computer—no prior familiarity with the computer is required.

This course is offered in cooperation with the Department of Industrial Engineering and Operations Research on Thursday evenings for three credits.

The graphic features a large rainbow arching over the text, and a circular inset at the bottom showing a complex mechanical assembly with various gears and components.

## Intermediate Legal Studies

### LEGAL 202

Relationship of the individual to the state and society. Legal safeguards of personal dignity and autonomy and the limits on personal freedom when it conflicts with social values. Legality and ethics of group action to alter the relationship of the individual to the state. Lab Fee: \$4.

## LINGUISTICS

### Introduction to Psycholinguistics (C)

#### LING 211

Its theoretical foundations, methodology, and experimental techniques. Emphasis on the acquisition of language, child language and linguistic universals, and learning and perceptual strategies. Prerequisite: Ling 201.

## MANAGEMENT

### Principles of Management

#### MGT 201

Introduction to the fundamentals of the management of organizations. Survey includes behavioral background of formal organizational life, organizational design, integrating factors in collective behavior, organizational change, systems analysis, techniques of decision-making and control, the organization and its environment, and the nature of management theory.

## Personnel Management

### MGT 214

Principles and policies followed by management in recruitment, development, direction, and control of personnel.

### Managerial Behavior (Holyoke)

#### MGT 230

Principles of human behavior in organizations; understanding of one's self as a person and as a manager; development of interpersonal managerial skills. Prerequisite: Mgt 201.

### Administrative Theory (Holyoke)

#### MGT 231

Principles of administration, modern organization theories, specialization, functionalization, coordination, planning and control, authority status, leadership, decision-making, communication, and power-structuring. Prerequisites: Mgt 201, 230.

### Business and its Environment

#### MGT 265

A critical examination of the social, political, technological, and ethical issues confronting the contemporary manager and the modern corporation. Competing concepts of the role of business in society. Prerequisite: junior standing or permission of instructor. (Also listed as Gen Bus 265.)

### Women In Business

#### MGT 390E

A review of women's issues as they relate to business. Includes women in the workforce, sex differences, socialization, institutional barriers, the professions, women in management, women and the law, assertiveness, and affirmative action. Emphasis on active participation of class members.

## MARKETING

### Fundamentals of Marketing

#### MKTG 201

The role of marketing in our economic and social structure. The planning, distribution, pricing and promotion of goods and services to consumer and industrial markets viewed as internal activities of the firm, and as shaped by environmental forces.

### Marketing Communications (Holyoke)

#### MKTG 222

Development of effective marketing communication strategies based upon an understanding of the characteristics of audiences. Conceptual material from communications theory applied to advertising and other promotional problems. Prerequisite: Mktg 201 or permission of instructor.

## MATHEMATICS

### Topics in Contemporary Math (E)

#### MATH 110

A survey of several specific topics designed to acquaint the student with the general nature of mathematics. Topics may include logic and sets, mathematical systems, calculus, probability, statistics, linear programming, and game theory.

### Mathematics for Business II (E)

#### MATH 121

Integration, functions of several variables, and applications to business. Credit given for only one of the courses 117, 119, 121, 132, 136, 138. Prerequisites: Math 116, 120, or equivalent.

### Calculus for the Life and Social Sciences II (E)

#### MATH 128

Continuation of Math 127. Credit given for only one of the courses 117, 119, 128, 132. Prerequisites: trigonometry and Math 127.

## HIST 186 C CORE

# LIZZIE!

*Lizzie Borden took an axe,  
And gave her mother forty whacks.  
When she saw what she had done,  
She gave her father forty-one!*

On the hottest day of the summer of 1892, Lizzie Borden of Fall River, Massachusetts, hacked her father and mother to death with an axe. This brutal incident is the focus of an entire semester's work.

What drove Miss Lizzie to do it? The search for the answer leads deeper and deeper into the inner life of the Borden family, into the history of Fall River, and ultimately into the most basic questions of class structure and sexual politics in the Gilded Age. History 186, *New Approaches: Lizzie Borden*, gives students the opportunity to pose and answer questions through careful and intensive reading in a wide variety of primary sources.

History 186 is offered in cooperation with the History Department of the University of Massachusetts/Amherst for three credits on Thursday evenings.

## MUSIC

### History of Jazz

#### MUSIC 253

A history of jazz theory and performance from the African roots through contemporary practices. Emphasis on those artists who have initiated or consummated significant developments. Music performance ability and/or prior experience in the jazz idiom not required. Develops some vocal/instrumental jazz improvisation techniques.

### Electronic Music

#### MUSIC 385B

An introduction to electronic music—the whys, hows, and means to understanding and creating art in this medium. No previous knowledge in electronics or music required. Specific instruction on the Moog 15, and Synthi music synthesizers. Basic recording and studio techniques. Students compose music.

## NURSING

### Pathophysiology\*

#### NURSE 200B

Builds upon student's basic understanding of physiology. Introduces concepts of pathophysiology. Focuses on the ways in which the various pathological processes, such as obstruction and trauma, affect the human organism. Includes the effect and response at the cellular, tissue, organ, organ system and whole body levels. Emphasis on the formation of concepts of pathology rather than the particulars of system dysfunction or individual disease entities.

### The Nursing Process\*

#### NURSE 250

Provides an orientation to the Nursing Process as a concept which has evolved historically and as a method which subserves the Professional Practice of Nursing in all settings. An Associate Degree or Diploma Program does not have this content and this course is designed to provide the training needed for baccalaureate nursing practice. Clinical practice by arrangement. Credit: 6. Course Fee: \$210.

### Oncology Nursing (Springfield)

#### NURSE 290A

Explores pathophysiologic and psychosocial needs of both the child and adult with cancer—from prevention to care of the dying. Emphasizes the role of the nurse in providing physical, emotional and social support for cancer patients and their families.

### Currents in Nursing\* (Springfield)

#### NURSE 310

Events that shape the nursing profession are explored in light of 1) the historical development of the profession against the backdrop of society, 2) the accomplishments of the profession recognizing its problems and process, and 3) the responsibilities and commit-

ments of the members of the group for the future.

*\*Required for the bachelor's degree in Nursing at the University of Massachusetts/Amherst, but applicable to the degree only when the student is formally admitted to the Nursing Program.*

## PHILOSOPHY

### Introduction to Philosophy (C)

#### PHIL 105

Some of the most important general questions, ideas, theories, and methods of inquiry which have given direction to Western thought.

### Introduction to Logic (E)

#### PHIL 125

The nature of critical thinking, including the functions of language, the structure of deductive arguments, and a glimpse at inductive methods

### American Philosophy (C) (Holyoke)

#### PHIL 218

Examination by means of a study of selected original texts by the outstanding American philosophers, of their contribution to Western thought and American civilization.

### Philosophical Approaches to Science (E)

#### PHIL 240

An introduction to the results of philosophical analysis of scientific practice, and the bearing of these results on a general description of scientific methodology.

## PHYSICS

### Introduction to Physics: The World Beyond Our Senses (E)

#### PHYSIC 100

The universe in terms of its basic building blocks—atoms, nuclei, and "elementary particles." New views of nature derived from our ability to see and measure the world of the very small.

## PLANT & SOIL SCIENCES

### Plant Propagation

#### PLSOIL 110

The science of plant reproduction. Lab fee: \$10.

### The Plant Environment and Crop Production (E)

#### PLSOIL 115

Important environmental factors affecting plant growth and development, the interrelationships which exist between these factors and plants, and the effects resulting from environmental modification attributable to man's activities.

# The New England Artist Festival and Showcase II

## May 7&8, Northampton 3-County Fairground

presented by

The Arts Extension Service, Division of Continuing Education, UMass Amherst

*It's one of New England's largest gatherings of artists, performers, craftspeople, poets, small presses, filmmakers and other creative people. For information, call the Arts Extension Service at (413) 545-2013.*

## Organic Farming and Gardening (E)

### PLSOIL 120

Basic principles of plant nutrition and culture, soil fertility and management by organic methods, biological and natural control of insect pests, weeds and plant diseases, variety selection, and alternative chemical methods. Lab Fee: \$7.50.

## POLITICAL SCIENCE

### The Law and Practice of Civil Liberties (D) (Section 1, Amherst; Section 2, Holyoke) POLSCI 261

Development in American Constitutional law of the concept of civil liberty, including free speech and religion, fair trial, and race discrimination.

### Public Personnel Administration (Section 1, Amherst; Section 2, Holyoke) POLSCI 323

The personnel function in bureaucracy; patronage and merit; career service and political executive; authority and informal organization; employee rights and collective action.

## PSYCHOLOGY

### Elementary Psychology (D) PSYCH 101

An introduction to the basic approaches and concepts of modern psychology. Examples from the areas of perception, conditioning, cognitive processes, social behavior, tests and measurements, and personality.

### Psychology as a Natural Science PSYCH 120

An introduction to the natural science side of psychology. Includes learning, cognitive, neural bases of behavior, sensation, perception. Discusses broader issues of the science of psychology and introduces concepts of statistics.

### Statistics in Psychology PSYCH 145

Introduction to statistical principles and techniques as applied to psychological data.

### Motivation (D) PSYCH 230

Introduction to theories and research on the nature and determinants of motivation. Topics include instinct, behavior energization concepts, biological and acquired bases of emotions and motives, frustration, conflict and stress. Prerequisite: Psych 101.

## Drugs and Behavior (Holyoke)

### PSYCH 252

The psychobiological foundations of drug-behavior interactions. The neural and neurochemical basis of behavior, basic pharmacology, drugs that affect mood and their mode of action, the psychological and physical bases of drug dependence and addiction, experimental approaches to psychopharmacology. Prerequisites: Psych 101 and Zool 101.

### Psychology of Adolescence (D) PSYCH 263

The development and emotional, social and intellectual adjustment of the individual during adolescence. Prerequisite: Psych 101.

### Personality (D) PSYCH 270

Introduction to the scientific study of personality. Personality development, structure and dynamics from major theoretical orientations. Prerequisite: Psych 101.

### Educational Psychology (D) PSYCH 301

Psychological facts and principles of development, learning, and measurement as applied to educational situations. Prerequisite: Psych 101.

### Abnormal Psychology (D) PSYCH 325

Etiology, symptoms and therapy of behavior abnormalities including neuroses, psychoses, epilepsies, speech disorders, and mental deficiency. Prerequisite: Psych 101.

## RHETORIC

### Elements of Writing (B) RHET 100G

Basic language behavior course: writing, editing and rewriting to attain clarity in the use of words, syntax and organization. Subject matter is interdisciplinary. Note: This is *not* a remedial writing course. It will begin at a more elementary level than other Group One courses, but will develop in rapid sequence to accomplish the same goals as other Rhetoric 100 courses.

### Language and Speaking (B) RHET 110A

Interpersonal and public communication: selection, arrangement and development of ideas and materials for oral communication; the use of language for conveying meaning, thinking, reasoning, problem-solving and decision-making; analysis of audience attitudes

## AFROAM 151 C CORE

This four-part course covers West African cultural patterns, slavery, literature, and black vs. white perceptions. It includes the relevant forms of Black Cultural expression contributing to the shape and character of contemporary Black Culture; and the literary application of these in traditional Black writers. It is offered with the cooperation of the Afro-American Studies Department on Tuesday evenings for three credits. For additional information, see the course description on page 13.

## INTRODUCTION TO AFRO-AMERICAN CULTURE AND LITERATURE

and beliefs; identification of purpose and assessment of effects of communication; ethical considerations in influencing others; and evaluation of one's own and others' public messages.

## **SOCIOLOGY**

### **Social Problems (D) SOCIOL 103**

Changes arising from culture contact, social reform, and technical innovations. Planned and unplanned change, particularly with respect to underdeveloped countries.

### **Drugs and Society (D) SOCIOL 276**

The sociological implications of drug usage, including alcohol as well as "mind altering" drugs. Effects of drugs, prevalence of usage, social correlates, anthropological and historical perspectives, problems and management of addiction, social control of use and abuse, social implications of drugs, especially with respect to the counter-culture movement.

### **Issues in Social Policy Planning (D) SOCIOL 293**

Primarily for upper division students. Focuses upon 1) systematic policy planning, the role of research and development and the role of the scientific community in domestic policy programming; and 2) selected substantive issues which draw heavily from social and geographical distributions of relative access to the valued goods, services and rewards in the society and consideration of mobility processes on the redistribution of such access.

## **SPANISH**

### **Elementary Spanish SPAN 110, 120**

For students with no previous creditable training in Spanish. Intensive practice in language skills. To fulfill the language requirement, upon completion of the course most students are required to continue by taking Spanish 130, 140.

## **WOMEN'S STUDIES**

### **Women in Western Civilization WOST 190A**

Examines the role and place of woman from Greek and Roman times to the present: woman in ancient society; woman in the Middle Ages; the chivalric code; the attitude of the Church towards women; the effect of the Renaissance and the Reformation on the position of women; the influence on women of capitalization, industrialization and liberalism; the struggle for women's rights, and the realities of women in present-day Europe.

### **Sociology of Women WOST 290G**

A critical examination of mainstream sociology and the place and role it has assigned to women in American society. "Women are in part the way they are because of the way they are thought to be." Sociological theory and method have significantly contributed to the social construction of everyday reality, the social attitudes and beliefs about "women's place," and therefore to the way women are treated within any social situation.

## **ZOOLOGY**

### **Introductory Zoology (E) ZOO 101**

Principles of zoology including cell structure and metabolism, heredity, development, behavior, evolution, ecology, and the anatomy and physiology of the major groups in the animal kingdom. Background for understanding current biological problems. Lab Fee - \$10

# STAY WITH IT!

## Keep your education going with Credit-Free Workshops

### Credit-Free Workshop information begins on page 37.

## SURVEY of

# AFRICAN ART

This survey course has as its key the understanding of the African unique creative tradition and the use of art and symbols to reflect a unifying experience common to members of a group. AFROAM 111 analyzes the major traditions in African sculpture and painting from prehistoric times to the present day. Allied disciplines of history and archaeology are used to recover the early history of certain art cultures. Oral sources are discussed. Themes such as the socio-religious and socio-economic factors affecting art production are treated in terms of the traditions. AFROAM 111 C CORE

# BACHELOR OF GENERAL STUDIES

## The BGS Degree

The Bachelor of General Studies (BGS) is a University of Massachusetts degree available to part-time, non-traditional students through the Division of Continuing Education. The BGS is designed to be flexible and responsive to special needs that cannot be met in regular UMass programs. It requires considerable initiative and self-knowledge on the part of the student, and offers someone with firmly established goals a chance to take an active part in planning his or her program. The BGS degree has been used advantageously by three different groups of Continuing Education students: 1) those who would like to orient their degree more specifically toward a career area, as in the cases of recent graduates who have majored in Health Care Administration and Electronic Instrumentation; 2) those who are already established in a career but would like the benefits of a generalist, liberal arts degree, such as Human Relations or Liberal Studies; (3) those who are looking for a specific match of disciplines, for example, Philosophy of Art or American Literature and Library Studies.

The Continuing Education counseling staff and faculty advisors chosen by the student can aid in the design of the BGS area of concentration, which is usually 30 credits of junior-senior level college or university work, at least 15 of which must be UMass credits. This designed degree, expressed as a list of courses and a thorough written argument on the BGS Proposal Form, will be judged both by the faculty advisor and the BGS Program Committee of Continuing Education. Students with appropriate Associate's degrees may enroll in already-designed degrees in Criminal Justice or Fire Science, described below.

A maximum of 75 semester credits from accredited colleges and/or universities may be used in the required 120 credits needed for graduation. Other credits included in the transfer total may be those earned through the College Level Examination Program (CLEP) tests, or credits for certain types of training in the U.S. military service. BGS students should matriculate as soon as they are eligible. Graduates must maintain a grade-point average of at least 2.0 on a 4.0 scale and fulfill the University core requirements. See **Core Requirements and Matriculation Process**.

The Continuing Education counseling staff recognizes the difficulties inherent in creating and justifying an ambitious course of study. We encourage students, whatever the stage of their planning, to discuss their ideas for a BGS degree with a Continuing Education counselor.

## BGS Criminal Justice

The BGS in Criminal Justice is designed to build upon the Associate's degree in Law Enforcement (or its equivalent in appropriate course work) from the community colleges. People already working in the criminal justice professions, and those considering such careers, should find this degree flexible enough to meet their special needs as part-time students and their particular goals in criminal justice

studies. This cooperative effort between UMass/Amherst and the community colleges is intended to produce highly competent officers for the police, courts, and corrections institutions of the Commonwealth.

### Requirements:

1. The general BGS regulations described above apply, except that students must have earned the A.S. degree in Law Enforcement (or its equivalent), and no BGS Proposal Form is required.
2. Effective for all students who enter the program after summer, 1976, the Criminal Justice Core (not to be confused with the University core requirement which is mentioned above and described in detail elsewhere in this catalog) must be fulfilled. This core is a group of five UMass junior-senior level courses (15 credits minimum) selected from academic disciplines related to criminal justice and distributed as follows:
  - Administration/Human Relations (3 credits)
  - Communications Skills (3 credits)
  - Political Science/Legal Studies (3 credits)
  - Social/Behavioral Sciences (3 credits)
  - One core elective (3 credits) selected with the help of an advisor from the above areas.
3. Effective for all students who enter the program after summer, 1976, the required courses in one of the following career tracks must be completed:

**A. Criminal Justice** This general career track is for students seeking advanced study in psychology, sociology, political science, legal studies and other departments concerned with the social problems of crime and the nature of the criminal justice system. Required are at least 15 credits—UMass junior-senior level.

**B. Administration in Criminal Justice** Students selecting this career track generally intend to qualify eventually for supervisory positions in the criminal justice system. Required are at least 6 credits in management or administration, 3 credits in communications skills, 3 credits in psychology or sociology, and 3 credits of approved electives.

**C. Criminal Justice Education** This track is recommended for students interested in community college teaching positions, police academy teaching, and other criminal justice instruction. In addition to course work in education, sociology, psychology, and other relevant departments, a supervised teaching internship is required. Necessary are at least 15 credits—UMass junior-senior level.

Interested students should contact one of the Student Services counselors at 545-3430 for complete course lists and other information. Junior-senior level courses that may be used to satisfy some of the above program requirements can be found in this catalog under the following department designations and numbers: BGS 201; COINS 201; COMSTU 210; EDUC 290A, 290B, 290D, 390A; GB FIN 260; HIST 337; JS 201, 391D; LEGAL 201, 202, 290D; MGT 201, 214, 230, 231; POLSCI 223, 226, 260; PSYCH 210, 280, 365, 391J; SOCIOL 224, 246, 250, 292.

## BGS Fire Science

The BGS in Fire Science is designed to build upon the Associate's degree in Fire Science Technology (or its equivalent in appropriate course work) from the community colleges. Firefighters in both public and private agencies, and people considering such careers may choose one of three possible career tracks: Fire Science Administration, Fire Science Education, and Fire Science Technology. There is considerable flexibility within the requirements of each track allowing student and advisor to plan a program tailored to specific needs and interests. This cooperative effort between UMass/Amherst and the community colleges is intended to produce highly competent professional firefighters for the Commonwealth.

### Requirements:

1. The general BGS regulations described above apply, except that students must have earned the A.S. degree in Fire Science Technology (or its equivalent), and no BGS Proposal Form is required.

2. Effective for all students who enter the degree after summer, 1976, introductory courses, some of them usually taken as part of the A.S. program, are required as outlined here:

**Fire Science Administration:** Introduction to Psychology, Introduction to Sociology, Introduction to Management, Financial and Managerial Accounting, Introduction to Logic, and Introduction to Problem Solving Using the Computer.

**Fire Science Education:** Introduction to Psychology, Introduction to Sociology, Public Speaking.

**Fire Science Technology:** College Calculus (2 semesters), General Physics for Science Majors (2 semesters with lab), General Chemistry for Science Majors (2 semesters with lab).

3. Effective for all students who enter the degree after summer, 1976, a minimum of 15 credits in UMass junior-senior level courses in one career track must be selected and completed:

A. **Fire Science Administration** This option is for students who aspire to managerial positions within their firefighting organizations and therefore need advanced study in management, communications skills, political science, and sociology.

B. **Fire Science Education** This career track is intended for students who have a strong desire to teach in community college fire science programs. Such positions often require Master's degrees or doctorates, but this BGS program can provide a useful beginning in advanced courses in communications skills, education, psychology, and related departments. Each student in the education option must complete a supervised internship in community college fire science instruction.

C. **Fire Science Technology** The Division of Continuing Education and the UMass School of Engineering are now designing a degree that will allow firefighters to complete BGS requirements in technical training beyond the A.S. degree in subject areas like hazardous materials, radiation protection, forest protection, combustion, safety engineering, and hydraulics.

Interested students should contact one of the Student Services counselors at 545-3430 for complete course lists and other information. UMass courses that may be used to satisfy some of the above requirements can be found in this catalog under the following department designations and numbers:

ACCTG 120, 130; BGS 201; COINS 122,201; COMSTU 121, 210; EDUC 290A, 290B, 290D; GB FIN 260; HIST 337; JS 201, 391D; LEGAL 201, 202, 290D; MGT 201, 214, 230, 231; POLSCI 223, 226, 260; PSYCH 101, 280; SOCIOLOGY 105, 224.

## BGS Courses

BGS courses are offered by the Division for University credit, and are meant either to serve the special educational needs of older, part-time students, or to provide BGS degree candidates with training in areas of concentration not available in regular University course offerings. BGS courses offered this semester are:

|          |                                                                        |
|----------|------------------------------------------------------------------------|
| BGS 100B | Women and the Life-Career Process (Back to School—Into the Job Market) |
| BGS 201  | Occupational Safety and Health Management                              |
| BGS 220A | Contemporary Practices in Corrections                                  |
| BGS 221A | A Criminal Justice Study in Victimization                              |

For a complete description of each BGS course, see Evening College Course Descriptions beginning on page 13.

BGS 100B

# WOMEN

**Women and the Life-Career Process: Back To School—Into the Job Market** focuses on a brief summary of Women/Work/Education with a concentration on Personal Life Planning, Career Development and Women's Issues as they relate to working women. The course is designed to allow women to experience a planned personal and professional development process, listen and interact with guest speakers, visit various job locations, and complete a project in connection with women and work.

# SCHEDULE OF COURSES

ROOM ASSIGNMENTS are posted in Hills House Lobby outside of the Continuing Education Records Office. ALL STUDENTS should check the board for classroom location when registering or some time before the first class meeting. Students preregistered by January 6, will receive notification of room assignment by mail prior to the first day of class. Please avoid unnecessary phone calls by obtaining your room assignments early.

# PROGRAM ALTERNATIVES

The Division of Continuing Education, in association with the University of Massachusetts/Amherst, offers both credit and credit-free learning experiences to adults who are interested in continuing their education. While activities of the Division can range from one-day intensive learning seminars to degrees for working professionals who want to pursue their education on a part-time basis, all the learning experiences provided by the Division have, in common with University courses, high academic standards.

Because the adult learner pursuing an education on a part-time basis does not have ready access to the informal support and information sources available to full-time students on the University campus, the Division's Student Services staff of trained professionals are available to provide academic counseling and information referral to Continuing Education students. These professionals help students design transdisciplinary degree programs, investigate specialized educational resources both on and off campus, and arrange for credit by examination or for prior experience when appropriate.

Perhaps the most valuable asset of the Division of Continuing Education is its recognition of the need to integrate the adult students's learning experiences with his or her on-going professional/workday activities. The adult learner is a demanding and time conscious student who will not accept less than top quality from professionals who know their field and are able to communicate their expertise efficiently and effectively. The Division prides itself on its ability to satisfy the educational needs of a quality-conscious adult clientele by designing and delivering educational programs that respond to students' needs.

## The Continuing Education Unit (CEU)

The CEU is designed for in-service professionals and non-professionals who want to maintain a record of their participation in approved non-credit continuing education programs. It is not equivalent to academic credit, but it is applicable to appropriate learning experiences of adults at all levels from post-secondary to post-doctorate; for all classes of adult learners, whether vocational, technical, professional, managerial, or adults bent on personal improvement; and in all formats of teaching and learning. CEU's are generally transferable from one institution to another.

The Division of Continuing Education, University of Massachusetts/Amherst, will award a specified number of Continuing Education Units (CEUs) to each individual who successfully completes a workshop approved for the awarding of CEUs. Each CEU represents ten contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction. The number of CEUs per workshop is determined by the total number of contact hours. Awarding only some part of the CEUs offered in a workshop is not an option, and to receive CEUs, each workshop participant must attend the total number of contact hours required.

Students may request an official cumulative transcript of CEUs at any time. Send a written request, indicating the name and address of the recipient of the transcript to: CEU Transcript Request, Division of Continuing Education, P.O. Box 835, University of Massachusetts, Amherst, MA. 01002. A nominal fee of \$1 is charged after the first request.

## ARTS EXTENSION

The Arts Extension Service is a community development program which works to meet the needs of continuing education in the arts. One objective of the AES is to help develop effective and self-sufficient community arts organizations.

Activities include: consulting services in technical and management problems; workshops in community arts management and group dynamics; projects servicing the arts interests and needs of older people, inner city people, rural communities and other special interest groups; maintenance of the Arts Directory, a listing of regional artists; a series of arts seminars and conferences; a booking referral service for artists; Communities to Campus, a program aimed at making UMass/Amherst campus events more available to communities, and "The New England Artists Festival and Showcase", which brings the art and performance talent of western Massachusetts together for a major two-day celebration.

AES also serves as an arts reference center, providing information about and assistance with arts activities and services in western New England.

The Arts Extension Service publishes:

- The Arts Directory
- Arts Festivals; A Work Kit
- The Logo Handbook
- The AES News

For information contact Arts Extension Service, Hills House North, University of Massachusetts, Amherst, MA 01003, (413) 545-2013.

## COMMUNITIES IN ACTION

### Great Decisions

Great Decisions has been a national program with worldwide concerns since 1954. It is sponsored nationally by the Foreign Policy Association—a non-profit, non-partisan organization which since 1918 has been facilitating the understanding of significant issues in U.S. foreign policy, and stimulating voluntary and constructive participation in world affairs—and is sponsored locally by the State Coordinator's office for Great Decisions at Continuing Education.

Great Decisions involves the formation of informal community-based discussion groups. Participants usually examine eight crucial issues in current United States foreign policy, assessing background information, evaluating diverse opinions about the alternative directions for foreign policy, and communicating their informed opinions to governmental decision makers.

In 1977, the Great Decisions booklet will explore these topics, each of which requires about an hour's reading:

- Western Europe in Transition: What Impact on the Atlantic Partnership?
- Southern Africa: End of White Supremacy?
- The Middle East Cauldron: After Lebanon, What Next?
- Spread of Deadly Weapons: Can Proliferation Be Checked?
- U.S.-Soviet Relations: Whatever Happened to Detente?
- China and the U.S.: Where Should We Go From Here?
- Food and Population: Was Malthus Right?
- Panama and Cuba: What Choices for the U.S.?

For further information about Great Decisions, or for help in facilitating a group or participating in one, please contact Lin Maria Riotto, Division of Continuing Education, 213 Hills House North, UMass/Amherst, 01003, or phone (413) 545-3410.

### Workshops

Communities in Action workshops are designed to meet some of the training needs of community organizations. This series of short, intensive and inexpensive workshops is intended for board members, staff and volunteers of citizen councils and non-profit community organizations of all types. Among the topics included are leadership, decision-making, organizational development, volunteer management, planning and budgeting, public relations, government and more. Instructors for each of the workshops are practitioners with both theoretical knowledge and practical experience in the topic area. In most cases workshops are three to five hours in length and after just spending those few hours in the classroom, participants can return to their organizations bringing with them new skills and ideas.

While most workshops are held on the University campus, we are prepared to organize existing and new training workshops for individual organizations in their own communities.

### Dialogue '77

Dialogue '77 is a low cost, high quality programming resource for individuals and organizations. It offers a series of options which provide the opportunity to discuss issues of social concern. They are intended to stimulate dialogue in two formats. One, called "The Written Word," encourages a reasonable amount of reading prior to the group's meetings, the number of which are determined by the participants. The second format is called "The Visual Image." Participants will meet once, view a film and discuss its issues.

Guides are provided for group leaders who are selected in each group by its members to keep the discussion moving. The guides consist of background materials for the two-hour sessions and include ideas, insights, information, suggested readings, discussion questions, and bibliographies, together with instructions for participants and for the discussion leader. The approach is lively, informal, non-academic, and is planned to interest people from various walks of life and engage them in discussions of current social issues.

## LIBRARY SCIENCE PROGRAM

The Division of Continuing Education, by arrangement with the University of Rhode Island, offers Library Science courses each semester which may be applied to a University of Rhode Island Master's degree in Library Science.

The MSLS degree requires 36 hours of credit, including six hours of electives. Half of the requirements for the degree may be completed through extension before the participant continues in residence at the University of Rhode Island's campus in Kingston. In order to be eligible for the degree program, students must possess a Bachelor's degree from an accredited college or university with an average of B or better. It is not necessary to be enrolled in the full degree program to receive credit for the courses, although a Bachelor's degree is still required. Students who wish to be admitted to the degree program should apply prior to obtaining 12 credits through Evening College.

Persons interested in further information about application procedures for the full degree program should contact the Dean's Office, Graduate Library School, University of Rhode Island, 74 Lower College Road, Kingston, R.I. 02881, telephone (401) 792-2947. Registration for individual Library Science courses is done through the Division of Continuing Education.

### Spring 1977 Library Science Courses\*

#### Basic Reference

##### CONTED 504

Practical experience in the use of basic reference materials, with readings and discussion of the philosophy and administrative aspects of reference work. Course Fee: \$140.

#### Government Publications

##### CONTED 543

Survey of the publishing activities and publications of national, state, and local governments, with emphasis on the publications of the United States government. Prerequisite: Conted 504. Course Fee: \$140.

*\*All Library Science courses are listed in the Schedule of Courses under CONTED. For registration purposes, use the Schedule of Courses for course names and registration numbers.*

American Library Association Accreditation has been withdrawn from the URI MSLS Program. Those students enrolled in the program as of July 1976 and who complete the program by January 1978, will be considered to have graduated from an ALA-accredited program.

## SECOND BACHELOR'S DEGREE PROGRAM

In cooperation with the University of Massachusetts' Admissions Office, the Division of Continuing Education is now offering a part-time program to prepare students in a variety of fields for a second Bachelor's degree.

The purpose of the Second Bachelor's Degree Program is to offer those students who have earned a bachelor's degree the opportunity to do *part-time*, undergraduate study in a field unrelated to previous degree studies. The program is available: 1) as a route for those students who want to complete a prerequisite, undergraduate major in an area different from their first bachelor's degree study in preparation for graduate studies; or 2) as a route for those students who do not need to do graduate studies in order to meet job/career requirements or changes, but who do require additional education.

The graduate of the University of Massachusetts must acquire a minimum of 30 credits in residence, fulfilling departmental and school or college degree requirements. Graduates of other institutions of higher learning must fulfill a minimum requirement of 45 credits in residence.

An appeal for waiver of the credit requirements may be

filed with the Board of Admissions and Records if all departmental requirements for completion of the second undergraduate degree have been met and the student has obtained departmental approval for the appeal.

Write to Bernadine Y. Freese, Coordinator, Post-Baccalaureate Programs, Continuing Education, 205 Hills North, UMass, Amherst, 01003 for counseling and application. The deadlines for applying are October 1 for the Spring and March 15 for the Fall. Late applications will be considered on a space-available basis. All academic policies and standards of the University, as well as the Division of Continuing Education, will apply.

## TEACHER EDUCATION PROGRAM

The Division of Continuing Education in cooperation with the Teacher Education Council (TEC) of the School of Education, offers a program for post-baccalaureate students that leads to teacher certification in elementary and secondary education. Most of the Teacher Education Programs require a two semester commitment. Coursework is taken the first semester and student teaching is completed the second semester. Unfortunately, we do not have a summer program at this time. It should be noted that this is *not* a graduate program. It is designed *only* for teacher certification.

### Teacher Education Programs

### Admission

In order to enroll in any certification program, all applicants must have a bachelor's degree and must be selected by the Coordinator of Post-Baccalaureate Programs as well as by the programs for which they are applying. Applicants need: (1) a formal application form, (2) two letters of recommendation, (3) official transcripts, (4) interview by the Coordinator of Post-Baccalaureate Programs.

During the interview, applicants should determine the amount of course work required and student teaching site information. Once applicants have been formally accepted to specific programs, they must return to the Coordinator for finalizing the admissions process and for registration counseling.

## Registration and Fees

Registration and fees are handled through the Division of Continuing Education. The course fee is \$105 per three-credit course plus the usual registration fees. Students enrolling in this program will be governed by the administrative policies of the Division of Continuing Education; all academic policies and standards of the University and the School of Education will apply.

## Program Application

For further information and an application form, write to Bernadine Freese, Division of Continuing Education, University of Massachusetts, Amherst, Massachusetts, 01003, Application deadline, April 1 for fall semester and November 1 for spring semester. Late applications will be considered on a space-available basis.

## TECHNICAL GUIDANCE CENTER

The Technical Guidance Center for Environmental Quality functions as an environmental outreach program providing educational resources to the general public. These resources include books, periodicals, and governmental reports, as well as film listings and directories on the Center's areas of interest which focus on pollution, energy sources and conservation, natural resources development and environmental standards and controls. The Center also provides information services and its own publication, *TGC Bulletin*.

The Technical Guidance Center is developing a series of community environmental programs for children and adults. Offerings will provide a better understanding of how environmentally related decisions affect all of us. The emphasis will be action oriented in an attempt to equip citizens and community groups with ways to interact responsibly in the decisionmaking process. Subject areas will include: Policy and Future Alternatives, Assessing Science and Technology, Environmental Studies for Children, Ecological Principles Simplified, Strategies for Citizen Participation, and the Function of Conservation.

Other activities of the Technical Guidance Center are work-related programs to be designed to advance competence in special areas of concern in response to the needs of professionals. A survey of in-service teachers has been conducted to prepare for the offering of courses in environmental studies appropriate to teachers' needs. In addition, workshops and symposia will focus on timely topics relevant to changes in environmental fields.

The Technical Guidance Center is located at 317 and 321 Hills North, University of Massachusetts, Amherst, Massachusetts, 01002, or phone (413) 545-0347.

## WINTERSESSION

For the past four years, the Division has supplemented the University's programming during the interim period between fall and spring semesters, a period now called Wintersession. This winter there is a wide variety of workshops and credit courses from which to choose. Please see the next two pages for a detailed description of Wintersession.

# WINTERSESSION '77

## Credit-Free

Begin January 3

## Workshops

## Credit Courses

January 3-21

Registration for Wintersession courses or workshops may not be accomplished with this Continuing Education Spring Catalog. In order to register by mail, students must obtain the Wintersession Catalog. Directions for registration are below.

### Mail-In Registration:

To register by mail, contact the Continuing Education Records and Registration Office, 545-3653, for a Wintersession Catalog. The catalog contains necessary registration information and mail-in registration forms. All mail registrations must be accompanied by full payment. Please allow for mail delays; the mail-in deadline is a December 22 postmark.

### In-Person Registration:

To register in person come to the Continuing Education Records and Registration Office, Hills House Lobby, UMass campus, Amherst. Office hours:

Monday-Thursday 8:30 a.m.-7:00 p.m.  
Friday 8:30 a.m.-5:00 p.m.  
Saturday 10:00 a.m.-1:00 p.m.  
Closed Holiday Weekends

Register early; class size is limited.

# CREDIT-FREE WORKSHOP PROGRAM

*The Credit-Free Workshop Program is a series of workshops offered by the Division of Continuing Education specifically for persons interested in expanding their skills, furthering their careers, improving their community life, or partaking of the expertise offered by others, usually experts and teachers in their fields. The workshops are for those for whom academic credit is not a priority.*

## Admissions

The Division of Continuing Education has an open admissions policy with regard to the Credit-Free Workshops it offers. Interested persons may enroll for as many workshops as they wish without concern for their educational background.

### Sixty-five and Over Policy

Persons aged 65 and over may register, free of charge, on a space-available basis, for any Credit-Free Workshop. Please call the Records Office, 545-3653, for further information.

## Mail Registration

To register by mail complete the workshop registration form included in this publication, and mail by February 4, with full payment, to:

Credit-Free Workshops, AE77-4  
Division of Continuing Education  
P.O. Box 835  
Amherst, MA 01002

Make checks payable to: Continuing Education, AE77-4. In addition to the workshop fee, all registrations must include a \$5 registration fee, charged once. **The registration fee is waived for Communities In Action Workshops.** When registration meets the minimum number, registrants will be notified immediately by mail with a class card which includes notice of the meeting place. Mail registrations must be postmarked February 4 at the latest.

## In-Person Registration

After February 4, walk-in registrations will be accepted at any time on a space-available basis. Come to the Continuing Education Records Office located in the lobby of Hills House. Office hours are:

*Monday-Thursday, 8:30 a.m.-7 p.m.*

*Friday, 8:30 a.m.-5 p.m.*

*Saturday, 10 a.m.-1 p.m. (Closed holiday weekends.)*

Enrollment in all workshops is limited to a number that is manageable and acceptable to each instructor, therefore early registration is encouraged. When requests for a workshop exceed the number to be enrolled, the Division will attempt to arrange for an additional section. Names of registrants will be placed on a waiting list in the order in which they are received.

## Fees

Credit-Free Workshops are self-funding and, in general, fees have been computed on the basis of the number of contact hours which a workshop meets. In order to make

each workshop self-supporting, a minimum number of enrollments is usually necessary. Fees are included in the workshop descriptions beginning on the next page.

## Refund and Withdrawal

Full refund will be made by mail if a workshop is cancelled due to underenrollment.

If a student wishes to withdraw from a workshop, the Records Office must be notified in writing by mail, or in person during the regular office hours. Notifying the instructor or ceasing to attend class does not constitute official withdrawal. There will be an 80% refund for official withdrawal *after* the first workshop meeting and *before* the second meeting. There will be a 60% refund after the second workshop meeting, and before the third. After the third workshop meeting, there will be no refund.

### Refund Schedule

#### After:

|                |           |
|----------------|-----------|
| First meeting  | 80%       |
| Second meeting | 60%       |
| Third meeting  | NO REFUND |

### Exceptions

There are NO REFUNDS for workshops with schedules covering less than three weeks unless withdrawal is effected prior to the beginning of the workshop. In cases of withdrawal prior to the beginning of a workshop, a full refund will be processed once the Records Office is notified in writing or in person.

## Other Important Information

### Cancellations

It sometimes becomes necessary for the Division to cancel, postpone or combine workshops or to change instructors. Changes are usually kept to a minimum.

Weather cancellations are announced over local radio stations.

### Workshop Locations

Workshops will take place in Amherst. Exact locations will be announced by mail once students have registered.

### Reading Material

Reading material information may be obtained from the instructor on the first night of the workshop. Required books may be obtained at the University Textbook Annex; for hours, see **Textbooks** in this catalog.

### Supplies/Expenses

Some workshops require supplies which are to be paid for by each participant if he or she chooses to have them. The estimated cost of these supplies is listed at the end of the workshop description. Since expense money is estimated and optional, it is not to be included in workshop and registration fees, and students should not pre-pay.

### Parking

After 6 p.m. there are no parking restrictions in *legal* parking places.

## CREDIT-FREE WORKSHOP CALENDAR

|           |                       |
|-----------|-----------------------|
|           | December 1-February 4 |
|           | After February 4      |
| Monday    | February 14           |

 Spring vacation begins after last workshop  
 Workshops resume  
 Holiday (*Patriot's Day*)  
 Monday workshop schedule will be followed (Wednesday workshops do not meet)  
 Workshops end (Workshop schedules vary—consult Workshop Description)

## WORKSHOPS

### ARTS & CRAFTS

#### Basic Calligraphy (The Art of Hand Lettering) F001

**Valerie Ashton: Freelance Calligrapher**

Concentrates on the basic italic alphabet. If there is time, advanced alphabets will be introduced. Class is small to allow as much individual attention as needed. Expenses are \$2. Ten weeks, Wednesday, 7-9 p.m., \$41.

#### Basic Drawing F002

**Jack Radetsky: M.F.A.**

Drawing affords a vehicle for both mirroring of visual phenomena and the expression of intuitive aesthetics. Projects familiarize the student with drawing dynamics, and warrant individual expressive interpretation. Workshop is not merely a laboratory for problem-solving. Charcoal, graphite and inkwash are the suggested materials. Expenses are \$10. Ten weeks, Thursday, 7-10 p.m., \$60.

#### Cartoon Art F003

**Brian Turner: Cartoonist**

Development of style and technique in graphics, and story-telling in comics and cartooning. Differences explained among political, underground, gag, parody, and strip. Includes history and recent technical/artistic developments. Use of tools, marketing, with some attention to animation and children's book illustration as requested by participants. Art equipment costs will vary according to needs of individual. Recommended readings: Hamm, *Cartooning*; Robinson, *Comics*; Steranko, *History of the Comics*, Vol. I, II. Ten weeks, Thursday, 7-10 p.m., \$60.

#### Colonial Restoration and Interior Decorating F004

**Stephen A. Olivo, Jr. and Victoria L. Olivo: Designer/Consultants**

Restoration and interior decorating with a personal emphasis. The why's, how's, and what's of recreating the look of colonial times in a workable, modern lifestyle. Field trips to homes restored by the instructors achieve a closer look at reasonably authentic and affordable restoration. Students learn the key to imaginative but simple Early American decorating, and the textures, moods, and settings of Colonial New England. Ten weeks, Thursday, 6:30-8:30 p.m., \$40.

#### Crewel and Creative Stitchery F005

**Agnes Moustakis: Certified Teacher of Needlework**

Techniques of transferring patterns and use of 20 different stitches (advanced stitches for advanced students). Color, balance, and design stressed. Application to a selected piece carried through blocking and completion. Expenses are \$8-\$20. Six weeks, Saturday, 9 a.m.-12 noon, \$36.

#### Fundamentals of Weaving F006

**Mary Canner: Fiber Artist**

Fundamentals of handweaving. A wide variety of weaving techniques explored utilizing cardboard and simple two or four harness frame looms constructed in class. Some work also done with a standard four harness loom including a full treatment of warping and dressing a loom as well as the fundamentals of drafting and draw-downs. The option of renting portable four harness floor looms is available, though not required. Emphasis on exploration of the creative possibilities of handweaving through experimentation with basic weave structures, fibers, colors, and textures. Student projects may be functional or non-functional ranging from fiber sculptures, wall hangings and tapestries to pillows, bags, and small rugs. Expenses are \$10-\$15. Ten weeks, Monday, 7-10 p.m., \$61. Please note: A follow-up workshop entitled Intermediate Weaving will be offered in the Summer Session.

#### Gravestone Rubbing F007

**Melvin G. Williams: Ph.D.**

Morning session: slide-illustrated discussion on artistic and historical attractions of New England's seventeenth- and eighteenth-century graveyards. Afternoon session: guided practice in making gravestone rubbings, using both oil and wax techniques. Expenses are \$5. Saturday, April 30th, 9 a.m.-4 p.m., \$14.

#### Painting With High-Gloss Enamels F008

**Tine Weston-Heij: Art Teacher's Degree, Holland**

Abstracting particular characteristics of a subject in terms of its contours, textures, outlines and shades rather than detail. Subject matter is composed of magazine/photo clippings with instruction on composition and means of transfer. Emphasis on active collage effect rather than still-life reproduction. Size and uses range from small scene to wall mural. This medium is especially successful for beginners and intermediates with basic painting skills. Expenses are \$5. Eight weeks, Wednesday, 7-9 p.m., \$32.

#### Patchwork: A Busy Person's Approach F009

**Victoria Olivo: Designer**

The use of patchwork in making quick, inexpensive changes in one's home and clothing in minimum amount of time. Includes patchwork quilts that can be sewn in two weeks: pillows, pot holders, samplers, and other small color spots for the home; and application of calico on clothing using recycled materials such as denim. Knowledge of sewing machine necessary. Three weeks, Tuesday, 7-9 p.m., \$12.

## Pottery F010

Frederic A. Englander: Potter

Techniques of the potter's wheel, glazes, clay chemistry and hand-building. Stoneware clay and glazes are fired in a reduction atmosphere to cone 10. Includes opportunity to fire eight pots. Additional pots may be fired for a minimal fee. Expenses are \$5. Ten weeks, Tuesday, 7:30-9:30 p.m., Saturday, 10 a.m.-12 noon, \$80.

## Print Collecting and Appreciation F011

Leslie Kramer: M.F.A., Printmaking

Designed for those who would like to collect art on a modest budget. Lecture-discussions on what to look for when buying an original print. Visits to a local museum or gallery uncover the range of artwork in this area. Topics covered include the differences between etching, lithography and serigraphy; what determines the value of an original print; and care and display. Approximately three Saturday afternoon field trips to be arranged. Recommended reading: Zigrosser, *A Guide to the Collecting and Care of Original Prints*. Ten weeks, Saturday, 10 a.m.-12 noon, \$41.

## Problems in Non-Representational Painting F012

Linda Forte: M.Ed.; Ed.D. Candidate

Designed for the student who wishes to try non-representational painting as a means of expression. Non-representational painting is analysed, discussed, and compared with representational painting. Includes how to approach the canvas, and when to stop. Some students may discover that they can best express themselves representationally and will continue to do so for the remainder of the studio experience. Expenses are \$12. Ten weeks, Wednesday, 7-9 p.m., \$41.

## Puppetry F013

Betsy Morris: M.F.A.

The art of designing and constructing both hand puppets and marionettes from readily available materials. Includes sock puppets, cloth puppets, household or found-object puppets, papier-mache and plastic wood hand puppets. Improvisational puppet theatre with emphasis on characterization through handling of the puppet and vocal technique (including dialect) of the operator; puppet stage design and playwrighting. Expenses are \$3. Ten weeks, Wednesday, 6:30-9:30 p.m., \$60.

## Upholstery F014

Walter Rupp: Upholsterer

Students learn step by step reupholstering procedure of typical piece of furniture. Demonstrations enable students to work independently. Questions and problems handled on an individual basis. Expenses are \$10. Ten weeks, Wednesday, 6:30-9:30 p.m., \$60.

## ARTS EXTENSION SEMINARS

*The Arts Extension Service is a community development program which works to meet the needs of continuing education in the arts. One objective of the AES is to help develop effective and self-sufficient community arts organizations. AES provides consulting, seminars, listings, and other programs related to the arts. This spring, among the offerings of AES are the following credit-free workshops and a new credit course advertised below.*

### How to Get Published F015

Effective marketing techniques for the writer; where first works are likely to be sold; how to sell yourself, your work; quality versus marketability. Saturday, February 12, 1977, 9 a.m.-1 p.m., \$8.

### Performing Artists and Booking Seminar F016

Concurrent sessions. For performers: how to get bookings; how to audition; available resources; the performing artist as his/her own agent. For bookers: block booking; touring programs and other resources; residencies; workshops, etc. Saturday, February 26, 9 a.m.-5 p.m., \$15 (lunch included).

### Women and the Arts F017

Aimed primarily at, but not limited to, women in arts management positions, women artists, and women seeking placement and advancement in arts organizations. Concentrates on: career development, group dynamics, leadership skills, people management, relations with board, staff, volunteers, decision-making, and communication. Saturday, March 13, 1977, 9 a.m.-5 p.m., \$15 (lunch included).

The following seminars are available to special interest groups at selected locations upon request.

*Fees for these seminars are negotiable, depending upon location and the number of participants. Registration for these seminars may not be accomplished with this catalog. For further information, contact: Coordinator of Seminars, Arts Extension Service, Box 321, Amherst, MA 01002.*

### Art as an Investment—For Banks and Businesses

Mini-seminar on the pros and cons of investing in art; the art market, the economy and their relationship; art frauds; the role of the museum, the library; who is a reputable dealer.

### Careers in the Arts—For High School Students

Presentation of career options in the arts; how one prepares for the various occupations; strong and weak points of the professions.

## Arts Extension Service presents a three credit course: ARTS MANAGEMENT, ART 290R

Arts Management is a three credit seminar-course surveying the various types of arts and cultural organizations, their needs and place in society. The course covers the following material over fifteen weeks: (1) the various arts organizations and ancillary arts service categories in related business and industry; (2) the types of positions which exist in arts administration and the skills and criteria for them; (3) the role which informed citizens can play in shaping arts organizations; (4) the future of the arts and culture in our society-state-city. The format allows for discussion of issues and interests of those enrolled. Guest speakers present views and experiences. This course does not contribute to fulfilling requirements for the major. The instructor is Caron Van Gilder, Arts Extension Service. To register, please read the general information in the front of this catalog, and use the registration form in the center fold to register by mail.

## Arts Programming in the Schools—For High School Teachers and Counselors

How to do programming on a shoestring; how to integrate arts into the curriculum and classroom; how to set up a school resource center; how to use student talent and management skills; artist residencies.

### Community Arts Day 1977 F018

Third annual meeting of people working in and concerned with community arts. Deals with a variety of management topics, idea sharing, information dissemination on latest developments in state, national and local arts policies and programs. Saturday, April 16, 1977, 9 a.m.-5 p.m., \$15 (lunch included).

## COMMUNITIES IN ACTION WORKSHOPS

*Communities In Action is a new program designed to meet some of the training needs of community organizations. This series of short, intensive and inexpensive workshops is intended for board members, staff and volunteers of citizen councils and non-profit community organizations of all types. Instructors for each of the three-hour workshops are practitioners with both theoretical knowledge and practical experience in the topic area. After spending just a few hours in the classroom, participants can return to their organizations bringing with them new skills and ideas. The registration fee for Communities In Action workshops has been waived as a service to communities and their organizations.*

*Communities In Action and other training workshops can be offered by your organization in your own community. For information, please contact Stan Rosenberg, (413) 545-3420.*

*To register, please read the general information on page 37, and fill in the registration form in the center fold of this catalog. Or register in person in the Lobby of Hills House North, UMass/Amherst.*

### Great Decisions Discussion Group F022

#### Home or group study

Participants in this eight-week program examine sensitive issues in current United States foreign policy, assess background information, evaluate diverse opinions and communicate their own informed opinions to governmental decision-makers. Topics include Southern Africa: End of White Supremacy; The Middle East Cauldron: After Lebanon, What Next?; The Spread of Deadly Weapons: Can Proliferation be Checked?; Food and Population: Was Malthus Right?; U.S.-Soviet Relations: Whatever Happened to Detente?; and others. Participants will meet in their own or neighboring communities, and will be notified about locations once registration is complete. Program booklet included in workshop fee: \$5.

## Volunteer Management Workshops

*These workshops are co-sponsored by the Division and the Springfield Action Commission, Springfield, MA, and are made possible with assistance from the National Center for Voluntary Action, Washington, DC. The workshops will be held at the Springfield Action Commission headquarters, 721 State Street, Springfield.*

*All four volunteer management workshops may be taken at a special reduced rate of \$35. Groups registering for the whole series may send a different representative to each of the workshops if they wish. Those registering for the series should use the following title and number:*

All Four Volunteer Management Workshops F023

## Aspects of Personnel Management F024

**Peggy Dreger: Executive Director, Voluntary Action Center of Greater Springfield**

Participants develop skills in managing paid or unpaid personnel. Presents and demonstrates certain management skills including listening and paraphrasing, and performance evaluation. Considers differing perspectives of a situation and the implications for job satisfaction. Explores motivators and dissatisfiers and their effect on personnel performance. Examines factors in management of specific personalities. Saturday, April 30, 1977, 9 a.m.-5 p.m., \$10.

## Board/Staff Interaction F025

**Peggy Dreger**

Provides a common experience for members of boards and staff for understanding and utilizing basic principles which promote and encourage an effective organization. Analyzes the unique roles and responsibilities in a board/staff partnership. Demonstrates techniques and materials for improved board functioning. Considers elements of board orientation. Participants in this workshop must be pre-registered board/staff teams who have read their agency By-Laws. Saturday, March 26, 1977, 9 a.m.-5 p.m., \$20 for the team.

## Paths to Organization Success F026

**Peggy Dreger**

Focuses on the process of program planning and evaluation. Participants investigate the relationships between an organization's purposes, goals and objectives; develop the capability to depict the planning process as a PERT chart; analyze factors involved in determining managerial priorities; and investigate the appropriateness of various evaluation designs and techniques for measuring progress. Saturday, February 26, 1977, 9 a.m.-5 p.m., \$10.

## Minority Group Recruitment F027

**Peggy Dreger**

Coordinators and administrators of voluntary programs consider the characteristics of minority group membership; examine reasons for involving individuals in traditional, organizational voluntarism; investigate four specific recruitment techniques; and develop and practice skills needed for interviewing and writing job descriptions. Saturday, May 21, 1977, 9 a.m.-5 p.m., \$10.

## Learn to be an Effective Leader F028

**John Beck: M.Ed.**

**Margo Willet: M.Ed.**

Each of us is a leader at times. This three-evening workshop uses case studies and life situations to explore leadership. Learn how to analyze and diagnose situations and then determine the most effective leadership styles for the situations. Learn how you behave as a leader. March 8, 9, 10, 1977, 7-10 p.m., \$15.

## Decision-Making F029

**John Beck: M.Ed.**

How do groups make decisions? What is your role in getting decisions made? Learn about different types of decisions, how to make them and when to use them. Focus on Vroom's decision-making model. April 6 and 7, 1977, 7-10 p.m., \$10.

## Effective Use of a Board in a Citizen's Organization: Who is Represented, How, by Whom, For What Purpose? F030

**Gail B. Maienza: Chairperson, Board of Directors, Franklin-Hampshire Council for Children**

**Tracey B. Noble: Community Representative (staff) for Franklin-Hampshire Council for Children**

Discussion of various board structure models—what kind of board for what kind of need; exploration of different roles a board can play; methods of determining goals and focus; identifying who a board represents and how; methods to strengthen communications between board and constituency. Saturday, March 5, 1977, 9 a.m.-12 noon, \$5.

## **Volunteerism: Building and Maintaining Membership in a Citizen Participation Organization F031**

**Gail B. Maenza:** Chairperson, Board of Directors,

**Franklin-Hampshire Council for Children**

**Tracey B. Noble:** Community Representative (staff) for  
**Franklin-Hampshire Council for Children**

Strategies, tools, and techniques useful in recruiting and sustaining active involvement of membership in a volunteer citizens group. Discussion of common problems and possible solutions regarding membership; involvement with specific examples generated from workshop participants. Saturday, March 19, 1977, 9 a.m.-12 noon, \$5.

## **Forecasting and Long-Range Planning for Citizen Groups F032**

**Duane Dale:** Ed.D. Candidate

Many current social changes are the result of planning decisions made a decade or more ago. In order to play a part in their community's future, citizens need skills in forecasting and planning. Workshop identifies a community planning case study which is of interest to class participants and uses it to demonstrate the usefulness of trend analysis, impact analysis, and simplified systems modeling, as well as brainstorming and creative problem-solving. Tuesday, April 5, 1977, 7-10 p.m., \$5.

## **Evaluating Community Programs F033**

**Norma S. Friedman:** Director of Kulturama, Inc.

Focuses on the theoretical and practical aspects of community program evaluation. Introductory workshop geared toward the volunteer or administrator who is programming in his/her community in areas such as education, recreation, or social. It is highly recommended that an individual be familiar with objective writing. Evaluation techniques are discussed with emphasis on theory, rather than the specifics of each technique. Emphasis on the idea of evaluation as a continuous process with suggestions, exercises, discussion, and bibliography. Thursday, February 24, 1977, 7-10 p.m., \$5.

## **Finding the Real Issues: Motivating Citizen Involvement F034**

**Duane Dale:** Specialist, Citizen Involvement Training Project

Methods for motivating citizen involvement by tapping people's real concerns. Hands-on experience with informal surveys, discussion groups, Simon's "values clarification" techniques, and Freire's "generative themes". Participant evaluation of the usefulness of these techniques; tips on designing programs using the findings. Tuesday, April 12, 1977, 7-10 p.m., \$5.

## **Deciding What To Ask For—And How To Get It F035**

**Duane Dale**

Citizen groups find themselves asking for a lot—from basic information to policy changes. We could take a lesson from Roger Fisher's guidelines for international diplomacy: "Think about their decision" and "Give them a yes-able proposition". We'll try these ideas with class participants' issues, giving special attention to the questions: "How can we turn a utopian vision into a yes-able proposition?" "Who should we ask?" and "How much could we do ourselves?" Tuesday, April 19, 1977, 7-10 p.m., \$5.

## **A Look at the "isms": Capitalism, Socialism, Facism F036**

**Michael T. Gibbons**

Underlying assumptions about human nature and society are explored in relation to Capitalism, Socialism, and Facism, as well as the opportunities for human and social development for the future. Asks questions: Will Capitalism survive or are we on the road to a form of either Socialism or Facism? Tuesday, March 1, 8, 15, 1977, 7-10 p.m., \$15.

## **Improving PR and Media Coverage of Your Organization F037**

**Robbie Gordon:** M.F.A.; Free-lance writer; journalist; graphic artist

Focuses on how to write press releases so the press won't bury your story; how to create interest in your group; quick, inexpensive and effective methods of publicity (including promotional campaigns, leaflets and newsletters, and the utilization of free public-access media forums). Major thrust on the nuts-and-bolts of publicity and

on viewing your organization from the press's perspective. Wednesday, February 16, 1977, 7-10 p.m., \$5.

## **Production of Publications F038**

**Lorraine Bogartz:** Coordinator, Continuing Education  
**Bulletins**

**Robbie Gordon**

Presents skills useful in producing publications for the purposes of informing a target audience and communicating with some precision both verbally and graphically. Includes preparation of copy, design and layout, and working with printers. Some focus on how to save money, and how to get the job done without getting bogged down in details such as color choices, use of graphics, expensive camera work or impossible deadlines. Wednesday, February 23, 1977, 7-10 p.m., \$5.

## **The Written Word F039**

**Robert Lynch:** Consultant, Arts Extension Service

Participatory workshop for those who have difficulty writing for organizational purposes; includes "how-to's" of letter-writing, press releases, proposals, brochures, and reports. Critique method employed. Participants are urged to bring samples of their work. Wednesday, March 2, 1977, 7-10 p.m., \$5.

## **Accountability Organizing—How To Do It F040**

**Greg L. Speeter:** Community Organizer; "Children's Campaign '74"

Describes a method of holding selected officials accountable to the stated concerns of a constituency. Based on the success and failures of the "Children's Campaign, '74." The workshop process includes: building a "citizen's platform" (through public hearings and community organization techniques); determining candidate commitment to the platform; developing a report card for the candidate's responses to the platform; and methods of holding the elected candidates accountable to their commitments through group pressure. Monday, March 7, 1977, 7-10 p.m., \$5.

## **Who the Helping Profession Helps—The Politics and Economics of Human Services F041**

**Greg L. Speeter:** Community Representative, Holyoke/  
**Chicopee Council for Children**

Lecture/discussion of the roles and functions of various human service agencies, their effect or lack of effect on "clients," providers, politicians and corporate leaders; and alternative methods of providing services or preventing social problems so that rehabilitation services are not needed. Monday, March 14, 1977, 7-10 p.m., \$5.

## **How To Put Together a "Yellow Pages" for Social Change F042**

**Greg L. Speeter and Robbie Gordon**

A group of citizens assembled a "Children's Yellow Pages", an easy-to-read 102-page analysis of children's problems, listing of resources and plans for citizen involvement to prevent children's problems. Workshop describes how to assemble a yellow pages on any topic and how to mobilize a community around various problems. Includes developing a constituency, data gathering, issue building, organization of the manual, layout and graphics, distribution, methods of utilizing constituency in action organizing. Monday, March 28, 1977, 7-10 p.m., \$5.

## **The Planning Process: Management by Objectives F043**

**Donna J. Stephenson:** Consultant, Arts Extension Service, Division of Continuing Education

Using a results-oriented system, develops a working understanding of the fundamentals of objectives; what they are and why we care about them. Participants learn to articulate objectives which reflect the purpose of an organization. These objectives can be used for planning or re-defining programs and evaluating program progress. It is recommended that this workshop be taken in conjunction with the Long-Range Planning and Evaluation Workshops. Monday, February 14, 1977, 7-10 p.m., \$5.

## **Organizing Community Dialogue F044**

**Stan Rosenberg and Lin Riggio:** Coordinators, Great  
**Decisions Program, Division of Continuing Education**

Using the Great Decisions Program as a model, workshop focuses on

developing skills required to launch a community discussion program. Subjects include choosing the material, identifying constituencies and potential participants, marketing the program, organizing the discussion environment, collaboration among community organizations and facilitating discussion. Participants can expect to learn skills that are applicable to types of community efforts other than discussion programs. Saturday, March 12, 1977, 9 a.m.-12 noon, \$5.

#### **Setting Up Resource Systems F045**

**Robert L. Lynch: Consultant, Arts Extension Service, Division of Continuing Education**

In every type of social art or other service situation, effective services can be rendered only after an effective resource and information system has been developed. This workshop explores, through round table discussion, types of resource systems, pros and cons of resource tools, creating a self-sustaining, inexpensive information flow and methods of gathering, keeping, updating and distributing information. Legal ramifications, competition and individual problems are included. Thursday, March 17, 1977, 7-10 p.m., \$5.

#### **Oversimplified Accounting (Or All You Can Learn About Accounting in a Three Hour Course) F046**

**Caron H. Van Gilder: M.A., Arts Administration; Consultant, Arts Extension Service, Division of Continuing Education**

A microcosmic accounting workshop for small organizations. Simplified budgeting, setting up income and expense accounts, an overview of bookkeeping, financial reporting and how to control budgets. For organizations with budgets of \$10,000 to \$200,000. Tuesday, February 15, 1977, 7-10 p.m., \$5.

#### **"They"—Recruiting and Placing the Volunteer F047**

**Donna J. Stephenson**

Using discussion and role play as a base, participants examine the process of recruitment including interviewing skills. Workshop addresses the skills necessary to resolve problems. Monday, February 28, 1977, 7-10 p.m., \$5.

## **DANCE/MOVEMENT**

#### **Ballet: Beginning F048**

**Ellen Inkellis: University Dancer**

Designed for the interested person who has had little or no dance experience but lots of enthusiasm. Depending on the level of students, offers the basics of ballet at a speed that will be comfortable for all students, yet will prepare students to go on in ballet if they wish. Ten weeks, Tuesday and Thursday, 6:30-8 p.m., \$60.

#### **Ballet: Intermediate F049**

**Ellen Patton: University Dancer**

Designed for persons who have had Beginning Ballet training, and would enjoy moving on to a higher level of ballet technique. Attendance is stressed. Ten weeks, Tuesday and Thursday, 7-8:30 p.m., \$60.

#### **Creative Movement F050**

**Deborah Waldron: BDIC in Muscular Rehabilitation and Dance**

Guides the student into intelligent and sensual appreciation of the human body in motion. Utilizes movement techniques from ballet, modern, and jazz dance; familiarizes the student with the structural, functional, and physiological aspects of the movement of the human body. Begins with a structured technical warm-up designed to stretch, relax, tone-up, and rehabilitate specific muscle groups and evolves into a non-traditional unstructured pot-pourri of improvisation, dance therapy, relaxation exercises, and Esalen massage. Consistent attendance is encouraged. Wednesday, 7-9 p.m., \$41.

#### **Dance Exercise F051**

**Ellen Inkellis: University Dancer**

Designed for the individual who seeks a less structured environment than a dance class; emphasis on dance as a form of exercise rather than a performing art. All kinds of exercises are offered for different students' needs; an example of these would be exercises of a cor-

rective nature and tension-relieving exercises. Requires enthusiasm and enjoyment of getting and staying in shape. Ten weeks, Tuesday and Thursday, 8-9:30 p.m., \$60.

#### **Hatha Yoga F052**

**Adele Mack: Student and Teacher for eleven years**

Based on premise that health is discipline. Explores Hatha Yoga asanas and pranayama; relaxation at will; develops greater powers of concentration through "centering"; and proper diet and its application to our individual lives. Expenses are \$10-\$12. Recommended readings: Stearn, *Yoga, Youth and Reincarnation*; Swami Vishnu, *The Complete Illustrated Book of Yoga*. Section 1: Ten weeks, Monday, 6-7:30 p.m., \$31. Section 2: Ten weeks, Wednesday, 6-7:30 p.m., \$31.

#### **Modern Dance: Intermediate F053**

**Donna Potter: University Dancer**

Exploration into modern dance techniques, using a modern warm-up and incorporating music more intensely into exercises. Emphasis on refining movements and developing self-discipline and body control. Strict attendance encouraged. Previous dance experience required. Ten weeks, Monday and Wednesday, 7-8:30 p.m., \$60.

#### **Tap Dancing: Beginning F054**

**Janny Densmore: B.F.A.; Dancer**

Get the lead out of your feet! This class is for folks who have had little or no tap-dancing experience. No special talents are necessary because anyone who WANTS to can learn to tap. Begins with basic steps of tap, combining the steps into routines. Emphasis on moving in rhythm to musical selections from the 30's and 40's. Class is open to all; be prepared for vigorous fun. Expenses are \$3-\$10. Ten weeks, Wednesday, 6-8 p.m., \$40.

## **EAST WEST INTEGRAL STUDIES**

*The East West Integral Studies Program is a group of workshops designed to be a means of sharing knowledge and skills with one another. Presented in Amherst by the Division of Continuing Education in association with the East West Foundation, located in Boston, the Integral Studies Program covers a broad range of subjects from both East and West, including practical study and experience, along with the underlying principles and theory. It is our hope that the Integral Studies Program will help provide the understanding and practical means for the creation of health, happiness, and freedom through the development of a wholistic view of life.*

#### **Acupuncture Massage F055**

**Ken Burns: East West Foundation**

Acupuncture (Shiatsu, or finger pressure) massage, unlike Swedish massage, aims at treating illness or imbalance within the body by re-adjusting the flow of ki or life energy along the acupuncture points and meridians. Requires no specialized knowledge or instruments, and has been commonly practiced in the Orient for thousands of years. Workshop covers basic oriental methods of diagnosis and how to locate important points. Students learn to give a complete massage. Recommended readings: Michio Kushi, *Acupuncture and Ancient and Future Worlds*; George Ohsawa, *Acupuncture and the Philosophy of the Far East*; Ilza Vieth, *The Yellow Emperor's Classic of Internal Medicine*. Eight weeks, Wednesday, 6:30-9:30 p.m., \$50.

#### **The Art of Natural Macrobiotic Cooking F056**

**Diane Avoli: East West Foundation**

The practice of macrobiotic cooking reflects that health, spirituality and happiness depend on the quality of blood, and that is in turn determined by daily food. Introduces preparation of whole, natural foods. Emphasis on the balance of yin and yang in everyday eating, from season to season and for individual needs. Instructor demonstrates the use of basic, traditional foods in grain, bean/vegetable, soup, bread and dessert dishes for varied, delicious everyday meals.

Recommended readings: Abehsera, *Cooking for Life*; Farmilant, *Macrobiotic Cooking*; Ohsawa, *The Art of Just Cooking*; Teeguarden, *Freedom Through Cooking*. Eight weeks, Saturday, 10 a.m.-1 p.m., \$50.

### **Herbal Medicine: Wild Foods F057**

**Ken Burns**

Examines the sources of learning about herbs available in this area. In addition to field and forest, discusses written materials, and botanical reserves such as the Arnold Arboretum and the Garden of the Woods of the New England Wild Flower Society. Herbs most prominent locally are studied in detail regarding physical characteristics, season of flowering, favored terrain, and traditional uses. The Chinese Element Theory is applied to these herbs. Includes brief survey of American, European, Russian, Chinese and Japanese Herbal Folk medicines. Discusses healing on the cosmological level, using the Chinese concept: *man and earth not two*. Eight weeks, Thursday, 6:30-9:30 p.m., \$50.

### **Miso, Tamari, Seaweeds and the Foods of the Future F058**

**Bill Tims: East West Foundation**

In-depth study of foods that have formed a basis for the diets of traditional peoples for thousands of years. Includes history, processing, nutrition and future implications of these and other foods in relation to the quality of life for humankind on the planet Earth. Eight weeks, Saturday, 1-4 p.m., \$50.

## **FOREIGN LANGUAGES: CONVERSATION**

*The following language workshops concentrate on the functional and basic aspects of speaking a foreign language. All are guided by one basic rule: to develop a practical working knowledge of a language, with a view toward getting along in the country of its use. To this end, the fundamental necessities are emphasized, including manners, customs, travel, hotels, and common phrases and expressions. The grammar presented is elementary. No previous knowledge of the language is required, though those with some are also welcome.*

### **Conversational English for Foreign Students F059**

**Peter Zandan: M.A. in teaching English as a second language**

Designed for non-native English speakers to improve their English proficiency. Instruction helps students work on areas that trouble them the most. Concentrates primarily on speaking and basic writing skills. This workshop is not intensive or intended as an ESL course. Required reading: Kettering, *Developing Communicative Competence: Interaction Activities in English as a Second Language*. Ten weeks, Wednesday, 6:30-8:30 p.m., \$42.

### **Conversational French F060**

**Elise Mullen**

Intensive workshop designed for travelers to French-speaking countries. Ten weeks, Wednesday, 7-9 p.m., \$42.

### **Getting Along in German F061**

**George Vaught: Ph.D. Candidate**

Designed for those who want to learn enough conversational German to get along in a German-speaking country. Those with some knowledge of German also welcome. Deals primarily with spoken German, with phrases and expressions needed to feel at home in another country. Presented with a minimum of grammar. Most of the work is done in class, not at home. Learn to stay in a "Gasthaus" not a hotel. Ten weeks, Wednesday, 6:30-8:30 p.m., \$43.

### **Conversational Italian F062**

**Alessandro Massaro**

Intensive workshop for travelers to Italy. Required reading: Hall and Bartoli, *Conversational Italian*. Ten weeks, Wednesday, 7-9 p.m., \$40.

### **Conversational Spanish F063**

**Paul Erba**

Designed for those who want to learn to read and to understand the language basics. Ten weeks, Monday, 7-9 p.m., \$43.

### **Greek for the Traveler F064**

**Ilene Photos**

Presents basic phrases and expressions needed for travel; discussions on cross-cultural differences. Recommended reading: *Blue Guide for Greece*. Ten weeks, Tuesday, 7-9 p.m., \$41.

## **INSTRUMENTAL MUSIC**

### **Basic Jazz-Rock Guitar F065**

**Vincent Mitchell**

Includes suggested list, guitar care, tuning, plectrum technique, note reading, basic chords, position scales, 12-bar progressions, riff-writing, improvising, rhythm chords, lead chords, arrangement, and listening. Songs from standard and popular repertoire. Guitar player magazine articles. Access to guitar necessary. Recommended reading: Leavitt, *A Modern Method for Guitar*. Ten weeks, Wednesday, 7-9 p.m., \$42.

### **Fiddle/Violin Workshop F066**

**Yosef Oxenhandler**

European and American fiddle playing aimed at beginning and intermediate players. A "play by ear" approach to Irish, Bluegrass, Gypsy, and early music. Emphasis on tone production, intonation and bowing. Patience and a playable instrument only prerequisites. Ten weeks, Tuesday, 7-9 p.m., \$41.

### **Folk Guitar Finger Style: Basic F067**

**Vincent Mitchell: Guitarist**

Guitar care, tuning, picking technique, notereading, basic chording, basic guitar theory, tablature, back-up picking, capo, picking styles, one private lesson, listening session, and song swap. Songs traditional and by Woodie Guthrie, Tom Paxton, Leonard Cohen, Paul Simon. "Sing Out!" magazine articles. Access to guitar necessary. Ten weeks, Monday, 7-9 p.m., \$42.

### **Instrumental Folk-Rag Guitar: Intermediate F068**

**Vincent Mitchell**

Delves into fingerpicking arrangements of folk and ragtime songs for guitar: John Hurt, Fahey, Scott Joplin, and others. Includes music reading review, theory, guitar chording system, back-up picking, position scales, listening, playing and basic transcription. Students must know how to read music for guitar, and be familiar with basic chording. Ten weeks, Tuesday, 7-9 p.m., \$42.

## **LANGUAGE, LITERATURE & WRITING**

### **Persuasive Writing Workshop F069**

**Leah B. Glasser: M.A., English; Ph.D. Candidate**

Develops the skill of writing argumentative and expository essays and articles, generally in magazine format, in a manner that will appeal to a large audience. Central aim: for each writer to develop a persuasive personal voice (as in oral conversation) in expressing a given point of view. Experimentation with many techniques in argumentative writing. Group becomes "editorial board" and in process of reading and commenting on work of fellow students, each participant learns to apply new critical insight to his/her work. A chance to learn how to reach and possibly convince a large audience as well as an opportunity to discover what you really feel about the subject through writing. Suggested reading in various magazines. Ten weeks, Monday, 7-9 p.m., \$43.

### **Reading/Writing The New Gothic F070**

**M. Candice Ward: M.F.A.; Author**

Analyzes the latest type of gothic literature to emerge, i.e. gothics in which the "heroine" is an independent adult, complete with sense of humor and interested in more than "getting human." Compares these new novels to those of the traditional "forerunners-gothic" genre and discusses what effects the women's movement may have had

on the genre. Identifies the "formula" used in the writing of these novels so that students may emerge with some ability to write for fun and profit in a market that is wide open to new talent. Both practical and literary. Up-to-date publishing information offered to students. Recommended readings: Bronte, *Jane Eyre*; Bronte, *Wuthering Heights*; DuMaurier, *Rebecca*. Required readings: Hargrave, *Clara Reeves*; Butler, *Sarston Place*; one book by Glen-da Carrington. Ten weeks, Tuesday, 7-10 p.m., \$60.

#### **Sign Language and Finger Spelling: Beginning F071**

**Stanley Patrie: Teacher of the Deaf**

Manual communication as used by most deaf people in this country. Includes a brief history of the use of the language of signs, background information on deafness and how it affects those who have been born deaf or lost their hearing later in life. Students converse with totally deaf people, including the instructor, who is also deaf. Required text: Lottie Riekehot, *Talk to the Deaf*. Ten weeks, Monday, 7-9 p.m., \$40.

#### **Sign Language and Finger Spelling: Advanced F072**

**Stanley Patrie**

Helps the student become more fluent in both expressive and receptive sign language. Introduces what is known as AMESLAM, a contraction of "American Sign Language," in which facial expression and a certain amount of "body English" play an important part. Expenses are \$5-\$6. Ten weeks, Tuesday, 7-9 p.m., \$40.

#### **Spanish-English Translation F073**

**Maria-Lydia Spinelli: Graduate Student**

Rather fluent knowledge of both languages required. Very relaxed—learn at your own pace. Includes: business, political, medical, legal terminology and anything else you may want to translate. Required reading: a good bilingual dictionary. Recommended readings: Webster Collegiate Dictionary; good Spanish dictionary. Ten weeks, Wednesday, 7-9 p.m., \$41.

#### **Writing for Magazines: How to Earn a Living by Freelance**

**Writing F074**

**Steve Berman: Writer**

Covers entire process of selling, including subtleties of the various writer's markets—everything from *Harpers* and *Atlantic* to the mystery pulp magazines: getting ideas for stories, selling the idea to an editor and the actual writing of the piece. Workshop is for serious students and includes individual sessions with instructor. Ten weeks, Monday, 6:30-9:30 p.m., \$80.

#### **Writing for Self-Enrichment F075**

**Nancy Lee Thayer: M.A., Publications**

Explores the possibilities for personal self-discovery and self-therapy through reading and writing, with minor emphasis on writing commercially. Students study and write diaries, letters, short stories, poetry, and non-fiction and participate in many exercises for "finding what's in there" and "getting it out." Ten weeks, Saturday, 9 a.m.-12 noon, \$61.

#### **Writing For Life F076**

**Pat Schneider: M.F.A. Candidate; author**

Encourages and helps persons who need to write to do so as easily as they talk. Explores fears and blocks to writing. Students submit samples of their writing, which may be sections of term papers, personal letters, or imaginative work. Class time is used in discussion and encouraging suggestion for improvement. Students are asked to keep a personal journal which may be shared with the teacher at the end of the workshop. Ten weeks, Thursday, 7:30-10 p.m., \$51.

## **OUTDOORS**

#### **Hang Gliding: Basic Pilot Training F077**

**Michael Morrissey and Charles LaVersa: Glider Sports International Approved Instructors**

Basic pilot (ground and flight) training for foot-launched ultralight aircraft. Includes history and development of foot-launched aviation; aerodynamics; micrometeorology for the glider pilot; safety; maintenance; and actual flight experience. Three classroom sessions of three hours each and two flight sessions of two hours each. On-the-hill flight sessions scheduled at the students' convenience and before the end of the semester. All equipment is furnished. GSI insurance at \$17.50/student is a required expense

and payable to instructors at the first meeting. Recommended reading: Pagen, *Hang Gliding and Flying Conditions*; Poynter, *Hang Gliding: the Basic Handbook of Skysurfing*. Three weeks, Wednesday, 7-10 p.m., \$90.

#### **Technical Rock Climbing: Introduction F078**

**Jock Cochran**

Introduction to technical rock climbing takes place during one classroom session and two full days on the cliff. Indoor work includes knot-tying, belaying and safety system instruction as well as transportation arrangements and general preparation for the week-end. Climbing instruction at Chapel Ledges in South Ashfield develops climbing ability through the demonstration and practice of various techniques: jam, counterforce and friction, climbing various routes, and belaying and rappelling. For anyone 9 years or older; anyone under 16 years must be accompanied by an adult. Hiking or work boots are needed along with transportation and a bag lunch. Dress for weather, rain or shine. Recommended readings: Robbins, *Basic Rockcraft*. Classroom, Thursday, April 14, 1977, 7-10 p.m., UMass campus. Climbing instruction, April 16 and 17, 1977, 9 a.m.-4 p.m., South Ashfield, MA., \$40.

#### **Technical Rock Climbing: Intermediate F079**

**Jock Cochran**

Introduction to rock climbing with more specialized techniques: face climbing, crack climbing, layback and introduction to nut placement. Emphasis on actual climbing. Reviews belaying techniques, climbing calls and safety systems. Designed for those who have had introductory rock climbing course or experience. Recommended readings: Robbins, *Basic Rockcraft* and *Advanced Rockcraft*. Classroom, Thursday, April 28, 1977, 7-10 p.m., UMass campus. Climbing instruction, April 30 and May 1, 1977, 9 a.m.-4 p.m., South Ashfield, MA., \$40.

#### **Tennis: Beginning F080**

**Steven M. Rosenthal**

Provides fundamentals of stroke dynamics—balance, coordination, and rhythm. Covers forehand, backhand, and serve. Discusses rules of the game, scoring, and beginners strategy. Open to anyone with a desire to learn and the motivation to practice. Bring a racket, a can of balls, and wear sneakers. Six weeks, Monday and Wednesday, 4:30-6 p.m., \$25. Begins April 11, 1977.

#### **Tennis: Intermediate F081**

**Steven M. Rosenthal**

For those tennis students who can already hit groundstrokes with some consistency. Reviews rudiments of forehand and backhand, and covers techniques to achieve more powerful and accurate strokes. Introduces correct execution and use of the serve and the volley. Discusses match play, and how to buy tennis equipment. Please wear sneakers and bring a can of balls. Classes meet outdoors. Six weeks, Monday and Wednesday, 3-4:30 p.m., \$25. Begins April 11, 1977.

## **PERSONAL GROWTH**

#### **Career Decision-Making F082**

**Garrett McAuliffe: M.S.; Ed.S. in Counseling and Student Personnel Services**

Six-session workshop helps students become more aware of the career decision-making process. Explores values, abilities and interests in order to have a sound basis for career planning. Six weeks, Wednesday, 7-9 p.m., \$25. Workshop fee for students currently enrolled in either credit or credit-free continuing education courses or workshops is only the \$5 registration fee. Begins March 2, 1977.

#### **Conflict Resolution F083**

**Jack J. Rosenblum: J.D.; Ed.D. Candidate**

Skills dealing with conflict in creative and nourishing ways. Explores intra- and inter-personal conflicts and develops strategies to resolve them in a way that creates bonds and trust rather than resentment or suspicion. Uses role-play, guided fantasy, structured experiences and feedback; includes inevitable personal conflicts and attempts to resolve them. Learn to enjoy and bask in the warm glow that comes from having resolved a conflict successfully. Recommended reading: George Bach, *Creative Aggression*. Eight weeks, Tuesday, 7:30-9:30 p.m., \$65.

## **Creative Analysis—An Introduction F084**

**Penny Horowitz: M.A.T., History; Ed.D. Candidate**

Creative Analysis uses words to solve problems. Students become acquainted with principles of thinking as they relate to language usage and have the opportunity to practice various problem-solving techniques such as qualification, classification and analogy. These and others are studied and then put together to create a general approach to solving problems of all kinds. Recommended reading: Samson and Upton, *Creative Analysis*. Ten weeks, Thursday, 7:30-10 p.m., \$51.

## **Dreams and Dream Interpretation—A Jungian Approach F085**

**Steven Bengis: Counselor and Therapist**

Introduces basics of Jungian depth psychology. In addition to exploring basic theory, discusses the analysis of dreams using dream examples. Non-experiential workshop, but students will be asked to keep a dream journal for their own use. Recommended reading: Whitmont, *A Symbolic Quest*. Expenses are \$4. Ten weeks, Monday, 7:30-9:30 p.m., \$40.

## **Improving Interpersonal Relationships F086**

**Susan Lehtinen: Ph.D., Psychology**

Basic notions concerning the development of satisfying interpersonal relationships. Focuses on applying these notions to each participant's everyday life. Participants have the opportunity to explore and train themselves in new and different ways of relating to others through discussion, role-plays, structured exercises, etc. Emphasis on active participation. Issues examined include trust, conflict, peak experiences, grief and loss. Recommended readings: Alberti and Emmons, *Your Perfect Right*; Gordon, *Parent Effectiveness Training*; Kubler-Ross, *On Death and Dying*; and Rogers, *On Becoming a Person*. Ten weeks, Wednesday, 7-9:30 p.m., \$51.

## **Self-Defeat and Self-Realization F087**

**John Barbaro: M.Ed.; Ed.D. Candidate**

Self-defeating behaviors are those habits and personal patterns of living that impede the achievement of one's goals. Workshop systematically isolates those behaviors and their different aspects. Underlying motives are outlined and workable alternatives are discussed. Recommended readings: A. Lakein, *How to Get Control of Time and Your Life*; M. Schiffman, *Gestalt Self Therapy*; S.J. Warner, *Self-Realization and Self-Defeat*. Ten weeks, Tuesday, 7-9:30 p.m., \$42.

## **Siddha Yoga/Meditation: Based on the Teachings of Swami**

**Muktananda Paramahansa F088**

**Marcel Ringawa: student of Muktananda**

Introduces the tradition of Siddha Yoga and develops the seed of meditation. To a siddha yogi the worldly is the spiritual and the spiritual is the worldly. It is meant to be practiced under ordinary conditions of day to day existence. Swami Muktananda Paramahansa is a Siddha who has realized union with the Inner Self. During the last six years, Swami Muktananda has brought the tradition of Siddha Yoga to the West. Through class sharing and meditative practice, the workshop covers the areas of Siddha Yoga philosophy, meditation, chanting, mantra, Chakra centers, Kundalini. Required reading: Muktananda, *Play of Consciousness*. Nine weeks, Tuesday, 7-9 p.m., \$39.

## **The Tarot: An Introduction to its Psychology and Symbolism F089**

**Paul Zelley: M.Div.; M.A.**

Basic techniques of meditation using the archetypal Tarot card symbols. The Tarot trumps may be viewed as keys that unlock an individual's personal unconscious to lead to a greater awareness of the spiritual or higher self. Detailed analysis of the Tarot symbols and their relationship to everyday life. Discussions consist of a history of the Tarot, modern profane practices, such as fortune telling, and current misconceptions. Students make Tarot cards. Expenses are \$3.50 for cards. Ten weeks, Tuesday, 7-9 p.m., \$40.

# **PHOTOGRAPHY**

## **Darkroom Procedures: Introduction F090**

**Carol Reck: Photographer**

Learn to make your own photographic images. An introduction to

the basic techniques of black and white film developing, contact printing and enlarging. Covers selection of films, papers and chemicals, archival processing, and presentation of the finished print. Demonstrations, discussion and student participation in the darkroom are integral parts of the course. Each student should have access to a camera. For beginners. Limited to 5. Expenses are \$10-\$15. Ten weeks, Wednesday, 7:30-10 p.m., \$78.

## **Photography: Basic F091**

**Richard Barrell**

Familiarizes students with the basics of photography, cameras, lenses, filters, films and photographic materials. Work of famous photographers and films will augment lectures. No darkroom work will be required. The idea is to help you realize your ideas and pictures in slides or prints. Expenses are \$5-\$20. Recommended readings: Adams, *Camera and Lens*; Eastman Kodak, *Basic Developing, Printing and Enlarging*; *The Daybooks of Edward Weston*. Ten weeks, Wednesday, 7-9 p.m., \$40.

## **Photography: Intermediate F092**

**Carol Reck: Photographer**

For photographers with previous darkroom experience. Explores the possibilities of 35mm equipment, and techniques of photographic processing and printing to make more expressive photographs. Darkroom demonstrations and student work are supplemented by slide presentations and discussion of work of major photographers. Expenses are \$5-\$15. Recommended readings: Adams, *The Negative and The Print*; Newhall, *History of Photography*. Ten weeks, Thursday, 7:30-10 p.m., \$78.

## **Photography for Artists and Craftspersons F093**

**D. John McCarthy: Photographer**

Provides specific theoretical and practical information on the specialized field of art-object photography. Basic principles of photography are covered and then adapted to art-object photography through slide illustrated lectures, demonstrations, and outside assignments. Upon the completion of the course the student should have a photographic portfolio of his/her art work and a sound understanding of the basic principles of photography and how to apply them in any kind of photography he/she may be called upon to do. Expenses are \$10. Ten weeks, Tuesday, 7-10 p.m., \$60.

## **35mm Camera Workshop F095**

**D. John McCarthy**

Fundamental photographic theory and how to apply to 35mm photography. Lectures and demonstrations on exposure, light, lenses, composition, color, etc. Weekly assignments on practical application. The student will turn in one roll of exposed black and white film each week to be developed and made into slides by the University Photo Center. The slides are critiqued at the beginning of class the following week and the original negatives are returned unharmed. Getting the most out of professional photo finishers is covered, as well as the care of film, prints, and slides. Students must have access to a 35mm camera and should have some knowledge of basic photography. Expenses are \$10-\$15. Ten weeks, Monday, 7-10 p.m., \$60.

# **PLANT CARE**

## **The Care and Feeding of Houseplants: Plant Parenthood F096**

**Susan J. Roy: Arborist**

Basic horticultural practices are brought to bear in the ongoing care of a typical collection of houseplants. Includes: a short history of the adaptation of plants to the house; a discussion of the environmental and chemical influences which affect the health of plants under the special conditions of an average home; basic discussion of houseplant pathology, entomology and remedies. Construction of a simple terrarium. Expenses are \$5-\$15. Ten weeks, Wednesday, 7:30-9:30 p.m., \$41.

## **From the Ground Up: Landscaping and Grounds Maintenance for the Homeowner F097**

**Susan J. Roy: B.S., Plant and Soil Sciences; Arborist**

Basic horticultural principles in solving common problems that arise when landscaping. Discussion include selection and care of trees and shrubs, lawns, ground covers and mulches, maintenance of plant material, fertilizer and pesticide use, basic pathology and entomology.

Special emphasis will be on low-maintenance plantings and cultural methods. Not intended as a highly technical course for a practicing landscaper. Includes related topics, such as the physiology of roots, plant growth tendencies and the properties of soil. Ten weeks, Monday, 7:30-9:30 p.m., \$41.

#### **Terrarium and Bottle Garden Construction F098**

**Susan Roy**

Both adults and children are invited to bring their plants and containers for a workshop on the mini-environment—planting technique, and after-care of the terrarium. Some sand painting will be demonstrated. Planting done in a bottle will be shown. Saturday, April 30, 1977, 9-11 a.m., \$4.

#### **Williamsburg-Style Colonial Arrangements: How to Collect and Preserve Local Herbs and Plants F099**

**Susan Roy: Horticulturalist and Floral Designer**

Discusses native herbs and weeds suitable for collecting and drying. Particular harvest times and best drying methods are included, along with a look at the best garden flowers to grow for dried arrangements. Students design and complete a dried arrangement. Materials will be provided and are included in the workshop fee. Bring scissors, wire-cutters, florist tape and wire. Expenses are \$3-\$7. Saturday, May 7, 1977, 9 a.m.-12 noon, \$17.

## **COMMUNITY THEATER**

#### **Acting Workshop I F100**

**Gretchen L. Eisenhaure: B.A., Theater**

Emphasizes the importance of the actor in theater and the awareness of his/her body while on stage. Improvisational work, yoga, isolation and mime exercises, and scene work. Ten weeks, Wednesday, 7-9 p.m., \$40.

#### **Problems in Technical Theater F101**

**Fritz Farrington: Master Carpenter, F.A.C.**

Special problems in technical construction with emphasis on properties construction. Designed for the student with specific problems in mind. Expenses are \$10. Ten weeks, Tuesday, 8-10 p.m., \$40.

#### **Technical Production F102**

**Lewis E. Louraine, Jr.: Stage Manager, Fine Arts Center**

**Michael Van Dyke: Assistant Technical Director, Amherst College**

An overview of the technical aspects of theater from reading the play through design and construction to striking the show. Discussion and demonstration of skills and techniques. Sources of materials and information on how to locate and cajole theatrical supplies. Ten weeks, Monday, 7:30-10 p.m., \$51.

#### **Theatrical Lighting: Basic F103**

**James MacRostie: Production Stage Manager, Fine Arts Center and Lewis E. Louraine, Jr.**

Fundamentals of theatrical lighting: how to develop a light plot, hang, circuit, focus and gel the lights. Includes types of dimmer systems and lighting equipment. Ten weeks, Tuesday, 7-10 p.m., \$60.

#### **Theatrical Lighting: Advanced F104**

**James MacRostie and Lewis E. Louraine**

Theory of lighting, lighting instruments, electricity and color. Lecture and demonstration. Ten weeks, Thursday, 7-10 p.m., \$60.

## **...AND MORE**

#### **Animal Management for the Self-Sufficient Farm or Homestead F105**

**Edward T. Kingsbury: Ph.D.**

A brief description of livestock and poultry management directed toward the needs of the self-sufficient and small scale farmer. All classes of livestock and poultry are considered with emphasis on species of particular interest to the class. Topics for each species include: animal selection, feeding, health care, breeding, and the

raising of young animals. Special attention is directed toward the interrelationships between different farm animals and how they can be combined for maximum efficiency. General farm management as it relates to animal agriculture is considered throughout the presentation. If there is sufficient interest, a one-day tour will be arranged. Ten weeks, Wednesday, 7-10 p.m., \$60.

#### **Astrology: Introduction F106**

**John Penn: Physicist**

A general introduction to the theory and practice of astrology. Topics include chart erection and interpretation, relative to signs, houses, planets and their aspects. Attention given to the physics, as well as the metaphysics of astrology. Ten weeks, Thursday, 7:30-8:30 p.m., \$20.

#### **Auto Mechanics: Basic F107**

**Robert Coven: Mechanic**

A complete basic workshop, assuming little or no knowledge of the automobile. A new unique philosophical approach simplifies automobiles, and allows students to perform any mechanical operation on their own cars. Money-saving tips on purchasing parts, good driving habits, correct engine tuning, diagnosing without sophisticated equipment, and minimal tool purchase requirements. Half course time is devoted to theory and diagnosis. The other half is "under the hood" application of classroom theory. Ten weeks, Tuesday, 7-10 p.m., \$61.

#### **Chapter 766: Seminar in Massachusetts Special Education Law F108**

**Daniel A. Burke: Doctoral Student; Special Education Supervisor**

Review of the legal process involved in Chapter 766 prior to the delivery of special education services by public school systems. Preparation for and participation in sample core evaluation team meetings. Provides skills in how to critically evaluate educational plans and monitor the progress of the pupil. Discussion of the special education resources which are available to support the student with special needs, teachers, administrators, parents, and ancillary personnel. Ten weeks, Saturday, 9 a.m.-12 noon, \$60.

#### **Developing Consulting Skills F109**

**Robert C. Hawley: Ed.D.; Consultant in Education and Management**

For educational and organizational consultants, and those interested in developing consulting practices in education, organizational development, or the helping professions. Offers activities and guidelines: assessing needs, providing resources, structuring risks, giving feedback, uncovering blocks to effective collaboration, and determining appropriate task and maintenance ratios. Demonstrates avenues to creative problem solving such as brainstorming, synectics, and lateral thinking; techniques for decision-making such as cost-benefit analysis, risk-reward ratios, and decision charting; and group procedures such as role-playing, simulations, revealed difference surveys, and leaderless discussion groupings. Recommended readings: R. Hawley, *Value Exploration Through Role Playing*; R. and I. Hawley, *Developing Human Potential*; R. Likert, *The Human Organization*. Four weeks, Wednesday, 6:30-9:30 p.m., \$24.

#### **Math Learning Skills F110**

**Herb Koplowitz: Ph.D.**

Designed for students who never took high school math, took it a long time ago, took it but never felt they learned it, or who are simply anxious about math. It is appropriate for students taking math, stat, or science courses, students who have been putting off taking such courses because of math anxiety or low math skills, or those who are avoiding otherwise appropriate career choices except for a deficiency in math. Offers help not only in learning math itself, but also in other areas needed for success in math such as understanding the basic concepts behind the formulas; dealing with anxiety and fear about math; developing problem solving abilities; solving word problems; how to ask questions and to persist in question-asking until your question is answered. Students are taught in small groups so they may receive appropriate individualized attention. Eight weeks, Wednesday, 7:30-9:30 p.m., \$10. Begins March 2, 1977.

## Real Estate F111

David W. Ryan: Real Estate Broker; GRI

Basic knowledge and practices in real estate. Terms, instruments, and relationships, both legal and financial, are stressed in an analysis of real property brokerage, valuation and financing. Provides a base from which the student can explore specialized areas of real estate and is an excellent preparation for the Massachusetts Real Estate License examination. Textbooks are included in the workshop fee. Ten weeks, Tuesday, 7-10 p.m., \$75.

## EARN 6 CONTINUING EDUCATION UNITS

### The People Side of Management (6 CEUs) F112

Carol J. Claflin: Consultant-Trainer, Development Bank

Intensive 60 hour workshop in leadership-management development for a small group of men and women who are in (or about to be in) positions of leadership in business or other organizations. Opportunity to extend skills, knowledge and insight in areas of: motivation, communication, group dynamics and development, decision-making, goal-setting and evaluating, leadership styles, management theories, conflict management, constructively producing change. Workshop is not designed for persons under extreme emotional stress. If you want to improve your ways of dealing with and understanding people, consider this opportunity. Combines cognitive and experiential learning. Friday, March 11, 1977, 9 a.m.-9 p.m., Saturday and Sunday, March 12 and 13, 9 a.m.-6 p.m., Friday, April 15, 9 a.m.-9 p.m., Saturday and Sunday, April 16 and 17, 9 a.m.-6 p.m. Participants should bring their own lunches; supper is included with late workshops. This workshop has been approved for 6 CEUs which will be awarded to all participants attending all sessions (60 required contact hours). Fee: \$152. The CEU is designed for in-service professionals and non-professionals who want to maintain a record of their participation in approved non-credit continuing education programs. For a more complete description of CEUs, see **Program Alternatives or Continuing Education Unit** in the index of this catalog.

## TOWARD TOMORROW

The Toward Tomorrow Fair is a country fair of the future, designed to present numerous possibilities for America's rapidly changing lifestyles, environment and energy needs.

It is a celebration which is both fun and educational. A day at the Toward Tomorrow future fair lets you look at working windmills and solar collectors, taste solar cooked hot dogs, or relax to the tune of a blue-grass band.

The fair will attempt to create an educational forum in which the controversies surrounding various social issues will be exposed. The future of taxation and legal reform, government, food and agriculture, health care, transportation and civil rights are among many pressing problems which the fair will address.

About 17,000 persons attended last year's fair, where over 200 exhibitors, organizations and speakers communicated their ideas.

The Toward Tomorrow Fair will be held again this coming June at the University of Massachusetts/Amherst campus in response to a large number of requests from citizens interested in alternative energy sources and concerned about America's future.

Ralph Nader called the fair "the single best example of education for the citizenry about their choices in America's future" that he's ever seen.

Watch for the University of Massachusetts Summer Catalog and local papers for future announcements about the fair or contact Toward Tomorrow for more information. Write to: Toward Tomorrow, 200 Hills House North, University of Massachusetts, Amherst, MA 01003; or call (413) 545-0474/5.

## 22.5 Million Per Hour:

### IS YOUR ORGANIZATION GETTING ITS FAIR SHARE?

How To Get More Grants: A Systems Approach To Grantsmanship is a one-day credit free seminar to train you to improve your grantsmanship skills. The seminar leader is Daniel Lynn Conrad, consultant and president of the Institute for Fund-Raising in San Francisco. The seminar will be held on Saturday, January 22, 8:30 a.m.-4:15 p.m. at the University of Massachusetts/Amherst. For complete information, obtain a Wintersession Catalog by writing to the Division of Continuing Education, Box 835, Amherst, MA 01002, or call Stan Rosenberg at (413) 545-3420.

# VOLUNTEER MANAGEMENT WORKSHOPS

## Feb.-May, 1977

SPONSORED BY THE SPRINGFIELD ACTION COMMITTEE AND THE DIVISION OF CONTINUING EDUCATION UNIVERSITY OF MASSACHUSETTS/AMHERST

## MAP KEY

In the table below, the building abbreviations found in the Schedule Listing appear in alphabetical order in the first column. The name of the building corresponding to the abbreviation can be found in the second column, and its location on the map on the next page appears in the third column. Buildings that do not have an abbreviation are listed under the first letter of their name. The two-letter abbreviations that appear after certain building names in the table below refer to the following residential areas: CA=Central Residence Area, NA=Northeast Residence Area, OH=Orchard Hill, and SW=Southwest Residence Area.

|         |                                 |    |      |                                  |    |
|---------|---------------------------------|----|------|----------------------------------|----|
| AEB     | Agricultural Engineering Bldg.  | B4 | J-AD | John Adams                       | C7 |

| December 8             | Wednesday             | Classes End                                     |
| December 9 - 14        | Thursday - Tuesday    | Reading Period                                  |
| December 15-22         | Wednesday - Wednesday | Final Exam Period                               |
| December 23            | Thursday              | Emergency make-up in case of snow cancellations |
| <u>SECOND SEMESTER</u> |                       |                                                 |
| January 21             | Friday                | Special Add/Drop                                |
| January 24             | Monday                | Classes begin                                   |
| January 28             | Friday                | Add/Drop Ends                                   |
| February 21            | Monday                | Holiday (Washington's Birthday)                 |
| February 22            | Tuesday               | Monday Schedule                                 |
| March 11               | Friday                | Mid Semester                                    |
| March 18               | Friday                | Pass/Fail Deadline                              |
| March 26 - April 3     | Saturday - Sunday     | Vacation                                        |
| April 4                | Monday                | Classes Resume                                  |
| April 18               | Monday                | Holiday (Patriots Day)                          |
| April 19 - 29          | Tuesday - Friday      | Advance Registration                            |
| May 6                  | Friday                | Last Day of Classes                             |
| May 9 - 13             | Monday - Friday       | Reading Period                                  |
| May 13                 | Monday                | All senior grades due                           |
| May 16-23              | Monday - Monday       | Final Exams                                     |
| June 2                 | Thursday              | Commencement                                    |

# MAJOR DEGREE PROGRAMS

|               |                                |                 |              |
|---------------|--------------------------------|-----------------|--------------|
| Anthropology  | German                         | Italian         | Physics      |
| Art           | Greek                          | Latin           | Politics     |
| Biology       | History                        | Legal Education | Psychology   |
| Black Studies | Housing and Community Services | Management      | Russian      |
| Chemistry     | Development                    | Mathematics     | Sociology    |
| Classics      | Human Growth and Development   | Music           | Spanish      |
| Economics     | Institutions                   | Philosophy      | Theatre Arts |
| English       |                                |                 |              |

French Concentrations are available in Black Studies, Law and Justice, Religious Studies, Teacher Certification for the elementary and secondary schools, Urban Social Services, Urban Studies and Women's Studies. Advisor's are available to those wishing to pursue Pre-law, Pre-medical, Pre-dental, Pre-engineering, or Pre-veterinary programs.

## ACADEMIC REGULATIONS

Grades shall be reported according to the following letter system. No other interpretation of this letter system shall be authorized.

|             |                                                |
|-------------|------------------------------------------------|
| A-Excellent | INC.-Incomplete                                |
| B-Good      | P-Passing (Pass/Fail Option)                   |
| C-Fair      | Y-Interim grade in a declared year long course |
| D-Passing   |                                                |
| F-Failure   |                                                |

The grade of Incomplete shall be reported only when a portion of the assigned or required class work, or the final examination, has not been completed because of the student's serious illness, extreme personal circumstances, or for scholarly reasons at the request of the instructor. If the student's record is such that he would fail the course regardless of the result of the missing work, he shall fail. A student can obtain credit for an incomplete only by finishing the work of the course within the first two weeks of the following semester. The grade of incomplete is converted to a failure if the course requirements have not been satisfied by that time. Exceptions to the two week deadline may be requested from the appropriate agency in cases of protracted illness, critical personal problems or for scholarly reasons at the request of the instructor. The initiative for removal of the incomplete grade rests with the student.

An incomplete on a final grade report is not calculated in arriving at a temporary quality point average. When the incomplete is later converted to a grade, the quality points are changed and the student is notified.

Once a grade is submitted, it cannot be changed except on approval of the Department Chairperson.

## PASS/FAIL OPTION

A student may elect one course each semester to a maximum of eight on a Pass/Fail basis provided he presents a P/F option card to the Registrar's Office at the time announced during each semester. The grade of Pass will be included in the graduation credits but not in the quality points or cumulative average. A P/F once submitted, cannot be withdrawn or changed to a grade. A student must be carrying 3 courses or 12 or more credits during the semester in which he/she elects the P/F option.

## QUALITY POINTS

Quality points are assigned to course grades as follows: A=4; B=3; C=2; D=1; F=0. The quality points for each grade are multiplied by the number of credits for the course, and the totals for all courses are added to arrive at the number of cumulative quality points. The number of cumulative quality points is divided by the number of cumulative credits carried to arrive at the cumulative quality point average. A "P" is not averaged in the cumulative average.

# RETENTION AND GOOD STANDING

## Cumulative Index Required for Retention

| Semester | Cumulative Average Retention |
|----------|------------------------------|
| 1        | 0.0                          |
| 2        | 1.3                          |
| 3        | 1.5                          |
| 4        | 1.6                          |
| 5        | 1.7                          |
| 6        | 1.8                          |
| 7        | 1.9                          |
| 8        | 2.0                          |

NOTE: Students who elect a five-year program are expected to maintain a 2.0 average for the last three semesters.

## ACADEMIC DISMISSAL

A student whose cumulative average falls below the requirement for retention will be Academically Dismissed.

## SCHOLASTIC PROBATION

A student will be placed on Scholastic Probation if his semester average is below 1.5 after any of the first three semesters or below 2.0 after any of the subsequent semesters.

Any student who is at the probation level shall be warned by a statement on the bottom of his copy of the semester grade report. This warning is to indicate that continued below-standard performance will result in failure to graduate or in academic dismissal.

Probation precludes membership in University and College governance bodies and Committees, and also proscribes holding office in student organizations.

## Probation Appeals

The Committee on Standards and Scholarship shall be charged with modifying, extending, or limiting the restrictions on a student during a period of Scholastic Probation, and determining the limit of its duration. The Committee shall report all such modifications to the University Assembly.

## Readmitted Students

A readmitted student must attain the cumulative average required for the class to which he has been assigned at the time of readmission.

## Transfer Students

The former cumulative average of a transfer student does not carry over to this University; the student begins a new cumulative average upon admission. A transfer student is not dismissed after the first semester because of his cumulative average. However, for all subsequent semesters, the student must attain the cumulative average necessary for the class to which he was assigned.

## Failed Courses

A failed course in a subject required for the degree must be repeated. If the original failed course is repeated and passed, it remains on the student's record but will not be computed in the cumulative average. A course once passed may not be repeated for a higher grade.

## COURSE CHANGES--FIRST FIVE ACADEMIC DAYS

1. Add Period--The student is allowed 5 academic days from the beginning of the semester to add, drop, or substitute a course without notation on the record.
2. Add/Drop Procedure--If a student has good reason to drop one course and add another, he may accomplish this in the following manner:
  - A. Secure and add/drop card from the Registrar's Office
  - B. Have the instructor of the course to be added certify that space is available in the desired section
  - C. Secure release from the instructor of the course to be dropped
  - D. Secure the Advisor's signature
  - E. Submit the completed add/drop card to the Registrar's Office

3. Withdrawal-- If the student simply wishes to withdraw from a course (within the first five days) he may do so with the instructor's approval, using the following procedure:
  - a) obtain an add/drop card from the Registrar's Office
  - b) obtain the necessary signatures and return the card to the Registrar's Office

#### COURSE CHANGES--AFTER 5th ACADEMIC DAY

1. From the 6th academic day to the last day of classes, a student may drop a course subject to minimum load regulations (3 courses or 12 credit hours for matriculated students). The notation of withdrawal on the student's record will be the grade of "W" which is not computed in the grade point average.
2. Procedure--(6th academic day to the last day of classes). To be properly withdrawn from a course the student must accomplish the following:
  - a). Secure a course withdrawal card from the Deans' Office
  - b). Schedule a conference with his advisor and the instructor of the course and secure their signatures.

#### WITHDRAWAL FROM THE UNIVERSITY

1. If a student withdraws prior to the last day of classes, a "W" for each course will be recorded along with his withdrawal date.  
The effective date of withdrawal is that on which all proper forms are completed, signed, and returned to the Registrar.

2. Withdrawal Procedure--To withdraw from the University the student shall do the following:
  - a). Consult with a member of the Dean's advising staff, who will provide and sign the necessary form.
  - b). Receive clearance from all departments of the University where he may have accrued charges; library, laboratories, health services, Bursar's office, Student Affairs Office, bookstore. This will clear the student's records so that he may obtain the appropriate refunds and/or transcripts.
  - c). Return the completed form to the Registrar's Office

3. If any charges are outstanding, the student's permanent records will be frozen and no transcripts will be issued. Failure to complete a withdrawal form will result in the recording of the grade of "F" in all courses at the conclusion of the semester.

4. Any student withdrawing during the fall semester after the November 1 readmission deadline will not be able to return for the spring semester.

#### CHANGE OF MAJOR

Any student who has stated a major and wishes to change it should consult with an advisor in the Dean's Office and obtain a change of major form, should receive approval and a new advisor from the Chairperson of the new department, and should return the form to the Registrar's Office for processing.

#### ATTENDANCE

Attendance at all scheduled classes is expected. No administrative control of attendance is exercised except as hereinafter provided. In cases of illness, students are to explain their absences directly to their instructors. Grades of students who meet requirements of the instructor in making up work shall not be reduced for absence because of illness.

All absences due to illnesses should be reported to the University Health Service. Although students are expected to deal directly with faculty members, the health service will verify dates of absences if requested by faculty members.

#### CONDUCT

A high standard of conduct, based on self-respect and consideration for the rights of others, is expected of all students. The disciplinary system of the University is based upon a published code of student conduct, and is administered by a Committee of faculty and students. Hearings are conducted so as to ensure due process and guarantee fair and impartial consideration. It should be understood that the University, acting through its Chancellor or any administrative officer designated by him, in emergency situations, distinctly reserves the right to suspend a student. A student so suspended by administrative action is entitled to a speedy consideration and disposition of his case by the University Committee on student discipline.

#### COURSE LOAD

The normal course load for freshmen and sophomores is four courses for 16 credit hours and for Juniors and seniors, five courses for 15 credit hours. A student with a cumulative average of 3.0 or 3.5 in the previous semester, may take an extra course with the permission of his/her advisor.

A student majoring in a science who must take laboratory courses of more than 4 credits may assume a load of 18 credits. This is intended especially for Juniors and seniors who may find it necessary to take three 3-credit courses, a required 4-credit core curriculum course, and a 5-credit laboratory course (or similar variation) in one semester.

Students may elect to plan a four-year (eight semester) or five-year (ten semester) program.

#### SUMMER COURSES OUTSIDE THE UNIVERSITY

In order to receive credit for summer course work outside the University, a student must receive prior authorization from the department concerned for each course taken. A course authorization form may be obtained from the Registrar's Office; the original to be returned to the Registrar, one copy to be retained by the department, and one copy to be retained by the student. In general, a grade of "B" or higher is required for transfer credit. Permission to accept a grade lower than "B" may be obtained only from the department to which the credit is being transferred. It is the student's responsibility to see that a transcript is sent to the Registrar upon completion of the program.

#### DEPARTMENTAL HONORS PROGRAM

To graduate with departmental honors, a student must have either: (1) successfully completed some special honors work, such as a thesis or seminar; or (2) earned a 3.5 Grade average in his major field, the awarding of honors not to be automatic, however, but to depend on the recommendation of an honors committee in his/her department. Admission to honors work is left to the discretion of the departmental honors committee. However, a minimum overall grade point average of 3.0 is required. Not more than 6 credits may be received for special honors work.

If a student entered in an honors course completes the work satisfactorily but not at an honors level, he shall receive credit for the course toward graduation.

#### UNIVERSITY HONORS

To graduate with University honors a student shall earn averages as follows:

Summa cum laude-----Cumulative average of 3.75 or above  
Magna cum laude-----Cumulative average of 3.50 to 3.74 inclusive  
Cum laude-----Cumulative average of 3.30 to 3.49 inclusive

#### GRADUATION REQUIREMENTS

1. In order to graduate, a student must acquire a total of 124 credits. Students who qualify for Advanced Placement in languages or other 4 credit freshman-sophomore courses may graduate with as few as 120 credits. All students must accumulate a minimum of 45 residency credits at the University.

2. A student shall meet the requirements of a major department.

3. A student shall complete the core requirements of his/her college.

#### CORE REQUIREMENTS COLLEGE I

##### Option A

Each student in College I is required to take two semesters of writing, normally during the freshman year. In addition, each student must take a distribution pattern consisting of twelve courses from among the following six areas:

- A. Historical and cultural studies
- B. Foreign language (or intermediate proficiency)
- C. Philosophy, the arts, literature
- D. Mathematics, computer language, statistics
- E. Natural sciences
- F. Social and behavioral sciences

In fulfilling this requirement, the student must take two or three courses in each of four areas, and one or two in other areas, as necessary, to bring the total to twelve. No more than three courses may be allowed toward the requirement in any one area.

In cases where a course may be appropriate in the requirements in more than one area, the student may count it in only one, unless otherwise specified by the course description. Courses in a student's major may count toward the appropriate requirement. Freshman writing courses, honors courses, independent studies courses, special topics courses and certain applied courses do not satisfy distribution requirements. In the case of foreign languages, intermediate proficiency is satisfied either by examination or by successful completion of a foreign language course at the 200 level. Intermediate proficiency satisfies 3 of the 12 distribution courses. A student who does not achieve proficiency may offer only the courses taken in one foreign language in satisfaction of the distribution requirements.

##### Option B

Students who demonstrate that their educational goals cannot be met through satisfaction of the core requirements may petition to design their own core curriculum in consultation with an assigned advisor. The purpose of such a self-designed curriculum must be to satisfy the college's concern for educational breadth in the context of the student's own needs.

#### Implementation

Students in the class of 1978 must satisfy the above core requirements (option A or B). Students in the class of 1977 may, at their option, satisfy either the above requirements or the requirements in effect prior to September 1, 1974.

#### CORE REQUIREMENTS COLLEGE II

##### A. Core Requirements

1. One year of training in writing to be taken in the freshman year
2. Courses in foreign language as follows: Students who demonstrate proficiency in a foreign language at the intermediate level shall be exempt from a language requirement. Students who meet the entrance requirements regarding language or otherwise demonstrate elementary proficiency in a foreign language shall take one year of a foreign language at the intermediate level or one year of a foreign literature in translation.
3. Three terms of course work in the social sciences, of which at least one must be taken in history and two other disciplines.
4. Three terms of course work in the natural sciences or in mathematics, of which at least two terms must be taken in the same discipline, and at least one in a natural science.

B. As an alternative to A; a student may choose to design his own core curriculum, in consultation with a faculty advisor and approval of the Senate Committee. Questions concerning this program should be referred to the College Dean's Office.

#### DEGREE REQUIREMENTS--MANAGEMENT PROGRAM COLLEGE OF PROFESSIONAL STUDIES

The following paragraphs describe the requirements for completion of a Bachelor's Degree in Management that will be in effect for students who enter the program in September 1976, or who entered as freshmen in September, 1975. Students who entered the program as transfers with a minimum of 40 credits toward graduation in September 1975 or January 1976 may follow the requirements outlined in the document entitled "Requirements for the Bachelor's Degree in Management" dated July, 1975. Copies of this document are available in the Office of the Dean.

Students can satisfy the requirements described below in any of three ways:

- They can take courses offered by the Management Program and other Colleges of UN/B, as appropriate.
- They can transfer credit for courses taken at other accredited two and four-year institutions, as appropriate.
- They can demonstrate that they have achieved the proficiency sought by the required course(s) through an examination that will be provided by the Management faculty. (Note: In the Fall, 1976, this option will be limited to courses taught by the Management faculty.)

Students interested in satisfying any of the College or Program requirements by the latter two of these methods should consult with Ms. Watson in the Office of the Dean.

The requirements for a Bachelor's Degree in Management from the College of Professional Studies can be divided into two major parts, the Applied Component and the General Education Component. These requirements are outlined below. A full explanation of each of these two parts of the Management Program can be found in the section of this booklet entitled "Colleges of the University" under "The College of Professional Studies." It should also be noted that students in the College of Professional Studies will need to satisfy certain campus-wide requirements for receiving the baccalaureate degree. These requirements specify that all students must complete a total of 124 credits to receive the baccalaureate degree. A minimum of 45 of these credits must be taken at the University of Massachusetts at Boston.

#### Management Program Requirements Applied Component

The Applied Component of the Management Program includes four parts: Introductory and Skills Courses; the Management Core; the Management Concentration; the Internship. All students in the Management Program will need to satisfy the requirements of each part of the Applied Component.

##### Introductory and Skills Courses:

This part of the program consists of three courses for students who enter as freshmen. Students who enter as transfers with more than 40 credits toward graduation may have satisfied this requirement before entering the program, and in any case, such transfers will be required to take a maximum of two of these. The three courses are:

**Introduction to Management:** This one-semester course will normally be taken during the first semester in residence by freshmen. This course is not required of students who enter as transfers.

**Statistics:** This is a one-semester course, normally taken in the sophomore year, or in the first semester in residence by transfers needing to complete the requirement.

**Economics:** All students are required to take at least one course in Economics. The course will normally be taken in the freshman or sophomore year, or before graduation by transfers who have not completed such a course before entering the Management Program.

#### The Management Core

The Management Core consists of a series of courses, normally taken during the sophomore and junior years. The Core includes the following required courses:

|             |                                                      |
|-------------|------------------------------------------------------|
| MGT 340-341 | Management of Financial Resources                    |
| MGT 350-351 | Human Resources Management                           |
| MGT 330-331 | Marketing Management in the Public & Private Sectors |
| MGT 320-321 | Operations Research/Operations Management            |

Students who enter the Management Program without having completed the Essential Skills Requirement in Quantitative Methods (See General Education Requirements) must do so prior to taking Operations Research.

#### The Management Concentration

The Concentration is a set of specialized courses in a subfield of Management. These courses are normally taken during the junior and senior years.

There are two basic ways in which the concentration can be completed. The first way is by completing the requirements of one of the eight structured concentration areas. These areas include: Human Resources Management, Marketing, Public Financial Management, Public Policy Analysis, Public Management, Private Financial Management, Accounting, and Management Science. The second way is by taking a set of three to five courses in an individually designed area of concentration. The content of this concentration is developed by the student and agreed upon by his academic advisor.

All students must take a minimum of two concentration courses from the Management Program or successfully complete a challenge examination in two concentration courses to satisfy the degree requirements for the concentration. With respect to any other courses required for the concentrations, students may transfer credit for courses taken at other institutions provided that: (1) where the student is seeking to satisfy a requirement for a specific course, the course taken at another institution must be comparable to the required concentration course; (2) where the student is seeking to satisfy a requirement involving an elective course, the course taken at another institution must be appropriate to the student's chosen concentration.

#### Internship

The internship is an approved full or part-time work experience for a student in a business, government agency, educational institution, hospital, or other kind of organization. The typical internship will involve about twelve hours of work per week for an academic semester and earn the student four academic credits, but placements with longer hours and more credit can also be arranged. Each placement is decided individually based on the student's interests, talents, and experiences moderated by the practical limitations of the job market. Students help to set up their own internships.

#### Management Program Requirements in General Education

The general education component includes five requirements. These requirements can be satisfied by many different patterns of coursework, so each student will have considerable opportunity to elect the specific courses he or she wishes to take while also satisfying these requirements. In some cases, the same course may be used to satisfy more than one requirement. These are the five requirements:

**The Essential Skills Requirement:** Each student must achieve a basic mastery in the areas of logical thought, written and oral expression, and the quantitative analysis and demonstrate this mastery in each area at a level of proficiency established by the faculty of the College. Students who entered the program as freshmen in September, 1975, shall be exempt from this requirement provided that they successfully complete the two semester sequences in Quantitative Methods and Communications.

**The Fields of Study Requirement:** Each student must demonstrate an understanding of some methods and concepts associated with several academic disciplines by completing at least one course in each of the following seven fields of study:

- Individual and Human Life
- Social Organization
- History
- Comparative Cultures
- Ethics and Morals
- Aesthetics
- Physical World

Individual students will need to work out with their academic advisors the specific courses they will take to satisfy these requirements.

Students entering the program as freshmen will take a basic course called Liberal Arts and the World of Work, designed to introduce them to several fields in the Liberal Arts.

**The Special Field of Study Requirement:** Each student must successfully complete a minimum of five courses in one of the seven Fields of Study. At least 3 of the 5 courses must be from a single academic discipline.

**The Problems of Inquiry Requirement:** This requirement is concerned with different aspects of the problem of making intelligent statements about the world around us. Each student will need to successfully complete at least 3 courses concerned with different aspects of this problem. Students may choose the courses they wish to apply to this requirement from any appropriate course offered by the University. Academic advisors will help students identify courses in different fields that could apply to this requirement.

Courses used to satisfy this requirement may also be used to satisfy the Fields of Study Requirement and the Special Field of Study Requirement.

#### Appeal Procedure

In any case where a dispute arises between a faculty member or academic advisor and a student, affecting satisfaction of a degree requirement or the awarding of credit, an appeal may be taken to the Dean of the College in writing within 30 days of the disagreement.

#### FINAL EXAMINATIONS

When the examination schedule is published, any student who finds himself scheduled for two examinations at the same time or for three examinations in one day, should report the situation directly to the instructor(s) concerned.

#### PRIZES AND AWARDS

##### Alfred R. Ferguson Prize

The Alfred R. Ferguson prize is awarded annually to an undergraduate for distinguished work in American literature. The Ferguson fund was established in 1976 to honor the memory of Professor Ferguson, a widely respected teacher and scholar who helped develop the University in its first decade.

##### Richard J. Landry Prize

The Richard J. Landry prize is awarded annually to an undergraduate for distinguished work in politics.

##### Brian Rattigan Prize

A cash award made annually for outstanding creative achievement. Established by his friends and classmates in memory of Brian Rattigan, a poet and member of the first graduating class of the University of Massachusetts at Boston, who drowned during the summer before his senior year. Selection of the recipient is made by a special committee of faculty and students.

#### John W. Ryan 1966 Faculty Convocation Award

Awarded each year at the honors reception to the junior who attained the highest average at the completion of the second year at the University. Established in 1966 partly in order to commemorate the convocation of the faculty and partly in order to recognize academic excellence in the student body.

#### Luis Emilio Soto Prize

Awarded each spring at the Commencement exercises to the senior majoring in Spanish who best reflects the humanistic qualities and the spirit of Professor Soto. Inaugurated in May, 1970, and named for Professor Luis Emilio Soto (1902-1970), who, in his short stay at the University of Massachusetts at Boston, wholly won the hearts of his students and colleagues by his devotion to them and to their work.

#### ADMISSIONS

##### Applications

Applications for admission may be obtained from the Admissions Office, University of Massachusetts/Boston, Boston, Massachusetts 02125. Starting with the applications for January, 1977, entrance, an application fee of \$10.00 in-state and \$25.00 out of state must accompany the application.

Applicants are invited to visit the campus where group meetings are held daily at 3:00 p.m. from September through June. An applicant should be assured, however, that if he is unable to visit Boston his application will be in no way disadvantaged.

If the candidate or his guidance counselor has a question that cannot readily be resolved.

##### Testing Procedure

All applicants must take the Scholastic Aptitude Test given by the College Entrance Examination Board. The University also recommends three College Board Achievement Tests, including English composition and a language. All College Board Test reports must be sent directly to the Admissions Office, University of Massachusetts at Boston, Boston, Massachusetts 02125, from the College Board Testing Center. The applicant himself must notify the Board that he wishes his scores sent to this University. Applicants who have been out of school for more than two years should take the Scholastic Aptitude Tests again.

##### Foreign and Out-of State Students

Since the University of Massachusetts at Boston has a five percent limit on out-of state and foreign students, the competition among these candidates is always extremely keen.

All foreign students whose schooling has been in English are required to submit results of Scholastic Aptitude Tests. Students whose native language is not English must submit results of the Test of English as a Foreign Language. Information regarding test centers and dates for both the SAT and the TOEFL may be obtained from the College Entrance Examination Board P.O. Box 592, Princeton, New Jersey 08540 or, if you are in the Boston area, from Boston University's Testing and Counseling Center.

As a state University, the University of Massachusetts at Boston is able to offer no financial aid to foreign students. Therefore, foreign students should make certain that they can meet all expenses before applying for admission.

#### High School Preparation

The subjects of preparatory study recommended for admission call for the satisfactory completion of a four year high school course or its equivalent and are stated in terms of units. A unit is the equivalent of at least four recitations a week for a school year. High school graduation alone is not sufficient. The applicant's record must indicate capacity for handling the quality of scholastic work which the University has established as its standard of achievement. Sixteen units of secondary school work must be offered, selected according to the following recommendations:

|                                                                             |   |
|-----------------------------------------------------------------------------|---|
| College Preparatory Mathematics (2 algebra and 1 geometry recommended)..... | 3 |
| English.....                                                                | 4 |
| Foreign Language (2 yrs. of a language).....                                | 2 |
| U.S. History.....                                                           | 1 |
| Laboratory Science.....                                                     | 1 |

The remaining units are elective and may be selected from the following subject matter:

- A. Mathematics
- B. Science
- C. Foreign Language
- D. History and Social Studies
- E. Free Electives (not more than four units)

Free elective subjects are those not included in the preceding groups, for example: Music, Art, Drawing, Typewriting, Aeronautics, Agriculture, Home Economics, etc. Such free electives are allowed in order that the student who wishes may have some opportunity to elect other high school offerings, while at the same time covering the fundamental requirements for college work.

Students planning to major in the Physical Sciences and Mathematics should, if possible, offer two years of Algebra, one of Plane Geometry, and one-half year of Trigonometry. Preparation in Analytical or solid Geometry, Chemistry, Physics and Introductory Calculus is also strongly recommended.

Candidates of exceptional ability and promise may be considered for admission even though some of the prescribed courses are not included in their high school records. Candidates who are deficient in one or more subject required for admission to the University must present records which are otherwise strong.

Some of the programs offered at the University will serve students through non-traditional programs and courses, and in these programs the experiences and background of the applicant will be evaluated in addition to, or instead of, the traditional academic preparation.

##### Equivalency Diploma

In some cases the Massachusetts High School Equivalency Diploma may be substituted for the usual high school program. It is suggested that persons with an equivalency diploma arrange for a personal interview with a member of the admissions staff to discuss their goals and possible plans for meeting these goals.

##### Acknowledgement and Notification

In most cases applicants will be notified by letter during April of the action taken on their application for September and during December for January. Applicants who present strong academic records, enthusiastic school recommendations, and satisfactory College Board Scores will receive earlier notification. Freshmen applicants accepted at an earlier date; however, are under no pressure to make a final decision in regard to their choice of college before the Candidate's Reply Date of May 4. In this way the burden of multiple applications on high school guidance counselors and college admissions officers may be lessened.

##### Advanced Placement

Students whose scores on Advanced Placement examinations meet standards determined

by the University shall be regarded as meeting the equivalent University requirements. The College Entrance Examination Board Advanced Placement Examinations or special examinations given by the University will determine advanced placement.

#### Transfer Students

Transfer applications are encouraged especially from two year colleges. Transfers are required to submit all college transcripts. Submission of high school records and Scholastic Aptitude Test scores is optional for students with more than one full-time year of college level courses. Any student who has been previously enrolled in a college is considered a transfer and must file a transfer application form.

Any course taken at an accredited institution which is comparable in substance to a course offered at the University of Massachusetts at Boston and in which the grade is "C" or better, will transfer and be applied, wherever possible, to the graduation requirement.

Records must be sent directly to the Admissions Office from the previous school.

All transfer students who are candidates for a Bachelor's degree must take at least 45 semester credits in residence as well as fulfill all college requirements.

#### Community College Transfers

As a part of the Massachusetts system of higher education, the University recognizes its kinship with the Regional Community Colleges and therefore, guarantees that the student who has completed the Community College Transfer Program, who is fully qualified, and has the recommendation and required cumulative average of the Community College, will be accepted for transfer into the four year program. Appropriate courses given at the Community College will be fully accepted for transfer credit and applied to core curriculum requirements where possible.

#### Transfer Compact

The University of Massachusetts at Boston encourages applications for part-time study. Part-time students may be either degree seeking or non-matriculated. Because of the often non-traditional backgrounds and experiences of part-time students, a personal interview may become an important part of the evaluation and thus may be required of an applicant for part-time study. Applicants who already have a Bachelor's Degree should apply as Post-graduates and need only submit the final college transcript.

#### Evening Schedule

Regular courses are offered during late afternoon and evening hours, thus, enabling students who cannot attend the University during the daytime to carry a full-time or part-time course load after 4:30 p.m.

#### SPECIAL ADMISSIONS PROGRAM

In addition to its regular admissions process, UMB is committed to recruiting students who have potential for college level studies but requires an intensive program of basic skills development in order to perform adequately at the freshman level.

Special Admissions is particularly aimed at inner city residents and other prospective applicants from economically and educationally disadvantaged backgrounds--that is potential students who, though capable and willing, may lack some of the conventional prerequisites for college admissions such as: SAT scores etc.

Students recruited through Special Admissions will be conditionally accepted. Final admission to UMB as regular freshmen will be contingent upon successful completion of Pre-College Basic Skills Development Program offered before the beginning of each semester. In this Pre-College Program, students will be able to: work on their academic deficiencies; learn about various possibilities for further educational growth; and receive individualized assistance to prepare for University studies. During their first semester at UMB as a regular freshman, Special Admissions students will be enrolled in three University courses while at the same time they will also participate in a variety of academic support programs aimed at further developing their competence for successful college studies.

To apply for the Special Admissions Program, candidates must submit the following materials before their application can be reviewed:

1. Completed application form
2. Transcripts from high school and any colleges attended
3. Two letters of recommendation
4. An autobiographical statement

After completion of the application and receipt of the supporting materials, an interview will be arranged. The purpose of the interview is to determine the applicant's interest and motivation; to determine his potential for college level study at UMB; and to assess the suitability of the Basic Skills Development Program in remedying his academic deficiencies.

Special Admissions meetings are held every Wednesday at 1:00 p.m. and by appointment in the Admissions Office Conference Room, Administration Building, 1st floor Harbor Campus. For information and application materials, contact Ms. Henrietta Ball, Assistant Director of Admissions, University of Massachusetts at Boston, Boston, Massachusetts 02125, telephone 287-1900 ext. 2172.

Financial Aid materials will be supplied along with admissions materials.

#### ADVISING AND STUDY COUNSELING

The staff of the College Dean's Office is available to provide students with information on the curriculum, general requirements and program planning. Tutorial and study skills assistance is available to students through this office. Small classes in basic writing techniques and in reading skills are established each semester. Individual and group tutorials are available in the core courses such as mathematics, languages and natural sciences. Students and faculty members should contact the Dean's Office for further information on both types of programs.

#### CENTRAL ADVISING OFFICE

General information and advice on graduate school opportunities and requirements is available to all students in the Central Advising Office, as is specific information on the preparation and entrance requirements for professional fields, such as business administration, the various health professions, law, medicine, and social work. Financial aid information, including qualifications necessary for national fellowship competitions, (such as Denforth and Fulbright fellowships) is also to be found in this office.

A Foreign Student and International Programs Advisor is available to give general counseling and specific visa information to all foreign students. The Advisor also serves as a resource for information on study abroad and international exchange opportunities.

An Advisor to Spanish-speaking Students is available to provide counseling and general academic support to Hispanic students.

An Advisor to Returning Women Students is available in this office to provide advice, general counseling and special programs for women returning to the University to continue their education.

#### MEDIA CENTER

UMB Media Services provide a full range of Audio-Visual equipment and consultation for instructional and other University related purposes. This equipment is located in each of the Colleges in areas designated as Media Labs. The college Media labs are designed to provide "Hands On" access to display and Mini-Production Audio, Video and mixed Media equipment on a University wide scheduled basis. In addition, adjoining college language laboratories are available for use in conjunction with foreign language courses. The tapes used in laboratory sessions are closely correlated with classroom studies and many are produced within the university media center.

The UMB media center, located in the university library, is a sophisticated media production facility. The center is equipped with a color TV studio with computer editing capability; a multi-track audio studio; and associated graphic production space. The media center is designed to produce high quality software for use within the University and for outside educational and community distribution. In addition, the media center in collaboration with individual academic departments and activity centers offers media related courses and workshops through its staff and other production resources.

#### BOOKSTORE

Located in the Administration Building, the Bookstore carries all textbooks required for courses plus a complete line of art and school supplies, and gift items. Also carried is a selection of paperbacks. Special orders can be made for almost any other book in print.

Bookstore hours are 9 a.m. to 5 p.m., Monday - Friday, when school is in session.

#### CLASSIFICATIONS OF STUDENTS

##### I. Degree Students

Full-time students: All students carrying 3 courses of 4 or more credits each or 12 or more credits are accepted as degree candidates and assigned to a graduating class.

Non-classified Degree Students: Students who are admitted to degree status on the same basis as full-time students, but with the expectation of only part-time pursuit of the degree, are considered non-classified students. They are given a classification of "NC". For their initial enrollment they are classified as freshmen or transfers by the admissions office. They are assigned to an advisor for appropriate counseling and advance registration advising.

##### II. Non Degree Students

Special Students: A transient student accepted for courses on a non-continuing basis is assigned to this category. Class designation is "Sp".

#### COLLEGE PREPARATORY PROGRAM

The Pre-freshman programs provide opportunities for students of varied backgrounds to prepare for admission and ultimately enter the University as regularly enrolled freshmen. The students often do not possess the typical college preparatory training or orientation and therefore require some special work prior to enrollment. These programs are available without charge to students who qualify.

The college preparatory program works with low-income high school students with inadequate academic backgrounds to prepare them for admission to the University. Ordinarily students enter the program during their sophomore or junior year of high school. Financial eligibility is set by the guidelines of Upward Bound which provides most of the funds for the program. In general, students are accepted who show strong motivation and academic promise but have performed unevenly or have been enrolled in business or trade curricula in high school. Students attend a six-week residential summer session in Amherst, Mass. During the winter evening classes are offered at the University to supplement the student's normal high school curriculum. Upon successful completion of their work in the program, students are accepted for admission to the University of Massachusetts at Boston. Applications can be obtained from the college preparatory program.

The Veterans Educational Training Program works with recent veterans of the armed services who do not have the traditional college preparatory background but who are considered good candidates for college admission. The program offers full time preparatory courses concentrating on basic Math and English skills, personal counseling, and orientation to college study. Qualified students may be enrolled in up to two regular university courses with tutorial assistance provided by the program. Successful completion of the program leads to regular enrollment as a freshman. Participants are eligible for V.A. benefits while enrolled in the program. Applications may be obtained from the Vet program or the University admissions office.

The University Studies Program for high school students is intended to give college bound students who are academically prepared to do so an opportunity to go beyond their high school curriculum in some area of student. Each student will enroll in one class at the university as an auditor, with the option of petitioning for credit should he subsequently matriculate here. Each student's work will be graded and evaluated as if he were a regular University student. The office of the Director of Pre-freshman programs will maintain communication with each student's instructor regarding his performance and will report his progress to his high school after mid-term examinations and at the end of the course.

Students will be required to show during the application procedure that they have the necessary academic skills to succeed in the course they intend to take. They will also need to show that their schedule will permit adequate study time to complete the work in the course they will be taking. Admission to any particular course is conditional upon the availability of space in that course. Since the University has classes in the late afternoon, students may choose to enroll either through the flexible campus plan in their high school, or outside of their normal high school curriculum. Although outstanding work done in a University course may be weighed with other factors in determining a student's appropriateness for admission to the University, admission to the University Studies Program does not guarantee nor imply admission to the University itself, application for which should be made directly through the Admissions Office. Applications for the University Studies Program may be obtained from the University Admissions Office your high school guidance counselor, or the office of pre-freshman programs.

#### FINANCIAL AID

Financial aid at the University of Massachusetts at Boston is awarded to those students who cannot provide the full cost of their college education through their own and their families reasonable efforts. The term "Financial Aid" is used to include scholarships, granted long term loans and part-time employment.

Applications for financial aid should be filed at the same time as the application for admission. The filing of an application for financial aid will have no influence on the decision for admission.

All awards are made on an academic year basis only. A student must apply each year for any type of aid for the following year.

#### Massachusetts State Scholarships

The Board of Higher Education awards scholarships to students who attend the University of Massachusetts at Boston. All students who apply for aid to the University should also apply for a Massachusetts State Scholarship. Applications are available at secondary school guidance offices or at the Board of Higher Education Scholarship Office, 182 Tremont Street, Boston, MA 02111. The application deadline is December 15, 1976, and Parent's Confidential Statements should be filed with College Scholarship Service by March 1, 1977.

#### University Scholarships

University Scholarships are available for residents of Massachusetts. Only those students in the top 10-25 percent of their class with above average performance on the College Entrance Examination Board examinations and need financial aid will be considered.

#### ITW Scholarships

ITW, Local No. 1 scholarships are tuition scholarships for sons and daughters of former members of Local No. 1 of the International Brotherhood of Telephone Workers. Half of the awards will be made to freshman applicants. Further information and special applications should be requested from the Financial Aid Office.

#### Basic Educational Opportunity Grant BEOG

The Basic Educational Opportunity Grant Program (BEOG) is a new federal financial aid program. The maximum award under this program is \$1400 minus the amount you and your family are expected to contribute to the cost of your education. This award may be reduced further depending on the funds available and/or the cost of attending college since BEOG cannot exceed half the cost of education.

All students should apply for this form of financial aid. Applications and information will be available in high schools, post offices, and state employment offices. Applications are sent directly to American College Testing--BEOG, Iowa City, Iowa, 52240.

#### SUPPLEMENTAL EDUCATION OPPORTUNITY GRANTS

Education Opportunity Grants are gift awards given to academically promising students in accordance with special requirements set by the Higher Education Act of 1965. These grants are designed especially for students of exceptional financial need.

#### LOANS

The major sources for loans are the National Direct Student Loan Fund and Federally supported State Guaranteed Loan Programs.

- A. National Direct Students Loans are available through federal funds received by the University. Federal legislation permits students needing money to borrow up to \$1,000 per year for five years. The actual amount of the loan is determined by the student's needs and by the amount of federal funds made available to the University. No interest is charged on loans until repayment begins. The repayment period starts nine months after the student ends his studies, and

may be extended over a 10-year period at an interest charge of 3 percent on the unpaid balance. Repayment of capital and interest may be deferred up to a total of three years while a borrower is serving in the Armed Forces, with the Peace Corps, or as Volunteer in Service to America (VISTA). Also, no payments are required so long as the student remains at least a half-time student at the undergraduate level. There are provisions for cancelling all or part of this loan if the student enters the teaching profession.

- B. Students may apply for loans under the guaranteed loan program in their home states. This program, established by the Higher Education Act of 1965 varies from state to state. Generally, undergraduate students may borrow up to \$1,500 per academic year with a total maximum of \$7,500, while a graduate student may borrow up to \$1,500 per academic year; the total sum of \$7,500 for one student's undergraduate and graduate study may not be exceeded. Commercial banks, Mutual Savings Banks, Savings and Loan Associations, Credit Unions and other financial institutions subject to federal or state supervision may be lenders under this program. A student should make application directly to one of these participating institutions, preferably to one located in the city or town of his permanent residence. The University is asked to certify the enrollment and good academic standing of the student, the reasonableness of his college expenses, and the amount of financial aid available from sources other than his family. These loans are considered a part of the financial aid package.

As of March 1, 1974, the student must submit an application supplement if he wishes to apply for a subsidized loan, i.e., no interest payments until after he graduates. This supplement provides for the University to recommend to the Bank the amount of the loan, in general, this recommended amount will be the subsidized loan amount. Nine months after the student graduates or leaves school he begins repayment of the loan along with 7 1/2 percent interest. Payment may be deferred for Graduate Studies, Armed Forces or Peace Corps/VISTA. Repayment is arranged with the bank from one to ten years.

#### PART TIME EMPLOYMENT

Part time employment is available mainly through the Collegework study program. Part of which is supported by the Federal Work Study Program, and will be given as part of the Financial Aid Package. Students are paid weekly for the hours they have worked.

#### APPLICATION PROCEDURE

- A. Pre-Freshmen applicants should submit to the Financial Aid Office the financial aid application included with the admission application. In addition, applicants should obtain from their schools' guidance office a copy of the Parents' Confidential Statement prepared by the College Scholarship Service. That statement should be mailed directly to the service at the time the student applies for admission, but no later than April 1. The University of Massachusetts at Boston should be listed under item 13.

- B. Transfer and upper class students should obtain applications and Parents' Confidential Statements from the Financial Aid Office.

Applications are due by April 1.

Transfer students who received financial aid from the school which they are transferring, should request the Financial Aid Office at that school to send a record of their awards to the University Financial Aid Office.

#### AWARDS

The amount of awards is determined by degree of need and may range from \$100 to full cost of attending school. A fuller explanation or determination of need is available in the Financial Aid Office.

Announcement of awards will be made by means of an award letter as soon as possible following the applicants' acceptance by the University. Further communication with the Financial Aid Office is unnecessary, as each applicant will receive an answer as soon as a decision has been made.

#### UNIVERSITY HEALTH SERVICE

The Health Service at UMass/Boston has as its primary objective the well-being of the student population on campus. The program is student-oriented and the services are designed to be as meaningful as possible for the student. They are geared to deal with acute short-term medical problems and to help minimize loss of student time and energy from educational pursuits for reasons of health. Students with problems that must be followed on a long-term or continuing basis or with problems that can be managed only with resources not available in the Health Service are referred to appropriate practitioners and health care facilities in the local community.

The main Health Service facilities are located on campus on the second floor of the Administration Building; a satellite facility is located off campus on the mezzanine floor of the College III facility at 100 Arlington Street. In the course of a week ten clinics are held at both sites--on campus there are morning clinics from 9 AM to 1 PM and afternoon clinics from 1 PM to 4:30 PM; at the Arlington Street site, there are clinics each day from 11 AM to 3 PM and from 3 PM to 6:30 PM.

Every clinic held on campus is covered by at least two registered nurses and a primary care physician (internist or surgeon). At 100 Arlington Street one nurse attends every clinic and a physician attends periodically. It is normal procedure to have all patients seen first by a nurse and then, if necessary, by a physician on an appointment basis. Gynecologic services are provided on campus by a specially trained nurse available daily and a Gynecologist who covers three clinics a week. A psychiatrist is available on campus one day a week and arrangements for the services of other specialists are made when necessary on a referral basis. Limited laboratory services are provided on campus.

It is a requirement of the University that every student send to the Health Service a completed physical examination and medical history form before registration so that the Health Service is made aware of any pre-existing medical problems which either require medical care or might necessitate a modification of the student's academic or athletic program. All medical records are held in strictest confidence by the University Health Service.

The Health Service program is supported by the Health Service Trust Fund constituted by the Health Fees which all students are required to pay. Students are urged to enroll in a health plan offered by the University which provides substantial coverage for services which are not provided by the Health Service. The plan entitles a student to extensive but not total hospital services, in-patient physician's care, out-patient surgical care, emergency room services, referrals to specialty consultants, x-ray and laboratory procedures, etc. A full description is available at the University Health Service office.

The Human Sexuality Center and the Center for Alternatives are important outreach programs of the Health Service. Each Center is directed by a full-time member of the Health Service's Mental Health team assisted by a group of 13 peer counselors who go through intensive and continuous in-service training. The services offered by the Centers include providing free literature, films and forms on all aspects of sex and health care education, support groups, personal counseling and referrals. The Centers are located in the College II facility and are open daily from 9 AM to 5 PM.

The other members of the Mental Health staff consisting of one full-time psychologist (director of the total mental health program), one part-time psychologist and the part-time psychiatrist are located in the main Health Service area. The mental health program, like the medical services, has been designed to provide short-term counseling and therapeutic services; it has ready sources of referral for anyone needing to be followed over a longer period of time.

The Health Service is currently developing environmental health and safety and health education programs. It is periodically sponsoring emergency medical service training programs.

#### HOUSING AND TRANSPORTATION

The Housing/Transportation office is located on the third floor in the Administration Building. The WFO functions as the campus resource center for matters related to Housing and Transportation. The staff is prepared to provide the following services for University students, faculty and staff.

#### TRANSPORTATION

- Directions to campus by public transit
- Directions to campus by automobile
- Parking procedures and regulations
- Shuttle bus schedules
- MBTA bus schedules
- Car pooling services/information

#### HOUSING

- Apartments, houses for rent or sale
- Apartments needed
- Room-mates needed
- Tenants' rights information
- Lease Terminology information

#### LIBRARY

The University Library holds a book collection numbering approximately 225,000 volumes, and currently receives more than 2500 domestic and foreign journals and newspapers. It also has a growing collection of government documents, and a fine art and music library with listening carrels. A Science Library is located on two floors within the science building, and contains the collections in Biology, Chemistry, Mathematics and Physics. There is also a small, specifically designed collection for the students and faculty of College III in the library on the mezzanine at 100 Arlington St.

The main library is centrally located on the Plaza and easily accessible from the bridge which connects all the buildings on campus. Its physical arrangements include comfortable study environments of several descriptions: carrels, tables, and a few small rooms in which a group of students may study together. Its public catalog holds a record for every book in all the University libraries. The resources of the three libraries work together to support the teaching programs of the University at every level.

#### OFFICE OF STUDENT AFFAIRS

In addition to the Office of the Vice Chancellor for Student Affairs, the following departments provide specialized services to students:

- Student Support Services
  - Vocational Counseling and Placement
  - Advising: Foreign Students, Spanish-Speaking Students, Veterans, Pre-Graduate School Students
  - Handicapped Student Center
  - Testing
- Program Development
  - Pre-Freshman Programs
  - Financial Aid
  - Athletics and Recreation
  - Health Services
    - Center for Alternatives
    - Human Sexuality Center
  - Child Care Center
  - Associate Deans for Student Affairs (in each College)
  - Academic Advisors (in each College)
  - Student Activities

Through the Student Affairs Committee several student committees and organizations provide opportunities for pursuing specific extra-curricular interests. There are four main subcommittees of the SAC: Cultural Events, Community Action, Recognized Student Organizations (RSO's) and Media Publications. Some of the organizations are: Art Club, Asian-American Society, Community Volunteer Tutors, Heilene Culture Club, Hispanic Culture Club, International Students Organization, Mass Media, Newman Apostolate, PIRG, Playwright Club, Polish Club, Psychology Club, Puerto Rican Society, Small Claims Court Advisory Service, Sociology Club, Student Drama Company, Third World Spectrum, UMB Christian Fellowship, UMB United Farmworkers, Young Socialist Alliance and WUMB.

#### TUITION, FEES AND EXPENSES

As a State Institution, the University of Massachusetts at Boston offers a low rate of tuition to all students entering from the Commonwealth. Eligibility for admission under the low residential rate is determined in accordance with the following policy established by the Board of Trustees.

These rules and regulations shall apply to the classification of students at the University of Massachusetts as Massachusetts or non-Massachusetts students for tuition purposes.

#### SECTION 1. Definitions

- (1) Academic Period - A term or semester in an academic year or a summer session, as prescribed by the Board of Trustees or under their authority.
- (2) Continuous Attendance - Enrollment at the University for the normal academic year in each calendar year, or the appropriate portion or portions of such academic year as prescribed by the Board of Trustees or under their authority.
- (3) Domicile - A person's true, fixed and permanent home and place of habitation, where he intends to remain permanently or for an indefinite time.
- (4) Emancipated Person - A person (a) who has attained the age of 18 years, or (b) if under 18 years of age, whose parents have entirely surrendered the right to the care, custody and earnings, of such person and who no longer are under any legal obligation to support or maintain such person, or (c) a person who has no parent. If none of the aforesaid definitions apply, said person shall be deemed and "Unemancipated Person".
- (5) His - Shall apply to the female as well as the male gender.
- (6) Parent - With respect to a person (in the case of an adopted person, inserting the adjective "adoptive" before the words "Father" and "Mother" wherever used):
  - (a) The person's father;
  - (b) If the person's father dies, either the legal guardian or if no legal guardian is appointed, the person's mother;
  - (c) If neither the father nor mother is living and no legal guardian is appointed, the person who then stands in "loco parentis" to the person;
  - (d) If the father and mother are divorced, the person to whom legal custody of the person is awarded;
  - (e) If the father and mother are divorced, separated or unmarried and legal custody has not been awarded, the father or the mother as the case may be, with whom the person lives or, if he lives with neither and the father is living, the father.
- (7) Residence - A place of habitation

#### SECTION 2. Rules of Determination of Domicile

- (1) Domicile is not acquired by mere physical presence in Massachusetts while the person is carrying on a course of study at the University or while the person is engaged in employment for a specified term unless Massachusetts is otherwise the domicile of the person.
- (2) Domicile at birth may be changed thereafter by action of the parent in the case of an unemancipated person or by action of the person himself in the case of an emancipated person.
- (3) A person claiming Massachusetts as his domicile shall furnish evidence to support such claim. The burden of proof in all cases is upon the person making the claim. The following shall be of probative value, although not necessarily conclusive, in support of a claim of domicile within Massachusetts:
  - (a) Birth certificate
  - (b) Motor vehicle registration and/or operator's license
  - (c) Voting or registration for voting
  - (d) Certified copies of federal and state income tax returns
  - (e) Property ownership
  - (f) Continuous physical presence in Massachusetts during periods when not enrolled as a student
  - (g) Permanent employment in a position not normally filled by a student
  - (h) Reliance on Massachusetts sources for financial support
  - (i) Former domicile in Massachusetts and maintenance of significant connections therein while absent
  - (j) Domicile of parent within Massachusetts

Evidence submitted in support of an assertion of domicile or of parental relationship shall be in such form as the Treasurer of the University or his designee may require. Copies of official records or documents shall be authenticated by a proper officer. Assertions of fact made other than by an authenticated copy of an official record shall be certified as to accuracy and completeness by the person submitting the same.

#### SECTION 3. Proof of Parental Relationship

A person asserting that he is an emancipated person shall furnish evidence to support such assertion. Such evidence may include:

- (a) Birth certificate or any other legal document that shows place and date of birth
- (b) Legal guardianship papers court appointment and termination must be submitted
- (c) Statement of the person, his parent (s), guardian(s), or others certifying no financial support
- (d) Certified copies of federal and state income tax returns filed by the person and his parent (s)
- (e) Where none of the foregoing can be provided, an affidavit of the emancipated person in explanation thereof and stating fully the grounds supporting the claim of emancipation.

#### SECTION 4. Rules for Classification

- (1) Every emancipated person applying for admission to the University who has maintained a residence in Massachusetts for a period of not less than one continuous calendar year next preceding the date of his application and has established a domicile in Massachusetts
- (2) Every unemancipated person applying for admission to the University, whose parent has maintained a residence in Massachusetts for a period of not less than one continuous calendar year next preceding the date of application and has established a domicile in Massachusetts, shall be eligible for classification as a Massachusetts student for tuition purposes.
- (3) Every emancipated person seeking a change in classification who has maintained a residence in Massachusetts for a period of not less than one continuous calendar year next preceding the beginning date of the academic period for which he registers and has established a domicile in Massachusetts shall be eligible for classification as a Massachusetts student for tuition purposes for such academic period.

- (4) Every unemancipated person seeking a change in classification, whose parent has maintained a residence in Massachusetts for a period of not less than one continuous calendar year next preceding the beginning date of the academic period for which the person registers and has established a domicile in Massachusetts, shall be eligible for classification as a Massachusetts student for tuition purposes for each academic period.
- (5) A person having his domicile elsewhere than in Massachusetts shall not be eligible for classification as a Massachusetts student for tuition purposes except as herein provided.
- (6) Any person who is registered at the University as a Massachusetts student shall be eligible for continued classification as a Massachusetts student for tuition purposes (until attainment of the degree for which he is then enrolled) during continuous attendance at such institution.
- (7) A member of the armed forces of the United States and his spouse and unemancipated children shall, while he is on active duty and stationed in the Commonwealth of Massachusetts, be eligible for classification as Massachusetts students for tuition purposes.

#### Section 5. Change in Classification

No application for change to classification as a Massachusetts student for tuition purposes submitted later than the first day of classes shall affect a classification during the then current academic period.

#### Section 6. Penalty for Misrepresentation

Misrepresentation in or omission from any evidence submitted of any fact which if correctly or completely stated would be grounds to deny classification as a Massachusetts student for tuition purposes shall be cause for exclusion or expulsion from or other disciplinary action by the University.

#### Section 7. Appeals

Appeal from a determination denying classification as a Massachusetts student shall be initiated by filing a tuition classification appeal form with the treasurer of the University at the Amherst Campus.

#### Section 8. Miscellaneous

Nothing contained herein shall be construed as limiting or prohibiting the authority of the Board of Trustees to waive or reduce tuition charges.

#### EXPENSES

NOTE: All students are full-time unless they change their status at Advance Registration.

#### FULL TIME STUDENTS

Normally expenses vary from approximately \$600 to \$700 per year for full time students. The following estimate of a year's expenses for full time students includes only those items which are strictly college-related. Tuition for Massachusetts students is \$345 per year and for others \$1,550.

|                                                                   |               |
|-------------------------------------------------------------------|---------------|
| *Tuition.....                                                     | \$ 345*       |
| Student activities fee .....                                      | 30*           |
| Health services fee .....                                         | 44            |
| *Student Medical/Surgical Ins. (12mos. coverage optional) .....   | 40            |
| Mass. Public interest research group (optional) .....             | 4             |
| Books, stationery, laboratory and other supplies (estimate) ..... | 200           |
|                                                                   | <u>\$ 663</u> |

\*Subject to change

No provision is made for room and board expenses as the University of Massachusetts at Boston is non-residential.

#### PART TIME STUDENTS

Students classified as MC, PG, or SP are part time students and will be billed by the credit after the Add/Drop period at the following rate:

|                                                                                                               |                             |                                                       |
|---------------------------------------------------------------------------------------------------------------|-----------------------------|-------------------------------------------------------|
| Massachusetts                                                                                                 | Students                    | All Others                                            |
| Tuition per credit.....                                                                                       | 16.10 Pa.....18.40 Sp ..... | 77.50                                                 |
| Students classified as CM are part time graduate students who are billed by the credit at the following rate. |                             |                                                       |
| Massachusetts                                                                                                 | Students                    | All Others                                            |
| Tuition per credit.....                                                                                       | 23.60Pa.....25.80Sp.....    | 48.20Pa.....54.20Sp                                   |
| All part time students are billed at a reduced student activities fee of \$10.00                              |                             | and the optional \$2.00 Mass Pirg Charge/per semester |

#### Initial Payment for Freshmen

The initial payment for first semester expenses required for freshmen and transfer students prior to Fall Registration, and other expenses reasonably expected, are indicated below:

|                                                                               |        |        |
|-------------------------------------------------------------------------------|--------|--------|
| *Tuition.....                                                                 | \$ 161 | \$ 775 |
| Less credit for matriculation fee (non refundable).....                       | (15)   | (15)   |
| Net Tuition .....                                                             | 146    | 760    |
| Student Activities .....                                                      | 15*    | 15*    |
| Health Services Fee .....                                                     | 22*    | 22*    |
| Student Medical/Surgical Ins. 12 mos. coverage (Optional) .....               | 40     | 40     |
| Mass Pirg (Optional) .....                                                    | 2      | 2      |
| Application and orientation fees (paid upon acceptance) (non refundable)..... | 25     | 40     |
| Total of first semester student fee bill.....                                 | 250    | 879    |
| Books, stationery, laboratory and other supplies (estimate).....              | 100    | 100    |
| Total .....                                                                   | 350    | 979    |

The figures for books, stationery, etc., are approximate; they vary depending upon courses chosen and individual needs. Students should be prepared to pay cash for books and incidental supplies. Certain departments make special charges for necessary laboratory supplies. A bill will be rendered to the parent of each student or to the student directly prior to the beginning of the semester.

\* All fees subject to change

#### STUDENT ACTIVITIES FEE

This is a mandatory fee set by the Board of Trustees. It is used to support programs and activities beneficial to students, such as the recognized student organizations and the University Cultural events committee.

#### STUDENT HEALTH FEE

This is a mandatory fee for all full time students set by the Board of Trustees used to support the University Health Services and its programs.

#### MEDICAL/SURGICAL INSURANCE

An optional plan providing hospital, medical, and surgical care on a twelve months basis for injuries or illness during the school year, holidays, and summer vacation. Students who register for the fall semester have only one opportunity to enter this program each year, at the time of payment of the fall semester bill. It is also offered on the spring semester bill for new spring registrants only. Dependents of married students are not covered under this plan. Coverage for dependents is available at additional cost. Inquire at the University Health Services.

#### PAYMENT DUE DATES

In accordance with University policy all charges for tuition and fees are due and payable approximately 21 days prior to the date of registration of each semester. Bills will be rendered in advance with due date shown and should be returned with the proper payment to the Bursar's Office, University of Massachusetts at Boston, Boston, Mass 02125. Students may not register until all University charges are paid or otherwise accounted for. If scholarship students do not wish to pay the optional fees, they must notify the Bursar's Office when clearing their bill prior to the start of the semester.

#### SCHOLARSHIP PAYMENTS

It is the responsibility of all scholarship holders to see that the University is adequately notified prior to the time fee bills are prepared. Known scholarships are shown on the fee bills. If such items are not shown, deductions may not be made from the bill until satisfactory evidence has been presented to the Bursar of the University by the donor.

#### LATE PAYMENT

Any student who does not make payment of his semester charges by the date specified may be required to pay a late payment fee of \$5.00.

#### TUITION AND FEE REFUNDS

A student who leaves the University for any reason, except as specified below, before a semester is completed will be granted a pro rata refund of tuition and fees. Upon completion of a withdrawal form from the Dean's Office of their respective college a student who makes an advance payment and then for any reason does not attend any part of the next semester or term at the University will be given a full refund of tuition and fees. The \$5 admission (matriculation) payment and the \$15 orientation payment required of new students are not refundable. A student called into military service before completion of a semester will be given a pro rata refund of tuition and fees provided that he receives no academic credit for the work of that semester. If academic credit is given, there will be no refund. A student who is suspended or expelled from the University for disciplinary reasons forfeits all rights to a refund.

#### REFUND SCHEDULE

##### Regular Term

- A. Within the first two weeks from the beginning of semester or term.....80%
- B. During the third week .....60
- C. During the fourth week.....40
- D. During the fifth week.....20
- E. After the fifth week.....no refund

Refunds are based upon the withdrawal date established by the Registrar.

#### VETERANS

Any veteran whose service is credited to the Commonwealth of Massachusetts (i.e., entered the service in Massachusetts), and who has served 180 days active duty since February 1955, is eligible to attend the University tuition free. Instructions relative to the procedure to obtain this tuition waiver are available at the office of Veterans' Affairs. This tuition waiver covers a period of four years, but must be renewed each year. Summer school attendance must have a renewal of the tuition waiver, but is not charged as a renewal if the courses taken in summer school are required for a degree.

Information concerning veterans status and payments under federal and state laws is available at the office of Veterans' Affairs.

#### Responsibility for any change in Status Rests with the Veteran

Any change in a veterans' status while attending the University in relation to semester hour credits, marriage, dependents or withdrawal should be reported immediately to the office of veterans' affairs.

#### Veterans' Educational Training Program

Veterans who feel that they need to improve their skills before entering the University on a full time basis may apply for admission to the Vet Program. Funded by the U.S. Office of Education, this program offers classes and counseling which help the veteran make a smooth transition between military life or long absence from formal schooling to the life of a student. Courses are offered in English Composition, Mathematics, Literature and Social Sciences on a non-credit basis. However, students in the program may substitute up to two credit courses in the University for two non-credit courses. In addition, they may receive vocational, educational and personal counseling.

The State Department of Education recognizes students in the program as eligible for GI benefits.

#### VOCATIONAL COUNSELING AND PLACEMENT

The services of the Vocational Counseling and Placement Office of the University are available to registered students and alumni.

The principal services provided are:

- Vocational Counseling--Individual and Group
- Comprehensive Vocational and Educational Informational Resource Center
- Placement Assistance--Off Campus, Part-time, Summer, Full-time Career

- A. Updated job market information
- B. Resume preparation
- C. Interviewing skills and techniques
- D. Job campaign planning
- E. Assistance in establishing direct contact with area and national employers

- Special career education programs- seminars, workshops, lectures, field visits, volunteer field placements
- Consultation services to the Colleges

All students, regardless of year in school, are encouraged to visit with a staff member in the Office of Vocational Counseling and Placement and to share with counselors emerging concerns and questions relevant to their future plans.

#### THE COLLEGES OF THE UNIVERSITY

Colleges I and II are Liberal Arts colleges and constitute the major part of the University of Massachusetts at Boston. Each college provides students with both traditional and innovative ways of studying the principal academic subjects and disciplines. Both colleges encourage students to acquire those skills and interests which will make learning a life-long process. A merger of the colleges is now under consideration. However, the educational thrust of the existing programs will be maintained.

The college of Public and Community Service (CPCS), or College III, is a new college offering a competency based curriculum which combines liberal arts with professional training for students interested in a range of public and community service careers. Emphasis is placed on interdisciplinary instruction and field work. The B.A. degree is awarded upon demonstration of individual competence rather than the accumulation of course credits. The major focus of the college is on contemporary urban problems. The college is conveniently located at the downtown campus in the Park Square area of Boston.

The college of Professional Studies is a new college of the university which will offer career-oriented education in a variety of fields. In September 1975 the college began a program in Management designed to prepare students for careers in business or government and for further education in these fields.

#### COLLEGE I

College I is committed to a pattern of education that begins in the student's exploration of a range of different ways of thinking and knowing. Students take a variety of courses combining experience of the course material with training in the basic skills appropriate to academic inquiry concerning that subject. In addition, College I offers several interdisciplinary freshman courses designed to serve as introductions to college study. These courses are team-taught by members of different departments. They carry double the academic credit of normal courses, and they are focused on topics of broad significance and basic human concern. Among such courses that have been offered by College I are courses in "Law and Justice", in "The Phenomenon of Language", in "Learning and Schooling", and in "Industrial Society".

As part of this pattern of exploration and breadth in education, College I requires its students to take, in addition to two semesters of freshman writing, twelve semester length courses that are distributed over six subject areas, with no more than three courses in one area counting toward the total of twelve. The six core distribution areas are A) Historical and Cultural Studies; B) Foreign Languages; C) Philosophy, the Arts, and Music; D) Mathematics, Computer Languages, and Statistics; E) Natural Sciences; F) Social and Behavioral Sciences. The College also provides an "Option B" program under which students may present for approval by a faculty advisor a program or course which the student wishes to adopt in place of the college's core requirements.

The purpose of the exploratory phase of education in College I is to allow its students to acquaint themselves with the complexity and range of academic inquiry and discourse, to establish the intellectual basis on which they can organize their educational experience, and to develop some of the basic and more specialized skills helpful to the pursuit of their educational goals. This exploratory process is followed by a more concentrated major program through which the student seeks to develop further understanding and competence in at least one intellectual discipline to the degree of relative comprehensiveness and self-initiative or intellectual independence. College I provides majors in seventeen concentrations. These include concentrations in Law and Justice, American Civilization, Bio-Behavioral Studies, Asian Studies, and Latin-American Studies. Students interested in majoring in Italian, Philosophy, and Music should note that these majors are offered only in College I.

College I does not seek to train students for specific vocational possibilities but to encourage and help them to develop and intellectual independence and self-reliance based on experience in a range of intellectual styles and methods and on concentration in one of these academic areas. Thus, it is directed at the development of intellectual flexibility and of resourcefulness in the solution of intellectual problems, and it asks the student to develop intellectual breadth and to complete a departmental major at the same time as it recognizes the important role of the individual student as the central and final agent of his own education.

College I welcomes visits from prospective students and warmly encourages applicants for admission to seek an interview with a member of the College staff or faculty. Interviews can be arranged through the Dean's Office of College I.

#### COLLEGE II

College II continues to develop programs within a framework of traditional liberal arts involving the disciplines of the Humanities, Sciences, and the Social Sciences, which allow students to combine the benefits of departmental specialization with those of interdisciplinary study. By exploring new modes of inquiry within and outside the historical traditions of western culture, college II offers options of synthesis and innovation permitting discovery of new ways to improve the quality of our lives, both as individuals and as a community.

College II continues to develop significant areas of academic interest not available in other colleges of the University. Such distinctive programs of study, however, complement rather than replace the more traditional major programs offered by each of the academic departments in the college, thereby providing a broader conjunction of opportunities for students.

The Urban Studies Concentration provides opportunities for the investigation of urban issues and problems from the perspective of various disciplines--Sociology, History, Economics, and Art. An interdisciplinary study of western and non-western Religions, with courses in the Humanities and Social Sciences, is offered by the program for the Study of Religion. Students enrolled in the individual major program design their own pattern of course selections, in consultation with faculty advisors, drawing upon the resources of two or more academic departments in the college. And, in addition to such interdisciplinary programs, College II houses the only programs in the Visual Arts (including film history) Theatre Arts, Classics, and Russian available at the University. Language instruction is also provided in College II for Portuguese, Polish, Armenian, and Modern Greek, as well as in French and Spanish. Students enrolled in the "Option B" program have an opportunity to modify or develop alternatives to the College's core requirement for graduation.

Through the support of the national endowment for the Humanities, College II is sponsoring an experimental program on Nantucket Island, providing a limited number of advanced undergraduates with opportunities to complete a semester of academic credit while living on the island. By studying the history and culture of this distinctive society with its unique natural environments, students are provided with a "Semester Abroad" without actually leaving the Commonwealth.

Various forms of group and individualized basic skills instruction are available for students needing special help to ensure that they will derive maximum educational benefits from their courses. These forms include an innovative pilot program of regularly scheduled course-adjuncts, involving student tutors working under the direction of faculty and staff members.

Located in the magnificent College II building, designed by the distinguished architectural firm of Cambridge Seven Associates, are a gymnasium, exercise facilities, and squash courts available to students and faculty members in the University.

As part of the orientation of new students, at the beginning of each academic year, the Dean of the College invites parents of incoming students to meet with him, members of his staff, and faculty members in College II Departments.

The College II constitution provides for a student faculty senate responsible for establishing and maintaining the means and standards through which students may earn the Bachelor of Arts Degree in College II, and for coordinating college efforts within the context of general goals relevant to the University-at-large.

#### COLLEGE OF PUBLIC AND COMMUNITY SERVICE (College III)

In October of 1973, the College of Public and Community Service (CPCS), the third College at UMASS Boston, opened with an initial enrollment of about 300 students. Enrollment since then has increased substantially. Adopting innovative approaches to higher education, the College is charged with training a diverse mix of students in careers of public and community service. The curriculum is organized around a competency based certificate system rather than course credits, with emphasis on interdisciplinary instruction and field education. The College, which is housed at the downtown campus in Park Square area at .00 Arlington Street, offers an educational program leading to the B.A. degree. Other professional degrees may be authorized in the future.

Since its beginning, the college has attempted to select a student body whose composition is varied. The students generally reflect a blend of socio-economic background, sex, age, race and ethnic origin, previous educational training, experience, and employment. Special attention is given to recruitment of those who are currently employed in human service work, those who have been out of high school for some period of time and want to return to college, those who have not completed high school but are prepared for college; and those who for whatever reason are often left economically and educationally disadvantaged (such as women and minorities). Sensitive recruitment, selection, and admissions programs--reinforced by college facilities located in downtown Boston near public transportation for its commuting students--have combined to attract a unique cross-section of people.

The College is committed to a competency based curriculum which will allow flexibility for students in planning and scheduling their learning program to best suit individual needs. It offers a wide variety of educational situations in which students learn skills and concepts, and are placed in real work settings where these can be used. Competency can be acquired and demonstrated not only in courses, but also on the job, in field work, and from use of resources in the greater Boston area. Too, students bring competencies already developed through previous work experience.

A special program called "Assessment" is provided for first year students. This program is designed to familiarize students with competency-based education and to aid students in applying previously acquired skills and knowledge to the curriculum and in forming individual learning plans.

Throughout its short existence, the College has identified specific competencies (through consultation with professionals, potential employers community people, and others) in order to define what a student enrolled in a particular curriculum career area needs to know and do, and at what level of skill. Similarly, more general competencies have been developed in liberal arts area and essential skills. These have been drafted into Certificates of Competency.

Each of the certificates describes various competencies required, the performance expected of students, and standards of evaluation to be applied. Further, students can design a certificate in a career area other than the three currently offered, and that competencies outlined in certificates of the career and general learning centers be combined to equal certificates. Also, students may either create competencies or combine existing competencies with competencies of their own design to make up a new certificate. Such individualized certificates must be approved by the academic governing body of the College, the Certificate Council.

To administer the certificate system, the College is organized into seven curriculum centers, each with its own certificate(s): The Essential Skills Center; three general learning centers (Cultural Studies, Individual and Society, Institutions); and three career centers (Housing and Community Development, Human Growth and Development, Legal Education Services). Also, to build a program encompassing field experience education, the college has a Coordinator of Field Education. The Coordinator's mission is to form and monitor a variety of cooperative relationships with service agencies and

organizations in the greater Boston area which provide crucial field work training for students; to assist in developing learning plans for individual students in the field; and to coordinate the college's career development, vocational counseling, and job placement efforts with those of the University.

The B.A. degree will be awarded upon attainment of ten specified certificates: Essential Skills Certificates; five certificates from the General Learning Centers; one Career Area Certificate (equal in value to three general center certificates) and one "Independent Interest" certificate designed by a student in conjunction with the faculty. The two assessment competencies, which are required, may be combined with competencies from the career or general center certificates to equal a general learning center certificate.

A description of the two assessment competencies and the certificates currently available through the Curriculum Centers follows:

#### 1. ASSESSMENT

Two competencies in assessment. They focus generally on helping new students understand the College and its competency-based curriculum, relate their past and present work and learning experience to the certificates, and develop their overall planning skills through design of individual learning plans.

#### 2. ESSENTIAL SKILLS

Three certificates in writing and speaking, reading, and mathematics. The Writing and Speaking Certificate encompasses advocacy, analysis, communication of personal feelings and/or experiences, and communication of technical career knowledge to both a professional and a general audience.

The Reading Certificate deals with the ability to "Pre-Read" a book to determine its value, make use of libraries and other research sources, read materials encountered for the first time, and to comprehend and judge written texts. The Mathematics Certificate includes competencies in basic and business mathematics, algebra, plus statistics.

#### 3. CULTURAL STUDIES (General Center)

Two certificates in American Values and Cultural Comparison. The first requires an understanding of the nature and origins of American value systems and their impact on the individual. The second examines the ability to understand and compare the attitudes and practices of differing socio-cultural groups.

#### 4. INDIVIDUAL AND SOCIETY (General Center)

Three certificates: Communication; Role, Identity, and Group Membership; and Introduction to Small Groups. The theme throughout all three is study of the individual in relation to other people. The Communication Certificate centers around the individual as a sender and receiver of various "messages" and "signals" while dealing with other people. The Role, Identity and Group Membership Certificate addresses the individual as fulfilling various roles (such as worker, parent, student) and as processing certain group memberships (such as sex, class, race or ethnicity). The introduction to Small Groups Certificate focuses on the individual as a member of small groups in which members are psychologically aware of each other's existence and have some face to face interaction.

#### 5. MANAGEMENT AND TRANSFORMATION OF INSTITUTIONS (General Center)

Three certificates in Social Change, Political Economy, and Management. The Social Change Certificate concentrates on community and interest group organization and tactics, research and analytical skills in neighborhood field setting, and electoral politics. The certificate in Political Economy focuses on an analysis of power, political conflict, the economics of families and individuals, American economic institutions and alternatives, local economic data and research, plus traditional economic theory. The Management Certificate covers major areas of public and organizational administration including decision making processes, legal and administrative strategies to change organizational behavior, managerial problem solving, program development, budgeting and grant development.

#### 6. HOUSING AND COMMUNITY DEVELOPMENT (Career Center)

One Career Certificate in Housing, which is divided into three parts. The first comprises certain basic competencies in the housing field including knowledge of terminology and concepts, human needs and the housing environment, different career roles, and the overall housing system. The second part consists of a number of competencies in four professional career areas (advocacy, management, development, and public service in a housing agency). A study is required to earn either those competencies in one of the four areas or competencies drawn from all four. The third part of the certificate deals with a student's ability to work on a concrete housing problem.

#### 7. HUMAN GROWTH AND DEVELOPMENT (Career Center)

One career certificate including general competencies encompassing stages of human development, interviewing and counseling, systems of human service delivery, and the dynamics of families and their functions. The remaining competencies to be earned require work in one of several specialties: early childhood, developmental disabilities, and preparation for graduate school in social work and psychology.

#### 8. LEGAL EDUCATION SERVICES (Career Center)

One career Certificate in Law, which is made up of six parts. The first five parts consists of basic competencies grouped under different areas of study (legal institutions, fact finding methods, legal rules and their use, dispute resolution, and law and values). These competencies stress knowledge of the working of the legal system (the processes of legislating, administering, and adjudication the law) and crucial skills necessary for effective participation in it (interviewing, investigation, legal reasoning, statutory research, negotiation, and advocacy). The sixth part of the certificate allows for a choice of competencies ranging from advanced study of topics introduced in the first five parts to focus on a particular substantive area of the law chosen by a study as possible career field (for example, housing, juvenile, welfare, or criminal law).

#### THE COLLEGE OF PROFESSIONAL STUDIES (COLLEGE IV)

The idea for a college focused on professional education was first developed in the report of a campus-wide planning committee of UMass/Boston in April 1973. The Committee proposed the creation of a new collegiate unit that would offer undergraduate and graduate degree programs in a number of career areas including Management, Urban Technology, Mass Communications, Architecture and Urban Design, and Community Health. The Planning Committee conceived the proposed College as an innovative approach to professional education for several reasons:

- The College would bring together in a single academic unit professional fields normally located in special-purpose schools, thereby maximizing opportunities for joint programs and inter-disciplinary studies.
- The College would be responsible for both the professional and general education of its students, thereby bringing the liberal arts into a more meaningful relationship with career-related studies.
- The College would seek to provide opportunities for persons traditionally underrepresented in professional programs, especially minorities and females.
- In keeping with diversity of its students the College would adopt flexible forms in terms of time, place, and manner of instruction.

The Board of Trustees of the University of Massachusetts reviewed the proposal for the College of Professional Studies in July, 1973, and authorized the campus to initiate a search for a dean who would be charged with organizing the further development of the College. The search took most of the academic year 1973-74; Dr. Richard M. Freeland was appointed the first dean of the College in June, 1974.

During the academic year 1974-75 the Dean and a small staff recruited a faculty for the first program in the College - the Management Program. In the fall of 1975 the College enrolled its first students. In September, 1976 the student body of the College will grow to 500, and for the first time, courses in the Management Program will be offered during evening hours as well as during the morning and afternoon hours. The College hopes that this extended class day will make the Management Program more accessible to those who work during the day and that it will also provide additional schedule options for those students who have usually taken all their coursework during the day. The evening courses offered by the Management Program will be in all ways comparable to those offered at other times of the day. All courses will be taught by the same faculty and the performance expected of students in any given course in the Program will be identical.

Also in September, 1976, the College will begin a cross-registration program with the College of Business Administration at Northeastern University. Through this program, students in the Management Program will be able to register at Northeastern University, at no additional cost. This program represents the first time that a public university and a private university in this area have entered into a contract for services. Though the cross-registration will be limited in the first year, it is an important first step toward inter-institutional cooperation.

#### THE CURRICULUM

As a four-year undergraduate college, the College of Professional Studies is responsible for assuring that its students receive a comprehensive professional education. There are two basic components of the curriculum of the College of Professional Studies, each representing approximately half of an individual student's course work in the College. One part, called the applied component, helps students prepare themselves for careers in a particular professional field, such as Management. The applied component can involve course work in both liberal and applied subjects, but the emphasis is clearly on problem solving within a specified professional field. The second part of the curriculum, the general education component, provides students with an opportunity to prepare themselves broadly to lead informed, sensitive and interesting lives. The general education component can also include course work in liberal and applied subjects, but here the emphasis is upon breadth and general understanding, and most course work will be in the liberal arts and sciences. The two components of the curriculum of the College, though different in emphasis, are mutually reinforcing; the practical problems encountered in the applied component provide opportunities for students to put to practical use ideas and values encountered in their general education; the ideas developed in the general education component provide perspective on the issues and emphases associated with the applied part of the curriculum.

#### THE MANAGEMENT PROGRAM

The Management Program is a course of undergraduate study for persons who wish to prepare for managerial careers in business, government or other institutions. The program leads to a Bachelors Degree in Management. The idea of a program in Management--as distinguished from programs in Business or Public Administration--is relatively new. The University of Massachusetts at Boston, like several other universities in the United States, has developed this type of program because the problems and requirements of managing institutions of all kinds--public and private--have become so similar. Also, it is now common for managers to move back forth between industry and government during their careers. The Management Program, therefore, incorporates the most modern concepts of managerial training and provides students with a versatile preparation for work in the wide variety of institutions.

#### MANAGEMENT PROGRAM: APPLIED COMPONENT

There are four parts to the applied component of the Management Program. Each part represents a stage in a student's overall development as a future manager, and for this reason most students will proceed through the four parts in the order in which they are listed here. The four parts are: Introductory and Skills Courses; the Management Core; the Management Concentration; the Internship. There are requirements associated with each part of the applied component and students will need to complete these requirements satisfactorily before receiving the degree. The formal requirements can be found in the section of this booklet entitled "Academic Regulations" which lists the Degree Requirements for each College.

##### - Introductory and Skills Courses:

The College does not expect most entering students to have clear plans for all four years of college or for their careers. For this reason, the first part of the Management Program emphasizes opportunities to explore professional and academic interests and to build basic intellectual skills. Course work at this level is designed to be useful to students whether they continue on to upper division work in Management or transfer to another program or field. The Applied Component of the Management Program includes three Introductory and Skills Courses. They are:

- Introduction to Management: This course offers students an initial experience with managerial problems and processes and with the Management curriculum. This course is taught by the Management faculty. It should normally be taken in the first semester of the freshman year.
- Statistics: A one semester course in Managerial Statistics will provide students with essential tools for course work later in the program and for future work. This course will normally be taken in the sophomore year.
- Economics: At least one semester of Economics is required of all students. The course can be taken in a liberal arts college and should be completed during the freshman or sophomore years.

#### THE MANAGEMENT CORE

The Management Core is a set of required courses, normally taken during the sophomore and junior years. The purpose of the Core is to introduce students to the major functions performed by all institutions and to the relationships among these functions. The program is intended to help students understand how institutions work and how any specific managerial position relates to a total organization. The core courses also introduce students to the areas of specialization and the career options within Management so that they will have a basis for selecting a field of concentration in the Advanced Program.

The Management Core is divided into four areas:

- Management of Financial Resources: This is a two-semester sequence which studies the means by which institutions obtain, allocate, and keep records about financial resources. The course introduces students to the fields of Accounting, Budgeting, and Financial Management.
- Human Resources Management: In this two-semester sequence, students acquire knowledge and skills related to working with other persons to achieve the purposes of an organization. Topics include the Managerial functions of planning, organizing, directing, and controlling. The sequence serves as an introduction to further study in Personnel and Labor Relations Management.

- Marketing Management in the Public and Private Sectors: This two-semester sequence introduces students to the system of markets and constituent relationships within which organizations operate. The course also studies the means by which organizations react to and act on their external environments. The fields of Marketing and Program Planning are explored.

- Management Science: The Management Core includes a two-semester sequence in Operations Research and Operations Management. The first course develops important skills in quantitative methods and the second applies these skills to such problems as production management, scheduling, service delivery, and inventory control.

#### THE MANAGEMENT CONCENTRATION

The Management Concentration provides students with an opportunity to either specialize in one of the fields studied in the Core course work or to develop their own course of study specifically related to a Management field not represented in the Core. The Concentration is intended to provide students with a limited amount of skill and knowledge in a professional field that will be helpful in beginning employment after graduation. The Concentration consists of several courses, typically 3-5 in number, normally taken during the junior and senior years. In 1975-76 the following Concentrations are available:

- Accounting
- Human Resources Management
- Management Science
- Marketing
- Private Financial Management
- Public Financial Management
- Public Management
- Public Policy Analysis

The specific content and requirements for each of these concentrations can be found in the section of this booklet entitled "Description of Courses" under "Management".

#### THE INTERNSHIP

Because education can happen almost anywhere, not only in a classroom, the final part of the applied component in Management includes an internship, which is an approved full or part time work experience in a business, government agency, educational institution, hospital and other organizations. The purpose of the internship is to introduce management students to a new learning environment. Through an internship in an operating organization, students have unusual opportunities to enhance the knowledge acquired in the classroom, to try out skills and abilities, to gain new perspectives on career goals and academic directions, and to further personal and professional development. The internship, then, is more than just a job. It is a chance for students to appraise and improve their knowledge, skills, and attitudes in the world in which they will be living and working for the rest of their lives.

The typical internship will involve about twelve hours of work per week for an academic semester and earn the student four academic credits, but placements with longer hours and more credits can also be arranged. Each placement is decided individually based on the student's interests, talents, and experiences--moderated by the practical limitations of the job market. Students help to set up their own internships.

Representatives of employing organizations act as field supervisors who assign, advise, and evaluate the student's work activities. The student receives academic and career guidance on the internship from a faculty sponsor who also assigns, supervises, and evaluates academic study to complement the individual work experience. The Office of Field Relations of the College provides overall coordination for the internship experience and facilitates the efforts of participating employers, faculty, and students.

Additional information about the Internship is contained in the booklet The Internship Experience available from the Office of Field Relations.

#### MANAGEMENT PROGRAM: GENERAL EDUCATION COMPONENT

The general education program includes six requirements, each one representative of a basic goal of this part of the College's curriculum. These requirements can be satisfied by many different patterns of course work, so each student will have considerable opportunity to elect the specific courses he or she wishes to take while also satisfying these requirements. In some cases, the same course may be used to satisfy more than one requirement. Except where specified, general education course work may be taken at any point during the students' program. Students are encouraged to mix course work in the applied and general education components during the course of their education.

The six general education requirements for Management students are described in the following paragraphs. Students should consult the section of this booklet entitled "Academic Regulations" to find a formal statement of these requirements and an indication of their applicability to different entering classes.

##### - The Essential Skills Requirement:

This requirement is concerned with the basic skills of thinking and self-expression that underlie intelligent thought and successful activity in any field. To satisfy this requirement each student must achieve a basic mastery in the areas of logical thought, written and oral expression, and quantitative analysis and demonstrate this mastery in each area at a level of proficiency established as a standard by the faculty of the College.

##### - The Fields of Study Requirement:

This requirement is intended to help students understand some of the basic concepts and methods that have been developed by scholars to investigate and understand persons, their institutions, their culture and their physical world. To satisfy this requirement each student must successfully complete at least one course in each of seven fields of study. Students entering the program as freshmen will take a basic course called the Liberal Arts and the World of Work, which is designed to introduce them to several fields in the liberal arts.

The seven fields of study are described in the following paragraphs. None of these fields of study correspond to any single academic discipline. Rather, each represents a specific topic for intellectual examination which may be approached from the perspective of several disciplines. In satisfying the Fields of Study Requirement students may choose to limit their work within each field to a single discipline or approach some or all the fields on an interdisciplinary basis. The following brief paragraphs suggest some of the kinds of courses that might be appropriate within each of the fields of study. More detailed information on appropriate course work is available from the Dean's Office. Individual students will need to work out with their Academic Advisors the specific courses they will take to satisfy these requirements.

**Individual Human Life:** This field is concerned with the intensive examination of the experience of living from the perspective of an individual person. Course work appropriate to this field can be found most readily in the disciplines of Psychology and Literature (particularly courses in the novel). Courses from other fields concerned with the study of individuals (such as History, Classics, Theatre Arts, or Philosophy) would also be applicable depending on the specific emphasis of the course.

**Social Organization:** This field focuses on human behavior in organized groups. Appropriate courses may be concerned with theories and methods of analyzing group behavior and may be found in Sociology, Socio/Psychology, Anthropology or Economics. Another group of appropriate courses are those which analyze specific kinds of human institutions or organizations; such course work can be found in the fields of Government and Politics, Sociology, Economic Institutions, Cultural Anthropology.

**History:** This field is concerned with helping students develop an understanding of the history of the civilization of which they are a part as well as the pervasiveness of historical change in human life. Appropriate course work could come from any field. (Included in History, Art, Literature, Afro-American Studies) which is concerned with the historical development of some aspect of American Civilization or of the American legacy from other cultures.

**Comparative Cultures:** This field focuses a student's attention on civilizations fundamentally different from the one into which the student has been born or socialized. Appropriate course work could come from disciplines (Literature, Art, Music, Philosophy, Architecture) concerned with the culture of another country or people or disciplines (History, Anthropology, Sociology, Economics) studying the history or social organization of another country or people.

**Morals and Values:** One of the most important aspects of any culture or group is the framework of values and beliefs which provides the basis for thought and intellectual activity. This field is concerned with the understanding of systems of values and beliefs that have been developed by civilizations or by individual thinkers. Appropriate course work could come from the fields of Philosophy, Religion, Classics, Literature, History, Psychology.

**Aesthetics:** This field focuses on human efforts to understand and create works of the imagination that are of unusual beauty, harmony, or artistic merit. Appropriate course work could come from the fields of Art, Music, Literature (English or foreign), Classics Theatre Arts.

**Physical World:** This field focuses upon the natural environment which provides the basic context of human life. Course work in Biology, Chemistry, Physics, Astronomy and Mathematics could be appropriate here.

##### - The Special Field of Study Requirement:

This requirement is designed to ask students to achieve a substantial degree of understanding of the methods, theories and content appropriate to at least one of the seven Fields of Study. To satisfy this requirement, each student must successfully complete a minimum of five courses in that field. At least 3 of the 5 courses taken to satisfy this requirement must be above the 200 level. Also, at least 3 of the 5 courses must be from a single academic discipline.

##### - The Problems of Inquiry Requirement:

The Problems of Inquiry Requirement asks students to focus on a set of questions that are of profound importance to any serious thinker. The questions are these: How can I know when a given observation or assertion is true or false? How can I most responsibly formulate statements, observations, judgements about the phenomena that I observe? How can I move beyond mere opinion to a statement that I can validate through the exercise of reason? This requirement asks students to seek answers to these questions in terms of two basically different kinds of problems: the problem of accurate description, and the problem of assigning value.

To complete the Problems of Inquiry Requirement, each student must successfully complete two courses concerned with the problem of accurate description and one course concerned with the problem of assigning value. Students may choose the courses they wish to apply to this requirement from any appropriate course offered by the University. Academic advisors will help students identify courses in different fields that could apply to this requirement. Courses used to satisfy this requirement may also be used to satisfy the Fields of Study Requirement and the Special Field of Study Requirement. The following paragraphs explain the purpose of the three required courses and should help students identify courses appropriate to this requirement.

The Problem of Accurate Description: Much of the work done by scholars and thinkers is basically concerned with describing accurately the phenomena they see in the world around them. Although the phenomena can vary enormously (from the behavior of molecules within a cell to the behavior of voters during an election), an essential intellectual problem remains constant: how can an observer know when a certain explanation of a phenomena is true and when it is not. The academic disciplines have developed different techniques of analysis and standards of proof appropriate to the specific phenomena with which they are concerned. Most of the disciplines, however, rely on one fundamental conception of the most productive and responsible method of inquiry for achieving the goal of accurate description. That basic conception is called the scientific method. The Scientific Method of Inquiry contains the following elements:

- a problem is identified and carefully defined
- relevant data are collected
- an hypothesis is formulated on the basis of the data to explain the problem
- the hypothesis is empirically tested

The first two courses that a student must take to satisfy the Problems of Inquiry Requirement must place a major emphasis upon the development of understanding how to formulate ideas and explanations through the scientific method. One of these courses must employ the rigorous application of the scientific method to quantitatively measurable empirical phenomena in which casual relationships can be determined with relative certainty. (Appropriate courses can be found in the disciplines of Biology, Chemistry, Physics, and to some extent also in Psychology, Sociology, Economics and History). The second course must emphasize the application of the scientific method to problems where measurement is difficult or impossible and where clear causal relationships are extremely difficult to establish. (The most appropriate course work for this part of the requirement can be found in the social sciences, including Economics, Sociology, Anthropology, Psychology, History.

The Problem of Valuing: Through the careful application of the Scientific Method, we can hope only to achieve an accurate description or explanation of some phenomenon. The scientific method cannot tell us what is right or wrong morally. It cannot solve for us the problem of how to value a given act or phenomenon. Thus the problem of assigning value presents a fundamentally different problem than the problem of accurate description.

The final part of the Problems of Inquiry Requirement asks students to successfully complete at least 1 course which emphasizes the problem of making value judgments in a moral sense. (Appropriate course work can be found most readily in the field of Philosophy; courses may also be found in the fields of History and Literature, Classics or Religion).

- The Personal Education Requirement:

Each student must demonstrate a capacity to design and execute a personal program of study. Each student's academic advisor is responsible for working with the student to satisfy this requirement.

#### MANAGEMENT PROGRAM: ELECTIVES

Each student will have a limited number of electives to use as he or she desires. There is no restriction on the nature of these electives.

## SPECIAL PROGRAMS

### AMERICAN CIVILIZATION CONCENTRATION

The American Civilization Concentration offers students the opportunity to study American experience and American culture both from the perspectives of the traditional disciplines and in terms of the interrelationships between those disciplines. The student should major in one of the departments participating in the program, and must take in addition to his departmental requirements six courses, two of them in the Junior Colloquium, two in Humanities departments (Art, History, English, Philosophy, Theatre Arts) and two in the Social Sciences (Anthropology, Economics, Sociology, Psychology, Politics). We urge students to take either History 265-266 or English 252-253 before taking the Junior Colloquium. Students should see the American Civilization advisor before enrolling in the Junior Colloquium. The American Civilization advisor is Professor Seymour Katz, English Department, College I.

### BLACK STUDIES CONCENTRATION/MAJOR

This special program, derived from the University's commitment to offer courses in both Western and Non-Western studies, is specifically designed for students interested in the historical experience, cultural accomplishments, and significant presence of the black man in Africa and the new world. Successful completion of the concentration is formally acknowledged on students' official records.

### COURSE OFFERINGS

Black Studies Honors Seminar

An interdisciplinary seminar for students admitted to Option B (Honors), and a limited number of highly qualified students participating in the Option A program.

Prerequisite: 3.0 overall average and permission of the Black Studies Concentration Committee.

### BLACK STUDIES SENIOR HONORS THESIS

Study in depth of a topic chosen by the student in consultation with an honors advisor, and a paper written with the approval and under the direction of an honors advisor, normally related to work done in the honors seminar. Honors awarded on the basis of performance in the honors seminar, evaluation of the paper by the Black Studies Concentration Committee, and 3.0 overall average.

Prerequisite: Black Studies, and permission of the Black Studies Concentration Committee.

### ADDITIONAL APPROVED COURSE OFFERINGS

Students may petition the Black Studies Concentration Committee for permission to include other relevant courses in their concentration program. In addition a list of inter-institutional Black Studies courses is available from the Registrar. These courses will also be credited toward the concentration.

People and Cultures of Africa  
The Art of Africa  
Urban Problems  
Environmental Problems and Prospects of Black America  
Black Presence in American Literature  
Selected Topics in English  
The Black Soul and the Theatre  
Black French Literature  
Introduction to African Civilization I, II  
Problems in African Civilization  
The Age of Jackson and Lincoln  
Civil War and Reconstruction  
Black History in America  
History of Africa  
Seminar in American History  
African Literature  
Jazz  
Non-Jazz Black Music in America  
Afro-American Experience  
Black Literature in America

Students must major in a department and are trained in its discipline while electing courses which emphasize Afro-American subject matter. Faculty advisers, and members of the Black Studies Concentration Committee, assist students in choosing these courses.

#### Option A

A minimum of six courses from the approved list. At least three of these courses must be taken outside the major department.

#### Option B

Honors Program. A junior/senior year honors program for highly qualified students who present to the Black Studies Concentration Committee a satisfactory proposal for in-depth study of an appropriate subject or problem. Requires two semesters of an interdisciplinary junior seminar, the election of additional course as appropriate and the writing of an Honors Thesis during the senior year which is acceptable to the Committee.

### INSTITUTE FOR LEARNING AND TEACHING

The Institute for Learning and Teaching works with teachers, aides, parents, and administrators to improve the quality of education in urban elementary and secondary schools in the Boston area. It is committed to helping bridge the gap between students' experiences in high school and in the University, and works with University faculty and departments interested in developing academic programs and services responsive to UMB students' needs.

The Institute advocates reforms directed at interested cross-cultural understanding; increased participation by teachers, parents, and students in making educational decisions; increased responsiveness of educational opportunity. All programs are planned cooperatively to meet the particular needs of participants. Some are conducted by the Institute's nine-member staff, others by consultants chosen jointly by participants and staff.

In response to needs resulting from Boston's desegregation process, the Institute has focused its resources on the eighteen schools in District VI (South Boston, Columbia Point, North Dorchester), working jointly with teachers, parents and administrators in these schools to develop, find funding for, and carry out such programs as:

- A District wide parent/teacher Resource Center
- A basic skills tutorial program at South Boston High School
- Training on the use of media and audiovisual equipment for teachers and students
- A Middle School math tutorial involving parents and UMB students
- A program in Cape Verdean language and culture

As part of its commitment to provide connections between the high school and University experience, the Institute has been instrumental in the development and continuation of a UMB-Boston Public Schools secondary program, Another Course to College (ACC) the Pre-college Bilingual program, and the Flexible Campus Program. In addition, a number of programs in schools involve UMB students, giving high and middle school students an opportunity to find out more about college. The Institute continues to provide assistance to UMB's academic support services.

The Institute was founded in 1971 with a three-year grant from the Ford Foundation. It was approved by the University Senate in that year, and by the University Assembly in 1975. It welcomes the participation of students, faculty and staff in its programs.

### Concentration in Law and Justice

The Law and Justice Concentration is an interdisciplinary program with a general liberal-arts focus about the law and how it affects people as they live in the real world. Like other Concentrations in the College, Law and Justice is a supplement to a student's major. Prospective Concentrators should call or drop in to the Law and Justice Office (College I, Room 3/105, Ext. 2632) for further information.

Requirements for the Concentration:

Concentrators will be required to complete at least 23 credits in the program, including:

1. One of the 2 introductory courses in Law and Justice (The 8-credit Freshman "Foundation" Course or the 4-credit Introduction to Law and Justice; if a student opts for the Foundation Course, only 4 of the 8 credits count towards the Concentration).
2. At least 9 credits in the core upper-level offerings, including 3 credits in each of the three core areas: Sources, Limits and Functions of Law; Legal Institutions and Procedures; and Forms of Social Justice and Social Ethics.
3. LAWJUS 108, Program Planning in Law and Justice. This is a 1-credit mini-course in program development.
4. At least 3 credits in the Senior Year Directed Study Seminar.

The remaining credits, up to the 23, may be departmental courses with a Law and Justice theme or focus. Concentrators will be urged to distribute such departmental courses more or less equally among humanities departments and social science departments. Courses used to satisfy a major requirement may, if appropriate, also be used for the Concentration in Law and Justice.

A maximum of 7 credits, including the 1-credit mini-course in Program Planning, may be earned through the Law and Justice Mini-Courses. A maximum of 6 credits may be earned in field-work courses provided that the field work is sponsored by the Law and Justice Program or, if the field work is departmentally based, that the field-work is in a Law and Justice context. All such questions of relatedness are to be determined by the Administrative Committee of the Law and Justice Program.

Already Existing Mini-Courses:

|                                          |                            |
|------------------------------------------|----------------------------|
| Higher Law and the American Constitution | Love & Marriage            |
| The Spanish Inquisition                  | The Legal Profession       |
| Rights                                   | The Marriage Game          |
| The Insanity Plea                        | Sacco & Vanzetti           |
| Employment Discrimination                | Justice & Utopia           |
| Legal Analysis                           | Plato & Justice            |
| Juries                                   | Issues in Justice          |

| Cuban Law & Politics                     | Court and Community        |

# Departmentally Based Electives (A Partial Selection):

Philosophy of Law  
Psychology, Psychiatry and the Law  
Sociology of Law  
Law & International Relations  
Medieval Law  
American Detective Novel  
Income Distribution and Law

## Interdisciplinary Courses in Law and Justice:

LAWJUS 101 Foundation Course in Law and Justice  
104 Introduction to Law and Justice  
210 Prisons and Punishment  
220 Social Justice  
230 Law and Social Change  
240 Court and Society  
250 Ownership and the Law  
260 Authority, Liberty & Law  
400 Special Topics  
478 Independent Study  
500 Senior Year Directed Study Seminar  
501 Intern in Foundation Course

## PRE-MEDICAL /HEALTH PROFESSIONS CONCENTRATION

A student interested in one of the health professions, including a medical, dental or veterinary career, may select any of the major fields at UM/H on the basis of interest, ability and suitability.

Students who are interested in a medical career should talk with the pre-medical advisor in the Central Advising Office. A Faculty Committee acts in an advisory capacity to these students and the pre-medical advisor. The Committee also interviews each applicant to medical, dental or veterinary school, ordinarily toward the end of the junior year, oversees the evaluation of each applicant's records. Students are advised to seek out information and assistance from the advisor in planning their academic programs in preparation for medicine and other health programs.

## STUDY OF RELIGION CONCENTRATION

The program in the Study of Religion offers a set of courses which concentrate on the religious dimension of human experience. At the nucleus of the Program is a group of courses directly in the study of religion which focus on the fundamental problems and themes of religious experience. This is supplemented by a variety of departmental course offerings which examine religious aspects of literature, art, history, or institutions, as treated by the social sciences and the humanities. This Program seeks to explore critically the cultural heritage of religious experience in a fashion which enables students to expand their views of human culture and to find the place of their own history and experience within the framework of a liberal and humanistic education.

The Concentration in the Study of Religion is designed for students who wish to pursue the study of religion in a more systematic way. These students will be assisted and advised by the Committee on the Study of Religion in College II which supervises the Program. A student's program of study in the Concentration must be coherent, balanced, and varied. It must provide for a clearly-defined focus and knowledge of a wide range of religious phenomena. Successful completion of the Concentration is formally acknowledged on students' official records.

# A. Courses in the Study of Religion

Study of Religion 109 -- Introduction to Religion: Symbol, Myth, and Ritual  
Study of Religion 122 -- Introduction to Religion: Varieties of Religious Experience  
Study of Religion 133 -- From Fertility Cult to Philosophy  
Study of Religion 231 -- Religions of India  
Study of Religion 232 -- Religions of the Far East  
Study of Religion 241 -- Old Testament, the Religion of Israel and the Ancient Near East  
Study of Religion 242 -- New Testament, Judaism and Hellenistic Religion  
Study of Religion 250 -- Varieties of Mysticism  
Study of Religion 252 -- Sacred Histories and Myth  
Study of Religion 255 -- Religions of the Oppressed  
Study of Religion 264 -- Contemporary Religious Thought  
Study of Religion 273 -- Problems in Religion and Ethics  
Study of Religion 276 -- Religion and Technology  
Study of Religion 478 -- Independent Study

## B. Courses closely related to the Study of Religion

### Approaches to Religion through particular disciplines:

Anthropology 267 -- Anthropology of Religion  
Sociology 339 -- Sociology of Religion  
Philosophy 260 -- Philosophy of Religion

### Religion and Literature:

Classics 112 -- Greek and Roman Myth and Religion  
English 326 -- Milton  
English 442 -- Jewish American Literature  
Humanities 243 -- Mythology and Literature  
Humanities 244 -- Germanic Mythology  
Humanities 260 -- Visionary and Prophetic Modes in Literature  
Humanities 245 -- Fantasy and Utopia  
French 374 -- Catholic Literature from 1800-1930  
Italian 301- 302 -- Dante and the Quattrocento

### Major Religious-cultural Traditions:

History 237 -- Jewish History: Antiquity to the Late Middle Ages  
History 238 -- Jewish History: From the Spanish Expulsion to Modern Statehood  
History 239 -- The Middle East, 622-1517 (Islamic Civilization)  
History 243 -- Problems in African Civilization (Islam in Africa)

## SOCIOLOGY AND URBAN SOCIAL SERVICE (SUSS)

The Sociology and Urban Social Service Concentration (SUSS) is designed for dedicated students who wish, beginning in their sophomore year, to major in sociology as preparation for a youth and family serving career in an urban setting. Students in this program take specially created sections of the sociology course offerings which coordinate their course work with field placement activity. Such students are expected to intern in a variety of social service agencies such as, schools, hospitals, child guidance centers, housing services, family support and other community agencies.

Freshmen interested in applying for the Social Service Concentration should consult with the Chairperson of the Sociology Department or the SUSS Committee Chairperson.

## TEACHER CERTIFICATION PROGRAM

Students seeking careers in education may avail themselves of the services of the Teacher Certification Program. The staff provides information and counseling to all students preparing for teaching careers. In addition, the program enables highly qualified students to satisfy Massachusetts requirements for teacher certification. Since UMass/Boston offers no major in Education, a teaching candidate pursues the University's normal degree and major sequences. At the same time, by judicious choice of electives from among those offered by several departments, one may acquire credits in courses approved for certification. The program culminates in the senior year when, under the direction of the faculty of the major department, the student enters student teaching and participates concurrently in a Curriculum and Methods Seminar.

Specific information concerning certification requirements and approved courses is available in the Teacher Certification Program Office.

### Elementary Education (Prerequisite: Admission to TCP)

Grades K-6

TCH CER 589: Issues in Elementary School Curriculum

TCH CER 590: Curriculum, Methods, Student Teaching in Elementary Schools

### Special Subject Teacher (Prerequisite: Admission to TCP)

Grades K-12

Art 586: Curriculum, Methods, Student Teaching of Art in the Schools

Music 586: Curriculum, Methods, Student Teaching of Music in the Schools

Theatre Arts 586: Curriculum, Methods, Student Teaching of Theatre Arts in the Schools

### Secondary School Teacher (Prerequisite: Admission to TCP)

Grades 7-12

Biology 586: Curriculum, Methods, Student Teaching of Biology in Secondary Schools

Chemistry 586: Curriculum, Methods, Student Teaching of Chemistry in Secondary Schools

Classics 586: Curriculum, Methods, Student Teaching of Latin in Secondary Schools

English 586: Curriculum, Methods, Student Teaching of English in Secondary Schools

French 586: Curriculum, Methods, Student Teaching of French in Secondary Schools

Italian 586: Curriculum, Methods, Student Teaching of Italian in Secondary Schools

Mathematics 586: Curriculum, Methods, Student Teaching of Mathematics in Secondary Schools

Physical Science 586: Curriculum, Methods, Students Teaching of Physical Science in Secondary Schools

Social Science 586: Curriculum, Methods, Students Teaching of Social Science in Secondary Schools

Spanish 586: Curriculum, Methods, Student Teaching of Spanish in Secondary Schools

Students in departments not listed should consult with their departments to determine whether such courses are offered. Not every course is offered every semester or every year; students should consult with their departments regarding departmental offerings.

### LIBRARY COURSES (Prerequisites: Junior Standing or Permission of Instructor)

In cooperation with the Boston Public Schools Library Program, the University offers two courses through the Teacher Certification Program that may be of general and specific interest to prospective teachers. Admission to TCP is not a prerequisite.

TCH CER 211: The Library and the City Child

TCH CER 212: Books and the City Child

## UNIVERSITY YEAR FOR ACTION

University Year for ACTION is a University based program combining full time public or community service/interiorship and two seminars, one in field of major, and one interdisciplinary Urban Studies Seminar. UYA is not open to first semester freshmen.

A student intern/volunteer receives a stipend of \$230.00 per month for twelve months, September through August. The twelve months are divided into three semesters. The student earns a total of thirty credits for the year. Individual departments grant twelve credits for the year's work in the academic seminar. However, UYA credits cannot be substituted for University and major core requirements. The remaining eighteen come from UYA, nine for field work and nine for the Urban Studies Seminar.

### URBAN AFFAIRS CONCENTRATION

The College II Urban Affairs Concentration offers students an opportunity to investigate urban issues and problems from the point of view of several different disciplines. Understanding important issues such as how cities emerged and developed, how they are shaped by an array of forces, and the causes and consequences of urban problems necessarily require that we adopt a comprehensive approach. Therefore, in addition to a major, a student who wishes to have a concentration in urban affairs takes certain courses in economics, history, politics, sociology, and psychology. More information on this concentration and a listing of the approved courses is available from any of the following faculty advisors for the concentration: Profs. Raymond Torro (Pol Economy); Paul Gagnon (History); Diane Paul (Politics); Harry Brill (sociology); Bernard Kramer (Psychology); David Landy (Anthropology).

### WOMEN'S STUDIES CONCENTRATION

Women's Studies at UMass/Boston has grown from a small grouping of departmental courses to an interdisciplinary concentration with more than 30 courses, including its own WOST courses taught by its own staff of two faculty members.

The strong interest in Women's Studies at UMB is based on the commitment of women students, faculty and staff to deepen the analysis of the situation of women in our society.

The objectives of the program are to fill out the social picture of humanity and to question and change the present social organization based on the oppression of women. To this end the Women's Studies Concentration encourages the development of new departmental and interdisciplinary courses and attempts to incorporate new perspectives into existing courses.

Women's Studies invites participation of students in planning and evaluation of curriculum and in planning all special activities: speakers, conferences, films and other cultural presentations. The program is governed by an elected board of four students and four faculty.

Courses are open to all students. A concentration, like a minor, is an addition to a major field, and will be recorded on the students' permanent record and transcript. Most courses meet the requirements not only of the concentration but also major and core curriculum requirements.

Seven courses or 21 credits are needed to complete the concentration. Concentrators are required to take the introductory course (or its equivalent) and ought to take at least one other interdisciplinary Women's Studies course (listed as WOST). At least one course must be taken in each of two divisions: the Humanities and the Social Sciences.

About one half of the courses listed below are offered each semester. Independent study and seminars in advanced special topics are available for students who wish to do a directed in-depth study or research project.

Students and faculty, as well as members of the Women's Studies Board serve as advisors and will assist concentrators in planning a program in Women's Studies to fit their areas of interest and need. Students are welcome to come by the Women's Studies office for more information.

STAFF 3 CREDITS

### ANTHROPOLOGY

#### Graduation Requirements

The two departments offer a joint major in Anthropology. Majors are required to take the introductory Anthropology course plus eight advanced courses. It is required that the eight advanced courses be distributed among at least three of the following four subdisciplinary fields: Archaeology (Prehistoric Anthropology), Biological (Physical) Anthropology, Cultural and Social Anthropology (Ethnology and Ethnography), and linguistic anthropology. The student's program is individually designed in consultation with the faculty advisor, according to the student's objectives and interests. Majors are encouraged to take courses in related disciplines as these bear directly upon their Anthropological aims, e.g., Psychology, Sociology, Politics, History, Economics, Biology or the Humanities. The student may register for courses in either Anthropology Department with equal priority to majors.

NOTE: For the class of 1977 and subsequent classes new graduation requirements have been instituted. Please check with the Anthropology departmental secretaries in Colleges I and II for specific information.

ANTH 101 INTRODUCTION TO ANTHROPOLOGY  
A SURVEY OF ANTHROPOLOGY AND ITS VARIOUS SUB-DISCIPLINES-PHYSICAL ANTHROPOLOGY, ARCHAEOLOGY, LINGUISTICS, AND CULTURAL ANTHROPOLOGY. THIS COURSE EMPHASIZES HUMAN BIOLOGICAL AND CULTURAL EVOLUTION, THE RELATIONSHIP BETWEEN LANGUAGE AND CULTURE, AND THE VARIETY AND DIVERSITY OF HUMAN CULTURAL ADAPTATIONS PRESENTED THROUGH READINGS AND FILMS ON SELECTED HUNTER-GATHERER, HORTICULTURAL AND AGRICULTURAL SOCIETIES. COURSE EMPHASES MAY VARY ACCORDING TO THE SPECIAL INTERESTS OF THE INSTRUCTOR.  
3 LECT HRS  
STAFF 4 CREDITS

ANTH 206 HUNTER-GATHERER CULTURES  
STUDY OF THE HUNTER-GATHERER FORM OF HUMAN ADAPTATION. ETHNOGRAPHIC DATA FROM HUNTER-GATHERER CULTURES WILL BE EXAMINED. AND MODELS DERIVED FROM THIS DATA WILL BE APPLIED TO THE ARCHAEOLOGICAL EVIDENCE FOR PREHISTORIC HUNTER-GATHERERS.  
PREFOUITSITE: INTRO ANTHROPOLOGY OR PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MS. LUEDTKE 3 CREDITS

- 207 PEASANT SOCIETY APPROACHES TO THE ORIGINS AND CONTEMPORARY LIFE-  
ANTH ANTHROPOLOGICAL SECTORS OF STRATIFIED SOCIETIES IN DIFFERENT WORLD  
WAYS OF PEASANT REGIONS AND AT DIFFERENT HISTORICAL PERIODS. ANALYSIS WILL MOVE FROM  
ETHNOGRAPHIC STUDIES OF PARTICULAR PEASANT COMMUNITIES TO THEIR  
RELATIONSHIP WITH EXTERNAL POLITICAL AND ECONOMIC FORCES, AND TO A  
CONSIDERATION OF THE SPECTRUM OF COMPETING IDEOLOGICAL APPROACHES TO  
TECHNOLOGICAL AND SOCIAL CHANGE. IN A GIVEN SEMESTER THE COURSE MAY  
FOCUS UPON THE PEASANTS OF A PARTICULAR WORLD REGION, SUCH AS LATIN  
AMERICA.  
3 LECT HRS  
MS. KAPLAN, MR. MURRAY 3 CREDITS
- 209 URBAN ANTHROPOLOGY  
ANTH ANTH A COMPARATIVE STUDY OF THE FORM AND QUALITY OF URBAN LIFE IN  
SELECTED WESTERN AND NON-WESTERN CULTURES.  
3 LECT HRS  
MR. HARWOOD, MR. SIEBER 3 CREDITS
- 210 BIOSOCIAL BASIS OF HUMAN BEHAVIOR  
ANTH ANTH THE BIOLOGICAL BASIS OF HUMAN BEHAVIOR - EVOLUTIONARY PRINCIPLES,  
STUDIES OF ANIMAL BEHAVIOR, PRIMATE STUDIES, GENETIC VARIABILITY IN  
HUMAN POPULATIONS TODAY. EVALUATION OF CURRENT THEORIES OF MAN'S  
BIOLOGICAL NATURE AND HERITAGE.  
3 LECT HRS  
PREREQUISITE: INTRO ANTHROPOLOGY OR PERMISSION OF INSTRUCTOR 3 CREDITS
- 211 HUMAN ORIGINS  
ANTH ANTH AN INTRODUCTION TO THE STUDY OF MAN'S BIOLOGICAL ORIGINS WITH  
EMPHASIS ON THE FOSSIL RECORD, PRIMATE ANALOGUES OF HUMAN BEHAVIOR,  
AND THE VARIETY AND DIVERSITY OF MODERN MAN INCLUDING THE ADAPTIVE  
SIGNIFICANCE OF THIS VARIATION.  
3 LECT HRS  
PREREQUISITE: INTRO ANTH OR ANTH 109 OR PERMISSION OF INSTRUCTOR 3 CREDITS
- 214 PRIMATE BEHAVIOR  
ANTH ANTH A BROADLY BASED SURVEY OF NONHUMAN PRIMATES AS FOUND IN THEIR  
NATURAL HABITATS WITH EMPHASIS ON THE SIGNIFICANCE OF THESE STUDIES  
AS COMPARATIVE EVIDENCE IN THE FORMULATION OF A GENERAL THEORY OF  
THE ORIGINS OF HUMAN BEHAVIOR.  
3 LECT HRS  
MR. GIBBONS 3 CREDITS
- 231 MESOAMERICAN PREHISTORY AND ETHNOHISTORY  
ANTH ANTH MESOAMERICAN PREHISTORY FROM FORMATIVE TO POST-CLASSIC TIMES. THE  
SPANISH CONQUEST AND SUBSEQUENT ACCULTURATION AMONG INDIANS,  
EUROPEANS AND AFRICANS. THE NATURAL, CULTURAL AND LINGUISTIC AREAS  
WILL BE INTRODUCED. DESIGNED TO COMPLEMENT ANTHROPOLOGY 210,  
PEOPLES AND CULTURES OF MESOAMERICA  
3 LECT HRS  
PREREQUISITE: INTRO ANTHROPOLOGY OR PERMISSION OF INSTRUCTOR 3 CREDITS
- 232 THE PREHISTORY OF EASTERN NORTH AMERICA  
ANTH ANTH THIS COURSE CONCENTRATES ON THE ARCHEOLOGY OF THE AREA, BUT INCLUDES  
A DISCUSSION OF THE HISTORIC INDIANS. IT WILL ALSO BE CONCERNED WITH  
ENVIRONMENTAL DIFFERENCES AND THEIR EFFECTS ON NATIVE CULTURES.  
3 LECT HRS  
PREREQUISITE: ANTHROPOLOGY 101 OR PERMISSION OF INSTRUCTOR 3 CREDITS
- 233 NEW WORLD PREHISTORY  
ANTH ANTH A BROADLY BASED SURVEY OF PREHISTORIC SOCIETIES IN NORTH AND SOUTH  
AMERICA FROM THE PEOPLES OF THE NEW WORLD TO THE PERIOD OF INITIAL  
EUROPEAN CONTACT, INCLUDING THE APPLICATION OF ARCHEOLOGICAL MATER-  
IALS TO THE RECONSTRUCTION OF CULTURE HISTORY AND THE INTERPRETATION  
OF CONTEMPORARY PROBLEMS IN AMERICAN INDIAN SOCIETIES.  
3 LECT HRS  
PREREQUISITE: INTRO ANTHROPOLOGY OR PERMISSION OF INSTRUCTOR 3 CREDITS
- 234 OLD WORLD PREHISTORY  
ANTH ANTH A CONSIDERATION OF THE PREHISTORY OF AFRICA, EUROPE, ASIA AND  
AUSTRALIA, FROM THE ORIGINS OF MAN'S CULTURAL ADAPTATION TO THE  
AGRICULTURAL REVOLUTION.  
3 LECT HRS  
PREREQUISITE: INTRO ANTHROPOLOGY OR PERMISSION OF INSTRUCTOR 4 CREDITS
- 235 AFRICAN PRE AND PROTOHISTORY  
ANTH ANTH THE ARCHEOLOGICAL RECORD OF AFRICA FROM THE EARLIEST HUMAN TECHNOLO-  
GIES, MORE THAN TWO MILLION YEARS AGO, TO THE COLONIAL PERIOD.  
GEOGRAPHIC FOCUS ON SUB-SAHARAN AFRICA AND ETHIOPIA. EQUAL ATTENTION  
GIVEN TO EARLY PREHISTORY, THE IRON AGE, AND THE PHOTOHISTORIC  
EMERGENCE OF AFRICAN STATES.  
3 LECT HRS  
PREREQUISITE: INTRO ANTHRO OR AFRICAN HISTORY OR PERMISSION OF THE  
INSTRUCTOR. ARCHEOLOGICAL METHODS AND THEORY RECOMMENDED FOR MAJORS.  
MR. NELSON 3 CREDITS
- 237 PREHISTORIC AGRICULTURE  
ANTH ANTH THIS COURSE EXAMINES THE ORIGINS AND CONSEQUENCES OF THE AGRICULTURAL  
REVOLUTION IN BOTH THE OLD WORLD AND THE NEW WORLD.  
3 LECT HRS  
PREREQUISITE: INTRO ANTHROPOLOGY OR PERMISSION OF INSTRUCTOR 3 CREDITS
- 241 ARCHEOLOGICAL METHOD AND THEORY WITH LABORATORY  
ANTH ANTH AN INTRODUCTION TO THE THEORY AND APPLICATION OF ARCHEOLOGICAL  
METHODS. EMPHASIS IS PLACED ON THE WAYS IN WHICH ARCHEOLOGISTS VIEW  
PREHISTORY AND THE TECHNIQUES BY WHICH DATA ARE GATHERED, INTERPRETED  
AND INTEGRATED TO COMPLETE A COHERENT PICTURE OF PREHISTORIC EVENTS.  
THE LAB FOCUSES ON PRACTICAL SKILLS AND METHODS ARCHEOLOGISTS  
COMMONLY EMPLOY IN THE FIELD AND LABORATORY.  
3 LECT HRS  
PREREQUISITE: INTRO ANTHROPOLOGY OR INTRO EARTH SCIENCE OR  
PERMISSION OF THE INSTRUCTOR 4 CREDITS
- 250 ELEMENTS OF SOCIAL ORGANIZATION  
ANTH ANTH BASIC CONCEPTS AND ETHNOGRAPHIC DATA ON THE SOCIAL ORGANIZATION OF  
NON-WESTERN SOCIETIES WILL BE INTRODUCED AND USED TO EXPLORE MAJOR  
CONTEMPORARY THEORIES OF SOCIAL STRUCTURE.  
3 LECT HRS  
PREREQUISITE: INTRO ANTHROPOLOGY OR PERMISSION OF INSTRUCTOR 3 CREDITS
- 251 COMPARATIVE ETHNOLOGY  
ANTH ANTH A SYSTEMATIC COMPARATIVE APPROACH TO DESCRIPTION AND ANALYSIS OF  
CULTURE TYPES AND CULTURE AREAS. INTENSIVE COMPARATIVE ANALYSIS OF  
REPRESENTATIVE CULTURES AND SOCIAL STRUCTURES WITH SPECIAL REFERENCE  
TO THEORIES OF ECOLOGICAL ADAPTATION AND SOCIOCULTURAL EVOLUTION.  
3 LECT HRS  
PREREQUISITE: INTRO ANTHROPOLOGY OR PERMISSION OF INSTRUCTOR 3 CREDITS
- 254 PSYCHOLOGICAL ANTHROPOLOGY  
ANTH ANTH A CONSIDERATION OF INTERRELATIONSHIPS BETWEEN PERSONALITY AND  
CULTURE. THE EFFECTS OF CULTURALLY PATTERNED EXPERIENCE ON PERSONAL-  
ITY FORMATION. THE ROLE OF PSYCHOLOGICAL PROCESSES AS DETERMINANTS  
OF CULTURE.  
3 LECT HRS  
PREREQUISITE: INTRO ANTHROPOLOGY OR PERMISSION OF INSTRUCTOR 3 CREDITS
- 255 THE ANTHROPOLOGY OF EDUCATION  
ANTH ANTH ANTHROPOLOGY'S CROSS-CULTURAL, HOLISTIC, AND EVOLUTIONARY  
PERSPECTIVES ARE BROUGHT TO BEAR ON THE STUDY OF EDUCATIONAL  
PRACTICES AND INSTITUTIONS IN A VARIETY OF SOCIOCULTURAL SETTINGS--  
TRADITIONAL, MODERNIZING, AND COMPLEX, INCLUDING THE URBAN USA.  
ALTHOUGH ACCOUNT IS TAKEN OF OTHER STAGES IN THE INDIVIDUAL LIFE  
CYCLE, THE PRIMARY CONCERN IS WITH CULTURAL TRANSMISSION AND  
ENCULTURATION DURING THE PERIODS OF LATER CHILDHOOD AND ADOLESCENCE,  
PARTICULARLY WITHIN THE SETTING OF FORMAL SCHOOLING. SPECIAL

|      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |           |

## ART

### Graduation Requirements

Majors in Art are required to take an introductory level course in both Art History and creative work and a minimum of eight advanced courses which collectively provide a distribution among historical styles and media acceptable to a departmental advisor. With permission of the department, honors students may substitute a senior thesis for one or two of the advanced courses.

ART 100 INTRODUCTION TO THE LANGUAGE OF ART  
 THE NATURE OF FORM, CONTENT, TECHNIQUE, AND STYLE IN PAINTING, SCULPTURE, ARCHITECTURE AND GRAPHIC ARTS. DESIGNED TO SHARPEN THE STUDENT'S RESPONSE TO ORIGINAL WORKS. MUSEUM MEETINGS ALTERNATE WITH LECTURE/DISCUSSIONS ON KEY PROBLEMS.  
 3 LECT HRS  
 STAFF 4 CREDITS

ART 110 HERITAGE OF ART  
 THE COURSE WILL TAKE A BROAD LOOK AT OUR ARTISTIC HERITAGE AND HOW THE UNDERSTANDING OF IT CHANGED DURING THE NINETEENTH CENTURY. IT WILL BEGIN WITH THE AMERICAN SENSE OF 'HERITAGE' AT THE TIME OF THOMAS JEFFERSON AND END WITH THE IDEAS OF THE GREAT PUBLIC COLLECTORS IN THE LATE NINETEENTH CENTURY. A LARGE NUMBER OF MAJOR MONUMENTS WILL BE COVERED.  
 4 LECT HRS  
 STAFF 4 CREDITS

ART 175 VISUAL FUNDAMENTALS  
 DEVELOPMENT OF VISUAL AWARENESS THROUGH PROJECTS, LECTURES, DISCUSSIONS WHICH USE THE CAMERA AND OTHER MEDIA AS A MEANS OF ESTABLISHING NEW AND CREATIVE RELATIONSHIPS WITH A VISUAL ENVIRONMENT.  
 4 LECT HRS  
 STAFF 4 CREDITS

ART 195 INTRODUCTION TO FILM ANALYSIS  
 A NON-HISTORICAL COURSE INTENDED TO PROVIDE AN UNDERSTANDING OF THE ELEMENTS OF FILM LANGUAGE, THE BASIC FILM GENRES AND CERTAIN MAJOR FILM STYLES. INTENSIFIED EXAMINATION OF A FEW SELECTED FILMS REPRESENTING NARRATIVE, DOCUMENTARY AND EXPERIMENTAL TECHNIQUES THROUGH THE STUDY OF SCRIPTS, THE USE OF REPLAY AND THE ANALYSIS OF FILM EXCERPTS.  
 3 LECT HRS, 3 LAB HRS  
 MR. RISSE 4 CREDITS

ART 201 ANCIENT AND MEDIEVAL ART  
 THE FIRST HALF OF THE COURSE WILL OFFER A HISTORICAL SURVEY OF THE ART AND ARCHITECTURE OF THE ANCIENT WORLD GIVING PARTICULAR EMPHASIS TO EGYPTIAN, GREEK, AND ROMAN CULTURES. FROM MID-SEVENTH TO THE END OF THE COURSE, THE STUDENTS WILL BE INTRODUCED TO THE ARTS IN MEDIEVAL EUROPE WITH A SPECIAL FOCUS UPON THE ROMANESQUE AND GOTHIC STYLES. SUBJECT TO FINAL APPROVAL  
 3 LECT HRS  
 STAFF 3 CREDITS

ART 225 RENAISSANCE AND BAROQUE ART  
 A SURVEY OF EUROPEAN ART FROM 1400 TO 1750.  
 3 LECT HRS  
 MS. ARR 3 CREDITS

- ART 234 19TH AND 20TH CENTURY ART  
A BROAD SURVEY OF THE PERIOD WITH MAJOR EMPHASIS ON PAINTING. FOCUS IN THE NINETEENTH CENTURY ON THE RELATIONSHIP BETWEEN THE VISUAL ARTS AND THE SIGNIFICANT CHANGES IN SOCIAL AND POLITICAL ATTITUDES IN THE TWENTIETH CENTURY ON SUCH MOVEMENTS AS CUBISM, GERMAN EXPRESSIONISM, AND SURREALISM, AND ON SUCH ARTISTS AS MATISSE, PICASSO, DUCHAMP AND MIRO. WITH A BRIEF LOOK AT DEVELOPMENTS IN ART SINCE WORLD WAR II.  
3 LECT HRS  
MR. CERVERA  
3 CREDITS
- ART 250 CONTEMPORARY ART  
STUDY OF THE VISUAL ARTS FROM WORLD WAR II TO THE PRESENT. DEALING WITH SUCH MOVEMENTS AS ABSTRACT EXPRESSIONISM, POP ART, MINIMAL ART AND NEW REALISM.  
3 LECT HRS  
MR. CERVERA  
3 CREDITS
- ART 252 MODERN ARCHITECTURE  
PROBLEMS IN THE THEORY OF ARCHITECTURAL DESIGN DURING THE ERA OF ROMANTIC CLASSICISM AND THE EVOLUTION OF NEW POTENTIALS IN THE 19TH CENTURY. THE ROLE OF TECHNOLOGY, NEW STRUCTURAL SOLUTIONS, METHODS OF CONSTRUCTION AND THE DEVELOPMENT OF NEW CONCEPTIONS OF SPACE FOR CONTEMPORARY BUILDINGS.  
3 LECT HRS  
MS. FERGUSON  
3 CREDITS
- ART 254 AMERICAN ARCHITECTURE  
A SURVEY OF AMERICAN ARCHITECTURE AND TOWN PLANNING FROM THE 17TH CENTURY TO THE PRESENT. TOPICS STUDIED WILL INCLUDE EARLY COLONIAL ARCHITECTURE, THE SEARCH FOR A NEW STYLE FOR THE NEW REPUBLIC, 19TH CENTURY EXPANSION AND ECLECTICISM, THE RIVAL OF DOMESTIC ARCHITECTURE THE SKYSCRAPER, STYLE AND THE DEVELOPMENT OF MODERN ARCHITECTURE IN THE 20TH CENTURY.  
3 LECT HRS  
MS. FERGUSON  
3 CREDITS
- ART 258 FAR EASTERN PAINTING  
THE RELATIONSHIP OF CHINESE AND JAPANESE PAINTING, STRESSING THE SPECIAL CHARACTERISTICS OF EACH. SCROLL PAINTINGS, SCREEN AND JAPANESE PRINTS ARE DISCUSSED.  
3 LECT HRS  
STAFF  
3 CREDITS
- ART 262 THE ARTS OF CHINA  
A SURVEY THAT WILL INVESTIGATE THE ART FORMS THAT HAVE BEEN MOST IMPORTANT IN CHINA OVER A 4,000 YEAR PERIOD. THEY WILL BE CONSIDERED IN THE CONTEXT OF THE LITERATURE AND SOCIAL ORGANIZATION OF THE INDIVIDUAL PERIODS.  
3 LECT HRS  
STAFF  
3 CREDITS
- ART 264 THE ART OF AFRICA  
AN INTRODUCTION TO THE AFRICAN ARTS (ESPECIALLY CARVED FIGURES, MASKS, ROCK AND WALL PAINTINGS, TEXTILES AND RURAL OBJECTS) IN RELATION TO THE ETHNIC BACKGROUND AS WELL AS AESTHETIC EXPRESSION. ART HISTORICAL PROBLEMS WITHIN THE CONTINENT AND THE IMPACT OF AFRICAN FORMS ON OTHER CULTURES OF THE 19TH AND 20TH CENTURIES.  
3 LECT HRS  
STAFF  
3 CREDITS
- ART 266 NORTH AMERICAN INDIAN ART  
AN EXAMINATION OF ART FORMS AND STYLES OF AMERICAN INDIANS NORTH OF MEXICO, CONCENTRATING ON RELATIONSHIPS OF ART TO ITS SOCIETY WITH EMPHASIS ON THE STRUCTURAL ANALYSIS OF FORM AND PATTERN, THE IMPACT OF EUROPEAN CULTURE, THE ROLE OF THE ARTIST AND THE RELATIONSHIP OF TECHNOLOGY AND ENVIRONMENT TO THE ART FORM.  
3 LECT HRS  
STAFF  
3 CREDITS
- ART 267 ORIGINS AND DEVELOPMENT OF WESTERN ARCHITECTURE  
THE EVOLUTION OF ARCHITECTURE FROM ITS BEGINNINGS IN MESOPOTAMIA, EGYPT AND GREECE THROUGH ITS DEVELOPMENT IN THE RENAISSANCE AND
- ART 268 BAROQUE PERIODS, WITH SPECIAL ATTENTION TO THE RELATION OF MAN AND ENVIRONMENT, THE ARTICULATION OF SPACE AND THE THEORY OF ARCHITECTURAL DESIGN.  
3 LECT HRS  
MS. FERGUSON  
3 CREDITS
- ART 26A HISTORY OF WESTERN SCULPTURE  
A SURVEY OF WESTERN SCULPTURE FROM GREECE TO CONTEMPORARY AMERICA. DISCUSSION WILL BRING OUT THE VARIOUS DEFINITIONS OF SCULPTURE HELD BY PEOPLE OF DIFFERENT AGES AND CULTURES, CRITICAL APPROACHES TO SCULPTURE IN THE 20TH CENTURY, AND THE USE AND EFFECT OF DIFFERENT MEDIA. THE COURSE WILL CONCENTRATE ON MAJOR MONUMENTS AND ARTISTS. FIELD TRIPS REQUIRED.  
3 LECT HRS  
MS. BUTLER  
3 CREDITS
- ART 270 HISTORY OF FILM  
HISTORY OF THE MEDIUM FROM 1895 TO THE PRESENT THROUGH THOSE FILMS RECOGNIZED AS MASTERPIECES OF THE ART OR THOSE WHICH HAVE PRESENTED NEW TECHNICAL-CONCEPTUAL INVENTIONS IN THE CINEMATIC VOCABULARY. CLASS TIME INCLUDES FILM SCREENING, LECTURE AND DISCUSSION.  
3 LECT HRS, 1 HR FILM SCREENING  
MR. RISSE  
3 CREDITS
- ART 272 HISTORY OF PHOTOGRAPHY  
A SURVEY OF THE HISTORY OF PHOTOGRAPHY FROM THE INVENTION OF THE MEDIUM IN THE 19TH CENTURY TO THE PRESENT. EMPHASIS ON PHOTOGRAPHY AS A MEDIUM OF EXPRESSION AND COMMUNICATION, AND ON THE DISTINCTIVE QUALITIES OF SELECTED PHOTOGRAPHERS.  
3 LECT HRS  
STAFF  
3 CREDITS
- ART 275 VISUAL EXPERIMENTS  
DEVELOPMENT OF VISUAL AWARENESS AND UNDERSTANDING VISUAL MODES OF EXPRESSION THROUGH ASSIGNED PROBLEMS REQUIRING INDIVIDUAL SOLUTIONS.  
PREREQUISITE: ART 100 OR ART 175  
4 LECT HRS  
STAFF  
3 CREDITS
- ART 281 DRAWING I  
BASIC MATERIALS AND TECHNIQUES, WITH EMPHASIS ON DRAWING AS A PRIMARY MEANS FOR THE DESCRIPTION AND INTERPRETATION OF MAN AND HIS ENVIRONMENT. PROBLEMS IN STILL LIFE, LANDSCAPE, AND LIFE DRAWING.  
PREREQUISITE: ART 100 OR ART 175  
4 LECT HRS  
STAFF  
3 CREDITS
- ART 293 PHOTOGRAPHY I  
THIS COURSE INTRODUCES THE STUDENT TO BASIC ISSUES IN PHOTOGRAPHY. MECHANICS OF THE CAMERA, TECHNIQUES OF THE DARKROOM, AND CREATIVE AND PERSONAL IMPROV. ILLUSTRATED LECTURES, CLASS CRITIQUES, AND ASSIGNED LAB HOURS. SOME ATTENTION IS GIVEN TO THE HISTORY OF PHOTOGRAPHY AND ITS MORE SIGNIFICANT CREATIVE IMPULSES.  
PREREQUISITE: ART 100 OR ART 175  
2 LECT HRS, 2 LAB HRS  
STAFF  
3 CREDITS
- ART 295 FILM/VIDEO I  
A COURSE WHOSE BASIC AIM IS THAT OF THE TRADITIONAL BEGINNING FILM-MAKING COURSE, BUT WHICH, FOR REASONS OF FLEXIBILITY, ECONOMY, AND EASE OF USE, EMPLOYS BOTH SUPER-8 AND 1/2 IN. VIDEO TAPE EQUIPMENT. THE COURSE IS ORGANIZED AROUND WEEKLY ASSIGNMENTS OF INCREASING COMPLEXITY DESIGNED TO ALLOW STUDENTS TO EXPLORE THE COMMUNICATIVE AND EXPRESSIVE POSSIBILITIES OF THE MOVING IMAGE.  
PREREQUISITE: ART 100 OR ART 175  
6 COMBINED LECT AND LAB HRS  
STAFF  
3 CREDITS
- ART 303 CLASSICAL PAINTING  
THE STYLE AND TECHNIQUE OF GREEK VASE PAINTING, ROMAN WALL PAINTING AND EASEL PAINTING WITH EMPHASIS ON LITERARY TRADITION.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
STAFF

- ART 310 STUDIES IN THE HISTORY OF PAINTING  
A TOPIC COURSE DESIGNED TO PROVIDE IN-DEPTH STUDY IN DIFFERENT ASPECTS OF THE HISTORY OF PAINTING. COURSES UNDER THIS HEADING WILL DEAL WITH IDEAS, ISSUES, MOVEMENTS AND MAJOR FIGURES IN PAINTING. TOPICS WILL VARY BY SEMESTER AND INSTRUCTOR. CONSULT CURRENT COURSE ANNOUNCEMENT FOR SPECIFICS.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
STAFF  
3 CREDITS
- ART 316 PAINTING, 1780-1850  
A STUDY OF THE MAJOR MOVEMENTS AND ARTISTS INVOLVED IN THE EVOLUTION OF 19TH CENTURY PAINTING IN THE FIRST HALF OF THE 19TH CENTURY. AN INVESTIGATION OF THE MAJOR MOVEMENTS IN EUROPEAN PAINTING BETWEEN 1780 AND 1850. NEOCLASSICISM AND ROMANTICISM. THE COURSE WILL TRACE THE DEVELOPMENT OF THESE MOVEMENTS AND THAT OF THE LEADING FIGURES RESPONSIBLE FOR THESE DEVELOPMENTS (E.G.: PLAKE, FUSELI, GOYA, DAVID, RUNGE, FRIEDRICH, CONSTABLE, TURNER, GERICAULT, DELACROIX AND INGRES.)  
SUBJECT TO FINAL APPROVAL  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MR. CERVERA  
3 CREDITS
- ART 320 STUDIES IN THE HISTORY OF SCULPTURE  
THIS COURSE WILL DEAL WITH SPECIFIC PROBLEMS IN THE HISTORY OF SCULPTURE. IT IS DESIGNED TO FOCUS UPON SINGLE ARTISTS, TYPES OF COMMISSIONS, ASPECTS OF ICONOGRAPHY, NATIONAL OR PERIOD STYLES AS THEY COME UP IN THE HISTORY OF SCULPTURE. TOPICS WILL VARY BY SEMESTER AND INSTRUCTOR. CONSULT CURRENT COURSE ANNOUNCEMENT FOR SPECIFICS.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
STAFF  
3 CREDITS
- ART 321 MANNERISM IN THE VISUAL ARTS, 1520 TO 1600  
AN EXPLORATION OF THE NEW STYLE DEVELOPED IN ITALY IN REACTION TO RAPHAEL'S CLASSICISM WHICH SPREAD TO NORTHERN EUROPE BETWEEN THE HIGH RENAISSANCE AND THE BAROQUE. FROM THEORY AND CONTENT IN REFLECTION TO THE SOCIAL CRISSES ON THE REFORMATION AND THE COUNTER-REFORMATION. THE "PSYCHOLOGY" OF MANNERISM AND ITS RELATIONSHIP TO THE MODERN AGE.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MS. ARB  
3 CREDITS
- ART 330 STUDIES IN THE HISTORY OF ARCHITECTURE  
A TOPIC COURSE DESIGNED TO PROVIDE IN-DEPTH STUDY OF THE HISTORICAL AND CONTEMPORARY IDEAS, ISSUES AND MAJOR FIGURES IN ARCHITECTURE AND URBAN PLANNING. TOPICS WILL VARY BY SEMESTER AND INSTRUCTOR. CONSULT CURRENT COURSE ANNOUNCEMENT FOR SPECIFICS.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
STAFF  
3 CREDITS
- ART 335 THE AMERICAN VISION IN ART, 1860 TO 1900  
AMERICAN ART, ESPECIALLY PAINTING, IN THE SECOND HALF OF THE 19TH CENTURY. THE IMPACT OF SOCIAL AND INTELLECTUAL FORCES. PHOTOGRAPHY AND THE ILLUSTRATED NEWS WEEKS ON THE TRADITIONAL THEMES OF LANDSCAPE, PORTRAITURE AND GENRE.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MS. ARB  
3 CREDITS
- ART 339 TWENTIETH CENTURY ARCHITECTURE  
THEORY AND FORM IN TWENTIETH CENTURY ARCHITECTURE. THE COURSE WILL PRESENT A DETAILED EXAMINATION OF ARCHITECTURE IN BOTH EUROPE AND AMERICA SINCE 1900. SUBJECTS WILL INCLUDE ART NOUVEAU, DE STIJL, THE BAUHAUS, THE NEW INTERNATIONALISM VS. ART DECO STYLES, FASCIST AND CAPITALIST ARCHITECTURE OF THE THIRTIES AND FORTIES, MINIMALIST STYLES VS. REVIVALISM, THE SCULPTURAL AND MONUMENTAL VS. MINIMALIST ATTITUDES IN CONTEMPORARY ARCHITECTURE. SOME THOUGHT WILL BE GIVEN TO THE CONTRAST BETWEEN "POPULAR" AND "ELITIST" STYLES. CONSIDERABLE ATTENTION WILL BE GIVEN TO CONTEMPORARY THEORIES ON THE FUNCTION AND FORMS OF ARCHITECTURE.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MS. FERGUSON  
3 CREDITS
- ART 340 STUDIES IN THE HISTORY OF CRITICISM AND AESTHETICS  
A TOPIC COURSE IN THE ANALYSIS OF AESTHETICS AND ART CRITICISM DESIGNED TO PROVIDE A BETTER UNDERSTANDING OF ISSUES AND MAJOR DEVELOPMENTS IN THE HISTORY OF IDEAS. TOPICS WILL VARY BY SEMESTER AND INSTRUCTOR. CONSULT CURRENT COURSE ANNOUNCEMENT FOR SPECIFICS.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
STAFF  
3 CREDITS
- ART 347 SOURCES OF 20TH CENTURY PAINTING  
A STUDY OF CEZANNE, VAN GOGH AND GAUGUIN, THE SYMBOLISTS AND ART NOUVEAU, AND THE LATE 19TH CENTURY BREAK WITH THE ARTISTIC PREMISES OF THE RENAISSANCE.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MR. CERVERA  
3 CREDITS
- ART 349 MODERN SCULPTURE  
EMPHASIS ON THE 19TH CENTURY ORIGINS OF MODERN SCULPTURE AND THE RANGE OF SCULPTURAL EXPRESSION ACHIEVED DURING THE 20TH CENTURY.  
FIELD TRIPS REQUIRED.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MS. BUTLER  
3 CREDITS
- ART 368 THE MOVIES, 1930 TO 1950  
A STUDY OF THE HOLLYWOOD FILM FROM THE COMING OF SOUND TO THE COMING OF TELEVISION CONCENTRATING ON CERTAIN OF THE MAJOR GENRES - GANGSTER AND CRIME FILMS, THE MUSICAL, AND THE WESTERN - AND APPROACHING THEM IN TERMS OF THEME AND STRUCTURE, PRINCIPALLY AS A FORM OF POPULAR CULTURE. WEEKLY FILM VIEWINGS IN ADDITION TO THE REGULAR THREE CLASS HOURS PER WEEK.  
3 LECT HRS, 3 VIEWING HRS  
MR. RISSE  
3 CREDITS
- ART 370 NATURALISM AND REALISM IN ART  
CONSIDERING THE CONTROVERSY BEHIND THEIR DEFINITION, THE COURSE EXAMINES THESE IDEAS IN THE ART OF ANTIQUITY AND BY CONTRASTING RENAISSANCE AND BAROQUE CONCEPTS OF NATURALISM. SPECIAL STRESS WILL BE GIVEN TO NATURALISM AND REALISM IN THE 19TH CENTURY AND ON HOW THE ROLE OF PHOTOGRAPHY HAS CHANGED 20TH CENTURY IDEAS OF REALISM.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MS. BUTLER  
3 CREDITS
- ART 373 IMAGES OF WOMEN IN ART  
A LECTURE COURSE DEALING WITH THE VARIOUS WAYS IN WHICH WOMEN HAVE BEEN PORTRAYED IN PAINTING, SCULPTURE, AND PRINTS. TOPICS WILL DEAL WITH THE DEPICTION OF BOTH THE POSITIVE AND NEGATIVE ASPECTS OF WOMAN'S CONVENTIONAL ROLES. WOMAN AS ALLEGORY AND PORTRAITS OF WOMEN WILL BE EXAMINED AS WELL AS THE HISTORICAL SITUATION OF THE WOMAN ARTIST.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MS. APP  
3 CREDITS
- ART 381 DRAWING II  
CONTINUATION OF WORK BEGUN IN DRAWING I. INVOLVING PROBLEMS IN A NUMBER OF DRAWING MEDIA (INK, CHARCOAL, PENCIL, CHALK, ETC.) APPROACHED THROUGH WORK WITH STILL-LIFE, LANDSCAPES AND THE HUMAN FIGURE.  
PREREQUISITE: 3 COURSES IN ART AND WRITTEN PERMISSION  
3 LECT HRS  
STAFF  
3 CREDITS
- ART 382 DRAWING III  
CONTINUATION OF MAJOR CONCERNS IN DRAWING II WITH A NEW EMPHASIS ON THE INTEGRATION OF THESE ISSUES INTO A PICTORIAL STATEMENT.  
PREREQUISITE: DRAWING II AND WRITTEN PERMISSION  
3 LECT HRS  
STAFF  
3 CREDITS

- ART 383 PAINTING WORKSHOP  
384 SPECIFIC PROBLEMS ARE DEVELOPED IN OR THROUGH VARIOUS PAINTING MEDIA INCLUDING OIL, OPAQUE, WATERCOLOR, ACRYLICS. CONTENT WILL DIFFER FROM SEMESTER TO SEMESTER.  
PREREQUISITE: 3 STUDIO COURSES IN ART AND WRITTEN PERMISSION  
4 LECT HRS  
3 CREDITS  
STAFF
- ART 385 THREE-DIMENSIONAL WORKSHOP I II  
386 THIS COURSE TAKES UP ISSUES BASIC TO THREE-DIMENSIONAL FORM, SUCH AS PARTICULAR MATERIALS AND TECHNIQUES, OR IT MAY TAKE UP TOPICS TO BE SOLVED BY THREE-DIMENSIONAL MEANS. CONTENT DEVISED FOR A PARTICULAR SEMESTER WILL NOT BE REPEATED.  
PREREQUISITE: 3 STUDIO COURSES IN ART AND WRITTEN PERMISSION  
3 LECT HRS  
3 CREDITS  
STAFF
- ART 387 GRAPHICS WORKSHOP  
388 THIS COURSE WILL CONSIST OF A SERIES OF PROBLEMS IN PATTERN, SYSTEMS, COMPOSITION AND PERSONAL SYMBOLOLOGY MANIFESTED THROUGH SIMPLE PRINTING TECHNIQUES (LINOCUTS, STENCILS, ETC.) PLUS SOME USE OF COLOR PAPERS AND INKS. IT SHOULD BE OF PARTICULAR INTEREST TO THOSE STUDENTS WHO ANTICIPATE ART TEACHING CAREERS.  
PREREQUISITE: 3 STUDIO COURSES IN ART AND WRITTEN PERMISSION  
3 LECT HRS  
3 CREDITS  
STAFF
- ART 393 PHOTOGRAPHY II  
394 A CONTINUATION OF STUDIES BEGUN IN PHOTOGRAPHY I -ART 293-, WITH AN EXPLICIT ESCALATION NOT ONLY IN CONTENT, BUT IN EXPECTATION OF ACHIEVEMENT AS WELL. LECTURES, GROUP CRITIQUE, AND LABORATORY ASSIGNMENTS.  
PREREQUISITE: 3 COURSES IN ART AND WRITTEN PERMISSION  
2 LECT HRS, 2 LAB HRS  
3 CREDITS  
STAFF
- ART 394 PHOTOGRAPHY III  
395 STRESSING PERSONAL AND INDEPENDENT POINTS OF VIEW THROUGH LECTURES, GROUPS CRITIQUE, DISCUSSION MEETINGS, AND DARKROOM WORK.  
PREREQUISITE: PHOTOGRAPHY II AND PERMISSION OF STUDIO FACULTY  
S TO 6 STUDIO HRS INCLUDING LECT & LAB  
STAFF
- ART 395 FILM/VIDEO II  
396 A SECOND SEMESTER OF PRACTICE IN THE ORGANIZATION AND EXECUTION OF MOVING IMAGERY AND SOUND.  
PREREQUISITE: 3 COURSES IN ART AND WRITTEN PERMISSION  
3 LECT HRS, 2 LAB HRS  
3 CREDITS  
STAFF
- ART 411 THE CLASSICAL TRADITION IN WESTERN ART  
412 THE GRECO-ROMAN TRADITION IN ART AND PHILOLOGY IN PERIODIC RE-APPEARANCES OR REVIVALS OF CLASSICAL STYLE AND THEORY FROM THE MIDDLE AGES THROUGH THE PERIOD OF THE FIRST EMPIRE IN FRANCE.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
3 LECT HRS  
3 CREDITS  
STAFF
- ART 421 SCULPTURE, FORM AND MEANING  
422 AN INTENSIVE STUDY OF THE SPECIAL QUALITIES OF THE ART OF SCULPTURE: TYPES, TECHNIQUES, FUNCTION, ICONOGRAPHY AND STYLE EXPLORED IN LECTURES, DISCUSSIONS, AND FIELD TRIPS. PREFERENCE GIVEN TO SENIOR ART MAJORS.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
3 LECT HRS  
3 CREDITS  
MS. ARB
- ART 431 PORTRAITURE  
432 AN INVESTIGATION OF THE NATURE & SCOPE OF PORTRAITURE IN THE HISTORY OF ART. CONCENTRATING ON THE IDEAS THAT MOTIVATE THE MAKING OF HUMAN LIKENESS RATHER THAN ON THE VARIOUS CATEGORIES INDIVIDUAL, GROUP SELF, DONOR, STATE, ALLEGORICAL, ETC.  
PREREQUISITE: JUNIOR STANDING AND PERMISSION OF INSTRUCTOR  
3 LECT HRS  
3 CREDITS  
MS. ARB
- ART 451 HISTORY OF GRAPHIC ART  
452 A CLOSE EXAMINATION OF ORIGINAL PRINTS DESIGNED TO DEVELOP KNOWLEDGE OF THE TECHNICAL PROCESSES: WOODCUT, ENGRAVING, ETCHING, LITHOGRAPHY- AND THEIR EVOLUTION, AND TO INTRODUCE THE STUDENT TO CRITERIA OF CONNOISSEURSHIP. CONCENTRATION ON THE LEADING MASTERS SUCH AS MANTEGNA, DURER, REMBRANDT, BLAKE AND GOYA. MOST MEETINGS IN THE MUSEUM OF FINE ARTS, THE BOSTON PUBLIC LIBRARY AND THE FOGG MUSEUM. PREFERENCE GIVEN TO SENIOR ART MAJORS.  
PREREQUISITE: PREVIOUS WORK IN THE HISTORY OF ART AND PERMISSION OF INSTRUCTOR  
3 LECT HRS  
3 CREDITS  
STAFF
- ART 478 INDEPENDENT STUDY I  
479 AN INDEPENDENT INVESTIGATION OF A SPECIAL AREA UNDER THE SUPERVISION OF A QUALIFIED PROFESSOR. OPEN ONLY TO A VERY LIMITED NUMBER OF STUDENTS IN ANY ONE SEMESTER. A WRITTEN PROSPECTUS OF THE PROJECT IS REQUIRED OF APPLICANTS.  
PREREQUISITE: PERMISSION OF INSTRUCTOR AND DEPT CHAIRMAN  
HRS BY ARRANGEMENT  
3 CREDITS  
STAFF
- ART 479 INDEPENDENT STUDY II  
480 AN INDEPENDENT INVESTIGATION OF A SPECIAL AREA UNDER THE SUPERVISION OF A QUALIFIED PROFESSOR. OPEN ONLY TO A VERY LIMITED NUMBER OF STUDENTS IN ANY ONE SEMESTER. A WRITTEN PROSPECTUS OF THE PROJECT IS REQUIRED OF APPLICANTS.  
PREREQUISITE: PERMISSION OF INSTRUCTOR AND DEPT CHAIRMAN  
HRS BY ARRANGEMENT  
3 CREDITS  
STAFF
- ART 480 SEMINAR IN VISUAL STUDIES I  
481 DESIGNED PRIMARILY FOR THE ART MAJOR TO PROVIDE ADVANCED WORK IN AREAS AND TOPICS NOT NORMALLY OFFERED IN EXISTING COURSES. COURSE CONTENT WILL VARY WITH INSTRUCTOR. MAY BE REPEATED FOR CREDIT.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
3 LECT HRS, 4 LAB HRS  
3 CREDITS  
STAFF
- ART 481 SEMINAR IN VISUAL STUDIES II  
482 DESIGNED PRIMARILY FOR THE ART MAJOR TO PROVIDE ADVANCED WORK IN AREAS AND TOPICS NOT NORMALLY OFFERED IN EXISTING COURSES. COURSE CONTENT WILL VARY WITH INSTRUCTOR. MAY BE REPEATED FOR CREDIT.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
3 LECT HRS, 4 LAB HRS  
3 CREDITS  
STAFF
- ART 484 JUNIOR SEMINAR IN ART HISTORY  
485 A COURSE DESIGNED FOR THOSE STUDENTS BEYOND THE FRESHMAN YEAR WHO ARE CONSIDERING THE POSSIBILITY OF DOING GRADUATE OR PROFESSIONAL WORK IN THE HISTORY OF ART. WORK IS STRUCTURED SO THAT STUDENTS CONCENTRATE ON A NUMBER OF SMALL PROJECTS INDIVIDUALLY AND IN GROUPS IN ORDER TO EXAMINE THE DIFFERENT METHODS USED BY ART HISTORIANS. THE BIBLIOGRAPHY OF ART HISTORY, AND THE WAYS OF ORGANIZING RESEARCH AND PRESENTING MATERIAL VERBALLY WITH SLIDES. CAREER POSSIBILITIES AND THE NATURE OF GRADUATE WORK IN ART HISTORY ARE DISCUSSED.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
3 LECT HRS  
3 CREDITS  
MS RUTLER

# Exemption from Introductory Biology

496 SENIOR SEMINAR IN STUDIO  
THIS COURSE CONCENTRATES ON ISSUES ARISING OUT OF THREE SOURCES - SELECTED EXHIBITIONS, ASSIGNED READING ON PARTICULAR ARTISTS AND SCHOOLS, AND AREAS OF IMMEDIATE INTEREST TO INDIVIDUAL FACULTY ENGAGED IN CONDUCTING CLASS SESSIONS. ILLUSTRATED LECTURES, FIELD TRIPS, GROUP DISCUSSIONS, AND ORAL REPORT SESSIONS. A NUMBER OF FACULTY MEMBERS WILL PARTICIPATE IN THE WEEKLY SEMINARS.  
PREREQUISITE: 6 COURSES IN ART AND SENIOR STANDING  
1 CREDIT  
1 LECT HRS

498 SPECIAL PROBLEMS - FIELD WORK I II  
AN INDEPENDENT PROJECT WITH AN OFF-CAMPUS FOCUS UNDER THE SUPERVISION OF A QUALIFIED PROFESSOR OR APPROVED AGENCY. OPEN TO A LIMITED NUMBER OF STUDENTS IN ANY SEMESTER. A WRITTEN PROSPECTUS OF THE PROJECT IS REQUIRED OF ALL APPLICANTS.  
PREREQUISITE: PERMISSION OF INSTRUCTOR AND DEPT CHAIRMAN  
HRS BY ARRANGEMENT  
1-3 CREDITS  
STAFF

496 CURRICULUM AND METHODS STUDENTS TEACHING - ART  
THE ISSUES, PRINCIPLES AND METHODS OF TEACHING ART IN THE SCHOOLS. SUPERVISION AND CRITIQUE OF PRACTICE TEACHING.  
PREREQUISITE: 6 HOURS EDUCATION COURSES AND ADMISSION TO THE TEACHER CERTIFICATION PROGRAM  
3 LECT HRS. 20 LAB HRS (PRACTICE TEACHING)  
9 CREDITS  
STAFF

## BIOLOGY

### Graduation Requirements

All Biology majors must take as general requirements: Biology 111-112, one year of Mathematics (with at least one semester of Calculus strongly recommended), Chemistry 103-104, and one year of Physics with laboratory (Physics 107-108, or 113-114 and 171-172 strongly recommended).

In addition to the preceding general requirements, Biology I majors take Bio 211, 241 and 254; plus 20 credit hours in other Biology courses of which 12 are to be 300 or above. With prior approval of the Department Chairman up to five of the twenty credit hours may be substituted by related courses outside of the Biology Department.

Biology II majors take Biology 211 and 252 and they must complete 23 additional credits in Biology or closely related subjects, at least 15 of which must be earned in Biology courses numbered 300 or higher, with laboratory.

The foregoing Biology I and II major requirements supersede requirements in effect until 1976-77. Students enrolled as Biology majors in 1975-76 or earlier may fulfill the old requirements or the new requirements as they are stated above. If course changes preclude both options, students should consult their respective Department Chairperson.

It is recommended that students take Biology 111-112 and a year of Mathematics in the freshman year. Biology 211 and 252 and Chemistry 103-104 should be taken in the sophomore year. Physics should be completed by the end of the junior year if possible. Organic Chemistry is strongly recommended.

Students may satisfy the Biology Department majors requirements for General Biology (Biology 111-112) and/or one year of the natural sciences core requirement through a special qualification program in biology. Interested students who have a strong background in secondary school biology should 1) contact the Biology Department for an interview and 2) take a written examination in biology to be offered prior to registration for the fall term. On the basis of the interview and the examination the student may be granted exemption from biology 101 and 102, biology 101-104 or Biology 111-112.

## Honors in Biology

To graduate with honors in Biology it is necessary to complete satisfactorily a program of at least 3 credits of independent study in Biology. This requirement can be fulfilled through the Independent Study Course, or the Nantucket Summer Program of Independent Projects. The Biology faculty will confer Departmental Honors upon students who:

1. have a 3.0 cumulative average
2. have obtained satisfactory grades in their advanced biology courses. (generally interpreted as no pass-fail enrollment and a 3.0 average in all biology courses) numbered 200 or above.
3. have written a thesis and given an oral presentation of their independent study project which the Biology faculty feel merits the awarding of honors. This presentation will usually be during the last week of classes, and the thesis is due one week prior to this.

## Graduate Program

A complete description of the graduate program in biology appears in a section on graduate programs at the end of this catalogue.

All 600 level courses are open to both undergraduate and graduate students.

|      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |           |

- BIOL 104 HUMAN BIOLOGY  
A ONE SEMESTER COURSE DESIGNED PRINCIPALLY FOR THOSE WHO DO NOT INTEND TO MAJOR IN BIOLOGY. PRINCIPLES OF BIOLOGY ARE TAUGHT USING THE HUMAN ORGANISM AS A REPRESENTATIVE OF BIOLOGICAL SYSTEMS AT SEVERAL LEVELS. SUBJECTS COVERED INCLUDE HUMAN EVOLUTION, GENETICS, REPRODUCTION AND DEVELOPMENT, AND THE IMPACT OF MAN ON OUR ENVIRONMENT.  
3 LECT HRS, 3 LAB HRS  
MR. SCHULTZ  
4 CREDITS
- BIOL 105 PLANTS AND HUMAN AFFAIRS  
THE ORIGIN, BOTANICAL RELATIONSHIPS, DOMESTICATION AND HISTORY OF ECONOMIC PLANTS WITH EMPHASIS ON MAN'S DEPENDENCE ON CULTIVATED PLANTS AND HIS INFLUENCE ON THE VEGETATION OF THE WORLD.  
3 LECT HRS, 3 LAB HRS  
MR. WILKES  
4 CREDITS
- BIOL 106 HUMAN BIOLOGY WITH WORKSHOP IN BIOETHICS  
STUDENTS ATTEND THE LECTURE SECTION OF BIO. 104, BUT THE LAB IS REPLACED BY A WORKSHOP IN BIOETHICS. A REVIEW OF SOCIAL AND ETHICAL PROBLEMS ARISING FROM PRESENT DEVELOPMENTS IN BIOLOGICAL RESEARCH, SUCH AS GENETIC ENGINEERING, THE POPULATION EXPLOSION, THE GREEN REVOLUTION, ETC. EMPHASIS WILL BE PLACED ON READING, WRITING, AND LIBRARY RESEARCH. THE WORKSHOP WILL NOT SATISFY LAB COURSE REQUIREMENTS FOR POTENTIAL BIOLOGY MAJORS.  
3 LECT HRS, 3 WORKSHOP HRS  
MR. ROSEN  
4 CREDITS
- BIOL 111 GENERAL BIOLOGY I  
AN INTEGRATED COURSE STRESSING THE PRINCIPLES OF BIOLOGY. LIFE PROCESSES ARE EXAMINED AT THE MOLECULAR, CELLULAR, ORGANISMAL AND POPULATION LEVELS. INTENDED FOR STUDENTS MAJORING IN BIOLOGY OR FOR NON-MAJORS WHO WISH TO TAKE ADVANCED BIOLOGY COURSES.  
3 LECT HRS, 3 LAB HRS  
STAFF  
4 CREDITS
- BIOL 112 GENERAL BIOLOGY II  
AN INTEGRATED COURSE STRESSING THE PRINCIPLES OF BIOLOGY. LIFE PROCESSES ARE EXAMINED AT THE MOLECULAR, CELLULAR, ORGANISMAL AND POPULATION LEVELS. INTENDED FOR STUDENTS MAJORING IN BIOLOGY OR FOR NON-MAJORS WHO WISH TO TAKE ADVANCED BIOLOGY COURSES.  
3 LECT HRS, 3 LAB HRS  
STAFF  
4 CREDITS
- BIOL 200 FIELD BIOLOGY ON NANTUCKET  
SUMMER ONLY, REQUIRES WRITTEN REPORTS ON ORIGINAL RESEARCH PROJECTS ON THE FIELD BIOLOGY OF NANTUCKET ISLAND. MEETS EVERY WEEKDAY FROM LATE JULY THROUGH AUGUST AT THE UNIVERSITY'S FIELD STATION ON NANTUCKET. LECTURES, SEMINARS AND INDIVIDUAL CONSULTATION ARRANGED. MAINTAINED STUDENTS LIVE AT THE STATION AND ARE RESPONSIBLE FOR MODEST EXPENSES.  
PREREQUISITE: BIOLOGY 111  
3 LECT HRS, 3 LAB HRS  
STAFF  
4 CREDITS
- BIOL 211 PHYSIOLOGY OF ORGANISMS  
A STUDY OF BASIC PLANT AND ANIMAL PHYSIOLOGY AT THE ORGANISMAL LEVEL WHICH WILL INCLUDE SUCH TOPICS AS UPTAKE OF MATERIALS, MAINTENANCE OF THE INTERNAL ENVIRONMENT, CONDUCTION OF MATERIALS, MOVEMENT AND COORDINATION.  
PREREQUISITE: BIOLOGY 112  
3 LECT HRS, 3 LAB HRS  
STAFF  
4 CREDITS
- BIOL 213 PHYSIOLOGY OF ORGANISMS  
LECTURE PORTION OF BIOLOGY 211  
PREREQUISITE: BIOLOGY 112  
3 LECT HRS  
STAFF  
3 CREDITS
- BIOL 220 MAINTENANCE PHYSIOLOGY OF PLANTS AND ANIMALS LECTURE  
THOSE ASPECTS OF MAINTENANCE PHYSIOLOGY, GROWTH AND REPRODUCTION OF PLANTS AND ANIMALS NOT DISCUSSED IN FIRST SEMESTER. TOPICS WILL INCLUDE PLANT AND ANIMAL NUTRITION, METABOLISM, WATER RELATIONSHIPS AND OTHER MECHANISMS OF BODY FUNCTIONS.  
PREREQUISITE: BIOLOGY 211 OR 213 OR EQUIVALENT  
3 LECT HRS  
MR. SAFWAT, MR. SHEERIN  
3 CREDITS
- BIOL 221 TAXONOMY OF SEED PLANTS LABORATORY  
COLLECTION AND IDENTIFICATION OF LOCAL FLORA. LABORATORY AND FIELD TRIPS. A COLLECTION OF FULLY IDENTIFIED DOCUMENTED HERBARIUM SPECIMENS WILL BE SUBMITTED BY EACH STUDENT.  
COREQUISITE: BIOLOGY 220  
6 LAB HRS, OCCASIONAL FIELD TRIPS  
STAFF  
2 CREDITS
- BIOL 232 INVERTEBRATE ZOOLOGY  
EVOLUTION, ECOLOGY, LIFE HISTORY AND MORPHOLOGY OF INVERTEBRATE ANIMALS. EMPHASIS PLACED ON LIVING REPRESENTATIVES OF LOCAL FAUNA, ESPECIALLY MARINE INVERTEBRATES.  
PREREQUISITE: BIOLOGY 111 OR 112  
3 LECT HRS, 6 LAB HRS  
STAFF  
5 CREDITS
- BIOL 234 INVERTEBRATE ZOOLOGY LECTURE  
LECTURE PORTION OF BIOLOGY 232. EVOLUTION, ECOLOGY, LIFE HISTORY AND MORPHOLOGY OF INVERTEBRATE ANIMALS. EMPHASIS PLACED ON LIVING REPRESENTATIVES OF LOCAL FAUNA, ESPECIALLY MARINE INVERTEBRATES.  
PREREQUISITE: BIOLOGY 111 AND 112  
3 LECT HRS  
STAFF  
3 CREDITS
- BIOL 236 HISTORY OF EVOLUTIONARY THOUGHT  
DEVELOPMENT OF EVOLUTIONARY THOUGHT FROM 1750 - PRESENT. THE COURSE WILL EXAMINE: SCIENTIFIC AND CULTURAL CONTEXTS THAT PRODUCED THE THEORY OF EVOLUTION, INTELLECTUAL DEVELOPMENT AND CONTRIBUTIONS OF LAMARCK, DARWIN AND WALLACE; SOCIAL IMPACT OF DARWINISM; ESTABLISHMENT OF MODERN EVOLUTIONARY THEORY; CONTEMPORARY CRITIQUES OF DARWINISM.  
PREREQUISITE: OPEN TO SCIENCE AND NON-SCIENCE MAJORS WITH SOPHOMORE OR UPPER LEVEL STANDING  
3 LECT HRS  
STAFF  
3 CREDITS
- BIOL 238 ORNITHOLOGY  
THE BIOLOGY OF BIRDS, WITH EMPHASIS ON PROBLEMS OF WIDER BIOLOGICAL INTEREST IN ECOLOGY AND BEHAVIOR. NORMALLY TAKEN IN CONJUNCTION WITH LABORATORY AND FIELD WORK. BIOL 239.  
PREREQUISITE: BIOLOGY 111-112 OR EQUIVALENT  
3 LECT HRS  
STAFF  
3 CREDITS
- BIOL 239 ORNITHOLOGY LABORATORY  
LABORATORY AND FIELD WORK IN ORNITHOLOGY (IN CONJUNCTION WITH BIOL 238.)  
PREREQUISITE: BIOLOGY 238  
3 LAB HRS  
STAFF  
1 CREDIT
- BIOL 241 BIOLOGY OF POPULATIONS I  
EVOLUTION AND ECOLOGY OF ANIMALS AND PLANTS. ASPECTS OF POPULATION GENETICS, POPULATION DYNAMICS, SOCIOBIOLOGY, RELATIONSHIPS BETWEEN SPECIES, AND COMMUNITY ECOLOGY. THIS COURSE HAS BEEN REVISED, AND WILL BE LESS MATHEMATICALLY DEMANDING THAN 241 IN RECENT YEARS. THE LABS IN THE FIRST PART OF SEMESTER WILL INVOLVE 6-HR FIELD TRIPS IN ALTERNATE WEEKS. (SIGN UP FOR ONE SESSION ON TUESDAY OR WILL BE WEEKLY 3-HR LABORATORY SESSIONS ON ECOLOGY, GENETICS AND ELEMENTARY DATA ANALYSES.  
PREREQUISITE: BIOLOGY 112. BIOLOGY 252 (CAN BE COREQUISITE) OR PERMISSION OF INSTRUCTOR  
STAFF

| BIOL | 324 | BIOLOGY OF NON-SEED PLANTS<br>A STUDY OF THE MAJOR PLANT GROUPS EMPHASIZING LIVE CYCLES OF THE NON-SEED BEARING PLANTS AND THE CONTROL OF LIFE CYCLES BY ENVIRONMENTAL AND GENETIC FACTORS. ASPECTS OF AUTOTROPHIC AND HETEROTROPHIC NUTRITION OF PARTICULAR RELEVANCE TO THESE PLANT GROUPS AND THEIR PHYLOGENY WILL BE DISCUSSED. IN ADDITION TO THE USE OF PURE CULTURES, STUDENTS WILL ISOLATE FROM NATURE AND WILL CULTURE NON VASCULAR PLANT SPECIES. FOR APPROPRIATE SPECIES, PARTICULARLY FRESH WATER ALGAE, FUNGI, SLIME MOLDS, AND GAMETOPHYTES OF MOSS AND FERN, THE EXPERIMENTAL CONTROL OF LIFE CYCLES AND SEXUALITY WILL BE INVESTIGATED. BRIEF ATTENTION WILL BE GIVEN TO THE REPRODUCTIVE MORPHOLOGY OF SEED PLANTS.<br>PREREQUISITE: BIOLOGY 211 OR 213 | 5 CREDITS |

- BIOL 630 NATURAL HISTORY OF MARINE INVERTEBRATES  
A LECTURE AND FIELD COURSE, DEVOTED TO THE EXAMINATION OF CONVERGENT AND DIVERGENT ECOLOGICAL, BEHAVIORAL AND MORPHOLOGICAL ADAPTATIONS OF MARINE ORGANISMS IN DIFFERENT HABITATS. THE COURSE WILL DRAW HEAVILY ON THE RESOURCES OF BOSTON HARBOR. THE FIRST HALF OF THE SEMESTER CONSISTS OF LECTURES AND DEMONSTRATION LABORATORIES; THE SECOND HALF INCLUDES WEEKLY FIELD-TRIPS.  
THE FIRST HALF OF THE COURSE WILL BE INDOOR LECTURES -3/WK- AND DEMONSTRATION LABORATORIES -1MR/WK-. THE SECOND HALF WILL HAVE 1-2 LECTURES/WK AND ONE 4 HR FIELD TRIP/WK.  
PREREQUISITE: BIOLOGY 211 OR BIOLOGY 341-342 OR 234 AND/OR PERMISSION OF INSTRUCTOR.  
MR. MENGE
- BIOL 639 ADVANCED ECOLOGY  
CONCENTRATION ON IMPORTANT CONCEPTS OF POPULATION AND COMMUNITY ECOLOGY. TOPICS COVERED INCLUDE POPULATION DYNAMICS, LIFE HISTORY STRATEGIES, THEORY OF R- AND K- SELECTION, COMPETITION, PREDATION, COMMUNITY ORGANIZATION, AND SPECIES DIVERSITY. PARTICULAR EMPHASIS IS PLACED ON THE RELATIONSHIP BETWEEN THEORETICAL AND EMPIRICAL ECOLOGY. A WEEKLY TUTORIAL WILL PROVIDE OPPORTUNITY FOR GREATER DISCUSSION OF MATERIAL COVERED IN LECTURE.  
PREREQUISITE: BIOLOGY 341-342-OR PERMISSION OF INSTRUCTOR.  
2 LECT HRS, 1 DISC HR  
MR. MENGE 3 CREDITS
- BIOL 642 BIOGEOGRAPHY  
A STUDY OF GEOGRAPHICAL DISTRIBUTION PATTERNS IN PLANTS AND ANIMALS. INCLUDES HISTORICAL AND DESCRIPTIVE ASPECTS OF THE DISTRIBUTIONS OF COMPARATIVE TESTS OF ISLAND BIOGEOGRAPHY THEORY, THE POPULATION GENETICS AND EVOLUTIONARY STRATEGIES OF COLONIZING SPECIES. LECTURES BY INSTRUCTOR, ONE DISCUSSION SESSION PER WEEK, INDEPENDENT RESEARCH BY STUDENTS THAT WILL BE PRESENTED TO THE CLASS IN SEMINAR FORM.  
PREREQUISITE: BIOLOGY 341-342 OR EQUIVALENT. SOME KNOWLEDGE OF STATISTICS AND CALCULUS HIGHLY RECOMMENDED.  
MR. REX
- BIOL 644 MARINE BOTANY  
THE SYSTEMATICS AND ECOLOGY OF MARINE PLANTS, WITH EMPHASIS ON THE ALGAE. THE CURRENT LITERATURE IS EMPLOYED TO DELINEATE UNSOLVED PROBLEMS.  
PREREQUISITE: BIOLOGY 211-341 AND BIOLOGY 241-242 AND/OR PERMISSION OF INSTRUCTOR.  
STAFF 4 CREDITS
- BIOL 650 ADVANCED ETHNOLOGY  
EXAMINATION IN DEPTH OF TOPICS IN THE ETHNOLOGICAL STUDY OF BEHAVIOR -ETHNOLOGY- WITH PARTICULAR REFERENCE TO COMMUNICATION AND THE EVOLUTION OF SOCIAL BEHAVIOR. THERE WILL BE LECTURE-DISCUSSIONS AND LAB EXERCISES. ALSO FIELD TRIPS.  
FOR GRADUATE STUDENTS AND SENIORS WITH APPROPRIATE BACKGROUND IN BIOLOGY 211 AND 341, OR PSYCHOLOGY 245, AND CONSENT OF INSTRUCTOR.  
MR. MATCH 2-6 CREDITS
- BIOL 660 SEMINAR IN DEVELOPMENTAL BIOLOGY  
PREREQUISITE: BIOLOGY 211 AND/OR PERMISSION OF INSTRUCTOR  
3 SEM-01SC HRS  
STAFF 3 CREDITS
- BIOL 662 PHOTOBIOLOGY  
THE PHOTOCHEMICAL REACTIONS THAT OCCUR IN BIOLOGICAL SYSTEMS. MAJOR TONIC AREAS ARE 1. PROPERTIES OF LIGHT ENERGY 2. UTILIZATION OF LIGHT ENERGY BY PHOTOSYNTHETIC ORGANISMS 3. MECHANISM OF VISUAL TRANSDUCTION 4. PHOTOCHEMICAL TRIGGERING MECHANISMS FOR DEVELOPMENTAL PROCESSES.  
3 LECT HRS  
MR. MAGAR, MR. WHITE 3 CREDITS
- BIOL 664 SEMINAR IN NEUROBIOLOGY  
STRUCTURE, FUNCTION AND DEVELOPMENT OF SENSORY RECEPTORS, NEURONS AND MUSCLES.  
PREREQUISITE: BIOLOGY 211 AND/OR PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MR. WHITE, MS. KIMEL, MS. BENNETT, MS. VAN UMMERSEN 3 CREDITS
- BIOL 668 ADVANCED PHYSIOLOGY  
EXPERIMENTAL STUDIES ON TWO OR THREE SELECTED AREAS OF ORGANISMAL AND CELLULAR PHYSIOLOGY WILL BE CONDUCTED IN DEPTH EACH TIME THE COURSE IS OFFERED (PROBABLY SPRING TERM EACH YEAR). STUDIES OF SENSORY AND NERVOUS SYSTEMS AND OF MEMBRANE TRANSPORT WILL BE THE AREAS COVERED. PROVISIONS WILL BE MADE FOR INDEPENDENT PROJECTS DURING THE COURSE. ONE WEEKLY SEMINAR PLUS ONE WEEKLY LAB MEETING. OPEN TO GRADUATE STUDENTS AND TO QUALIFIED ADVANCED UNDERGRADUATES.  
PREREQUISITE: BIOLOGY 216 OR 372 OR EQUIVALENT; ORGANIC CHEMISTRY; PHYSICS; ALSO PERMISSION OF INSTRUCTORS.  
1 SEMINAR HR; 3-4 LAB HRS  
MS. BENNET, MR. SHEERIN, MR. LANGFORD, MR. WHITE 3-4 CREDITS
- BIOL 670 TISSUE AND ORGAN CULTURE  
METHODS OF PLANT AND ANIMAL TISSUE AND ORGAN CULTURE WILL BE PRESENTED WITH SPECIAL EMPHASIS ON PROBLEMS OF DIFFERENTIATION AND MORPHOGENESIS IN VITRO. INTRODUCTION OF CERTAIN TECHNIQUES NOW USED IN PLANT PROTOPLAST CULTURE AND FOR HYBRIDIZATION OF SOMATIC CELLS IN PLANTS AND ANIMALS. PROVISIONS WILL BE MADE FOR INDEPENDENT PROJECTS DURING THE COURSE.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
1 LECT HR, 6 LAB HRS  
MR. SAFVAT, MS. VAN UMMERSEN 3 CREDITS
- BIOL 672-673 DIRECTED READINGS IN BIOLOGY  
SELECTED READINGS IN ADVANCED AREAS OF BIOLOGY WITH GUIDANCE AND REGULAR DISCUSSION.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
STAFF 1 CREDIT
- BLACK STUDIES
- BLKSTY 100 INTRODUCTION TO BLACK LITERATURE  
SURVEY COURSE OF BLACK LITERATURE FROM SLAVERY THROUGH PRESENT TIMES.  
3 LECT HRS  
MS. MONTICHO 3 CREDITS
- BLKSTY 102 THE HISTORY OF BLACK EDUCATION  
3 LECT HRS  
STAFF 3 CREDITS
- BLKSTY 104 DRUG ABUSE AND THE BLACK COMMUNITY  
AN OVERVIEW OF THE HISTORY AND CURRENT PROBLEMS EVOLVING FROM DRUG ABUSE IN BLACK URBAN COMMUNITIES IN THE UNITED STATES. DISCRIMINATION, PREJUDICE, LIMITED ACCESS TO OPPORTUNITY STRUCTURES, TREATMENT FOR THE USE OF DRUGS, THE LAW, COMMUNITY INSTITUTIONS, AND VALUE SYSTEMS ARE EXAMINED AS THEY PERTAIN TO DRUG USE IN THE BLACK COMMUNITY.  
3 LECT HRS  
MR. WILLIAMS 3 CREDITS
- BLKSTY 108 BLACK SOCIAL MOVEMENTS  
CONCEPTS OF SOCIAL MOVEMENTS AS WELL AS THE APPEARANCE OF SOCIAL MOVEMENTS AMONG BLACK AMERICANS IN THE 19TH CENTURY ARE EXAMINED. EXAMINATION OF 20TH CENTURY BLACK SOCIAL MOVEMENTS, ESPECIALLY MARCUS GARVEY'S MOVEMENT, NATION OF ISLAM, THE CIVIL RIGHTS MOVEMENT AND BLACK POWER MOVEMENT.  
PREREQUISITE- A COURSE IN SOCIOLOGY, POLITICAL SCIENCE OR AFRO AMERICAN HISTORY.  
3 LECT HRS  
MR. EJOFODOMI 3 CREDITS
- BLKSTY 110 INTRODUCTION TO BLACK STUDIES I  
AN INTRODUCTION TO THE KEY ISSUES IN BLACK STUDIES. AN OUTLINE OF THE HISTORY OF BLACKS IN AFRICA, CANADA, THE WEST INDIES AND THE

| Chemistry majors will take a basic group of courses in Chemistry, Mathematics<br>and Physics which will satisfy usual requirements appropriate to pre-professional<br>training in Chemistry or teaching or to certain interdisciplinary fields of<br>study.                                                                                                                                                                                                                                                                                                                                                           |           |  |           |
| All majors in Chemistry are required to take Chemistry 103-104, 153-154, 198,<br>241-242 and 269-270; Mathematics 150-151 and Physics 113-114 and either 171-172<br>or 181-182 laboratories. Students interested in majoring in Chemistry should<br>immediately contact the chemistry department to be assigned a faculty advisor<br>who will help plan a sequence of courses suitable to the student's interests.                                                                                                                                                                                                    |           |  |           |
| <u>Graduate Program</u>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |  |           |
| A complete description of the graduate program in Chemistry appears in a section<br>on graduate programs at the end of this catalogue.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |           |  |           |

479 SELECTED RESEARCH TOPICS ORGANIZED IN CONSULTATION WITH INDIVIDUAL  
STUDENTS  
PREREQUISITE: PERMISSION OF INSTRUCTOR AND DEPARTMENT CHAIRMEN  
HRS BY ARRANGEMENT  
STAFF  
3 CREDITS

## CLASSICS

### Degree Requirements

#### GREEK MAJOR:

- 1) Greek 222 and at least four (4) three-credit courses in Greek at the 300+ level, including Gr 310 Epic Poetry.
- 2) either Cl 281-282 or History 208-209 or any other two Classics courses with departmental approval.
- 3) either two semesters of college Latin at the appropriate level or two additional Greek courses at 300+ level.

#### LATIN MAJORS:

- 1) Latin 222 and at least four (4) three-credit courses in Latin at the 300+ level, including Latin 310 Virgil.
- 2) either Cl 281-282 or History 208-209 or any other two Classics courses with departmental approval.
- 3) either two semesters of college Greek at the appropriate level or two additional Latin courses at the 300+ level.

#### GREEK-LATIN:

- 1) Greek 222 and Latin 222
- 2) At least five (5) three-credit Greek or Latin courses at the 300+ level: three in one language, two in the other.
- 3) either Classics 281-282 or History 208-209 or any other two Classics courses with departmental approval.

#### CLASSICAL STUDIES MAJOR:

For information about this new major, please consult the Department of Classics.  
One year of college study of Latin or Greek and a series of Classics courses (in-translation) are required.

#### CLCSICS 161 THE ENGLISH LEXICON

THE DEBT OUR LANGUAGE OWES TO LATIN AND GREEK. AN  
INTRODUCTORY CONSIDERATION OF ENGLISH VOCABULARY, WORD  
FORMATION, AND WORD ORIGINS. SUGGESTED AS AN AID TO BASIC  
SKILLS DEVELOPMENT AND TO GENERAL, LINGUISTIC (LANGUAGE)  
AWARENESS. OFFERED IN FALL.  
3 LECT HR.  
STAFF  
4 CREDITS

#### CLCSICS 281 GREEK AND ROMAN CIVILIZATION I II

282 A CONSIDERATION OF THE MAJOR PERIODS OF ANCIENT CIVILIZATION  
THROUGH THE READING OF LITERARY MASTERPIECES SUPPLEMENTED BY LECTURES  
ON CULTURAL AND HISTORICAL BACKGROUNDS: INCLUDING HOMER, THE  
TRAGEDIANS (AESCHYLUS, SOPHOCLES, EURIPIDES) ARISTOPHANES, PLATO  
(GREECE) CICERO, CATULLUS, VERGIL, OVID, PETRONIUS (ROME). SOME  
INTRODUCTION TO ARCHEOLOGICAL AND ARTISTIC MATERIALS. THIS COURSE  
INITIATES THE SUGGESTED SEQUENCE OF CLASSICS \*IN TRANSLATION\*  
COURSES FOR MAJORS AND OTHERS (ESPECIALLY THOSE WITHOUT PREPARATION  
IN THIS AREA). THE SEMESTERS MAY BE TAKEN IN REVERSE ORDER: 281  
ONLY IN FALL. 282 ONLY IN SPRING  
3 LECT HRS  
STAFF  
4 CREDITS

#### CLCSICS 283 GREEK & ROMAN EPIC POETRY

THE GENRE OF EPIC POETRY, ITS USES, AND INFLUENCE IN WESTERN  
LITERATURE. READING OF THE ILLIAD AND ODYSSEY OF HOMER  
(GREECE), THE AENEID OF VERGIL (ROME), CAREFUL AND COMPLETE  
STUDY. OFFERED IN SPRING.  
3 LECT HRS.  
STAFF  
4 CREDITS

CLSCS 490 HONORS PROGRAM I II

491 FALL SEMESTER--EXTENSIVE READING IN ONE HROAD SEGMENT OF CLASSICAL LITERATURE CULMINATING IN A ONE-HOUR WRITTEN EXAMINATION. SENIOR PREREQUISITE: 3-2 MAJOR AVERAGE, 3.0 OVERALL AVERAGE, SENIOR STANDING WEEKLY CONFERENCES  
1 CREDITS  
STAFF

CLSCS 499 HONORS THESIS

499 A SUBSTANTIVE REVIEW OF A SUBJECT APPROVED BY THE INDIVIDUAL INSTRUCTOR.  
PREREQUISITE: PERMISSION OF DEPARTMENT AND SOPHOMORE STANDING  
HRS BY ARRANGEMENT  
STAFF  
3 CREDITS

CLSCS 596 CURRICULUM AND METHODS STUDENTS TEACHING - CLASSICS THE ISSUES, PRINCIPLES AND METHODS OF SECONDARY SCHOOL TEACHING OF LATIN, SUPERVISION AND CRITIQUE OF PRACTICE TEACHING.  
PREREQUISITE: 6 HOURS EDUCATION COURSES AND ADMISSION TO THE TEACHER CERTIFICATION PROGRAM  
3 LECT HRS. 20 LAB HRS (PRACTICE TEACHING)  
STAFF  
9 CREDITS

ECONOMICS

ECONOMICS COLLEGE I

Graduation Requirements

All Economics majors are required to take Economics 100, 155 and 200-202 and 18 additional credits of junior-senior level courses. However, by permission of the department up to 6 credits in related disciplines may be substituted for Economics courses. It should be noted that Economics 131 is not considered to be a junior-senior level course.

POLITICAL ECONOMY COLLEGE II

Graduation Requirements

All majors are required to take Ec 100, 155, 205, 208, 209 and 15 additional credits of junior-senior level courses. (200 numbered sequence or above) However, by permission of the department up to 6 credits in related disciplines may be substituted for department courses. It should be noted that Ec 131 and Ec 180 are not considered to be junior-senior level courses.

Majors planning to go on to graduate study are advised to take Ec 351 and Ec 352.

ECON 100 ECONOMIC LITERACY

A BROAD INTRODUCTORY SURVEY OF ECONOMIC PRINCIPLES AND INSTITUTIONS. EMPHASIS ON THE ROLE OF ECONOMIC PRINCIPLES IN UNDERSTANDING AND ANALYZING CURRENT ECONOMIC PROBLEMS.  
3 LECT HRS  
STAFF  
4 CREDITS

ECON 155 STATISTICAL METHODS

A NON-CALCULUS INTRODUCTION TO STATISTICAL INFERENCE. PRIMARY OBJECTIVE IS TO FAMILIARIZE THE STUDENTS WITH COMMON STATISTICAL CONCEPTS SO THEY WILL BE ABLE TO MAKE INTELLIGENT EVALUATIONS TO TECHNICAL REPORTS. THE FIRST HALF OF THE COURSE COVERS PROBABILITY INCLUDING COMMON DISTRIBUTIONS. SECOND HALF STUDIES HYPOTHESIS TESTING INCLUDING T-TESTS, GOODNESS OF FIT, CONTINGENCY TABLES, ANALYSIS OF VARIANCE, REGRESSIONS, AND CORRELATION.  
3 LECT HRS  
STAFF  
4 CREDITS

ECON

180 THE POLITICAL ECONOMY OF TAXATION IN MASSACHUSETTS INTRODUCES THE NON-ECONOMICS MAJOR TO THE POLITICAL ECONOMY OF TAXATION WITH SPECIAL EMPHASIS ON THE ISSUES OF STATE AND LOCAL TAXATION IN MASSACHUSETTS. THE MECHANISMS OF THE PROPERTY TAX, STATE TAX AND STATE AID FORMULA, FISCAL ZONING, HOUSING AND SCHOOL FINANCING ISSUES, PROPOSALS FOR REFORMS IN THE SYSTEM OF STATE AND LOCAL TAXES IN MASSACHUSETTS.  
PREREQUISITE: FOR NON-ECONOMICS MAJORS ONLY  
3 LECT HRS  
MR. TORTO  
3 CREDITS

ECON

200 ECONOMIC THEORY I. MACROECONOMICS ANALYSIS OF THE FORCES DETERMINING THE LEVEL AND STRUCTURE OF GROSS NATIONAL OUTPUT, AND THOSE GOVERNMENT POLICIES WHICH ATTEMPT TO AFFECT ECONOMIC ACTIVITIES IN THE UNITED STATES.  
PREREQUISITE: ECONOMICS 100  
3 LECT HRS  
STAFF  
3 CREDITS

ECON

201 ECONOMIC THEORY II. MICROECONOMICS ANALYSIS OF CONSUMER BEHAVIOR. THE THEORY OF PRODUCTION EQUILIBRIUM OF THE FIRM AND THE INDUSTRY. MARKET STRUCTURES AND THE PRICING OF FACTORS OF PRODUCTION.  
PREREQUISITE: ECONOMICS 100  
3 LECT HRS  
STAFF  
3 CREDITS

ECON

205 ECONOMIC INSTITUTIONS AND ORGANIZATIONS AN INTRODUCTION TO THE INSTITUTIONAL CONTEXT OF ECONOMIC ACTIVITY IN THE CONTEMPORARY AMERICAN SOCIETY. ROLE OF THE STATE IN THE ECONOMY. CHARACTER OF THE MODERN CORPORATION AND THE LABOR UNION AND THEIR RELATIONSHIP TO ONE ANOTHER. THE ROLE OF SCHOOLS AND THE FAMILY IN THE ECONOMY.  
3 LECT HRS  
MR. ESPOSITO  
3 CREDITS

ECON

204 CONSUMER ECONOMICS THIS COURSE WILL INVOLVE THREE AREAS OF CONCENTRATION: CONSUMER BEHAVIOR, INCLUDING DECISION MAKING AND THE EFFECT OF ADVERTISING; CONTEMPORARY ISSUES INCLUDING MONEY MANAGEMENT, CONSUMER CREDIT, HEALTH CARE, HOUSING AND TRANSPORTATION; AND THE EFFECT OF GOVERNMENTAL ACTIONS ON CONSUMPTION AND PROTECTION OF CONSUMERS IN THE MARKET PLACE.  
PREREQUISITE: ECONOMICS 100  
3 LECT HRS  
MS. KOSBERG  
3 CREDITS

ECON

208 HISTORY OF ECONOMIC THOUGHT I AN INTRODUCTION TO THE SCHOOLS OF ECONOMIC ANALYSIS WHICH HAVE SHAPED SOCIETY'S THINKING ABOUT THE ECONOMY. SCHOOLS OF THOUGHT AND THEIR ASSOCIATED TECHNIQUES OF ANALYSIS ARE EXAMINED AND CRITICIZED IN LIGHT OF THE SOCIO-HISTORICAL CONTEXTS IN WHICH THEY WERE PUT FORWARD.  
IN THE FIRST SEMESTER OF THIS COURSE THE MERCANTILISTS, PHYSIOCRATS, AND THE CLASSICAL POLITICAL ECONOMISTS (THROUGH MARX) ARE STUDIED.  
PREREQUISITE: ECONOMICS 100  
3 LECT HRS  
MR SHUTE  
3 CREDITS

ECON

209 HISTORY OF ECONOMIC THOUGHT II THIS IS THE SECOND SEMESTER SEQUENCE TO EC. 208 AND COVERS THE RISE OF THE NEO-CLASSICAL SCHOOL AND KEYNESIAN ANALYSIS. ALONG WITH THE ANALYSIS OF THE TWENTIETH CENTURY INSTITUTIONALISTS AND NEO-MARKET CRITICISM. THROUGHOUT THE COURSE THE STUDENT IS INTRODUCED TO THE CONCEPTS AND TECHNIQUES OF MODERN ECONOMIC ANALYSIS AND POLITICAL ECONOMY.  
PREREQUISITE: ECONOMICS 208  
3 LECT HRS  
MR SHUTE  
3 CREDITS

- ECON 213 URBAN ECONOMICS  
AN ECONOMIC ANALYSIS OF URBAN AREAS AND URBAN PROBLEMS. PROVIDES AN ECONOMIC EXPLANATION OF THE GROWTH OF CITIES AND METROPOLITAN AREAS TOGETHER WITH AN UNDERSTANDING OF THE FORCES THAT DETERMINE THE LOCATION, FORM, AND ECONOMIC STRUCTURE OF CITIES. A NUMBER OF CONTEMPORARY PROBLEMS ARE STUDIED IN DEPTH. A POLITICAL-ECONOMIC ANALYSIS IS APPLIED TO SUCH PROBLEMS AS THE PROPERTY TAX, HOUSING AND URBAN RENEWAL, POVERTY, CRIME AND TRANSPORTATION.  
PREREQUISITE: ECONOMICS 100  
3 LECT HRS  
MS. STEVENSON, MR. TORTO  
3 CREDITS
- ECON 214 URBAN RESEARCH  
THIS COURSE PROVIDES THE STUDENT THE OPPORTUNITY TO UNDERTAKE IN DEPTH A RESEARCH EFFORT ON A PARTICULAR URBAN PROBLEM. STUDENTS WORK WITH PRIMARY AS WELL AS SECONDARY DATA SOURCES. WHERE POSSIBLE, THE CLASS WORKS TOGETHER ON A SINGLE RESEARCH ISSUE AND PRODUCES A JOINTLY AUTHORED RESEARCH REPORT BY THE END OF THE COURSE.  
PREREQUISITE: ECONOMICS 213  
3 LECT HRS  
MR. TORTO  
3 CREDITS
- ECON 235 INTERNATIONAL ECONOMICS  
THE THEORY OF INTERNATIONAL TRADE; THEORY AND PRACTICE OF COMMERCIAL POLICY. INTERNATIONAL FINANCE; THE BALANCE OF PAYMENTS, ADJUSTMENT MECHANISMS, AND ALTERNATIVE MONETARY SYSTEMS.  
PREREQUISITE: ECONOMICS 100  
3 LECT HRS  
MS. GARRITY, MR. SCHIAVO-CAMPO  
3 CREDITS
- ECON 236 ECONOMIC DEVELOPMENT  
THE ECONOMIC MEANING OF UNDERDEVELOPMENT. EVALUATION OF ALTERNATIVE 'STRATEGIES' FOR ECONOMIC GROWTH. THE ROLE PLAYED BY DIFFERENT KINDS OF RESOURCES. INTERACTION OF THE PROBLEMS OF THE UNDERDEVELOPED COUNTRIES OF AFRICA, ASIA, AND LATIN AMERICA WITH THE POLICIES OF THE DEVELOPED COUNTRIES.  
PREREQUISITE: ECONOMICS 100  
3 LECT HRS  
MS. GARRITY, MR. SCHIAVO-CAMPO  
3 CREDITS
- ECON 237 THE AFRICAN ECONOMY  
COMPARATIVE ANALYSIS OF THE ECONOMIC CHARACTERISTIC PROBLEMS OF SUB-SAHARA AFRICA.  
PREREQUISITE: ECONOMICS 100  
3 LECT HRS  
MS. GARRITY  
3 CREDITS
- ECON 239 THE LATIN AMERICAN ECONOMY  
DESCRIPTION AND ANALYSIS OF THE ECONOMIC CHARACTERISTICS AND PROBLEMS OF LATIN AMERICAN COUNTRIES.  
PREREQUISITE: ECONOMICS 100  
3 LECT HRS  
STAFF  
3 CREDITS
- ECON 243 THE POLITICAL ECONOMY OF THE BLACK GHETTO  
A SURVEY OF THE ECONOMIC STATUS OF BLACK AMERICANS. EXAMINATION OF THE SOCIAL AND ECONOMIC LEGACY OF SLAVERY AND RECONSTRUCTION. ANALYSIS OF PARTICULAR PROBLEM AREAS FOR CONTEMPORARY BLACKS, E.G. HOUSING, LABOR MARKET DISCRIMINATION AND EDUCATION. EVALUATION OF COMMUNITY ECONOMIC DEVELOPMENT, BLACK CAPITALISM AND OTHER STRATEGIES FOR BLACK ECONOMIC DEVELOPMENT.  
PREREQUISITE: ECONOMICS 100  
3 LECT HRS  
MR. BETSEY  
3 CREDITS
- ECON 249 THE POLITICAL ECONOMY OF ENVIRONMENTAL CONTROL  
AN INTRODUCTORY SURVEY OF THE IMPACT OF ECONOMIC ACTIVITY UPON THE ENVIRONMENT AND THE QUALITY OF LIFE IN OUR SOCIETY. THE SOURCES, MEASUREMENT, AND CONTROL OF POLLUTION AS A PROBLEM IN PRIVATE AND SOCIAL PLANNING. LEGAL, SOCIAL, POLITICAL, AND PSYCHOLOGICAL FACTORS.  
PREREQUISITE: ECONOMICS 100  
3 LECT HRS  
MR. WOLOZIN  
3 CREDITS
- ECON 272 COMPARATIVE ECONOMIC SYSTEMS  
RELATIONSHIP BETWEEN MARKET AND NON-MARKET MECHANISMS IN THE PRODUCTION AND DISTRIBUTION OF ECONOMIC RESOURCES IN FOUR ECONOMIES. FIRST HALF DEVOTED TO ANALYSIS OF CONTEMPORARY AMERICAN CAPITALISM, THE BRITISH ECONOMY UNDER LABOR GOVERNMENT 1945-1950, AND THE GERMAN ECONOMY OF 1934-1945. SECOND HALF CONCENTRATES ON PLANNED ECONOMY OF THE U.S.S.R.  
PREREQUISITE: ECONOMICS 100  
3 LECT HRS  
MR. KIRSCH  
3 CREDITS
- ECON 275 ECONOMIC INTEREST GROUPS AND THE AMERICAN POLITICAL PROCESS  
BOTH GENERALIZED AND SELECTED SPECIFIC OBJECTIVES OF MAJOR ECONOMIC INTEREST GROUPS WILL BE STUDIED. MODIFICATION OF THESE OBJECTIVES BY THE INTERACTION OF EXECUTIVE AND LEGISLATIVE BRANCHES OF GOVERNMENT WILL BE TRACED AND ANALYZED.  
PREREQUISITE: ECONOMICS 100  
3 LECT HRS  
STAFF  
3 CREDITS
- ECON 280 THE ECONOMICS OF HEALTH CARE  
THIS COURSE IS PRIMARILY CONCERNED WITH ANALYZING THE HEALTH CARE DELIVERY SYSTEM IN THE UNITED STATES. AMONG THE TOPICS COVERED WILL BE THE ECONOMIC, SOCIAL, AND DEMOGRAPHIC FACTORS DETERMINING THE DEMAND FOR HEALTH CARE, THE SUPPLY OF VARIOUS KINDS OF HEALTH MANPOWER, THE FINANCING OF HEALTH CARE SERVICES AND ITS IMPACT ON HOSPITALS, AND ALTERNATIVE SYSTEMS OF HEALTH CARE DELIVERY.  
PREREQUISITE: ECONOMICS 100  
3 LECT HRS  
MR. ESPOSITO  
3 CREDITS
- ECON 281 MARXIST ANALYSIS AND RADICAL CRITIQUE OF MODERN ECONOMIC THEORY  
THE CENTRAL FOCUS OF THE COURSE IS MARXIST ECONOMIC ANALYSIS IN ITS CLASSICAL AND MODERNIZED FORMS. RADICAL CRITIQUES OF STANDARD MACRO, MICRO, AND DEVELOPMENT ECONOMIC THEORY ARE PRESENTED AND EVALUATED.  
PREREQUISITE: ECONOMICS 100  
3 LECT HRS  
MR. KIRSCH  
3 CREDITS
- ECON 291 ECONOMICS OF LABOR AND COLLECTIVE BARGAINING  
A BRIEF HISTORICAL OVERVIEW OF THE AMERICAN LABOR MOVEMENT AND INSTITUTIONS. TRADITIONAL ECONOMIC THEORIES OF WAGE DETERMINATION AND THE IMPACT OF COLLECTIVE BARGAINING. A RADICAL CRITIQUE AND ALTERNATIVE THEORIES AS APPLIED TO LOW-WAGE LABOR MARKETS.  
PREREQUISITE: ECONOMICS 100  
3 LECT HRS  
MR. RETSEY  
3 CREDITS
- ECON 292 WOMEN'S WORK  
THE COURSE WILL EXAMINE THE QUESTION OF DISCRIMINATION IN THE LABOR FORCE FROM A PERSPECTIVE WHICH EMPHASIZES WOMEN'S DUAL WORK ROLE, INSIDE AND OUTSIDE THE HOME. THE PROCESS OF INDUSTRIALIZATION, WHICH LED TO AN INCREASING PROPORTION OF TOTAL PRODUCTION TAKING PLACE OUTSIDE THE HOME WILL BE STUDIED IN ORDER TO ASSESS ITS IMPACT ON WOMEN, AND IN ORDER TO PROVIDE A BACKGROUND TO A STUDY OF SEX SEGREGATION AND WAGE DISCRIMINATION IN THE CURRENT LABOR FORCE. THEORETICAL QUESTIONS ON THE RELATIONSHIP BETWEEN WOMEN'S OPPRESSION AND THE NATURE OF THE ECONOMIC SYSTEM AS A WHOLE WILL BE DISCUSSED THROUGHOUT.  
PREREQUISITE: ECONOMICS 100 OR PERMISSION OF INSTRUCTOR.  
3 LECT HRS  
STAFF  
3 CREDITS
- ECON 294 SEX SEGREGATED LABOR MARKETS  
A STUDY OF WOMEN'S INFERIOR ECONOMIC STATUS, PROPOSALS FOR CHANGES IN PUBLIC POLICY, AND A REVIEW OF THEORETIC AND EMPIRICAL WORK ON TOPICS INCLUDING WOMEN'S LABOR FORCE PARTICIPATION, JOB SEGREGATION, WAGE DIFFERENCES AND DISCRIMINATION.  
PREREQUISITE: ECONOMICS 100 OR PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MS. STEVENSON  
3 CREDITS

- ECON 317 THE ECONOMICS OF THE PUBLIC SECTOR. PROBLEMS IN PUBLIC FINANCE THE INCIDENCE AND EFFECTS OF TAXATION, GOVERNMENT EXPENDITURE PROGRAMS, AND PUBLIC DEBT OPERATIONS OF FEDERAL, STATE AND LOCAL GOVERNMENTS.  
PREREQUISITE: ECONOMICS 200  
3 LECT HRS  
MR. PODOFF  
3 CREDITS
- ECON 318 THE ECONOMICS OF STATE AND LOCAL GOVERNMENTS IN DEVELOPING A SYSTEMATIC FRAMEWORK FOR ANALYZING ECONOMIC PROBLEMS OF STATE AND LOCAL GOVERNMENTS, THIS COURSE WILL COVER SUCH TOPICS AS THE FINANCING OF EDUCATION, REVENUE-SHARING AND PROGRAM BUDGETING.  
PREREQUISITE: ECONOMICS 201  
3 LECT HRS  
MR. PODOFF  
3 CREDITS
- ECON 330 THE POLITICAL ECONOMY OF MONEY  
AN ECONOMIC ANALYSIS OF FINANCIAL INSTITUTIONS AND MARKETS IN THE AMERICAN ECONOMY. INSTITUTIONAL AND ECONOMIC FACTORS IN THE DETERMINATION OF THE MONEY SUPPLY ARE STUDIED, INCLUDING THE COMMERCIAL BANKING SYSTEM, THE FEDERAL RESERVE SYSTEM, AND THE MONEY AND CAPITAL MARKETS. CONCENTRATION ON THE THEORY AND EVIDENCE CONCERNING THE DEMAND AND SUPPLY OF MONEY AND ITS EFFECTS ON THE AMERICAN ECONOMY. THE DEBATE BETWEEN THE MONETARISTS AND THE FISCALISTS, AND CURRENT MONETARY ISSUES.  
PREREQUISITE: ECONOMICS 200 AND 209  
3 LECT HRS  
MR. TORTO  
3 CREDITS
- ECON 332 INDUSTRIAL ORGANIZATION  
A THEORETICAL FRAMEWORK FOR THE ANALYSIS AND EVALUATION OF THE PERFORMANCE OF AMERICAN INDUSTRY. EXAMINATION OF A GROUP OF AMERICAN INDUSTRIES TO ILLUSTRATE USEFULNESS OF ECONOMIC THEORY IN EXPLAINING PRICE AND OUTPUT POLICY. ANALYSIS OF ANTITRUST ACTIVITIES AS A PUBLIC POLICY DESIGNED TO PROMOTE BETTER MARKET PERFORMANCE.  
PREREQUISITE: ECONOMICS 210  
3 LECT HRS  
MR. ESPOSITO  
3 CREDITS
- ECON 345 INCOME DISTRIBUTION  
THIS COURSE DEALS WITH RECENT TRENDS IN AND THE CURRENT STATE OF INCOME INEQUALITY IN THE U.S. & CONCEPTUAL AND MEASUREMENT PROBLEMS. THE ROLE AND IMPACT OF GOVERNMENT ON THE DISTRIBUTION OF INCOME IS ANALYZED IN DETAIL.  
PREREQUISITE: ECONOMICS 100  
3 LECT HRS  
MR. PODOFF  
3 CREDITS
- ECON 351 MATHEMATICAL ECONOMICS  
STATIC AND DYNAMIC MODELS OF ECONOMIC BEHAVIOR WILL BE FORMULATED.  
PREREQUISITE: MATHEMATICS 125 OR EQUIVALENT, ECONOMICS 200-212 PER-MISSION OF INSTRUCTOR.  
3 LECT HRS  
MR. PRIMONT  
3 CREDITS
- ECON 352 ECONOMETRICS  
THE TRADITIONAL SIMPLE AND MULTIPLE LINEAR REGRESSION MODELS. APPLICATION OF THESE MODELS TO ESTIMATING BOTH MICROECONOMIC AND MACROECONOMIC RELATIONSHIPS.  
PREREQUISITE: ECONOMICS 155  
3 LECT HRS  
MR. PRIMONT  
3 CREDITS
- ECON 405 PRIVATE MARKETS AND POLITICAL POWER  
AN HISTORICAL AND ANALYTICAL EXAMINATION OF THE ECONOMIC ROLE OF GOVERNMENT IN CAPITALIST SOCIETIES.  
3 LECT HRS  
STAFF  
3 CREDITS
- ECON 435 THE MULTI-NATIONAL CORPORATIONS  
IMPACT OF THE MULTINATIONAL CORPORATION ON THE ECONOMIC AND SOCIAL STRUCTURES OF THE LESS DEVELOPED COUNTRIES. TOPICS WILL INCLUDE

- THEORIES OF DIRECT INVESTMENT, NATURE OF HOST COUNTRY-FOREIGN CONFLICTS, ISSUES IN LABOR RELATIONS, IMPACT ON ECONOMIC INTERGRATION AND POLICY ALTERNATIVES OF THE LESS DEVELOPED COUNTRIES. RESEARCH PROJECT AND REPORT REQUIRED.  
PREREQUISITE: ECONOMICS 235, 236 AND 237  
3 LECT HRS  
MS GARRITY  
3 CREDITS
- ECON 450 ECONOMIC MAN AND THE IMAGE OF MAN  
A SEMINAR OF THE ECONOMIC IMAGE OF MAN IN COMPARISON WITH THE IMAGE OF MAN AS SEEN IN OTHER DISCIPLINES. READINGS IN MODERN PHILOSOPHY, POLITICAL THEORY, SOCIOLOGY, PSYCHOLOGY, AND ECONOMICS.  
PREREQUISITE: ECONOMICS 100 OR PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MR. WOLOZIN  
3 CREDITS
- ECON 470 SPECIAL TOPICS  
3 LECT HRS  
STAFF  
3 CREDITS
- ECON 476 FIELD WORK IN ECONOMICS I II  
477 CAREFULLY SUPERVISED FIELD WORK IN INSTITUTIONS IN THE BOSTON AREAS WHICH DO RESEARCH ON ECONOMIC ISSUES. A WRITTEN DESCRIPTION OF THE RESEARCH, PERIODIC CONFERENCES WITH THE FACULTY SUPERVISOR, AND A FINAL REPORT ON THE FIELD WORK EXPERIENCE ARE REQUIRED MONTHLY. OPEN TO A LIMITED NUMBER OF STUDENTS PER SEMESTER. THE DEPARTMENT WILL PLACE THE STUDENT IN THE APPROPRIATE INSTITUTION.  
PREREQUISITE: PERMISSION OF THE DEPARTMENT  
3 LECT HRS  
MR. TORTO  
3 CREDITS
- ECON 478 INDEPENDENT STUDIES I II  
479 RESEARCH AND READING IN ANY AREA IN ECONOMICS; THE PURPOSE OF THIS COURSE IS TO ALLOW THE STUDENT TO DO ADVANCED WORK IN AN AREA OF ECONOMICS TO WHICH HE HAS ALREADY BEEN EXPOSED OR TO INVESTIGATE AN ENTIRELY NEW AREA.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
HRS BY ARRANGEMENT  
STAFF  
3 CREDITS
- ECON 480 SEMINAR  
A SENIOR SEMINAR CONDUCTED BY VARIOUS MEMBERS OF THE FACULTY WITH CONCENTRATION ON THEIR FIELDS OF SCHOLARLY INTEREST.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
3 LECT HRS  
STAFF  
3 CREDITS
- ECON 481 SEMINAR ON ENVIRONMENTAL CONTROL  
RESEARCH AND READING IN SELECTED TOPICS RELATED TO ENVIRONMENTAL CONTROL: SOCIAL COSTS, QUALITY OF THE ENVIRONMENT, ECONOMICS AND THE LAW, POPULATION, ECONOMIC GROWTH, INTERDISCIPLINARY APPROACHES, ETC.  
PREREQUISITE: ECONOMICS 249 OR PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MR. WOLOZIN  
3 CREDITS
- ECON 482 SEMINAR ON MONETARY AND FISCAL POLICY  
ANALYSIS AND EVALUATION OF THE TOOLS OF MONETARY AND FISCAL POLICY AND THEIR EFFECTIVENESS IN STABILIZING ECONOMIC ACTIVITY.  
PREREQUISITE: ECONOMICS 200  
3 LECT HRS  
MR. PODOFF  
3 CREDITS
- ECON 490 HONORS THESIS  
SENIOR ECONOMICS MAJORS WHO HAVE AT LEAST A 3.0 GRADE POINT AVERAGE BOTH OVERALL AND IN THEIR MAJOR CAN, WITH THE APPROVAL OF THE DEPARTMENT IN THE SPRING SEMESTER OF THEIR SENIOR YEAR, WRITE AN HONORS THESIS UNDER THE DIRECT SUPERVISION OF A MEMBER OF THE DEPARTMENT. THE THESIS ADVISOR WILL BE CHOSEN BY THE STUDENT AND THE NATURE OF THE RESEARCH PROJECT WILL BE AGREED UPON BY BOTH

STUDENT AND ADVISOR. THE THESIS ADVISOR AND THE STUDENT WILL THEN SELECT A READER WHO WILL BE AVAILABLE FOR CONSULTATION THROUGH THE TERM OF THE PROJECT. UPON COMPLETION OF THE THESIS, IT WILL BE SUBMITTED TO THE DEPARTMENT CHAIRPERSON WHO WILL SCHEDULE AN ORAL RESUME BEFORE THE ECONOMICS DEPARTMENT. THE GRADE FOR THE COURSE AND THE AWARDING OF HONORS WILL BE DETERMINED BY THE THESIS ADVISOR AND READER.

HRS BY ARRANGEMENT 3 CREDITS  
STAFF

ENGL 300 FIELD PRACTICUM IN ECONOMICS  
THE PRACTICUM IS DESIGNED TO ENABLE A STUDENT TO EARN 15 HOURS CREDIT -SIX IN HIS MAJOR FIELD- FOR A SEMESTER OF WORK DURING THE ACADEMIC YEAR WITH A GOVERNMENT AGENCY. THE PROGRAM IS DESIGNED TO INTEGRATE THIS EXPERIENCE INTO A MORE GENERAL EDUCATION PLAN WHICH WILL REQUIRE MAJORS TO COMPLETE A TYPE COURSE THAT IS SUBSTANTIALLY RELATED TO THE PROPOSED INTERNSHIP IN THE SEMESTER PRECEDING AND A SIMILARLY RELATED POST- COURSE IN THE SEMESTER FOLLOWING THE INTERNSHIP. SEE DEPT. FOR A SPECIFIC SAMPLE PROGRAM.  
PREREQUISITE: APPROVAL OF ECONOMICS DEPARTMENT  
MR. TOPTO

#### ENGLISH COLLEGE I

##### Graduation Requirements

The English department offers a wide variety of courses for majors and non-majors, of various levels of preparation, in imaginative literature, creative and practical writing, and language. Students majoring in English are invited to plan coherent individual programs of courses that best satisfy their own interest and needs. During pre-registration the English department of College I will make available to its majors several kinds of advising. Students may use the services of individual faculty advisors of the special pre-registration advising pool, and/or the director of the undergraduate major. Some students enjoy and profit from a continuing advising relationship with an individual member of the English faculty. They like the opportunity to plan, evaluate, and revise their academic programs with someone who knows them and their careers at URB well. If you would like such an advisor and do not now have one, consider approaching during this period some member of the faculty whom you know and like and whose advice you would value. Or, if you wish, ask the Director of the Undergraduate Program to assign you a faculty advisor. Office hours of faculty advisors will be prominently posted in the department on the sixth floor of College I.

Some students may wish simply to get some specific assistance with pre-registration. They may want to use the services of the advising pool: A group of faculty who will be available at regular, prime-time, mid-day hours. Exact hours during the pre-registration period will be posted in the department. Finally, students who have special problems (with the core requirement, for example) or special interests (in honors or independent study, for example) may need to see the Director of the Undergraduate major. Transfer students should see him sometime early in their careers at URB in order to have their major credits from other institutions reviewed. All students are reminded that instructors' full course descriptions, with reading lists and details concerning approach, papers and exams, will be posted in the department. Majors or prospective majors should also request a copy of the annually revised registration handbook for English majors. Majors without a departmental advisor should consult the Director of the Undergraduate major through the department office.

In planning a coherent program, the major shall begin with courses from the "Nature of literature" group, to become familiar with the wide choice of forms, themes, and cultural settings of literature in English, and to receive intensive practice in interpretive reading and writing. Thereafter, the major will be better able to select courses in keeping with the emphasis or pattern most congenial to his/her preferences and aims. Possible patterns include the following:

- 1) Courses collectively offering a survey of the historical continuities and variations of American and/or British literature;
- 2) Courses offering study of a major literary form-narrative; fiction, drama, poetry;

- 3) Courses which (together with cognate courses in other departments) study the literature and thought of a major cultural epoch - the Modern World, for example, or the Medieval and Renaissance worlds, or the World of the Enlightenment;
- 4) Courses in writing and language, with relevant courses in literature;
- 5) Courses which may be used together for the tracing of a major humane theme or problem through various stages of cultural history.

Most students currently agree that the best programs stress broad exposure in the early and intermediate stages, and save more specialized study for the end. All English majors are advised to study foreign languages. Those interested in attending graduate school should plan to achieve a reading knowledge of at least one foreign language before graduation.

The minimum major requirement at present is ten English courses beyond freshman English. Of these, at least six must be above the sophomore level (200-level courses are "Sophomore level" courses; 300-and 400-level courses are "upper division" courses). Majors may not count toward the major requirement more than one of the "Nature of literature" courses in poetry, drama, and fiction, but may count one of these plus 'Nature of Literature; Practical Criticism'. Majors may count toward the major requirement any Humanities course taught by a member of the English department.

Majors enrolled in the Teacher Certification Program may count six of their nine credits for the TCP seminar and practice teaching toward the major (the equivalent of two advanced courses). Transfer students may count toward the English major requirement no more than five English courses taken elsewhere; such courses must have received a grade of C or better and must be beyond the freshman English level. Transfer students must take, therefore, at least five English courses offered at U. Mass-Boston. Students needing advice as to how to classify and count such courses should consult the Director of the Undergraduate major. Students currently enrolled who wish to take summer school courses elsewhere for credit toward the English major here must apply for approval in advance, should secure course approval forms from the Registrar, and should consult the Director of the Undergraduate major during the preceding Spring.

Students may use the pass/fail option in courses that count toward the major. They should however, consult with their departmental advisors before doing so. Students planning to attend graduate school should use such an option in the major field sparingly.

#### ENGLISH COLLEGE II

##### Graduation Requirements

All College II English majors, beginning with the class of 1977, must take English 206-207; both semesters are required for the degree but either 206 or 207 may be used as prerequisite for 300 and 400 level courses. Students in College I taking College II English courses may satisfy the prerequisite with the required Course in their department. Transfer students, upon the approval of the Director of the Undergraduate major, may substitute an equivalent course from another school as prerequisite. Majors must also take eight other English courses at the 200 level or above, one of which must be in a period before 1800. Any two humanities courses taught by members of either English department may be counted toward the total number of English courses required for the major. Courses numbered under 300 have no prerequisites other than freshman English and are open to non-majors as well as majors. Non-English majors, students majoring in an interdisciplinary program, and students in OptionB may request instructors to waive the prerequisite for 300 and 400 level courses: In such cases permission to enroll in a course is at the discretion of the instructor.

#### ENGL

##### 010 FRESHMAN ENGLISH

INTENSIVE WORK ON FUNDAMENTALS OF GRAMMAR, PUNCTUATION AND RHETORIC. CONTINUOUS PRACTICE IN WRITING AND IN REVISING. RESTRICTED TO STUDENTS ADVISED TO TAKE THIS COURSE BY THE DIRECTOR OF FRESHMAN ENGLISH. THIS COURSE DOES NOT COUNT TOWARD THE COLLEGE I WRITING REQUIREMENT.

**PREREQUISITE: ADMISSION TO TEACHER CERTIFICATION PROGRAM**  
3 LECT HRS, 20 LAR HRS (PRACTICE TEACHING) 9 CREDITS  
STAFF
- FRENCH  
Graduation Requirements  
French majors must take a minimum of 30 credits of advanced courses in French.  
Of these, 9 credits are required: French 301, 302 and 303, which students are  
urged to elect in their sophomore year. In addition, the distribution of a  
minimum 21 credits at the junior-senior level must include 3 credits in an  
advanced language in French and 3 credits in an advanced language course  
in French and 3 credits in each of three different periods of French literature  
at the option of the student.  
Students participating in the departmental TCP Program may count six credits  
out of the nine earned in the program toward fulfilling major requirements.  
Moreover, they are urged to take, if at all possible, at least three additional  
credits in French civilization.

It is strongly recommended that French majors elect the following: 1) at least two years of course work in a second foreign language; 2) two semesters of French history or one semester of French History and one semester either of French History or French Art.

Honors Thesis: A student may receive 6 credits toward the total 30 major credits for acceptable work on an honors thesis written in French under the direction of an advisor from the French faculty. See department chairperson.

At the end of the senior year, majors should take a comprehensive oral exam in French, covering three specific fields of French literature and culture (the fields to be chosen by the student), to be eligible for one of the French department prizes.

It is recommended that students--particularly those planning to teach--take the educational testing service (ETS) language proficiency exams in the Spring of their senior year.

FRENCH 101 ELEMENTARY FRENCH I  
INTENSIVE PRACTICE IN THE FOUR LANGUAGE SKILLS, WITH AN AUDIO-LINGUAL APPROACH. FOR STUDENTS WHO HAVE NO CREDITABLE TRAINING IN FRENCH.  
4 LECT HRS., 2 LAB HRS

- GERMAN  
Graduation Requirements  
A major in German consists of four main emphases:  
1. A solid grounding in basic language skills as prerequisite to upper level  
work (Ger 201, 202, 205 and 206).  
2. Intensive work on the upper level in small seminar groups which are con-  
ducted entirely in German and which stress reading comprehension and com-  
position.  
3. Weekly tutorial meetings in small groups of 3-5 for sophomores, juniors  
and seniors. Focus is on oral discussion

4. Exposure to a broad range of German literature and culture in courses offered in English translation. A substantial portion of the readings in these courses must be done in German. Discussion in English.

Specifically, German majors are required, except where exceptions by the department are granted, to take the following courses, usually in the sequence listed:

- I. Lower level prerequisites
  - A. Ger 201 (intermediate German for reading comprehension) and 205 (Audio-lingual intermediate German) taken simultaneously in sophomore year.
  - B. Ger 202 and 206 taken simultaneously following completion of 201, 205.

11. Upper level requirements
 

|                                                           |                |
|-----------------------------------------------------------|----------------|
| Ger 220, 221 (sophomore tutorials)                        | 1 credit each  |
| Ger 320, 321 (junior tutorials)                           | 2 credits each |
| Ger 390, 391 (junior seminars)                            | 3 credits each |
| Ger 420 (senior tutorials)                                | 2 credits each |
| Ger 490 (senior seminar)                                  | 3 credits each |
| Four additional literature courses in English translation | 3 credits each |

In addition Ht 227 and 228 or Ger 250, 251 are required.  
Note: Ger 250, 251 may not be used for both literature and history requirements.

3 credits each

Total upper level credits required 29 + 6

#### Departmental Honors

For graduation with honors in German, students must have a 3.0 cumulative average at the end of their senior year. They must petition by the midterm of their penultimate semester to the department to be allowed to write an honors paper in independent study. Honors will be awarded on the basis of 1) their over-all performance in their major courses and 2) on their work in independent study.

- |            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |           |

# HISTORY

## HISTORY COLLEGE I

### Graduation Requirements

Majors are required to take at least forty (40) semester hours in courses  
offered by the department of History. In fulfilling that requirement, each  
History major is required to take:

- Two semesters of introductory History (History 100-199)
- Two semesters of U.S. History (History 265-266)
- One semester of Research and Methods (History 480 or 481)
- One semester of Non-U.S. pre-Industrial History  
(not including introductory courses)
- Two semesters of Non-U.S. post-Industrial History, one of  
which must be European History (not including  
introductory courses)
- Twelve semester hours of elective History courses

At least one semester course in the major's program must be either Asian,  
African, or Latin American History; and at least one semester course must be  
in European History.

## HISTORY COLLEGE II

### Graduation Requirements

1. For classes of 1976 and beyond: History 111 and 112 in the freshman year.  
Note: For those students taking either Europe Since 1660 I or II, History  
128 or History 109 in place of History 112, they must in addition take  
History 111 or 6 credits (3 of which are already required) in European  
History prior to 1700.

2. History 265 and 266 (Survey of American History) in the sophomore year;

3. History 480 or 481 (Research & Methods Seminar) in the junior year;

4. Three hours (one course) of upperclass course work in European History  
of the ancient, medieval or early modern period, before 1700;

5. Six hours (two courses) of upperclass course work in European History  
since 1700;

6. Twelve hours (four courses) of other courses offered by the department  
beyond the introductory level.

# HONORS PROGRAM

The requirements for receiving a diploma with honors in History are:

1. Satisfactory completion of all University and departmental  
requirements for graduation;
2. A 3.0 cumulative average in all University courses, and a  
3.3 cumulative average in all History courses through the  
senior year;
3. Satisfactory completion of the senior honors paper.

Students who intend to graduate in June of their senior year may apply between  
mid-May of their junior year and mid-September of their senior year; those  
intending to graduate in January should apply between mid-December and mid-  
January of the preceding academic year.

Candidates whose eligibility is approved by the department shall be informed  
that they may try for honors by writing an honors paper. The honors committee  
shall name an individual reading committee made up of three readers to judge  
the paper. Approval of the paper by at least two of the three readers is  
necessary for acceptance. A student accepted into the honors program must  
enroll in a 3-credit reading course, History 479-Independent reading, under  
the direction of an advisor.

## ITALIAN

### Graduation Requirements

Majors are required to take a minimum of 30 credits in junior-senior level  
courses in Italian, including Italian 301-302 (or its equivalent). All  
majors must have taken Italian 311 (or its equivalent) as prerequisite for  
advanced literature courses.

At the end of the senior year, majors are encouraged to take a comprehensive  
oral and written examination in Italian, both as an academic experience  
summing up their Italian studies and as qualification for the University and  
departmental awards in Italian. The examination would cover three specific  
fields of Italian literature (to be chosen by the student from among: 1. Il  
Duecento E Il Trecento; 2. Umanesimo E Rinascimento; 3. Il Seicento E Il  
Settecento; 4. Romanticismo E Risorgimento; 5. Il Novecento) But the student  
would be expected to have some knowledge of the course and direction of  
Italian literature in general. Students who wish to take the examination  
should consult the academic advisor at the beginning of the Spring semester  
of the senior year.

### DEPARTMENTAL HONORS

To graduate with honors, a student must; 1. Achieve a 3.5 average in his  
Italian studies; 2. Submit to the Italian department a short research paper  
written during the second semester of his senior year under the supervision of  
the departmental advisor; 3. Take the comprehensive examination; 4. Be re-  
commended by the departmental honors committee; 5. Attain a 3.0 overall grade  
average.

The student may elect to discuss his honors paper in an open departmental  
meeting instead of taking the oral part of the comprehensive examination.

The department grants 6 credits towards the total 30 major credits for  
successful completion of the honors program.

101 ELEMENTARY ITALIAN I  
FOR STUDENTS WHO HAVE NO CREDITABLE TRAINING IN ITALIAN.  
INTENSIVE PRACTICE IN THE FOUR LANGUAGE SKILLS. WITH AN  
AUDIO-LINGUAL APPROACH.

LAWJUS 104 INTRODUCTION TO LAW AND JUSTICE  
INTRODUCTION TO LAW AND JUSTICE EXPLORES BOTH THE MUTUAL SUPPORT AND THE FREQUENT GAPS BETWEEN LAW AND JUSTICE AS REVEALED IN A SELECTION OF LITERARY, HISTORICAL, ANTHROPOLOGICAL, POLITICAL, PHILOSOPHICAL AND SOCIOLOGICAL MATERIALS. IT RANGES INQUIRINGLY FROM PRIMARY DEFINITIONS (PLATO, THE CONSTITUTION OF THE UNITED STATES) TO CONTEMPORARY SITUATIONS (WISEMAN'S 'LAW AND ORDER', MIDDLESEX COURT, KAFKA'S TRIAL) THAT POSE THE RECURRING TENSIONS BETWEEN WESTERN CULTURES' NEED FOR ORDER AND ITS HAUNTING YEN FOR JUSTICE THAT TRANSFUSES LAW. THE COURSE - WHICH PARALLELS THE FOUNDATION COURSE IN LAW AND JUSTICE - USES LECTURES, DISCUSSIONS, FIELD TRIPS, FILMS AND TAPES, AND EXPERTS OUTSIDE THE UNIVERSITY COMMUNITY.  
3 LECT HRS

#### MANAGEMENT

#### Degree Requirements

The requirements for the degree in Management for those students who enter the Management Program in September, 1976, and for students who entered as Freshmen in September, 1975, are listed in the section of this course listing entitled Graduation Requirements.

The degree requirements for those students who entered the Management Program as transfers in September, 1975, and January, 1976, are contained in the document, Requirements for the Bachelor's Degree in Management-July, 1975. Copies of this document are available in the College of Professional Studies---Dean's Office---080-3-161.

#### Concentration Requirements

Eight concentration areas will be available to Management students in Fall of 1976. A description of the goals and requirements for each of the concentrations follows.

#### Accounting

The Concentration in Accounting will prepare students to work with accounts in private business. The central point of view is the use of accounting information for decision making within a firm. The course can serve as a step toward becoming a Certified Public Accountant, but students would need to take additional courses beyond those currently available at UN/Boston before sitting for the C.P.A. examinations.

Students electing the Concentration in Accounting are required to successfully complete the following courses:

MGT 442 Cost and Management Accounting  
MGT 460 Management Information Systems and Controls  
MGT 443 Financial Analysis for Lenders and Investors  
MGT 445 Issues in Financial Accounting

#### Human Resources Management

There are two options within the Human Resources Management Concentration: Personnel and Labor Relations in the Private Sector and Personnel and Labor Relations in the Public Sector. These concentrations are designed to prepare students for careers in such areas as manpower planning; recruitment, selection, and training; wage and salary administration; performance evaluation; equal employment opportunity; and the general area of industrial and labor relations.

Students electing the Human Resources Concentration are required to take the following courses:

#### Option One: Personnel and Labor Relations in the Private Sector

MGT 450 Behavioral Techniques in Human Resources Management  
MGT 451 Organizational Development  
MGT 452 Private Sector Personnel Systems  
MGT 453 Private Sector Labor Relations Systems

#### Option Two: Personnel and Labor Relations in the Public Sector

MGT 450 Behavioral Techniques in Human Resources Management  
MGT 451 Organizational Development  
MGT 454 Public Sector Personnel Systems  
MGT 455 Public Sector Labor Relations Systems

#### Management Science

The Concentration in Management Science is designed to prepare students for careers in such areas as computer systems analysis, operations analysis, production management, and transportation systems. It also is an excellent concentration option for generalists who intend to seek a graduate degree in Management.

Students electing the Management Science Concentration are required to take the following courses:

MGT 420 Mathematical Models of Management Systems I  
MGT 421 Mathematical Models of Management Systems II

and at least two of the following:

MGT 422 Managerial Applications of Computer Programming  
MGT 423 Statistical Decision Theory  
MGT 425 Advanced Topics in Management Science  
MGT 352 Mathematical Economics

#### Marketing

The Concentration in Marketing is designed for students who wish to pursue careers in sales and marketing management. While most of these opportunities are found in profit oriented organizations in the private sector, interesting career possibilities exist for those with marketing skills in non-profit and public sector organizations.

Students electing the Marketing Concentration are required to take the following courses:

MGT 430 Sales and Sales Management  
MGT 432 Marketing Research  
MGT 433 Marketing Management

#### Private Financial Management

The Concentration in Private Financial Management provides continued study of the knowledge and skills that are needed for informed decision making by persons who manage the finances of private business or by those who direct funds into firms through extending loans or making equity investments.

Students electing the Private Financial Management Concentration are required to take the following courses:

MGT 444 The Theory of Business Finance  
MGT 443 Financial Analysis for Lenders and Investors

One of the following:

MGT 460 Management Information Systems and Controls  
MGT 445 Issues in Financial Accounting  
MGT 446 Special Problems in Small Business

And an elective in a subject related to finance approved by\*the advisor.

#### Public Financial Management

The Concentration in Public Financial Management is designed for students who wish to pursue careers in the management of finances in the public sector. Positions in the budgeting, finance, and taxation departments of federal, state, and local government are the typical entry level jobs in this area. In addition, consulting firms, granting agencies, and private non-profit organizations need people with expertise in public financial management. Students electing this concentration will develop the knowledge and skills needed to deal with all aspects of financial management in public and non-profit organizations.

Students electing the Public Financial Management Concentration are required to take the following courses:

MGT 433 Management of Public Policy  
MGT 440 Public Budgeting Systems  
MGT 441 Financial Management in Government Entities

One of:

MGT 442 Cost and Management Accounting  
MGT 460 Management Information Systems and Controls  
MGT 317 Public Finance

#### Public Management

The Concentration in Public Management is designed for students who wish to pursue careers in the public sector but are unsure which specific area to choose. Students electing this concentration, therefore, will take a general set of courses that will orient them to a wide range of career possibilities in the public sector including those in personnel, labor relations, budgeting, finance, and program development. A variety of entry level management positions exist. Among these are those of legislative staff, executive assistant, departmental staff, and assistant town manager.

Students electing this concentration are required to take the following courses:

MGT 433 Management of Public Policy

and either:

MGT 436 Policy Analysis: Physical Delivery Systems OR

MGT 437 Policy Analysis: Social Delivery Systems

and either:

MGT 442 Cost and Management Accounting OR

MGT 460 Management Information Systems and Controls

### 100 THE LIBERAL ARTS AND THE WORLD OF WORK

THIS COURSE IS DESIGNED TO INFORM STUDENTS IN BROAD TERMS ABOUT THE WORLD OF WORK THEY PLAN TO ENTER: THE SOCIAL FUNCTIONS OF WORK, THE ORGANIZATIONAL SETTINGS IN WHICH WORK TAKES PLACE, THE DIFFERENT FORMS OF WORK AND THE VALUES ATTACHED TO WORK. THE COURSE WILL ALSO INTRODUCE STUDENTS TO THE CONCEPTUAL AND DISCIPLINARY TOOLS THEY WILL ENCOUNTER AT LATER STAGES IN THE MANAGEMENT PROGRAM. THIS COURSE WILL BE TAUGHT BY A TEAM OF FACULTY FROM SEVERAL FIELDS IN THE SOCIAL SCIENCES AND THE HUMANITIES.

MS. TAGLIACCOZZO, MR. BRODERICK, MR. SWARTZ, AND STAFF

4 CREDITS

MGT

### 102 WORK, TECHNOLOGY AND CULTURAL CHANGE

THIS COURSE INTRODUCES STUDENTS TO STUDY OF THE RELATIONSHIP BETWEEN TECHNOLOGICAL CHANGE AND THE CONDITIONS OF CULTURE, WITH PARTICULAR ATTENTION TO THE NATURE AND FUTURE OF WORK IN MODERN SOCIETY. THE IMPACT OF TECHNOLOGY ON SOCIETY IS EXAMINED IN THE PAST AND PRESENT, WITH PROJECTIONS OF FUTURE IMPACT. WORK AND GENERAL CULTURE ARE STUDIED AS THEY SHOW THE EFFECT OF TECHNOLOGY. ALTERNATIVE FEATURES ARE CONSIDERED THROUGH UTOPIAS AND CRITICAL PROJECTIONS.

MR. PATTERSON

4 CREDITS

MGT

### 110 COMMUNICATIONS

THIS COURSE, MEETING IN SMALL SECTIONS, WILL INTRODUCE STUDENTS TO THE IMPORTANCE OF EFFECTIVE COMMUNICATION IN BOTH THEIR CAREERS AND THEIR PERSONAL LIVES. TAUGHT BY MEMBERS OF THE ENGLISH DEPARTMENT OF COLLEGES 1 AND 11, THE COURSE WILL PROVIDE INTENSIVE PRACTICE IN WRITING AND SPEAKING, AS WELL AS EMPHASIZING CRITICAL THINKING, READING, AND LISTENING.

4 CREDITS

MGT

### 111 COMMUNICATIONS

A CONTINUATION OF THE TOPICS COVERED IN MGT 110.

PREREQUISITE: MGT 110

ENGLISH STAFF

4 CREDITS

### 125 COLLEGE ALGEBRA

INTENSIVE STUDY OF COLLEGE ALGEBRA DESIGNED FOR THOSE WHO HAVE NOT TAKEN SUFFICIENT MATHEMATICS TO PREPARE THEM FOR THE TOPICS COVERED IN MGT 330.

MS. AUSLANDER AND STAFF

4 CREDITS

MGT

### 130 QUANTITATIVE METHODS

THIS COURSE WILL INTRODUCE STUDENTS TO BASIC QUANTITATIVE IDEAS AND TOOLS THAT ARE AN IMPORTANT PART OF THEIR GENERAL EDUCATION AND WILL BE USEFUL IN UNDERSTANDING, DESCRIBING, AND SOLVING PROBLEMS THEY WILL ENCOUNTER LATER IN THE MANAGEMENT PROGRAM AND IN THEIR CAREERS. THE COURSE WILL INCLUDE A REVIEW OF ALGEBRA, FOLLOWED BY TOPICS FROM THE MATHEMATICS OF FINANCE AND FINITE MATHEMATICS. THIS COURSE IS THE BASIC COURSE IN QUANTITATIVE METHODS AND WILL BE TAKEN BY MOST STUDENTS DURING THEIR FRESHMAN YEAR. STUDENTS WHO HAVE NOT HAD TWO YEARS OF HIGH SCHOOL ALGEBRA MAY NEED TO TAKE MGT 125 TO PREPARE FOR THIS COURSE; A PLACEMENT EXAM IS AVAILABLE FOR STUDENTS TO DETERMINE IF THEY NEED TO TAKE MGT 125.

MS. AUSLANDER AND STAFF

4 CREDITS

MGT

### 140 INTRODUCTION TO MANAGEMENT

A FIRST COURSE IN THE FUNCTIONS AND PROBLEMS IN MANAGEMENT. DESIGNED TO INTRODUCE STUDENTS TO THE CONCRETE WORLD OF MANAGEMENT FOR WHICH MUCH OF THEIR SUBSEQUENT COURSE WORK WILL BE DESIGNED TO PREPARE THEM.

4 CREDITS

MANAGEMENT FACULTY

MGT

### 220 MANAGERIAL STATISTICS

THIS IS A NON-CALCULUS INTRODUCTION TO STATISTICAL DESCRIPTION AND INFERENCE. THE PURPOSE OF THE COURSE IS TO GIVE THE STUDENTS SUFFICIENT KNOWLEDGE SO THAT THEY WILL BE ABLE TO INTELLIGENTLY EVALUATE STATISTICAL REPORTS AND TO PROPERLY GATHER, TABULATE, AND ANALYZE RESEARCH DATA. TOPICS COVERED INCLUDE TABULATION AND STATISTICAL MEASUREMENT OF SAMPLE DATA, PROBABILITY (INCLUDING COMMON DISTRIBUTIONS), PARAMETRIC AND NONPARAMETRIC HYPOTHESES TESTING (TWO SAMPLE, CONTINGENCY TABLES, GOODNESS OF FIT), AND ANALYSIS OF VARIANCE), ESTIMATION, REGRESSION, CORRELATION, SURVEY AND SAMPLING TECHNIQUES, AND EXPERIMENTAL DESIGN.

MR. ERIKSEN AND STAFF

MGT

### 260 MASSACHUSETTS STATE GOVERNMENT AND ITS MANAGEMENT

A STUDY OF THE STRUCTURE AND FUNCTIONS OF MASSACHUSETTS STATE GOVERNMENT AND THE ORGANIZATIONAL PROBLEMS WHICH ARE INVOLVED IN ITS OPERATION. THE ROLES OF THE LEGISLATURE AND OF THE EXECUTIVE IN PLANNING, ORGANIZATIONAL DEVELOPMENT, STAFFING AND DIRECTING, AND CONTROL WILL BE DISCUSSED. THE BUDGET PROCESS, PERSONNEL AND CIVIL SERVICES WILL BE EXAMINED IN SOME DETAIL. THE APPLICABILITY OF SIMPLE MANAGERIAL PRINCIPLES TO THE STATE GOVERNMENT WILL BE DISCUSSED FROM THE STANDPOINT OF THE CITIZEN, WHO IS BOTH ITS OWNER AND ITS ULTIMATE CONSUMER.

MS. NEWMAN

3 CREDITS

MGT

### 320 INTRODUCTION TO OPERATIONS RESEARCH

THIS COURSE IS CONCERNED WITH THREE MAJOR SUBJECTS. THE FIRST SUBJECT, LINEAR PROGRAMMING, IS THE AREA OF GREATEST CONCENTRATION. THIS INCLUDES THE FORMULATION OF LINEAR OPTIMIZATION PROBLEMS AND THEIR SOLUTION USING GENERAL AND SPECIAL PURPOSE ALGORITHMS. SOME NETWORK ANALYSIS IS DISCUSSED. THE SECOND SECTION OF THE COURSE CONSISTS OF A BRIEF INTRODUCTION TO THE BASIC COMPUTER LANGUAGE. THE THIRD SUBJECT IS A STUDY OF THE VERY FUNDAMENTAL ASPECTS OF DIFFERENTIAL AND INTEGRAL CALCULUS AS APPLIED TO MANAGERIAL PROBLEMS. THE COURSE BUILDS ON MATERIALS DEVELOPED IN MGT 130.

PREREQUISITE: MGT 130 OR EQUIVALENT

STAFF

3 CREDITS

MGT

### 321 OPERATIONS MANAGEMENT

THIS IS AN INTRODUCTION TO THE PRINCIPLE PROBLEMS AND ISSUES THAT CONFRONT THE MANAGER OF THE INTERACTIONS AMONG PHYSICAL RESOURCES WHICH RESULT IN THE PRODUCTION OF A GOOD OR DELIVERY OF A SERVICE. THE COURSE ALSO EXPLORES METHODOLOGIES OF ANALYSIS AND DECISION MAKING AS APPLIED TO THESE PROBLEMS AND ISSUES. APPROPRIATE QUANTITATIVE TECHNIQUES SUCH AS CASH FLOW COVERAGE, MATHEMATICAL PROGRAMMING, REGRESSION ANALYSIS, DECISION ANALYSIS, QUEUING MODELS, AND SIMULATION ARE COVERED. THE REMAINDER OF THE COURSE STUDIES THE FUNDAMENTAL ELEMENTS OF PRODUCTION AND SERVICES DELIVERY MANAGEMENT. INCLUDES ARE SUCH TOPICS AS FACILITIES MANAGEMENT, WORK MEASUREMENT, PROCESS DESIGN, FORECASTING, SCHEDULING AND DISPATCHING, PRODUCTION AND INVENTORY CONTROL, QUALITY CONTROL, EFFECTS OF TECHNOLOGICAL CHANGE, AND ECONOMICS OF TRANSPORTATION AND LOGISTICS.

PREREQUISITE: MGT 320

STAFF

3 CREDITS

MGT

### 330 MARKETING IN THE PUBLIC AND PRIVATE SECTORS

MANAGERS—WHETHER IN BUSINESS, GOVERNMENT, OR OTHER TYPES OF ORGANIZATIONS—SHOULD BE CAPABLE OF PARTICIPATING IN THE PROCESS THROUGH WHICH AN ORGANIZATION ATTEMPTS TO ACHIEVE ITS OBJECTIVES BY ACTING ON AND REACTING TO ITS ENVIRONMENT. IN THIS COURSE, STUDENTS WILL LEARN TO ANALYZE THE STRUCTURE AND BEHAVIOR OF: - SOCIAL, ECONOMIC, TECHNOLOGICAL, POLITICAL, LEGAL AND OTHER SYSTEMS WITHIN WHICH AN ORGANIZATION OPERATES;

|      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |

| MGT | 434 | MANAGEMENT OF PUBLIC POLICY<br>THIS COURSE EXAMINES THE ROLE OF PUBLIC ADMINISTRATORS IN THE DESIGN AND IMPLEMENTATION OF PUBLIC POLICY. IT DEALS WITH THE TECHNICAL, POLITICAL, AND SOCIAL ISSUES INVOLVED IN MANAGING FEDERAL, STATE, AND LOCAL UNITS OF GOVERNMENT. CONSIDERING PUBLIC ADMINISTRATION AS A PROFESSION AS WELL AS AN ACADEMIC SUBJECT, THE COURSE COVERS THE NEED FOR AND HISTORICAL DEVELOPMENT OF PUBLIC ADMINISTRATION, THE PROBLEMS OF MANAGERIAL DECISION MAKING AND ETHICS IN GOVERNMENT, CRUCIAL ASPECTS OF THE PUBLIC BUDGETING AND PERSONNEL PROCESSES, AND THE FUTURE OF PUBLIC ADMINISTRATION.<br><br>STAFF<br><br>3 CREDITS                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |  |
| MGT | 435 | PROGRAM PLANNING AND EVALUATION<br>THIS COURSE DEALS WITH HOW MANAGERS PLAN PROGRAMMATIC OBJECTIVES AND EVALUATE THE ATTAINMENT OF THE OBJECTIVES. IT DISCUSSES NOT ONLY THE TECHNIQUES OF PLANNING AND EVALUATION BUT ALSO THE POLITICAL AND ORGANIZATIONAL ENVIRONMENTS IN WHICH THESE TECHNIQUES ARE EXECUTED. TOPICS COVERED INCLUDE THE DETERMINATION OF PERFORMANCE CRITERIA AND STANDARDS, CHOICE OF RESEARCH DESIGN AND INSTRUMENTS, PRESENTATION OF EVALUATION DATA AND REPORTS, AND THE UTILIZATION OF EVALUATION RESULTS TO IMPROVE ORGANIZATIONAL EFFICIENCY AND EFFECTIVENESS.<br><br>POLICY ANALYSIS: PHYSICAL DELIVERY SYSTEMS<br>THIS COURSE EXAMINES THE USE OF THE TOOLS OF POLICY ANALYSIS IN THE DELIVERY OF PHYSICAL SYSTEMS SUCH AS HOUSING, TRANSPORTATION, UTILITIES. THE PLANNING, IMPLEMENTATION, EVALUATION, AND CONTROL OF PHYSICAL DELIVERY SYSTEMS AND THEIR IMPACT ON LAND USE AND THE QUALITY OF LIFE IS THE MAJOR STRESS OF THE COURSE. THE PURPOSE OF THE COURSE IS TO ENABLE STUDENTS TO APPRECIATE AND UNDERSTAND THE TOOLS OF ANALYSIS IN THE DELIVERY OF PUBLIC SECTOR PROGRAMS.<br>PREREQUISITE: MGT 330, 331 435 OR PERMISSION OF INSTRUCTOR.<br>STAFF<br><br>3 CREDITS |  |
| MGT | 436 | POLICY ANALYSIS: SOCIAL DELIVERY SYSTEMS<br>THIS COURSE EXAMINES THE USE OF THE TOOLS OF POLICY ANALYSIS IN THE DELIVERY OF SOCIAL SYSTEMS SUCH AS HEALTH, EDUCATION, WELFARE, CRIMINAL JUSTICE. THE PLANNING, IMPLEMENTATION, EVALUATION, AND CONTROL OF SOCIAL DELIVERY SYSTEMS AND THEIR IMPACT ON THE TOTAL WELL BEING OF THE TARGET POPULATIONS IS THE MAJOR STRESS OF THE COURSE. THE PURPOSE OF THE COURSE IS TO ENABLE STUDENTS TO APPRECIATE AND UNDERSTAND THE TOOLS OF ANALYSIS IN THE DELIVERY OF PUBLIC SECTOR PROGRAMS.<br>PREREQUISITE: MGT 435 OR PERMISSION OF INSTRUCTOR<br>STAFF<br><br>3 CREDITS                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |
| MGT | 437 | PUBLIC BUDGETING SYSTEMS<br>THIS COURSE EXAMINES PUBLIC BUDGETING AT THE FEDERAL, STATE AND LOCAL LEVELS. ITS EMPHASIS IS ON HOW THE PUBLIC MANAGER USES BUDGETING IN THE PLANNING, EVALUATION, AND CONTROL OF PUBLIC PROGRAMS. TOPICS COVERED INCLUDE THE BUDGET PROCESS, EMPHASIZING THE RECENT FEDERAL REFORMS, THE TOOLS OF ANALYSIS USED IN PUBLIC BUDGETING, THE APPLICATIONS OF PROGRAM BASED BUDGETING SYSTEMS AT THE FEDERAL, STATE, AND LOCAL LEVEL, AND THE FUTURE DIRECTIONS FOR PUBLIC BUDGETING.<br>PREREQUISITE: MGT 330, 331 OR PERMISSION OF INSTRUCTOR<br>STAFF<br><br>3 CREDITS                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |  |

| MGT | 452 | PRIVATE SECTOR PERSONNEL SYSTEMS<br>AN OPERATIONAL APPROACH TO THE MANAGEMENT OF HUMAN RESOURCES IN PRIVATE-FOR-PROFIT ORGANIZATIONS, EMPHASIS WILL BE GIVEN TO THE TECHNIQUES OF MANPOWER PLANNING IN THE FIRM WITH PARTICULAR ATTENTION BEING DEVOTED TO THE ISSUES OF MANPOWER FORECASTING, RECRUITMENT AND SELECTION, MANPOWER UTILIZATION AND DEVELOPMENT, PERFORMANCE RATINGS, OCCUPATIONAL MOBILITY, COMPENSATION SYSTEMS, INCENTIVE SYSTEMS DESIGN AND PERSONNEL DEPARTMENT DESIGN AND MANAGEMENT.<br>PREREQUISITE: MGT 450, 451 OR PERMISSION OF INSTRUCTOR<br>STAFF<br><br>3 CREDITS                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |  |

All Mathematics majors graduating after August 31, 1976, are required to take: Math 140, Math 141, Phys 113 (Lab optional) Math 150, Math 240; Math 260 Math 310, or Math 320, Math 360, Math 430, and four other Mathematics courses above Math 260.

All Mathematics majors graduating on or before August 31, 1976, have the option of meeting the set of requirements of or following the old set, viz.: "Math 140, Math 141, Phys 113 (lab optional), Math 150, Math 240, Math 255 or Math 258 (both of which are no longer offered here, cf. previous catalogues for descriptions), Math 320, Math 360 and six other Mathematics courses above Math 258."

## GRADUATE PROGRAM

A complete description of the graduate program in Mathematics appears in a section on graduate programs at the end of this catalog.

100 MATHEMATICS AS AN ASPECT OF CULTURE  
AN HISTORICAL-CULTURAL SURVEY OF THE MAIN AREAS OF MATHEMATICS.  
EMPHASIZES THE INTERPLAY OF THESE AREAS WITH MAN'S PHILOSOPHIC,  
ARTISTIC, COMMERCIAL, SOCIAL AND SCIENTIFIC PURSUITS.  
PREREQUISITE: PERMISSION OF DEPARTMENT PRIOR TO REGISTRATION. LIMITED  
TO THOSE WHO FOUND HIGH SCHOOL MATHEMATICS A SEVERE STUMBLING  
BLOCK AND WHOSE MAJOR DOES NOT DIRECTLY CALL  
FOR FURTHER MATHEMATICAL SKILLS

3 LECT HRS  
STAFF 4 CREDITS

MATH 105 INTRODUCTION TO COMPUTER CONCEPTS: HISTORICAL AND RECENT DEVELOPMENTS; COMPUTER PROCESSING EQUIPMENT AND ITS USES; COMPUTER LANGUAGE; DISCUSSION OF COMPUTER APPLICATIONS, COMPONENTS AND TERMINOLOGY. 3 LECT HAS 4 CREDITS  
STAFF

MATH 110 BASIC MATH AND COLLEGE ALGEBRA  
FOR STUDENTS WITH WEAK MATH BACKGROUND WHO WANT TO DEVELOP SKILLS  
FOR FURTHER MATH AND SCIENCE COURSES. COVERS A REVIEW OF BASIC HIGH  
SCHOOL MATH AND SOME OF THE MATERIAL IN MATH 130. GENERALLY LIMITED  
TO STUDENTS WITH LESS THAN 3 YEARS OF HIGH SCHOOL MATH PREPARATION.  
3 LECT HRS 6 CREDITS  
STAFF

**MATH**

**120 LIBERAL ARTS MATHEMATICS.** DESIGNED FOR STUDENTS WHO DO NOT EXPECT TO TAKE MANY MATHEMATICS AND/OR SCIENCE COURSES. AIMS AT PROVIDING AN APPRECIATION OF THE NATURE OF MATHEMATICS. TOPICS SERVING THAT END ARE SELECTED FROM NUMBER THEORY, ELEMENTARY TOPOLOGY, COMBINATORICS, ETC. THIS COURSE IS NOT A PREREQUISITE FOR OTHER COURSES AND IT HAS NO OTHER COLLEGE MATHEMATICS COURSES AS A PREREQUISITE.

MATH 126 ELEMENTARY STATISTICS  
STATISTICS WITHOUT CALCULUS. BEGINS WITH BRIEF REVIEW OF ELEMENTARY PROBABILITY, FINITE DISTRIBUTIONS AND PROBABILITY DENSITY FUNCTIONS. COMPUTATION OF ELEMENTARY ANALYSIS OF VARIANCE AND REGRESSION. EXPECTATION, CONFIDENCE INTERVALS AND A FEW DISTRIBUTION-FREE NON-PARAMETRIC METHODS OF DATA ANALYSIS.  
PREREQUISITE: MATH 125  
3 LECT HWS 4 CREDITS  
STAFF

**453** PRIVATE SECTOR LABOR RELATIONS SYSTEMS  
EXPLORES THE NATURE, DEVELOPMENT AND CURRENT PROBLEMS OF UNION-  
MANAGEMENT RELATIONS IN THE PRIVATE SECTOR. ATTENTION IS FOCUSED  
ON TECHNIQUES RELATED TO FACT FINDING, MEDIATION, ARBITRATION,  
CONTRACT NEGOTIATION AND THE RESOLUTION OF EMPLOYEE GRIEVANCES.  
IT STRESSES THE OPERATION OF LABOR MARKETS AND LABOR FORCES ANALYSIS  
AND THE IMPACT OF UNEMPLOYMENT AND TECHNOLOGICAL CHANGE ON THE  
NATURE OF LABOR RELATIONS IN THE PRIVATE SECTOR.  
PREREQUISITE: MGT 450, 451 OR PERMISSION OF INSTRUCTOR  
STAFF

454  
PUB-100 PUBLIC SECTOR PERSONNEL SYSTEMS  
THIS COURSE EXPLORES THE PERSONNEL PROCESS THROUGH THE LIGHT OF THE  
UNIQUE ASPECTS OF "PUBLIC" EMPLOYMENT. IT EXAMINES THE ROLE OF THE  
PUBLIC PERSONNEL MANAGER AND THE NATURE OF THE LEGAL, INSTITUTIONAL  
AND SOCIO-PSYCHOLOGICAL FORCES THAT SHAPE THAT ROLE. IT WILL IN  
ADDITION TO THE TRADITIONAL AREAS OF PERSONNEL MANAGEMENT, PROVIDE  
A COMPREHENSIVE REVIEW OF THE NATURE OF THE CIVIL SERVICE SYSTEM AND  
OF THE PROGRAMS AND PROBLEMS RELATED TO ITS IMPLEMENTATION.  
PREREQUISITE: MG 450, 451 OR PERMISSION OF INSTRUCTOR  
CREDITS: 3

435 PUBLIC SECTOR LABOR RELATIONS  
THIS COURSE ANALYZES THE NATURE AND DEVELOPMENT OF PUBLIC EMPLOYEES  
ORGANIZATIONS AND LABOR RELATIONS AT VARIOUS GOVERNMENTAL LEVELS,  
AND THE NATURE OF THE BARGAINING, MEDIATION AND CONTRACT ADMINISTRATION  
PROCESSES IN THE PUBLIC SECTOR. EMPHASIS WILL BE GIVEN ALSO TO THE  
INTERFACE BETWEEN POLITICAL SYSTEMS AND THE NATURE OF PUBLIC  
EMPLOYMENT. THE ROLE OF THE GOVERNMENT IN COLLECTIVE BARGAINING  
WILL BE ANALYZED AS WELL AS THE FORCES SHAPING PUBLIC POLICY IN  
LEGISLATIVE AND EXECUTIVE ACTIONS AND ADMINISTRATIVE RULINGS.  
STAFF 3 CREDITS

460 MANAGEMENT INFORMATION SYSTEMS AND CONTROLS

STUDY OF MANAGEMENT'S NEED FOR INFORMATION FOLLOWED BY DESIGN OF SYSTEMS TO PROVIDE THE QUANTITATIVE PARTS OF THAT INFORMATION, DRAWING ON DATA FROM ACCOUNTING RECORDS, INTERNAL STATISTICS AND OTHER SOURCES. INCLUDES EXAMINATION OF HOW SUCH INFORMATION IS USED THROUGH BUDGETS AND THE REVIEW OF PERFORMANCE.

### Graduation Requirements

The Mathematics department is contemplating expanding this requirement to allow students to follow either a pure or an applied mathematics concentration. Confer with the Mathematics department for details.

|      |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                          |           |

| MATH | 130 | COLLEGE ALGEBRA AND TRIGONOMETRY PROVIDES A REVIEW OF COLLEGE ALGEBRA, TRIGONOMETRY AND ENOUGH ANALYTIC GEOMETRY TO BEGIN THE CALCULUS SEQUENCE. FOR STUDENTS WITH ADEQUATE BASIC MATH SKILLS WHO NEED TO REVIEW AND EXTEND THEIR KNOWLEDGE OF ALGEBRA, ETC., BEFORE TAKING MORE ADVANCED COURSES IN MATH OR SCIENCE. ORDINARILY SCIENCE AND MATH MAJORS SHOULD BEGIN WITH MATH 140 AND/OR MATH 150. (IN CERTAIN CASES AND WITH THE PERMISSION OF BOTH INSTRUCTORS, A STUDENT WHO HAS COMPLETED MATH 110 MAY TAKE MATH 130 FOR CREDIT.) | 3 LECT HRS<br>STAFF      | 4 CREDITS |
| MATH | 135 | SURVEY OF CALCULUS DEVELOPED INTUITIVELY AND APPLIED TO PROBLEMS IN BIOLOGY, ECONOMICS, PSYCHOLOGY AND GEOMETRY. A COURSE FOR NON-PHYSICAL SCIENCE AND NON-MATHEMATICS MAJORS. (MATH 136 OR MATH 141)                                                                                                                                                                                                                                                                                                                                   | 3 LECT HRS<br>STAFF      | 4 CREDITS |
| MATH | 136 | APPLIED CALCULUS WITH STATISTICS. CALCULUS FOR FUNCTIONS OF TWO VARIABLES - PARTIAL DERIVATIVES, MAXIMIZATIONS, INTEGRATION. APPLICATIONS OF CALCULUS TO INFERENCE STATISTICS: STATISTICAL SAMPLING, STATISTICAL MEASUREMENTS, ESSENTIAL PROBABILITY THEORY, SIGNIFICANCE OF STATISTICAL MEASUREMENTS, REGRESSIONAL EXAMPLES FROM THE BIOLOGICAL AND SOCIAL SCIENCES. FOR NON-MATHEMATICS MAJORS ONLY. MATH 126 AND MATH 136 MAY NOT BOTH BE TAKEN FOR CREDIT. PREREQUISITE: MATH 135 (SURVEY OF CALCULUS) OR EQUIVALENT                | 3 LECT HRS<br>STAFF      | 4 CREDITS |
| MATH | 137 | INTRODUCTION TO MATHEMATICAL COMPUTER PROGRAMMING A DETAILED INTRODUCTION TO ALGORITHMS AND PROBLEM-SOLVING TECHNIQUES. DESCRIPTION OF ONE OR MORE ALGEBRAIC LANGUAGES. GIVES EXPERIENCE IN PROGRAMMING AND DEBUGGING VIA SEVERAL PROBLEMS. PREREQUISITE: MATH 130 OR EQUIVALENT                                                                                                                                                                                                                                                        | 3 LECT HRS<br>STAFF      | 4 CREDITS |
| MATH | 140 | CALCULUS I THE FIRST IN THE CALCULUS SEQUENCE OF COURSES FOR SCIENCE AND MATHEMATICS MAJORS. STARTS WITH THE BASIC CONCEPTS OF FUNCTIONS AND LIMITS. TOPICS COVERED INCLUDE: DERIVATIVES AND THEIR APPLICATIONS, DEFINITE AND INDEFINITE INTEGRALS WITH APPLICATIONS TO GEOMETRICAL AND PHYSICAL PROBLEMS, DISCUSSION OF ALGEBRAIC AND TRANSCENDENTAL FUNCTIONS. A STUDENT WHO HAS RECEIVED CREDIT FOR MATH 135 MAY NOT TAKE MATH 140 FOR CREDIT WITHOUT THE EXPLICIT PERMISSION OF THE DEPARTMENT                                      | 4 LECT HRS<br>STAFF      | 4 CREDITS |
| MATH | 141 | CALCULUS II CONTINUATION OF MATH 140. TOPICS INCLUDE: INTEGRATION, APPLICATIONS OF THE INTEGRAL, SEQUENCES AND SERIES. PREREQUISITE: MATH 140 OR EQUIVALENT                                                                                                                                                                                                                                                                                                                                                                             | 4 LECT HRS<br>STAFF      | 4 CREDITS |
| MATH | 150 | VECTOR GEOMETRY AND MATRICES PLANAR AND SOLID ANALYTIC GEOMETRY FROM THE VECTOR-SPACE POINT OF VIEW. ELEMENTARY LINEAR SYSTEMS OF EQUATIONS. ELEMENTARY OPERATIONS FOR $2 \times 2$ AND $3 \times 3$ MATRICES OVER $\mathbb{R}$ , DETERMINANTS. PREREQUISITE: MATH 130 OR EQUIVALENT                                                                                                                                                                                                                                                    | 3 LECT HRS<br>STAFF      | 3 CREDITS |
| MATH | 240 | CALCULUS III                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                          |           |
| MATH | 260 | LINEAR ALGEBRA I ELEMENTARY THEORY OF ABSTRACT VECTOR SPACES. TOPICS INCLUDE: LINEAR INDEPENDENCE, RANKS, DIMENSION, LINEAR MAPS AND MATRICES, DETERMINANTS, SIMILARITY, EIGENVALUES AND EIGENVECTORS. PREREQUISITE: MATH 141 AND MATH 150. MATH 240 IS ADVISORY PREPARATION FOR MATH 260. FOR HUT MAY BE TAKEN ALONG WITH MATH 260.                                                                                                                                                                                                    | 3 LECT HRS<br>STAFF      | 4 CREDITS |
| MATH | 261 | LINEAR ALGEBRA II TOPICS INCLUDE - THE PROBLEM OF SIMILARITY, JORDAN CANONICAL FORM, EUCLIDEAN AND HERMITIAN SPACES, ORTHOGONALITY, NORMAL OPERATORS, SPECTRAL THEOREM: MULTILINEAR ALGEBRA, QUADRATIC FORMS, ETC.                                                                                                                                                                                                                                                                                                                      | 3 LECT HRS<br>STAFF      | 3 CREDITS |
| MATH | 267 | COMPUTER PROGRAMMING II THE STRUCTURE AND INTERNAL LANGUAGE OF COMPUTERS. STUDY OF ASSEMBLY LANGUAGE. PREREQUISITE: MATH 137 OR EQUIVALENT                                                                                                                                                                                                                                                                                                                                                                                              | 3 LECT HRS<br>MR. MILLER | 4 CREDITS |
| MATH | 310 | APPLIED ORDINARY DIFFERENTIAL EQUATIONS COMPREHENSIVE STUDY OF ORDINARY DIFFERENTIAL EQUATIONS, SERIES SOLUTIONS TO DIFFERENTIAL EQUATIONS, BESSEL FUNCTIONS, CHARACTERISTIC FUNCTIONS, FOURIER SERIES. MAY NOT BE TAKEN FOR CREDIT BY ANYONE WHO HAS TAKEN MATH 255 OR ITS EQUIVALENT. PREREQUISITE: MATH 141 AND EITHER MATH 150 OR PHYSICS 114                                                                                                                                                                                       | 3 LECT HRS<br>STAFF      | 3 CREDITS |
| MATH | 311 | APPLIED PARTIAL DIFFERENTIAL EQUATIONS STUDY OF HEAT FLOW AND OTHER PHYSICAL PROBLEMS AND THE PARTIAL DIFFERENTIAL EQUATION PROBLEMS THAT ARISE FROM THEM. USING THE MATHEMATICAL TECHNIQUES OF SEPARATION OF VARIABLES, FUNDAMENTAL SOLUTIONS, SUPERPOSITION AND CHARACTERISTICS. USE OF DIRAC DELTA FUNCTION; ASYMPTOTICS. CLASSIFICATION OF PARTIAL DIFFERENTIAL EQUATIONS. PREREQUISITE: MATH 240, 310, PHY 113 (LAB OPTIONAL) COREQUISITE                                                                                          | 3 LECT HRS<br>STAFF      | 3 CREDITS |
| MATH | 320 | ADVANCED CALCULUS I PARTIAL DERIVATIVES, DIFFERENTIALS, DIFFERENTIATION OF COMPOSITE FUNCTIONS, INVERSES OF TRANSFORMATIONS, JACOBIANS, IMPLICIT FUNCTION THEOREMS, FUNCTIONAL DEPENDENCE, GRADIENT, DIVERGENCE, CURL, MULTIPLE INTEGRATION, CHANGE OF VARIABLE, IMPROPER DOUBLE INTEGRALS, LINE INTEGRALS, GREEN'S THEOREM, SIMPLY-CONNECTED AND MULTIPLY-CONNECTED DOMAINS, SURFACE INTEGRALS, STOKES' AND GAUSS' THEOREMS. PREREQUISITE: MATH 240                                                                                    | 3 LECT HRS<br>STAFF      | 3 CREDITS |
| MATH | 321 | ADVANCED CALCULUS II CONVERGENCE AND DIVERGENCE OF INFINITE SERIES, TAYLOR SERIES, UNIFORM CONVERGENCE OF SERIES, FOURIER SERIES AND ORTHOGONAL FUNCTIONS, INTRODUCTION TO INTEGRAL TRANSFORMS, INTRODUCTION TO COMPLEX ANALYSIS. PREREQUISITE: MATH 320                                                                                                                                                                                                                                                                                | 3 LECT HRS<br>STAFF      | 3 CREDITS |

- MATH 330 APPLIED DISCRETE MATHEMATICS  
STUDY OF THE BASIC DISCRETE MATHEMATICAL STRUCTURES OF GRAPHS, NETWORKS, TREES USE OF RECURRENCE RELATIONS, INTRODUCTIONS TO LINEAR PROGRAMMING.  
PREREQUISITE: MATH 141, 150. MATH 137, 260 ARE RECOMMENDED.  
3 LECT HRS  
STAFF  
3 CREDITS
- MATH 360 ABSTRACT ALGEBRA I  
REVIEW OF SET THEORY, OVERVIEW OF ALGEBRAIC STRUCTURE, ELEMENTARY THEORY OF GROUPS, RINGS AND MODULES.  
PREREQUISITE: MATH 240 OR EQUIVALENT  
3 LECT HRS  
STAFF  
3 CREDITS
- MATH 361 ABSTRACT ALGEBRA II  
POLYNOMIAL RINGS, FIELD THEORY, GALOIS THEORY, FURTHER TOPICS IN GROUP AND RING THEORY.  
PREREQUISITE: MATH 360  
3 LECT HRS  
STAFF  
3 CREDITS
- MATH 370 HISTORY OF MATHEMATICS I  
TRADES THE DEVELOPMENT OF MATHEMATICS FROM ANCIENT TIMES TO AND INCLUDING THE DEVELOPMENT OF CALCULUS. EMPHASIS WILL BE ON THE DEVELOPMENT OF MATHEMATICAL IDEAS AND METHODS OF PROBLEM SOLVING. ONLY ONE SEMESTER OF MATH 370-371 MAY COUNT TOWARDS THE MAJOR, BUT BOTH MAY BE TAKEN FOR GRADUATION CREDIT.  
PREREQUISITE: AT LEAST JUNIOR STANDING  
3 LECT HRS  
STAFF  
(OFFERED EVERY OTHER YEAR)  
(OFFERED IN FALL 1977)  
3 CREDITS
- MATH 371 HISTORY OF MATHEMATICS II  
CONTINUES THE HISTORY OF MATH FROM THE DEVELOPMENT OF CALCULUS TO THE 20TH CENTURY WITH SAME EMPHASIS AS IN MATH 370. ONLY ONE SEMESTER OF MATH 370-371 MAY COUNT TOWARDS THE MAJOR BUT BOTH MAY BE TAKEN FOR GRADUATION CREDIT.  
PREREQUISITE: AT LEAST JUNIOR STANDING. MATH 370 IS RECOMMENDED BUT IS NOT A STRICT PREREQUISITE.  
3 LECT HRS  
STAFF  
(OFFERED EVERY OTHER YEAR)  
(OFFERED IN SPRING 1978)  
3 CREDITS
- MATH 401 INTRODUCTION TO COMPUTER SCIENCE  
ANALYSIS OF ALGORITHMS AND TECHNIQUES FOR CONSTRUCTION OF COMPUTER PROGRAMS.  
PREREQUISITE: MATH 267 OR EQUIVALENT  
3 LECT HRS, 3 LAB HRS  
STAFF  
4 CREDITS
- MATH 425 NUMERICAL ANALYSIS  
APPROXIMATIONS OF ROOTS, FINITE DIFFERENCES, INTERPOLATION, NUMERICAL SOLUTIONS OF DIFFERENTIAL AND ALGEBRAIC EQUATIONS. STUDENTS WILL HAVE ACCESS TO COMPUTER TERMINALS.  
PREREQUISITE: MATH 310 WITH MATH 137 RECOMMENDED OR MATH 320  
3 LECT HRS  
STAFF  
3 CREDITS
- MATH 440 THEORY OF COMPUTATIONS  
ABSTRACT MODELS OF COMPUTATIONAL PROCESSES. MATHEMATICAL FORMULATIONS OF THE NATION OF EFFECTIVE PROCEDURE. UNSOLVABLE PROBLEMS.  
PREREQUISITE: MATH 240 OR EQUIVALENT  
3 LECT HRS  
STAFF  
3 CREDITS
- MATH 445 PROBABILITY AND STATISTICS I  
DISCRETE PROBABILITY THEORY, SOME LIMIT THEOREMS, RANDOM VARIABLES AND GENERATING FUNCTIONS.  
PREREQUISITE: MATH 310 OR MATH 320 OR EQUIVALENT  
3 LECT HRS  
STAFF  
3 CREDITS

- MATH 446 PROBABILITY AND STATISTICS II  
RENEWAL THEORY, APPLICATION OF RENEWAL THEORY, STOCHASTIC PROCESSES. ELEMENTARY THEORY OF CONTINUOUS RANDOM VARIABLES AND SOME STATISTICAL THEORY.  
PREREQUISITE: MATH 445  
3 LECT HRS  
STAFF  
3 CREDITS
- MATH 450 AN INTRODUCTION TO REAL ANALYSIS  
A THOROUGH TREATMENT OF CALCULUS OF FUNCTIONS OF ONE REAL VARIABLE. EMPHASIS IS ON PROOFS, INCLUDES DISCUSSION OF TOPOLOGY OF REAL LINE, LIMITS, CONTINUITY, DIFFERENTIATION, INTEGRATION AND SERIES.  
PREREQUISITE: MATH 310 OR MATH 320. (IF MATH 260 HAS ALREADY BEEN TAKEN, THEN EITHER OF THESE COURSES MAY BE A COREQUISITE.)  
3 LECT HRS  
STAFF  
3 CREDITS
- MATH 455 AN INTRODUCTION TO COMPLEX ANALYSIS  
COMPLEX NUMBERS, COMPLEX FUNCTIONS, POWER SERIES, TRIGONOMETRIC FUNCTIONS, MOEBIUS TRANSFORMATIONS, DIFFERENTIATION AND INTEGRATION OF ANALYTICAL FUNCTIONS, CAUCHY'S THEOREM, RESIDUES, SINGULARITIES, MEROMORPHIC FUNCTIONS.  
PREREQUISITE: MATH 310 OR MATH 320  
3 LECT HRS  
STAFF  
3 CREDITS
- MATH 458 THEORY OF NUMBERS  
PRIME NUMBERS, CONGRUENCES AND RESIDUES, APPROXIMATION OF REAL NUMBERS BY RATIONALS, DIOPHANTINE EQUATIONS.  
PREREQUISITE: MATH 260 OR EQUIVALENT  
3 LECT HRS  
STAFF  
3 CREDITS
- MATH 460 TOPICS IN GEOMETRY  
TOPICS IN CLASSICAL EUCLIDEAN AND NON-EUCLIDEAN GEOMETRIES. PROJECTIVE GEOMETRY, LATTICES, FINITE GEOMETRIES.  
PREREQUISITE: MATH 260 OR EQUIVALENT  
3 LECT HRS  
STAFF  
3 CREDITS
- MATH 465 DIFFERENTIAL GEOMETRY  
AN INTRODUCTION TO CLASSICAL DIFFERENTIAL GEOMETRY WITH CORRESPONDING MODERN ALGEBRAIC APPROACHES, LEADING TO AN INTRODUCTION TO RIEMANNIAN GEOMETRY. TECHNIQUES INVOLVE TENSOR ANALYSIS AND MULTILINEAR ALGEBRA.  
PREREQUISITE: MATH 320 AND MATH 260  
3 LECT HRS  
STAFF  
3 CREDITS
- MATH 470 MATHEMATICAL LOGIC I  
STATEMENT CALCULUS, PREDICATE CALCULUS, AXIOMATIC THEORIES, TRUTH AND VALIDITY MODELS.  
PREREQUISITE: MATH 240 OR EQUIVALENT  
3 LECT HRS  
STAFF  
3 CREDITS
- MATH 471 MATHEMATICAL LOGIC II  
PROPERTIES OF FORMAL THEORIES-CONSISTENCY, COMPLETENESS, DECIDABILITY, GOEDEL'S INCOMPLETENESS THEOREM FOR FIRST ORDER ARITHMETIC.  
PREREQUISITE: MATH 470  
3 LECT HRS  
STAFF  
3 CREDITS
- MATH 475 TOPOLOGY  
TOPOLOGICAL SPACES, CONVERGENCE AND COMPACTNESS AND CONNECTIONS PROPERTIES, INTRODUCTION TO HOMOTOPY THEORY AND COMBINATIONAL TOPOLOGY.  
PREREQUISITE: MATH 450  
3 LECT HRS  
STAFF  
3 CREDITS
- MATH 478 READING IN MATHEMATICS  
ADVANCED LEVEL STUDY OF VARIOUS TOPICS ACCORDING TO INDIVIDUAL

INTERESTS. OPEN ONLY TO THOSE STUDENTS WHO HAVE PROVEN CAPABILITIES IN MATHEMATICS.  
 PREREQUISITE: PERMISSION OF DEPARTMENT PRIOR TO REGISTRATION  
 MRS BY ARRANGEMENT  
 STAFF  
 3 CREDITS

MATH 586 CURRICULUM, METHODS AND PRACTICE. TEACHING OF MATHEMATICS IN SECONDARY SCHOOLS

THE ISSUES, PRINCIPLES, CURRICULUM AND METHODS INVOLVED IN TEACHING MATHEMATICS IN SECONDARY SCHOOLS. INCLUDING WORK IN A MATHEMATICAL - MATERIALS LABORATORY.  
 PREREQUISITE: 6 HOURS EDUCATION COURSES AND ADMISSION TO THE TEACHER CERTIFICATION PROGRAM  
 3 LECT HRS. 20 HRS PRACTICE TEACHING  
 STAFF  
 GIVEN USUALLY IN THE SPRING SEMESTER EACH YEAR  
 9 CREDITS

MUSIC

Graduation Requirements

Music majors must take a minimum of 34 credits in Music which must include Musics 121-122, 221-222, and 202. All Music majors will also be expected to take at least two courses in Music History and Literature.

All Music majors must acquire at least an elementary proficiency at the piano. A minimum of three years' membership in a University performing group is also required. For more detailed information, the prospective major should apply to the secretary of the Music department for the syllabus of basic music major requirements.

Each student majoring in Music will be assisted by a departmental advisor to plan a sequence of courses that will suit his/her own needs and satisfy the requirements of the Music department.

MUSIC 001 CHORUS  
 3 LECT HRS  
 STAFF  
 1 CREDIT

MUSIC 111 INTRODUCTION TO MUSIC  
 BASIC MUSIC MATERIALS, PRINCIPLES OF DESIGN, AND THE CULTURAL SIGNIFICANCE OF REPRESENTATIVE WORKS IN HISTORICAL SEQUENCE. DESIGNED PRIMARILY FOR NON-MUSIC MAJORS.  
 3 LECT HRS  
 MR. REPMAN, MR. PATTERSON  
 4 CREDITS

MUSIC 112 INTRODUCTION TO MUSIC  
 A CONTINUATION OF MUSIC 111. BASIC MATERIALS, PRINCIPLES OF DESIGN AND THE CULTURAL SIGNIFICANCE OF REPRESENTATIVE WORKS IN HISTORICAL SEQUENCE. DESIGNED PRIMARILY FOR NON-MUSIC MAJORS.  
 3 LECT HRS  
 MR. HUGGLER, MR. PATTERSON  
 4 CREDITS

MUSIC 121 FIRST YEAR THEORY  
 HARMONY, MELODY AND MUSIC THEORY.  
 PREREQUISITE: PERMISSION OF INSTRUCTOR  
 3 LECT HRS  
 MR. REPMAN, MS. LEAVENWORTH, MR. PATTERSON  
 4 CREDITS

MUSIC 122 FIRST YEAR THEORY  
 A CONTINUATION OF MUSIC 121. HARMONY, MELODY AND MUSIC THEORY.  
 PREREQUISITE: PERMISSION OF INSTRUCTOR  
 3 LECT HRS  
 MR. REPMAN, MS. LEAVENWORTH, MR. PATTERSON  
 4 CREDITS

MUSIC 123 EAR TRAINING AND SIGHT SINGING  
 A COURSE COMBINING MELODIC, HARMONIC DICTATION AND SIGHT SINGING OF MELODIES. ENCOMPASSING SIMPLE MATERIAL TO MEDIUM DIFFICULTY, COMMON AND COMPOUND TIME, PRIMARY TRIADS.  
 2 LECT HRS  
 MR. PRINS  
 2 CREDITS

MUSIC 124 EAR TRAINING AND SIGHT SINGING  
 ENCOMPASSING MEDIUM DIFFICULTY TO DIFFICULT MELODIES, COMBINED RHYTHMS, SECONDARY TRIADS AND SEVENTH CHORDS. THIS IS A COMPANION COURSE TO THEORY 121-122 AND ELEMENTS OF MUSIC 131-132.  
 2 LECT HRS  
 MR. PRINS  
 2 CREDITS

MUSIC 131 ELEMENTS OF MUSIC  
 THE FUNCTION OF SCALES, INTERVALS, TRIADS, CHORDS IN ROOT POSITION AND INVERSIONS. USE OF NONHARMONIC TONES AND MODULATION, CORRELATED SIGHT-SINGING, EAR TRAINING, DICTATION, ANALYSIS AND KEYBOARD DRILL. DESIGNED PRIMARILY FOR MUSIC MAJORS.  
 2 LECT HRS  
 2 CREDITS

MUSIC 132 ELEMENTS OF MUSIC  
 A CONTINUATION OF MUSIC 131. THE FUNCTION OF SCALES, INTERVALS, TRIADS, CHORDS IN ROOT POSITION AND INVERSIONS. USE OF NONHARMONIC TONES AND MODULATION, CORRELATED SIGHT-SINGING, EAR TRAINING, DICTATION, ANALYSIS AND KEYBOARD DRILL. DESIGNED PRIMARILY FOR MUSIC MAJORS.  
 2 LECT HRS  
 MS. LEAVENWORTH  
 2 CREDITS

MUSIC 140 MOVEMENT AND DANCE  
 AN INTRODUCTION TO THE BASIC PRINCIPLES AND TECHNIQUES OF MODERN DANCE AND MOVEMENT. CONCEPTS OF SPATIAL AND TEMPORAL RELATIONSHIPS DISCUSSED AT LENGTH FOR THE PURPOSE OF -TRANSLATION- INTO CONCRETE, EXPERIMENTAL IMAGES. CREATIVE WORK IS AN IMPORTANT ELEMENT OF THE COURSE. ASSIGNMENTS RUN THE GAMUT FROM STRICTLY TECHNICAL EXERCISES, SUCH AS ANALYZING AN ISOLATED MOVEMENT OR GESTURE, TO AN ESSAY IN FREE COMPOSITION, SUCH AS DEVISING AN EMBODIMENT THROUGH DANCE OF A PHILOSOPHICAL OR EMOTIONAL STATE OF MIND.  
 3 SEM/LAR HRS

 1 CREDIT

MUSIC 190 BALLET TECHNIQUE I  
 INDIVIDUAL AND CLASS INSTRUCTION IN INSTRUMENT AND VOICE. INTRODUCTION IN THE FOLLOWING INSTRUMENTS HAS BEEN OFFERED: FLUTE, VIOLIN, PIANO, CLASSICAL GUITAR, CLARINET, OBOE, SAXOPHON. THE PROGRAM IS OPEN TO STUDENTS WHO ARE OFFICIALLY DECLARED AS MUSIC MAJORS AND WHO ARE EITHER ACTIVELY ENGAGED IN FULFILLING MUSIC MAJOR REQUIREMENTS OR HAVE COMPLETED ALL OF THESE. LESSONS ARE GIVEN WEEKLY FOR A TWELVE-WEEK PERIOD. STUDENTS ARE RESPONSIBLE FOR PROVIDING THEIR OWN INSTRUMENTS. THIS COURSE CAN BE REPEATED WITH THE PERMISSION OF THE INSTRUCTOR AND THE APPROVAL OF THE DEPARTMENT CHAIRMAN.

PHILOSOPHY

Graduation Requirements

Standard Philosophy majors are required to take both PH 100 (Introduction to Philosophy) and PH 120 (Introduction to Logic). Intermediate courses are historical surveys or introductions to special areas of philosophical inquiry which are intended to provide basic knowledge of the field. Advanced courses are given in the more specific areas of Philosophy.

Summary of requirements for the standard major: PH 100, PH 120, PH 211, PH 212, and five additional courses including at least two from the advanced level.

Summary of the requirements for the special major in Ethics, Social and Political Philosophy: PH 100 and eight additional courses including at least five from the following fields with at least one course in each field: History of Ethics, Social and Political Philosophy; Methodology of Ethics.

|          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |      |     |

## PHYSICS

### Graduation Requirements

Majors must earn a minimum of 32 credits in Physics courses, including Physics 211, 312, 321, and 4 credits of laboratory courses at the level of 281 or higher, and must complete Mathematics 255. Physics courses intended primarily for non-science students (courses numbered between 121 and 150) are open to majors but do not normally count toward the minimum requirements for majors. With the prior approval of the department, a physics major may complete up to 9 credits of course work in other natural sciences, mathematics, and the Physics 121-150 series in lieu of advanced Physics electives.

Most Physics majors (especially those planning graduate work and/or professional careers in physical science) will want to take more Physics and Mathematics than the minimum required for graduation. Additional courses recommended for students planning to pursue graduate studies are Physics 322, 350, 421, and 422 and two more semesters of mathematics, such as Mathematics 270 and 271. Some graduate schools require a reading knowledge of Russian, German, or French. All majors are encouraged to gain facility in computer programming.

Whenever possible, Physics majors should begin their work in both Physics and Mathematics in the freshman year by enrolling in Physics 113-114, 181-182, and Calculus. Students who are interested in Physical Science or Engineering, but who are not ready to move into Physics 113-114, should consider enrolling first in Physics 105-106.

### Courses for Non-science Majors

Courses numbered between 121 and 150 are intended primarily for non-science students. They all emphasize general ideas rather than technical details and are taught with minimal reliance on mathematics. The first semester of these courses has no prerequisites and is open to all students. They satisfy the natural science requirements and carry 4 credits. The interdisciplinary course Science for Survival (Intr-d 125-126) is taught principally by Physics faculty members and can be considered as part of the 121-150 series.

### Introductory Physics Courses

Physics 105-106 is a laboratory-centered course intended for students who are not necessarily well prepared in science or mathematics but who have a scientific or technical inclination. It may also appeal to non-science students who prefer a practical, rather than theoretical, introductory course. Physics 107-108 is a course intended primarily for majoring in biological or behavioral sciences. Familiarity with college level mathematics (algebra or trigonometry) is desirable. Physics 113-114 is a calculus level introductory course intended for students in the physical sciences, pre-engineering and mathematics. Physics 211 completes the introductory sequence of calculus level courses.

- PHYSIC 105 EXPLORING THE PHYSICAL WORLD I II  
106 A LABORATORY-CENTERED COURSE THAT USES OBSERVATION AND MEASURE-  
MENT TO APPROACH THE PRINCIPLES UNDERLYING EVERYDAY DEVICES  
AND PHENOMENA. THE COURSE IS INTENDED ESPECIALLY FOR STUDENTS WITH A  
TECHNICAL OR SCIENTIFIC INCLINATION WHO ARE NOT WELL PREPARED IN  
SCIENCE AND MATHEMATICS AND THEREFORE NEED AN INTRODUCTORY FOUNDATION  
COURSE. ALSO OPEN TO NON-SCIENCE STUDENTS WHO ENJOY LABORATORY WORK  
AND PREFER THE PRACTICAL TO THE THEORETICAL.  
2 LECT HRS, 3 LAB HRS  
STAFF  
4 CREDITS
- PHYSIC 107 COLLEGE PHYSICS I II  
108 NON-CALCULUS INTRODUCTORY PHYSICS FOR THE STUDENT WITH A STRONG  
INTEREST OR BACKGROUND IN SCIENCE. TOPICS IN MECHANICS, WAVE MOTIONS,  
HEAT, KINETIC THEORY OF GASES, ELECTRICITY, OPTICS, ATOMIC AND NUCLEAR  
PHYSICS, BIOLOGY MAJORS, PREMEDICAL STUDENTS, AND OTHERS WHO NEED  
OR WANT LABORATORY WORK IN PHYSICS SHOULD ENROLL CONCURRENTLY IN  
PHYSICS 171-172. (PHYSICS 141-142 IS ALSO AVAILABLE).  
PREREQUISITE: MATHEMATICS 130 OR PERMISSION OF INSTRUCTOR.  
3 LECT HRS, 1 DISC HR  
STAFF  
4 CREDITS
- PHYSIC 113 FUNDAMENTALS OF PHYSICS I  
114 TOPICS IN CLASSICAL PHYSICS, INCLUDING MECHANICS, THERMODYNAMICS, AND  
KINETIC THEORY. BASIC CONCEPTS OF CALCULUS ARE INTRODUCED WITHIN THE  
CONTEXT OF PHYSICAL PHENOMENA. STUDENTS WHO NEED OR WANT LABORATORY  
WORK IN PHYSICS SHOULD ENROLL CONCURRENTLY IN PHYSICS 141. (PHYSICS  
171 IS ALSO AVAILABLE).  
COREQUISITE: MATHEMATICS 140  
3 LECT HRS, 2 DISC HRS  
STAFF  
4 CREDITS
- PHYSIC 116 FUNDAMENTALS OF PHYSICS II  
117 ELECTRICITY, MAGNETISM, WAVES AND LIGHT. FURTHER DEVELOPMENT OF  
MATHEMATICAL TOOLS OF PHYSICS. STUDENTS WHO NEED OR WANT LABORATORY  
WORK IN PHYSICS SHOULD ENROLL CONCURRENTLY IN PHYSICS 142. PHYSICS  
172 IS ALSO AVAILABLE. NOTE: PHYS 114 MAY BE SUBSTITUTED  
FOR MATH 140 AS A PREREQUISITE FOR MATH 240.  
COREQUISITE: MATHEMATICS 141  
3 LECT HRS, 2 DISC HRS  
STAFF  
4 CREDITS
- PHYSIC 121 INTRODUCTION TO ASTRONOMY I II  
122 DESCRIPTIVE INTRODUCTION TO ASTRONOMY AND ASTROPHYSICS. INCLUDES  
STUDY OF THE PLANETS, STARS, GALAXIES, PHYSICS OF SPACE EXPLORATION  
AND LIFE ON OTHER WORLDS.  
3 LECT HRS  
STAFF  
4 CREDITS
- PHYSIC 123 CONCEPTS OF MODERN PHYSICS I II  
124 A VIEW OF THE NATURAL WORLD AS REVEALED BY PHYSICS. EMPHASIZING BASIC  
CONCEPTS AND UNIFYING PRINCIPLES. THE COURSE IS PRESENTED AT A LEVEL  
ACCESSIBLE TO NON-SCIENCE STUDENTS. THE MATERIAL IS DEVELOPED IN  
HISTORICAL CONTEXT AND INCLUDES TOPICS OF CONTEMPORARY INTEREST.  
3 LECT HRS  
STAFF  
4 CREDITS
- PHYSIC 131 SPECIAL TOPICS  
ONE OR MORE TOPICS IN PHYSICS, CHOSEN FOR THEIR CURRENT SCIENTIFIC  
SIGNIFICANCE AND - OR IMPORTANCE TO SOCIETY, WILL BE COVERED.  
SCIENTIFIC, TECHNICAL AND APPROPRIATE SOCIAL ASPECTS WILL BE  
DISCUSSED. SPECIFIC TOPICS AND NUMBER OF CREDITS TO BE ANNOUNCED IN  
PREREQUISITE: WILL BE STATED WHEN SPECIFIC TOPICS ARE ANNOUNCED.  
STAFF  
1-4 CREDITS
- PHYSIC 132 ENERGY  
THE PROBLEMS OF ENERGY - WHAT IT IS, HOW IT IS OBTAINED AND USED,  
LIMITATIONS ON ITS GENERATION FROM VARIOUS SOURCES AND ON ITS  
UTILIZATION - ARE CONSIDERED FROM ALL ASPECTS - SCIENTIFIC, TECHNICAL  
ENVIRONMENTAL, ECONOMIC, ETC. TOPICS INCLUDE - THEORY OF ENERGY,  
GENERATION OF ENERGY FROM FOSSIL, NUCLEAR, SOLAR, GEOTHERMAL,  
ATMOSPHERIC, AND OTHER SOURCES, GENERAL PROBLEMS RELATED TO THE  
PRODUCTION AND CONSUMPTION OF ENERGY, AND PROBLEMS SPECIFIC TO  
PARTICULAR SOURCES.  
3 LECT HRS  
STAFF  
4 CREDITS
- PHYSIC 133 INTRODUCTION TO EARTH SCIENCE I II  
134 A DESCRIPTIVE INTRODUCTION TO GEOSCIENCE, INTEGRATING SUCH FIELDS AS  
GEOLOGY, METEOROLOGY, OCEANOGRAPHY, AND ECOLOGY. EMPHASIS IS PLACED  
ON UNDERSTANDING GEOPHYSICAL PROCESSES OF IMPORTANCE TO HUMAN BEINGS  
AND THEIR ENVIRONMENT. TOPICS INCLUDED ARE - THE ORIGIN OF THE EARTH,  
ITS ENERGY AND MATERIAL RESOURCES, EARTHQUAKES, VOLCANISM, TIDES,  
THE WEATHER, AND OTHER GEOPHENOMENA, THE EVOLUTION OF LIFE AND THE  
ENVIRONMENTAL IMPACT OF HUMAN TECHNOLOGY. STUDENTS DESIRING  
FIRST-HAND EXPERIENCE SHOULD ENROLL CONCURRENTLY IN  
PHYSICS 135-136  
3 LECT HRS  
STAFF  
4 CREDITS
- PHYSIC 135 EARTH SCIENCE LABORATORY I II  
136 A TWO-SEMESTER LABORATORY COURSE DESIGNED TO ACCOMPANY AN  
INTRODUCTORY COURSE IN EARTH SCIENCE (F.G. PHYSICS 133-134). BASIC  
EXPERIMENTS INCLUDE: EXAMINATION OF MINERALS, ROCKS, AND FLUID  
EARTH MATERIALS; ANALYSIS OF SEDIMENTARY PROCESSES AND WEATHERING;  
STUDY OF DIVERSE GEOLOGICAL PROCESSES USING TOPOGRAPHIC AND GEOLOGIC  
MAPS, AERIAL PHOTOGRAPHS, AND FIELD TRIPS.  
COREQUISITE: PHYSICS 133 OR 134  
2-5 LAB HRS IN ALTERNATE WEEKS  
STAFF  
1 CREDIT
- PHYSIC 171 INTRODUCTORY PHYSICS LABORATORY I II  
172 A TWO-SEMESTER COURSE DESIGNED PRIMARILY FOR BIOLOGY MAJORS  
AND PREMEDICAL STUDENTS. EXPERIMENTS IN BASIC PHYSICS ON  
MECHANICS, ELECTRICITY AND MAGNETISM, AND OPTICS WITH  
APPLICATIONS ON THE USE OF PHYSICAL INSTRUMENTS AND TECH-  
NIQUES IN BIOLOGY AND MEDICINE, SUCH AS THEORY AND USE OF  
THE MICROSCOPE, THE CENTRIFUGE, AND ELECTROPHORESIS.  
TECHNIQUES  
COREQUISITE: PHYSICS 107-108 OR 113-114  
2-5 LAB HRS IN ALTERNATE WKS  
STAFF  
1 CREDIT
- PHYSIC 181 PHYSICS LABORATORY I II  
182 TWO SEMESTERS OF LABORATORY WORK IN MECHANICS, THERMO-  
DYNAMICS, ELECTRICITY AND MAGNETISM, AND OPTICS. STUDENTS  
ARE OFFERED THE OPPORTUNITY TO DEVELOP EXTENDED PROJECTS  
WITH THE GUIDANCE OF THE INSTRUCTOR. THE COURSE IS DESIGNED  
FOR SCIENCE MAJORS OR OTHERS HAVING INTEREST IN EXPLORING  
AND EXPLAINING PHYSICAL PHENOMENA THROUGH LABORATORY WORK.  
COREQUISITE: PHYSICS 107-108 OR 113-114  
2-5 LAB HRS IN ALTERNATE WKS  
STAFF  
1 CREDIT
- PHYSIC 211 INTRODUCTION TO CONTEMPORARY PHYSICS  
SPECIAL RELATIVITY, ATOMIC PHYSICS AND ELEMENTS OF QUANTUM MECHANICS,  
INTRODUCTION TO ELEMENTARY PARTICLE PHYSICS, NUCLEAR PHYSICS AND  
SOLID STATE PHYSICS.  
PREREQUISITE: PHYSICS 114  
COREQUISITE: MATHEMATICS 240 OR PERMISSION OF INSTRUCTOR.  
3 LECT HRS  
STAFF  
3 CREDITS
- PHYSIC 221 ASTROPHYSICS, RELATIVITY, AND COSMOLOGY  
INTRODUCTION TO EINSTEIN'S THEORIES OF SPECIAL AND GENERAL RELATIVITY  
AND THE IDEA OF CURVED SPACE-TIME. APPLICATION TO COSMOLOGICAL  
THEORIES OF THE UNIVERSE, INCLUDING THE BIG BANG AND STEADY STATE  
MODELS. ANALYSIS OF OBSERVATION EVIDENCE FOR SUCH THEORIES. SPECIAL

TOPICS IN MODERN ASTROPHYSICS, SUCH AS STELLAR EVOLUTION, UNUSUAL STARS AND GALAXIES, QUASARS AND THE COSMOLOGICAL RED-SHIFT, NO CALCULUS REQUIRED.  
3 LECT HRS  
STAFF  
3 CREDITS

PHYSIC 281 PHYSICAL LABORATORY I, II  
282 BASIC PRINCIPLES OF EXPERIMENTAL PHYSICS AND ERROR ANALYSIS. EXPERIMENTS IN MECHANICS, HEAT, OPTICS, ELECTRICITY, MAGNETISM, ATOMIC AND NUCLEAR PHYSICS.  
4 LAB HRS  
STAFF  
2 CREDITS

PHYSIC 312 MECHANICS  
PRINCIPLES OF NEWTONIAN MECHANICS. CONSERVATION LAWS. GRAVITATIONAL POTENTIAL THEORY AND CONSERVATIVE FIELDS. CENTRAL FORCES. OSCILLATORY SYSTEMS. RIGID BODY MOTION AND RELATIVISTIC MECHANICS.  
COREQUISITE: MATHEMATICS 270  
PREPFOUISITE: PHYSICS 211 OR PERMISSION OF INSTRUCTOR  
3 LECT HRS.  
STAFF  
3 CREDITS

PHYSIC 321 THEORY OF ELECTRICITY AND MAGNETISM I  
BASIC CONCEPTS OF ELECTRIC AND MAGNETIC FIELDS. ELECTROSTATICS. MAGNETOSTATICS. ELECTRIC CURRENTS. ELECTROMAGNETISM. DEVELOPMENT OF MAXWELL'S EQUATIONS AND SIMPLE APPLICATIONS. PHYSICAL OPTICS. REFLECTION. DISPERSION. POLARIZATION AND DIFFRACTION.  
COREQUISITE: MATHEMATICS 240. PHYSICS 312 OR PERMISSION OF INSTRUCTOR  
3 LECT HRS  
STAFF  
3 CREDITS

PHYSIC 322 THEORY OF ELECTRICITY AND MAGNETISM II  
A CONTINUATION OF PHYSICS 321. DESCRIPTION OF THE PHENOMENA OF ELECTRICITY AND MAGNETISM IN MATHEMATICAL TERMS. BOUNDARY VALUE PROBLEMS AND BOUNDARY CONDITIONS. TRANSMISSION LINES. WAVE GUIDES. RADIATION FROM A MOVING CHARGE. SPECIAL RELATIVITY.  
PREPFOUISITE: PHYSICS 321. MATHEMATICS 270  
3 LECT HRS  
STAFF  
3 CREDITS

PHYSIC 350 STATISTICAL PHYSICS  
TOPICS IN HEAT, THERMODYNAMICS, KINETIC THEORY, AND ELEMENTARY STATISTICAL MECHANICS.  
PREPFOUISITE: PHYSICS 312 OR PERMISSION OF INSTRUCTOR.  
3 LECT HRS.  
MR. ANTONOFF  
3 CREDITS

PHYSIC 371 BASIC ELECTRONICS WITH LAB  
DIRECT CURRENT CIRCUITS. ELECTRICAL MEASUREMENTS. ALTERNATING CURRENT CIRCUITS. CIRCUIT ANALYSIS. DIODES, RECTIFIER CIRCUITS, FILTERS. VOLTAGE REGULATORS. VACUUM TUBES. TRANSISTORS. AMPLIFIER CIRCUITS. OSCILLATORS. COMPARISON MEASUREMENTS. ELEMENTS OF SERVO SYSTEMS. OPERATIONAL AMPLIFIERS. PULSE AMPLIFIERS - TO BE COVERED IN LECTURES. NOTE - STUDENTS MAY NOT BE GRANTED CREDIT FOR BOTH PHYSICS 361 AND 371.  
PREPFOUISITE: PHYSICS 114. 172 OR 182  
1 LECT HR. 4 LAB HRS  
STAFF  
3 CREDITS

PHYSIC 374 SELECTED TOPICS IN ELECTRONICS  
CONCEPTS OF DIGITAL MEASUREMENTS. COUNTING. TIMING AND SWITCHING. DIODE CIRCUITS. BASIC LOGIC CONCEPTS. BASIC THEOREMS IN BOOLEAN ALGEBRA. MANIPULATION OF LOGIC STATEMENTS. BINARY INFORMATION GATES. APPLICATION OF LOGIC GATES. FLIP-FLOPS AND MULTIVIBRATORS. COUNTERS. REGISTERS AND DECODER. DIGITAL. ANALOG-DIGITAL INSTRUMENTS. AND SYSTEMS.  
PREPFOUISITE: PHYSICS 371.  
3 LECT HRS  
STAFF  
3 CREDITS

PHYSIC 381 INTERMEDIATE LABORATORY I, II  
382 EXPERIMENTS IN GEOMETRICAL AND PHYSICAL OPTICS, ELECTRONICS, ATOMIC PHYSICS, NUCLEAR PHYSICS. INDIVIDUAL PROGRAM OF EXPERIMENTS FOR EACH STUDENT ACCORDING TO HIS INTERESTS AND PREVIOUS EXPERIENCE.  
COREQUISITE: PHYSICS 281 OR 282.  
4 LAB HRS  
STAFF  
2 CREDITS

PHYSIC 471 ATOMIC PHYSICS AND INTRODUCTION TO QUANTUM MECHANICS  
THE FUNDAMENTAL AND ELEMENTARY APPLICATIONS OF QUANTUM MECHANICS WITH EMPHASIS ON PHYSICAL CONTENT RATHER THAN FORMALISM. ELEMENTARY WAVE MECHANICS DEVELOPED AND APPLIED TO SIMPLE ATOMIC STRUCTURE. TOPICS INCLUDE SPECTROSCOPIC AND OTHER PHENOMENA WHICH FORM THE EXPERIMENTAL BASIS OF MODERN ATOMIC PHYSICS. THE ROLE OF THE PAULI PRINCIPLE AND SPIN IN DETERMINING PERIODIC ATOMIC PROPERTIES. RADIATION PHENOMENA.  
PREPFOUISITE: PHYSICS 312 OR PERMISSION OF INSTRUCTOR.  
3 LECT HRS  
STAFF  
3 CREDITS

PHYSIC 472 NUCLEAR AND PARTICLE PHYSICS  
A CONTINUATION OF PHYSICS 421. THE BASIC PROPERTIES OF NUCLEI. PARTICLE SCATTERING. RADIOACTIVITY. NUCLEAR STABILITY. DYNAMICS OF NUCLEAR REACTIONS. POTENTIAL WELL AND BARRIER PROBLEM IN QUANTUM MECHANICS. PARTICLES.  
PREPFOUISITE: PHYSICS 421  
3 LECT HRS  
STAFF  
3 CREDITS

PHYSIC 430 INTRODUCTION TO SOLID STATE PHYSICS.  
AN INTRODUCTORY TREATMENT OF THE PHYSICS OF SOLIDS.  
PREPFOUISITE: PHYSICS 350 AND 421.  
3 LECT HRS  
STAFF  
3 CREDITS

PHYSIC 479 READINGS IN PHYSICS I, II  
480 SUPERVISED INDIVIDUAL STUDY OF SPECIAL TOPICS IN PHYSICS THAT ARE NOT AVAILABLE IN REGULAR COURSE.  
PREPFOUISITE: JUNIOR STANDING. APPROVAL OF PLAN OF STUDY BY SUPERVISING INSTRUCTOR AND BY DEPARTMENT CHAIRPERSON  
HRS BY ARRANGEMENT  
STAFF  
1-3 CREDITS

PHYSIC 481 ADVANCED LABORATORY  
482 EXPERIMENTAL WORK IN A VARIETY OF FIELDS SELECTED TO MEET THE NEEDS OF THE STUDENT.  
PREPFOUISITE: PHYSICS 371 OR 381 OR 382 OR PERMISSION OF INSTRUCTOR.  
6 LAB HOURS  
3 CREDITS

PHYSIC 487 RESEARCH IN PHYSICS  
88 SUPERVISED RESEARCH.  
PREPFOUISITE: JUNIOR STANDING AND APPROVAL BY SUPERVISING INSTRUCTOR AND DEPARTMENT CHAIRPERSON  
HRS BY ARRANGEMENT  
STAFF  
1-3 CREDITS

POLISH  
POLISH 101 ELEMENTARY POLISH I  
FOR STUDENTS WITH NO PREVIOUS KNOWLEDGE OF POLISH. DEVELOPMENT OF THE FOUR LANGUAGE SKILLS. BASED ON AN AUDIO-LINGUAL APPROACH.  
4 LECT HRS. 2 LAB HRS  
MR. OICK  
4 CREDITS

- POLISH 102 ELEMENTARY POLISH II  
A CONTINUATION OF POLISH 101. FOR STUDENTS WITH NO PREVIOUS KNOWLEDGE OF POLISH. DEVELOPMENT OF THE FOUR LANGUAGE SKILLS, BASED ON AN AUDIO-LINGUAL APPROACH.  
4 LECT HRS, 2 LAB HRS  
MR. DICK 4 CREDITS
- POLISH 201 INTERMEDIATE POLISH I  
AN INTENSIVE REVIEW OF GRAMMAR AND PRACTICE IN SPEAKING, HEARING, READING AND WRITING.  
PREREQUISITE-POLISH 102  
4 LECT HRS  
MR. DICK 4 CREDITS
- POLISH 202 INTERMEDIATE POLISH II  
AN INTENSIVE REVIEW OF GRAMMAR AND PRACTICE IN SPEAKING, HEARING, READING AND WRITING.  
PREREQUISITE-POLISH 201  
4 LECT HRS  
MR. DICK 4 CREDITS
- POLITICS  
Graduation Requirements  
Politics majors are required to take Politics 122 and 123 and eight courses above the introductory level. At least one upper level course should come from each of these four fields: American government and politics; comparative government and politics; international relations; political theory. With the approval of a student's advisor, cognate courses may be substituted for two of the eight upperclass politics courses. Majors with a cumulative average of at least 3.0 may, with the approval of the department, write a senior thesis. They should register for Politics 490/491.
- POLITCS 122 GOVERNMENT AND POLITICS OF THE UNITED STATES  
THE THREE MAIN BRANCHES OF THE NATIONAL GOVERNMENT, FEDERALISM, POLITICAL PARTIES AND INTEREST GROUPS. AND GOVERNMENTAL FUNCTIONS.  
3 LECT HRS  
STAFF 4 CREDITS
- POLITCS 123 POLITICAL IDEAS OF THE TWENTIETH CENTURY  
MAJOR POLITICAL VIEWPOINTS OF THE PRESENT, INCLUDING CONSERVATISM, LIBERALISM, MARXISM AND FASCISM.  
3 LECT HRS  
STAFF 4 CREDITS
- POLITCS 124 TOPICS IN POLITICAL ANALYSIS  
AN INTRODUCTION TO THE STUDY OF POLITICS THROUGH THE EXAMINATION OF SELECTED CASE PROBLEMS FROM A VARIETY OF AREAS. TOPICS WILL CHANGE FROM INSTRUCTOR TO INSTRUCTOR, AND FROM YEAR TO YEAR.  
3 LECT HRS  
STAFF 4 CREDITS
- POLITCS 200 COMPARATIVE POLITICS  
INTRODUCTORY STUDY OF FOREIGN POLITICAL SYSTEMS. EXAMINES INDUSTRIAL AND THIRD-WORLD SYSTEMS, AND FOCUSES ON COMPARATIVE PATTERNS OF POLITICAL CHANGE.  
3 LECT HRS  
MR. HUEY 3 CREDITS
- POLITCS 220 INTERNATIONAL RELATIONS  
ANALYSIS OF THE BASIC PRINCIPLES AND CONCEPTS WHICH EXPLAIN THE BEHAVIOR OF STATES AS THEY INTERACT WITH EACH OTHER. EXAMINATIONAL OF THE STRUGGLE FOR POWER AND THE SEARCH FOR ORDER IN HISTORICAL AND CONTEMPORARY PERSPECTIVE. SPECIAL ATTENTION TO: THE CAUSES, FUNCTIONS, AND EFFECTS OF WAR; THE ROLE OF POWER, NATIONAL INTEREST, FOREIGN POLICY-MAKING, NATIONALISM, THE THIRD WORLD, IDEOLOGY AND TECHNOLOGY IN INTERNATIONAL
- AL POLITICS: EMERGING PATTERNS OF TRANSNATIONAL INTERDEPENDENCE.  
3 LECT HRS  
MR. POSNER, MR. VANNICELLI 3 CREDITS
- POLITCS 230 INTRODUCTION TO POLITICAL ANALYSIS  
THE PRINCIPAL TOPICS WILL INCLUDE PHILOSOPHICAL FOUNDATIONS TO POLITICAL SCIENCE, RESEARCH METHODS, AND STATISTICAL APPROACHES.  
3 LECT HRS  
MR. WARD 3 CREDITS
- POLITCS 303 PUBLIC POLICY I  
POLITICAL ASPECTS OF SOCIAL AND ECONOMIC POLICIES IN THE UNITED STATES. ANALYSIS OF BOTH EMPIRICAL AND NORMATIVE FACTORS IN THE FORMATION OF PUBLIC POLICY.  
PREREQUISITE: JUNIOR STANDING  
3 LECT HRS  
MR. WOLMAN 3 CREDITS
- POLITCS 305 STRATEGY OF POLITICAL CHANGE  
AN EXAMINATION OF SIGNIFICANT STRUGGLES OVER PUBLIC POLICY CHANGE. THESE WILL INCLUDE SUCH QUESTIONS AS INCOME MAINTENANCE, CHILD CARE, SCHOOL DESEGREGATION, AND REVENUE SHARING.  
PREREQUISITE: JUNIOR STANDING  
3 LECT HRS  
MR. EDELMAN 3 CREDITS
- POLITCS 307 POLITICAL CHANGE AND GROUP IDENTITY  
THE COURSE WILL BE CONCERNED WITH THE IMPACT OF GROUP IDENTITY - RACIAL, TRIBAL, RELIGIOUS, ETHNIC, NATIONAL - ON POLITICAL SYSTEMS IN THE DEVELOPING AND DEVELOPED COUNTRIES.  
PREREQUISITE: JUNIOR STANDING  
3 LECT HRS  
MR. LOUNDS 3 CREDITS
- POLITCS 309 POLITICAL BEHAVIOR  
INTRODUCTION TO THE STUDY OF POLITICAL BEHAVIOR, INCLUDING RELATIONSHIPS BETWEEN CHARACTEROLOGICAL ELEMENTS AND POLITICAL ATTITUDES AND ACTIONS, PROCESSES BY WHICH SOCIETIES TEACH MEMBERS TO BEHAVE POLITICALLY, AND NATIONAL DIFFERENCES IN POLITICAL SOCIALIZATION.  
PREREQUISITE: JUNIOR STANDING  
3 LECT HRS  
MR. PATTERSON 3 CREDITS
- POLITCS 311 POLITICAL PARTIES  
THE AMERICAN POLITICAL PROCESS, WITH EMPHASIS ON POLITICAL PARTIES, PRESSURE GROUPS AND PUBLIC OPINION.  
PREREQUISITE: JUNIOR STANDING.  
3 LECT HRS  
MR. GOODWIN 3 CREDITS
- POLITCS 315 POLITICAL DECISION-MAKING  
THE WAY IN WHICH DECISION-MAKING IS SHAPED BY THE POLITICAL ENVIRONMENT IN BOTH THE PUBLIC AND PRIVATE SECTORS.  
PREREQUISITE: JUNIOR STANDING  
3 LECT HRS  
MS. KAYDEN 3 CREDITS
- POLITCS 319 THE LEGISLATIVE PROCESS  
THE FUNCTION OF NATIONAL AND STATE LEGISLATURES, AND THE ROLE PLAYED BY POLITICAL PARTIES AND INTEREST GROUPS IN THE LEGISLATURE.  
PREREQUISITE: JUNIOR STANDING.  
3 LECT HRS  
MR. GOODWIN 3 CREDITS
- POLITCS 324 THE AMERICAN PRESIDENCY  
THE POWERS, THE LIMITATIONS, AND THE ORGANIZATION OF THE PRESIDENCY IN THE AMERICAN SYSTEM OF GOVERNMENT.  
PREREQUISITE: JUNIOR STANDING  
3 LECT HRS  
MR. BEARD 3 CREDITS

- POLICS 325 PUBLIC ADMINISTRATION  
THE BUREAUCRATIC PROCESS. EMPHASIZING ORGANIZATIONAL BEHAVIOR, CHANGES IN ADMINISTRATIVE INSTITUTIONS AND THEORIES, AND THE POLITICAL ROLE OF BUREAUCRACY.  
PREREQUISITE: JUNIOR STANDING.  
3 LECT HRS  
MR. BEARD  
3 CREDITS
- POLICS 327 PUBLIC MANAGEMENT  
THIS COURSE EXPLORES THE DIMENSIONS OF GOVERNMENT ORGANIZATIONS AS THEY ATTEMPT TO ATTAIN THEIR POLITICALLY APPROVED GOALS WHILE MAINTAINING THEIR OWN INTEGRITY. POLITICAL BUREAUCRACIES IN MASSACHUSETTS WILL PROVIDE THE MAJOR SOURCE MATERIALS FOR STUDY.  
PREREQUISITE: JUNIOR STANDING  
3 LECT HRS  
MR. HAMILTON  
3 CREDITS
- POLICS 328 PUBLIC MANAGEMENT II  
PREREQUISITE: POLITICS 327 OR PERMISSION OF INSTRUCTOR  
3 LECT HRS  
3 CREDITS
- POLICS 329 AMERICAN CONSTITUTIONAL LAW AND THEORY  
THE DEVELOPMENT OF THE UNITED STATES CONSTITUTION. CHIEFLY THROUGH DECISIONS OF THE SUPREME COURT. EMPHASIS ON THE ORIGIN AND NATURE OF JUDICIAL POWERS. THE WAY IT INHERITS AND FACILITATES OPERATION OF THE POLITICAL PROCESS AND THE SEARCH FOR STANDARDS BY WHICH TO JUDGE THE JUDGES.  
PREREQUISITE: JUNIOR STANDING.  
3 LECT HRS  
MR. STEAMER  
3 CREDITS
- POLICS 337 CIVIL LIBERTIES IN THE UNITED STATES  
AN ANALYSIS OF THE CONSTITUTIONAL RULES GOVERNING CIVIL LIBERTIES IN THE AMERICAN SYSTEM. PRIMARILY THROUGH DECISIONS OF THE SUPREME COURT. EMPHASIS ON FOUR AREAS: FREEDOM OF PRESS AND SPEECH, FREEDOM OF RELIGION, RIGHTS OF PERSONS SUSPECTED OR ACCUSED OF A CRIME, AND THE DEVELOPMENT OF STATUS OF RIGHTS OF BLACKS AND OTHER MINORITIES.  
PREREQUISITE: JUNIOR STANDING  
3 LECT HRS  
MR. STEAMER  
3 CREDITS
- POLICS 335 THE FEDERAL SYSTEM  
CONSEQUENCES OF A REAL DIVISION OF POWER FOR POLITICS AT NATIONAL, STATE AND LOCAL LEVELS.  
PREREQUISITE: JUNIOR STANDING.  
3 LECT HRS  
STAFF  
3 CREDITS
- POLICS 337 STATE AND LOCAL POLITICS  
THE DYNAMICS AND INTERRELATIONSHIPS OF STATE AND LOCAL GOVERNMENTAL UNITS. EMPHASIZING LEADERSHIP RESOURCES AND POLITICAL CHANGE.  
PREREQUISITE: JUNIOR STANDING.  
3 LECT HRS  
STAFF  
3 CREDITS
- POLICS 338 MASSACHUSETTS POLITICS  
A STUDY OF STATE AND LOCAL GOVERNMENT AND POLITICS IN MASSACHUSETTS. EMPHASIZING ITS UNIQUE FEATURES AS WELL AS ITS SIMILARITIES TO OTHER STATE SYSTEMS.  
PREREQUISITE: JUNIOR STANDING  
3 LECT HRS  
MR. DONAHUE  
3 CREDITS
- POLICS 341 METROPOLITAN POLITICS  
MUNICIPAL POLITICS. ORGANIZATION AND FUNCTIONS. SPECIAL REFERENCES TO IMPACT OF RECENT SOCIAL AND ECONOMIC CHANGES UPON CITY, SUBURBAN AND INTERGOVERNMENTAL POLITICS IN METROPOLITAN REGIONS.

## PSYCHOLOGY

### GRADUATION REQUIREMENTS

College I: Psychology Majors are expected to take the introductory Psychology (101) offered by our department and pass with a grade of C or better; this course is a prerequisite of all other Psychology Courses. Research methods in Psychology I (211), which is a prerequisite of all laboratory courses in Psychology, is a prerequisite for all majors. In order to ensure breadth of training in Psychology, majors must distribute their courses within the various areas of Psychology in the following fashion. A minimum of two courses must be selected from the following three areas: Information processing (Psych 250, 255, 385, 390); Psychobiology (Psych 260, 265, 360, 361, 365); General Theory and Methods (Psych 212, 280, 380); and a minimum of two courses must be selected from the following three areas: Clinical Personality (Psych 200, 215, 220, 300, 315); Life-Span Developmental (Psych 240, 290, 340, 480); Social Psychology (Psych 230, 330, 333). At least three additional courses must be taken from any departmental offerings for a total of 28 credits in Psychology. (New major requirements effective for majors declaring after June 1, 1974.)

Cognitive credit toward the Psychology major is granted for Psychological Anthropology (Anthropology 254) and Philosophy and Psychoanalytic Psychology (Philosophy 375). Transfer courses approved by the Registrar are not automatically granted major credit. Transfer students seeking major credit for Psychology courses taken elsewhere should obtain the approval of the Curriculum Committee.

Majors who intend to apply to Graduate Departments of Psychology are strongly advised to take Systems of Psychology (Psych 380) and Research Methods in Psychology II (Psych 212).

Double majors must be approved by the Psychology Department Curriculum Committee and must fulfill the normal requirements listed above.

### INTERDISCIPLINARY PROGRAMS

Options other than the double major are becoming available to students who wish to combine their Psychology major with intensive work in other departments.

A. Students with a combined interest in Psychology and Philosophy may elect a directed major in Philosophy and Psychology. This major enables a student to set-up an integrated program of study in the two fields according to the following guidelines:

1. A minimum of 13 courses, 6 from each department, plus a course in directed study to be taken during the final year, are required.

Included in these are the following "Core Requirements"

Philosophy  
 100 - Introduction to Philosophy  
 104 - Introduction to Logic

Psychology  
 101 - Introduction to Psychology  
 211 - Research Methods and  
 Either  
 280 - History of Psychology  
 or

380 - Systems of Psychology

2. In each case of such a major, the student is required to plan out his or her program with a team of two advisors, one from each department. This needn't be done prior to taking any courses in each department, but should come close to the beginning of the student's stay at UNB. It should be understood that some courses a student may have taken in each department prior to setting-up such a major may not be included in courses that count toward this major, if both advisors feel they cannot be integrated into his or her course of study.

B. The Psychology Department offers several courses (Psych 260, 265, 266, 365) that will form an integral part of a proposed concentration in Biobehavioral Studies, now under development. This concentration is a joint effort of the departments of Anthropology, Biology, and Psychology, and will be open to majors in these departments.

C. The Psychology Department also contributes offerings to the Law and Justice Foundation Program.

### INDEPENDENT STUDY

Students interested in Independent Work (in the Laboratory, Field, or Library) should seek the consent of a supervising faculty member and have the project approved by the department before enrolling in Problems in Psychology (478, 479)

### HONORS

The requirements for receiving a diploma with honors in psychology are: 1. satisfactory completion of all U. Mass. and departmental requirements for graduation, 2. an overall 3.0 cumulative average, 3. a 3.2 cumulative average in all department work, 4. a grade of A in the two semester seniors honors courses (Psych 498, 499), 5. approval of the senior honors paper by the department's honors committee.

Students who intend to graduate in June of their senior year may apply to the Department's Honors Committee between Mid-May of their junior year and September 1st of their senior year. Students will be informed of their eligibility to participate in the senior honors program (Psych 498-499) by September 10th.

Students interested in Independent Research or Library study, who are not participants in the senior honors seminar, should enroll in Psych (478-479) (Problems in Psych) with the consent of a supervising departmental faculty member.

|       |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |           |       |     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |           |

- MENTS IN SOCIAL PSYCHOLOGY.  
PREREQUISITE: PSYCHOLOGY 101 AND 230  
3 LECT HRS  
MR. MIXON, MS. WILKIE  
3 CREDITS
- PSYCH 331 NATURE OF PREJUDICE  
EXAMINATION OF PSYCHOLOGICAL AND SOCIO-CULTURAL FACTORS IN INTER-GROUP PREJUDICE. WILL USE THE CLASSIC WORK BY GORDON ALLPORT AS AN ANALYTIC FRAMEWORK AND INCORPORATE SUBSEQUENT DEVELOPMENTS IN THE SOCIAL SCIENCES.  
PREREQUISITE: PSYCHOLOGY 101  
3 LECT HRS  
STAFF  
3 CREDITS
- PSYCH 332 EDUCATIONAL SEGREGATION AND DESEGREGATION  
EXAMINATION OF SOCIAL AND PSYCHOLOGICAL ASPECTS OF SEGREGATION, ITS EFFECTS ON THE ACHIEVEMENT, SELF-CONCEPT AND INTERPERSONAL ATTITUDES OF STUDENTS, AND THE SCHOOL CONDITIONS NECESSARY FOR THEIR MAXIMUM BENEFIT.  
PREREQUISITE: PSYCHOLOGY 101  
3 LECT HRS  
STAFF  
3 CREDITS
- PSYCH 333 GROUP DYNAMICS  
AN EXAMINATION OF SMALL GROUP BEHAVIOR FROM A THEORETICAL AND EMPIRICAL PERSPECTIVE. THE GROUP IS VIEWED AS A SYSTEM FUNCTIONING IN A NUMBER OF ENVIRONMENTS - PHYSICAL, PERSONAL, SOCIAL, AND TASK. EACH OF THESE INTERRELATED ENVIRONMENTS INFLUENCE VARIOUS ASPECTS OF GROUP PROCESS, THUS LEADERSHIP, POWER, COHESIVITY, STATUS, GOALS, ETC., ARE CONSIDERED AS INTERRELATED PROCESSES OF SOCIAL INTERACTION.  
PREREQUISITE: PSYCHOLOGY 101 AND 230  
3 LECT HRS  
MS. WILKIE, MR. MIXON  
3 CREDITS
- PSYCH 335 COGNITIVE PSYCHOLOGY  
AN EXPLORATION OF HOW MAN DEVELOPS STRATEGIES FOR OBTAINING INFORMATION FROM HIS ENVIRONMENT, AND HOW THIS INFORMATION IS ORGANIZED, STORED, AND RETRIEVED FOR LATER USE.  
PREREQUISITE: PSYCHOLOGY 101  
3 LECT HRS  
STAFF  
3 CREDITS
- PSYCH 340 REPRESENTATIONAL DEVELOPMENTAL PSYCHOLOGY  
PREREQUISITE: PSYCHOLOGY 240 OR 241  
3 LECT HRS  
MS. GORDON  
3 CREDITS
- PSYCH 341 THE FAMILY AND THE CHILD-A PSYCHOLOGICAL VIEW  
THE ROLE OF THE FAMILY IN PSYCHOLOGICAL DEVELOPMENT OF THE CHILD. A PSYCHOANALYTIC VIEW OF THE FAMILY. TO EXAMINE STAGES OF DEVELOPMENT FROM THE THIRD INFANT OF PREGNANCY TO SIXTEEN YEARS OF AGE.  
PREREQUISITE: PSYCHOLOGY 101  
3 LECT HRS  
MR. SCHULTZ  
3 CREDITS
- PSYCH 342 DEVELOPMENTAL SOCIAL PSYCHOLOGY  
DEVELOPMENT IN CHILDREN AND ADULTS OF ASPECTS OF SUCH PROCESSES AS COMPETITION, COMPETITION, AND GROUP PROBLEM SOLVING, GROUP CONFLICT, SOCIAL PERCEPTION, AND WOLF-PACK BEHAVIOR.  
PREREQUISITE: PSYCHOLOGY 240, 240  
3 LECT HRS  
MS. GUTTENBERG  
3 CREDITS
- PSYCH 343 FIELD STUDY IN ADULTS  
INTEGRATES THEORIES AND EMPIRICAL FINDINGS IN AGING WITH PRACTICAL FIELD EXPERIENCE. STUDENTS SPEND 4 HOURS PER WEEK IN FIELD PLACEMENT WITH THE FOLLOWING 240 CLASS MATING. STUDENTS ARE REQUIRED TO DISCUSS OF FIELD EXPERIENCES AND ASSIGNED READINGS ON THEORY AND RESEARCH.  
PREREQUISITE: PSYCHOLOGY 240 OR 340  
3 LECT HRS  
MR. MISHARA  
3 CREDITS
- PSYCH 351 LAB IN COGNITIVE PSYCHOLOGY  
EXPERIMENT ON A VARIETY OF HIGHER PROCESSES INVOLVING HUMAN SUBJECTS.  
PREREQUISITE: PSYCHOLOGY 350  
3 LAB HRS  
STAFF  
3 CREDITS
- PSYCH 355 SENSORY PROCESSES AND PATTERN RECOGNITION  
THIS COURSE WILL EXPLORE THE MEANS BY WHICH A PERCEIVED, REMEMBERED AND THOUGHT ABOUT WORLD COMES INTO BEING FROM CHANGES IN THE ENERGY DISTRIBUTION ON THE RETINA AND FLUCTUATING PRESSURE PATTERNS AT THE EAR; HOW THESE BECOME THE IMAGES THAT WE SEE AND THE SOUNDS, SPEECH AND MUSIC THAT WE HEAR.  
3 LECT HRS  
STAFF  
3 CREDITS
- PSYCH 360 NEUROPSYCHOLOGY I  
EMOTION, MEMORY AND LANGUAGE, INCLUDING A CONSIDERATION OF HUMAN BRAIN DAMAGE AND PSYCHOLOGICAL TESTS USED TO ASSESS SUCH DAMAGE.  
PREREQUISITE: PSYCHOLOGY 260  
3 LECT HRS  
MR. BUTTERS, MS. MC INTYRE  
3 CREDITS
- PSYCH 361 NEUROPSYCHOLOGY II  
NEURO-BASIS OF HIGHER COGNITIVE FUNCTIONS SUCH AS PERCEPTION, REASONING, MEMORY AND LANGUAGE, INCLUDING A CONSIDERATION OF HUMAN BRAIN DAMAGE AND PSYCHOLOGICAL TESTS USED TO ASSESS SUCH DAMAGE.  
PREREQUISITE: PSYCHOLOGY 260  
MR. BUTTERS, MS. MC INTYRE

## SOCIOLOGY I

### GRADUATION REQUIREMENTS

The department requires a total of 27 semester hours of Sociology credit for a major in Sociology. The specific courses required for graduation are: (1) Sociology 101 (Introductory Sociology); (2) Sociology 350 (Social Statistics) or Sociology 351 (Methods of Social Research); and (3) Sociology 382 (Elements of Sociological Theory). In addition, majors must take six upper division courses in Sociology in meeting the total 27 credit hours required for a major. Effective with the Class of 1975, no cognate courses will be acceptable in lieu of courses in Sociology.

The department does not require, but strongly recommends, its majors to take Anthropology 101, Introductory Anthropology, and Psychology 101, Introductory Psychology. Beyond meeting the minimal requirements, a major is free to concentrate or specialize in any one of the "themes" among its curriculum or to take courses interspersed among the various themes.

### FIELD TRAINING

Field Training is provided in two programs of the department: (1) The Sociology and Urban Social Service Program (SUSS) and (2) the Program in Corrections. These programs involve practical training in an agency setting, following the acquisition of theoretical knowledge. See descriptions below.

### SOCIOLOGY AND URBAN SOCIAL SERVICE

The Sociology and Urban Social Service concentration is designed for dedicated students who wish, beginning in their sophomore year to major in Sociology as preparation for a youth-and-family serving career in an urban setting.

Students in this program take specially created sections of the sociology course offerings which coordinate their course work with field placement activity. Such students are expected to intern in a variety of social service agencies such as schools, hospitals, child guidance centers, housing services, family support and other community agencies.

Entering freshmen interested in applying for the Social Service Concentration should write to the Chairperson of the Sociology Department.

### SOCIOLOGY OF CORRECTIONS

A series of courses in the Sociology of Crime, Delinquency, and Corrections open to both majors and non-majors is offered in the College I department of Sociology for students who wish to pursue graduate study in this field; as well as in Criminal Justice, or to enter applied or research work in Criminology and Corrections following graduation. This curriculum emphasizes both theoretical and applied approaches. A practicum course in corrections is offered at upper division level, which entails supervised study and work in a criminal justice agency or research organization. In addition, Sociology courses in corrections can be supplemented through the Law and Justice curriculum in College I.

Interested students should contact the department of Sociology, College I for further information and advising. No formal application is necessary, however.

### INTERDISCIPLINARY AND FOUNDATION PROGRAMS

The department actively participates in the foundations course in Law and Justice, sponsored by College I. The Sociology course in Asian institutions is central to an emerging Asian Studies Program which may be developed by College I. Similarly, other departmental course offerings are central components in other interdisciplinary programs such as Black Studies, Ethnic Studies and Urban Studies.

No graduate degree is currently offered by the department of Sociology; however, a modest graduate program is being planned and is expected to be implemented within a year. (For information, write to the Chairperson, Department of Sociology).

### THE HONORS PROGRAM

The Honors Program is open to all qualified Sociology majors. Criteria for Honors in Sociology are as follows:

1. Sociology as the declared major
2. At least a 3.0 all college G.P.A.
3. At least a 3.25 C.P.A. in Sociology based on no less than 6 Sociology courses (currently 8 courses beyond Introductory Sociology are required).
  - A. At least 5 of these courses must be graded credit hours.
  - B. Students who have not completed 6 Sociology courses at the time of application (most applicants may fall in the category) can be considered if the balance of course credits are currently in progress and if the grade outcome maintains the C.P.A. requirements. In such instances, the curriculum committee can issue a tentative approval.
4. Senior standing, as defined by the UM/B Registrar, in the semester in which the Honors work will be undertaken. (Second semester Juniors can submit an Honors application providing that credits in progress are sufficient to give them senior standing in the following semester. Normally, however, most students will apply for Honors during the first semester of the senior year.

### ALPHA KAPPA DELTA

The Department of Sociology in College I co-sponsors with the department of Sociology in College II a chapter of Alpha Kappa Delta, the National Honor Society in Sociology. Alpha Kappa Delta is the first National Honor Society established at the University of Massachusetts/Boston. Membership is open to those students who have completed ten or more hours in Sociology with a grade point average of 3.0 or above. Admission to Alpha Kappa Delta usually occurs during the senior year.

## SOCIOLOGY COLLEGE II

Sociology majors are required to take a minimum of nine Sociology courses, including Sociology 101 (Introduction), Sociology 351 (Methods of Sociological Research) and Sociology 241 (Elements of Sociological Theory). Majors in College II are required also to take two courses in any other of the Social Sciences. Majors in College II may use any Sociological Methods course to meet the Methods course requirements. The Majors are encouraged to choose related subjects within the Social Sciences. The Departments limit up to two cognate courses from other social sciences to be counted toward the major. Students may submit such courses for approval for cognate credit. At the invitation of the department, students may take individual directed study with an emphasis on independent research. Students wishing to engage in independent study should submit a proposal for the consideration of the department.

### SOCIOLOGY 101 INTRODUCTION TO SOCIOLOGY

THE STRUCTURE OF SOCIETY, CULTURAL PATTERNS, AND GROUP LIFE. THE INDIVIDUAL AND SOCIALIZATION, GROUPS, INSTITUTIONS, SOCIAL SYSTEMS, SOCIAL CHANGE.  
3 LECT HRS  
STAFF  
4 CREDITS

### SOCIOLOGY 102 FURTHER TOPICS IN INTRODUCTORY SOCIOLOGY

A CONTINUATION OF INTRODUCTORY SOCIOLOGY FOR SECOND SEMESTER FRESHMAN IN THE SUSS PROGRAM, FOCUSING ON THE SOCIAL PROCESSES OF DEVIANANCE, CHANGE AND CONFLICT.  
PREREQUISITE: SOCIOLOGY 101 AND PARTICIPATION IN SUSS PROGRAM  
STAFF

### SOCIOLOGY 160 SOCIAL PROBLEMS AND SOCIAL POLICY

COURSE CONCENTRATING ON INSTITUTIONAL FORMATION AND CHANGE. SPECIFICALLY, IT WILL COVER THE DEFINITION AND EXPLANATION OF SOCIAL PROBLEMS, INDIVIDUAL, GROUP AND GOVERNMENTAL RESPONSES TO THEM, IMPLICATIONS OF SOCIAL POLICY, IN DEPTH CASE STUDIES AND DISCUSSION OF CONTEMPORARY SOCIAL PROBLEMS.  
PREREQUISITE: INTRO SOCIOLOGY  
3 LECT HRS  
MR. BLACKWELL, STAFF  
3 CREDITS

### SOCIOLOGY 200 HUMAN SERVICE ORGANIZATIONS

THEORY AND PRACTICE OF PEOPLE-PROCESSING AND PEOPLE-CHANGING, INTERPERSONAL BEHAVIOR AND GROUP DEVELOPMENT THROUGH OBSERVATION OF THE GROUP ITSELF AND HEARINGS FROM PSYCHOLOGY, ANTHROPOLOGY AND SOCIOLOGY.  
PREREQUISITE: SOCIOLOGY 101  
3 LECT HRS  
MR. FLIFEL, MS. TAGLIACCOZZO  
3 CREDITS

### SOCIOLOGY 201 YOUTH AND SOCIETY

AN EXAMINATION OF THEORIES AND RESEARCH ON YOUTH AND SOCIETY. PRESENT DAY PATTERNS OF YOUTHFUL DEVELOPMENT WILL BE CONTRASTED TO OTHER TYPES - BOTH IN WESTERN HISTORY AND IN OTHER CULTURES. THE RELATIONSHIP OF YOUTH TO MAJOR INSTITUTIONS (EDUCATIONAL, LEGAL, OCCUPATIONAL) WILL BE EXAMINED IN DETAIL.  
PREREQUISITE: SOCIOLOGY 101 PLUS ONE OTHER COURSE IN EITHER SOCIOLOGY OR ANTHROPOLOGY  
3 LECT HRS  
MR. JOHNSON  
3 CREDITS

### SOCIOLOGY 211 THE URBAN COMMUNITY

THE DEVELOPMENT OF THE CITY AS A COMPLEX FORM OF THE HUMAN COMMUNITY. HISTORY AND GROWTH OF URBANISM IN INDUSTRIAL SOCIETIES AND DEVELOPING NATIONS. URBAN CHANGE AND THE PROBLEM OF PLANNING.  
PREREQUISITE: SOCIOLOGY 101  
3 LECT HRS  
MR. LARSON, MR. NIKKEL, MR. BRILL  
3 CREDITS

### SOCIOLOGY 220 A SURVEY OF ASIAN SOCIETIES - CHINA AND JAPAN

THIS COURSE IS AN INTRODUCTORY STUDY OF THE INSTITUTIONS AND STRUCTURES OF EAST ASIAN SOCIETIES, ESPECIALLY OF CHINA AND JAPAN. IT WILL CONCENTRATE ON SELECTED TRADITIONAL INSTITUTIONS SUCH AS THE FAMILY, COMMUNITY, AND SOCIAL ASPECTS OF THE ECONOMY AND THEIR RELATIONS TO MODERNIZATION AND INDUSTRIALIZATION. COMPARISONS WILL BE MADE BETWEEN THESE EAST ASIAN SOCIETIES AND THE UNITED STATES.  
PREREQUISITE: INTRO SOCIOLOGY  
3 LECT HRS  
MR. MIYAKAWA  
3 CREDITS

### SOCIOLOGY 221 ASIAN MINORITIES IN AMERICA

AN INTRODUCTION TO THE ASIAN AMERICANS AND THEIR MAJOR CONTRIBUTIONS TO THE UNITED STATES. ANALYSES OF THEIR EXPERIENCE, INCLUDING ASPECTS SIGNIFICANT TO A BETTER UNDERSTANDING OF AMERICAN GROUP RELATIONS GENERALLY, SUCH AS THOSE BETWEEN BLACKS AND CAUCASIANS AND AMONG WHITE ETHNICS.  
PREREQUISITE: INTRO SOCIOLOGY  
3 LECT HRS  
MR. MIYAKAWA  
3 CREDITS

### SOCIOLOGY 226 POLITICS AND SOCIOLOGY OF ECOLOGY

POLITICAL PROCESSES AS GENERAL PHENOMENA OCCURRING IN ALL SOCIAL AND POLITICAL INSTITUTIONS, CONSIDERED THROUGH TOFAS DERIVED FROM THE STUDY OF POLITICAL BEHAVIOR. ORGANIZATION THEORY AND POLITICAL ANTHROPOLOGY AND EVALUATED IN TERMS OF NORMATIVE POLITICAL PHILOSOPHY.  
PREREQUISITE: INTRO SOCIOLOGY  
3 LECT HRS  
STAFF  
3 CREDITS

### SOCIOLOGY 231 SOCIAL STRATIFICATION

SOCIAL CLASSES IN TRADITIONAL AND INDUSTRIAL SOCIETIES, CLASSES, CASTES, AND MOBILITY, THEORIES OF CLASS RELATIONSHIPS AND CONFLICTS.  
PREREQUISITE: SOCIOLOGY 101 AND PSYCHOLOGY 101  
3 LECT HRS  
MR. WOOD  
4 CREDITS

### SOCIOLOGY 241 ELEMENTS OF SOCIOLOGICAL THEORY

READING AND DISCUSSION OF BASIC SOCIOLOGICAL WORKS IN THEORY. RELEVANCE OF EARLIER AND CONTEMPORARY SOCIOLOGICAL INTERESTS AND RESEARCH.  
PREREQUISITE: SOCIOLOGY 101 AND JUNIOR STANDING.  
3 LECT HRS  
STAFF  
3 CREDITS

### SOCIOLOGY 242 FAMILY

A COMPARATIVE AND HISTORICAL ANALYSIS OF FAMILY SYSTEMS. EMPHASIS ON THE DEVELOPMENT AND FUTURE PROSPECTS OF THE NUCLEAR FAMILY IN MIDDLE-CLASS INDUSTRIAL SOCIETY.  
PREREQUISITE: SOCIOLOGY 101  
3 LECT HRS  
STAFF  
3 CREDITS

### SOCIOLOGY 261 SOCIAL DEVIANANCE AND CONTROL

THE SOCIAL CONDITIONS OF INDIVIDUAL AND GROUP BEHAVIOR DISORDERS. DEVIANANT SUBCULTURES AND SOCIAL CONTROL.  
PREREQUISITE: SOCIOLOGY 101  
3 LECT HRS  
MR. GARRETT, MS. MORGAN, MR. KRONISH  
3 CREDITS

### SOCIOLOGY 271 THEORY OF SOCIAL CHANGE

ALTERNATIVE THEORIES OF SOCIAL CHANGE. AT THE SOCIETAL AND COMMUNITY LEVELS. CLASSICAL THEORIES OF CHANGE, INCLUDING DURKHEIM, WEBER, AND MARX, AND CONTEMPORARY THEORIES. SELECTED APPLICATIONS.  
PREREQUISITE: SOCIOLOGY 316 OR SOCIOLOGY 101 AND PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MR. WOOD  
3 CREDITS

### SOCIOLOGY 272 COLLECTIVE BEHAVIOR

THE NATURE AND FORM OF RELIGIOUS, ETHNIC, RACIAL AND OTHER TYPES OF

SOCIAL 277 SOCIAL INTERACTION IN GROUPS  
THE DYNAMICS OF FACE-TO-FACE SOCIAL INTERACTION IN THE CONTEXT OF GROUPS. INVESTIGATION OF THE APPLICATION OF SMALL GROUP RESEARCH AND THEORY TO THE FUNCTIONING OF NATURAL GROUPS. ATTENTION TO THE FORMATIVE AND AFFECTIVE SUBSYSTEMS, ROLE DIFFERENTIATION, AND DECISION PROCESSES. INFORMAL ORGANIZATION.  
PREREQUISITE: INTRODUCTORY SOCIOLOGY AND PSYCHOLOGY  
3 LECT HRS  
STAFF  
3 CREDITS

SOCIAL 281 SOCIETY AND THE INDIVIDUAL  
BASIC SURVEY OF THE SOCIAL ENVIRONMENT OF INDIVIDUALS.  
PREREQUISITE: SOCIOLOGY 101 AND PSYCHOLOGY 101  
3 LECT HRS  
MS. KONEH, MR. WEISS  
3 CREDITS

SOCIAL 300 COMMUNICATIONS AND OPINION  
SOCIOLOGICAL AND POLITICAL PERSPECTIVES ON MASS COMMUNICATIONS.  
PREREQUISITE: SOCIOLOGY 101 AND JUNIOR STANDING  
3 LECT HRS  
STAFF  
3 CREDITS

SOCIAL 321 RACIAL AND ETHNIC RELATIONS  
CONFLICTS AND ACCOMMODATIONS AMONG DIFFERING RACIAL AND ETHNIC GROUPS; NATURE AND CHARACTER OF PREJUDICES AND DISCRIMINATION. MINORITY-MAJORITY RELATIONS IN SELECTED SOCIETIES.  
PREREQUISITE: SOCIOLOGY 101  
3 LECT HRS  
MR. BLACKWELL, MR. ROHRINS  
3 CREDITS

SOCIAL 322 THE BLACK FAMILY  
A SOCIO-HISTORICAL ANALYSIS OF THE EXPERIENCES OF THE BLACK FAMILY IN THE UNITED STATES FROM SLAVERY TO PRESENT. EMPHASIS WILL BE ON THE MODE OF ADJUSTMENT AND ADAPTATION TO THE FORCES OF DOMESTIC COLONIALISM INCLUDING SLAVERY, RACISM, AND ECONOMIC DISCRIMINATION. IT WILL ALSO FOCUS ON STRATIFICATION IN THE BLACK COMMUNITY AS WELL AS ISSUES IN SOCIALIZATION AND PERSONALITY DEVELOPMENT.  
PREREQUISITE: SOCIOLOGY 101  
3 LECT HRS  
STAFF  
3 CREDITS

SOCIAL 330 SOCIOLOGY OF THE FUTURE  
FUTURISM--THE STUDY OF OUR RAPIDLY CHANGING TECHNOLOGICAL AND SOCIAL ENVIRONMENT AND EXAMINATION OF THE THEORIES AND TECHNIQUES BY WHICH THE FUTURE CAN BE FORECASTED, PREDICTED, ANTICIPATED OR PLANNED.  
PREREQUISITE: SOCIOLOGY 101 AND 2 UPPER-LEVEL SOCIOLOGY COURSES  
3 LECT HRS  
MS. HINSTOCK  
3 CREDITS

SOCIAL 332 SOCIOLOGY OF EDUCATION  
THE EDUCATIONAL SYSTEMS OF VARIOUS TYPES OF WESTERN AND NON-WESTERN SOCIETIES AND THE CHANGES IN WESTERN SYSTEMS IN MODERN HISTORY. WITH PARTICULAR REFERENCE TO THE U.S. THE STRUCTURAL FEATURES OF TYPES OF AMERICAN SCHOOLS AND COLLEGES AND THE RELEVANCE OF THESE FEATURES TO THE ECONOMY AND THE IDEOLOGY.  
PREREQUISITE: SOCIOLOGY 101  
3 LECT HRS  
MS. HINSTOCK, MR. ROHRINS, MS. TABLIACCOZZO, MR. HAFE  
3 CREDITS

SOCIAL 333 SOCIOLOGY OF RELIGION  
RELIEF SYSTEMS AND SOCIAL STRUCTURES OF RELIGIOUS GROUPS. IMPACT OF RELIGIOUS SYSTEMS ON FAMILIAL, ECONOMIC, POLITICAL AND OTHER INSTITUTIONS.  
PREREQUISITE: SOCIOLOGY 101  
3 LECT HRS  
MR. MIYAKAWA, MR. ZAMM  
3 CREDITS

SOCIAL 335 POLITICAL SOCIOLOGY  
AN INTERDISCIPLINARY STUDY WITH STRESS ON THE NATURE OF POWER AND ITS DISTRIBUTION IN SOCIETY. ALTERNATIVE APPROACHES TO CHANGING AND TRANSFORMING POWER STRUCTURES.  
PREREQUISITE: SOCIOLOGY 101 AND POLITICS 122  
3 LECT HRS  
MR. BROWN, MR. ROTHLAT, MS. STICHTER  
3 CREDITS

SOCIAL 342 AGING AND SOCIETY  
AN EXAMINATION OF THEORIES AND RESEARCH ON AGING AND SOCIETY. COURSE IS ORGANIZED IN TWO SECTIONS. THE FIRST SECTION EXPLORES THE GENERAL RELATIONSHIP OF THE AGING PROCESS AND THE AGED TO THE SOCIAL, ECONOMIC AND POLITICAL SYSTEMS IN A YOUTH-ORIENTED AND WORK-ORIENTED SOCIETY. THE SECOND SECTION DRAWS UPON CROSS-NATIONAL AND CROSS-CULTURAL MATERIAL.  
PREREQUISITE: SOCIOLOGY 101  
3 LECT HRS  
MR. KAMARA  
3 CREDITS

SOCIAL 350 ELEMENTS OF SOCIAL STATISTICS  
FUNDAMENTALS OF SOCIAL STATISTICS. SPECIAL EMPHASIS ON PROBABILITY, TESTS OF SIGNIFICANCE, AND MEASURES OF ASSOCIATION.  
PREREQUISITE: SOCIOLOGY 101 AND 4 HOURS OF UPPER DIVISION SOCIOLOGY.  
JUNIOR STANDING OR PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MR. MOVANE01, MR. JAMES  
3 CREDITS

SOCIAL 351 METHODS OF SOCIOLOGICAL RESEARCH  
DESIGN OF SOCIOLOGICAL RESEARCH AND METHODS OF INQUIRY. ORGANIZATION AND ANALYSIS OF DATA. DEVELOPMENT OF RESEARCH PROJECTS.  
PREREQUISITE: SOCIOLOGY 101 AND JUNIOR STANDING  
3 LECT HRS  
STAFF  
3 CREDITS

SOCIAL 355 COMPARATIVE SOCIAL STRUCTURES  
THE COMPARATIVE STUDY OF LARGE-SCALE SOCIAL SYSTEMS WITH EMPHASIS ON NATIONAL SOCIETIES. THE THEORY AND METHODOLOGY OF COMPARISON AND COMPARISONS OF MAJOR FEATURES OF SOCIAL SYSTEMS. CONSTRUCTION OF TYPOLOGIES.  
PREREQUISITE: SOCIOLOGY 101 AND JUNIOR STANDING  
3 LECT HRS  
MS. STICHTER AND STAFF  
3 CREDITS

SOCIAL 361 CRIMINOLOGY  
A GENERAL SURVEY AND ANALYSIS OF ADULT CRIME. ATTENTION TO HISTORICAL DEVELOPMENT OF CRIMINOLOGICAL THOUGHT, SOCIETAL REACTION TO CRIME AND BEHAVIORAL SYSTEMS. EMPHASIS ON THEORIES OF CRIMINALITY AND ISSUES IN THE ADMINISTRATION OF JUSTICE BY POLICE AND COURTS.  
PREREQUISITE: SOCIOLOGY 101 AND JUNIOR STANDING  
3 LECT HRS  
MR. BROWN, MR. GARRETT  
3 CREDITS

SOCIAL 373 POPULATION AND ECOLOGY  
THE POPULATION EXPLOSION, BIRTH, DEATH, AND ILLNESS. IMMIGRATION AND EMIGRATION. HOW THE HUMAN AND PHYSICAL ENVIRONMENT INTERACTS WITH QUESTIONNAIRE CONSTRUCTION, INTERVIEWING, AND DATA ANALYSIS.  
PREREQUISITE: SOCIOLOGY 101  
3 LECT HRS  
MR. DICKINSON  
3 CREDITS

SOCIAL 375 SURVEY RESEARCH METHODS  
THE DESIGN OF THE COURSE IS LEARNING BY DOING. EACH STUDENT WILL PARTICIPATE IN THE DEVELOPMENT, CONCEPTUALIZATION, SAMPLING, OF AN ASPECT OF A CENTRAL THEME OF THE COURSE, SUCH AS CHANGING PARENTAL ROLES. WITHIN THIS BROAD AREA STUDENTS WILL DEVELOP THEIR OWN AREA OF INQUIRY. THERE WILL BE A MID-TERM EXAMINATION AND A FINAL PROJECT PAPER.  
PREREQUISITE: SOCIOLOGY 101 AND PSYCHOLOGY 101  
3 LECT HRS  
STAFF  
3 CREDITS

SOCIAL 377 LABORATORY IN GROUP PROCESSES AND INTERPERSONAL COMMUNICATION  
THE PURPOSE OF THIS COURSE IS TO PROVIDE STUDENTS WITH A LEARNING

- EXPERIENCE IN SMALL GROUP DEVELOPMENT THROUGH PARTICIPATION AND ANALYSIS OF OUTGOING GROUP PROCESSES AND INTERPERSONAL INTERACTIONS WITHIN A LABORATORY SETTING. THIS LEARNING WILL BE PARTIALLY EXPERIMENTAL AND PARTLY THROUGH LECTURES, DISCUSSIONS, READINGS, AND PAPERS. THE AIM IS NOT ONLY INTELLECTUAL KNOWLEDGE, DEVELOPING SKILLS IN DECISION MAKING, PROBLEM ANALYSIS, PROBLEM SOLVING AND LEADERSHIP WILL ALSO BE STRESSED.  
3 LECT HRS  
3 CREDITS  
STAFF
- SOCIAL 382 SOCIAL PSYCHOLOGY OF SEX ROLES-MEN AND WOMEN IN SOCIETY  
AN ANALYSIS OF MALE AND FEMALE ROLES IN SOCIETY WITH CONSIDERATION OF BIOLOGICAL AND PSYCHOLOGICAL FACTORS. ATTENTION TO SOCIALIZATION PROCESSES WHICH REFLECT SOCIETIES FUNCTIONAL DEFINITION OF ACCEPTABLE AND DEVIANT SEX ROLES.  
3 LECT HRS  
3 CREDITS  
MS. KOHEN
- SOCIAL 384 MEDICAL SOCIOLOGY  
FOCUSES ON THE CONTRIBUTION OF THE SOCIAL SCIENCES TO THE FIELD OF MEDICAL CARE. THIS IS DONE ALONG TWO DIMENSIONS - 1. ILLNESS AND TREATMENT ARE DEFINED FROM A SOCIO-CULTURAL, BIOLOGICAL PERSPECTIVE. 2. SOCIOLOGICAL THEORIES AND STUDIES ARE THEN BROUGHT TO BEAR ON THE PROBLEMS OF DEFINITIONS OF ILLNESS, ILLNESS BEHAVIOR, THE USE OF MEDICAL SERVICES, THE ORGANIZATION OF MEDICAL SERVICES AND THE FUTURE FRONTIERS OF SOCIAL SCIENCE IN MEDICINE.  
3 LECT HRS  
3 CREDITS  
MR. JAMES, MS. MORGAN
- SOCIAL 385 HOSPITALS  
APPROACHES TO THE STUDY OF COMPLEX ORGANIZATIONS ARE EXAMINED THROUGH A FOCUS ON THE GENERAL HOSPITAL. THE ANALYSIS WILL INCLUDE: TRENDS IN EXTERNAL AND INTERNAL PATTERNS OF SOCIAL CONTROL, DISTINGUISHING ORGANIZATIONAL FEATURES OF THE HOSPITAL; THE ROLE OF PROFESSIONALS AND MANAGERS IN THE CONTEXT OF WORK TECHNOLOGY AND WORK ORGANIZATION; INTERACTIONS BETWEEN PROFESSIONALS AND CLIENTS AND THE MANAGEMENT OF PATIENT CARE UNDER VARYING CONDITIONS.  
3 LECT HRS  
3 CREDITS  
MS. TAGLIACCOZZO, MS. BINSTOCK
- SOCIAL 411 COMMUNITY ORGANIZATION  
MAJOR PRINCIPLES AND CONCEPTS OF COMMUNITY ORGANIZATION WILL BE EXPLORED. PARTICULAR EMPHASIS WILL BE PLACED ON CONSIDERING THE POTENTIALITIES AND LIMITS OF VARIOUS TYPES OF COMMUNITY ORGANIZATIONS TO ACHIEVE SOCIAL CHANGE IN URBAN NEIGHBORHOODS.  
3 LECT HRS  
3 CREDITS  
STAFF
- SOCIAL 421 MINORITIES AND HOUSING  
IT IS THE PURPOSE OF THIS COURSE TO EXPLORE THE RELATION OF URBAN HOUSING AND THE LOCATION OF MINORITIES WITHIN THE STRUCTURE OF AMERICAN SOCIETY. SPECIFICALLY, IT WILL FOCUS UPON THE PROCESSES INVOLVED IN MATCHING PEOPLE AND HOUSING, THE TECHNIQUES AND PROCESSES INVOLVED IN LIMITING HOUSING OPPORTUNITIES FOR SOME PEOPLE, MINORITY STATUS AND HOUSING OPPORTUNITY, THE EFFECTS OF DIFFERENTIAL HOUSING OPPORTUNITIES, AND PROPOSED RESOLUTIONS AND CORRECTIVE MEASURES FOR RE-ARRANGING THE DISTRIBUTION OF HOUSING.  
3 LECT HRS  
3 CREDITS  
MR. NIKKEL
- SOCIAL 427 MINORITY ROLE BEHAVIOR  
A SOCIOLOGICAL ANALYSIS OF THE VARIOUS RESPONSES, SELF-DEFINITIONS AND BEHAVIOR PATTERNS DEVELOPED BY MINORITY GROUPS TO
- THEIR STATUS AS MINORITIES, WITH SPECIAL EMPHASIS ON THE UNITED STATES.  
3 LECT HRS  
3 CREDITS  
MR. BLACKWELL
- SOCIAL 435 THE SOCIOLOGY AND PSYCHOLOGY OF COMPLEX ORGANIZATION  
TYPES OF ORGANIZATIONAL STRUCTURES BOTH HISTORICALLY AND IN INDUSTRIAL SOCIETIES. PROFIT MAKING AND NON-PROFIT MAKING ORGANIZATIONS SUCH AS SCHOOLS, BUSINESSES AND PUBLIC BUREAUCRACIES, CORPORATIONS, CHURCHES, HOSPITALS, PRISONS.  
3 LECT HRS  
3 CREDITS  
MR. JAMES AND MS. BINSTOCK
- SOCIAL 440 SOCIOLOGY OF KNOWLEDGE AND IGNORANCE  
EPISTEMOLOGICAL SOCIOLOGY - SOCIAL DETERMINANTS OF THE GAP BETWEEN REALITY AND OUR KNOWLEDGE OF IT.  
3 LECT HRS  
3 CREDITS  
MR. DICKINSON
- SOCIAL 441 CONTEMPORARY SOCIOLOGICAL THEORY  
A CONCENTRATED EXAMINATION OF RECENT DEVELOPMENTS IN THE STUDY OF HUMAN INTERACTION AND THE PROBLEMS OF SOCIAL ORDER AND SOCIAL CHANGE. ISSUES INVOLVING THE GOALS OF SOCIOLOGY, THE ETHNICS OF SOCIAL RESEARCH, AND BEHAVIOR CONTROL WILL BE A MAJOR FOCUS.  
3 LECT HRS  
3 CREDITS  
MR. LARSON
- SOCIAL 450 EVALUATION RESEARCH  
THE APPLICATION OF RESEARCH METHODS TO THE EVALUATION OF SOCIAL PROGRAMS. THE COURSE ASSUMES KNOWLEDGE OF BASIC RESEARCH METHODS AND WILL USE EXAMPLES FROM THE FIELDS OF CORRECTIONS, HEALTH SYSTEMS, AND URBAN AFFAIRS.  
3 LECT HRS  
3 CREDITS  
STAFF
- SOCIAL 451 FIELD WORK METHODS  
INTENSIVE TRAINING IN OBSERVATIONAL METHODS, READINGS OF THEORETICAL ISSUES INVOLVED, CONCENTRATED COMMUNITY ORIENTED FIELD WORK UNDER CLOSE SUPERVISION.  
3 LECT HRS  
3 CREDITS  
STAFF
- SOCIAL 452 NONEXPERIMENTAL METHODS IN SOCIOLOGY  
DESIGN AND ANALYSIS OF NONEXPERIMENTAL RESEARCH. INCLUDES CONSTRUCTION OF INDICES AND SCALES, METHODS OF CONTROL IN SURVEY RESEARCH, MULTIVARIATE ANALYSIS OF QUALITATIVE AND QUANTITATIVE DATA, ANALYSIS OF CASUAL MODELS AND COMPUTER APPLICATION TO SOCIOLOGICAL DATA.  
3 LECT HRS  
3 CREDITS  
MR. NOVAKOVI
- SOCIAL 462 JUVENILE DELINQUENCY  
THE NATURE AND EXTENT OF DELINQUENCY, EXPLAINING THEORIES, DELINQUENT SURCULTURE, AND PROGRAMS FOR CONTROL AND PREVENTION.  
3 LECT HRS  
3 CREDITS  
MR. BLACKWELL, MR. BROWN, MR. GARRETT
- SOCIAL 463 CORRECTIONS  
PRISONS, JAILS, PAROLE, AND PROBATION, ATTENTION TO INMATE SOCIAL STRUCTURE, PHILOSOPHY UNDERLYING CORRECTIONAL SYSTEM AND MODERN TREATMENT APPROACHES.  
3 LECT HRS  
3 CREDITS  
MR. BROWN, MR. GARRETT

SOCIAL 464 PRACTICUM IN CORRECTION  
SUPERVISED FIELD PLACEMENT IN A CORRECTIONAL SETTING. SEMINAR ON PROBLEMS RELATING TO STUDENTS' FIELD EXPERIENCE AND ON SPECIAL ISSUES IN CORRECTION INCLUDING PRISON REFORM AND LEGISLATION, LEGAL HANDLING OF ADULT AND JUVENILE OFFENDERS, PRISON ADMINISTRATION AND ORGANIZATION.  
3 LECT HRS  
MR. BROWN, MR. GARRETT  
6 CREDITS

SOCIAL 465 POLICE IN SOCIETY  
AN EXAMINATION OF POLICE AS A SYSTEM OF SOCIAL CONTROL, SURVEY OF MAJOR STUDIES OF POLICE BY SOCIOLOGISTS AND GOVERNMENT COMMISSIONS, EMPHASIS PLACED ON POLICE ORGANIZATION, PATTERNS AND CONSEQUENCES OF POLICE TRAINING, HISTORICAL AND CROSS-CULTURAL PERSPECTIVES OF POLICE SYSTEMS AND STUDIES OF POLICE DISCRETION AND POLICE-CITIZEN INTERACTION.  
PREREQUISITE: SOCIOLOGY 101, 463 AND PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MR. BROWN, MR. GARRETT  
3 CREDITS

SOCIAL 466 RESEARCH STUDIES IN THE SOCIOLOGY OF ALCOHOLISM  
AN IN-DEPTH ANALYSIS OF SOCIOLOGICAL FACTORS RELATED TO DRINKING BEHAVIOR, ALCOHOLISM, AND TREATMENT AND PREVENTION PROGRAMS. SPECIAL EMPHASIS PLACED ON THEORY, RESEARCH STUDIES AND METHODOLOGICAL PROBLEMS IN STUDYING ALCOHOLIC POPULATIONS. ATTENTION ALSO GIVEN TO SPECIAL TOPICS--ALCOHOL AND CRIME, TRAFFIC SAFETY, FAMILY CRISIS, INDUSTRY AND SKID ROW.  
PREREQUISITE: SOCIOLOGY 101, SENIOR STANDING, AND PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MR. GARRETT  
3 CREDITS

SOCIAL 467 SOCIOLOGY OF LAW  
A GENERAL ANALYSIS OF THE SOCIAL ORIGINS AND CONSEQUENCES OF LAW AND LEGAL PROCESS. SPECIAL EMPHASIS ON LAW AS A METHOD OF CONFLICT RESOLUTION, AS A SOCIAL CONTROL STRUCTURE, AND ON LAW AND SOCIAL CHANGE. ATTENTION ALSO GIVEN TO LAW IN OTHER SOCIETIES, INCLUDING NONLITERATE SOCIETIES, TO THE EVOLUTION AND DEVELOPMENT OF LEGAL STRUCTURES, AND TO PATTERNS OF JUDICIAL PROCESS AND CRIMINAL LAW.  
PREREQUISITE: SOCIOLOGY 101 AND 466 SEM CREDITS IN SOCIOLOGY, JR. OR SR.  
3 LECT HRS  
MR. JOHNSON  
3 CREDITS

SOCIAL 468 SOCIAL PSYCHIATRY  
SOCIOLOGICAL ANALYSIS OF PSYCHIATRIC THEORIES AND PRACTICES, EXAMINATION OF THE EFFECT OF SOCIAL STRUCTURE ON THE MANUFACTURE, DIAGNOSIS AND TREATMENT OF MENTAL DISORDERS.  
PREREQUISITE: 3 COURSES IN SOCIOLOGY OR PSYCHOLOGY 101, JR. OR SR STANDING  
3 LECT HRS  
MR. MOVEMENT  
3 CREDITS

SOCIAL 471 MODERNIZATION  
SOCIAL AND ECONOMIC ASPECTS OF DEVELOPMENT AND MODERNIZATION IN VARIOUS SOCIETIES.  
PREREQUISITE: SOCIOLOGY 101 AND ANTHROPOLOGY 101- JR OR SR STANDING  
3 LECT HRS  
MR. WOOD  
3 CREDITS

SOCIAL 472 CONFLICT IN SOCIETY  
AN EXPLORATION INTO THE NATURE, SOURCES, TYPES AND EFFECTS OF CONFLICT CONTROL AND RESOLUTION, PARTICULARLY THEORETICAL IN APPROACH WITH EMPHASIS UPON CONFLICT AS A SOCIAL PROCESS.  
PREREQUISITE: SOCIOLOGY 101  
3 LECT HRS  
STAFF  
3 CREDITS

SOCIAL 473 SOCIOLOGY OF SOCIAL MOVEMENTS  
ANALYSIS OF GENERAL CHARACTERISTICS OF SOCIAL MOVEMENTS AS A VEHICLE OF SOCIAL CHANGE - WITH FOCUS ON SELECTED HISTORICAL SOCIAL MOVEMENTS.

PREREQUISITE: SOCIOLOGY 101, SENIOR OR GRADUATE STANDING.  
3 LECT HRS  
MR. ZAHN, STAFF  
3 CREDITS

SOCIAL 474 IDEOLOGY AND SOCIAL CONTROL IN SOUTHERN AFRICA AND LATIN AMERICA  
FROM A COMPARATIVE PERSPECTIVE, THE EXERCISE AND STRUCTURE OF POWER IN SELECTED NATIONS, STATES OF LATIN AMERICA AND SOUTHERN AFRICA.  
PREREQUISITE: SOCIOLOGY 101  
3 LECT HRS  
STAFF  
3 CREDITS

SOCIAL 475 SOCIALIZATION  
THEORIES AND RESEARCH ON SOCIALIZATION FROM A SOCIOLOGICAL-SOCIAL PSYCHOLOGICAL PERSPECTIVE. EMPHASIS ON SOCIALIZATION DURING CHILDHOOD AND CONTINUITIES AND DISCONTINUITIES BETWEEN CHILD AND ADULT SOCIALIZATION.  
PREREQUISITE: SOCIOLOGY 101 AND SOCIOLOGY 201, JR OR SR STANDING  
3 LECT HRS  
MS. KORN  
3 CREDITS

SOCIAL 476 MEDICAL CARE SYSTEMS  
THIS COURSE WILL PURSUE A COMPARATIVE EXAMINATION AND ANALYSIS OF MEDICAL CARE SYSTEMS. A GENERAL SYSTEM FRAMEWORK WILL BE USED. THE STRATEGY FOR ANALYSIS WILL BE TO ANALYZE VARIOUS SYSTEMS IN TERMS OF THE PROPERTIES OF THE SYSTEMS AND THE INTERRELATIONS AND THE INTERDEPENDENCIES OF THE PROPERTIES. THERE WILL BE ATTEMPTS TO CONNECT THE STRUCTURES AND THE OPERATIONS OF THE SYSTEMS TO THE LARGER SOCIETAL STRUCTURES OF THE SOCIETIES. THE FOCUS WILL BE ON MEDICAL CARE IN MODERN, INDUSTRIALIZED SOCIETIES.  
PREREQUISITE: SENIOR STANDING AT LEAST, THREE COURSES IN SOCIOLOGY, OF WHICH TWO MUST BE SOCIOLOGY 101 AND SOCIOLOGY 344  
3 LECT HRS  
STAFF  
3 CREDITS

SOCIAL 47A DIRECTED STUDY IN SOCIOLOGY  
STUDENTS INVITED BY THE DEPARTMENT TO CONDUCT INDEPENDENT RESEARCH DURING THE SENIOR YEAR. PERIODIC CONSULTATION AND GUIDANCE PROVIDED BY THE STAFF.  
PREREQUISITE: SOCIOLOGY 101, SR STANDING  
HRS BY ARRANGEMENT  
STAFF  
1-4 CREDITS

SOCIAL 479 DIRECTED STUDY IN SOCIOLOGY  
STUDENTS INVITED BY THE DEPARTMENT TO CONDUCT INDEPENDENT RESEARCH DURING THE SENIOR YEAR. PERIODIC CONSULTATION AND GUIDANCE PROVIDED BY THE STAFF.  
PREREQUISITE: SOCIOLOGY 101, SR STANDING  
HRS BY ARRANGEMENT  
STAFF  
1-4 CREDITS

SOCIAL 480 SPECIAL TOPICS  
INTENSIVE STUDY OF SPECIAL TOPICS VARYING EACH YEAR ACCORDING TO INSTRUCTOR.  
PREREQUISITE: SOCIOLOGY 101 AND PERMISSION OF INSTRUCTOR  
3 LECT HRS  
STAFF  
3 CREDITS

SOCIAL 481 SPECIAL TOPICS  
INTENSIVE STUDY OF SPECIAL TOPICS VARYING EACH YEAR ACCORDING TO INSTRUCTOR.  
PREREQUISITE: SOCIOLOGY 101 AND PERMISSION OF INSTRUCTOR  
3 LECT HRS  
STAFF  
3 CREDITS

SOCIAL 484 SOCIOLOGY OF HEALTH AND HEALERS  
SOCIAL ISSUES IN CONCEPTS OF HEALTH CARE ARE EXPLORED AND SOCIOLOGICAL RESEARCH ON HEALERS IS SURVEYED. TOPICS INCLUDE SOCIALIZATION, PROFESSIONALISM, AND ORGANIZATION OF A VARIETY OF HEALERS.  
PREREQUISITE: SOC 101, SOC 304, JR OR SR STANDING  
3 LECT HRS  
3 CREDITS

SOCIAL 485 SEMINAR ON SINGLE PARENT FAMILIES  
A SEMINAR DEALING WITH THE SINGLE PARENT FAMILY EXPERIENCE FROM THE POINT OF VIEW OF BOTH SOCIAL SCIENTISTS AND OF PEOPLE LIVING IN SINGLE PARENT FAMILIES.  
3 LECT HRS  
MR. WEISS  
3 CREDITS

# SPANISH

## GRADUATION REQUIREMENTS - College I

Spanish majors are required to take ten semesters of advanced courses. At least three of them should be in Spanish Literature and three in Spanish American Literature. Otherwise, majors are expected to choose courses that best satisfy their own interest and needs; but, in planning their program, must obtain assistance from their departmental advisors. Honors Thesis: students may receive 3 credits toward their total major credits for acceptance work on Honors Thesis written under the direction of a professor from the department.

## College II

In recognition of the different educational and vocational goals of students, two major programs are available: The Literature Major and the Language Major.

- A. Literature majors are required to take Literary Arts, The Senior Seminar, and eight additional semester courses in literature on the three hundred level or higher. They are strongly advised to take at least two Genre survey courses (Novel, Poetry, Theatre), plus Don Quijote.
- B. Language majors are required to take Language Arts and Literary Arts, plus eight semester courses on the three hundred level or higher, of which at least four must be in literature. Non-native speakers are strongly advised to take Advanced Conversation, Advanced Composition and Spanish Civilization. Honors Theses: with department approval, and in conjunction with the senior seminar, Spanish majors may receive three credits toward their total of thirty major credits for acceptable work on an Honors Thesis written under the direction of an advisor from the Spanish department.

Methods and practice teaching or Spanish in secondary schools (or bilingual programs) may count for only three credits toward the Spanish major.

AN INTRODUCTION TO AND EXPLORATION OF STAGE FACILITIES AND SKILLS EMPHASIZING SKILL DEVELOPMENT IN THE USE AND CHOICE OF TOOLS, MATERIALS AND PROCEDURES NECESSARY IN SCENIC AND PROPERTY EXECUTION. INCLUDES LAB WORK IN DEPARTMENT PRODUCTION.  
3 LECT HRS  
MS. VAN VOORHIS  
3 CREDITS

THARP 125 SPEECH AND MOVEMENT

BASICS OF VOICE TRAINING, DICTION IMPROVEMENT, DIAPHRAGMATIC BREATHING, MOVEMENT WORK FOR THE STAGE USING TAI CHI, YOGA, CHARACTERIZATION MOVEMENT, MOVEMENT TO DEVELOP STAGE PRESENCE, THE KEEPING OF A JOURNAL BY EACH STUDENT.  
3 LECT HRS  
MS. LINOWEIM  
3 CREDITS

- THRAPT 126 SPEECH AND ORAL INTERPRETATION  
STUDY OF PRINCIPLES OF SPEECH AND ORAL INTERPRETATION EMPHASIZING ANALYSIS, PREPARATION AND PRESENTATION OF LITERARY MATERIAL BEFORE AN AUDIENCE.  
PREREQUISITE: SPEECH AND MOVEMENT, THRAPT 125 AND PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MS. LINDHEIM  
3 CREDITS
- THRAPT 212 THEATRE OF SOCIAL PROTEST  
AN HISTORICAL SURVEY OF THE USE OF THE THEATRE TO CHALLENGE THE VALUES OF SOCIETY. THE TECHNIQUES OF STAGECRAFT USED IN DIFFERENT PERIODS TO REVEAL CONFLICT IN SOCIETY, DRAMATIZE CONTEMPORARY ISSUES, AND INFLUENCE PUBLIC OPINION.  
3 LECT HRS  
MR. ROBERTS  
3 CREDITS
- THRAPT 213 AMERICAN THEATRE BEFORE O'NEILL  
A SURVEY OF AMERICAN DRAMA FROM BEFORE THE REVOLUTION UNTIL THE ADVENT OF O'NEILL ON BROADWAY IN 1920. EMPHASIS WILL BE PLACED UPON THE RELATION OF INDIVIDUAL PLAYS TO AMERICAN THEATRICAL, POLITICAL, AND SOCIAL HISTORY.  
3 LECT HRS  
MR. EVANS, MR. ROBERTS  
3 CREDITS
- THRAPT 214 AMERICAN THEATRE SINCE O'NEILL  
THE RISE AND DECLINE OF THE GREAT PERIOD IN AMERICAN PLAYWRITING AND PRODUCTION. EMPHASIS ON THE BROADWAY THEATRE AS A MIRROR-IMAGE OF THE IDEAS AND EVENTS OF AMERICAN CONTEMPORARY HISTORY SINCE WORLD WAR I.  
3 LECT HRS  
MR. EVANS, MR. ROBERTS  
3 CREDITS
- THRAPT 215 MID-TWENTIETH CENTURY DRAMA  
THE IDEAS, VALUES, AND TECHNIQUE OF THE CONTEMPORARY THEATRE AS REFLECTED IN STAGE PRODUCTION.  
3 LECT HRS  
MR. ROBERTS  
3 CREDITS
- THRAPT 216 ELIZABETHAN STAGE  
STUDY OF ELIZABETHAN STAGE TECHNIQUES AS REVEALED IN PLAYS BY MARLOWE, SHAKESPEARE, JONSON, WEBSTER.  
PREREQUISITE: PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MR. EVANS  
3 CREDITS
- THRAPT 220 BLACK THEATRE IN AMERICA  
AN EXPLORATION OF THE RICH AND COMPLEX HISTORY OF BLACK THEATRE FROM ITS BEGINNINGS TO THE PRESENT, AS RELATED TO AND REFLECTIVE OF AMERICAN SOCIETY. AN EXTENSION OF HISTORICAL UNDERSTANDING OF THE RELATION OF THEATRE TO SOCIETY, AND A STUDY OF AN ARTISTIC TRADITION GREATLY INFLUENCING AMERICAN THEATRE PRACTICES.  
3 LECT HRS  
MR. OWENS  
3 CREDITS
- THRAPT 223 STAGECRAFT II  
A STUDY OF THE TOOLS, EQUIPMENT AND PROCEDURES NECESSARY IN THEATRICAL GRAPHICS, LIGHTING AND SOUND PRODUCTION. INCLUDES LAB WORK IN DEPARTMENT PRODUCTION AND INDIVIDUAL PROJECTS.  
PREREQUISITE: STAGECRAFT I  
3 LECT HRS  
MS. VAN VOORHIS  
3 CREDITS
- THRAPT 224 PLAY PRODUCTION I  
A STUDY OF THE PROCESS OF PRODUCING A THEATRICAL EVENT EMPHASIZING THE SELECTING AND TRAINING OF THE PRODUCTION STAFF, BUDGETING AND PROMOTION. LAB WORK INCLUDES SUPERVISORY ROLE IN DEPARTMENT PRODUCTION.  
3 LECT HRS  
MS. VAN VOORHIS  
3 CREDITS
- THRAPT 225 PLAY PRODUCTION II  
FURTHER EXPLORATION OF PRODUCING THEATRE, MOST ESPECIALLY FOR THE ORGANIZATION OF PERSONNEL AND FACILITIES FOR TOURING AND REPERTORY.  
PREREQUISITE: STAGECRAFT I OR PLAY PRODUCTION I  
3 LECT HRS  
MS. VAN VOORHIS  
3 CREDITS
- THRAPT 230 WORKSHOP IN DRAMA  
A COURSE DESIGNED TO STUDY THE CONNECTION BETWEEN THE TEXT AND THE PERFORMANCE OF A PLAY. SOME ATTENTION IS GIVEN ALSO TO THE PLAY-WRIGHT, HIS TIME, AND TO PRODUCTION HISTORY. WRITTEN WORK MAY INCLUDE A DIRECTOR'S NOTEBOOK AND PROGRAM NOTES. STUDENTS WILL PARTICIPATE IN ONE OR MORE FULLY-MOUNTED PRODUCTIONS AND PRESENTED TO THE UNIVERSITY COMMUNITY FREE OF CHARGE.  
3 LECT HRS, 3 LAB HRS  
MR. ROBERTS, MR. EVANS  
4 CREDITS
- THRAPT 232 MODERN DANCE THEATRE WORKSHOP  
DIFFERENT COLORS, TEXTURES, RHYTHMS AND IMAGES CAN BE EXPRESSED IN BODY MOVEMENT. THIS WORKSHOP WILL USE AFRICAN, JAZZ, BLUES, MODERN DANCE, TAI CHI, YOGA AND IMPROVISATION. THE FINAL PROJECT WILL BE A MOVEMENT DANCE THEATRE PIECE INCORPORATING ALL THE TECHNIQUES EXPERIENCED IN THE CLASS.  
6 LECT HRS  
MS. LINDHEIM  
4 CREDITS
- THRAPT 234 NEW THEATRE STRATEGIES  
WORKS IN A NEW DIRECTION IN THEATRE, SUCH AS THE EVOLUTION OF A THEATRE PIECE FROM A THEME OR GROUP OF THEMES RATHER THAN A SCRIPT. STUDENTS WILL BE INVOLVED IN ALL AREAS OF THE COLLECTIVE PROCESS OF FORMULATING DRAMA FROM THE INTERACTION OF A GROUP, STRUCTURED AND DIRECTED BY THE INSTRUCTOR.  
2 LECT HRS, 2 LAB HRS  
STAFF  
3 CREDITS
- THRAPT 235 INTRODUCTION TO DIRECTING I  
DIRECTOR AS CREATOR OF VISION OF WHOLE PLAY AND ALL ITS ELEMENTS. ACTING, LIGHTING, STAGE DESIGN, STYLES OF THEATRE, SCRIPT BREAKDOWN, PRODUCTION NOTEBOOK. SLOW CAREFUL WORK IN DIRECTING SMALL SCENES.  
3 LECT HRS  
STAFF  
3 CREDITS
- THRAPT 236 INTRODUCTION TO ACTING I  
DRAMATIC FORM REQUIRED IN ACTING. A SURVEY OF VARIOUS STYLES -GREEK, ELIZABETHAN, RESTORATION AND MODERN- AND THE ACTOR'S FUNCTION. EMPHASIS ON RECENTLY EVOLVED METHODS OF ACTING, AND ON PREPARATION OF SCENES IN CLASS.  
PREREQUISITE: PERMISSION OF INSTRUCTOR.  
3 LECT HRS  
STAFF  
3 CREDITS
- THRAPT 240 WOMEN IN THEATRE  
PLAYS BY AND ABOUT WOMEN. HISTORY OF WOMEN IN THEATRE, VISITS WITH WOMEN EMPLOYED IN THEATRE.  
3 LECT HRS  
STAFF  
3 CREDITS
- THRAPT 251 PLAYWRITING I  
WRITING FOR THE THEATRE. INCLUDING EXAMINATION OF MODEL ONE-ACT AND THREE-ACT PLAYS BY MAJOR CONTEMPORARY WRITERS. SELECTED READINGS ON THE CRAFT OF PLAYWRITING, AND COMPLETION OF AN ORIGINAL PLAY REGUN IN CLASS.  
3 LECT HRS  
MR. OWENS, MR. ROBERTS  
3 CREDITS

THPART 261 INTRODUCTION TO COSTUME DESIGN  
IN THE THEATRE INCORPORATING HISTORY OF FASHION, COSTUME DESIGN,  
THEORETICAL APPROACH TO DESIGNING COSTUMES FOR THE THEATRE AND FILM,  
INTRODUCTION TO THE USES OF COLOR, SCALE, GENERAL DESIGN ELEMENTS AS  
APPLICABLE TO STAGE COSTUMING, THE QUALITIES OF FABRIC, BASIC  
CUTTING AND DRAPING IN STAGE COSTUMES.  
3 LECT HRS  
MR. ROBERTS  
3 CREDITS

THPART 300 SEMINAR IN THE SCENIC IMAGINATION  
THE CREATIVE PRINCIPLES OF STAGE PRODUCTION, BASED ON AN ANALYSIS OF  
THE PLAYSCRIPT IN ITS RELATION TO THE STAGE ACTION, SETTING,  
COSTUMES AND LIGHTING. STUDY OF SCENIC METAPHOR AND A REVIEW OF THE  
HISTORIC FORMS OF STAGING, WITH EMPHASIS ON THE MODERN STYLES FROM  
NATURALISM TO ABSTRACTISM AND EPIC THEATRE.  
PREREQUISITE: PERMISSION OF INSTRUCTOR.  
3 LECT HRS  
STAFF  
3 CREDITS

THPART 301 SEMINAR IN CONTEMPORARY AMERICAN PLAYWRIGHTS  
ANALYSIS OF THE ART OF A MAJOR LIVING WRITER OF THE AMERICAN STAGE  
THE HISTORY OF HIS PLAYS AND THEIR PRODUCTION CRITICAL RESPONSE  
CONTRIBUTION OF HIS DRAMA TO THE AMERICAN THEATRE AND SOCIETY. IN  
MOST CASES STUDENTS WILL CONSULT WITH THE PLAYWRIGHT AND/OR THOSE  
WHO HAVE WORKED WITH HIM.  
3 LECT HRS  
MR. ROBERTS  
3 CREDITS

THPART 335 INTRODUCTION TO DIRECTING II  
ADVANCED WORK IN DIRECTING, INCLUDING THE MOUNTING OF SCENES AND  
ONE-ACT PLAYS.  
PREREQUISITE: INTRODUCTION TO DIRECTING I  
3 LECT HRS  
STAFF  
3 CREDITS

THPART 376 INTRODUCTION TO ACTING II  
ADVANCED WORK IN ACTING, INCLUDING THE MOUNTING OF SCENES AND ONE-  
ACT PLAYS.  
PREREQUISITE: INTRODUCTION TO ACTING I  
3 LECT HRS  
STAFF  
3 CREDITS

THPART 351 PLAYWRITING II  
WRITING FOR THE THEATRE, WITH EMPHASIS ON THE THREE-ACT FORM,  
INCLUDING THE CONSTRUCTION OF A SCENARIO AND COMPLETION OF A DRAFT  
OF AN ORIGINAL THREE-ACT PLAY.  
PREREQUISITE: PLAYWRITING I  
3 LECT HRS  
MR. OWENS  
3 CREDITS

THPART 360 DESIGN II  
ADVANCED TECHNIQUES IN THE SCENE SKETCH, MODELS FOR SCENERY, INTER-  
PRETATIONS OF THE OFFERING STYLES REQUIRED FOR PLAYS, OPERA, BALLET,  
MUSICAL COMEDY, ETC. SKETCHES, GROUND PLANS, AND ONE MAJOR DESIGN  
PROJECT TO BE EXECUTED DURING THE TERM.  
PREREQUISITE: DESIGN, OR PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MR. ROBERTS  
3 CREDITS

THPART 404 ADVANCED DIRECTING  
ADVANCED WORK ON SPECIAL PROJECTS AS A WHOLE CLASS IN LABORATORY  
SITUATION, MOUNTING OF SMALL SCENES AND PLAYS.  
PREREQUISITE: DIRECTING I AND II, PERMISSION OF INSTRUCTOR  
3 LECT HRS  
MS. AUSUBEL  
3 CREDITS

THPART 435 THEATRE ARTS INTERNSHIP PROGRAM  
DESIGNED TO ENABLE THEATRE ARTS MAJORS WITH SUFFICIENT COURSE  
WORK BEHIND THEM TO EARN 6 CREDITS FOR A SEMESTER'S INTERNSHIP  
WITH A WORKING THEATRE OR THEATRE PROGRAM IN A COMMUNITY COLLEGE.

PREREQUISITE: TA MAJOR, JR AND SR, ONLY, PERMISSION OF INSTRUCTOR  
6 CREDITS  
HRS BY ARRANGEMENT  
MR. EVANS

THPART 436 ADVANCED ACTING  
ADVANCED WORK ON SELECTED PROJECTS. SPECIAL ATTENTION TO  
INDIVIDUAL ACTOR'S NEEDS, SCENE WORK SCRIPT BREAKDOWN AND  
DEVELOPMENT OF A CHARACTER FOR A WHOLE PLAY.  
PREREQUISITE: ACTING I & II  
4 HRS  
STAFF  
3 CREDITS

THPART 478 INDEPENDENT STUDY  
OPEN ONLY TO A VERY LIMITED NUMBER OF STUDENTS IN ANY ONE SEMESTER:  
RESEARCH, STUDY, AND PARTICIPATION IN THEATRE PROJECTS OUT-  
SIDE THE CLASSROOM IN CONSULTATION WITH A FACULTY ADVISER. A  
WRITTEN PROPOSAL IS REQUIRED OF APPLICANTS.  
PREREQUISITE: PERMISSION OF INSTRUCTOR AND DEPARTMENT CHAIR-  
PERSON  
HRS BY ARRANGEMENT  
STAFF  
1-3 CREDITS

THPART 491 SELECTED TOPICS  
STUDY OF DIFFERENT AREAS OF THEATRE ARTS PREPARATION, COURSE CONTENT  
WILL VARY EACH SEMESTER AND WILL BE ANNOUNCED DURING PRE-REGISTRATION  
PERIODS.  
PREREQUISITE: SOPHOMORE STANDING  
3 LECT HRS  
STAFF  
3 CREDITS

THPART 586 SEMINAR - TEACHING OF DRAMA  
PREREQUISITE: ADMISSION TO TEACHER'S CERTIFICATION  
PROGRAM AND PERMISSION OF INSTRUCTOR  
MR. ROBERTS  
3-9 CREDITS

WOMEN'S STUDIES

WOST 100 WOMEN AND SOCIETY, AN INTRODUCTION TO WOMEN'S STUDIES  
AN INTERMEDIATE, INTERDISCIPLINARY COURSE RECOMMENDED AS A FIRST  
COURSE IN WOMEN'S STUDIES. THROUGH LECTURES, READINGS, AND  
DISCUSSIONS, STUDENTS WILL EXAMINE THE ORIGINS OF WOMEN'S  
OPPRESSION, FEMALE AND MALE SEX ROLES, MARRIAGE AND THE FAMILY  
WOMEN WORKERS AT HOME AND IN THE LABOR FORCE. STUDENTS WILL RELATE  
COURSE MATERIAL TO EXPERIENCES IN THEIR OWN LIVES. FIRST AND SECOND  
YEAR STUDENTS ONLY.  
3 LECT HRS  
MS. FRONIES, MS. HUMEZ  
4 CREDITS

WOST 200 TWENTIETH CENTURY WOMEN WRITERS: A FEMINIST PERSPECTIVE  
A FEMINIST PERSPECTIVE  
AN INTERMEDIATE-LEVEL COURSE WHICH EXAMINES THE WAYS WOMEN  
WRITERS IN THIS CENTURY HAVE DEALT WITH SOME IMPORTANT THEMES OF  
CONTEMPORARY FEMINISM. THESE INCLUDE: THE SPECIAL DIFFICULTIES  
FACING THE WOMAN ARTIST; THE PROCESS OF FEMALE SOCIALIZATION AND ITS  
IMPACT ON MOTHER-DAUGHTER RELATIONSHIPS; FEMALE ADOLESCENCE,  
LESBIANISM, THE NEED FOR MAKING THE LIVES OF ORDINARY WOMEN A  
SUBJECT FOR STUDY AND A SOURCE OF ARTISTIC CREATION;  
AND RECOVERY OF WOMEN'S COLLECTIVE PAST. NOVELS, SHORT STORIES,  
SOME ANALYTICAL ESSAYS AND AUTOBIOGRAPHIES WILL BE USED.

3 LECT HRS  
STAFF  
3 CREDITS

- WOST 280 INTERMEDIATE SPECIAL TOPICS  
SELECTED TOPICS IN WOMEN'S STUDIES AT THE INTERMEDIATE LEVEL.  
3 LECT HRS  
STAFF
- WOST 300 FEMINIST THOUGHT  
AN ADVANCED COURSE DESIGNED FOR WOMEN'S STUDIES CONCENTRATORS AND FOR SOCIAL SCIENCE MAJORS. IT IS A SURVEY OF A PARTICULAR BODY OF WESTERN POLITICAL THOUGHT. TOPICS INCLUDE BRITISH FEMINISM, MARXIA VIEWS ON THE 'WOMAN QUESTION', SOCIALIST THEORIES ABOUT WOMEN, AMERICAN SUFFRAGISM, AND CONTEMPORARY WRITINGS OF WITCHELL, FIRESTONE, DEFAUVRIER, AND OTHERS.  
3 LECT HRS  
STAFF
- WOST 350 WOMEN AND IMPERIALISM  
AN UPPER LEVEL COURSE FOCUSING ON THE IMPACT OF COLONIALISM AND IMPERIALISM ON WOMEN'S LIVES IN SELECTED THIRD WORLD COUNTRIES AND IN THE UNITED STATES. TOPICS EXAMINED WILL INCLUDE CHANGING WORK AND FAMILY ROLES OF WOMEN IN ASIAN COUNTRIES AND PUERTO RICO; THE WOMAN'S ROLE IN ECONOMIC DEVELOPMENT; THE FOOD CRISIS AND POPULATION CONTROL; WOMEN'S PARTICIPATION IN NATIONAL LIBERATION STRUGGLES AND SOCIALIST CONSTRUCTION IN ALGERIA, VIETNAM, AND CUBA; FEMINIST VALUES, MILITARISM, AND THE PEACE MOVEMENT IN THE UNITED STATES.  
3 LECT HRS  
STAFF
- WOST 400 RESEARCH AND METHODS IN WOMEN'S STUDIES  
A SEMINAR TO INTRODUCE STUDENTS TO A VARIETY OF RESEARCH METHODS IN VARIOUS DISCIPLINES IN ORDER TO DEVELOP AN INTERDISCIPLINARY APPROACH TO SELECTED TOPICS IN WOMEN'S STUDIES. INSTRUCTION AND STUDENTS WILL CONSIDER NEW SOURCES OF MATERIAL FOR RESEARCH ON WOMEN. COMPLETION OF A MAJOR PROJECT OR RESEARCH PAPER WILL BE REQUIRED. LIMITED TO 14 JUNIOR OR SENIOR STUDENTS.  
3 LECT HRS  
STAFF
- WOST 470 INDEPENDENT STUDY  
OPEN TO A LIMITED NUMBER OF STUDENTS EACH SEMESTER. A WRITTEN PROSPECTUS MUST BE FORMULATED WITH THE INSTRUCTOR.  
PREFQUISITE: PERMISSION OF INSTRUCTOR AND APPROVAL OF THE PROGRAM MRS BY ARRANGMENT  
3 LECT HRS  
STAFF
- WOST 480 ADVANCED SPECIAL TOPICS  
SELECTED TOPICS IN WOMEN'S STUDIES AT THE ADVANCED LEVEL. TAUGHT BY VISITING LECTURERS AND STAFF.  
PREFQUISITE: MOST 100 OR EQUIVALENT AND INSTRUCTOR'S PERMISSION OF INSTRUCTOR  
3 LECT HRS  
STAFF

## GRADUATE PROGRAM

### MASTERS DEGREE PROGRAMS

#### Masters Degree Requirements

1. Thirty graduate credits. Up to six credits of grade B or better may be transferred from other institutions with the consent of the department. Twenty-one of the 30 credits must be in the major field. If a thesis is offered, six credits must be earned in graduate courses; if a thesis is not offered, 12 credits must be earned in graduate courses. Not more than 10 credits is earned by means of a thesis. No credit is valid after six years unless an appeal to the Department is sustained.
2. The thesis and general examination are optional with the school or department, but if required, they shall be under the supervision of a committee recommended by the major department. The thesis committee will consist of members of the faculty at the discretion of the chairperson of the department, and should be appointed as soon as possible after the student's first graduate registration. As soon as the student arrives on campus, and prior to the appointment of a thesis committee, an advisor, or guidance committee, should be appointed for the student from the members of the faculty. Once the student has selected his thesis topic, the guidance committee may serve as the thesis committee, although these two committees are not necessarily the same.  
  
The thesis must be approved by the thesis committee, the department chairperson, the advisor, and those members of the faculty in the major department designated by the department chairperson to approve the thesis.  
  
The General Examination (not limited to the thesis topic) is conducted by an examining committee of at least three members of the faculty. The recommendation of a majority of the members of the examining committee shall be requisite to receiving the degree. If a student offers a thesis, problem courses shall be limited to six credits.
3. All foreign language requirements for the Masters Degree are optional with the department.
4. Course credits used by any student for fulfilling the requirements for a Masters degree may not be used by the student for fulfilling the requirements for any other Masters degree at this University.

#### THE BIOLOGY GRADUATE PROGRAM

Our program is designed with flexibility in order to satisfy the aspirations of those who wish rigorous training leading to a degree of Master of Science in Biology. A special emphasis is placed on training for those who wish to teach. Each student will be assigned to three-member advising committee which will consider his training and aspirations and, in consultation with him, establish an appropriate program of study. The program may vary widely with the needs of the student, and the decision of whether or not to require an original thesis

of Masters candidates will be made on an individual basis. The student who is to write a thesis may, with proper consultation, select a research advisor who will then become chairman of his advising committee. The advising committee will be responsible for insuring that the candidate for a degree fulfills all requirements of the department and graduate school.

Each graduate student will be assigned space and facilities in the college of the chairperson of his advising committee, but graduate instruction will be independent of the collegiate system, and courses in a student's program may be offered in any college. Those students who write an original research thesis will normally do research in the laboratory of the research advisor.

#### Admission Requirements

In addition to the University-wide requirements for admission to graduate school those admitted to the Graduate Program in Biology will have to meet the following requirements: (1) The candidate must submit the results of the verbal and quantitative portions of the Graduate Record Examination (2) The candidate must normally have a grade point average of 3.0 in all undergraduate science and mathematics courses.

#### Facilities Available in Biology

The facilities on the campus allow programs in most phases of Biology. There are research laboratories for faculty members and graduate students and teaching laboratories for graduate courses. The facilities include all of those normally found in modern laboratories in the Biological sciences.

The campus is located on Boston Harbor and therefore one type of marine environment is readily accessible to it. Much of our instruction will be built around the Harbor. We also have a field station on Nantucket Island, and through cooperative arrangement we have access to still other types of marine habitats. We will use the city and the harbor as a source of biological material and as a facility for Biological Studies. Through cooperation of the Waltham Field Station of the University, we have facilities for large plantings of botanical materials. There are a number of other institutions in the area with which we have informal arrangements so that some rather specialized facilities can be made available if they are needed.

#### Course of Study

All 600 level courses are open to both undergraduate and graduate students. See undergraduate listing for 600 levels.

Many of the courses will be taught as tutorials by teams of faculty members sometimes from different departments. Since some of the courses will vary greatly in context with the needs of the students and the desires of the faculty, some of the courses may be taken for credit more than once. The course will be offered only upon prior arrangement by the student or his advising committee. Permission of the instructor is required for enrollment in all courses, and it is understood that the student will have the background necessary to handle the subject at the graduate level. In many courses the student will be expected to study from the original research literature in the field.

BIOL 702 PLANT PHYSIOLOGY  
CURRENT DEVELOPMENTS IN PLANT PHYSIOLOGY, MORPHOGENESIS AND  
BIOCHEMISTRY.

PREREQUISITE: PERMISSION OF INSTRUCTOR  
HRS. BY ARRANGEMENT  
STAFF

3-5 CREDITS

BIOL 712 ADVANCED CELL BIOLOGY

THE ANALYSIS OF GENE TRANSFER AND EXPRESSION AT THE CELLULAR  
LEVEL, INCLUDING THE NATURE OF METABOLIC SYSTEMS AND THE  
FACTORS GOVERNING THEIR REGULATION.

PREREQUISITE: PERMISSION OF INSTRUCTOR  
HRS BY ARRANGEMENT  
STAFF

3-5 CREDITS

PREREQUISITE: PERMISSION OF INSTRUCTOR  
HRS BY ARRANGEMENT  
STAFF

2-8 CREDITS

BIOL 812 ADVANCED FIELD BIOLOGY  
ORIGINAL RESEARCH PROJECTS WILL BE CARRIED OUT AT THE UNIVERSITY NANTUCKET FIELD STATION OR ELSEWHERE UNDER THE DIRECTION OF A SPECIFIC STAFF MEMBER. NANTUCKET PROJECTS WILL IN GENERAL BE CARRIED OUT DURING THE FIRST HALF OF THE SUMMER, BUT BY ARRANGEMENT, SOME WORK MAY BE ACCOMPLISHED AT OTHER TIMES DURING THE YEAR. THE PROJECT SHOULD BE PLANNED WELL IN ADVANCE OF THE TIME THAT THE FIELD WORK IS TO BE DONE. MAINLAND STUDENTS WHO LIVE AT THE FIELD STATION ARE RESPONSIBLE FOR MODERATE EXPENSES.  
PREREQUISITE: PREVIOUS EXPERIENCE IN FIELD BIOLOGY, SUBSTANTIAL BACKGROUND IN BIOLOGY AND RELATED SUBJECTS AND PERMISSION OF INSTRUCTOR.  
HRS BY ARRANGEMENT  
STAFF

1-6 CREDITS

BIOL 900 INDEPENDENT STUDY  
THE MASTER'S THESIS OR OTHER FORM OF COMPREHENSIVE REPORT MAY BE USED TO SATISFY REQUIREMENTS OF THE COURSE. NO MORE THAN A TOTAL OF 8 CREDITS OF THIS COURSE AND OTHER RESEARCH OR INDEPENDENT STUDY COURSES (E.G. BIOLOGY 802) MAY BE APPLIED TOWARD AN MS DEGREE.  
HRS BY ARRANGEMENT  
STAFF

2-8 CREDITS

# THE CHEMISTRY GRADUATE PROGRAM

## The Candidate is Required

1. To take six one semester courses of which one is to be in each of the areas of Dynamics, Structure, and Synthesis (3 credits per course)
2. To submit an original contribution (Thesis) in Chemistry or in a Chemistry related field (10 credits maximum)
3. To participate in a seminar program (1 credit per semester)

The elective courses can be selected from course offerings of other departments in the University subject to approval of the Graduate Committee of the Department.  
For graduation the candidate needs 30 graduate credits. Up to six credits of Grade B or better may be transferred from other institutions subject to the approval of the Graduate Committee of the Department.

CHEM 701 CHEMICAL DYNAMICS I  
DISCUSSIONS AND OUTSIDE READINGS IN THE AREAS OF CHEMICAL AND PHYSICAL EQUILIBRIA AND RATE PROCESSES. EMPHASIS ON THERMODYNAMICS FROM CLASSICAL AND STATISTICAL POINTS OF VIEW AND ON CHEMICAL REACTION MECHANISMS.

PREREQUISITE: ACCEPTANCE INTO THE GRADUATE CHEMISTRY PROGRAM, OR PERMISSION OF INSTRUCTOR.

HRS BY ARRANGEMENT  
STAFF

3 CREDITS

CHEM 702 CHEMICAL DYNAMICS II  
THREE OR FOUR SELECTED TOPICS OF INTEREST TO STUDENTS AND STAFF INVOLVED. TYPICAL SUBJECTS--MOLECULAR TRANSPORT PROCESSES AND THE KINETIC THEORY, PHOTOCHEMISTRY AND EXCITATION TRANSFER PROCESSES, SURFACE AND ELECTRODE RATE PROCESSES, PARTICLE COLLISION DYNAMICS AND REACTIVITY, IRREVERSIBLE THERMODYNAMICS, INTERACTION OF RADIATION AND MATTER, AND MOLECULAR STATE TRANSITIONS.

PREREQUISITE: ACCEPTANCE INTO THE GRADUATE CHEMISTRY PROGRAM, OR PERMISSION OF INSTRUCTOR.

HRS BY ARRANGEMENT  
STAFF

3 CREDITS

CHEM 711 CHEMICAL STRUCTURE I  
STRUCTURE DETERMINATION AND THEORY. THREE OR FOUR MOLECULES OF INTEREST TO THE STUDENTS AND FACULTY INVOLVED ARE CHOSEN. BASED

ON THESE MOLECULES, DISCUSSIONS, READINGS AND LABORATORY EXERCISES ATTEMPT TO SHOW HOW A CHEMIST DETERMINES EACH STRUCTURE AND HOW THE STRUCTURE IS UNDERSTOOD BY MODERN CHEMICAL THEORY.  
PREREQUISITE: ACCEPTANCE INTO THE GRADUATE CHEMISTRY PROGRAM, OR PERMISSION OF INSTRUCTOR.  
HRS BY ARRANGEMENT  
MR. LAUEER

3 CREDITS

CHEM 712 CHEMICAL STRUCTURE II  
IN TUTORIAL FORM, INDIVIDUAL STUDENTS STUDY ADVANCED STRUCTURE TOPICS WITH APPROPRIATE STAFF MEMBERS.  
PREREQUISITE: ACCEPTANCE INTO THE GRADUATE CHEMISTRY PROGRAM, OR PERMISSION OF INSTRUCTOR.  
HRS BY ARRANGEMENT  
STAFF

3 CREDITS

CHEM 721 CHEMICAL SYNTHESIS I  
THE TACTICS AND STRATEGY OF ACCOMPLISHING THE SYNTHESIS OF A CHEMICAL SUBSTANCE. EXAMPLES OF ORGANIC AND INORGANIC SYSTEMS.  
PREREQUISITE: ACCEPTANCE INTO THE GRADUATE CHEMISTRY PROGRAM, OR PERMISSION OF INSTRUCTOR.  
MR. WANG

3 CREDITS

CHEM 722 CHEMICAL SYNTHESIS II  
THE SYNTHESIS AND CHARACTERIZATION OF A NUMBER OF REPRESENTATIVE ORGANIC AND INORGANIC COMPOUNDS. THE GRADUATE CHEMISTRY PROGRAM, OR PERMISSION OF INSTRUCTOR.

## ENGLISH GRADUATE PROGRAM

The Master's of Arts Degree program in English is designed to serve three groups of students: Those who intend later to study for the Ph.D; those engaged in, or intending to pursue, careers in the Teaching of English at the secondary level or two year college level; and those who simply enjoy English and American Literature and wish to increase their understanding and enjoyment. Graduate enrollment is small. All graduate classes are offered during the late afternoon hours and are conducted as seminars, averaging from 6 to 10 students in each. The Degree candidate may also propose a semester's unit of independent study and/or writing which, if approved, may substitute for one required semester course. All graduate courses carry five credits.

## Degree Requirements

Requirements for the M.A. Degree in English include the satisfactory completion of six semester graduate level courses (30 credits). The graduate student may enroll in two advanced undergraduate courses in English or related fields at UNB and substitute these two courses for one of the six graduate courses required for the degree. A student wishing to transfer credits earned elsewhere may petition for evaluation of such credits. Up to six (6) transfer credits may be accepted. The degree candidate must earn at least a 3.0 (B) cumulative average in courses taken for graduate credit at UNB.

The graduate student must demonstrate a reading knowledge of one foreign language, ancient or modern. The reading knowledge may be demonstrated either by achieving a score of 575 or better on the ETC graduate school foreign language test (CSFET Administered from Princeton, N.J.) or by earning an A or B in an advanced undergraduate foreign literature course (400 level) at UMB in which works will be read in the original foreign language. The language requirement will also be fulfilled if the student has earned an A or B in such a course as an undergraduate at UMB, or (by petition) in a course at an equivalent level elsewhere. Students who plan a career limited to secondary school teaching, and who have no intention of later proceeding to the Ph.D., may petition for the waiver of the foreign language requirement. Waiver will also be granted to students whose command of an approved foreign language is so obvious as to make further examination of course requirement superfluous.

#### Admission to the Program

The committee will offer admission to the program to those applicants who present evidence of their ability to do graduate work with distinction. Such evidence will include: (1) a distinguished undergraduate transcript with, generally, at least an average of B or 3.0 in undergraduate English courses; (2) at least three encouraging and informed letters of recommendation from the applicant's undergraduate teachers (in English or related fields) or from others competent to comment on the applicant's academic qualifications; (3) a statement by the applicant (for 600 to 1200 words) of his major interests in the advanced student of English. While not required, the submission of graduate record examination aptitude scores (verbal and Mathematical) is highly recommended. For further information and for application forms, please write to the director of Graduate Studies in English, English Department, Univ. of Mass. Boston, Boston, Massachusetts 02125.

- ENGL 701 IMAGE IN AMERICA  
AN EXAMINATION OF THE WAY IN WHICH AMERICA HAS RESPONDED TO THE CONCEPT OF THE NEW WORLD AND THE IMAGE OF SELF AND NATION THAT HAS EVOLVED THROUGH THE 1860'S.  
STAFF 5 CREDITS
- ENGL 702 THE BLACK PRESENCE  
STUDY OF SELECTED LITERARY TEXTS OF THE LAST TWO-HUNDRED YEARS BY MAJOR AND MINOR AUTHORS WHO WROTE WITH A SPECIAL CONSCIOUSNESS OF THE SIGNIFICANCE OF BLACK PEOPLE IN AMERICAN SOCIETY.  
2 LECT HRS  
STAFF 5 CREDITS
- ENGL 703 REGIONAL LITERATURE  
THE SUBJECT OF THE COURSE IS THE REGIONAL CONSCIOUSNESS IN REPRESENTATIVE WORKS OF MODERN AMERICAN WRITERS OF THE SOUTH AND NEW ENGLAND. WE WILL EXPLORE THE ROLE THAT THE SENSE OF HISTORY (THE IMPINGEMENT OF THE PAST ON THE PRESENT), THE SENSE OF PLACE AND THE RESPONSE TO THE NATURAL WORLD PLAY IN THE WORK OF SOUTHERN AND NEW ENGLAND WRITERS.  
2 LECT HRS  
STAFF 5 CREDITS
- ENGL 704 HAWTHORNE AND JAMES  
A STUDY OF THE RELATIONSHIP BETWEEN THE FICTION OF HAWTHORNE AND JAMES, FOCUSING ON JAMES'S CRITICISM OF HAWTHORNE.  
2 LECT HRS  
MR. KATZ 5 CREDITS
- ENGL 705 CONTEMPORARY AMERICAN FICTION  
A STUDY OF THE SCOPE (TIMES AND TYPES) AND STRAINS (TYPES AND TENSIONS) IN THE POST WWII, POST MODERN AMERICAN NOVEL, WITH SPECIAL ATTENTION TO THE PERSISTENCE OF REALISM, THE INSISTENT PRESENCE OF SUICIDALISM, AND THE SOMETIME COMBINATION OF THE TWO.  
2 LECT HRS  
5 CREDITS
- ENGL 706 MODERN AMERICAN POETRY  
STUDIES IN THE POETRY AND SELECTED PROSE OF ROBERT FROST, E.A. ROBINSON, ROBERT LOWELL, AND ALAN Tate, WITH COMPLEMENTARY READINGS IN OTHER MODERN AMERICAN POETS  
2 LECT HRS  
MR. RYAN 5 CREDITS

- ENGL 707 COLONIAL AMERICAN LITERATURE  
STUDY OF LITERARY WORKS WRITTEN IN AMERICAN BEFORE THERE WAS A POLITICALLY INDEPENDENT AMERICAN NATION. NOT ONLY "REPRESENTATIVE" WORKS, BUT ALSO MAJOR TEXTS WITH A SIGNIFICANCE WHICH TRANSCENDS THE COLONIAL PERIOD.  
STAFF 5 CREDITS
- ENGL 720 CHAUCER  
A STUDY OF CHAUCER'S MAJOR WORK IN THE MIDDLE ENGLISH. SPECIAL ATTENTION TO SUCH CONSIDERATIONS AS CHAUCER'S POETIC DEVELOPMENT, HIS RELATIONS TO HIS SOURCES, MEDIEVAL LITERARY THEORY, AND THE SOCIAL, POLITICAL, AND RELIGIOUS BACKGROUNDS.  
2 LECT HRS  
MS. MCALPINE 5 CREDITS
- ENGL 721 ENGLISH LITERATURE, MEDIEVAL TO THE RENAISSANCE  
A SURVEY OF THE LITERATURE OF ENGLAND, EXCLUSIVE OF SHAKESPEAREAN DRAMA, FROM 1485 THROUGH 1625. SPECIAL ATTENTION WILL BE GIVEN TO HISTORICAL AND CULTURAL BACKGROUNDS, TO LINGUISTIC CHARACTERISTICS OF THE PERIOD, AND TO THE INTERRELATIONSHIPS BETWEEN THE COURSE HEADINGS AND SHAKESPEARE'S WORK.  
2 LECT HRS  
STAFF 5 CREDITS
- ENGL 722 TUDOR AND STUART DRAMA  
ELIZABETHAN AND JACOBÆAN DRAMA IS A REMARKABLY FERTILE AND REWARDING FIELD OF STUDY, EVEN WITHOUT SHAKESPEARE. READINGS OF ONE OR MORE PLAYS BY MARLOWE, DEKKER, JONSON, MARSTON, TOURNEUR, MIDDLETON, WEBSTER, CHAPMAN, BEAUMONT AND FLETCHER, AND FORD. THE APPROACH WILL BE SIMULTANEOUSLY LITERARY, THEATRICAL AND HISTORICAL.  
STAFF 5 CREDITS
- ENGL 731 ENGLISH LITERATURE, 1660-1750  
A STUDY OF THE WAYS MAN IS VIEWED BY THE MAJOR ENGLISH WRITERS FROM 1660-1750 AND AN EXAMINATION OF THE GENRES THROUGH WHICH THESE VIEWS WERE EXPRESSED. AUTHORS TO BE STUDIED INCLUDE DRYDEN, SWIFT, POPE, AND FIELDING.  
2 LECT HRS  
STAFF 5 CREDITS
- ENGL 732 ENGLISH LITERATURE, 1750-1830  
AN INQUIRY INTO THE NATURE AND CAUSE OF LITERARY CHANGE IN CULTURAL HISTORY IN ENGLISH LITERATURE FROM 1750-1830. AUTHORS TO BE STUDIED INCLUDE GIBSON, JOHNSON, GOLDSMITH, STERNE, BLAKE, CARLYLE, COLERIDGE, WORDSWORTH, BYRON, AND KEATS.  
2 LECT HRS  
STAFF 5 CREDITS
- ENGL 733 AUGUSTAN SATIRE  
STUDY OF THE MAJOR AUGUSTAN SATIRISTS - DRYDEN, SWIFT, AND POPE - WITH ATTENTION PAID TO THE WORKS OF ROCHESTER, ADDISON, GAY, AND FIELDING: CONSIDERATION OF THE CRITICAL QUESTIONS ARISING FROM THE STUDY OF SATIRE.  
2 LECT HRS  
MR. BLAIR 5 CREDITS
- ENGL 741 ROMANTIC LITERATURE  
THE SEMINAR WILL APPROACH THE UNITY OF ROMANTICISM THROUGH CONSIDERATION OF THREE IMPORTANT MODES OF BRITISH POETRY, FICTION AND CRITICISM IN THE PERIOD FROM C. 1790 TO C. 1830: THE VISIONARY (PRIMARILY BLAKE AND WORDSWORTH), THE PICTURESQUE (SCOTT AND BYRON), AND THE AESTHETIC (CHIFFLEY KEATS, WITH RELATED HEADINGS IN THE CRITICISM OF HAZLITT).

- ENGL 746 VICTORIAN LITERATURE AND AESTHETICISM AND SOCIALISM IN VICTORIAN LITERATURE. THE SUBJECT OF THE COURSE IS THE DEVELOPMENT OF TWO ISSUES IN THE WORK OF SOME MAJOR VICTORIAN WRITERS: THE MOVEMENT AWAY FROM THE CLASSICAL VIEW THAT ART IS NORMATIVE TO AN INCREASING ACCEPTANCE OF THE VIEW THAT ART IS AUTOFLECTIC; AND AN ACCOMPANYING MOVEMENT AWAY FROM A SPECIAL CONCERN WITH ART TO A CONCENTRATION ON SOCIAL REFORM.  
2 LECT HRS  
STAFF  
5 CREDITS
- ENGL 751 MODERN POETRY  
A STUDY OF THE MAJOR FIGURES AND CURRENTS IN MODERN BRITISH POETRY: HARDY, HOPKINS, ELIOT, AUDEN, LOWELL, GINSBERG.  
2 LECT HRS  
STAFF  
5 CREDITS
- ENGL 752 MODERN BRITISH FICTION - LAWRENCE AND WOOLF  
A COMPARATIVE STUDY OF THE MAJOR NOVELS OF D.H. LAWRENCE AND VIRGINIA WOOLF WITH PARTICULAR ATTENTION PAID TO THE TWO WRITERS'S CONCEPTION OF THE NATURE AND FUNCTION OF THE NOVEL AND TO THEIR RELATION TO THE LITERARY CONTEXTS OF THE PERIOD, 1914-1940.  
2 LECT HRS  
MR. LYONS  
5 CREDITS
- ENGL 761 STUDIES IN THE NOVEL  
A STUDY OF THE NATURE OF PROSE FICTION AND THE MAJOR KINDS OF NOVELS. A READING OF REPRESENTATIVE NOVELS IN ENGLISH AND AMERICAN LITERATURE. WITH THE PERMISSION OF THE DIRECTOR OF GRADUATE STUDIES IN ENGLISH, THIS COURSE MAY BE REPEATED FOR CREDIT.  
2 LECT HRS  
STAFF  
5 CREDITS
- ENGL 762 STUDIES IN DRAMA  
A STUDY OF ENGLISH AND AMERICAN DRAMA FROM AN AWARENESS OF ITS EUROPEAN CONTEXTS. PLAYS DISCUSSED WILL COME FROM THE MAJOR PERIODS OF WESTERN DRAMA AND WILL PROVIDE EXAMPLES OF THE MAJOR KINDS OF DRAMA.  
2 LECT HRS  
STAFF  
5 CREDITS
- ENGL 767 SHAKESPEARE  
SHAKESPEARE'S IDEA OF DRAMATIC ART AS REVEALED IN EXPLORATIONS OF ONE OF THE FOLLOWING TOPICS- THE PLAYS AND THEIR SOURCES, THEATRICAL SELF-CONSCIOUSNESS, SHAKESPEARE'S LANGUAGE OF THE THEATER. SEMINAR PAPERS WILL REQUIRE THE ACQUISITION OF FAMILIARITY WITH METHODS OF RESEARCH INTO THE SHAKESPEARE BIBLIOGRAPHY OF CRITICISM AND SCHOLARSHIP. BECAUSE THE SEMINAR PAPERS IN ADDITION WILL ATTEMPT TO DEFINE, SPECIAL ATTENTION WILL BE ACCORDED TO THE PROBLEMS OF FORMAL DEFINITION. THE SEMINAR WILL ASSUME THAT STUDENTS WILL HAVE HAD AT LEAST ONE COURSE IN SHAKESPEARE'S PLAYS, BUT STUDENTS WITH SPECIAL INTERESTS IN THE SEMINAR TOPICS ARE INVITED TO DISCUSS WITH THE INSTRUCTOR A WAIVER OF THIS ASSUMPTION.  
2 LECT HRS  
MR. BLUESTONE  
5 CREDITS
- ENGL 768 ARNOLD AND ELLIOT  
THE STUDY OF TWO IMPORTANT MEN OF LETTERS WHO BOTH REFLECTED AND CRITICIZED THE MAIN ARTISTIC AND INTELLECTUAL CURRENTS OF THEIR TIME. READINGS FROM THEIR POETRY, LITERARY CRITICISM, AND SOCIAL COMMENTARY AS WELL AS SELECTED WRITINGS CONTEMPORARY WITH EACH AUTHOR.  
5 CREDITS
- ENGL 771 FAULKNER  
A READING OF ALL THE MAJOR FICTION CENTERED IN YOKNAPATAWPHA COUNTY, WITH AN INTENSIVE STUDY OF CERTAIN TEXTS (SELECTED BY THE CLASS AFTER DISCUSSION AT THE FIRST MEETING). THE WORKS WILL NOT NECESSARILY BE READ IN CHRONOLOGICAL ORDER.  
STAFF  
5 CREDITS
- ENGL 776 STUDIES IN CRITICISM  
STUDY OF THE NATURE AND FUNCTION OF LITERATURE, THE TERMS AND METHODS OF ANALYSIS AND EVALUATION OF LITERATURE, AND THE VARIOUS APPROACHES POSSIBLE IN THE CRITICISM OF LITERATURE.  
2 LECT HRS  
MR. MARKS  
STAFF  
5 CREDITS
- ENGL 777 TEACHING OF LITERATURE  
THEORIES AND PRACTICE OF THE TEACHING OF LITERATURE, CONSIDERED IN THE CONTEXT OF CURRENT MODELS OF THE LIBERAL ARTS COLLEGE AND OF CURRENT ISSUES IN HUMANITIES CURRICULA.  
2 LECT HRS  
STAFF  
5 CREDITS
- ENGL 786 LITERATURE AND SOCIETY -19TH CENTURY ENGLAND-  
A STUDY OF LITERATURE WITH SPECIAL REFERENCE TO ITS SOCIAL AND HISTORICAL CIRCUMSTANCES AND OF THE THEORETICAL QUESTIONS RAISED BY SUCH A PERSPECTIVE. AUTHORS TO BE STUDIED INCLUDE AUDEN, COBBETT, GASKELL, DICKENS, ENGELS, CHARLOTTE BRONTE, AND LAWRENCE.  
2 LECT HRS  
MR. WEBB  
5 CREDITS
- ENGL 791 LITERATURE AND COMPOSITION  
THE COURSE WILL OFFER OPPORTUNITIES TO IDENTIFY AND DEFINE THOSE ACTS OF MIND INVOLVED IN COMPOSING AND TO CARRY OUT EXPERIMENTS DESIGNED TO REVEAL THE NATURE OF SYMBOLOGIC TRANSFORMATION AS THE FUNDAMENTAL OPERATION IN PERCEPTION AND CONCEPT FORMATION AS WELL AS IN THE CREATION OF WORKS OF IMAGINATIVE LITERATURE.  
2 LECT HRS  
STAFF  
5 CREDITS
- ENGL 792 INTRODUCTION TO LINGUISTICS  
THE COURSE WILL FIRST RAISE LARGE QUESTIONS BEHIND THE STUDY OF LINGUISTICS: WHAT IS THE RELATIONSHIP BETWEEN LANGUAGE AND THOUGHT? TO WHAT EXTENT DO WORDS CREATE REALITY? THEN, THE COURSE WILL SURVEY THE APPLICATION OF LINGUISTICS TO THE STUDY OF LITERATURE, THE ANALYSIS AND TEACHING OF SYNTAX AND GRAMMAR, AND THE FIELDS OF PSYCHOLOGY, SOCIOLOGY, AND BIOLOGY.  
STAFF  
5 CREDITS
- ENGL 800 INDEPENDENT STUDY  
A COMPREHENSIVE STUDY OF A PARTICULAR AREA OF LITERATURE, A PARTICULAR AUTHOR, ETC. CONSULTATION WITH THE DIRECTOR OF GRADUATE STUDIES IS MANDATORY. APPLICATIONS/OUTLINES OF STUDY MUST BE SUBMITTED AT THE END OF THE SEMESTER PREVIOUS TO THE STUDY. APPROVAL BY GRADUATE COMMITTEE.  
STAFF  
5 CREDITS

#### HISTORY GRADUATE PROGRAM

The program is of special interest to teachers of History and Social Studies, since it provides for the student who wishes to take courses not only in history but in other disciplines, and because our department is anxious to encourage better teaching of history in schools and colleges. We hope to enroll students who already have some teaching experience.

#### Requirements

In the present full-time program, 24 hours credit of graduate study including four upper level undergraduate courses taken for graduate credit, one colloquium and one research seminar are required. Two out of the four undergraduate courses may be taken, with the agreement of the committee for graduate studies in history, in disciplines other than history. Every student is expected to complete a 30 to 50 page research paper in the research seminar.

All students are required to demonstrate a reading knowledge of one foreign language by taking an examination administered by the department of History.

#### Courses

Apart from the graduate colloquium in the first semester, there are, at present, no special graduate courses offered, but students are encouraged to choose their faculty advisor early and to begin planning their graduate thesis in co-ordination with other courses.

The faculties of the two departments of History have more than thirty members; offering a wide range of specializations in American, European, African, Asian History as well as in Social, Economic, Political and Intellectual History.

#### MATHEMATICS GRADUATE PROGRAM

##### Academic Requirements

At least 18 semester credit hours in undergraduate Mathematics beyond the content of differential and integral calculus are normally required of each candidate entering the Master's Program. A one year course in Modern Algebra and a one year course in Advanced Calculus would be desirable.

To earn a Master's Degree in Mathematics, a student must:

1. Pass 10 courses, at least 6 of which must be in courses numbered 700 or above, and which must include the courses 711 (Modern Algebra I), 721 (Complex Variables I), 723 (Real Variables I), and 725 (General Topology) or their equivalent. No more than 3 of the 10 courses counted toward the Master's Degree may be taken outside the department, and they must be graduate courses and 2 must be math-related.
2. Pass the Master's Written Qualifying Exam. This exam consists of two parts each of which lasts two hours, one part covering algebra and topology, and the other, analysis. Knowledge of the material through the level of 711, 721, 723, and 725 should be sufficient to enable the student to pass the exam.

While the student ordinarily works out his program in consultation with his advisor, the ultimate responsibility rests with the student. A Master's candidate who has not completed the requirements for the Master's Degree at the end of his second year will not be permitted to enroll further in the department.

|      |     |                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |           |

| MATH | 725 | TOPOLOGY I                                   | FIRST SEMESTER OF A TWO SEMESTER COURSE. TOPICS TO BE SELECTED FROM TOPOLOGICAL SPACE, CLASSIFICATION, SEPARATION PROPERTIES, CARTESIAN PRODUCTS, MAPPING AND CONTINUITY, CONNECTEDNESS, GENERAL CONVERGENCE, COMPACTNESS, FUNCTION SPACES, INTRODUCTION TO HOMOLOGY THEORY, ALGEBRAIC TOPOLOGY.<br>3 LECT HRS<br>STAFF                                                                                                                                                                                                                        | 3 CREDITS |
| MATH | 726 | TOPOLOGY II                                  | SECOND SEMESTER OF A TWO SEMESTER COURSE. TOPICS TO BE SELECTED FROM TOPOLOGICAL SPACE, CLASSIFICATION, SEPARATION PROPERTIES, CARTESIAN PRODUCTS, MAPPING AND CONTINUITY, CONNECTEDNESS, GENERAL CONVERGENCE, COMPACTNESS, FUNCTION SPACES, INTRODUCTION TO HOMOLOGY THEORY, ALGEBRAIC TOPOLOGY.<br>PREREQUISITE: MATH 725 OR PERMISSION OF INSTRUCTOR<br>3 LECT HRS<br>STAFF                                                                                                                                                                 | 3 CREDITS |
| MATH | 727 | DIFFERENTIABLE MANIFOLDS I                   | FIRST SEMESTER OF A TWO SEMESTER COURSE. TOPICS TO BE SELECTED FROM DIFFERENTIABLE MANIFOLDS, TANGENT SPACES, TANGENT BUNDLES, FLOWS AND VECTOR FIELDS, LIE DERIVATIVES, DIFFERENTIAL FORMS, GENERALIZATIONS OF LIE AND SURFACE INTEGRALS, DIVERGENCE THEOREM & STOKES' THEOREM, RIEMANNIAN MANIFOLDS, RIEMANN SURFACES, RELATIONSHIPS TO VECTOR ANALYSIS AND TO DIFFERENTIAL GEOMETRY.<br>3 LECT HRS<br>STAFF                                                                                                                                 | 3 CREDITS |
| MATH | 728 | DIFFERENTIABLE MANIFOLDS II                  | SECOND SEMESTER OF A TWO SEMESTER COURSE. TOPICS TO BE SELECTED FROM DIFFERENTIABLE MANIFOLDS, TANGENT SPACES, TANGENT BUNDLES, FLOWS AND VECTOR FIELDS, LIE DERIVATIVES, DIFFERENTIAL FORMS, GENERALIZATIONS OF LIE AND SURFACE INTEGRALS, DIVERGENCE THEOREM & STOKES' THEOREM, RIEMANNIAN MANIFOLDS, RIEMANN SURFACES, RELATIONSHIPS TO VECTOR ANALYSIS AND TO DIFFERENTIAL GEOMETRY.<br>3 LECT HRS<br>STAFF                                                                                                                                | 3 CREDITS |

MATH 729 STOCHASTIC PROCESSES I  
 PROBABILITY SPACES, MEASURES, RANDOM VARIABLES, VARIOUS MODES OF  
 CONVERGENCE, LAWS OF LARGE NUMBERS AND OF THE ITERATED LOGARITHM,  
 CENTRAL LIMIT THEOREM, CONDITIONING, MARTINGALES.  
 3 LECT HRS 3 CREDITS  
 STAFF  
 --NOT OFFERED EVERY YEAR--

MATH 730 STOCHASTIC PROCESS II  
 PROCESSES WITH INDEPENDENT INCREMENTS, MARKOV CHAINS, STATIONARY  
 PROCESSES, CONTINUOUS PARAMETER MARKOV CHAINS, DIFFUSION PROCESSES,  
 SAMPLE PATHS, SEPARABILITY, SEMIGROUPS, BOUNDARIES  
 PREREQUISITE: MATH 729 OR PERMISSION OF INSTRUCTOR  
 3 LECT HRS 3 CREDITS  
 STAFF  
 --NOT OFFERED EVERY YEAR--

MATH 731 PARTIAL DIFFERENTIAL EQUATIONS I  
 HAMILTON-JACOBI THEORY FOR EQUATIONS OF FIRST ORDER, DISTRIBUTIONS,  
 FOURIER INTEGRALS OF DISTRIBUTIONS, SOBOLEV SPACES OF DISTRIBUTIONS.  
 3 LECT HRS 3 CREDITS  
 STAFF  
 --NOT OFFERED EVERY YEAR--

MATH 732 PARTIAL DIFFERENTIAL EQUATIONS II  
 ELLIPTIC EQUATIONS, HARDY'S INEQUALITY, SMOOTHNESS OF SOLUTIONS  
 SOLUTIONS OF THE DIRICHLET PROBLEM, HYPERBOLIC EQUATIONS, THE CAUCHY  
 PROBLEM,  
 PREREQUISITE: MATH 731 OR PERMISSION OF INSTRUCTOR  
 3 LECT HRS 3 CREDITS  
 STAFF  
 --NOT OFFERED EVERY YEAR--
